PILOTAGE: No permanent Pilot but one can be acquired on request.
ANCHORAGE: Very safe anchorage.
RADIO: Malin Head Station.
BERTHING: Large fishing fleet has to be accommodated.
MEDICAL: Necessary to send advance warning re illness or injury to a Crew member.
FRESH WATER: Available.
FUEL: Fuel oil available.
DEVELOPMENTS: Major harbour scheme has commenced – additional wharves, and piers.
IDENTIFICATION CARDS: Not needed.
SHORE LEAVE: Crew members allowed ashore.
AUTHORITY: Department of Fisheries and Forestry, Dublin.

LIMERICK: 52.40 N. 08.38 W. (See Plan Book)

DOCUMENTS:

2 Crew Lists.
2 Passenger Lists.
1 Custom's Manifest (Tobacco List).
Health Declaration.
Ship's Register (Tonnage Certificate).
Safety Equipment Certificate.
Safety Radio Certificate.
Load Line Certificate.
Receipt for last previous Trinity House Light Dues payment (if any).
Derat Certificate.

PILOTAGE: Compulsory from Scattery Island (52.35 N., 09.31 W.) to Limerick. Pilot may be taken off Kilcredane Head about 9 miles further West as an optional extra (usually by vessels over 5,000 d.w.t.). ETA for Pilots passed in advance by Agents. Masters may call Pilots (Scattery Pilot Station – Channel 16 VHF) or by normal International Code sight or sound signals. ETA to be sent 24 hours in advance and amended as necessary. Pilots watch only when vessels are expected inwards or outwards.
ANCHORAGE: Vessels normally wait tide to Limerick at Scattery Roads; Beighcastle Anchorage depth over 60 ft. (52.40 N. 08.57 W.) about 18 miles downstream off Limerick is nearest deep-water anchorage; now disused as lightening place for bulk grain cargoes. Larger vessels (over 10,000 d.w.t.) anchor 1.5 to 2.0 miles West of Scattery Lighthouse.
RESTRICTIONS: Entrance to Limerick Dock is limited to 2 hours preceding HW; for vessels over 3,000 d.w.t. (laden) daylight HW only.
MAX. SIZE: Dependent on tide. Up to 21 ft. draft on spring tides (neap tides about 16 ft.) Vessels of 500 × 65 ft. beam have berthed Limerick Dock on suitable draft.
HEALTH: If no infectious diseases on board, pratique granted by Customs Preventive Officer on arrival on presentation of Health Declaration of Master. Landing of dogs and cats from outside British Isles strictly forbidden.
RADIO: Irish Stations; Valentia Radio (link-calls available) or Malin Head Radio, or any U.K. Radio Station. Agents have special arrangements with Valentia Radio and Malin Head Radio, cables passed by direct telex to Agent's office.
VHF: Masters can call Scattery Pilot Station on Channel 16, or Limerick Harbour Radio – same, working on Channels 12 and 13.
TUGS: One 400 h.p. tug available. The Harbour Dredger is also fitted with a towhook and used as tug if necessary.
BERTHING: In Limerick Dock there are 10 berths of which only 1 (Shell berth) is reserved exclusively for tankers. Drafts on all berths approx. tidal gauge plus 2 ft. Extensive berthage on tidal quays now used by fertilizer vessels up to about 1,000 d.w.t. lying safe ground on mud berths.
TANKERS: Dernish Oil Jetty situated approximately 1 mile South of Shannon Airport. Jetty head 150 ft. long. Distance between head and stern buoys 430 ft. Depth alongside LW 26 ft. Jetty designed for vessels of up to 12,000 d.w.t. Aviation fuel pumped direct to airport.
STEVEDORES: Sole stevedores Limerick Cargo Handling Ltd. (as a result of rationalisation scheme). ETA per Agent before 1600 hrs. each day Monday to Thursday for labour next day. Master to state number of gangs/workable hatches. Crew open and close hatches. Normal work 0800/1700 hrs. but overtime can be worked 24 hours per day, Saturday and Sunday included. Requisition for labour for weekend work and 0800 hrs. Mondays by 1600 hrs. Friday.

Discharge rates: Bulk cargoes 1,000 tons per day.
D.B.B. 60 standards per day.
Packaged timber 150 stand. per gang day.
Bagged cargoes (palletised in hold) 400 tons per gang day.
Generals 130 tons per gang day.
All cargoes by crane discharge.

Grain consigned to Ranks is discharged directly to mill by floating grain elevator "Garryowen" in Wet Dock. Rate 150 t.p.h.
CONTAINER HANDLING FACILITIES: A 32-ton Gantry Container Crane at Limerick Docks.
MEDICAL: All medical facilities available short notice.
DENSITY: 1000 in Limerick Dock.
FRESH WATER: Available at all berths ex hydrant. Average rate 7.5 t.p.h.
FUEL: All grades available in reasonable quantities per road truck on 24 hours notice. (Non-bunker port prices).
WATCHMEN: Watchmen from crew, or if none available shore watchmen available.
HATCHES: Opening and closing of hatches, setting up derricks, shifting of hatches, beams, patent hatches, etc., all to be done by ship's crew with no assistance from shore gangs.
CONSULS: Belgium, Denmark, Finland, France, Germany (Fed. Rep.), Holland, Spain, Sweden.
CUSTOMS ALLOWANCES: (Tobacco per 8 days). Master 200 cigarettes; Officers 150 cigarettes; Crew 100 cigarettes. Wine/Spirits: quarter pint per man per day.
REPAIRS: Limited facilities. Dry dock available for vessels up to 40 ft. beam and not exceeding 15 ft. draft.
REPATRIATION: No difficulties. Shannon International Airport 15 miles. Daily flights world-wide destinations.
TIME: As U.K. GMT or GMT plus 1 hour (Summer Time).
HOLIDAYS: (For dock working), New Year's Day (1st January); St. Patrick's Day (17th March); Easter Monday; First Monday in June; First Monday in August; half-day 24th December, 25th December, 26th December (Christmas Day and St. Stephen's Day).
POLICE/AMBULANCE/FIRE: Dial 999 for all emergency services.
SHORE LEAVE: No restrictions.
AUTHORITY: Limerick Harbour Commissioners.
AGENT: Mullock & Sons Ltd., Ship's Agents and Chartering Brokers, Security House, 15 Lower Mallow Street, Limerick. Tel.: 061-45044; 061-45155. Cables: "Mullock Limerick" Telex: 6911.

NEW ROSS: 52.23 N. 06.56 W.

PORT LIMITS: Drumdowney Point to Kilmore Quay adjacent Barrow Bridge 52° 23′ N. 06° 56′ W. The vessel is considered to be an arrived ship at the time of first high water after arrival off Barrow Bridge.
DOCUMENTS:

2 Cargo Manifests.
1 Bill of Lading.
1 Crew List.
1 Ship's Store List.
1 Passenger List.
1 Clearance.
Register.
Light Dues Certificate.
Deratisation Certificate.

AIRPORTS: Dublin 110 miles. Cork 134 miles.
TIME: GMT plus 1 hour. Reverting to GMT in Winter months.
HOLIDAYS: New Year's Day; St. Patrick's Day (17th March); Easter Monday; June Bank Holiday; August Monday; Christmas Day (December 25, and 26). No work Christmas Days – December 25, and 26.
POLICE/AMBULANCE/FIRE: Police: Rosslare Harbour 33204; Ambulance: County Hospital, Wexford 22233; Fire: Fire Brigade, Wexford 22618.
TELEPHONES: No facilities for placing telephones on board.
SHORE LEAVE: Crew allowed ashore.
IDENTIFICATION CARDS: Seaman's Book sufficient.
DEVELOPMENTS: Proposed additional Ro/Ro berth.
GENERAL: Leading lights for berth are fixed red, visible over an arc of 90° from 079° to 169° surmounting yellow diamond shaped daymarks.

Lighthouse on pier end, height 50 ft. flashing W.R.G. every 5 seconds.

Vessels coming astern to berth should make due allowance for N.E. and S.W. cross currents off pier end.

AUTHORITY: Coras Iompair Eireann.

SHANNON ESTUARY: (See Plan Book)

(a) Foynes Harbour: 52.36 N. 09.06 W.
(b) Foynes Island: 52.37 N. 09.07 W.
(c) Tarbert Island Oil Terminal: 52.35 N. 09.21 W.

(a) FOYNES HARBOUR

DOCUMENTS: See "Limerick".
PILOTAGE: Compulsory from Scattery Island to Foynes Buoys. Pilot may be taken off Kilcredane Head about 9 miles farther West as an optional extra (usually by vessels over 5,000 d.w.t. ETA for Pilots passed in advance by Agent. Masters may call Pilots (Scattery Pilot Station, Channel 16 VHF) or by normal International Code sight or sound signals. Foynes Harbour Pilot boards at Foynes Buoys. Call Foynes Harbour Radio VHF Channel 16.
ANCHORAGE: Vessels waiting to enter Foynes normally anchor Foynes Roads (West of Foynes Buoys).
RESTRICTIONS: No restrictions by day or night on vessels under 4,000 d.w.t. Vessels over 4,000 tons, up to 500 ft. BP length, without limit on beam, and up to 30 ft. draft in daylight only on suitable tidal conditions. Large vessels in ballast normally enter on early flood tide and swing with tidal stream berthing port side to quays ready for departure after loading. Similar vessels loaded enter on last of flood. Alternatively berth starboard side to quay on early ebb and swing after unloading with reduced draft on departure.
MAX. SIZE: Vessels up to 500 ft. BP length and 30 ft. draft with no restriction on beam. Ore cargoes of up to 16,000 tons have been loaded and tankers up to 20,000 tons have discharged.
HEALTH: See "Limerick".
RADIO: See "Limerick".
VHF: As for Limerick except for "Limerick Harbour Radio" substitute "Foynes Harbour Radio".
TUG: None available.
BERTHING:

West Pier: 34 ft. LWOST neap tides. 350 ft. quay with mooring buoys ahead and astern. For tankers, crude ore (loading by conveyor system) and other cargoes. See "Stevedores".

East Pier: 32 ft. LWOST neap tides – 460 ft. quay with mooring buoys ahead and astern. Metal concentrates bulk (loading by conveyor system) and other cargoes. See "Stevedores".

Inner Berth, East Jetty: 20 ft. LWOST. Length 400 ft.

Three other berths where vessels up to 2,000 d.w.t. lie safe aground on soft mud during low water.

STEVEDORES: ETA per Agent before 1600 hrs. Monday/Thursday for labour next day 0800 hrs., before 1600 hrs. Friday for labour Saturday or 0800 hrs. Monday. For cargoes other than bulk ore or concentrates in bulk Masters should state number of gangs/workable hatches.

Crude Ore: West Pier Conveyor: 500 t.p.h. loaded normally on continuous basis, day and night, commencing on berthing (16,000 tons in 28 running hours).

Concentrates in bulk. East Pier Conveyor: 250/300 t.p.h. normally loading 12 hours per 24 hours (running hours). Other import/export cargoes by ship's gear or shore mobile cranes (max. 3 units available).

Packaged D.B.B.: 120 stds. per gang day (pre-slung).

Packaged D.B.B.: 70 stds. per gang day (shore slings).

Bulk Fertilizers: 750 tons per day (mobile grab crane).

Bag Fertilizers 400 tons per gang day (shore mobile cranes).

Bagged Barytes, bagged cement and other bagged commodity: 400 tons per gang day (ship's gear/mobile crane).

Storage facilities: 15 acres of open landing ground and 25,000 sq. ft. of covered storage.

Weighbridge: An electronic weighbridge with a capacity of 50 tonnes, and length of bridge is 50ft.

MEDICAL: Emergency facilities available at short notice locally. Full general hospital facilities at Limerick, 25 miles distant.

DENSITY: Variable on season and tidal conditions between 1008/1020.

FRESH WATER: Available at all berths. Quantities over 35 tons must be notified 24 hours in advance. 12p per ton.

FUEL: Available East Pier from adjacent installation.

WATCHMEN: Normally crew watchmen.

HATCHES: See "Limerick".

CUSTOMS ALLOWANCE: See "Limerick".

REPAIRS: Limerick facilities – no dry dock.

REPATRIATION: No difficulties – Shannon Airport 40 miles.

TIM : See "Limerick".

HOLIDAYS: See "Limerick".

POLICE/AMBULANCE/FIRE: Call local telephone operator and request service required.

SHORE LEAVE: No restrictions.

AUTHORITY: Foynes Harbour Trustees.

AGENT: Mullock & Sons, Ltd. Tel: 061-92115. Telex No. 6986.

(b) FOYNES ISLAND

LOCATION: Cement Limited Oil Jetty is located on N.W. side of island. Buoyed moorings for tankers up to 60,000 tons (length 950 ft.). Vessels lie alongside breasting dolphins off pipe trestle in 50 ft. min. LWOST.

DOCUMENTS: See "Limerick".

PILOTAGE: Compulsory from Scattery Island to Foynes Island (otherwise as Limerick).

ANCHORAGE: Vessels normally wait at Scattery Roads, West of Scattery or at anchor N.E. of Foynes Island Jetty waiting daylight early flood tide for berthing.

RESTRICTIONS: None for vessels up to 60,000 d.w.t. subject daylight movements berthing early flood tide and departures during flood tide.

Mooring lines required: at least 4×120 fathoms and 6×90 fathoms polypropylene or similar.

MAX. SIZE: A min. depth alongside 50 ft.

RADIO:
VHF: See "Limerick".
HEALTH:
TUGS:

MEDICAL: No facilities on island. See "Foynes" and "Limerick".

TANKERS: Flexible hoses 2×8 in. passed by derrick from pipe trestle to ship. Connections – PCD 11.75 in., 8 holes.

DENSITY: 1025 except in very exceptional conditions.

FRESH WATER: None available.

FUEL: None available.

CUSTOMS: See "Limerick".

REPAIRS: None except via Foynes or Limerick.

REPATRIATION: Via Foynes.

TIME: See "Limerick".

HOLIDAYS: As Limerick. Vessels normally discharge without regard to holidays.

TELEPHONES: Shore 'phone placed on board for ship's use with cargo hoses. Tel.: Foynes 55.

SHORE LEAVE: Restricted to daylight hours as launch service only then available. No access to mainland except by launch.

AUTHORITY: Limerick Harbour Commissioners.

AGENT: See "Limerick".

(c) TARBERT ISLAND OIL TERMINAL

LOCATION: Electricity Supply Board power station and Jetty located on N.W. shore of Tarbert Island (with road access from the mainland) 52.35 N. 09.21 W. Berth 48 ft. draft LWOST overall length including outer mooring dolphins 1,050 ft. with berthing face of 300 ft.

DOCUMENTS: See "Limerick".

PILOTAGE: Compulsory from Scattery Island to Tarbert (otherwise as Limerick).

ANCHORAGE: Vessels normally wait at Scattery Roads or West of Scattery for daylight flood tide for berthing.

RESTRICTIONS: None for vessels up to 70,000-80,000 d.w.t. on suitable draft, berthing daylight flood tide, departure on flood tide in daylight or darkness (subject good weather).

MAX. SIZE: The berth has 48 ft. alongside at low water.

RADIO:
VHF: See "Limerick".
HEALTH:

TUGS: Not required.

MEDICAL: No facilities. Nearest doctor at Glin, Co. Limerick (6 miles), See "Limerick".

TANKERS: 2, Marine Arms – 10 in. PCD 14.15/16 in. Outer diam. 16 in., inner diam. 11 in. Holes, 12 of 0.75 in. diam.

DENSITY: 1025, except in very exceptional conditions.

FRESH WATER: Limited supply on special request.

FUEL: None available. Jetty head approached from shore by footway (4.5 ft. wide×650 ft. long), therefore no direct access to berth from shore for road transport.

WATCHMEN: Watchmen from crew.

CUSTOMS ALLOWANCES: See "Limerick".

REPAIRS: None locally. Nearest Limerick 40 miles distant or Foynes, 7 miles distant. Difficulty of access should be noted.

REPATRIATION: Via Limerick.

TIME: See "Limerick".

SHORE LEAVE: No restrictions.

TELEPHONES: At jetty head. Tel.: Extension to Power Station telephone.

AUTHORITY: Limerick Harbour Commissioners.

AGENT: See "Limerick".

DEVELOPMENTS:

Aughimish Isle: (2 miles East of Foynes Island). Work has begun on a large alumina extractor plant by ALCAN. Ships up to 70,000 tons d.w.t. will use a jetty to be built North of island. (On stream 1982).

Money Point: A power station (coal burning) to take vessels up to 150,000 tons is to be constructed by the E.S.B. at Money Point opposite Tarbert (On stream 1985).

SLIGO: 54.16 N. 08.28 W.

DOCUMENTS:

Crew List.

Also various Pontoons, etc., for Livestock loading.
There are various other cranes – 10 ton mobiles, forklifts, travel-lifts up to 28 tons, etc., available.
BRIDGES: Times of passing through Redmond and Suir Bridge for National Board and Paper Mills Berth and for vessels proceeding upriver to Fiddown, to be arranged by Ship's Agent.

STEVEDORES: Agent arranges discharge upon receipt of ETA.
Grain discharge: 1,400 tons per day (180 t.p.h.).
Coal discharge: 400 tons per gang per day.
Sugar discharge: 800 tons per gang per shift of 8 hours.
Fertiliser discharge: 400 tons per gang per day.
Timber discharge: 30 standards per gang per day.
MEDICAL: Hospital and ambulance available. Arrangements made by ship's Agent.
TANKERS: Great Island Jetty, used by Electricity Supply Board. Max. design size 20,000 d.w.t. However approach channel of river and Duncannon Bar not yet dredged for this size.
DENSITY: 1008 at LWOST.
FRESH WATER: Available by hose 15 t.p.h.
FUEL: Supplies available by road tanker.
DEVELOPMENTS: Consideration being given to deepening the approach channel. The extension of the deep-water berths will have 25 ft. 8 in. alongside at LWST.
GANGWAY/DECK WATCHMEN: Day watchmen not necessary. Night watchmen at Master's wish.
OPENING/CLOSING HATCHES: Done by crew.
CERTIFICATES:
Register.
Freeboard Certificate.
Tonnage Certificate.
Deratisation Certificate.
Radio Certificate.
Life-saving Appliance Certificate, etc.
CUSTOMS ALLOWANCE: Tobacco: Master 8 oz. Officers 6 oz. Crew 4 oz. Wine and/or Spirit: 1 pint spirits.
CARGO GEAR: Not beyond ordinary Factory Act requirements.
IDENTIFICATION CARDS: Not needed.
CONSULS: Belgian/French – F. J. Cassin c/o M. Farrell & Son, Tel. 74978.

Danish/Finnish/Netherlands – Mr. M. Lardiner, c/o Kenny, Stephenson & Chapman, Newtown, Waterford, Tel. 75855.

Spanish – Mr. I. Farrell, c/o Nolan, Farrell & Goff, Newtown, Waterford, Tel. 32934.
REPAIRS: Minor repairs.
DRY DOCKS: No dry docks available.
REPATRIATION: Facilities exist.
AIRPORT: Dublin 100 miles, Cork 75 miles, Shannon 75 miles. Served by regular airlines.
TIME: GMT plus 1 hour. Reverting to GMT in Winter months.
HOLIDAYS: St. Patrick's Day; Easter Monday; August Bank Holiday; Christmas Day; Boxing Day.
POLICE/AMBULANCE/FIRE: Police 74888; Ambulance 3321; Brigade 75555.
TELEPHONES: None available for placing on board.
SHORE LEAVE: Allowed.
AUTHORITY: Waterford Harbour Commissioners.

NOTES

Please also advise Shipping Guides Ltd.

Israel

GENERAL: All vessels bound for the ports of Haifa, Ashdod and Ashkelon have to send a position report when they arrive at a distance of 50 miles from the Israeli coast. Such position reports shall be sent to "SVC IMOT" and shall contain the following information: (a) Date and time; (b) Ship's name; (c) Position; (d) Course; (e) Speed; (f) Destination.

ASHDOD (Inc. Ashkelon): 31.49 N. 34.39 E. (See Plan Book)

DOCUMENTS:

3 Crew Lists, and Crew Passports or Seamen's Books.

1 Provisions List.

1 List of Articles in possession each Crew member – cameras, binoculars, radios, cigarettes, tobacco, etc.

Master to declare firearms and rounds of ammunition.

4 Passenger Lists.

Stowage Plan and Manifest to be mailed in advance, preferable Master to cable 72 and 48 hours before arrival holds workable and gangs required also draft forward and aft on arrival.

PILOTAGE: ETA through Haifa Radio 4XO addressed to Agent at least 12 hours before arrival. Pilot station and boat equipped VHF Channel 14 and 16 contact station for instructions. Pilot boards about 0.5 mile off port entrance between W. to N.W. from breakwater head (green light).

In bad weather, when boarding impossible, vessel is guided into harbour by VHF or tugboat waiting at entrance, at Master's consent.

Pilot ladder as per Safety of Life at Sea. Vessel should head about 4 points into weather. Recommended 2 life-lines running along ladder, 1 each side, ropes 2.5–3 in. circ.

ANCHORAGE: All area open sea, no recommended safe anchorage, but vessel should avoid anchorage near fairway and too close to oil installation buoys.

Masters are advised to keep the decks well lit in view of the strong lights ashore which may cause the anchor lights to be seen with difficulty by approaching vessels.

Vessels moored to the breakwaters shall have their anchor lights burning.

RESTRICTIONS: Pilotage available 24 hours. Enter according arrival time or berths available. Vessels at anchorage awaiting berth keep watch Channels 14 and 16.

MAX. SIZE: Draft limitations at Bulk Pier: Summer, 11 m. Winter, 10.5 m. Draft limitations other piers: 9.8 m. No. limits length or breadth. Also see "Tankers".

HEALTH: Free pratique is requested via Haifa, address, "Quarantine Haifa".

RADIO: Haifa Radio 4XO, also see "Haifa".

TUGS: 1 of 1,500 h.p., 2 of 1,000 h.p. Each charge included in pilotage charge for normal berthing attendance. Tugs await at port entrance and act on Pilot's instructions. Vessel's lines are requested.

BERTHING: Container terminal in operation.

TANKERS: Terminal situated at Ashkelon where tankers load crude oil by under-water pipe-lines. Size of vessel is unlimited due to the depth of water. The loading rate is about 30,000 tons in 12 hours. All services such as supply of bunkers, provisions, water, crew changes, must be carried out at Ashdod roadstead where health and immigration officials board. Vessels not requiring any services at Ashdod may call directly at Ashkelon, only paying light dues and anchorage dues.

FRESH WATER: Fresh water supplied by taps at 220 t.p.h. or by barge. Minimum supply is 30 tons.

FUEL: Supplied by trucks, or supplied by special barges. 24 hours advance notice required.

CONSULS: All Consulates in Tel-Aviv approx. 40 km. Available by telephone.

REPAIRS: No dock, but minor repairs effected.

GANGWAY/DECK WATCHMEN: Private companies supply gangway watchmen, obtainable through Agent.

OPENING/CLOSING HATCHES: Performed by stevedores. Mechanical hatch covers operated by crew.

CUSTOMS ALLOWANCES: 200 cigarettes, 1 open bottle of spirits per person.

IDENTITY CARDS: Issued by port police on arrival.

TIME: Local standard time is 2 hours ahead of GMT.

AIRPORT: Lod, served by regular air lines, distance 35 km.

HOLIDAYS: Port business is suspended on the following holidays: Saturdays; The 2 days of the Jewish New Year (Rosh Hashana); The Day of Atonement (Yom Kippur); The first and the last day of the Feast of Tabernacles (Sucot); The first and the last day of Passover (Pesah); Pentecost (Shvuot); Independence Day. The first of May is observed by the port workers as Labour Holiday and therefore no work is done in the port on that day.

POLICE/AMBULANCE/FIRE: Police, Ambulance, Fire Services, telephone 22222.

REGULATIONS:

Stand by for moving vessels: The Master or person for the time being having charge of a vessel shall ensure that adequate officers and crew are available and that the main propelling machinery of the vessel is maintained for moving the vessel at 1 hour's notice.

No vessel may drop steam, dismantle engine or otherwise interfere with the propelling power of the vessel, nor may the vessel be left unattended by responsible officers and crew unless permission to do so is first obtained in writing from the Harbour Master.

Photographing: Photographing in the Port Area is strictly forbidden without a written permit issued by the Security Officer of the Port.

Swimming: Swimming in Ashdod Harbour is strictly forbidden and Masters should instruct their crews accordingly.

Use of ship's boats: The use of ship's boats is forbidden in Ashdod Port. Launch service is available for the convenience of ship's personnel.

Shore leave: Shore leave passes are obtainable at the Frontier Control Section of the Port Police Station. Applications for the passes shall be filed with the Boarding Officer, Port Police.

All breakwaters are out of bounds to crews of merchant vessels.

AUTHORITY: Israel Ports Authority.

EILAT (Elath): 29.32 N. 34.57 E. (See Plan Book)

DOCUMENTS:

For Customs:

Customs Questionnaire, Crew Customs Declaration, Stores List, Crew List, Passengers List, Foreign Currency List, Narcotics List, Arms List, Import Cargo Manifest, Transit Cargo Manifest.

For Quarantine:

Maritime Declaration of Health, Valid Vaccination Certificate for smallpox all crew and passengers, Deratisation Exemption Certificate.

For Border Control:

1 Police Questionnaire, 2 Crew Lists, 2 Passenger Lists, Seamen's Books and travelling documents of passengers.

PILOTAGE: Compulsory, ordered through Agent. When unable to contact Agent, Pilot can be ordered by contacting Harbour Master by Eilat Radio, or by VHF Channel 14. Vessel due to berth awaits opposite oil installations located approximately 2.5 cables South of the main jetty. Vessels requesting Pilot for anchoring stop opposite the North end of the main jetty. Tankers waiting Pilot for oil installations to stop 0.5 mile South of oil installations. Pilot motor launch, red hull, green superstructure amidships stationed at North end of main jetty. Pilot ladder complying with all safety regulations and properly lighted during dark hours is necessary. Vessels awaiting Pilot should anchor only in designated area.

ANCHORAGES: Boundaries of area marked by lines connecting following positions;

(A)	29° 32′ 51″ N.	34° 57′ 19″ E.
(B)	29° 32′ 26″ N.	34° 58′ 34″ E.
(C)	29° 31′ 40″ N.	34° 58′ 27″ E.
(D)	29° 32′ 31″ N.	34° 57′ 06″ E.

Average depth 25 fathoms. If arriving at port for first time, do not try anchoring anywhere outside anchoring area.

Anchorage positions will be alloted by Port Control – call sign "Yamit" on VHF Channel 14.

Anchorage Positions:

(1)	29° 32.62′ N.	34° 57.37′ E.
(2)	29° 32.49′ N.	34° 57.64′ E.
(3)	29° 32.37′ N.	34° 57.97′ E.
(4)	29° 32.25′ N.	34° 58.31′ E.
(5)	29° 32.37′ N.	34° 57.34′ E.
(6)	29° 32.17′ N.	34° 57.70′ E.
(7)	29° 32.06′ N.	34° 58.04′ E.
(8)	29° 31.96′ N.	34° 58.37′ E.
(9)	29° 32.22′ N.	34° 57.02′ E.
(10)	29° 32.02′ N.	34° 57.29′ E.
(11)	29° 31.82′ N.	34° 57.65′ E.
(12)	29° 31.69′ N.	34° 58.06′ E.

MAX. SIZE: For berthing alongside main cargo jetty, length 528 m., max. draft up to 39 ft.

Additional cargo jetty length 170 m., max. draft up to 19 ft.

North Oil Jetty accommodates tankers up to 125,000 d.w.t. with draft of 56 ft.

South Oil Jetty can accommodate tankers up to 500,000 d.w.t. Depth of water alongside 94 ft.

HEALTH: Free pratique may be requested by cable via Haifa or via Eilat Radio from Quarantine Authorities. If suspected disease or fever on board immediately advise Quarantine Eilat with all details.

RADIO: Call sign Eilat Radio 4XA. Full details working hours and frequencies found in Admiralty List Radio Signals and similar publications. Good radio connection with Eilat can be obtained also via Haifa Radio, call sign 4XO, operating continuously.

TUGS: Tugs meet vessel off quay. Lines not usually used as tugs usually push. When needed, ship's lines used. 1 tug 2,750 h.p., 1 tug 960 h.p., 1 fire-fighting tug 280 h.p. and 5 tugs 100–180 h.p.

BERTHING: No difficulty except at times of strong Southerly winds when small vessels may have to leave quay and proceed to anchorage or sea, due to strong swell.

Additional cargo quay 662 ft. in length with max. draft alongside of 22 ft. completed and brought into operation.

BULK HANDLING FACILITIES: Bulk elevator for bulk loading (Phosphate & Potash) capacity 800 m. t.p.h.

Storage Area:

Sheds – 17,000 sq. m.

Open storage – 30,000 sq. m.

Cold storage warehouse – 500 tons.

Bulk potash shed – 40,000 tons (6,000 sq. m.)

Phosphate bulk shed – 35,000 tons (3,300 sq. m.)

CRANES: 5 heavy cranes, 25 tons capacity. 2 cranes, 5-10 tons capacity. 1 crane, 15 ton capacity. 1 crane 60–80 tons capacity.

Port is fully equipped for container handling. Container traffic exceeds 12,000 units per year.

STEVEDORES: Booked by ship's Agent. All details of cargo distribution and storage to be cabled in advance to Agent.

Port working hours:

Summer: (May 16th – October 15th)
Sunday – Thursday 0530–1330 and 1600–2300 hrs.
Friday 0530–1230 and 1400–2000 hrs.
Winter: (October 16th – May 15th)
Sunday – Thursday 0600–1400 and 1530–2230 hrs.
Friday 0630–1300 and 1400–2000 hrs.

MEDICAL: Hospital facilities available. Crew members or passengers must have valid international certificate for smallpox.

DENSITY: 1030.

FRESH WATER: Available in unlimited quantities and supplied at all jetties. No facilities for supplying fresh water at anchorage.

FUEL: All grades supplied in any quantity by barge.

OPENING/CLOSING HATCHES: Normally by stevedores.

CUSTOMS ALLOWANCES: Every Crew member is permitted to keep 200 cigarettes or equivalent amount of other tobacco, out of bond. Every crew member is permitted to keep 1 bottle of spirits and 1 bottle of wine, out of bond.

IDENTIFICATION CARDS: Every crew member going ashore should have a shore leave pass. Shore leave passes will be received from the border control officer after the vessel is cleared.

CONSULS: There are no consulates in Eilat. All consulates are in Jerusalem or in Tel-Aviv.

REPAIRS: All afloat deck and engine repairs can be performed by local workshops.

DRY DOCKS: Syncrolift with lifting capacity of 1,200 tons.

REPATRIATION: There are all facilities for arranging repatriations or crew changes.

AIRPORT: Eilat Airport is used at present for internal traffic only. There are 8 flights daily from Eilat to Tel-Aviv except on Saturdays. From Tel-Aviv there is good transportation to Lod International Airport.

TIME: Local time is GMT plus 2 hours; no Summer time is kept.

HOLIDAYS: No cargo work is usually performed during official holidays or Saturdays. The official holidays are: Passover (2 days during April); Independence Day (1 day end April/beginning May); First Harvest Day (1 day end May/beginning June); Jewish New Year (2 days, September); Day of Atonement (1 day end September); Feast of Tabernacles (2 days, October). No cargo work is usually performed during 1st of May although it is not an official holiday.

TELEPHONES: At present there are no facilities to arrange telephones on board ships.

SHORE LEAVE: Crew members are granted shore leave.

DELAYS: Normally vessels arriving after midnight are berthed only at daybreak, before the beginning of the morning shift.

AUTHORITY: Israel Port Authorities.

HAIFA: 32.49 N. 35.00 E.

DOCUMENTS:

1 Photograph of each member of the crew.
3 Crew Lists, and Crew Passports or Seamen's Books.
1 Provisions List.
1 List of Articles in possession each Crew member – cameras, binoculars, radios, cigarettes, tobacco, etc.

Master to declare firearms and rounds of ammunition.

4 Passenger Lists.

Stowage Plan and Manifest to be mailed in advance, preferable Master to cable 78 hours before arrival holds workable and gangs required, also draft forward and aft on arrival.

PILOTAGE: Compulsory for all merchant and foreign naval vessels. Pilotage service is rendered round the clock. Vessels are boarded by Pilot seaward of the main breakwater.

ANCHORAGE: Vessels shall not anchor within the prohibited areas and must keep clear of the fairways of the main harbour and Kishon Zone.

MAX. SIZE: The width of the entrance channel to the main port, between the main and lee breakwaters, is 183 m. The depth of the entrance is 12 m. The width of the entrance to the Kishon Harbour is 70 m., with a min depth of 8.50 m. Vessels of max. draft 35 ft. can be safely accommodated in the main port: in the Kishon Harbour accommodation is limited to vessels of 27 ft. draft. Depth in both harbours are maintained by dredging at regular intervals.

Tankers: Up to 50 ft. draft at buoy moorings.

RADIO: Radio-telephone service from ship-to-shore and vice versa via Haifa Radio, call sign 4XO. Ships in port may also be connected to the Israeli telephone system.

The port has a signal station equipped with a modern 60 kw VHF installation, working on Channels 12, 14 and 16. The station is licensed for port operation only and is in continuous service. For all other ship-to-shore communication contact Haifa Radio, call sign 4XO.

The Israeli Meteorological Service broadcasts twice daily the weather forecast in English for East Mediterranean area over Haifa Radio.

Vessels approaching the coast of Israel shall report their position to the Israeli Authorities in accordance with the following procedure:

(a) Every foreign vessel bound for the ports of Haifa, Ashdod or Ashkelon shall send a position report to the Israeli Ministry of Transport (IMOT) via Haifa Radio (4XO). Such position report should be sent in the form of a free of charge service cable when the vessel arrives at a distance of 50 miles from the coast and it shall contain vessel's name, position, course, speed and destination.

(b) In addition to the report, in *(a)* above and according to the ports' regulations, every vessel (foreign or Israeli) entering the Israeli territorial waters shall send a position report which shall contain vessel's name, position, course, speed and destination and which shall be sent at the time the vessel enters territorial waters (12 miles) to:

(1) The nearest Port Operation Services, by means of VHF; or

(2) The IMOT via Haifa Radio (free of charge service cable) in cases where VHF communication with the nearest port cannot be established.

HEALTH: Free pratique by radio is granted on request by the International Quarantine Message to the Quarantine Station round the clock (including holidays) via Haifa Radio, call sign 4XO on 500 kc/s.

Medical advice by radio for all ships may be obtained through Haifa Radio 4XO free of charge. Call "Medico Haifa".

There is no special quarantine anchorage.

Vaccination against smallpox is required from arrivals, except those who were resident in a European country, in Canada or in the U.S.A. for more than 14 days before disembarkation in Israel, provided those countries are free from smallpox.

TUGS: Vessels obtain tug assistance, if required, for entering or leaving the harbour and for shifting. 2 tugs of 1,500 h.p. and 1 of 1,000 h.p.

BERTHING: Ships moor normally to wharves and jetties, and to a lesser extent stern to the main breakwater and alongside dolphins.

Main Harbour

The main harbour is situated on the Southern shore of Haifa Bay at Lat. 32° 48′ N., Long. 35° 01′ E. It is protected by 2 breakwaters: the main breakwater, 2,210 m. long, in the North, and the lee breakwater, 745 m. long, in the East.

The harbour basin covers an area of 1,038,000 sq.m. (about 255 acres). The main port's land area amounts to 642,000 sq.m. (about 158 acres).

Kishon Auxiliary Harbour

To the East of the main port, around the lower reaches of the Kishon rivulet, lies the Kishon Auxiliary Harbour. It consists of an outer harbour basin that is protected by 2 breakwaters of 600 m. and 350 m. length respectively, and a main channel of 1,045 m. length, of which the first stretch of 700 m., measured from the entrance to the outer harbour basin, has a depth of 8 m. while the second stretch of 345 m. has a depth of 6.50 m. A side channel, 213 m. long and 4 m. deep, which branches off the main channel toward the East, serves as a fishing dock. Another side channel 350 m. long and 8 m. deep serves as holding basin of the shipyard and the Chemicals Terminal.

Wharves

Main Port	*Length metres*	*Depth metres*
Main Wharf	171	9.4
	400	9.4
	270	11.5
	40	11.5
	40	11.5
	170	9.0
	48	9.0
Cargo Jetty	205	9.0
	85	9.0

West Lighter Wharf	220	3.0
Kishon Zone		
Cargo Wharf	100	6.5
	540	8.0
Fishing Dock	213	4.0
Chemicals Wharf	325	8.5

BULK HANDLING FACILITIES: *Coal:* Coal imports are usually handled by grabs fixed to shore cranes.

Grain: 2 mobile elevators on main wharf with combined unloading capacity of 465 t.p.h. A third elevator has a nominal capacity of 600 t.p.h. and is operating at 300 t.p.h. in the 1st Phase.

Chemicals: Chemicals in liquid bulk unloaded and loaded at chemical tank farm in Kishon Zone. Terminal jetty suitable for tankers up to 20,000 d.w.t. with draft 22 ft. 6 in. Storage capacity 45,000 cu.m.

Containers: Presently containers are discharged and loaded in the Western area of the port and Kishon Harbour, having all facilities to handle 20 ft. and 40 ft. containers. A container terminal is in the process of being established in the Eastern part annexed to the Oil Dock Breakwater. All container handling equipment available.

CRANES:

	No.	Capacity (Tons)	Radius (m.)
Floating Derrick	1	100	
Portal Cranes	2	3	20
	2	3	25
	12	5	25
	3	15	30
	6	25	30
Mobile Cranes	4	5–6.5	
	9	8–13	
	3	25	
	2	28–30	
	2	50	

CONTAINER HANDLING EQUIPMENT:

	No.	Capacity under spreader (tons) (20′-40′ containers)	Reach from quay (m.)	Height of lift (m.)
Container Quay	1	35	32	22
Gantry Cranes	1	35	32	26.5

	No.	Capacity (tons)
Rubber-tyred	2	30.5
Portal Cranes	3	40

TANKERS: Up to 4 oil tankers can be accommodated at one time at the Oil Jetty, 2 on each side (draft 28 ft.–33 ft.).

In the Roadstead.

There are 3 submarine oil loading and unloading berths, each connected to a submerged pipe-line, 2 to 12 in. dia. pipe-lines and 1 to a 32 in. dia. pipe-line.

Berth No.	Situation in relation to harb. entrance	Diameter	Extension from shore	Direction	Depth under water
1	1.75 m. N.E.	12 in.	4,200 ft.	307°	52 ft.
2	1.25 m. N.E.	12 in.	4,500 ft.	290°	52 ft.
3	0.50 m. N.E.	32 in.	10,000 ft.	319°	58 ft.

The signal station ashore opposite berth No. 3 has 2 signal masts. Vessels moor with their own 2 anchors ahead and mooring lines to 2 buoys astern. The Oil Company's Mooring Master supervises the connecting and loading or discharging, remaining aboard until sailing time.

Throughput Rates

Vessels load or unload up to 1,000 t.p.h. through 10 in./12 in. pipe-lines on the Oil Jetty and up to 700 t.p.h. at the 12 in. pipe-line submarine berths. The 32 in. pipe-line berth is destined for loading or unloading supertankers at the rate of up to 2,000 t.p.h.

MEDICAL: Hospital facilities available. Agent will board vessel with company doctor if so required by the Master.

FRESH WATER: Drinking water is plentiful and of satisfactory quality; no treatment is needed as water is frequently examined and chlorinated when required. The water is supplied by hydrants from shore or by water-barge at a delivery rate of 30–50 t.p.h. Boiler water not available.

FUEL: The following grades of oil are available for supply as bunkers:

Heavy Fuel Oil	1,500 secs. Red. 1 at 100° F.
Light Fuel Oil	450 secs. Red. 1 at 100° F.
Marine Diesel Oil	Standard Grade

The oil is supplied direct from Oil Dock or from barges. Bunkers are normally supplied between 0700 and 1515 hrs. on working days; at any other time by special arrangement. Delivery rate from Oil Dock is up to 500 t.p.h. (3,500 bbls.) and from barges up to 150 t.p.h. (1,000 bbls.)

REPAIRS: Israel Shipyards Ltd. run a modern shipyard, situated in the Kishon Zone, capable of building ships of up to 25,000 d.w.t. and to handle hull repairs, conversions, engine repairs and repairs of electric equipment.

The yard operates 2 floating docks with a lifting capacity of 7,500 and 1,100 tons respectively.

Vessels which need no dry docking can be repaired at the shipyard's quay, totalling 400 m. length with 7–8 m. depth. Ogen Ltd. also undertake ship repairs.

Floating Dock with lifting capacity of 20,000 tons near completion.

STEVEDORES: Enable Agent order gangs, important obtain 48 hours advance accurate ETA from vessel. Failure give precise ETA may result in ship losing 12/24 hours, also cost gang waiting time. No work on official holidays.

Working Hours

Work is usually carried on in 2 shifts: the first shift is from 0630 to 1430 hrs., on ordinary working days, or from 0630 to 1330 hrs. on the eve of Saturdays and holidays. The second shift is from 1530 to 2230 hrs. on ordinary working days and from 1330 to 2030 hrs. on the eve of Saturdays and holidays. Occasionally, in order to complete work on a ship or for special cargoes, a third shift is worked.

GANGWAY/DECK WATCHMEN: Not compulsory. Port guard keeps gangway watch.

OPENING/CLOSING HATCHES: Performed by Stevedores. Mechanical hatch covers operated by crew.

CUSTOMS ALLOWANCES: 200 cigarettes, and 1 open bottle of spirits per person.

IDENTITY CARDS: Issued by port police on arrival.

TIME: Local standard time is 2 hours ahead of G.M.T.

AIRPORT: International air connection from Lod Airport, 105 km. from Haifa.

HOLIDAYS: Port business is suspended on the following holidays: Saturdays; the 2 days of the Jewish New Year (Rosh Hashana); the Day of Atonement (Yom Kippur); the first and the last day of the Feast of Tabernacles (Succot); the first and the last day of Passover (Pesach); Pentecost (Shevuot); Independence Day. The first of May is observed by the port workers as Labour Holiday and therefore no work is done in the port on that day.

GENERAL:

Persons Boarding Vessels

No person shall be allowed on board any vessel unless he is in possession of a boarding pass which must be shown on demand to the police officer at the gangway.

Passes for boarding cargo vessels on business are issued by the Port Management; passes for boarding cargo vessels for any other purpose and passes for boarding passenger vessels are issued by the Frontier Control Section of the Port Police.

Swimming

Swimming in Haifa Harbour is strictly forbidden and Masters should instruct their crews accordingly.

Use of Ship's Boats

The use of ship's boats is forbidden in Haifa Port. A public motor-launch service is available for the convenience of ship's personnel. The signal to call the motor-launch is as follows:

By day: The international Code of Signals Flag "N" hoisted at the yard.

By night: Repeated flashing light signalling of the International Morse Signal "N".

Photographing

Photographing in the port area is strictly forbidden without a written permit issued by the Commander of the Port Guard.

SHORE LEAVE: Shore leave passes are obtainable at the Frontier Control Section of the Port Police Station. Applications for the passes shall be filed with the Boarding Officer, Port Police. All shore leave passes must be surrendered to the Boarding Officer before departure of the vessel.

DEVELOPMENTS: *Developments in progress:* Two projects, running concurrently, form the first stage of the development. One of the projects refers to the construction of a new Container Terminal within a specially designed containerships basin outside the existing breakwaters. The second project deals with the deepening and extension of the Kishon basin.

The Container Terminal will consist of 800 m. of quay front, with water depth reaching 14 m. below M.S.L. and a land area covering over 30 hectares.

The Kishon basin development provides for the construction of a 600 m. extension to the existing quay, which itself will be reconstructed and deepened. The extension, with the water depth reaching 11 m. below M.S.L., will provide specialized berths for handling scrap iron, logs and unitized timber.

The Kishon basin extension will make it possible to proceed with the development of the Industrial Port and Free Zones within the Kishon area of Haifa Port, where an inland Auxiliary Distribution Centre, covering an area of some 20 hectares is under construction.

Both the Container Terminal and the Kishon Basin projects are in advanced stages of detailed planning and their completion is expected toward the end of 1978.

AUTHORITY: Israel Ports Authority.

NOTES

Please also advise Shipping Guides Ltd.

Italy

ANCONA: 43.37 N. 13.32 E. (See Plan Book)

PORT LIMITS: A vessel is considered to have "arrived" when she anchors in the roads 1 mile from the red light located at the end of Foraneo breakwater and also when, in the case of a vessel of large tonnage she anchors a further mile out and communicates her time of arrival.

DOCUMENTS: Immediately after arrival and shortly prior to departure, the Master must complete the arrival and departure forms supplied and send them to the Maritime Authority.

When the Pilot is on board, the Master must submit to the other authorities Customs, Police and Health the following further documents:

4 Copies Crew List
1 Copy Provisions List
1 Copy B/L for every set
1 General Cargo Manifest
3 Copies of Crew Dutiable Articles
5 Copies Passenger List (in transit or otherwise).

PILOTAGE: The Ancona port Pilots listen 24 hours a day on VHF Channel 12. Telegraphic address: Piloti – Ancona. Telephone: 071/23964. Pilotage, compulsory for all tankers and all vessels over 500 g.r.t. Pilotage starts within a radius of 1 mile from the port entrance.

There are 3 pilot cutters operated by the Pilots' Association. Vessels waiting for a Pilot must hoist the "G" flag of the International Code of Signals and await him in the roads.

The pilots' station is in a building located near the angle between Berths 1 and 2. There are 4 Pilots available.

BERTHING: See table below.

ANCHORAGE: In the roads at the Master's discretion. The advice of the Pilots may be sought via VHF. Anchorage in the roads is safe with winds coming from the 2nd and 3rd quadrants.

RESTRICTIONS: Vessels may enter and leave port day or night. The entry and departure of vessels of large tonnage and draft is governed by the tide which has an approximate range of 2 ft.

Normally, tankers carrying petrol or vessels carrying hazardous goods in category "A" are not allowed to enter port.

MAX. SIZE: In the port of Ancona, the entry of vessels up to 250 m. length is permitted. At the oil installations located outside the port, tankers over 300,000 d.w.t. can berth in water depth 33 m. At the oil installations located closer to the coast, tankers of 27 ft. to 40 ft. draft can berth. (See "Tankers".)

HEALTH: There is a maritime health station in the port. Free pratique may be granted to an anchored vessel by radio (by calling up "Sanimare Ancona" 12 to 6 hours prior to arrival) for vessels coming from countries not affected by health strictures. If fever is suspected aboard a vessel, she must anchor in the roads. hoisting the appropriate International Code of Signals flag, and waiting for the port doctor to come on board.

RADIO: Ancona Radio "ICA" uses calling frequency 500 kc/s and a working frequency of 489 kc/s. Radio telephone: Ancona Radio P.T. "ICA" on 2182 kc/s. VHF: calling up Channel 16 and working Channels 25, 26 and 27. Station maintains 24 hours watch.

RADAR: There is no radar station in the port.

VHF: Port Authority on VHF Channel 16 from 0800–2200 hrs.

TUGS: Use of tugs in port is not compulsory but may be requested by Pilot or ordered by the Port Authority if necessary. From 0700 to 1700 hrs., there are always 3 tugs available, and from 1700 hrs. there is 1 tug available.

Requests for additional tugs can be made via the ship's Agent a

few hours prior to the vessel's entry in port, this order to be made to Sadar S.p.A. Telegraphic address: Sadar S.p.A. Telephone: 071/24041. Tugs wait for vessel 1 mile from the port entrance and work on VHF Channel 12.

SPECIAL CARGO HANDLING FACILITIES: Berth No. 15 has a multi-purpose electro-hydraulic crane particularly suited for containers up to 40 ft. and for lifting conventional cargo up to 42 tons. The quay space behind is currently used as a container terminal.

By 1980, a new handling area at Berths Nos. 23, 24 and 25 will come into operation with an area of 15 hectares and whose berths will have cranes particularly suited to container handling.

Adjacent to the port, in the Ancona Port Industrial Zone there is a private area with Customs sheds for retention and movement of containers. This area covers 16,000 sq.m.

For ro–ro traffic there is no special equipment, but this type of traffic can be handled at almost all the berths.

BRIDGES: None have to be negotiated when entering the port.

STEVEDORES: The Compagnia Lavoratori Portuali operates in the port. Telephone: 071/22629. Telegraphic address: Compagnia Lavoratori Portuali Ancona. Requests for labour are made via the ship's Agent at least 24 hours prior to commencement of operations.

MEDICAL: There is an Italian Naval hospital in the port area close to Berth No. 10. It is reserved for personnel of the Italian Navy. Telephone number (M.M. exchange) 201392. There is a permanent service available.

Apart from this, there are in the town a main hospital "Umberto 1°" with 1,000 beds, a 400-bed pediatric hospital, a cardio-rheumatological hospital, 2 geriatric hospitals, a neuropsychiatric provincial hospital, and a hospital specialising in tumours. There are also two private clinics with medical and surgical facilities.

TANKERS: *API Jetty:* 4 berths for tankers up to 18,000 g.r.t. Depth alongside: 9.0 m. Products handled: petrol, paraffin, pure naphtha, black oil. Ballast water accepted. Each berth has 8×6 in. lines pumping rate – 500 cu.m.p.h.

API Inner Buoy Mooring: Mooring buoy for tankers up to 50,000 d.w.t. Depth of water: 12 m. Products handled: Crude oil and refined products. 3 loading and discharging hoses capacity 800/900 cu.m.p.h. for each hose.

SFIR Mooring: Mooring dolphins for tankers up to 10,000 g.r.t. Products handled: Refined products. Bunkering is carried out at this buoy. 3 pumps available, 1×360 cu.m.p.h., 1×200 cu.m.p.h. and 1×150 cu.m.p.h.

API Sea Terminal

The API sea terminal consisting of a single steel platform mooring for vessels over 300,000 d.w.t. and is located off Ancona harbour in position:

Latitude: 43° 44′ 37″ North
Longitude: 13° 31′ 15″ East

It has a minimum depth of water of 98 ft. at LWS. The platform, fixed on 6 steel piles sunk into the sea bottom is connected to the shore tanks by an underwater sea line 40 in. diameter.

On the platform there is a cardan joint from which 2 floating hoses 24 in. diameter depart and converge into a single line 24 in. diameter (average discharging rate 7,000 c.m.p.h.) at the top of which are connected 2 lines of 16 in. diameter that end with special floating hoses (Tanker MS-GI) for connection to the ship.

Each tail hose is fitted with a quick closing valve to prevent risk of pollution.

The platform has a diameter of 82 ft. and is fitted with special rubber fenders.

Platform Light:

Light: White – Code Letter: "U" – Height a.s.l.: 39 ft. Period: 15 sec.

Light Characteristics:

1) Light:	0.5 sec.	4) Eclipse:	1 sec.
2) Eclipse:	1 sec.	5) Light:	2 sec.
3) Light:	0.5 sec.	6) Eclipse:	10 sec.

Range: 6 miles

Foghorn: Code Letter "U" – Range: 3 miles.

Characteristics:

1) Blast:	1 sec.	4) Silence:	2 sec.
2) Silence:	2 sec.	5) Blast:	2 sec.
3) Blast:	1 sec.	6) Silence:	22 sec

The platform is equipped with radar reflector.

Weather and Currents:

Weather is generally good from May to the end of September. During the Winter time bad weather prevails from N.E.

The N.E. wind commonly named "Bora" is the strongest and the most frequent. The Easterly sea, which does not occur often, is generally strong. The Westerly winds generally cause fog or mists which, particularly in Winter, is very thick.

For approximately 8 to 9 months of the year the current sets in a S.E. direction whilst for the rest of the year, it is running in opposite direction.

The strength of the S.E. current is variable from 2 to 6 knots, therefore, in consideration of these facts neither engine repairs nor engine maintenance are permitted during the time the vessel is secured to the API platform and the main engine must be on permanent standby and ready for manoeuvring.

Radio/VHF:

Vessels bound for Falconara must send their ETA to Petroapi – Falconara 72, 48 and 24 hours before their arrival.

In the last message the following information must be reported:

1) Maximum lifting capacity (s.w.l.) of derricks
2) Distance between bow and manifolds.
3) Diameter and type of manifolds flanges.
4) Whether the cargo tanks are equipped with inert gas system.

5/6 hours before arrival VHF contact can be established with the refinery maritime office on Channel 12.

Anchoring:

Vessels waiting for berth may anchor in a position approximately 1.5 miles Eastward off the platform. Ideal position for anchorage is:

Latitude: 43° 45′ 00″ North
Longitude: 13° 33′ 00″ East.

or as otherwise instructed. Vessels are warned to anchor only in the recommended position because of the existence of submarine pipe-lines in other areas.

On Arrival:

The refinery operator, together with a team of 4 skilled workers, will board the vessel before berthing to coordinate the discharging operations and they leave after completion of unmooring. Masters are therefore kindly requested to, arrange for food and accommodation for the whole period of their stay aboard.

Mooring Operations:

Mooring operations will be undertaken with favourable weather conditions. The vessel shall proceed at a reasonable speed to the platform and generally shall start mooring by heading into the sea current or wind or swell.

As soon as the vessel is a proper distance from the platform she will run out 2 mooring ropes (1 on each side) which will be secured to the platform ropes by mooring crew. These ropes will then be heaved on board in order to pull up the platform ropes which will be secured on the bitts of the forecastle. The platform mooring ropes comprised of nylon rope, chain and polypropylene rope and pelican hooks will be used as stoppers for the chains.

4 mooring lines (2 for each side) must be ready on the forecastle for joining before manoevring to the platform.

The refinery operator shall not fail to give to the deck officer on duty on the forecastle all requested information concerning mooring operations as well as API's installation. All winches and windlass must be in perfect working condition with sufficient power and ready to work during the whole of the vessel's stay at the API platform. A good mooring rope of sufficient length must be ready aft and passed to the supply vessel enabling her to assist the tanker from the end of mooring up to few seconds before unmooring. Mooring operations will be carried out by the crew, under the Master's responsibility and according to the Pilot's suggestions.

During the ship's stay at the platform, the crew and API personnel will keep a constant watch on the mooring ropes and the platform. During the night the forecastle and mooring ropes must be brightly lit.

Unmooring:

The unmooring operations, except during unfavourable weather conditions, are quite simple. As soon as the 2 hoses have been disconnected, it will be sufficient to let go the supply vessel, heave up, as quickly as possible, the stern rope, then let go the 2 platform ropes, and put the main engine astern (if necessary). Masters are warned that as soon as the hoses are disconnected the service of the supply vessel will no longer be required.

Hose Handling:

On arrival both derricks must be rigged and ready to lift up the maximum permissible weight.

Throughout the period of time when the hoses are hoisted up, connected, disconnected or lowered overboard, 1 deck officer and 1 Crew member are required to coordinate and operate the winches. Lifting, connecting, lowering and other handling of hoses will be performed by API's team under the Receiver's representative control.

Discharging Operations:

The Receivers' representative will advise the Master on all matters concerning the discharging speed, manifold pressure, or eventual hazards, but will not direct the discharging operations except if it may be necessary to protect the facilities or any Receivers' properties or apparatus.

Pollution:

The Master is fully responsible and must ensure that no petroleum or other contaminated products are discharged, or spilled overboard.

During the vessel's stay at the API installation, all deck scuppers and all overside deck openings shall be securely closed and oiltight. All pipe-lines not in use, must be blanked off.

Drip-pans must be in place at all times under manifold connections. An adequate supply of sawdust bags, or other anti-pollution chemical products, must be available at all times for immediate use.

Under no circumstances shall bilge water, oil, waste, or contaminated products be discharged overboard.

The Receivers will take any action or steps necessary to clean up or remove the contamination of the sea and the terminal structures if any. The vessel and/or her Owner, will be responsible for all expenses and all damage in connection with the contamination.

Italian Authorities are very strict and severe about pollution. It is worthwhile to remind Masters of the eventual penal implications against them for pollution.

Safety:

During the vessel's stay at the API terminal a sufficient number of Crew members must remain on board to be ready for any kind of emergency. Crew members going ashore are warned that in case of bad weather it might not be possible to return on board until weather conditions have improved.

All fire equipment and hoses must be, at all times in perfect working condition and ready for use. A number of portable fire extinguishers must always be ready by the discharging manifolds and the breathing apparatus must be ready by the pump rooms for immediate use.

Main Engine and Auxiliaries:

Should the main engine and/or auxiliaries be temporarily out of use, the discharging operations will immediately be stopped, and vessel unmoored, until everything is once again in order. In such a case all expenses, delays and/or all arising damages will be to the account of vessel and/or her Owner.

Tending Mooring:

A Crew member must be stationed at the bow of the ship while the vessel is at the platform to keep a constant watch on the moorings.

During the hours of darkness moorings must be illuminated.

Winches:

During the stay of the vessel at the terminal all deck winches must be ready to operate.

Supervising discharging operations:

The receivers' personnel will remain on board for the whole time. A qualified deck officer must always be available. It is recommended that the duty officer always carries with him a portable VHF in order to keep close and constant contact with Receivers' representative.

Supervising floating hoses:

Whilst the vessel is secured to the platform a sharp lookout on floating hoses must be ordered by the Master. Every abnormal situation in this respect must be immediately notified to Receivers' representative.

Washing Floating hoses:

When discharge is completed, if requested, the vessel will pump water for a few minutes before disconnecting hoses, in order to displace crude-oil from the floating-lines. The Receiver's representative will advise the Officer on duty about this manoeuvre as well as pumping time.

Communications between Ship and Shore:

Normally communications between ship and shore are maintained by API's representative. Masters are kindly requested to authorise the use of vessel's VHF when requested.

Boilers:

Boiler tubes must not be blown whilst at anchor or secured to the API platform.

Garbage:

Garbage and refuse must not be thrown overboard while the vessel is at anchor or secured to the API platform.

Bunkers:

Weather permitting, bunkers can be supplied by barges. API can supply all grades of fuel oil, marine diesel, gasoil and all grades of API's marine lube oils.

For bunker requirements vessels must cable to Petroapi – Falconara 72 hours before their arrival (holidays, Saturdays excepted) stating qualities and quantities required. (No limitations for supplying).

Fresh Water:

Available only by tugboats with favourable weather conditions, and to be requested through vessel's Agents.

IMPORTANT WARNING

All vessels with a draft up to 40 ft. scheduled for AP1 platform but not duly equipped to operate thereat, will be moored, if possible, at API conventional berths. All expenses, time lost and/or damages arising from the above will be to account of and charged to vessel/owners.

DENSITY: The average salinity of the water in the port of Ancona is 17.5 gr. per litre of chloride.

FRESH WATER: Along all the quays are numerous supply points with rates varying from 15 to 25 t.p.h. Vessels in the roads can be supplied with drinking water via the port tugs.

FUEL: Vessels moored at berths can be supplied by tanker barge. Fuel is also available at Berth No. 21 and the Soscar terminal located immediately outside the port. Vessels in the roads are supplied by barges. The supplier is S.P.A. API from their marine refinery at Falconara.

Requests for bunkers must be submitted to that company, via the ship's Agent at least 24 hours in advance. The company's telephone number is 910901. Any type of product can be supplied.

FIRE FIGHTING FACILITIES: Apart from the water hydrants along the quays, which, if need be, can be used for coupling to hoses for fire fighting purposes, the port of Ancona has a fire brigade equipped with fire engine, together with other means on land and water.

The fire brigade is near the marine station at Berth No. 13. Apart from facilities on land, there are 2 craft available, one of which is highly sophisticated. Telephone: 201715.

If necessary, at very short notice, the town fire brigade can be called to the scene, their equipment consists of a fire engine with pumps and ladders and other modern means of efficient fire fighting. Telephone: 22222.

In port, there are the following maritime means for combating fires:

a) A motor launch of the port captaincy with fire fighting hoses and also the ability to spray foam.

b) 2 motor barges with pumping facility operated by the port fire brigade, having the following characteristics:

Vessel "VV.F.207" – speed 11 knots, equipped with 2 fire fighting pumps each capable of delivering 6,000 litres per min. at a pressure of 10 atmospheres and driven by 2 Fiat Aifo 260 h.p. engines each; 2 liquid foam pumps; 2 foam projectors; 2 foam tanks with a total capacity of 5,800 litres; 20 delivery pipes with 70 UNI unions, 400 m. overall; 16 delivery pipes with 45 UNI unions, 220 m. overall; 1 comet portable projector, 2 fixed foam projectors; 16 UNI 70 hose attachment points; 2 UNI 150 ditto; 2 double tube cannons for mixed usage (water and foam); 1 electrical compressor giving 5 atm. pressure; 2×500 watt projectors of which 1 is portable with 100 m. of cable; 1 retransmitter apparatus attached exclusively to the apparatus operated by the fire brigade.

Motor vessel VV.F.102 – 1.10 m. draft, speed 11 knots with the following fire fighting equipment: 2 suction type pumps with 350 capacity each; 8 points for 70 type delivery hoses; 2×70 swivel guns; 1×100 watt adjustable fixed projector; 1 radio receiver/transmitter attached exclusively to the fire brigade's equipment; 1 self protector; 1 asbestos suit; 6 gas masks; 400 m. of 70 tube and 150 m. of 45.

6 port tugs having the following characteristcs:

Tugs "Luisella and Tiziana" – TSL 485 – speed 14 knots – equipped with 2 exhaust pumps in the deck on starboard and port sides; regulation fire fighting equipment; 2 motor driven pumps; for internal use 2 pumps connectable to those on deck; international attachments and points; equipped with radar, radio and echo sounder.

Tug "Katria Prima" – TSL 140 – speed 12.5 knots – equipped with 1 monitor; 4×45 mm. swivel guns; thermo-mechanical electric pump of 60 t.p.h. capacity; foam tank – fitted with radar; radio; echo sounder.

Tug "Luisa Davanzali" – TSL 238 – speed 12.5 knots; equipped with 1×30 t.p.h. fire fighting pump; 2 exhauster pumps of 50 t.p.h. and 1 of 200 t.p.h. capacity; radar, radio, echo sounder, gyroscopic compass.

Tug "Cesare Davanzali" – TSL 364 – speed 14 knots – equipped with 2 electrical pumps of 200 cbm/hr. capacity for delivery purposes and capable of attachment to Minimax equipment for fire fighting purposes using foam with 2 cannon type projectors; in the deck are 14 points for attachment of hoses; 2×1000 kW. adjustable projectors; 1 motor compressor of the low pressure type working at a pressure of 8 atm.; equipped with radar, radio, echo sounder.

Tug "Nuovo Ancona" – TSL 148 – engine power 1,014 h.p. equipped with 2 fixed exhauster pumps of total capacity of 500 t.p.h. driven by 2×40 h.p. electric motors; 2 fixed fire fighting pumps, of capacity of 250 t.p.h. total, driven by 2×40 h.p. electric motors; equipped with foam plant and projector; fire fighting pipes have 4 points with 70 mm. unions; 1 portable exhauster pump of about 150 t.p.h. capacity – speed 12 knots – equipped with diving equipment – radio.

CONSULS:

Swedish Consul: tel. 23252.
French Consular Agency: tel. 22879.
Dutch Consul: tel. 22614.

REPAIRS: It is possible to effect repairs of all types at yards within the port, and at the large electrical and mechanical repair undertakings in the town.

Cantieri Navali Riuniti (for large construction). Tel: 201191.
Cantiere Morini (also has available a floating dock for vessels up to 1,000 g.r.t. and slipways). Tel: 23255.
Cantiere Castracani (slipway). Tel: 23519.
Cantiere Riparazioni Navali (pleasure craft). Tel: 29866.
Cantiere Tecno-Matic (fibreglass units). Tel: 53643.
Cooperativa Metallurgica G. Tomassi (only for steel vessels). Tel: 201252.
Ditta EL.ME.A. (marine electrical equipment). Tel: 29409.
Ditta Schiavoni (marine electrical equipment). Tel: 55731.

DRY DOCKS: There is only one small floating dock in which it is possible to carry out repairs to vessels up to 1,000 g.r.t. The dock is owned by Cantieri Navali Morini. Tel: 23255.

SURVEYORS: In Ancona the Registro Italiano Navale has a town office at via Marsala No. 8. Tel: 23204. R.I.N. acts for the following foreign classification bodies. Germanischer Lloyd. Nippon Kaiji Kyokai. Jugoslavinski Registar Brodova. Register of Shipping of the U.S.S.R.

GANGWAY/DECK WATCHMEN: This service is advisable but not compulsory. In Ancona is a security firm "Istituto di Vigilanza Urbana e Campestre" di Dattilo Salvatore. Tel: 201784.

HATCHES: Hatches are opened by the crew where they are of the automatic type, and by the port labour force where they are of the conventional type. Hatches are re-closed in the event of rain.

CUSTOMS ALLOWANCES: On arrival in port, all goods under Customs exemption must be placed under seal. At the completion of Customs inspection, the Master may request the Customs officers permission to supply the following goods:

50 cigarettes for each Crew member.
1 kg. of salt for every 50 persons.
50 grams of sugar per person per day.
15 grams of coffee per person per day.
Liquor – small quantities to be agreed with the Customs officals according to the time of year.

CARGO HANDLING FACILITIES: Normal working times for mechanical equipment is from 0800 to 1200 and from 1330 to 1730 hrs.

Mechanical handling equipment on the quays consists of:

1 multi-purpose Paceco crane, of 42 tons capacity for containers and various goods.
4 De Bartolomeis 20-ton electric cranes with rectractable jib.
6 electrical cranes of 6 tons capacity, with retractable jib.

2 electrical unloading platforms of 8 tons capacity.
1 electrical unloading platform of 10/12 tons capacity.
3 automatic De Bartolomeis of 20 tons capacity.
1×5 ton automatic.

It is possible to attach electro-hydraulic grabs to the quay cranes for the discharge of scrap iron.

REPATRIATION: It is possible to effect exchange of foreign Crew members on board foreign vessels since there is in the port an office of the Frontier Police.

For repatriation purposes, the following travel connections are available:

Train: via the Ancona/Bologna/Rome line; via the Ancona to Rome direct line and via the Ancona/Pescara/Bari line.

Air: Departures from the Falconara Marittima Airport which is 10 km. from the port and reached by bus. There is a daily departure to Milan and to Pescara.

Sea: the following lines are available:

From 1st January – 31 December Wednesdays (1330 hrs.) and Saturdays (2200 hrs.) to Patras by Greek vessel "Mediterranean Sea".

From 1st October – 30th May Mondays (0900 hrs. Tuesdays (0030 hrs.) and Fridays (1700 hrs.) to Zara and Spalato by Italian vessel "Tintoretto". From 1st June – 30th September daily departure to Zara by Jugoslav vessel "Illirija". From 1st June – 30th September every Thursday (1300 hrs.) and Sundays (2200 hrs.) to Patras by vessel "Mediterranean Sky". From 1st June – 30th September every Saturday (2200 hrs.) per Panamanian vessel "Neptunia" to Patras, Corfu and Haifa. From 1st June – 30th September every Tuesday (2200 hrs.) to Patras per Greek vessel "Patris". From 1st June – 30th September every Wednesday (1300 hrs.) and Saturday (2200 hrs.) departures to Patras and Higoumenitza by Greek vessel "Ionian Star". From 1st June – 30th September every Tuesday (1700 hrs.) departures to Dubrovnik by Italian vessel "Tintoretto".

TIME: GMT plus 1 hour. From the last Saturday in May to the last Saturday in September GMT plus 2 hours.

HOLIDAYS: Every Sunday, 1st January (New Year); the Monday after Easter; 25th April (Liberation); 1st May (Labour Day); 4th May (Town's Patron Saint's Day); 15th August (Assumption); 1st November (All Saints); 8th December (Immaculate Conception); 25th December (Christmas); 26th December (St. Stephen's).

Work is possible on all these days, but at an increased rate.

POLICE/AMBULANCE/FIRE: Port Police 201030. Town Police 28888. Yellow Cross Ambulance 55622. Red Cross Ambulance 22680. Port Fire Brigade 201715. Town Fire Brigade 22222.

TELEPHONES: It is not possible to connect telephone lines on board vessels. In the port there are numerous telephone boxes for national and local communications and where it is possible to telephone to any part of the world.

SERVICES: The following special services are available in Ancona: Tank washing at Falconara Marittima by the "crude oil washing" system, compass adjusting, repairs to radar or other electronic instruments on board and underwater work.

SHORE LEAVE: Foreign Crew members may go ashore from 0800 until 0200 hrs. the next morning provided they have a pass stamped by the Port Police. Beyond 0200 hrs. a special permit from the police is necessary to allow an overnight stay outside the port area.

SPECIAL REGULATIONS: Vessels of draft greater than 30 ft. mooring at berths on the South mole are secured a short distance off the quay by means of dolphins.

DELAYS: No delays.

DEVELOPMENTS: New container areas under construction at quays No. 23, 24 and 25. There is in hand the development of new zones for Cantieri Navali Riuniti in the stretch of sea behind the North breakwater. In that area will be built a construction basin for supertankers. Both works should be completed by the end of 1980.

AUTHORITY: Capitaneria di Porto.

AUGUSTA (Including Priolo): 37.13 N. 15.14 E.

LOCATION: The bay is divided into 3 parts: Port Xifonio, the old port, once used by small vessels, now sometimes used for anchorage of ships which cannot come into Port Megarese. Port Megarese, where there are oil installations and other works. Priolo's cove, industrial zone. Priolo is the place name used to indicate the area of the Montedison installations.

DOCUMENTS:

Crew Lists (at least 6 copies).
Custom Manifest.
Passenger Lists (6 copies).
Maritime Declaration of Health.
Bills of Lading.
Vaccination Certificates.

Can be presented as an information note on the arrival of the ship to the Harbour Master. This note can be broadcast by radio or telegraph. This facilitated procedure is suspensible by Harbour Master in case of particular events and, by request, these documents must be sent in:

Certificate of Registry.
Cargo and Gear Safety Certificates.
Radio Safety Certificates.
Safety Construction Certificate.

PILOTAGE: Compulsory for vessels over 500 tons (gross tonnage). Pilot available day and night. Vessels requiring a Pilot should display appropriate International Code Signals, should approach about 1 mile from the principal entrance. Pilot boat is black with a white band, letter "P" is painted in amber on each side of the bow. Pilot boards about 1 mile from main entrance. In bad weather the launch will wait inside the breakwater by the main entrance. Pilot station telegraphic address is Augusta Piloti. ETA should be given 12 hours in advance. Vessels with VHF can contact Augusta Piloti on Channel 12.

APPROACHES: Entrance is from the East, between central and Northern breakwaters, with leading lights in a line approx. 274°. Entrance is about 400 m. in width, with a depth over 35 m. in the middle, and may be used day or night.

Another entrance from S.E. between central and Southern breakwaters used only for small ships or emergency is about 300 m. in width, with a depth of 11 m.

ANCHORAGE: Inside the breakwaters, in the central zone, the depth of water is not less than 22.40 m., and is possible to receive many ships, including VLCC's.

MAX. SIZE: Up to 65 ft. draft at Montedison new supertanker jetty, capable of receiving vessels up to 130,000 g.r.t. (250,000 d.w.t.). Also see "Berthing".

HEALTH: Pratique may be allowed by radio, request to Sanimare Augusta 24 hours prior arrival. If not requested by radio, pratique is given on arrival but only during daylight. Pratique is automatic for vessels coming from an Italian port and Common Market European Ports.

RADIO: R.T.: Augusta Radio listening on 2182 kc/s. Working on 1643 and 2260 (24 hours a day).

VHF: Augusta Radio (Ch.16) Between 0000 and 2400 hrs. working.
Harbour Master (Ch.16) Working 24 hrs. a day.
Pilots (Ch.12) Working 24 hrs. a day.
Tugs and Liners (Ch. 8) Working 24 hrs. a day.
Taxi-boats (Ch.10) From 0600 to 2400 hrs.

TUGS: Available, join vessel inside breakwater entrance. H.p. varying from 750 to 3,000.

BERTHING: *Shell Pier:* Berth Nos. 1, 2 and 3 at a finger jetty with depths of 12, 28 and 12 ft. respectively and used by coasters and bunkering barges.

Punta Cugno: Northern Jetty: Berth No. 3 Liquichimica, used for discharging and loading chemical products by Liquichimica factory. Accepts vessels up to 3,000 g.r.t. with depth 17ft. 09 in. Mooring alongside. Southern jetty: Berth No. 4, used by Esso Bunker barges. Berth No. 5, used by Liquichimica factory, for vessels up to 15,000 g.r.t., which are moored by the stern with bow anchors. Depth 30 ft. Berth No. 5bis, is at Steel Island used for chemical products discharging and loading. Ships moored by the stern with 2 anchors. Depth 22 ft.

Esso: Pier No. 1: Length of pier about 740 m. Heading 110°.

Berth No. 6: Depth 16 ft., used by small tankers loading gasoline (regular, premium, Jet A 1), gasoil, bitumen, fuel oil, LPG, 4 pipelines at berth. Connection of 4 in. for LPG, loading rate about 300 t.p.h.; 6 in. for white products, loading rate 150 t.p.h.; 6 in. for black products, loading rate 150 t.p.h. Gangway ashore.

Berth No. 7: Depth 25 ft., vessel moored by the stern. 3 pipe-lines with connection of 6 in. Loading rate 150 t.p.h. Loading of gasoline, gasoil, bitumen, fuel oil. Gangway ashore.

Berth No. 8: Depth 36 ft., for ships about 20,000 g.r.t. 4 pipe-lines at berth with connections 8 in. (2 for white products and 2 for black products). Loading of same products as No. 7. Gangway ashore. Deballasting pipe-line available for all berths. Diameter 14 in., rates from 700 to 2,000 t.p.h.

Pier No. 2: Length of pier about 1,150 m. Heading: 110° ending in a steel platform. Large tankers discharge crude oil on either side of the platform at rates of up to 6,000 t.p.h.

North side, No. 10, depth 52 ft., receiving tankers up to 50,000 g.r.t. Loading of gasoline, gasoil, fuel oil, lube oil. Connections: 6 in. for bunker, 10 in. for black and white products, 10 in. for lube oil. Gangway ashore.

South side, No. 11, depth 54 ft., receiving tankers up to 75,000 g.r.t. Loading of all products as No. 10 except lube oil. Connections 10 in.

At about 400 m. from end platform there are 2 smaller platforms (Berth No. 9 and 12).

Berth No. 9: Depth 28 ft., receiving tankers up to 7,000 g.r.t. Loading of gasoline, gasoil, fuel oil, lube oil. 4 pipe-lines with connections of 8 in.

Berth No. 12: Depth 28 ft. for tankers up to 10,000 g.r.t. Connections of 6 in. Loading of same products as No. 9. Alongside the pier pipe-lines are of diameter of 18 in. to 24 in. for crude oil, 16 in. to 20 in. for fuel oil, 14 in. for diesel and gasoil, 10 in. for kerosene, 8 in. for gasoline, 10 in. for naphtha and JP4. There is also a 14 in. pipe-line for deballasting and 8 in. lines for lube oil. All berths are provided with gangway. At Nos. 10 and 11 vessels may use wire ropes only if the eyes are made of either manila or nylon.

Cement: A finger jetty. Berth Nos. 13 and 14 with depths of 23 ft. used by small vessels carrying cement in bulk. Operations are through a conveyor-belt system, with a handling rate of about 300 tons per day.

N.A.T.O. Pier: Berths No. 15 and 16 in depths of 35 ft. and 36 ft. respectively. Used for loading and discharging petroleum products, but being a Navy jetty, berthing is subject to priority being given to Navy requirements.

Montedison: Montedison Supertanker Jetty: For vessels up to 130,000 g.r.t. Depths vary from 13 ft. to 65 ft. Berths Nos. 17 to 24. Montedison Jetty: Berth No. 25, depth 43 ft. and Berth No. 26, depth

38 ft. Steel Island: Berth No. 27, depth 33 ft., for vessels up to 20,000 g.r.t. which are moored by the stern, and secured to 4 buoys with bow anchors down. Berth used for chemical and petroleum products. All the berths have a deballasting pipe-line.

Montedison concrete jetty: Both dry and liquid chemicals are handled at this jetty. Berth No. 28, depth 18 ft., for small vessels whose length is not more than 80 m. moored by the stern. Berth No. 29, depth 30 ft., for vessels up to 15,000 g.r.t. Berth No. 31, depth 31 ft. 06 in., for vessels up to 20,000 g.r.t. Bagged cargo at a rate of 2,000 tons per day, and bulk cargo up to 4,000 tons per day, load or discharge. Berth No. 30 used by bunker barges. Berth No. 32, depth 13 ft., for small tankers only.

New Montedison jetty (Carichi liquidi): Is situated in Priolo's cove. Chemical products are handled. Berth No. 33, depth 17 ft. for vessels up to 1,700 g.r.t. Berth No. 34, depth 25 ft., for vessels up to 5,000 g.r.t. Berth No. 35, depth 25 ft. and No. 36 with a depth of 12 ft.

Melilli: *Operator:* Industria Siciliana Asfalti and Bitumi.

The terminal is situated 60 miles South of Augusta, 5 miles North of Syracuse, Sicily. Terminal consists of 1 finger pier with 3 platforms. Crude oil "C" can be loaded or discharged at all 3 platforms. Platform No. 1 can accommodate vessels up to 385,000 d.w.t., depth 130 ft. whereas platform No. 2 up to 55,000 d.w.t. Platform mainly used for coastal tankers up to 3,000 d.w.t. and LPG carriers.

MEDICAL: Medical and hospital facilities available. Vaccinations done on board. Advance notice preferred for assistance required on arrival.

TANKERS: See "Berthing".

DENSITY: 1024 to 1026.

FRESH WATER: Available by barge.

FUEL: All grades available by pipe-line or barge at anchorage, max. draft 65 ft.; suppliers Esso, Shell, B.P., Agip, Gulf. 48 hours notice required.

GANGWAY/DECK WATCHMEN: Employment of shore watchmen advisable.

OPENING/CLOSING HATCHES: Normally by ship's crew.

CUSTOMS ALLOWANCES: 40 cigarettes and 1 opened bottle wine/spirits per man.

IDENTIFICATION CARDS: Shore passes given by local police.

CONSULS:

Liberia. Tel. 975341.
Norway. Tel. 975182.

REPAIRS: No repairs permitted while alongside tanker berths. May be done in the anchorage subject permission of port authorities.

DRY DOCKS: E.B.A. Company. Floating Dock, length 105 m., breadth 17.10 m., lifting capacity 3,000 tons.

REPATRIATION: No difficulties.

AIRPORT: Nearest at Catania, can be reached in 40 minutes by car. Daily flights to Rome and Milan for international connections.

TIME: GMT plus 1 hour. Summer time, May to September, GMT plus 2 hours.

HOLIDAYS: Tankers not affected. 1st January; 6th January; 19th March; Easter Monday; 25th April; Ascension Day; Corpus Domini; 15th August; 4th November; 8th December; 25th December.

POLICE/FIRE/AMBULANCE: Police, Tel. 975555; Ambulance, 975000; Fire, 974777.

TELEPHONES: Situated at all berths. No direct connection to vessels.

SHORE LEAVE: Allowed at all times.

DEVELOPMENTS: A new pier for larger tankers will be constructed by Liquichimica at Punta Cugno. It is also planned to extend the Esso Pier No. 1.

AUTHORITY: Capitaneria di Porto.

BAGNOLI: 40.48 N. 14.10 E. (See Plan Book)

DOCUMENTS: An arrival report containing vessel's main particulars and data of certificates has to be filled in by Port Officer upon arrival.

5 Crew Lists.
5 Passenger Lists.
Store List in duplicate.
International Health Declaration.
Cargo Manifest.

PILOTAGE: Bagnoli Pilot is permanently on watch as from 0600 to 0600 hrs. Usual Pilot position is 40° 47′ 30″ N., 14° 08′ 10″ E. Pilotage is compulsory for vessels over 500 g.r.t. for anchoring or entering the port. Permanent watch is maintained by pilot station on VHF Channel 9 and/or 12. Vessel requiring Pilot may also use other international signals, such as flag, morse/sound letter "G". When in port vessels to give pilot station one hour notice for any service required. In the event of bad weather (Bagnoli area is mainly exposed to S.W. winds) vessels to shift out of piers or to change anchorage to Baia roads (sheltered natural bay three miles from Bagnoli in a Westerly direction).

ANCHORAGE: Depth of safe anchorages in Bagnoli area and in Baia roads ranging from 20 to 45 m. – sandy bottom. Anchorage is allowed in the line from the lighthouse of Nisida Island to the lighthouse of Capo Miseno.

RESTRICTIONS: Vessels can enter port at any time of day. No restriction for night departures.

MAX. SIZE: See "Berthing".

HEALTH: Free pratique can be requested via radio cabling to Health Officer of Naples. Cable address: Sanimare, Naples.

RADIO: Naples Radio.

TUGS: Presently no tug available, if required they come from Naples. Time taken approximately 2 hours.

BERTHING: *Italsider ore/coal discharging pier:* Two berths available. Pier length 357 m. Berth accommodation length 200 m. – max. draft allowed when berthing in Westerly direction is 41 ft. 6 ins. – max. draft allowed when berthing in an Easterly direction is 36 ft. with H.T. This pier is equipped with two turntable gantry cranes and conveyor belts. Ore discharging rate: 1,100 t.p.h. Coal discharging rate: 900 t.p.h. All necessary stevedoring services are performed by Italsider with their own personnel. Cranes capacity: 32 tons. Fresh water available.

Italsider loading pier: Equipped with six turntable cranes and rails – max. draft allowed on both berths is 10.5 m. Fresh water available.

Federconsorzi discharging pier: Equipped with a fixed gantry crane and aerial ropeway for discharging of phosphates and pyrites. Discharging rate per shift of 8 hours – 450 tons. Max. draft allowed is 5.40 m. Fresh water available.

Tide range: Approximately 30 cms.

STEVEDORES: Available. Rate of discharge 1,500/1,700 t.p.h.

FRESH WATER: Available from pier. Rate of delivery 20 t.p.h., or by barge. Vessels at anchor supplied with fresh water by barge from Naples.

FUEL: All types available, always delivered by barge, normally oil companies require 48 hours notice.

GANGWAY/DECK WATCHMEN: Recommended.

OPENING/CLOSING HATCHES: Carried out by crew.

CUSTOMS ALLOWANCE: (For entire duration of stay). Tobacco, 50 cigarettes per crew member. Spirits: 1 bottle (opened) per crew member.

IDENTIFICATION CARDS: Required.

CONSULS: At Naples.

REPAIRS: Small repairs undertaken.

TIME: GMT plus 1 hour Winter. GMT plus 2 hours Summer.

HOLIDAYS: See "Naples".

POLICE/AMBULANCE/FIRE: Police 7602553; Ambulance 7520696; Fire 7330210.

SHORE LEAVE: Allowed.

GENERAL: *Launch Hire:* Vessels waiting at anchor for their turn may hire launch for crew shore leave and relevant service performed from 0700 to 2400 hrs.

The port of Bagnoli is mainly used for the discharge of ores, minerals, coal and for the loading of steel products for account of the Italsider S.p.A., metallurgic industrial group of national interest, operating with its own shore appliances. Manufacturers of chemical products, the Federconsorzi of Naples, operate in the port of Bagnoli also with their own shore appliances.

AUTHORITY: Ente Autonomo del Porto di Napoli.

BARI: 41.08 N. 16.52 E.

DOCUMENTS: On arrival:

5 Crew Lists.
3 Provision Lists.
3 Lists of Articles in possession each Crew member.
Customs Documents.
Cargo Manifests.
Bills of Lading.
Ship's Papers.

PILOTAGE: Pilot boards vessels on arrival by motor-boat near harbour entry, outer buoy. Pilotage compulsory for vessel over 500 g.r.t. inward or outward, shifting vessels from one point to another in or out of port.

Pilot call: Letter "G" of International Code, Pilot attending day and night. For services from 1700 hrs. to sunset, or from sunrise to 0800 hrs. the dues are increased.

ANCHORAGE: Good anchorage in all weathers, but precautions should be taken against winds from North. Rocky bottom covered by mud. Bad holding ground. Strong range in the port when bad weather. Not allowed to anchor in fairway except in case of emergency. Anchorage usually allowed East side of Nuovo Molo Foraneo at a distance of about 1 mile from shore.

RESTRICTIONS: Max. depth at harbour entrance 40ft., width 793 ft. Depth of water at berths from 33 ft. to 40 ft.

MAX. SIZE: Maximum permissible length 800 ft. for oil carriers proceeding to oil pier. Max. draft 39 ft.

HEALTH: Masters can request free pratique by radio by applying to "Sanimare Bari". Free pratique automatic for vessels coming direct from other Italian port, and "Q" flag not to be flown on entering. In event of any suspected disease or fever on board, Master should inform Sanimare Bari, not permitting anybody to board the vessel before doctor's inspection.

RADIO: Radio Roma, call sign "IAR."

TUGS: Tugs normally join vessel outside harbour entrance. Towage service is carried out by following tug-boats belonging to "Rimorchiatori Napoletani": *Camaldoli* of 674 I.H.P.; *Citta di Trieste* of 812 I.H.P.; *Mastino* of 1,105 I.H.P. Basic tariff is increased by 20% when the towage rope is given by tug-boat.

BERTHING: When specific side alongside berth is required by stevedores, Agents radio Master prior arrival and advise Pilot. Otherwise side alongside at Master's option after conferring with Pilot. Depth at piers 20/38 ft. dependent location. No shore fenders alongside quays.

BULK HANDLING FACILITIES: Grain discharge by 2 suction pipes at rate of 90 to 100 metric t.p.h. each.

STEVEDORES: Important to give ETA in good time. Normal working hours: Winter time (weekdays), 0800–1200 hrs., 1300–1700 hrs. Saturdays, 0800–1300 hrs. Summer time (weekdays), 0800–1200 hrs., 1400–1800 hrs. Saturdays 0630–1300 hrs.

Overtime: From 0600 to 0800 hrs. the tariff to be increased 25%; 1200 to 1300 hrs., 50%; 1700 to 2000 hrs., 25%; 2000 to 0600 hrs., 70%.

For handling pieces over 1,000 kilos, increase of 50% on the tariff. For unhealthy work, increase of 30% on the tariff.

Sunday. From 2400 to 0800 hrs. the tariff to be increased 100%; 0800 to 1200 hrs., 50%; 1400 to 1800 hrs., 50%; 1200 to 1400 hrs., 100%; 1800 to 2400 hrs., 100%.

MEDICAL: Not necessary for Agents to receive advance notice of required medical attention. Hospital facilities available.

TANKERS: Not allowed to do any degassing of tanks or any kind of repairs to vessel without Harbour Office permission.

Cleaning and degassing of tanks not allowed in port. Inspection of tankers and gas-free certificate can be obtained. Only clean ballast can be discharged in port.

Diameter of load-discharge pipe-lines at oil berth are:

20 in., 16 in. and 12 in. pipe-line for crude oil; 12 in and 18 in. pipe-line for fuel oil; 8 in. pipe-line for gasoil; 8 in. pipe-line for gasoline.

Crude oil discharged to Stanic refinery from Berths No. 31 and No. 4 (Molo Foraneo) suitable for tankers up to 39 ft. draft.

Fuel and other refined products discharged at Berth Nos. 31, 32, 33 and 34.

DENSITY: Salinity 36%.

FRESH WATER: Available at all berths served with hydrants. Good drinking water supplied by Ente Acquedotto Pugliese. No barge available to carry water in the harbour and in the roads. Tugs may be used for this purpose.

FUEL: Available, 3 days advance notice required.

GANGWAY/DECK WATCHMEN: Service of watchmen is recommended: shift of 10 hours.

OPENING/CLOSING HATCHES: Normally carried out by stevedores. Opening or closing of hatches charged for work carried out during usual working hours.

CUSTOMS ALLOWANCES: 50 cigarettes only are given to each crew member out of bond on vessel's arrival. Wine is permitted to be held out of bond but no spirits allowance permitted.

IDENTIFICATION CARDS: Shore leave pass is compulsory.

CONSULS:

Great Britain	Holland
France	Spain
Belgium	Germany
Portugal	Norway
Liberia	Turkey
Sweden	Monaco
Denmark	Ethiopia
Switzerland	Bolivia
Greece	Austria

REPAIRS: Workshops and shipyards are capable to carry out repairs to hull and engines.

DRY DOCKS: No dry docks are available at Bari. Nearest dry docks are at Taranto.

REPATRIATION: Many facilities for effecting crew changes and possibilities for arranging any necessary repatriations.

AIRPORT: Airport is located about 10 km. North of city. Served by regular airlines with flights for all countries daily.

TIME: Local time 1 hour ahead of GMT. Alterations to clocks are made from Spring to beginning of Autumn, giving 2 hours advance on GMT.

HOLIDAYS: New Year's Day (1st January); Epiphany (6th January); St. Joseph (19th March); Liberation Day (25th April); Labour Day (1st May); Easter Monday; Ascension Day; Corpus Domini; St. Nicholas (9th May); St. Nicholas, Patron of the Town (10th May); Proclamation Day (2nd June); St. Peter and St. Paul (29th June); Assumption B. V. Maria (15th August); All Saints' Day (1st November); Victory Day (4th November); Immaculate Conception (8th December); Christmas Day (25th December); Boxing Day (26th December).

Cargo work can be arranged on above days, and the stevedoring tariff increased as follows:

From 2400 to 0800 hrs., increase 100%; 0800 to 1200 hrs., 50%; 1400 to 1800 hrs., 50%; 1200 to 1400 hrs., 100%; 1800 to 2400 hrs., 100%.

POLICE/AMBULANCE/FIRE: Police, 214116; Ambulance, 246552, 341217; Fire, 212518.

TELEPHONES: No arrangements exist for placing telephone on board.

SHORE LEAVE: Allowed.

DEVELOPMENTS: Expected draft increases in the near future for berthing tankers up to 80,000 tons.

AUTHORITY: Capitaneria di Porto.

BRINDISI: 40.39 N. 17.56 E.

DOCUMENTS:

3 Crew Lists.
3 Lists of Passengers Disembarking.
3 Lists of Passengers in Transit.
Manifests of Cargo carried, with specification of port of origin and whether for local discharge or in transit. If stowed on deck or below deck.
List of Articles in possession of each Crew member, such as cameras, binoculars, portable radios, cigarettes, tobacco or any kind of cheap-priced goods.

Other Certificates required to be on board:

Certificate of Ship's tonnage.
Load Line Certificate.
Deratisation Certificate.
R/T Certificate.
Safety Certificate.
Anchorage Dues Receipt (if previously paid).

PILOTAGE: Vessel approaching port should apply for Pilot by hoisting the "G" flag, if by daytime. By night-time, letter "G" will have to be signalled by Morse, to port semaphore (Signal Station) which is located under shore lighthouse showing white flashes.

Telegraphic address of Pilot station is "Piloti Porto, Brindisi". No ETA required for Pilots as station not equipped with wireless apparatus. Characteristics of Pilot boat: gross tonnage, 9.4; power, 65 hp; speed, 8 knots.

Area where Pilot boards vessel:

In good weather: 1 mile from harbour entrance.

In bad weather: (a) If vessel is heading for inner harbour and is of small tonnage (up to 3,000 tons) Pilot boat will steer in a direct line, bows pointing towards vessel, up to entrance to "outer" harbour, where Pilot will board vessel. If vessel is of higher tonnage, she will have to take a "crosswise" position so as to form a sheltered area for Pilot, about 1 mile from harbour entrance. *(b)* If vessel (tanker) is bound for outer off-shore terminal (Montedison Installation) for discharge of crude-oil, Pilot boat will endeavour to approach vessel to communicate impossibility of immediate mooring. Anchorage roads, pending possibility for Pilot to board vessel, are 0.8 miles E.N.E. of "Punta Penne" (Capo Gallo).

ANCHORAGES: Besides anchorage point described above, there exists safe anchorages in bay for vessels having a draft of 9 m. (29 ft. 6 in.) and in external harbour for vessels of less than 3,000 tons (gross).

RESTRICTIONS: Tankers of over 1,500 tons gross may berth only from sunrise till sunset. Port berths are inaccessible in unfavourable winds. Passenger or cargo vessels no restrictions.

MAX. SIZE: *Inner Harbour:* Draft not to exceed 9.4 m. (30 ft. 10 in). *Outside Main Port area:* For discharging crude oil at offshore terminal, max. draft allowed 11.50 m. (37 ft. 8 in.). For discharging or loading of other refined products of Montedison Installations, depth of berths varies from 4 to 9 m. (from 13 ft. 1 in. to 29 ft. 6 in.).

HEALTH: Apply to "Sanimare, Brindisi" by radio, 12 hours before arrival, and not later than 4 hours before arrival, according to provisions of Health Regulations, notifying in message state of health of crew and port of origin of vessel. Procedure not required if vessel entering after calling at another port in same country.

RADIO: Vessel can communicate ETA messages to Agents through Bari Radio (nearest station) or through Rome Radio which can pick up messages from vessels at sea almost in any part of the world.

TUGS: Tug service is generally effected from Punta Riso-Faro Della Pedagne junction, up to inner harbour. It is customary to use tugs' lines for mooring and unmooring of tankers at terminals outside main port area, in view of the peculiarity of mooring operations and the area where tugs are to operate (subject to surf, choppy seas, winds). Charge for use of tugs' lines is 20% extra on normal towing rates.

TANKERS: Crude oil discharged at offshore buoy mooring for vessels up to 37 ft. 8 in. draft.

Other tanker berths at Inner Harbour for refined products, suitable for tankers up to 28 ft. draft.

STEVEDORES: Always advisable to notify in ETA messages to Agents number of hatches vessel intends working simultaneously to arrange gangs. Normal working hours: From 0700 to 1200 hrs. and 1400 to 1700 hrs. Overtime: Weekdays, 70% increase on normal tariffs. Sundays and holidays: Work performed during normal hours, 50% increase. On overtime, 100% increase.

MEDICAL: Hospital facilities available. For any kind of medical attendance or hospitalisation, if needed, it will be helpful to have port Agents advised by radio in advance.

FRESH WATER: Almost all mooring points alongside wharves are fitted with fresh water distributing hydrants. At off-shore terminals, supply is effected by tugs.

FUEL: Types of fuel available: Bunker "C", viscosity Engler at 50° (centrigrade), 16/20; specific weight, .950/960. Gasoil, viscosity Engler at 20° (centigrade), 1.4; specific weight, .830. 48 hours advance notice for any supplies required.

FIRE PRECAUTIONS: Firemen always in attendance during loading/unloading operations by oil carriers.

GANGWAY/DECK WATCHMEN: Not required.

OPENING/CLOSING HATCHES: Normally carried out by crew.

CERTIFICATES: For vessels over 500 tons effecting international voyages:

(a) Passenger vessels:

Safety Certificate.
Radio and Radiophone Certificates (latter if included in vessel's equipment).

(b) Freighters:

Safety Construction Certificate.
Safety Equipment Certificate.
Radio and Radiophone Certificates.

CUSTOMS ALLOWANCES: 50 cigarettes a day for each crew member, if vessel's stay in port exceeds 24 hours. No allowance if stay is shorter than 24 hours. Third of a bottle of liqueurs only.

IDENTIFICATION CARDS: Not particularly needed besides regular seaman's books.

CONSULS: Vice-Consulate of Denmark, Portugal and Holland, all having the same telephone number: 21123. Vice-Consulate of Spain: telephone: 21039.

REPAIRS: Only minor deck and engine repairs can be carried out locally.

REPATRIATION: Adequate facilities exist for effecting crew changes and repatriations as necessary.

AIRPORT: Distance from local airport 5 km. (3 miles). Airport regularly served by Alitalia Airline, ensuring 2 daily flights to Rome and 1 daily flight to other Italian cities, including, among others; Naples, Catania, Palermo, Cagliari, and other destinations via Rome. Direct international flights not scheduled from Brindisi.

TIME: Local time 1 hour ahead of GMT (generally from early June to end September), 2 hours ahead of GMT (Summer time).

HOLIDAYS: Officially recognised. Both national and religious holidays include: Sundays; New Year's Day; Epiphany (6th Jan.); St. Joseph's Name Day (19th March); Easter (Easter Monday); Anniversary of Liberation (25th April); Labour Day (1st May); Ascension, Corpus Domini (oscillating dates); Proclamation of the Italian Republic (2nd June); the Saints Peter and Paul Name Day (29th June); Assumption (15th August); All Saints' Day (1st Nov.); National Unity (4th Nov.); the Virgin Immaculate Conception (8th Dec.); Christmas, Boxing Day.

POLICE/AMBULANCE/FIRE: Police, 25555; Ambulance, 21310; Fire, 21222.

TELEPHONES: No current arrangements existing for placing telephones on board.

SHORE LEAVE: Allowed.

DEVELOPMENTS: Under construction: 1 pier in outer harbour, which is scheduled to be 200 m. in length (219 yards) with a depth of 12 m. (39 ft. 4 in.).

AUTHORITY: Comandante del Porto di Brindisi.

CAGLIARI Sardinia (including Sarroch): 39.05 N. 09.01 E. (See Plan Book)

DOCUMENTS:

6 Crew Lists.
6 Passenger Lists.
2 Provisions Manifests.
2 Manifests of crew personal effects.
Cargo Manifest.
Bills of Lading.
2 Arrival Reports, completed on arrival.
Maritime Declaration of Health, completed on arrival.
Ship's Certificates including Italian anchorage dues.
Vaccination Certificates for sighting.

PILOTAGE: Compulsory for vessels over 500 tons. Requested by ship's Agents. Vessels should wait in the roads for Pilot to board. International Code signals used for calling Pilot. Pilot station telephone number: 652929. Pilot boards tankers about 2 miles East of oil terminal.

Sarroch. Compulsory for all tankers. Vessels should wait in roads as follows:

G1 – (for tankers of more than 42 ft. draft) Lat. 39° 05′ 00″ N. Long. 09° 05′ 00″ E.
G2 – (for tankers of less than 42 ft. draft) Lat. 39° 04′ 27″ N. Long. 09° 03′ 15″ E.
G3 – (for tankers of less than 5000 g.r.t.) Lat. 39° 05′ 48″ N. Long. 09° 02′ 00″ E.

Pilot station telephone number 929006–929057. VHF Channel 16.

ANCHORAGE: All of the roads is available for anchorage except where prohibited zones indicated on charts.

MAX. SIZE: Cagliari port. Max. draft 26 ft. Sarroch, SARAS Terminal, tankers up to 170,000 d.w.t. Max. draft 58 ft.

HEALTH: Free pratique may be requested by radio to Sanimare Cagliari between 12 to 6 hours prior arrival advising vessel's name, nationality, last port, number of passengers and crew and state of health on board. Pratique is automatic for vessels coming from ports in Italy, U.K. France, Belgium, Holland, W. Germany and Greece.

RADIO: Cagliari Radio operating continuously on 2182 kHz., and on 156.8 mHz.

VHF: *Cagliari.* Harbour Master's Office, Channel 16.

Sarroch. Harbour Master's Office, Channel 16. Pilot station, Channel 16. Mooring station, Channel 6. Boat Service station, Channel 8.

TUGS: 6 available, of up to 2,000 h.p.

Cagliari. Normally join vessels at the port entrance.

Sarroch. Normally join tankers at anchorage points and assist berthing at Saras Jetties Terminal.

BERTHING: *Cagliari*

Berth No. 1: Length 68.0 m.; draft 14 ft.
Berth No. 2: Length 128.0 m.; draft 24 ft.
Berth No. 3: Length 227.0 m.; draft 21 ft.
Berth No. 4: Length 123.7 m.; draft 18 ft. 03 in.
Berth No. 5: Length 60.3 m.; draft 18 ft. 03 in.
Berth No. 6: Length 116.8 m.; draft 8 ft.
Berth No. 7: Length 92.6 m.; draft 16 ft. 06 in.
Berth No. 8: Length 278.6 m.; draft 23 ft.
Berth No. 9: Length 325.8 m.; draft 24 ft.
Berth No. 10: Length 328.0 m.; draft 26 ft. 06 in.
Berth No. 11: Length 203.2 m.; draft 26 ft. 06 in.

Berth Numbers 2, 3 and 4 reserved daily for passenger ships.

TANKERS: *Sarroch Saras Jetties*

P.1: draft 42 ft.
P.2: draft 39 ft.
P.3: draft 39 ft.
P.4: draft 36 ft.
P.5: draft 36 ft.
P.6: draft 26 ft.
P.7: draft 35 ft.
P.8: not yet workable
P.9: not yet workable
P.10: draft 23 ft.

Platform island No. 1 (for crude oil discharging only) draft 58 ft.
Platform Island No. 2 (for crude oil discharging only) draft 47 ft.

Loading rates:

Berths No. 1–4	Crude oil	5,000 t.p.h.
	Fuel oil	2,000 t.p.h.
	Gas oil	1,600 t.p.h.
	Gasoline	500 t.p.h.
Berth No. 5	Fuel oil	1,000 t.p.h.
	Gas oil	800 t.p.h.
	Gasoline	500 t.p.h.
	LPG	200 t.p.h.

Berth No. 6 For Bunkering Barges and small tankers up to 3,000 d.w.t. Fuel oil, gas oil, kerosene and gasoline at slow pumping rates.

Berth No. 7	LPG	200 t.p.h.
	Fuel oil	1,000 t.p.h.
	Gas oil	800 t.p.h.

Platform island for crude oil only at 5,000 t.p.h.

MEDICAL: All facilities available at Cagliari.

DENSITY: 1025.

FRESH WATER: Available by pipe-line at all berths. No water barges, although bunker barges may be able supply small quantity fresh water in emergency only.

At times fresh water is in short supply and may not be available.

Cost of delivery of fresh water by tug is 3,000 lire per metric ton.

FUEL: All grades available ex-wharf at tanker berths. Barges supply vessels at anchor and vessels calling for bunkers only.

Vessels calling at Sarroch for bunkers by barge are required to keep Agents closely advised of their ETA and bunker requirements. Messages confirming the vessel's ETA should be sent to Agents 72, 48 and 24 hrs. before vessel's arrival. Masters should note that customs regulations do not permit the return of bunkers to the refinery after the barge is loaded, therefore an accurate figure of bunkers required must be given in the first ETA message to Agents.

BALLAST: The discharge of ballast by tankers can be effected at all berths at a pumping rate between 1,000 and 2,500 t.p.h. Reception of ballast ashore is into 3 tanks with total capacity of 20,000 cu.m. and 6 API separator vessels.

CUSTOMS ALLOWANCES: 40 cigarettes and 1 opened bottle wine/spirits per man, usually allowed for consumption on board while vessel in port.

IDENTIFICATION CARDS: Shore passes issued by local police.

CONSULS:

Belgium
Denmark
France
Sweden
Great Britain
Netherlands
Norway

REPAIRS: Minor repairs can be handled at Cagliari. Slipway for vessels up to 400 tons.

REPATRIATION: No difficulties.

AIRPORT: Elmas Airport situated 12 km. from Cagliari.

TIME: GMT plus 1 hour. Summertime June to September: GMT plus 2 hours.

HOLIDAYS: Not applicable to tankers. New Year's Day (1st January); Epiphany (6th January); St. Joseph (19th March); Liberation Day (25th April); Labour Day (1st May); Easter and Day after Easter; Ascension Day; Corpus Domini; Proclamation Day (2nd June); St. Peter & St. Paul (29th June); Assumption B.V.Maria (15th August); All Saints' Day (1st November); Victory Day (4th November); Immaculate Conception (8th December); Christmas Day (25th December); Boxing Day (26th December).

POLICE/FIRE/AMBULANCE: *Cagliari:* Police 658956; Fire 652222; Ambulance 656979.

Sarroch: Police 929063; Fire 652222; Ambulance 929024.

TELEPHONE: No telephone connection on board.

SHORE LEAVE: Allowed.

AUTHORITY: Capitaneria di Porto di Cagliari.

CATANIA (Sicily): 37.29 N. 15.06 E. (See Plan Book)

DOCUMENTS: Arrival report requested by Harbour Authorities. Also see "Augusta".

PILOTAGE: Master can communicate with Pilot on VHF Channel 16. Pilot boards at sight on harbour entry. International Code signals used to call Pilot.

ANCHORAGE: Vessel must remain on roads awaiting Pilot.

RESTRICTIONS: No restrictions on entry at night, except for tankers (either loaded or empty, as per harbour regulation). The tide at Catania is no more than 30 cm. Bar at entrance 30 ft.

MAX. SIZE: No limitation on the length and breadth but only on draft of vessel, provided same can be contained within the size of piers of Catania Harbour. See "Berthing" below.

HEALTH: The usual sanitary pratique as per all Italian ports is requested. Free pratique obtainable by radio prior arrival sending cable to "Sanimare Catania".

RADIO: The quickest way is to address messages to "Romaradio", better if adding to the telegraphic address the telex number of Agency, so that after very short time from reception at Romaradio the message is in Agents hands.

It is important that 72 *working* hours notice of ETA be passed to Agent.

TUGS: When Pilots are on board, they can call tugs by small radio-calling station. Very frequently the tug's Company, when seeing a big ship, join vessel at same time as Pilot. Tugs using ship's lines.

BERTHING:

Berth Nos.		*Length*	*Depth*
1 and 2	Molo Mezzogiorno, Oil berths	361 m.	30 ft. 6 in.
6	Molo Crispi, Silo berth	154 m.	30 ft.
7	,, ,,	130 m.	29 ft.
8	,, ,,	140 m.	29 ft.

10 and 11	Sporgente Centrale	307 m.	30 ft.
12	Molo Centrale	120 m.	30 ft.
13	Sporgente Centrale	182 m.	30 ft. 6 in.
14	,, ,,	169 m.	29 ft.
17	,, ,,	142 m.	22 ft.
18	,, ,,	142 m.	22 ft.
19	,, ,,	156 m.	18 to 21 ft.
20	,, ,,	170 m.	16 ft. 6 in.
21	,, ,,	111 m.	19 ft. 6 in.
22	,, ,,	60 m.	16 to 20 ft.

STEVEDORES: As per actual Port Labour Regulations, in order to book gangs, stowage details must reach Agency not later than 11 o'clock of the day before ship's arrival, except for work to be done on Saturdays, Sundays and Mondays when application for gangs must be made on Friday.

The official load/discharge rate for general cargo is 50 tons per hatch per day (8 hours), but real output is higher. Increase for overtime, continuous shifts (0700–1330 hrs; 1330–2000 hrs; 2000–0230 hrs.). Night work, Sundays, national holidays, etc.

MEDICAL: Hospital facilities easily available. No advance notice required unless for emergency cases and for cases to be urgently treated during night and holidays.

TANKERS: 2 tanker berths are situated in line at Southern breakwater, called "Molo Mezzogiorno". There are 3 pipe-lines, diameters of 8 in., 6 in., 4 in. No discharge facilities for tank washing.

Tankers are not allowed to berth or unberth at night.

SALINITY: Average salinity of water inside the port is the same as the average salinity of Mediterranean.

FRESH WATER: Available at nearly all quays including bunker piers.

FUEL: Bunkers available and supplied only by pipe connection at Bunker pier (Molo Mezzogiorno). Max. rate 400 t.p.h.

CUSTOMS ALLOWANCES: Tobacco, for foreign ships not in coastal service in Italian Ports: 50 cigarettes per each crew member, for the first 24 hours of the ship's stay in port. Other cigarettes can be obtained for which an application to the Customs House is required. Spirits: 2 or 3 bottles per day (provided minimum 20 crew members).

CONSULS:

Austria
Belgium
Denmark
Finland
France
Germany
Greece
Nicaragua
Norway
Netherlands
Portugal
Spain
Sweden

REPAIRS/DRY DOCK: Small repairs can be carried out at Catania. No dry docks available.

AIRPORT: Very near important airport with regular international flights.

TIME: GMT plus 1 hour. In Summer time GMT plus 2 hours.

HOLIDAYS: Normally, during all holidays it is possible to work with extra payment.

TELEPHONES: Numbers of emergency services: Police 226741; Fire Brigade 227702; Sanitary Office 226262; Harbour Master 226762.

AUTHORITY: Capitaneira di Porto.

CIVITAVECCHIA: 42.05 N. 11.47 E.

DOCUMENTS: On arrival:

4 Crew Lists.
4 Lists Passengers in Transit.
4 Lists Passengers Disembarking.
2 Provisions Lists.
2 Lists of Crew Articles, including Tobacco, Cigarettes, Spirits, Radio, etc.

Manifest(s) and Bill(s) of Lading n/n covering all cargo on board.

It is recommended that particular care be exercised in giving the exact weight and number of tobacco, cigarettes, spirits, paper for cigarettes, cigars, cigarillos, coffee, sugar, salt, pepper, spices, cocoa and chocolate, etc., on board, as well as bunker quantities and lub. oil, thus avoiding fines in case the Customs guards in searching vessel subsequently should find any concealed.

PILOTAGE: Pilots are advised of vessel's arrival by port authorities and by Agents. Therefore accurate advance notice of ETA should be addressed by Master to Agents. Pilot usually boards vessel within 2 miles of port. Pilot station in port area.

ANCHORAGES: Any vacant place assigned by port authorities, taking into account vessel's draft. If port is congested vessels anchor at roads. Pilot assistance is recommended.

RESTRICTIONS: No restrictions are imposed upon entry. With the exceptions of particular individual cases to be submitted for perusal to harbour authorities, vessels may berth and sail at any time, weather permitting.

MAX. SIZE: Max. permissible draft: 29 ft.

HEALTH: Clearance is granted by radio; Master to cable Sanimare Civitavecchia 24 hours prior to vessel's arrival. Quarantine requirements are those prevailing in all other Italian ports.

RADIO: Communications to and from vessels are sent and received from Civitavecchia Radio.

TUGS: Tugs wait for vessel at port entrance. Tug assistance is necessary although not compulsory. Ship's lines have to be used.

BERTHING: Shore fenders keep vessel off the quay. Berths:

No. 2 for vessels up to 180 m. length, 28 ft. 6 in. draft.
No. 7 for vessels up to 160 m. length, 25 ft. draft.
No. 8 for vessels up to 240 m. length, 29 ft. draft.
No. 9 for vessels up to 130 m. length, 23 ft. 6 in. draft.
No. 10 for vessels up to 220 m. length, 29 ft. draft.
No. 11 for vessels up to 220 m. length, 29 ft. draft.

Grain Silo located at berth No. 8.

SPECIALISED CARGO HANDLING FACILITIES: Berth No. 8: grain silo of 35/40,000 tons capacity is available; this berth is equipped with 2 rail-suckers, 4 movable suckers and 1 elevator. Ore, coal, fertilisers, sulphur, etc. can be handled at quays No. 2/7/9/10 and 11. Structures for containers not available here, nevertheless small traffic might be practicable. Roll-on/roll-off traffic practicable. Liquid chemicals practicable. No facilities exist for LPG carriers.

STEVEDORES: To enable Agent to order gangs it is very important to obtain accurate ETA in good time.

From 0800 to 1200 hrs. and from 1300 to 1700 hrs., or from 0600 to 1230 hrs., from 1230 to 1900 hrs. and from 1900 to 0030 hrs. against payment of 32.50% extra.

Saturday: From 0600 to 1230 hrs. against payment of 32.50% extra; from 1230 to 1900 hrs. and from 1900 to 0030 hrs. against payment of a further increase of 25%.

Sunday: Work can be performed at overtime rates plus 50% extra from 0600 to 1230 hrs., from 1230 to 1900 hrs. and from 1900 to 0030 hrs.

Holidays: Work can be performed at overtime rates plus 150% extra from 0600 to 1230 hrs., from 1230 to 1900 hrs. and from 1900 to 0030 hrs.

MEDICAL: Not necessary to receive advance note of required medical attention. Hospital and clinical surgery available. Master to advise in advance of particular inoculations required.

TANKERS: Max. draft allowed 28 ft. 6 in. Max. length 180 m. Tankers are not permitted to enter port before sunrise and after sunset. Diameter of discharge lines 8–10 in.

FRESH WATER: Drinking water and water for boilers is supplied from pier by hoses. Average pumping rate 8–10 t.p.h.

FUEL: Bunkering can be effected by means of barges and/or tank-lorries at all quays. Grades available: fuel oil and gas oil.

GANGWAY/DECK WATCHMEN: Watchmen services recommended.

OPENING/CLOSING HATCHES: First opening and last closing normally carried out by crew.

CERTIFICATES: Requirements are those prevailing in all other Italian ports, e.g. Tonnage Certificate, Safety Equipment, Load Line, Deratting Certificate, etc.

CUSTOMS ALLOWANCES: Tobacco. Quantity permitted to each crew member: 50 grams to be smoked within first 48 hours. Wine and/or Spirits. 1 open bottle of spirits.

IDENTIFICATION CARDS: Required. Passes issued by local police.

CONSULS: There are no Consulates, but only Consular Agencies or Honorary Representatives for the following countries:

France	Tel. 23044	Spain	Tel. 24304
Sweden	Tel. 23109	Norway	Tel. 25207
Finland	Tel. 23134	Portugal	Tel. 23048

Nearest British Consulate is in Rome.

REPAIRS: Repairs of limited extent and importance may be carried out by 2 local workshops.

REPATRIATION: Facilities exist to effect crew changes and to arrange repatriations.

AIRPORT: Distance from Airport Leonardo da Vinci (Rome) 70 km.

TIME: 1 hour in advance in relation to GMT. Clock will be advanced 1 hour in Summertime, giving 2 hours advance of GMT.

HOLIDAYS: All Sundays, 1st and 6th January, 19th March, 25th and 28th April, 1st May, 2nd and 29th June, 15th August, 1st and 4th November, 8th, 25th and 26th December, Easter Monday, Ascension Day, Corpus Domini. Holiday work is subject to the authorisation of port authorities.

POLICE/AMBULANCE/FIRE: Police, 23729; Ambulance, 23382; Fire, 23333.

TELEPHONES: Can be connected on board vessels at quays No. 7 and 10.

DEVELOPMENTS: Availability of quay No. 0 dredging to 30 ft., length 180 m., equipped with 2 cranes of maximum lifting capacity of 35 tons each. Extension of outer breakwater and deepening of the basin.

The port is being developed to receive tankers up to 80,000 d.w.t.

AUTHORITY: Capitaneria di Porto.

FIUMICINO: 41.46 N. 12.13 E. (See Plan Book)

DOCUMENTS:

3 copies of Crew List.
Store Manifest.
List of Personal Effects.
Manifest of Cargo.

PILOTAGE: Vessel should await Pilot about 0.5 mile off the tanker loading platforms which are situated in the following positions:

Platform R1: Lat. 41° 45′ 06.64″ N. Long. 12° 09′ 15.73″ E.
Platform R2: Lat. 41° 44′ 37.44″ N. Long. 12° 10′ 04.79″ E.

ANCHORAGE: Vessels waiting to berth should anchor to the South of Platform R2, not less than 1 mile from the platform. The anchorage is not recommended during strong South or South-westerly winds, and in unfavourable weather conditions it is advisable for vessels to remain underway.

It is forbidden to use anchors in the near vicinity of the tanker berths, due to the presence of underwater pipe-lines. When approaching the moorings, anchors must be firmly secured in the hawse.

RESTRICTIONS: Pilotage and mooring is not carried out during hours of darkness. Unmooring possible day and night.

MAX. SIZE: Ships of any length can be moored.

At R1 platform, water depth 23 m., max. draft 54 ft.
At R2 platform, water depth 19.50 m., max. draft 46 ft.

From time to time it may be possible to allow greater drafts subject to Pilot's advice.

HEALTH: Sanitary pratique can be granted by radio cabling "Sanimare Fiumicino", 36 hours (48 hours in case of arrival a day after holiday) before arrival stating: last port, number of crew and good health of same, ship's flag – using international code.

RADIO: Advise Refinery of vessel's ETA 72 hours before arrival via Roma Radio. Confirm ETA 24 hours before arrival.

Vessels arriving for the first time at Fiumicino should also advise dimensions of vessel's manifold flange connections, as follows: distance from bow, distance from ship's side, height above deck, outside diameter, inside diameter, number of holes, distance between centre of opposite holes and diameter of holes.

Vessels should also communicate draft, cargo temperature, lifting power of derrick, voltage and type of current on board (AC/DC) and vessels loading should also advise quantity of ballast on board.

During cargo operations, the tanker will communicate by radio-telephone with the pumping station and the refinery.

VHF: Pilot station on VHF Channel 6. Listens during daylight hours only.

TUGS: Not required for mooring.

MEDICAL: Local doctor and hospitals available in Rome.

TANKERS: 2 offshore mooring platforms, R1 and R2, connected to sea-lines of 20 in., 28 in. and 36 in. diameters. Loading rates 600 to 1,200 cu.m. per hour. Rate of discharge 2,500 to 4,000 cu.m. per hour.

Mooring: Vessel to have ready on arrival: port derrick rigged for hose handling; boat-rope, pilot ladder, heaving lines and lifebuoys on both sides; 3 good mooring lines at the bow, each not less than 150 m. length.

Vessel is moored by the bow about 30 to 50 m. distant from the mooring platform. All ship's ropes are led back and secured on board to facilitate unmooring.

Hoses: Connecting and disconnecting hoses performed by refinery personnel, vessel to supply winchman and man the derrick. Derrick capacity to be at least 3 tons. Each platform is equipped with 2 floating hoses, about 200 m. long, which drift fully extended when berth is not occupied.

BALLAST: Raffineria di Roma can accept dirty ballast or tank washings up to a maximum of 15,000 tons. Recommended advise before arrival the quantity of ballast to be discharged. Ballast should be reduced to a safe minimum to save time at the mooring berth.

SALINITY: 25-28 grams per litre.

FRESH WATER: Supply by barge 100 tons per trip.

FUEL: Bunkers not available, only lubeoil in drums can be supplied.

CUSTOMS ALLOWANCES: 40 cigarettes per day for 3 days for each Crew member.

CONSULS: All Consulates and Embassies in Rome.

REPAIRS: Small repairs can be effected but no dry dock.

AIRPORT: International airport "Leonardo da Vinci" at Fiumicino.

TIME: GMT plus 1 hour.

REGULATIONS: Raffineria di Roma will hold vessel responsible for consequences of any pollution caused by oil leaking or discharged from the ship. Strictest precautions to be observed.

Engine to be kept ready to leave the berth in the shortest possible time.

Propeller movements are forbidden while vessel in berth, due to presence of floating pipe-lines.

WINDS: In the Fiumicino roads the strongest winds come from S.W., but all winds coming from S.E. to N.W. can cause such storms that can be dangerous both for moored ships and anchored ships.

Northern winds, being partially weakened by the coast, are dangerous only when exceptionally strong.

Usually storms begin with S.E. winds, which then turn South-westerly reaching their maximum force; then they usually turn Northerly or North-westerly, finally weakening; this cycle can endure from 3 days up to more than a week. However the above cycle does not always develop in this way, since the peculiar characteristic of this zone is the rapidity by which wind can change both in force and direction, as well as the sea possibility of becoming rough in a very short time. The stream almost always goes from S.E. towards N.W. at the speed of 0.5 to 1 knot. Owing to the Tiber's mouth, the stream can exceptionally increase in intensity, but due to the distance between terminals and shore, we have never had up to now any example of intensity increased to such a point as to be dangerous for mooring and anchoring ships. Tides are practically negligible; in fact the maximum difference between high and low tide is about 0.40 m.

GENERAL: The refinery personnel will set up floodlights on deck but power is to be provided by the vessel as is assistance in the setting up.

A refinery representative will remain on the vessel to supervise cargo inspection, loading/unloading and surveillance. He is to be provided with accommodation and meals.

A room is to be provided for the radio connecting vessel with the refinery.

A Raffineria di Roma S.p.A. representative will, upon boarding the vessel, require a letter, stating:

(a) the minimum discharge rate of crude oil, products or ballast or the maximum loading rate;
(b) the maximum back pressure to be maintained at ship's manifold;
(c) amount of cargo requested for loading vessel.

TERMINAL OPERATOR: Raffineria di Roma S.p.A.

AUTHORITY: Il Comandante del Porto.

GAETA: 41.13 N. 13.35 E. (See Plan Book)

PORT LIMITS: Although not reported on nautical charts, port limits may be considered as the seaward boundaries of the compulsory pilotage area.

DOCUMENTS:

6 copies Crew List
6 copies Passenger List
6 copies Cargo Manifest
3 copies Provisions Manifest (store list)
3 copies List of Crew Personal Effects
2 copies Arrival Report (on form submitted by Agents)
2 copies Maritime Health Declaration
Vaccination Certificates for sighting
Ship's Certificates including Italian Authority dues.

PILOTAGE: Compulsory for entering roads, docking and undocking. Seaward boundaries of compulsory pilotage area within 2 miles from Punta Stendardo, up to a line joining Punta Stendardo with Torre Scauri (line bearing about 65° from Punta Stendardo). Pilots meet vessel about 2 miles from Punta Stendardo and can be contacted by VHF (calling Channel 16, working Channel 12) 1 hour before vessel's arrival.

Advance notice to Pilots given by vessels Agent.

ANCHORAGES: Safe anchorage can be found outside the compulsory pilotage area or, according to Pilot's instructions, inside above said area.

RESTRICTIONS: No restrictions outside the compulsory pilotage area. Inside above area vessels to keep clear from prohibited anchorage areas, sea berth facilities and mooring buoys, mooring buoys for military vessels, oil jetty facilities and mussel beds.

Also see "Berthing".

MAX. SIZE: Inside compulsory pilotage area, max. permissible length, breadth, draft, within values of 200,000 d.w.t. class VLCC.

Also see "Berthing".

HEALTH: Pratique automatic for vessels coming from ports in Italy, U.K., France, Belgium, Holland, W. Germany, Greece and Spain.

Otherwise free pratique granted by local Health Officer who boards ships on arrival together with harbour officers, between 0700 hrs. and sunset. In order to facilitate boarding by officers at anchorage or berths, it is requested that vessels have a convenient accommodation ladder/gangway ready.

RADIO: 72, 48 and 24 hours definite notice to Agent through Roma Radio (IAR).

VHF: Port Authority, Pilots, Tugs, Oil sea berth, Oil jetty and Agency offices equipped with VHF; calling Channel 16.

TUGS: Tugs standing just inside Punta Stendardo, being called for service by the boarding Pilot. Ship's lines used.

Tug-boat assistance compulsory, for vessel over 1,600 g.r.t., for docking and undocking; stand-by tug compulsory, for vessel loading or discharging at oil jetty (but not at oil sea berth), from connection to disconnection of cargo hoses.

BERTHING: Oil sea berth for VLCC's discharging crude oil, Oil jetty for tankers discharging/loading crude oil and oil products, Dry cargo main quay "Caboto", Dry cargo pier "Genepesca", Dry cargo quay under construction expected to be operative about September 1978. Docking/undocking normally performed in daytime only with possible exceptions.

VLCC sea berth: owned by Messrs. S.I.O.G. (Societa' Italiana Oleodotti Gaeta) for class VLCC 200,000 d.w.t. discharging crude oil. Restrictions for vessels within above d.w.t. class not yet officially issued. Max. values of d.w.t., length, draft of vessels already called:

—Max. d.w.t.: 260,000 (VLCC Athene)
—Max. length: 349 m. (VLCC Agip Lazio)
—Max. draft: 20.30 m. (VLCC Agip Lazio)

S.I.O.G. sea berth consisting of 2 submerged mooring blocks and 5 mooring buoys fitted with mooring wires 44 mm. diameter and messenger wires 20 mm. diameter.

The S.I.O.G. sea berth submerged manifold (approximate position 41° 13′ 27″ N., 12° 36′ 23″ E.) is marked by a beacon-buoy with flashing red light. Two buoys are located to the W.S.W. of the mooring berth to indicate the berthing line (about 077°).

The pipe-line to the shore is 42 in. diameter, and about 3,150 m. length. Two partially floating cargo hoses 16 in. diameter having steel flanges 16 in. diameter, ASA 150, connected to the submerged cargo manifold, to be lifted on vessel's portside by ship's hose derrick required to have S.W.L. 10 tons.

One or 2 extra tugs (in addition to the 3 existing in the port of Gaeta) may be needed for berthing larger size vessels at the sea berth, said extra tugs to come from Naples with adequate advance notice.

G.I.P. Oil Jetty: Owned by Messrs G.I.P. (Gaeta Industrie Petroli) for tankers discharging/loading crude oil and oil products.

Restrictions:

Maximum permissible draft	48 feet
Maximum permissible distance between cargo manifolds and vessel's stern	450 feet
Maximum permissible height of above vessel's cargo manifold from sea level	49 feet

Tankers up to 60,000 d.w.t. normally berth and operate at G.I.P. oil jetty; tankers over 60,000 d.w.t. and up to 90,000 d.w.t. may be berthed at oil jetty or at sea berth according G.I.P. advice; tankers over 90,000 d.w.t. will find berth at sea berth.

G.I.P. oil jetty is a finger jetty with 3 berths: North berth with restrictions as above; South berth for vessels up to 39 feet draft; stern berth for small coastwise vessels.

North and South berths equipped with 4 articulated 8 in. steel pipe connections.

Dry cargo quay "Caboto": 106 m. long quay with max. offical draft limitation of 20 ft.; vessels up to 130 m. length, drafts up to 20 ft. fwd and 22 ft. aft, are normally accommodated.

Dry cargo pier "Genepesca": 50 m. long pier with 1 berth each side for vessels up to 15 ft. draft.

Dry cargo handling: Cargo normally handled – general cargo, clay, kaolin, fertilisers, animal-feed, frozen commodities, klinker, cement, steel rounds, steel coils, aluminium ingots, etc.

CRANES: 4 mobile dock cranes available, each having max. lifting capacity 30 tons (normal working capacity 15 tons).

STEVEDORES: Compagnia Lavoratori Portuali 'G. Caboto'. Gangs ordered by Agents dealing with cargo.

BALLAST: At all berths only clean ballast can be pumped out. G.I.P. oil jetty equipped with system for discharging ballast ashore through 8 in. connections and a 1600 m. long 10 in. pipe-line at a rate of about 400 – 450 t.p.h.

FRESH WATER: Of excellent quality supplied to ships at all berths but not at sea berth. At sea berth or at road, fresh water can be supplied by tug-boat but expensive.

FUEL: Supplies of Bunker "C" and Gasoil can be arranged ex-installation at G.I.P. oil jetty; a minimum quantity of 200 tons is required for fuel and 100 tons for Gasoil. At dry cargo berths bunkers can only be arranged by road tanker. Bunkers not available for vessels accommodated at sea berth.

REPAIRS: Minor steel and machinery repairs currently performed by local machine shops; major repairs may be effected by personnel and equipment from Naples.

DRY DOCKS: 2 dry docks for vessels up to about 70 m. length.

SURVEYORS: Lloyds, A.B.S. and other Classifications Societies Surveyors obtainable from Naples.

MEDICAL: Physician, Dentist, Eye and other Specialists available. Hospital and Nursing Home in Formia (7 km. from Gaeta); new hospital being built in Gaeta, expected to be operative in the near future. Inoculation service available. Vaccination Certificates issued. Extension of Deratisation Certificates granted.

CUSTOMS ALLOWANCES: 40 cigarettes and one opened wine/spirit bottle per man.

IDENTIFICATION CARDS: Shore passes issued by local police.

REPATRIATION: Facilities available for effecting crew changes and arranging repatriation.

AIRPORT: Nearest airports Naples (96 km.) and Rome (International airport 135 km.).

TIME: GMT + 1 hour October to April; GMT + 2 hours May to September.

POLICE/AMBULANCE/FIRE: Police station telephone numbers: 113 (emergency); 460031; 460474. Ambulances telephone numbers: 24361; 24461. Fire department telephone number: 460270; 460931.

TELEPHONES: Arrangements for placing telephone aboard vessels not available.

DEVELOPMENTS: New dry cargo wharf under construction, expected to be operative September/October 1978, depth of water 10 m.

AUTHORITY: Capitaneria di Porto, Gaeta.

AGENT: Italnoli, Lungomare Caboto, Palazzo Albani 3, 04024 – Gaeta, Italy. Cable Address: "Italnoli – Gaeta". Telex: 68050 Italgaet. Tel. 460572, 460915. *After Hours:* 460087, 460859.

GELA: 37.04 N. 14.15 E.

DOCUMENTS:

For Maritime Authority:
- Arrival Report.
- Crew List.
- Passenger List.
- Ship's Certificates, for sighting.

For Port Health:
- Maritime Declaration of Health (2 copies).
- Vaccination Certificates, for sighting.

For Customs:
- List of supplies and engine stores.
- Cargo Manifest enclosing Bills of Lading.

For Police:
- Passenger List (2 copies).
- Crew List (2 copies).
- Shore Passes for all Passengers and Crew.

PILOTAGE: Pilots are requested by International Code signals. (Flag or whistle acoustic signal, 2 long and 1 short blast). Telegraphic address: Piloti del Porto Gela. ETA required at least 2 hours before arrival. No VHF.

The pilot boat has black hull, white cabin with letter "P" painted in black on both sides. The pilot boat stationed near port island, Pilot boards about 1 mile off the port.

ANCHORAGE: Anchorage for vessels waiting Pilot about 1 mile West of the head of the Western breakwater, South of the 10 m. depth line. Small vessels may anchor to the West or East of the pier not less than 0.2 miles from the pier and in such a position as not to obstruct vessels berthing or leaving from the dock or the pier.

RESTRICTIONS: Entry only between sunrise and sunset.

MAX. SIZE: Dry Cargo vessels: 180 m. length, 30 ft. 6 in. draft. Tankers berthing at the Mole: 250 m. length 31 ft. draft. Sea Line Tanker terminal: 250 m. length, 44 ft. draft. Up to about 60,000 d.w.t.

HEALTH: No radio pratique. Free pratique can be given on board on request.

RADIO: Roma Radio, or Augusta Radio. Messages are forwarded quicker through Roma Radio.

TUGS: 1 stationed to West or East of the pier, depending on weather and tide. Use of tug lines is optional.

BERTHING: The Anic Pier has berths on both sides in depths of 30 to 31 ft. Jetty is 2,800 m. length, and is protected by a breakwater. 2 berths suitable for dry-cargo vessels of up to 10,000 d.w.t. are available at the jetty terminal platform.

At the Breakwater there are 2 berths suitable for tankers up to about 34,000 d.w.t., plus 4 other berths for smaller vessels. See "Tankers".

TANKERS: Anic Sea Line Terminal: situated about 1 mile off the breakwater, a crude oil discharge berth in depth of 15 m. served by 34-in. sea-line terminating in two 12-in. flexible hoses. No slop discharge facilities. At the breakwater, Berth Nos. 1 to 6 for loading refined products and LPG can accommodate vessels up to 34,000 tons with max. draft 31 ft. These berths are also used for discharging crude oil and naphtha.

Storage tanks situated up to about 15 m. above sea level.

STEVEDORES: Should be ordered 12 hours in advance. Ship's gear used in dry-cargo operations although 5-ton mobile cranes are available. 2 shore cranes are available fitted with grabs for discharge of bulk sulphur and phosphates.

MEDICAL: All assistance can be arranged at 2 hours notice to Agents. Hospital and private clinic available. Vaccinations and inoculations with relative certificates can be arranged.

DENSITY: 1024.

FRESH WATER: Available at all berths. Not available at Sea-Line Terminal.

FUEL: Usually available without notice. Bunker oil is only supplied at breakwater berths.

OPENING/CLOSING HATCHES: Optional to employ shore personnel.

CUSTOMS ALLOWANCES: As for other Italian Ports.

IDENTIFICATION CARDS: Required.

CONSULS: No local representation.

REPAIRS: Only minor repairs possible.

AIRPORT: Catania, 104 km. away, 8 flights a day to Rome.

TIME: GMT plus 1 hour. Summertime: GMT plus 2 hours.

HOLIDAYS: New Year's Day (1st January); Epiphany (6th January); St. Joseph (19th March); Liberation Day (25th April); Labour Day (1st May); Easter Monday Ascension Day; Corpus Domini; Proclamation Day (2nd June); St. Peter and St. Paul (29th June); Assumption B.V. Maria (15th August); Patron Saint (8th September); All Saints' Day (1st November); Victory Day (4th November); Immaculate Conception (8th December); Christmas Day (25th December); Boxing Day (26th December).

POLICE/AMBULANCE/FIRE: Police, tel. 30091; Ambulance, 37058; Fire, 30222.

SHORE LEAVE: Allowed.

DEVELOPMENTS: 2 additional berths at the new pier situated to the West of the Anic pier, suitable for vessels of up to about 7.31 m. (24 ft.) draft and used for loading ammonia and discharge of sulphuric acid.

AUTHORITY: Ufficia Locale Maritimo.

GENOA: 44.24 N. 08.54 E. (See Plan Book)

DOCUMENTS:
- 6 Crew Lists.
- 6 Passenger Lists.
- Provisions Manifest.
- Manifest of Crew Personal Effects.
- 3 Cargo Manifests.
- Arrival Report, completed on arrival.
- Maritime Declaration of Health Certificate, completed on arrival.
- Ship's Certificates including Italian Authority Dues.
- Vaccination Certificates for sighting.

PILOTAGE: Pilots advised of vessel's arrival by port authority and the latter by vessel's Agent. Therefore accurate ETA recommended. Pilotage compulsory for vessels over 500 g.r.t. To contact Pilots and pilot boats, VHF Channel 12. Time of working 24 hours. Pilots board vessel at about 1 mile off port entrance.

ANCHORAGES: In case of port congestion or awaiting Pilot, vessel may anchor outside port entrance, East of the fairway.

Shipmaster's Report: Port Control advised that from 1st June – 3rd September vessels should anchor to the West of the breakwater in 30 fathoms or more as anchorages to the East of the breakwater are considered unsafe during this period.

RESTRICTIONS: Tankers not usually berthed during night-time.

MAX. SIZE: Tankers: up to 46 ft. draft within port, and 500,000 d.w.t. at tower outside the port. Other vessels: 31 to 40 ft. draft. Also see "Tankers" and "Berthing".

HEALTH: Free pratique may be requested by radio to Sanimare, Genoa, between 12 to 6 hours before arrival, advising vessel's name, nationality, last port, number of passengers and crew and state of health on board. Pratique is automatic for vessels coming from ports in Italy, U.K., France, Belgium, Holland, W. Germany and Greece.

RADIO: Genoa Radio, call sign ICB. Agent uses same station when cabling to vessels.

TUGS: Tugs join vessel at port entrance. Ship's line used. 36 tugs available.

BERTHING: Pilot advises Master which side to berth. Shore fenders keep vessel off quay.

Mo Vecchio: 452 m. berthing length; 29–31 ft. permitted draft.

Silos Ponte Parodi: 200 m. berthing length; 36 ft. permitted draft.

Silos S. Limbania: 150 m. berthing length on both sides of the pier; permitted draft: 33 ft. East side, 36 ft. West side.

Ponte dei Mille: East side: 292 m. berthing length; 27–28 ft. permitted draft West side: 265 m. berthing length; 26–27 ft. permitted draft.

Ponte Andrea Doria: East side: 238 m. berthing length; 36 ft. permitted draft. West side: 233 m. berthing length; 36 ft. permitted draft.

Calata Oli Minerali: 474 m. berthing length (bow mooring); 24–36 ft. permitted draft.

Calata Stefano Canzio: 422 m. berthing length (bow mooring); 31–33 ft. permitted draft.

Calata Bettolo: 434 m. berthing length; 30 ft. permitted draft.

Ponte Rubattino: East side: 328 m. berthing length; 34 ft. 6 in. permitted draft. West side: 340 m. berthing length; 27–29 ft. permitted draft.

Ponte S. Giorgio: East side: 390 m. (will soon be in operation); 32 ft. permitted draft (will be 37 ft. 6 in.). West side: 264 m. berthing length; 30 ft. 6 in. permitted draft.

Ponte Ex Idroscalo: East side: 190 m. berthing length; 29 ft. permitted draft. Head: 190 m. berthing length; 35 ft. permitted draft. West side: 260 m. berthing length; 28–32 ft. permitted draft.

Ponte Ethiopia: East side: 255 m. berthing length; 32–33 ft. permitted draft. Head: 146 m. berthing length; 32 ft. permitted draft. West side: 399 m.berthing length; 29–31 ft. permitted draft.

Ponte Eritrea: East side: 388 m. berthing length; 29–31 ft. permitted draft. Head: 145 m. berthing length; 31 ft. permitted draft. West side: 398 m. berthing length; 29–31 ft. permitted draft.

Ponte Somalia: East side: 390 m. berthing length; 30–32 ft. permitted draft. Head: 165 m. berthing length; 34 ft. permitted draft. West side: 401 m. berthing length; 29–34 ft. permitted draft.

Ponte Libia (No. 1 Container Terminal) East side: 401 m. berthing length; 29–31 ft. permitted draft. Head: 167 m. berthing length; 34 ft. permitted draft. West side: 399 m. berthing length; 34–35 ft. permitted draft.

Ponte Canepa: West side: 397 m. berthing length; 27–30 ft. permitted draft.

Ponte Nino Ronco (No. 2 Container Terminal): East side: 400 m. berthing length; 38 ft. permitted draft.

Banchina Italsider: 500 m. berthing length; 40–44 ft. permitted draft.

CRANES: Over 300 cranes and elevators with lifting capacities ranging from 1 to 45 tons. Over 80 self-propelling cranes with lifting capacities ranging from 4 to 45 tons. 26 floating cranes with lifting capacities of up to 350 tons.

CONTAINER HANDLING FACILITIES: Ponte Libia: Depth alongside: 34–35 ft.; length of quay: 399 m. along Western side of the pier served by 2 portainers, and 167 m. on the Southern side not served by the portainers.

Fixed Equipment: 1 "Paceco-Vickers-Savigliano" crane having a maximum lifting capacity of 40 tons and the following main characteristics:

Gauge of crane gantry 27 m. (88 ft. 6 in.).

Maximum height of structures above wharf level 31 m. (101 ft. 7 in.).

Total length of travelling bridge 69 m. (226 ft. 4 in.).

Maximum seaward outreach 28.8 m. (94 ft. 3 in.).

Useful travel of spreader with bridge partially drawn back for crane working on the quayside 23.3 m. (76 ft. 4 in.).

Maximum height of spreader above wharf level 20.5 m. (67 ft. 2 in.).

Crane suitable to unload containers by 20 ft., 30 ft., 35 ft., 40 ft., spreaders; other cargoes by hook (capacity 40 tons); bulk material by bucket (capacity 15 tons).

1 "C.M.I." portainer having a maximum lifting capacity of 42 tons (50 tons by hook) and the following main characteristics:

Gauge of crane gantry 27 m. (88 ft. 6 in.).

Maximum seaward outreach 36 m.

Maximum height of structures above wharf level 20 m.

Useful travel of spreader with bridge partially drawn back for crane working on the quayside; 27 m.

Crane suitable to load/unload containers by 20 ft., 30 ft., 35 ft., 40 ft.; other cargoes by hook (capacity 50 tons).

1 Transtainer (gantry crane) having a maximum lifting capacity of 40 tons and a total rail length of 190 m.

Another Transtainer will be installed in the near future.

Stockyards with a total area of 70,000 sq.m.

Shed with loading platform and steel supporting frame 100 m. (328 ft.) long, 25 m. (82 ft.) wide and a total area of 2,500 sq.m. (26,910 sq.ft.).

Ponte Nino Ronco: Depth alongside: 38 ft. Length of quay along Eastern side of the pier where 2 container ships can operate simultaneously: 400 m.

Fixed Equipment: 2 "Paceco-Vickers-Reggiane" cranes having a maximum lifting capacity of 45 tons and the following main characteristics:

Gauge of crane gantry 27 m. (88 ft. 6 in.).

Maximum height of structure above wharf level 31 m. (101 ft. 7 in.).

Total length of travelling bridge 74.85 m. (245 ft. 6 in.).

Maximum seaward outreach 35 m. (114 ft. 8 in.).

Useful travel of spreader with bridge partially drawn back for crane working on quayside 28 m. (92 ft.).

Maximum height of spreader above wharf level 20.5 m. (67 ft. 2 in.).

Crane suitable to unload 20 ft., 30 ft., 35 ft., 40 ft., container using telescopic spreader; other cargoes by hook (capacity 45 tons); bulk materials by bucket (capacity 15 tons).

Independent in-and-out 6-lane customs checkpoint, with weighing plants, rail and road sidings to the Sampierdarena base network and to Lungomare Canepa respectively.

Check-point buildings covering total surface area of 875 sq.m. (9,418 sq.ft.) and of 9,620 cu.m. (339,728 cu.ft.) in volume, divided as follows:

Building No. 1 to accommodate Police, Customs guard, Italian State Railways, the heating plant and other services.

Building No. 2 to accommodate Port Authority, Customs and commercial offices which can be enlarged by 3,000 additional cu.m. (105,944 cu.ft.).

1 metallic shed with loading platform for both railway cars and lorries, for consolidation (groupage) operations, having an area of 1,400 sq.m. (15,070 sq.ft.).

Special paving which allows stacking of containers up to 5 high.

The Ronco Pier has the possibility of internal direct communications with Sampierdarena docks through the Calata Derna (Derna quay), the possibility of direct connection with the harbour elevated road through ramps at the end of the pier and the possibility of doubling the berthing places along the Western side of the pier.

Stockyard for a total area of 80,000 sq.m. (35,000 sq.m. enlargement will be completed in 1979).

Mobile Equipment (for both container terminals):

The two terminals are equipped with:

15 straddle carriers

1 side loader

10 big fork trucks (lifting capacity 10 tons)

70 trucks and tractors

70 trailers and flat cars (others available when necessary)

30 fork trucks (lifting capacity 2–3 tons) for stuffing and stripping (others available when necessary).

SPECIALISED CARGO HANDLING FACILITIES: See "Berthing" for max. draft.

Ro/Ro Terminals: 20 special berths at Ponte Calvi, Ponte A. Doria, Calata S. Lazzarino, Ponte Colombo, Ponte Assereto, Calata San Benigno, Calata Bettolo, Calata Bengasi, Calata Tripoli, Ponte Canepa and Calata Derna, 45,000 sq.m. parking areas.

Cotton: 2 warehouses at Molo Vecchio, totalling 42,000 sq.m. in area and a 85,000 bale capacity.

Grain Silos: There are 2: One at Santa Limbania (65,000 ton storage capacity – 600 t.p.h. unloading capacity). One at Ponte Parodi (45,000 ton storage capacity – 450 t.p.h. unloading capacity).

Maritime Passenger Stations: One at Ponte dei Mille and another one at Ponte Andrea Doria, capable of dealing with 5,000 passengers a day.

Three stations for Ro/Ro passengers at Ponte Calvi, Ponte Colombo and Calata Chiappella.

Animal Fats and Oils Depots: Plants at Ponte Assereto, Calata Sanita and Ponte Etiopia.

144 tanks having a total capacity of up to 53,000 tons.

14 barges with a total capacity of up to 12,000 tons.

Timber Terminal: 2 berths at Ponte ex Idroscalo, 50,000 sq.m. area yard.

Coffee: A special warehouse is available at Ponte Etiopia, covering 4,400 sq.m. (this area will soon be doubled). 25,000 sacks can be stored there.

Cellulose Terminals: 2 special berths at Ponte Eritrea and Ponte Somalia. 12,000 sq.m. of covered area.

Export-cargo Clearing Centre: Warehouse of 15,000 sq.m. equipped for the handling of 1,000 tons a day of parcels.

Wool: A special warehouse at Ponte Libia covering a 17,000 sq.m. area. 40,000 bale capacity.

Other Special Plants: Warehouses, depots, and special facilities for wine, salt, skins, bananas, coal.

TANKERS: Berths in Genoa Harbour suitable for tankers up to 750 ft. length, 34 ft. draft. Tankers discharging at Calata Sanita and Calata Olii Minerali are berthed stern to quay.

Multedo Harbour situated West of main harbour has the following jetties:

Multedo Pier – for vessels up to 588 ft. length, 31 ft. draft.
Pier "A" – for vessels up to 580 ft. length, 36 ft. draft.
Pier "B" – for vessels up to 850 ft. length, 43 ft. draft.
Pier "C" – for vessels up to 850 ft. length, 46 ft. draft.
Pier "D" – Presently accommodating tankers up to 46 ft. draft.

Discharge Rate: Maximum discharge rate for crude products:

Pier "A"	2,500/3,500 t.p.h.
Pier "B"	3,500/6,000 t.p.h.
Pier "C"	6,000/10,000 t.p.h.
Pier "D"	6,000/10,000 t.p.h.

Masters may speak direct to Pilots or Harbour Masters at Multedo Oil Berth in order to obtain latest information about berthing, etc., by calling on VHF Channel 6.

Buoy Terminal: A steel tower, set up about 2,800 m. off the Genoa Multedo Oil Dock in water 50 m. in depth is provided for the discharge of crude oil from supertankers up to 500,000 d.w.t. Unloading capacity 14,000 cu.m./h.

A 48 in. (120 cm.) submarine pipe-line connects the tower with the terminals of all the oil companies operating at the Multedo Oil Dock.

Technical Characteristics: The tower consists of a steel structure having the form of a truncated pyramid set into the sea-bed at a depth of 50 m. and supporting the following parts above the level of the sea:

A lower platform having quarters for the accommodation of personnel or the housing of the various services, the deck being at a height of 6.335 m. a.s.l. This platform is protected by a steel structure mounted on elastic supports, with wooden fenders topped with rubber buffers. The toroidal structure, externally to the rubber buffers, is 34.200 m. in diameter. Under the impact of a vessel, the ring will shift axially for a distance of 2 m. as a result of the system of shock absorbers which support the lower platform.

An upper platform 10.335 m. a.s.l. which carries the rotating arm for berthing tankers and the connection of the floating discharge hoses. The rotating arm reaches a height of 13.882 m. a.s.l. and is fitted with:

(a) a bollard capable of withstanding a horizontal pull of 360 tons;
(b) 2 pipes 24 in. in diameter running to a double universal joint at sea level for connecting the riser of the submarine line to the floating hoses linking tower and tanker; on the rotating part of the tower, the two 24 in. pipes are fitted with cut-off valves and may be connected one to the other by means of a by-pass with a gate valve;
(c) a 5-ton service crane;
(d) a lighted beacon and radar reflector at a height of 23 m.

Floating hoses for crude oil discharge: The two 24 in. pipes with which the riser connects on the tower are coupled by universal joints to 2 floating hoses of 24 in. diameter, with 16 in. terminals, each hose being about 310 m. in length and consisting of 29 sections of 10.67 m., of which the last 3 are of 16 in. diameter for connecting to the ship's manifold. They are fitted with a blank flange, a Camlock rapid-closing joint and a Keystone rapid cut-off valve that will ensure perfect tightness and rapid disconnection in an emergency.

The hose connections are exactly 90° left of the bollard with respect to the mooring vessel.

Signal lights and fog horn: The tower is equipped with a regulation flashing white light 23 m. a.s.l. and a fog horn.

The 2 floating hoses are marked at night by 5 red lights visible at a distance of 2 miles.

Request for berth: Mooring at the tower is generally reserved for tankers which, owing to their size and draft, are unable to use the Multedo Oil Dock and have applied for permission to the Port of Genoa Authority Oil Dock Management.

Order of berthing: Arriving tankers that are to work cargo at the tower and are awaiting authorisation to berth thereat must anchor in the roads.

The order of berthing is that of anchorage in the roads and, for vessels authorised to berth, according to the moment when arrival in the roads is signalled to the Port Authority's lookout station at the foot of the main lighthouse in Genoa harbour.

Should it be impossible to communicate with the lookout station, the time when communication is established with the Genoa-Multedo Oil Dock Operations Office over VHF radio, on the frequency that will be notified as soon as possible (normally Channel 6 – 156.3 mc/s.), indicating the point of anchorage or the ship's position, will serve for establishing the order of berthing.

Berthing at the tower will be authorised by the Oil Dock Management upon receipt of the Master's written or radioed assurance that the ship is fully efficient and ready to proceed to berth and commence discharge. The Oil Companies that are receivers of cargoes or in anyway interested as users of the Oil Dock should begin discharge within 4 hours of completion of mooring and continue without interruption, day and night.

Saving cases of proven *force majeure*, vessels moored at the tower must restrict berth occupancy to the time strictly needed for discharge operations and for ballasting.

Berthing at tower: Berthing at the tower will be authorised only weather permitting and must be carried out with the assistance of a Pilot. The Master may ask for the help of tugs, in the number needed to ensure the manoeuvre being executed safely.

Ships should moor using two 15 in. nylon hawsers 65 m. in length, supplied by the tower, each able to withstand a 300 ton pull. The end of each hawser is fitted with a 4.5 m. length of chain of which the last link, devoid of stud, will be made fast to the ship's bow structures for securing mooring ropes.

The section of chain outside the fairleads contains a safety element calculated for a breaking load of 200 tons.

The vessel's mooring structures: anchor plates with aperture for pin, quick release hooks, bollards, steel ropes, warping winches, etc., must be in fully efficient condition and able to withstand the stresses to which they will be subject once the mooring ropes have been made fast to them; they must furthermore allow for the ship's being unmoored at any moment by the crew.

As the mooring hawsers can break for accidental or other unpredictable causes before the limit of 200 tons is reached, despite the inspection normally made before the arrival of each ship, all tankers moored at the tower must at all times have their engines ready to move at full speed.

Safety distance around tower and pipe-line: No ship or other craft may station itself, anchor, fish, or carry out underwater or other activities in the area around the tower and pipe-line, boundaries of which are:

South: parallel 44° 23′ 30″ N.
North: the coast.
West: meridian 8° 49′ 40″ E.
East: meridian 8° 49′ 20″ E.

Excepting for tankers proceeding to the tower and the craft providing harbour services and assistance, or other craft which have been duly authorised, no vessel or whatsoever craft may sail within a radius of 800 m. of the tower.

Mooring and warping ropes: The 2 mooring hawsers will be secured to a bollard which is part of the rotating structure of the tower and about 14 m. a.s.l. When no vessel is at berth, the 2 hawsers float on the surface, supported by red and yellow luminescent sleeves.

The ends of the hawsers are secured to 2 luminescent red buoys which support the lengths of chain that are to be made fast aboard.

Before a tanker arrives, the Port Authority's personnel will make the ends of the chain of each mooring line fast to a big, floating polypropylene rope about 80 m. in length which the vessel must pick up so that she may be slowly warped in to the tower.

Vessel will be moored with the aid of a craft suitable for operations in the open sea.

Watches, emergency services and Master's contacts with personnel engaged in discharge: As though at anchor in the roads, vessels moored at the tower must continue to keep sea watches and retain on board the crew required to cope with any emergency manoeuvre, either for vacating the berth or to meet any other serious event involving the safety of the ship, persons and cargo.

Before commencing discharge, Masters should take steps to see that liaison ensuring rapid and reliable communication between the Oil Dock Management's representatives aboard, the Company interested with the discharge and the Master has been arranged.

Safety measures to keep vessel clear of tower: Vessels at berth must keep sufficiently clear of the outer ring of the tower to ensure that the bow bulb will not collide with the tower structures.

To this end, the Master must adopt all necessary measures and precautions and take such other steps as may be ordered by the Port Authority, including the use of the tender or, should that not suffice, of a tug in order to keep the vessel at a safe distance from the tower.

Vessels needing to activate propellers in order to heat turbines must keep revolution to the minimum and run engines astern.

Hose handling: While vessels are approaching and mooring at the tower, one of the craft will take the floating hoses in tow, arranging and keeping them in a position where they will not hinder manoeuvring.

On completion of mooring, the hoses will be brought alongside the vessel on the port side, so that the ends are level with the ship's manifold, and will be secured to the tackle of the cargo derrick in such a manner that the cargo receivers' personnel and the ship's crew may jointly hoist, connect and get the hoses ready and then begin discharge. Hoses must not be subjected to a pressure of more than 14 kg./sq. cm.

The ship's derrick should be able to lift at least 10 tons.

Stand-by tenders during discharge: During mooring and discharge and until sailing, the Port Authority will keep alongside or in proximity to the tower a stand-by tender of suitable size and power provided with the personnel, material and equipment that will ensure the proper functioning of the tower's facilities and provide any assistance that may be needed in the event of a spillage or other emergency.

Another smaller craft, duly equipped for the purpose, will be provided by the Port Authority for liaison between the Oil Dock, tower, tanker and tender and for transporting personnel or light materials.

The 2 craft will be equipped with continuous listening VHF radio and with anti-pollution and fire-fighting equipment.

Platform services: The services relating to the operation of the tower's fixed and mobile facilities are under the control of the Genoa-Multedo Oil Dock Management, which exercises them through its personnel on the spot.

The employee in charge of services on the tower will be in touch, by VHF radio, with the Oil Dock Management, informing the latter how discharge is proceeding and of any abnormality and receiving from the latter such instructions as may be necessary. Locally, he will keep in touch with the ship's Master and the representative of the Company interested with the discharge in order to facilitate operations in so far as he is responsible and comply with all requests that may result in advantages and in improving safety in general.

Personnel attending to ship's discharge: The Oil Company who is cargo receiver or anyway interested with the discharge and the Master, each within his own field of competence, will jointly supervise and be responsible for discharge and for connecting and disconnecting hoses.

A representative of the cargo receivers appointed for the purpose, will keep in constant touch with the company's booster station and the Oil Dock by means of VHF radio. He will act also in collaboration with the Master and the Port Authority's representative. For connecting and disconnecting hoses, the latter will make available the material and equipment provided on the tender.

Filling of hoses with water when not in use: For reasons of safety and to prevent pollution, the floating hoses must be kept full of water when not in use.

To this end, the 2 hoses are connected in the tower by means of the by-pass before the gate and non-return valves.

In agreement with the Master, the cargo receivers must drain the hoses of water before commencing discharge.

On completion of discharge, the cargo receivers must likewise flush out the hoses to remove all traces of oil, fill then with water, disconnect them, apply the blank flanges, close the Keystone cut-off valves and lower the hoses into the sea.

It is strictly forbidden:

(a) to introduce compressed air or any kind of gas into the hoses or the submarine pipe-line;

(b) to discharge the water from the hoses into the sea at the beginning of operations or that used for flushing the hoses on completion of operations.

During flushing, the cargo receivers must take all precautions against leakage or spillage of the water employed for the purpose.

Interruption of discharge operations for safety reasons: In the event of a deterioration of sea conditions, violent thunderstorms, trouble with the facilities that jeopardises safety, large scale pollution or other dangerous circumstances, the Management of the Oil Dock may, at its own unchallengeable discretion, order:

- immediate interruption of discharge;
- that the hoses be got ready for lowering into the sea;
- the adoption of all such measures as will enable the vessel rapidly to vacate the berth.

In agreement with the cargo receivers, vessels must therefore maintain a trim during discharge that will enable them to take to sea safely at any moment.

Prohibition to pollute. Cleaning up: Ships moored at the tower must not pollute the water with hydrocarbons, solid residues, or oil mixtures of any kind, nor effect gas-freeing or tank cleaning or transfer oil from one tank to another by means of temporary hoses or pipes slung over manholes or other tank apertures.

In the event of oil spills, the Oil Dock Management, without prejudice to the application of the penalties provided by law, will order the anti-pollution equipment of the craft standing by to come into operation at once, at the expense of whomsoever may be concerned, and the despatch of other equipment for cleaning up should it deem this necessary.

Bunkering and victualling: Bunkers, victuals, drinking water and stores must in general be taken aboard while awaiting berth in the roads. Such operations may also be effected with the vessel moored at the tower before or during discharge (but not during ballasting) according to the procedure prescribed by the Oil Dock Management and with observance of the precautions that are ordered.

Ships and any other craft coming alongside tankers must be provided with a sufficient number of strong fenders to prevent hull to hull contact and be fitted with spark arresters on all main and auxiliary engine exhausts.

Authorisation to go aboard: Persons needing to go aboard to do work or for other justified reasons must be provided with an authorisation issued by the Oil Dock Management.

Work on engines: It is forbidden to vessels moored at the tower to carry out works which put the engines out of action or reduce its efficiency.

Other work which cannot be delayed may be authorised exceptionally by the Oil Dock Management at its own discretion provided certain instructions and safety measures are observed.

Transhipments: Vessels moored at the tower may carry out transhipment of their cargoes only to vessels moored in the Oil Dock, for such purposes making use of the pipe-line.

Other regulations: Without prejudice to the regulations currently in force in the waters of the Maritime Department of Genoa, for all such matters as are not expressly provided for in the present regulations there shall be applied, to the extent to which they are applicable, the provisions of the Harbour Police and Safety Regulations for the Genoa-Multedo Oil dock, approved by order No. 10 of the President of the Port of Genoa Authority on the 30th September, 1968, the regulations for bunkering tankers in the Genoa-Multedo Oil dock, approved by decree No. 1384 of the President of the Port of Genoa Authority on the 1st September, 1966, of the Marine Services and Harbour Police Regulations approved by order No. 2 of the President of the Port of Genoa Authority on the 1st March, 1972, and the other laws and regulations in force in the Port of Genoa.

Penalties: Infringements of these regulations will be punished by application of the penalties provided in the Code of Navigation.

Safety rules to complied with during stay of tankers at sea terminal of Genoa-Multedo: The following are the principal safety rules that the Master is bound to strictly comply with and enforce during the stay of the ship under his command of Genoa-Multedo.

1. The main propelling machinery must be kept ready to move (standby) and there must always be available on board a sufficient number of crewmen to enable the ship to leave the berth immediately whenever ordered to by the Port of Genoa Authority (Consorzio autonomo del porto);
2. Vessel must have ready the accommodation ladder on starboard side and – on port side – the pilot ladder rigged forward of the poophouse;
3. Decks and surrounding waters must be properly lighted;
4. When mooring to platform anchors must never be dropped;
5. Vessel's firefighting equipment and the men in charge with its operations must always be ready for immediate action (in case of emergency). Men in drunken state must be watched and kept under supervision;
6. The ends provided with eyes of 2 strong 3.5 in./4 in. wire cables, length of which must be of 80/100 m. (260 ft./330 ft.) at least, must be placed hanging one fore and one aft to enable the ship to be towed out (to sea) in case of fire.
7. Unless authorised to the contrary and which will only be allowed in exceptional cases by the Oil Harbour Master, it is forbidden:

   (a) to carry out repair works, cleaning or gasfreeing of tanks or bunkers, etc.;

   (b) to carry out loading of cargo, water or other liquid products using hoses introduced through the cargo tanks lids.
8. It is strictly prohibited:

   (a) to keep fires of any kind on board, with the only exception of those for the service of ship's boilers and galleys if located in special rooms thoroughly protected against gas exhalations and far from the cargo lines;

   (b) to throw or pump overboard waterballast, bilge-water or water from any other source, that might pollute the port waters;

   (c) to cause escape of oil from the sea valves due to delay in starting the ballast pumps or any other reasons; to cause escape of oil due to leakage of pipes or valves on board; to provoke overflow of oil from cargo tanks. Accidental leakages on deck on deck must be collected into suitable receptacles and – with all precautions – poured again into the cargo tanks or carried ashore; all scuppers on the main deck and particularly those near the cargo manifolds must be plugged during the loading/unloading and ballasting operations;

   (d) the use of devices, tools and wrenches not made of non-sparking material, to connect or disconnect hoses, pipes or pipe fittings and to carry out work to any ship's equipment placed on deck or inside those spaces where the generation and/or presence of gas is possible;

   (e) to smoke on board except in those rooms approved by the Master and to throw overboard lighted matches or cigarettes;

   (f) the use of rocket signals, flares, etc.;

   (g) the use of electric hot plates, fans and other equipment which might produce sparks on deck or into those rooms having openings towards the cargo tanks;

   (h) the use of electric portable lamps and cables and of telephones not being explosion proof;

   (i) to keep open skylights, doors and hatches of spaces located in way of or near the cargo tanks;

   (l) to keep open the cargo tanks lids; to keep open butterworth openings.

   The ship's personnel should take care that all ullage openings and gas vents are provided with spark arresters and that the latter are sound. They also should take care that the spark arresters placed on the funnels and combustion gases exhausts are sound;

   (m) shifting of steel tools, winch manoeuvring, loading and unloading of materials, connecting and disconnecting of cargo hoses during the whole period in which sampling and gauging of cargo tanks is carried out;

   (n) to carry out loading and unloading operations during storms with lightning;

   (o) the idling of pumps. Ship's personnel should immediately stop pumps that – for any reason – should idle;

   (p) the blowing of boiler's tubes;

   (q) the coming onboard of unauthorised people.
9. All engine propelled boats approaching the vessel must be provided with spark arresters on the combustion gas exhausts.
10. During shifting operations into tanks:

    (a) radio apparatus must be switched off and all aerials set to ground;

    (b) cargo lines not in use must have all valves closed and manifolds are to be blank flanged.
11. Loading of ship's stores and equipment should be carried out from the extreme poop. In case the aforesaid operations have to be carried out on deck, near the cargo tanks and should it involve the handling of heavy or metallic materials anyway, all precautions relating to the case or those each time specified by the Oil Harbour Master, should be taken.

    As a general rule the above mentioned operations are not

X

allowed during the loading or ballasting of the ship. The crafts used for the transportation of the materials must approach the ship, stay alongside and move out without making use of the engine.

12. Tankers having on board inflammable or dangerous products, or – being empty or in ballast – having their tanks not certified gasfree, must hoist steadily and well in view, a red flag (letter "B" of the international code of signals) and by night a red light, which can be sighted from round the horizon.

BALLAST: Facilities exist for the collection and clearance of slops by means of special barges.

STEVEDORES: *Working hours:* General cargo: 3 shifts from Monday to Saturday: 0630–1300 hrs., 1300–1930 hrs., 1930–0100 hrs.

A fourth working shift is available from Monday to Friday in the period 15th March/15th November.

Coal, ore, grain: only the first 2 shifts. Italsider Pier: 24 hours daily in 3 shifts.

MEDICAL: All medical assistance available. Advance notice required for urgent cases only.

DENSITY: Varying from 10253 to 10263.

FRESH WATER: Available direct from quay at almost all berths. Supply by lighter, minimum 20 cu. m.

FUEL: All grades available. Delivered by barge. 48 hours notice desirable.

GANGWAY/DECK WATCHMEN: Recommended.

OPENING/CLOSING HATCHES: First opening and last closing normally carried out by crew.

CUSTOMS ALLOWANCES: Tobacco. Customs allow a maximum of 50 cigarettes or 10 cigars, or 50 grams tobacco per person, as long as vessel stays in port. All cigarettes, cigars, etc. must be ready on arrival in a locker in order to be checked and sealed by Customs guards. Wine and/or spirits. Wine allowed any reasonable amounts. Spirits allowed 1 bottle for every 2 Crew members.

CARGO GEAR: Certificates must be in order, otherwise authorities may prevent vessel perform commercial operations, especially if using derricks.

IDENTIFICATION CARDS: Required. Shore passes issued by local police.

REPAIRS: All types of repairs available. Preferable have advance notice of requirements.

DRY DOCKS: 1 floating dry dock, lifting capacity up to 15,000 tons; 7 dry docks (largest dimensions 280×40×12.50 m.). Max. size 100,000 d.w.t.

REPATRIATION: All facilities available.

AIRPORT: Located at about 5 km from town. Served by regular lines, international services.

TIME: Local time in relation to GMT 1 hour ahead. Summer time further 1 hour ahead from May to September.

HOLIDAYS: New Year's Day (1st January); Liberation Day (25th April); Labour Day (1st May); Easter and day after Easter; Patron Saint's Day (24th June); Assumption B.V. Maria (15th August); All Saints' Day (1st November); Immaculate Conception (8th December); Christmas Day (25th December); Holiday (26th December).

Holiday work is available at overtime rates. Generally workers not available on 1st January, 1st May and 25th December. Saturday: work performed after 1200 hrs. is at overtime rates.

POLICE/AMBULANCE/FIRE: Police: tel. 113; 25.69.75; 26.13.95; Ambulance: tel. 59.59.51; Fire: tel. 25.25.25 – 25.80.21.

TELEPHONES: Telephones can be placed on board at the approximate cost of Lire 40,000 for the first 48 hours, and Lire 104,000 for 90 days.

DEVELOPMENTS:

Genoa Port Docks:

Works in progress:

Within the port of Genoa area, the more outstanding works are:

Construction of a 238 m. long wall closing the Eastern inlet of the "Galliera" breakwater;

Carrying out first stage of the new industrial zone including the construction of a giant floating-dock in pre-stressed-reinforced concrete for vessels of up to 350,000 d.w.t. A deep water (−22 m.) 350 m. long, service pier will also be built, together with 400 m. of new quays with 11–20 m. depth alongside and 80,000 sq.m. of connected areas;

Reconstruction of Calata San Lazzarino and Ponte Doria in order to acquire new space for the traffic of Ro/Ro vessels and the connected facilities;

The 125 m. long head quay of Ponte Assereto will be walled with basement at −8.50 m. below sea level. A new openwork pier 140 m. long and new yards 4,500 sq.m. in area to improve traffic within the Ro/Ro vessel zone will be built;

A third container terminal at Calata Sanita will have 669 m. of new berths, 525 m. of which will have 14 m. depth alongside and the remainder 9 m. Junction roads with Piazzale San Benigno and the existing motorway system will also be built along with an open area of 130,000 sq.m. and an 8,000 sq.m. area warehouse:

Conversion of Ponte San Giorgio into a high unloading output facility for bulk cargoes. This involves the complete remake of the road and railway networks and the installation on the Eastern quay of 2 elevators each having a 20 ton lifting capacity;

Enlargement of the pier for the handling of timber by closing and filling in the small basin, Ignazio Inglese, thus recovering a 30,000 sq.m. area;

Resetting of the Ponte Libia and Ponte Canepa zones where new yards for the handling of containers will be recovered;

Enlargement of the Nino Ronco container terminal where a new quay will be built having a total length of 473 m., 331 of which will have 13 m. depth alongside and the remainder 12 m. An adjacent 30,000 sq.m. storage area for containers will also be realised.

Besides the above listed works, there are others worthy of mention as follows:

Resetting of the Nos. 1, 2 and 3 dry-docks where 2 new cranes having 10 and 20 tons capacity will be installed;

Construction of a new office building for the Company of the industrial branch workers;

Construction of a new workshop for the maintenance of self-propelling cranes and locomotives;

Purchase of a new bridge-crane to be installed at Ponte Libia Container Yard. This will have a 54 m. span and a 45 ton lifting capacity.

Medium term works:

Rectification of the Calata Gadda and Calata Boccardo quays thus allowing a more efficient use for ship repair purposes;

Completion of the road and railway improvement works in the zone between the Molo Vecchio Dock and Ponte Morosini;

Enlargement of the Ponte Libia Container Terminal, where the check-point will be moved and the customs limit rectified thus allowing the recovery of a 4,500 sq.m. area;

Second stage of the improvement works at Ponte Canepa where some existing buildings will be demolished and the resulting area acquired for the container traffic.

Long term works:

Completion of the San Benigno area arrangement works.

Oil Harbour:

Works in progress: The cleaning plant will be improved and modified to comply with the IMCO Regulations.

Voltri Dock:

Works in progress:

Seaward filling in works will be continued;

The protection breakwater will be extended 500 m. Eastward;

Construction of the Western undersurge jetty (600 m.) and of a rocky slope connecting the jetty with the existing embankment (150 m.);

End-stretch of the seaward road connecting the material excavation area with the sea zone to be filled in.

Medium term works:

Include part of the works needed to carry out the first stage of the Voltri Dock which will have 8 berths for Ro/Ro vessels and a quay 850 m. long for container ships; this quay could be extended further Westward to a length of 1,250 m. As an alternative solution a large 16 hectare yard could be reclaimed at the Western end.

The total area, including the above mentioned yards, will be about 180 hectares.

AUTHORITY: Consorzio Autonomo del Porto di Genoa.

LA SPEZIA: 44.06 N. 09.49 E. (See Plan Book)

DOCUMENTS:

3 Crew Lists.
3 Passenger Lists.
1 Provisions List.
List of Parcels.
1 Cargo Manifest.
1 Bill of Lading.
All Ship's Certificates including Italian Anchorage Dues.

PILOTAGE: Compulsory. Pilot station situated on breakwater at entrance to Gulf. 1 hours notice to Pilots required for shifting, sailing vessel, Pilot boards incoming vessels at Torre Scuola.

ANCHORAGE: Safe areas available in depths 25 to 34 ft. Mud bottom, no tide. Tankers: if waiting berth required to anchor in Safety Zone immediately behind the breakwater. If this anchorage is occupied by 2 vessels later arrivals must anchor outside the Gulf.

RESTRICTIONS: Western entrance to Gulf is 400 m. wide with depth of 42 ft. 6 in. The dredged channel to the port is 42 ft. deep. Eastern entrance is 200 m. wide used by smaller vessels only.

MAX. SIZE: Limited only by draft; 33 ft. for the Mercantile Port and grain silos. For vessels proceeding to coal berth max. draft 30 ft. 4 in. For vessels proceeding to Enel Pier max. draft 35 ft.

Tankers up to 40 ft. draft accommodated.

HEALTH: Radio pratique may be requested to Sanimare-Laspezia before arrival. Pratique is automatic for vessels from Ports in U.K., France, Belgium, Holland, W. Germany, Greece and Italy.

RADIO: Genoa Radio – ICB or Marina Militare ICS. Radio telephone station at Leghorn, transmitting 2591 kHz., receiving 2182 kHz.

VHF: Pilot Service Channel 14, Port Control Channel 9, Harbour Master Channel 16, and boat service Channel 12.

TUGS: 7 tugs available up to 1,500 h.p. For large tankers, 4 tugs usually used.

BERTHING:

Garibaldi Quay, West Side: Length 510 m., with 3 berths for ships up to 10,000 d.w.t.: 27 ft. to 29 ft. draft.

Garibaldi Quay, East Side: Length 350 m. (of which 220 m. for ships up to 20,000 d.w.t.).

Malaspina Dock: Length 200 m. Depth 20–21 ft.

Paita Dock: Length 535 m. 3 berths for ships up to 22,000 d.w.t. and 29–30 ft. draft. The depth at No. 7 berth (grain silo) has been increased to 33 ft.

Italia Quay: East Side: Length 368 m. for vessels 18–19.5 ft. draft. No railway and no mechanical unloading equipment.

Dock: No. 8: (Projecting between Paita Dock and Customs Dock) Length 80 m. Depth 18 ft. No railway or mechanical equipment.

ENEL Quay: Length 200 m., max. depth 11.50 m. Max. size 22,000 d.w.t. 2 cranes each with capacity of 10 tons, also unloading systems for mineral oils.

TANKERS: Shell Pier, length 177 m., with 4 berths up to 39 ft. 6 in. depth.

SPI Buoy Terminal, situated 650 m. from San Bartolomeo shore. Vessels moor stern towards the shore. A crude oil discharge berth in depth of 11.50 m., suitable for tankers up to 36 ft. draft and 30,000 d.w.t. Other oil berths at ENEL Quay, depth 35 ft. SNAM terminal for loading situated in Panigaglia Bay. Length 498 m., depth alongside 39 ft. Berths for 2 vessels.

Safety regulations are handed to Master on arrival and must be strictly observed. No shore steam or electricity available. At Shell pier, no goods may be loaded from shore.

Slop discharge facilities available only at the Shell pier.

BULK HANDLING FACILITIES: Ferruzzi Grain Silos, capacity 39,450 tons, at Paita Dock. Discharge by 2 mechanical conveyors, capacity 250 t.p.h. each.

At Garibaldi Quay grain discharged by 4 vacuum-operated intake pipes, capacity 400 t.p.h. Capacity of silos, 30,000 tons. Length of quay 220 m., depth 35 ft. Will accept vessels of 30,000 d.w.t.

Coal conveyor system at Paita Dock, capacity 450 t.p.h. from colliers and 330 t.p.h. from other vessels. Capacity of silos 12,000 cu.m.

CONTAINER TERMINAL: Situated on the Eastern side of the Commercial Port. Owned by Contship of Cadenazzo. Crane for discharging and handling containers up to 40 ft. max. draft 18 ft.

CRANES:

Garibaldi Quay, West Side:

Berth No. 1: 3 bridge cranes, capacity 6 tons (hook and bucket operation).

Berth No. 2: 2 bridge cranes, capacity 6 tons (hook and bucket operation).
1 bridge crane, capacity 8 tons (hook and bucket operation).

Berth No. 3: 1 bridge crane, capacity 4.5 tons (hook operation).
2 bridge cranes, capacity 6 tons (hook and bucket operation).

East Quay:

Berth No. 9: 1 rail-mounted crane, capacity 3-6 tons (hook and bucket operation).

Malaspina Dock:

Berth No. 4: 1 loco-gantry crane, capacity 4 tons (hook only).
2 loco-gantry cranes, capacity 2 tons (hook only).
2 loco-gantry cranes, capacity 3 tons (hook only).

Paita Dock:

Berth No. 5: 2 overhead travelling cranes, 10 ton capacity, travel 120 m.

Berths No. 6 & 7: 4 jib cranes, capacity 3–6 tons (hook and bucket operation). 1 travelling bridge Goliath crane, for marble – hook only, capacity 30 tons. 1 self-propelled crane, capacity 1.5–9 tons, (hook and bucket operation).

STEVEDORES: Gangs to be ordered by 0700 hrs. for morning shift, and by 1300 hrs. for afternoon shift every normal day from Monday to Friday. For mechanised work the same routine is to be followed. Saturdays, morning is considered as overtime work (tariff plus 27.50%). On the afternoon of Saturday, time is considered as holidays and so are Sundays. Saturdays and Sundays shift to be ordered on Friday afternoon within 1530 hrs.

MEDICAL: All facilities available. Vaccination/inoculation can be arranged. Prior notice should be given if urgent attention required on arrival.

FRESH WATER: Available at most berths, or by barge.

FUEL: Can be taken concurrent discharge at Shell Pier and S.P.I. terminal. Supplied by barge at other berths.

IDENTIFICATION CARDS: Shore passes issued to crew.

CONSULS: Following countries represented at Spezia: Denmark, France, Finland, Holland, Norway, Portugal, Sweden.

REPAIRS: Naval and civil repair yards can undertake all types of work.

DRY DOCKS: Available only when not used for naval vessels: No. 5, 209.65 m. by 27.60 m.; No. 6, 210.20 m. by 23.10 m. Floating dock for 110,000 d.w.t.

TIME: GMT plus 1 hour.

HOLIDAYS: New Year's Day (1st January); Epiphany (6th January); St. Joseph (19th March); Liberation Day (25th April); Labour Day (1st May); Easter and Day after Easter; Ascension Day; Corpus Domini; Proclamation Day (2nd June); St. Peter and St. Paul (29th June); Assumption B.V. Maria (15th August); All Saints' Day (1st November); Victoria Day (4th November); Immaculate Conception (8th December); Christmas Day (25th December); Boxing Day (26th December).

SHORE LEAVE: Allowed.

AUTHORITY: Capitaneria di Porto.

LIVORNO (Leghorn): 43.33 N. 10.20 E.

(See Plan Book)

DOCUMENTS: Complete set of Manifests and B/Ls relative to cargo destined for this port. Complete set of Manifests of all cargo in transit. 3 Crew Lists. 3 Passenger Lists. All ship's documents.

ANCHORAGE: Anywhere between 1–1.5 miles from breakwater.

PILOTAGE: Sound signals for calling Pilot, 3 long blasts, or international signal "G". Pilot boards vessels 1 mile from breakwater.

RESTRICTIONS: No night berthing for tankers; no restrictions for tankers on sailing, when empty and up to 15,000 gross tonnage according to weather conditions.

MAX. SIZE: Max. draft for commercial port 34 ft. 6 in.; for oil carriers: 37 ft. 6 in. for tankers up to the length of 215 m. or 34 ft. 6 in. for tankers from 215 to 240 m. length.

HEALTH: To obtain free pratique by radio cable to "Sanimare", Livorno, advising all health particulars at least 12 hours before arrival.

RADIO: Roma Radio generally used for communications.

VHF: 24 hour service on Channel 16 and 14.

TUGS: Tugs normally join vessel at entrance of the port. Ship's lines used.

BERTHING: Alto Fondale, depth alongside 34 ft. 6 in.
Calata Orlando, depth alongside 28 ft. 6 in.
Calata Carrata, depth alongside 25 ft.
Calata Pisa, depth alongside 25 ft.
Calata Depositi Franco, depth 29 ft.
Calata Sgarallino, depth 28 ft. 6 in.

BULK HANDLING FACILITIES: Grain: discharging rate 1,000 to 1,500 m. tons per day.

Ore and coal bulk: discharged by shore elevators at Calata Orlando, discharging rate 1,500 to 2,000 tons per day.

TANKERS: 2 berths at Darsena Petroli for tankers up to 240 m. length, draft 39 ft. 6 in.

4 other tanker berths, for vessels up to 30 ft. draft.

Loaded tankers berth only in daylight hours, tankers may sail up to midnight.

No slop facilities available.

STEVEDORES: ETA required by Agent in order to arrange matters with stevedores at least 48 hours before arrival.

MEDICAL: It is advisable to give details of assistance required together with ETA cable. Hospital facilities available.

FRESH WATER: Available, by pipe-line. On other quays delivery by barge.

FUEL: All grades available from berth. Advance notice required 48 hours; supply subject to Owners' stem.

OPENING/CLOSING HATCHES: Normally carried out by stevedores.

CERTIFICATES: All ship's certificates required.

CUSTOMS ALLOWANCES: Tobacco. 50 cigarettes, or 50 grams tobacco per man for the first 24 hours. Wine and/or Spirits. Only in consignment of the Master.

IDENTIFICATION CARDS: Issued by local police authorities.

CONSULS:

REPAIRS: All types of deck and engine repairs are possible.

DRY DOCKS: Dry docks suitable to accommodate a Liberty type ship. A small floating dry dock for vessels up to maximum of 1,500 tons.

New Graving dock 350 m. × 56 m.

REPATRIATION: All necessary repatriations possible.

AIRPORT: Nearest at Pisa, distance about 20 km.; served by Alitalia and British Airways.

TIME: Local time is 1 hour ahead of GMT, and Summer time 2 hours ahead.

HOLIDAYS: 1st January, 6th January, 19th March, Easter Monday, 25th April, 1st May, 23rd May, 2nd June, 13th June, 29th June, 15th August, 1st November, 4th November, 8th December, 25th December, 26th December. On these days work can be arranged with an increase of 150%. Some of these holidays are liable to be abolished in 1977.

TELEPHONES: Only at some quays is it possible to place telephones on board.

AUTHORITY: Camera di Comercio Industria e Agricultura Livorno.

AGENT: G. Fanfani & Co., via Fiume 15, Livorno. Tel: 28151 (5 lines) after hours 804347 and 801931. Telex: 50006 Cables: FANFANICO.

MANFREDONIA: 41.37 N. 15.55 E.

DOCUMENTS:
5 Crew Lists.
3 Provision Lists.
3 Lists of Crew Possessions.
Customs Documents.
Cargo Manifests.
Bills of Lading.
Ship's Papers.

PILOTAGE: Compulsory for vessels over 300 tons. Pilot boards 1 mile off Mole di Levante. No VHF station.

ANCHORAGE: Good holding ground in 5 fathoms, 1 mile S.E. from Mole di Levante. Sheltered from all winds, except N.E. to S.E.

RESTRICTIONS: Depth 23 ft. at breakwater entrance, which is 1.25 cables wide. Depth 23 ft. alongside Mole di Ponette, for a length of 1,500 ft.

HEALTH: Pratique given at anchorage.

RADIO: Radio Roma, call sign "IAR".

TUGS: 3. Tugs make fast at anchorage and tow vessel into harbour (in the case of large vessels). Ships lines used.

STEVEDORES: 100 men available.

MEDICAL: There is a small hospital.

FRESH WATER: Available.

FUEL OIL: Not available.

GANGWAY/DECK WATCHMEN: Available, but unnecessary.

OPENING/CLOSING HATCHES: By crew.

CUSTOMS ALLOWANCE: 40 cigarettes per man. 1 bottle spirits.

IDENTIFICATION CARDS: Shore passes are issued by Police on arrival.

CONSULS: None.

REPAIRS: Only small repairs.

REPATRIATION: Can be arranged.

AIRPORT: Bari and Foggia.

TIME: GMT plus 1. Alterations to clocks are made from Spring to beginning of Autumn, then GMT plus 2 hours.

POLICE/AMBULANCE/FIRE: All services telephone 113.

TELEPHONE: Situated at Main Gate, end of Mole di Ponette.

SHORE LEAVE: No restrictions.

DEVELOPMENTS: Large future development expected. At present a new jetty is under construction, extends in a S.E. direction for 1.25 miles to seaward, about 0.5 mile east of Mole di Levante. Depth alongside this jetty will be 12 m. Owing to construction it is advisable, when arriving at night, to remain about 3 miles off until morning, when a closer approach can be made.

AUTHORITY: Harbour Master.

MESSINA: 38.11 N. 15.34 E.

DOCUMENTS: If vessel comes from foreign port, whenever possible, at least 1 copy of Crew List and Passenger List to be sent some days before her arrival, so that they can be delivered to police in advance. Required on arrival:
3 Crew Lists.
1 Provisions List.
3 Lists Passengers in Transit.
3 Lists Passengers Disembarking.
1 List of Articles – new and Customs-barred in possession each crew member – cameras, binoculars, radios, cigarettes, tobacco, new articles, etc. If on inspection articles or quantities not in conformity or in excess, Master responsible; articles removed and heavy fine imposed.

Copies of Cargo Manifest also to be prepared on arrival.

If Anchorage Dues already paid and still in force, the relative receipt to be shown to the harbour Authorities, together with other ship's papers and report of arrival to be delivered to them.

PILOTAGE: Pilot meets vessel at about 1 mile from port's entrance. On request he can meet vessel at a greater distance, but additional tariff to be paid. Pilotage through Messina Straights is available but not compulsory.

ANCHORAGES: Allowed outside harbour; at Paradiso's Bay, sufficient depths for safe anchorage existing. Advisable to request Pilot's assistance for indication of best anchorages.

RESTRICTIONS: For entering harbour during night-time ETA to be given in advance.

MAX. SIZE: Max. draft allowed: 33 ft. at passenger quay: Other berths 27 ft.

Max. length 200–300 m.

Tankers: Length 100 m., draft 27 ft.

HEALTH: Free pratique automatic for vessels coming from other Italian ports and quarantine flag not to be flown on entering. From other countries usual procedure applies.

RADIO: Contact through Rome Radio, Naples Radio, Augusta Radio, or Messina Radio.

TUGS: Not compulsory. Tugs join vessels at about 0.5 mile from entrance of harbour. If tug's lines used increase of 10% on tariff.

STEVEDORES: To enable Agent order gangs important obtain accurate ETA. Latest time to order gangs: normal shift 0730 hrs. for work in the morning; 1200 hrs. for work in afternoon; night shift 1600 hrs. same day – Saturday noon or Sunday at 1200 hrs. on Saturday.

Failure to give ETA results in cost of waiting gangs, charged to vessel.

Tonnage: Per gang in 8 hours: General cargo 50 ton – cereals 80 ton.

MEDICAL: Doctor can attend sick crew members or for vaccinations. Hospitals available.

TANKERS: There is an Esso bunkering station only. Small tankers from time to time discharge fuel oil, gasoline, etc.

FRESH WATER: All quays have water pipe-line connections and water may be supplied day and night (provided ETA given) directly from ashore by hoses; during Summer time water may be supplied from 0700 to 1100 hrs. only.

GANGWAY/DECK WATCHMEN: Recommended.

OPENING/CLOSING HATCHES: May be carried out by the crew or stevedores.

CERTIFICATES:
Safety Certificate.
Wireless Safety Certificate.
Freeboard Certificate.
Deratisation Certificate.
Anchorage Duties Voucher.
Crew List.
Passenger List.
Construction Certificate.

CUSTOMS ALLOWANCES: 50 grms. tobacco for each seaman. Spirits: 0.75 bottle for all crew.

IDENTIFICATION CARDS: Required.

CONSULS:
Argentina
Great Britain
Norway
Sweden
Colombia
Holland
Peru
Germany
Panama
Denmark
Finland
Guatemala

REPAIRS: Almost all types of deck and engine repairs can be carried out.

DRY DOCK: Dry dock belonging to Italian Navy. If it is not engaged for warships it can be hired. Therefore application must be granted by the Marina Militare. Dimensions are as follows: 492 ft.×52 ft. 7 in. (bottom), 81 ft. 6 in.×24 ft. 8 in. (top).

Smaller floating dry dock available, but also belongs to Italian Navy. One graving dock, length 250 m., breadth 38 m.

REPATRIATION: No particular facilities existing; but necessary repatriation can normally be arranged.

AIRPORT: Reggio Calabria Airport – distance about 10 km. From Messina, Reggio Calabria can be reached in 15 minutes by hydrofoil boats, which run every half hour (about). Flights from Reggio Airport in Winter, 1 per day; in Summer, 2 per day.

TIME: In relation to GMT local time is an hour ahead. During Summer, from June to September, clocks are put 1 hour forward.

HOLIDAYS: Work can be arranged, provided timely notice is given, in following official holidays, paying the respective increase on normal tariff:

New Year's Day (January 1st); Epiphany (January 6th); March 19th; Easter Monday; 25th April; 1st May; Ascension Day; June 2nd; June 3rd; local religious holiday; Corpus Domini; 9th July; 15th August; 1st November; 4th November; 25th December; 26th December.

POLICE/AMBULANCE/FIRE: Police, 46830; Ambulance, 45070; Fire, 30222.

TELEPHONES: No arrangements exist.

SHORE LEAVE: Allowed.

AUTHORITY: Il Comandante Colonello di Porto.

MILAZZO (Sicily): 38.13 N. 15.16 E. (See Plan Book)

DOCUMENTS:
6 Crew Lists.
6 Passenger Lists.
Provisions Manifest.
Manifest of Crew Personal Effects.
Cargo Manifest.
Arrival Report – completed on arrival.
Maritime Declaration of Health Certificate – completed on arrival.
Ship's Certificates, including Italian Authority dues.
Vaccination Certificates for sighting.

ARRIVAL ADVICE: At least 24 hours notice of arrival to be passed to Agent in order to obtain allocation of berth from Port Authority. Consignees-Receivers as for Charter Party.

PILOTAGE: Pilot boards 1.5 miles off the berths. International Code signals used. Pilot can be contacted on VHF Channel 12. Compulsory for vessels over 500 g.r.t. (Berthing/Unberthing).

ANCHORAGE: There are 6 anchorages for tankers over 3,000 g.r.t.
No. 1 to 600 m. off the harbour green light – Bearing 034°
No. 2 to 920 m. ,, ,, ,, ,, ,, – ,, 091°
No. 3 to 3,870 m. ,, ,, ,, ,, ,, – ,, 097°
No. 4 to 3,050 m. ,, ,, ,, ,, ,, – ,, 101°
No. 5 to 1,200 m. ,, ,, ,, ,, ,, – ,, 036°
No. 6 to 1,600 m. ,, ,, ,, ,, ,, – ,, 065°

Anchoring prohibited within 1 mile of Refinery Wharves. Pilot can be used for anchoring but not compulsory.

RESTRICTIONS: Large tankers are berthed in daylight hours only, medium and small tankers all hours. Unberthing all hours.

MAX. SIZE: Tankers up to 326,000 d.w.t.

RADIO: Harbour Master Authority, Mediterranea Refinery, Pilot and Tugs may be contacted on VHF Channel 12. Harbour Master Authority may be contacted also on VHF Channel 16.

HEALTH: Free pratique on board may be requested on arrival by way of ship's Agents. It is perfecting the procedure to obtain free pratique by radio. Pratique is automatic for vessels coming from ports in Italy, U.K., France, Belgium, Holland, W. Germany and Greece.

TUGS: 6 tugs available, 2×2,500 h.p., and 4×1,000 h.p. Meet vessel 0.75 miles off berths. Obligatory, at least one for mooring/unmooring tankers over 3,000 g.r.t. Ship's lines used.

DRY CARGO FACILITIES: Ludovico Mazzullo Jetty, length 340 m., depth 22 ft.; Pennello Eolie Jetty, length 65 m., depth 23 ft.

MEDITERRANEA REFINERY FACILITIES: 10 berths for Tankers, distributed in 3 Jetties as follows:

No. 1 Jetty: (West Jetty) 500 m. long, for loading/unloading, with the following berths:

Berth No. 1 (West side – Outer end) – depth 48 ft.
Berth No. 2 (East side – Outer end) – depth 48 ft.
Berth No. 3 (West side – Inner end) – depth 16 ft.
Berth No. 4 (East side – Inner end) – depth 20 ft.

Arms: 12 in. and 8 in. – Ballast lines 2×10 in. – Cargo lines 20, 16, 12 and 10 in.

No. 2 Jetty: (Middle Jetty.) 650 m. long, for loading/unloading, with the following berths:

Berth No. 5 (West side – Middle) – depth 55 ft.
Berth No. 6 (East side – Middle) – depth 55 ft.

Arms:12 in. – Ballast line 1×20 in. – Cargo lines 2×40 in. (Crude oil) – 20, 16, 12 in. (Fuel oil) – 20 in. (Gasoil) – 12 in. (Virgin Naphtha) – 10 in. (Super Gasoline) – 10 in. (Normal Gasoline) – 10 in. (Kerosine).

Berth No. 5 bis (West side – Outer end) – depth 83 ft.
Berth No. 6 bis (East side – Outer end) – depth 75 ft.

Arms: 16 in. – Crude oil lines 2×40 in.

Berth No. 7 (West side – Inner end) – depth 20 ft.
Berth No. 8 (East side – Inner end) – depth 20 ft.

No. 3 Jetty: (East Jetty) 558 m. long, for loading/unloading under construction, with following berths:

Berth No. 9 (West side) – depth 45ft.
Berth No. 10 (East side) – depth 45 ft.

No. 1, 3, 4, 7 and 8 berths also LPG lines.

Vessels berth head out. Lines run to mooring dolphin ahead and astern. Anchor is compulsory only for small tonnage tankers. Tankers may use wire ropes only on the jetty mooring hook. On the bitts may use wire ropes only if the eyes are made of manila or nylon. For tankers alongside the jetty it is compulsory to have ahead and astern, outside, wire ropes with eye back.

MEDICAL: All facilities available.

FIRE WATCHMEN: Compulsory for tankers alongside the Refinery Mediterranea jetties. Number of watchmen onboard is variable, according to the cargo Class ("A", "B" or "C") loading/discharging and to the tankers g.r.t.

GANGWAY/DECK WATCHMEN: Watchmen service available. It is, however, recommended but not compulsory.

FRESH WATER: Boiler and drinking water supplied from the jetty. At anchorage by barge. Max. pumping rate 50 t.p.h.

FUEL: All grades available at Mediterranea Refinery berths, subject to prior notice. Also available at Milazzo Dry cargo harbour berths all grades available by tank or truck.

BALLAST: Ballast facilities available at Mediterranea's berths. Reception 1,000 t.p.h. No restrictions on capacity.

IDENTIFICATION CARDS: Shore passes given by local police.

TIME: GMT plus 1 hour. Summer-time: May to September GMT plus 2 hours.

HOLIDAYS: Cargo work can be arranged on every day.

REPAIRS: All types of deck/engine repairs possible. Experienced and established marine workshops available.

CUSTOMS ALLOWANCES: 50 cigarettes are allowed per man per day for the first 2 days.

CONSULS: No Consul in Milazzo. The nearest are in Messina for the following countries: Peru, Great Britain, Argentine, Norway, Uruguay, Chile, Denmark, Germany, Australia.

AIRPORT: The nearest is at Reggio Calabria where there are 3 regular flights per day. Reggio Calabria can be reached by car and by hydrofoil in about 2 hours. Catania airport also nearby, and may be reached by car or train in about 2 hours.

TELEPHONE: Connections possible at Refinery Wharves.

GARBAGE: Boats are available, and compulsory for vessels 24 hours after arrival.

SHORE LEAVE: Allowed but transit through the refinery area not permitted except in emergency. Boats are available for hire from wharves and anchorage to the landing pier in the port of Milazzo. Shore passes given by local police.

AUTHORITY: Ufficio Circondariale Marittimo and Mediterranea-Raffineria Siciliana Petroli, S.p.A.

MONFALCONE: 45.48 N. 13.32 E.

PORT LIMITS: A vessel is considered to be an "arrived ship" when it arrives within the anchorage zone, S.W. of Duino.

DOCUMENTS:

Arrival Report.
Crew List.
Passenger List.
Customs Documents.
Health Documents (only for vessels that are not arriving from the United States, and are members of the West European Union).

PILOTAGE: Pilotage service is the responsibility of the Harbour Office, and is carried out by local Pilots. Pilots are not supplied with radio equipment. Pilotage service has to be requested by radio via Trieste radio station, to the Harbour Office. Pilotage is compulsory for vessels over 400 g.r.t. Pilot boat is equipped with VHF and is stationed along the access channel or near to the channel entrance buoy. Pilot boards about one mile from the entrance buoy.

ANCHORAGE: Vessels awaiting entry to the port are required to anchor between Duino and Sistiana, about 3 miles from the entrance. At the port entrance the depth is about 10 m. The anchorage provides good shelter from winds from the first and fourth quarters. Good anchorage in sand and gravel.

RESTRICTIONS: Entry to port is permissible from daybreak to sunset. Entrance channel has depth of 12 m.

MAX. SIZE: Maximum permissible draft 24 ft. 3 in.

HEALTH: Vessels calling from countries that are not members of the West European Union are required to provide a Maritime Declaration of Health. In the event of any disease or epidemic on board, advice has to be sent to the Maritime Health Office by radio.

RADIO: Nearest coast station is Trieste Radio, through which all radio messages should be routed.

TUGS: Tug service is optional, but the Maritime Authority can make service temporarily compulsory.

BERTHING: 630 m. of berth length for discharging generals, and 120 m. berth length for discharging cereals. Depth alongside berths approximately 7 m. Berths are equipped with mobile cranes.

BUNK HANDLING FACILITIES: Silo berth is well equipped for discharging cereals.

TANKERS: The port receives tankers with cargoes for Enel.

DENSITY: Average 1027.

FRESH WATER: Available at all berths.

FUEL: Bukering is by barge or tank truck only.

CONSULS: None at Monfalcone, but available at Trieste.

REPAIRS: Minor repairs only.

GANGWAY/DECK WATCHMEN: Not compulsory, but available through Agent.

OPENING/CLOSING HATCHES: Opened and closed by ship's crew.

AIRPORT: Distance to airport 5 km. Two flights a day to Rome.

HOLIDAYS: 1st and 6th January, 19th March, 25th April, 1st May, 2nd and 29th June, 15th August, 1st and 4th November, 25th and 26th December, first day after Easter, Ascension Day, Corpus Domini Day.

POLICE/AMBULANCE/FIRE: Police 113 or 72715. Ambulance 72249. Fire 72222.

TELEPHONES: Not available to be placed on board.

SHORE LEAVE: Permitted.

AUTHORITY: Harbour Master.

NAPLES: 40.50 N. 14.17 E. (See Plan Book)

DOCUMENTS:

6 Crew Lists.
6 Passenger Lists.
Provisions Manifest.
Manifest of Crew Personal Effects.
Cargo Manifest.
Arrival Report – completed on arrival.
Maritime Declaration of Health Certificate – completed on arrival.
Ship's Certificates, including Italian Authority Dues.
Vaccination Certificates for sighting.

PILOTAGE: 15 Pilots and 3 motor launches. Pilot station Tel. 322.832 and 312.604.

ANCHORAGES: Approximately 70, having depths ranging from 11 to 15 m.

RESTRICTIONS: 2 port entrances of which the Western is 300 m. wide, the Eastern is 250 m. wide.

MAX. SIZE: Tankers up to 45 ft. draft.

HEALTH: Free pratique may be requested by radio to "Sanimare Naples" between 12 to 6 hours before arrival advising vessel's name, nationality, last port, number of passengers and crew, and state of health on board, Pratique is automatic for vessels coming from ports in Italy, U.K., France, Belgium, Holland, W. Germany and Greece.

TUGS: 19 tugs available as required to assist berthing.

CRANES:

Electric: 17 at 3 tons, 19 at 6 tons, 6 at 15 tons and 3 at 45 ton capacity.

Floating: 1 of 100 ton (Italian Navy) and 1 of 60 ton (SEBN).

BULK HANDLING FACILITIES:

Coal: Four 6 ton units with hourly payload of 400 tons.

Cereals: Five units with hourly payload of 520 tons.

Containers: One 40 ton container bridge crane at Flavio Gioia Pier, capable of a lift every 2 minutes.

TANKERS: The petroleum port is located at the far East area of the port of Naples and consists of the Vigliena Pier, Calata Progresso and Progresso Pier. The petroleum port is exclusively used for handling crude oil and petroleum products at its 11 berths, and several pipe-lines connect these berths with the Naples Refinery of Mobil Oil Italiana, the plant of Mobil Chimica Italiana and the bulk plants of Agip, Esso Standard Italiana and IIP (ex-Shell Italiana) which are all located in industrial area of Naples adjoining the petroleum port at a distance not exceeding 4 miles. The maximum size of crude tankers, fully loaded, which can be accommodated at Progresso pier is 90,000 d.w.t.

DEVELOPMENTS: Planned to dredge entrance to 10 m. depth.

AUTHORITY: Capitaneria di Porto.

ORISTANO BAY, Sardinia: 39.45 N. 08.30. E.

SHIPMASTERS REPORT:

Oristano Bay has many shallows, none marked with buoys. A good anchorage was obtained 2.5 miles from the port. The Bay is completely open to the West and with a S.W. to West wind the swell builds up. The perlite loading berth is a pier and a ship berths across the 'T' end of it, the ship being parallel to the beach. The berthing part itself is 120 ft. long and the loading chute can be raised to a height of 8 m. A vessel has to move on the pier for loading in different hatches, as the chute has a fixed base. I understand that although at the time there was hardly any swell in Bay, alongside there was considerable movement. The loading rate as quoted by the Agent is 500 t.p.h. Good communications were obtained with link calls on VHF through Cagliari Radio to the Agents. No answer was obtained on VHF to a Pilot or port service.

A new harbour is being built in the Bay as observed on the ship's radar. This consists of 2 breakwaters and a third breakwater extending at right angles across the entrance, with opening at both ends. In the Southern part of the Bay, there is a no anchoring and fishing area.

In the opinion of the Master the berth is not practical during the Winter months, as delays are caused by swell coming into the port. 1 vessel was at anchor for 3 days and sailed finally without loading.

PALERMO (Sicily): 38.07 N. 13.20 E. (See Plan Book)

DOCUMENTS:

6 Crew Lists.
6 Passenger Lists.
Provisions Manifest.
Manifest of Crew Personal Effects.
Cargo Manifest.
Arrival Report, completed on arrival.
Maritime Declaration of Health Certificate, completed on arrival.
Ship's Certificates including Italian Authority Dues.
Vaccination Certificates for sighting.

PILOTAGE: Compulsory for vessels over 499 gross tons. Pilot station keeps listening watch on VHF Channel 12. Pilot joins vessel 1 mile off port entrance. Pilot can be requested by International Code Signals. Pilot station and every Pilot equipped with walkie-talkie VHF set. In case of rough weather pilot boat will be in the bay and will lead ships through port entrance where Pilot will be able to board.

ANCHORAGE: It is advisable to use Pilot for anchoring in Palermo Bay.

RESTRICTIONS: No entry restrictions, but there is a daily ferry service to and from Naples arriving about 0700 hrs. and sailing at 2030 hrs. No vessel is allowed to leave or enter the port half an hour before arrival or sailing of this vessel.

MAX. SIZE: Draft max. is up to 44 ft. (13.40 m.) according to the quay. Tankers up to 15 m. draft.

HEALTH: Free pratique may be requested by radio to "Sanimare", Palermo, between 12 to 6 hours before arrival advising vessel's name, nationality, last port, number of passengers and crew, and state of health on board. Pratique is automatic for vessels coming from ports in Italy, U.K., France, Belgium, Holland, W. Germany and Greece.

RADIO: Naples Radio, call sign IQH, Roma Radio, call sign IAI, Cagliari Radio, call sign IDC. Palermo Radio, call sign IPP.

VHF: Port Captain listens on Channel 16 from 0800 – 2000 hrs.

TUGS: 4 tugs are available with up to 800 horse power. Tugs normally join vessel in the Bay. Ship's lines are used.

BERTHING:

Pier	*Length*	*Maximum draft* ft.	m.
Puntone	400	44.0	13.4
S. Lucia – South side	150	37.5	11.4
Crispi 1	115	37.5	11.4
Piave – North side	325	37.5	11.4
Piave – East side	85	37.5	11.4
Piave – South side	325	37.5	11.4
Crispi 2	110	37.5	11.4
V. Veneto – North side	325	37.5	11.4
V. Veneto – South side	325	27.5	8.4
Crispi 3	115	24.5	7.4
Sammuzzo	350	26.0	7.9
Molo South/North end	380	21.0	6.4

There are 6 roll-on/roll-off terminals and others are projected.

S. Lucia. Max. draft 27 ft. and used for discharge of timber, general, iron, steel and grain.

CONTAINER HANDLING FACILITIES: One 35 ton container crane with outreach of 25 m. height of spreader from quay 15 m. One 42 ton container crane with outreach of 35 m. height of spreader from quay 27 m. 1 straddle carrier (Belotti) self-propelled fitted with spreader; 2 fork-lifts (Hyster-Belotti) self-propelled fitted with spreader; tractors, trailers, fork lift-trucks,etc.

BULK HANDLING FACILITIES: There are 31 silos at Piave Pier with a total capacity of 27,000 tons. Discharge rate 150 t.p.h.

Wine: 11 storage tanks with total capacity of 1,500 cu.m.

Acid Fats: 8 storage tanks with total capacity of 3,000 tons.

CRANES: 4 electric cranes with capacity of 15 tons, max. outreach 25 m. and min. 7 m.

10 mobile cranes with capacities from 1–20 metric tons.

STEVEDORES: Gangs arranged through Agent. To be ordered before 0800 hrs. to start work in the morning, and not later than 1100 hrs. to start work at 1300 hrs.

Port Labour Capacity: (quantities of goods loaded/unloaded in 8 hours daily work employing all stevedores available).

Bulk cargo – 1,700 tons.
General cargo – 700 tons.
Containers – 100.
Full loaded trucks and vans carried by roll-on/roll-off ships – 240.

MEDICAL: Assistance will be given upon request. English-speaking doctors available.

TANKERS:

Oil Products and Crude Oil: Agip. Max. length 185 m., draft 32 ft., 25,000 d.w.t. Tankers drop anchors and are tied up at 2 buoys astern. Discharge rate 200–400 t.p.h.

Islom. Max. length 260 m., draft 40 ft., 96,000 d.w.t. Vessels are berthed alongside. North breakwater is used for loading and discharging fuel oil at discharging rate of 400 t.p.h.

Esso. Max. draft 15 m., no limitation for length. Vessel drops anchor and ties up at 2 buoys by stern. Discharging rate 600–700 t.p.h.

DENSITY: 1025.

FRESH WATER: Available at any quay by hoses or barges. By hose at 25 t.p.h., by barge 45 t.p.h.

FUEL: Fuel oil, gas oil and marine diesel available at the quays and by barge.

GANGWAY/DECK WATCHMEN: Not compulsory; usually number of watchmen required depends upon the Master.

OPENING/CLOSING HATCHES: Crew usually carry out this operation.

CUSTOMS ALLOWANCES: 40 cigarettes and one opened bottle wine/spirits per man.

IDENTIFICATION CARDS: Shore passes given by local police.

TIME: GMT plus one hour. Summertime: May to September, GMT plus 2 hours.

CONSULS: Belgium, Holland, France, Germany, Libya, Norway, Panama, Portugal, Spain, U.K., United States.

REPAIRS: Any type of repairs undertaken. Facilities are provided by Cantiari Navali Riuniti, and the shipyard employs over 5,000 workmen. There are four building slips, two of which can take vessels of 250 m. length. The slipways are serviced by cranes of up to 45 tons capacity, and which allow handling of prefabricated units up to 70 tons weight. There is a plate shop capable of machining about 80 tons a day, and which is equipped with all the latest machine, drilling and welding units. The engineering works are also equipped with the latest types of machinery enabling total dismantling and reassembly of engines.

DRY DOCKS: Floating dock, length 285 m., breadth 46 m. Suitable for up to 150,000 d.w.t.

Floating dock, length 194 m., breadth 30 m. Suitable for up to 36,000 d.w.t.

Graving dock, length 172 m. breadth 28 m. Suitable for up to 30,000 d.w.t.

Also see "Developments".

AIRPORT: Distance from Punta Raise Airport is about 20 km. Airport served by regular services.

REPATRIATION: Good facilities exist.

HOLIDAYS: New Year's Day (1st January); Epiphany (6th January); St. Joseph (19th March); Liberation Day (25th April); Labour Day (1st May); Easter Monday; Ascension Day; Corpus Domini; Proclamation Day (2nd June); St. Peter and St. Paul (29th June); Assumption B.V. Maria (15th August); All Saints' Day (1st November); Victory Day (4th November); Immaculate Conception (8th December); Christmas Day (25th December); Holiday (26th December).

Cargo work can be arranged on the above days.

POLICE/AMBULANCE/FIRE: Police, 233333; Ambulance, 231166; Fire, 212222.

TELEPHONES: Available if required, but only for local use.

SHORE LEAVE: Allowed.

DEVELOPMENTS: A graving dock suitable for up to 500,000 d.w.t. is under construction. Length of the new dock will be about 384 m. and breadth about 60 m. Also 1 drydock under construction for vessels up to 160,000 tons.

AUTHORITY: Capitaneria di Porto, Ente Autonomo del Porto.

PIOMBINO: 42.56 N. 10.33 E.

PORT LIMITS: Within one mile of Breakwater light.

DOCUMENTS:

3 copies of Crew List.
3 copies List of Passengers in Transit or Disembarking.
1 Customs List, including ship and crew articles (Master is responsible for any excess, less or more).
1 copy of Manifest and B/L of Cargo Discharging.
1 copy of Manifest for Cargo in Transit.

PILOTAGE: ETA to Agent in local time (GMT plus one hour). Summer-time May to September (GMT plus two hours).

Pilots embark E.S.E. from breakwater light, distance 1 mile or less according to weather conditions. Pilotage usually available at greater distance on request of ship or Agent. Being an open road, care should be given to provide shelter to Pilot embarking/disembarking facilities, especially in Southerly winds or a swell.

Pilot ladder according to Convention Safety of Life at Sea, and EMPA recommendations.

Southerly gales may prevent Pilot from embarking or even from approaching the ship; in this case pilot boat may guide limited size vessels to sheltered water and then embark Pilot (signals by lamp or flags "UF").

Pilots VHF will be activated in near future.

ANCHORAGE: Outside the harbour leaving entrance of dredged channel clear and ample sea room for intense traffic of car ferries to and from Island of Elba.

Pilot not compulsory, but available day and night on request of ship or Agent.

RESTRICTIONS: Berthing of ships over 35,000 d.w.t. unadvisable in darkness. Berthing may be restricted by Southerly gales also for smaller vessels. No restrictions on sailing but may be necessary to disembark Pilot at Portoferraio (Island of Elba). Considerable swell in the harbour during gales.

MAX. SIZE: Max. draft 39 ft., length 260 m., no breadth restriction. Can accommodate vessels up to 50,000 d.w.t.

HEALTH: Free pratique automatic for vessels coming from Continent, "Q" flag not to be flown on entering. From other countries, including Spain and Portugal, usual procedure applies. Not coming from Continent it is possible to request free pratique by radio to "Sanimare", Piombino, between 12 to 6 hours before arrival.

RADIO: Civitavecchia or Livorno Radio.

BERTHING: "Acciaierie di Piombino" (ex-Italsider) pier equipped for quick discharging of ore, coal, scrap, etc. – Berth No. 4 depth 39 ft. Berth No. 3 depth 35 ft. 6 in. Other commercial berths, max. depth 29 ft., equipped with mobile crane 10 tons. One berth (21 ft.) with roll-on/roll-off facilities.

STEVEDORES: To enable Agent to order gangs, it is important to radio accurate ETA. Latest time to order gangs: shift 0600–1400 hrs., 1700 hrs. day before, shift 2200–0600, 1700 hrs. same day, shift 1400–2200 hrs., 1100 hrs. same day. Failure to give precise ETA may result in ship losing 12–24 hours, and the cost of the gang not employed, about 70.000 lire.

MEDICAL: Doctor and dentist can attend sick crew. For yellow fever and smallpox vaccination doctor comes from Livorno.

FRESH WATER: Available at any pier, by pipe-line.

FUEL: Available by barge from Livorno.

OPENING/CLOSING HATCHES: Normally carried out by crew (if stevedores, extra charge).

CERTIFICATES:
- Certificate of Registry.
- Load Line.
- Safety Equipment.
- Radio Certificate.
- Deratisation Certificate.

CONSULS: No Consuls.

REPAIRS: Small repairs only undertaken.

REPATRIATION: It is possible to arrange repatriation.

HOLIDAYS: Cargo work can be arranged on all official holidays.

POLICE/AMBULANCE/FIRE: Police 31111 or 32222; Ambulance 36022; Fire 33333; Emergency call (all services) 113.

SHORE LEAVE: Allowed.

AUTHORITY: Il Comandante, Capitano di Porto.

PORTO EMPEDOCLE: 37.17 N. 13.32 E.

BERTHING: Two quays with max. draft 21 ft., and one pier max. draft about 28 ft. Berths used for loading salt, fertilisers and generals, and for discharging bulk phosphate. Salt is discharged at rate of about 250 tons per hatch/day using ship's gear, and about 1,000 tons per day ex-silos.

PORTO TORRES (Sassari): 40.51 N. 08.24 E.

DOCUMENTS:
- 4 Crew Lists.
- 1 Passenger List.
- 1 Maritime Health Declaration.
- 1 Arrival Report.
- 1 Crew Declaration.

PILOTAGE: International Code Signals are used to call Pilot. Pilot station telegraphic address, Corpo Piloti Porto Torres, tel. P. Torres 514936. The pilot boats carry international pilot signals. The Pilot normally boards about 1 mile from port entrance. On request, vessel can be boarded 3 miles off port entrance. Also see VHF.

ANCHORAGE: About 1 mile from the green light on head of West Mole in depths of 25 m.

RESTRICTIONS: The oil terminal is exposed to winds and swell from N.W. to N.E. Heavy N.E. swell may delay berthing of larger vessels. Vessels should be ready to leave the berth if necessary due to adverse weather conditions.

MAX. SIZE: Inner port: length 120 m., draft 7 m.; Outer port: length 150 m., draft 8 m.; West Mole: length 150 m., draft 8–10 m.

S.I.R. Terminal: Pier A, length no limit, draft 9 m.; Pier B, length no limit, draft 12 m.; Pier C, length no limit, draft 15 m.; Pier E, length no limit, draft 8 m.

S.B.M. mooring: up to 300,000 tons.

HEALTH: Pratique is given by the Port Medical Officer who boards all vessels coming from foreign ports. No Radio pratique at present. Pratique not required for vessels arriving from Common Market countries.

RADIO: Coastal radio station, Porto Torres Radio P.T., call sign "IZN", operating on 2182 kHz. A continuous service.

VHF: Pilots work on Channels 12 and 16. Launch service from anchorage to Oil berths work on Channel 6. It is also possible to call Porto Torres Radio on VHF Channel 16 (Calling and Safety), with continuous service on Channels 25, 26 and 27.

Captain of the Port on VHF Channels 16, 12, and 9 and 14 from 0800 – 2000 hrs.

TUGS: Join vessel about 0.5 mile from port or from S.I.R. Piers. Ship's lines normally used. 4 tugs available.

BERTHING: Tankers are only permitted to berth between sunrise and sunset, but may unberth at any time.

Dry-cargo vessels may enter at any time.

There are two ports, viz. New Port and Old Port. The New Port is comprised of the S.I.R. jetty, and the Old Port is that area bounded by the East and West breakwater moles, within which are the Inner and Outer harbours. The Inner harbour is composed of the general cargo wharves which have in service electrical cranes up to 9 tons capacity, and a heavy lift gantry crane of 30 tons capacity. The Outer harbour has oil berths at the West Mole, and general cargo berths at the East Mole in depths of up to 8.23 m.

STEVEDORES: There are two ordering times each day. The first at 0800 hrs. and the second at 1330 hrs. It is possible to order gangs outside normal working hours through ship's Agents.

TANKERS: S.B.M. located about 1.7 miles N.N.W. of S.I.R. Terminal in approx. position 40.52.5 N. 08.21.5 E. Suitable for up to 300,000 d.w.t.

New Port, consisting of the S.I.R. jetty with berths A, B, C and E and depths of water varying to allow ship drafts of between 9 and 15 m.

There are two lines of 20 in. and 10 in. diameter for deballasting ashore.

Old Port, the West Mole which forms the seaward limit of the (Outer) port has tanker berths in a depth of 7 m.

MEDICAL: All facilities available. Nearest hospital located at Sassari, 18 km. away.

DENSITY: Salt water.

FRESH WATER: Can be supplied in limited quantities to vessels in port and in the roads. All berths are fitted with fresh-water connections, but supply is unreliable due scarcity. Advance notice is required for deliveries by barge or from tugs.

FUEL: All grades available by pipe-line at S.I.R. piers. Elsewhere, can be supplied by barge, subject advance notice of 12 hours.

GANGWAY/DECK WATCHMEN: Authorised shore service available.

OPENING/CLOSING HATCHES: Normally done by crew, can be done by stevedores on request.

CUSTOMS ALLOWANCES: 40 grammes tobacco per man. Normal daily consumption wine/spirits allowed.

IDENTIFICATION CARDS: Not required.

CONSULS: No local consular representation.

REPAIRS: Only minor repairs can be effected locally.

REPATRIATION: Can be arranged through Agents.

AIRPORT: Nearest at Alghero-Fertilia, 34 km. away. Daily flights to main Italian cities.

TIME: GMT plus 1 hour. Summer-time, clocks advanced 1 hour between 24th May and 21st October.

HOLIDAYS: New Year's Day (1st January); Epiphany (6th January); St. Joseph (19th March); Liberation Day (25th April); Labour Day (1st May); Patron Saint (22nd May); Easter Day, Ascension Day, Corpus Domini (variable date); Proclamation Day (2nd June); St. Peter and St. Paul (29th June); Assumption B. V. Maria (15th August); All Saints' Day (1st November); Victory Day (4th November); Immaculate Conception (8th December); Christmas Day (25th December); Boxing Day (26th December).

POLICE/FIRE/AMBULANCE: Police tel. 514888; Fire, 31421; Ambulance, 54973. Sassari Fire Brigade, tel. 270521; Sassari Ambulance, tel. 242124.

SHORE LEAVE: Allowed. Shore passes are issued by Immigration.

AUTHORITY: Capitaneria di Porto Torres.

PORTO VESME (Sardinia): 39.12 N. 08.24 E.

DOCUMENTS: See "Genoa".

TUGS: Vessels normally require two tugs. One tug is available from Porto Vesme, and the second usually comes from Cagliari at a charge of about Lire 800.000 per trip plus Lire 40.000 per hour from two hours after arrival at Porto Vesme.

BERTHING: All bauxite cargoes are discharged at Eurallumina Quay, including all cargoes discharged for account Comalco. This is a private installation, operating with own personnel on a 24-hour shift basis. Out-turns may reach 10/15,000 tons per day. Depth of water on approach to Eurallumina reported to be 13 m., and permitted draft alongside the quay is 10.97 m. (36 ft.).

FUEL: Not available.

FRESH WATER: Available, but in short supply. Preferably vessels should arrive with sufficient water on board in order to avoid the heavy charges incurred in deliveries by tank-lorries.

SHIPMASTER'S REPORT: 1975.

Harbour: The harbour is protected by two moles between which there is a wharf. A channel marked by buoys leads to the entrance.

Documents: On arrival the following documents are required.

Declaration of Health.
2 Crew Lists.
1 Copy of last Port Clearance.
1 Copy Vaccination List.
2 Store Lists.
2 Personal Effects Lists.
1 Valid Derat Certificate.
All other ship's documents.

Radio Pratique: Unavailable.

Pilotage: For ships arriving the Pilot boards at 39.14 N. 08.19 E., but in severe North-Easterly gales the Pilot will board in Palmas Bay, position 39.00 N., 08.30 E. When leaving Port the Pilot leaves the ship abeam of Ghingetta Is., 3 cables off, position 39.11.05 N., 08.22.25 E. There is no Pilot V/L, the Pilot boards from a tug.

Radio: Cagliari (IDC). No VHF service for pilotage.

Tugs: Two permanent tugs of 1,750 h.p. are operating and other tugs are available from Cagliari when necessary, and advising four days before ship's ETA.

Mooring Boat: Available.

Depths of Water:

In the Channel	14 m.
Eurallumina Quay	12 m.
Alsar Pier	8.5 m.
Trade Quay	8.5 m.

Berthings: Eurallumina Quay (unloading point of bauxite vessels). Length 442 m. Height on surface of water 3.6 m. Large rubber sprung fenders 150 ft. apart are fixed to the quay. Double bollards 150 ft. apart.

Vessels using this quay usually berth starboard side to using the port anchor which is let go well off the berth.

Bauxite Discharging Rate: 10,000 m. tons/day. Discharging by grab.

Fresh Water: Available at the Trade Quay by tank cars. At Eurallumina Quay available at 15 cu. m./hr. (Boiler Water only). No fresh water available at Alsar Pier.

Bunkers: Available by barge from Sarroch, about 70 miles from Porto Vesme.

Repairs: Limited minor repairs only and giving notice by radio. For Radio and Radar available at Cagliari.

Ship Chandler: Available advising Agent.

Consuls: No foreign representation.

QUILIANO TERMINAL: 44.17 N. 08.28 E.

(See Plan Book)

LOCATION: Terminal is located in Vado Ligure Bay in approx. Lat. 44° 16′ 48″ N., Long. 08° 27′ 42″ E. between Savona Harbour and Capo Vado.

DOCUMENTS:

2 copies Store List.
2 copies Curios List.
8 copies Crew List.
4 copies Passenger List.
Clearance, not required.
1 copy Cargo Manifest.
Health Declaration. International Health Form to be filled out by Master on arrival.

Consignee Papers:

Bills of Lading (original and copy).
Certificate of Origin (original and copy).
Ullages report at the loading port.

PILOTAGE: Also see "Mooring".

Pilotage is compulsory. Vessels proceeding to the terminal must call off Savona Harbour to pick up Pilot.

Pilot station is located one mile off Savona Harbour breakwater in position approx. Lat. 44° 19′ 00″ N., Long. 08° 31′ 24″ E. and maintains VHF radio-telephone service (Channel 13).

Vessels are requested to have a proper pilot ladder securely rigged and long enough to reach the pilot launch; during night-time, adequate light must be rigged overboard for the Pilot to approach the side of the vessel and safely climb the ladder.

Vessels partially loaded must have the pilot ladder rigged in conjunction with the accommodation ladder.

When the vessel is berthed, the Port Authorities require the accommodation ladder on the starboard side.

ANCHORAGE: For vessels awaiting berth, the anchorage area is off Savona Harbour breakwater, or in the area East of berth in position approx. Lat. 44° 17′ 00″ N., Long. 08° 28′ 05″ E.

MAX. SIZE: The berth is established for a 70 ft. draft vessel, with min. keel clearance of 15 ft., making the safe manoeuvring depth 85 ft. (26 m.).

HEALTH: Master to request free pratique by radio 24 hours prior arrival to "Sanimare Savona".

RADIO/VHF:

Master to Radio "Sarpom Quiliano"

AAA	Blading quantity in long tons.
BBB	Slops, quantity water percentage, tank number.
CCC	ETA Quiliano upon departure last port.
DDD	Any ETA change exceeding 12 hours.
EEE	ETA Quiliano 72–24 hours prior arrival.
FFF	Draft of arrival at berth.

Ship-to-shore communications

Ship-to-shore communications, while the ship is berthed will be by portable VHF radio units used by Sarpom Marine Terminal Supervisor only. The use of the ship's radio station (except VHF set) and/or battery charging equipment is prohibited for safety reasons during cargo-ballast transfer operations. In event of normal ship-to-shore communications failure, an emergency system will be operated.

Free pratique. See "Health".

Radio Message

Local Agent will transmit the following standard message to all inbound vessels:

Standard Message No. 1 Sarpom Quiliano
Master ....

Please advise ETA draft other requirements stop please urgently inform:

AAA	Have two 16 in. ASA connections ready on standard manifolds all other flanges to be blanked and fully bolted stop if 16 in. not available advise size manifold connection.
BBB	Have boom hoisted on starboard side able to work abreast of main cargo manifolds certified lifting capacity 10 tons.
CCC	Vessel will be moored at a 7 buoys SBB using both bow anchors with . . . . shackles each side stop advise details/availability your mooring system stop mooring lines/wires of 150 fathoms each are required stop terminal preventer wires may be required.
DDD	Accommodation ladder to be ready on starboard side on arrival stop have pilot ladder ready on stbd side in connection with the accommodation ladder.
EEE	During entire stay at berth engine to be always on readiness and steam on deck to be kept open.
FFF	Have ullages, cargo temperatures and water measured and ready before arrival.
GGG	Advise main cargo pumps total water rate capacity stop failing to answer above details may result in operational delays accountable to vessel.

Important that a reply to this message be sent soonest after receipt.

TUGS: Tugs are generally stationed in Savona Harbour. In view of required time to reach the Terminal Area (about 20 minutes time in good weather conditions) sufficient notice should be given.

The principal characteristics of tugs are:

Luigi Noli: motor, 3000 h.p. – 50 tons bollard pull (Korte nozzle). *Fire equipment:* Equipped with "Sourbel" fire-fighting articulated arms. 1 monitor fore mast, 23 m. above sea level; 2 monitors main mast, 16 m. above sea level, water/foam range 120/90 m.

Carmelo Noli: Motor, 1,700 h.p. – 20 tons bollard pull. 1 monitor fore mast – 12 m. above sea level. 2 monitors main mast – 9 m. above sea level. Water/foam range 90/70 m.

Giuseppe Piaggio: Motor, 1,600 h.p. – 17 tons bollard pull. 2 monitors main mast – 9 m. above sea level. Water/foam range 90/70 m.

Capo Vado: Motor, 1,250 h.p. – 15 tons bollard pull. 2 monitors main mast – 9 m. above sea level. Water/foam.

Leon Pancaldo: Motor, 808 h.p. – 10 tons bollard pull. No monitors – fire hoses only.

Priamar: Motor, 650 h.p. – 9 tons bollard pull. No monitors – fire hoses only.

Riviera: Motor, no monitors – fire hoses only.

MOORING: The vessel will be boarded before mooring operations by a Sarpom Marine Terminal Supervisor (S.M.T.S.) who is an experienced captain. He will remain on board up to the time the harbour Pilot boards the vessel for unmooring operations and he will also act as co-ordinator of all ship/shore operations, providing local advice to the Master in any emergency that may arise.

Responsibility for the safe conduct of operations on board while in berth or in the area of Terminal rests with the Master, as solely responsible on behalf of the Owners of the vessel.

Vessels will be boarded by the harbour Pilot off Savona Harbour breakwater or at anchorage. All manoeuvring of ships proceeding to the Terminal and within the Terminal area will be done in accordance with the harbour Pilot advices. Vessels will proceed subsequently to Vado Bay with a course parallel to the coast, about 1.2 miles from shore, up to the terminal area.

A starboard turn will be taken, steering on the "approaching range line", leading to the buoys field. Another range line, crossing with above line, marks the position where the starboard anchor should be dropped. With the assistance of 4 to 5 tugs the vessel then backs into the berth.

The position of anchors is assumed for vessels of 980 ft. LOA and 13 shackles in the water. The Pilot according to current information can also do anticlockwise manoeuvring instead of above clockwise, in this case the first anchor to be dropped will be the port anchor.

It is recommended that at least the following number of shackles in the water should be used according to size of vessel:

(1) VLCC's above 140,000 d.w.t.	13
(2) Vessels 80 to 140,000 d.w.t.	11
(3) Vessels 50 to 80,000 d.w.t.	9

According to existing local weather conditions the first line to be sent out is generally on buoy N.7 or 6 (port side of vessel). The sequence of mooring operations will take place as suggested by harbour Pilot.

In expected or bad weather conditions, preventer wires will be picked up.

For vessels in the range of 50,000–90,000 d.w.t., according to existing and foreseen weather conditions and other factors, only five buoys instead of seven will be used.

Vessels must be moored to the entire satisfaction of the Pilot and Sarpom Marine Terminal Supervisor and must be ready at all times to put out more lines, to take in preventer wires using messenger lines, or to adjust lines or leave the berth as required by S.M.T.S. due to any change in the weather.

The Master of the vessel shall notify the Pilot of any special conditions, difficulties or peculiarities, such as defective equipment lines or gear, which might impose special hazards in connection with handling, mooring or discharging the vessel.

It is required that vessels test steering gear, engine room telegraph, whistle and all navigational equipment before any manoeuvre to or from the berth. The Pilot will decline to moor vessels if they are not equipped with satisfactory mooring equipment, lines, gear, etc.

The mooring boat has the following characteristics: LOA 12 m. – beam 4.20 m. – displacement 17 tons. Motor Diesel *Deutz* 150 h.p., can be overpowered up to 200 h.p.

A successful test of the boat power was carried out by towing 250 m. of two 38 mm. dia. wires at the same time.

N.B. Being an open roadstead, vessels must keep engines on stand-by during their stay in the moorings. No repairs to main engine may be undertaken in berth. Steam must be kept on deck in case an adjustment to anchor cables or mooring lines is found necessary.

The vessel's personnel are responsible for the safety of the vessel and must take all necessary precautions, whether or not so advised by the Pilot or S.M.T.S., having in mind the hazards of the operations because of the product being discharged, weather conditions and any other circumstances requiring special care or caution.

While a vessel is moored, all the vessel's personnel and vessel's operations must comply or be in accord with the Safety Rules as per form 1–49 Mar–B and others handed to Master on arrival, to ensure as far as possible the safety of the ship as well as the properties of Terminal. Unsatisfactory conditions will be reported to Sarpom Marine Terminal Supervisor who is empowered to reject the ship for future calls unless the reported deficiencies have been remedied.

Note: If in the opinion of the harbour Pilot and/or Sarpom Marine Terminal Supervisor the vessel is not equipped with adequate mooring facilities, lines or gears he will so inform the ship's Master and in such event the ship shall not be brought into the mooring until facilities, lines or gear, are deemed satisfactory.

BERTH: The sea bed at the berth is firm sand overlain by 1 to 2 m. of mud.

The berth is a conventional buoy mooring consisting of seven Langmar buoys designed for a 125 short ton load. Each buoy is equipped with a 40 mm. diameter preventer wire. Vessel is berthed with two anchors ahead and seven mooring lines to buoys round the stern. Moored vessels have their bow seaward heading S.E., 155° true.

As the mooring buoys are at distances from 500 to 650 ft. away when the ship is in position, vessels should have ropes of 200 fathoms ready for running out on each side of the after deck to warp ship into position. Where vessels are not so equipped, two ropes of 150 fathoms (or of such a length as to have the eye splice on board when in position), should be married together and flaked out on deck clear of all obstructions and ready for running.

Vessels not equipped with wire winches should have at least 15 mooring lines aft with diameter appropriate for the size of the vessel and a min. length of 150 fathoms with lashings ready for marrying one rope to another for running out. Combinations of wire synthetic lines are acceptable on the basis that 2 synthetic lines replace 1 wire.

Speed of running out and warping are often of vital importance when berthing, and experience has proved that the smaller diameter synthetic ropes of equivalent strength not only improve mooring time but often make mooring possible when the larger ropes fail. Max. circumference of such ropes should be 10 in.

Mooring wires on ship's winches are favoured at this terminal but it is recommended that the wire be not less than 1.625 in. diameter and at least 150 fathoms long, preferably 200 fathoms. Such winches must be solidly locked when in moorings; the tension feature is not acceptable. It is also recommended that the wire be secured on the drum in such a manner that it can be slipped without endangering personnel.

Where nylon tails are used, they should be spliced on the wire round a thimble.

When slipping wire has been found necessary, the mooring company launch will make every effort to recover and return it to the vessel.

Chain stoppers must be ready both sides of vessel and aft.

DISCHARGING: Ships will discharge through 2 strings of hoses, i.e.:

String No. 1 9 lengths 25 ft.×20 in. dia.
2 lengths 25 ft.×16 in. dia.
1 length 30 ft.×16 in. dia.

String No. 2 10 lengths 25 ft.×20 in. dia.
2 lengths 25 ft.×16 in. dia.
1 length 30 ft.×16 in. dia.

The weight to be lifted on each string is about 9 tons: they are invariably taken up on the starboard side. Both headers are equipped with fast uncoupling devices.

The submarine line connected by manifold to the above strings consists of 2 lines (one 32 in. dia. one 36 in. dia.) of about 3.470 m. length reaching the shore installations (Sarpom Depot) which has, at present, the capacity of 387.500 cu.m.

The max. discharging rate allowed is 13,000 cu.m/hr.= 81,600 bbls/hr. with a max. pressure at ship's rail of 150 p.s.i.=10.6 kg/sq. cm.

Raising, connecting, disconnecting and lowering of the hoses will be performed by shore personnel (7 men), who will remain on board throughout discharging operations, using a special motor-boat chartered by Sarpom.

The boat is fitted with anti-oil-pollution equipment. Vessel's crew are required to assist shore personnel handling the boom winch and to carefully inspect their hose boom equipment before arrival.

It is recommended that vessels send max. flow possible with due regard to safety, in order to expedite turn-around time, as well as to provide ballasting as quickly as possible.

N.B. The Sarpom Terminal maintains a vigorous tanker discharging safety programme. S.M.T.S. is authorised to suspend discharging operations in the event of any of the safety rules not being observed, or if any other danger is believed to exist. Tankers are expected to follow all safety regulations generally accepted and practised in the marine transport industry (IOTTSG Safety Guide).

The S.M.T.S. will advise the Cargo Officer or a responsible officer in due time when the switching of shore tanks, changes in discharging rates, etc. are required by the shore installation operations and for any emergency stop.

BALLAST: Vessels provided with segregated ballast will start ballasting as soon as possible during discharge operations. All vessels that are able to handle cargo and ballast simultaneously will be authorised to do so, after S.M.T.S. is satisfied that no sea pollution or cargo contamination might occur.

All efforts must be made to avoid the vessel remaining in completely light condition. Should a vessel neither be fitted with segregated ballast nor be able to simultaneously handle cargo ballast, S.M.T.S. in agreement with the Master may ask the vessel to stop discharge operations and start ballasting, after having inspected the tanks involved.

Ballast operations after completion of discharge must be reduced to the minimum required for safe handling of the vessel out of berth, which in fair weather conditions can be: propeller submerged and vessel trimmed 10 ft. by the stern. Ballast operation can continue at reduced speed during unmooring.

While the vessel is ballasting the S.M.T.S. in agreement with the Master will start singling-up by letting go all preventer wires and any other additional mooring lines not strictly required for a safe mooring. This, of course, taking in due consideration all weather and current conditions.

WEATHER: The bay, although sheltered from the strongest winds blowing from the fourth quadrant by high mountains coming down close to the coast, is subject to strong wind gusts from this quadrant, and the relative wind direction varies considerably in different parts of the bay at one time due to irregularities of the coastal heights.

The bay is open to Southerly winds and seas, and it is from this direction that seas and swells caused by strong wind between S.E. and South may interrupt marine operations. Delays in this area are mainly due to the impossibility of mooring a vessel under certain weather conditions than to withstand elements once she is moored. The berth current is part of the general offshore current stream and is not wind blown or tidal; its predominant direction is toward the S.W. and the maximum speed is 0.8–1 knots; generally currents do not exceed 0.5–0.6 knots. The faster currents are likely to occur more frequently during the Winter period; occasionally they reverse and set N.W. with a reduced velocity.

Tide is negligible and fog is rare.

In general, weather in the bay is seasonal. From May to October it is very good. The worst period is from October to December when winds and seas from South cause the maximum number of port closures.

From December to May the strongest winds are experienced from third and fourth quadrants but sea is usually smooth.

12 and 24 hour weather forecast data is available on request on a round-the-clock basis at the Terminal Office. In addition the Office is provided with "Murfax" type continuous long-range weather recording data, waverider receiver, and anemometer.

Broadcast weather reports for Mar Ligure, North Tirreno and Corsica are prepared by Navy Dept. of La Spezia and Air Force Weather Buréau. For Mar Ligure, they refer to Capo Mele (West of Vado Bay). Radiotelephone information concerning weather is also given on 2182 kc/sec. (Genova Radio Station). Weather reports transmitted on 1722 kc/sec. at 0135–0735–1935 hrs. GMT.

Weather forecast covering the following 12 hours is transmitted at 0135 hrs. and 1335 hrs. GMT.

VHF-weather information can be received through Genova Radio Station on Channel 25 at same periods as for radiotelephone.

Special Gale Reports:

Wireless: After 15/18 min. and 45/48 min. every hour on 500/487 kc/sec.

VHF: On Channels 16 and 25 at same times as above.

SIP (Telephone) – Genoa Weather Report, prepared by Air Force Dept. at Genoa Airport, is based on the Genoa Radio information plus local information received by planes or vessels along the coast from Capo Mele to La Spezia. The report is inserted on a tape recorder and it is amended according to latest information received.

This report can be received by telephone by simply dialling 010-5605 at the following times:

from 31/5 to 26/9 at 0600–0900–1200 hrs. (forecast validity up to 2400 hrs. same day)
at 1800–2000–2400 hrs. (forecast validity up to 0600 hrs. following day);
from 27/9 to 30/5 at 0600–0800–1400 hrs. (forecast validity up to 2400 hrs. same day)
at 2000–2400 hrs. (forecast validity up to 0600 hrs. following day).

In case of necessity the Air Force Weather Bureau can be called by 'phone (010-420341 ext. 275) at any time of the day or night, to obtain additional information about developments of the exisiting situation and forecasts.

FRESH WATER: Fresh water is supplied at the berth, with no limitation, through a 3 in. flexible hose (international flange) at rate of about 60 t.p.h.

FUEL: Bunkers are supplied by barge which moors portside alongside the vessel. Bunker requirement must be radioed to local Agent at least 48 hours in advance. For vessels expecting to arrive on Saturday or Sunday, the requirement must be forwarded not later than Thursday afternoon.

CUSTOMS ALLOWANCES: Present regulations allow each seaman to retain in his possession a max. of 40 cigarettes or the equivalent of tobacco or cigars, and 1 open bottle of spirits. The balance of all smoking items and spirits must be collected, listed and locked, and included in the Stores List.

MEDICAL: Doctors and hospital facilities are available at Savona.

CONSULS: Consulates for most nations maintain offices in Genoa (about 50 km. from Savona).

REPAIRS: Repair shops for minor repairs are available. For electronic equipment repairs, notice should be sent to the local Agent in due time.

SHORE LEAVE: Launches are sailing from Chevron Pier (located about 1 mile North of berth) and keep regular connection with tankers berthed at Sarpom's berth.

During bad weather the service is performed sailing from Porto Vado.

Sufficient personnel must be aboard at all times for letting go lines so that the vessel can clear the berth whenever required.

AGENCY: Sarpom does not perform any vessel agency functions. Owners of vessels calling at Sarpom Terminal must arrange their own ship's Agent.

AUTHORITY: Port Captain.

RAVENNA: 44.25 N. 12.12 E. (See Plan Book)

DOCUMENTS:

For Maritime Authority:
Ship Safety Certificates.
3 Crew Lists.
3 Passenger Lists.
For Customs:
1 Crew List.
1 Passenger List.
Cargo Manifest.
Bills of Lading.
1 Provisions List.
1 Customs Declaration of each Crew member.
For Maritime Health:
1 Crew List.
1 Passenger List.
Derat Certificate or Exemption.
Maritime Health Declaration.
For Police:
1 Crew List.
1 Passenger List.

PILOTAGE: Ordered by Agent in advance. Contact by radio telephone: Nos. 430453 and 430204 during office hours. Cables to Piloti del Porto, Marina di Ravenna. Pilot station and both pilot boats equipped with VHF, Channels 16, 9, 6 and 12. Pilot is embarked not less than 1 mile from head of breakwater. Vessel awaiting Pilot may anchor 1.5 miles from breakwater head. This anchorage is not secure in bad weather. Vessel bound for SAROM installation, embark Pilot at least 0.5 mile from the berths. Pilot launches have black hull with white band, white superstructure, 10 or 14 m. in length.

ANCHORAGE: Anchorage prohibited in vicinity of submarine pipelines and cables. Vessels waiting for a berth may anchor at a distance more than 1.5 miles from the outer breakwater head according to their draft and subject to weather conditons.

RESTRICTIONS: Berthing day and night from entrance to San Vitale Basin. Inner port daylight berthing only. The channel to the inner port is navigable one way only. Traffic signals are displayed to indicate when channel closed to incoming vessels.

MAX. SIZE: *Inner Port*, draft limited from 17 ft. to 17 ft. 6 in. depending on vessel's beam.

San Vitale, max. draft 28 ft. allowed from port entrance to San Vitale Basin.

Sarom (Oil Platform), length not limited, max. draft 36 ft.

Sarom (Oil Berth), length not limited, max. draft 36 ft.

SBM Terminal, length not limited, max. draft 44 ft.

Sarom (Oil Platform No. 4), Length no limit, max. draft 70 ft.

HEALTH: Pratique given by radio, on request to Sanimare Ravenna. Pratique is automatic for vessels coming from ports in Italy, United Kingdom, France, Belgium, Netherlands, Germany and Greece.

RADIO: Messages via Ancona Radio, Venezia Radio, or Trieste Radio. Ravenna VHF Radio Station operates on Channels 16, 25, 26, and 27.

TUGS: Available, join vessel in outer port. Ship's lines are used.

STEVEDORES: To be ordered before 1030 hrs. for afternoon work, and before 1630 hrs. for following morning.

MEDICAL: All facilities available.

TANKERS: No slop discharge facilities available. Dirty ballast may not be discharged within 50 miles of the port.

S.B.M. Terminal:

No. 3 Terminal (Ocean Berth) lies in position Lat. 44° 29′ N., Long. 12° 25′ E. It can accommodate vessels of any length but there is a max. draft of 44 ft.

Discharging by 10-in. flexible hoses connected to ship's port manifold.

Vessel lies stern to buoy heading Northward, using both anchors. These are backed up with a shore wire on each bow. At the stern shore wires are used and there are two breast lines on either side.

If the vessel has to anchor, this should be to the North of the buoy and not less than 3.5 miles from the coast. This gives good holding in mud and clay if plenty of cable is used, as there is occasionally a 2.5 to 3.0 knot Southerly current. Vessels should not anchor South of the buoy due to the presence of telegraphic cables and pipelines.

DENSITY: 1024.

FRESH WATER: Only available ex-wharf at San Vitale and at inner port piers. Barge available for deliveries to the Silos Piers and tanker terminals.

FUEL: Available by barge.

FIRE PRECAUTIONS: Tankers are given copy of port fire regulations on arrival. No repairs or gasfreeing to be carried out without permission of Port Authorities.

GANGWAY/DECK WATCHMEN: Optional, can be employed from shore if required.

OPENING/CLOSING HATCHES: Can be performed by ship's crew or by stevedores.

CUSTOMS ALLOWANCES: 50 cigarettes per man for first day in port. Wine/spirits, allowance is made for normal daily consumption on board.

IDENTIFICATION CARDS: Shore passes given by police.

CONSULS:

Norway	tel. 24.5.47
Sweden	tel. 22.6.39
Spain	tel. 24.0.14

REPAIRS: Minor engine repairs can be effected. Floating dry-dock available for up to 1,000 tons displacement.

REPATRIATION: Can be arranged.

AIRPORT: Forli Airport situated 25 km. away, with daily flights to Rome and Milan.

TIME: GMT plus 1 hour. From May to September, GMT plus 2 hours.

POLICE/FIRE/AMBULANCE: Police, tel. 22.4.66; Ambulance, 22.3.11; Fire, 22.2.22.

TELEPHONES: Can be installed on board at San Vitale berths.

SHORE LEAVE: Allowed. Launch service available for vessels in the roads.

AUTHORITY: Capitaneria di Porto Ravenna.

SALERNO: 40.40 N. 14.45 E. (See Plan Book)

DOCUMENTS: As for all Italian ports, i.e. all ship's documents in valid condition and Arrival Reports, to be filled upon arrival with the Port Authority's representative.

PILOTAGE: Pilot station keeps watch on Channel 16 VHF from 0600 hrs. – 2000 hrs., working Channel 12.

ANCHORAGE: Position of anchorage, about 1 mile W.S.W. of green flashing light (Main entrance).

RESTRICTIONS: Vessel cannot enter or sail from the harbour between 2100 and 0500 hrs.

MAX. SIZE: Vessel allowed to enter port should not exceed 200 m. in length or 27 ft. draft.

HEALTH: Free pratique not obtainable by radio. Usual formalities on berthing.

RADIO: All cables should be sent via "Napoli Radio" call sign "IQH".

TUGS: Lines must be supplied by the ship. Tugs position is near the intermittent light (green).

BERTHING: Five berths with depths from 19 ft. to 27 ft.

STEVEDORES: Stevedores are to be informed 24 hours prior to vessel's arrival.

MEDICAL: Medical Service should be requested in advance. Hospital facilities are obtainable.

DENSITY: Average salinity is 1025 inside port.

FRESH WATER: Fresh water available at all berths.

FUEL: Bunkers may be supplied from Naples by truck or barge. If large quantities are requested supply will be effected by barge from Naples.

CUSTOMS ALLOWANCES: Only 40 cigarettes on vessel's arrival.

This applies to officers and crew. The remaining stock will be sealed in vessel's bonded store.
CONSULS: No consular representatives exist in Salerno. Nearest at Naples.
REPAIRS/DRY DOCKS: No dry dock exists. Only small workshops attending minor repairs.
AIRPORT: The nearest airport is at Naples. Distance 70 km.
TIME: One hour ahead of GMT.
HOLIDAYS: Other than the national festivities, 21st September, a local holiday, being the Name Day of the town's Patron Saint.
TELEPHONES: Emergency phone number is: 113.
DEVELOPMENTS: Presently some works are in progress in order to obtain a further berth with deeper draft.

SAVONA (including Vado Ligure): 44.18 N. 08.29 E.

DOCUMENTS:

Arrival Report for Port Authority.
Cargo Manifest.
Provisions and Crew Personal Effects Manifest.
8 Crew Lists.
Safety Certificates.

PILOTAGE: Ordered through Agent. Telegraphic address: Piloti Porto di Savona. Pilot launch is black with white band. To call Pilot, use flag or light signals according to International Code. For vessels bound for Savona or Vado Ligure, Pilot boards about 0.5 to 1 mile S.E. of the red light at Savona port entrance.
ANCHORAGE: Depths of 25 m. Important limit: it is forbidden to anchor North of bearing 270° from red light between 1st October and 14th May. It is forbidden to anchor East of bearing 360° from the white light between 15th May and 30th September.
RESTRICTIONS: Night entrance is considered for each case depending on type of mooring and vessel's draft. At Savona berths, vessels on maximum draft berth in daylight at high tide. No restrictions on un-berthing.
MAX. SIZE: Savona inner port, max. draft 9 m.; Savona Silos, max. draft 10.50 m.; Vado Ligure Roads, depending on berth depth.
HEALTH: Request free pratique by radio from Sanimare Savona prior arrival.
RADIO: Genova Radio or Roma Radio, VHF at Harbour Master's Office (Tel. 386656).
TUGS: Available, join vessel in vicinity of Savona port entrance or at Vado Ligure just off the berth. Ship's line usually used. If tug line used, tariff plus 20% is charged.
BERTHING:

Savona: Funivie (S. Giuseppe), 32 ft. depth; Savona Silos S.p.A., 30 ft. depth.

Vado Ligure: Fornicoke Pier, 38 ft. depth; Esso berth, 32 ft. depth; Vadoil berth, 39 ft. depth; Shell berth, 31 ft. depth; Chevron berth, 31 ft. depth. Sarpom buoy berths, see "Quiliano Terminal".
BULK HANDLING FACILITIES: Grain: discharged at berth No. 17, rate 500 t.p.h.

Coal: discharged at Funivie, discharging rates ranging between 7,500 and 16,000 tons per day, depending on suitability of vessel for discharging facilities.
TANKERS: Sarpom Sea-Line Terminal, see "Quiliano Terminal".

At Chevron, Shell and Vadoil berths, tankers are moored stern to quay.

No slop discharge facilities available.
STEVEDORES: Ordered by ship's Agent, no separate ETA required.
MEDICAL: All facilities available.
DENSITY: 1025.
FRESH WATER: Obtainable at berths by pipe-line. Barge available for quantities in excess of 60 tons.
FUEL: All grades available by barge.
FIRE PRECAUTIONS: Watchmen on board tankers or vessels handling dangerous cargo.
OPENING/CLOSING HATCHES: Can be handled by ship's crew or stevedores.
CUSTOMS ALLOWANCES: Bond Sealed. Small quantity cigarettes and spirits permitted for consumption while in port.
IDENTIFICATION CARDS: Shore passes given by local police.
CONSULS:

Finland
France
Netherlands
Norway
Spain
Sweden

REPAIRS: All types of repairs possible.
HOLIDAYS: 1st January; 6th January; 19th March; 25th April; Easter Monday; 1st May; 7th May; 28th May; 2nd June; 29th June; 15th August; 1st November; 4th November; 8th December; 25th December and 26th December.
POLICE/FIRE/AMBULANCE: Police, Tel. 28868; Ambulance, 20104; Fire, 801801–802441.
TELEPHONES: Can be connected on board.
SHORE LEAVE: Allowed.
AUTHORITY: Capitaneria di Porto.

TARANTO: 40.29 N. 17.15 E.

DOCUMENTS:

6 Crew Lists.
6 Passenger Lists.
Provisions Manifest.
Manifest of Crew Personal Effects.
Cargo Manifest.
Arrival Report, completed on arrival.
Maritime Declaration of Health Certificate, completed on arrival.
Ship's Certificates including Italian Anchorage Dues.
Vaccination Certificates for sighting.

PILOTAGE: Piloting in Port of Taranto is compulsory for all vessels over 500 g.r.t. Vessels are taken 1 mile off S. Vito Cape Lighthouse. Also for shifting from berth to berth Pilot assistance is compulsory.
RESTRICTIONS: Entry allowed day and night.
MAX. SIZE: Tankers up to 72 ft. draft may berth at buoy mooring. Also see "Berthing".
HEALTH: Free pratique is automatic for vessels coming from Italy, France, Great Britain, Ireland, Germany, Belgium, Holland and Greece. From other countries it may be obtained via radio, by applying to "Sanimare Taranto" between 12 and 6 hours before arrival.

Smallpox vaccinations available. Yellow fever vaccinations could be arranged by calling Bari port doctor to Taranto with two days notice.
TUGS: Towage service is not compulsory and is supplied by one tug of 1,350 h.p., 2 tugs of 1,000 h.p., and one of 1,035 h.p. belonging to Rimorchiatori Napoletani. It is expected that the service will be improved in the future with a further tug of 1,920 h.p.
BERTHING: *Outer Harbour:* Quays No. 1/2, combined length, 1,050 ft. (32 m.); max. draft, 26 ft. 3 in. (8 m.); Quay No. 3, length, 820 ft. (250 m.); max. 27 ft. 10 in. (8.50 m.).

Italsider Pier: *Eastern side* (for discharge of ore, coal, steel scrap): length, 4,456 ft. (444 m.); depth alongside 52 ft. 6 in.; max. draft allowed 50 ft. Vessels up to 200,000 d.w.t. have berthed at Italsider Jetty No. 4. Length 1,353 ft. Depth alongside 80 ft. Discharge rate for iron ore (2 Dravo unloaders) 1600–2400 m.t.p.h. Discharge throughout 24 hours.

Western side (for discharge and loading of finished goods): length, 1,566 ft. (477 m.); depth alongside 33 ft.

Safety. During Winter time, berths are subjected to heavy swell which may force vessels to leave same, as the breakwater effectively protects only the Eastern side. However, work is now in progress to lay new breakwater, which should also render safe the Western side.

Head of the Pier: Width, 448 ft. (136.55 m.); max. length of vessel, 459 ft. (140 m.) or up to 525 ft. (160 m.), subject to vessels laying at Western and Eastern sides being berthed at not less than 164 ft. (50 m.) from head of pier; depth alongside, 32 ft. 8 in, (10 m.).

Cement Pier: Max. depth is 8.50 m.; suggested max. draft 8.20 m. (26 ft, 10 in.); max. vessel length acceptable, 120 m.; rate of loading (in bulk): up to 280 m./t.p.h.; (in bag): up to 35 m./t.p.h.
TANKERS: *Aviation Gasoline Oil Jetty.* Tankers moor with 2 anchors and with stern made fast to 4 buoys. Connection by stern. Vessel lifting up hoses (9 in.) from the jetty (breadth 9 ft., length 1,476 ft.). Length of pipe-line from 0.5 to 1.5 miles.

Access to vessel by boat. No water or bunkers available. Max. draft 25 ft. Night crossing of Mar Piccolo up to and from jetty is not allowed.

Navy Oil Jetty: Pier, terminating in 2 quays, which may accommodate 2 vessels each. Max. draft 33 ft., hoses 300 mm. Night movements allowed.

Petroleum Pier: Exclusively used for handling petroleum products at its 4 berths and is connected by several pipe-lines with Shell Italiana Refinery, as well as with the bulk plants belonging to Agip, and Industrie Chimiche De Gaeta, which are all located in the industrial area of Taranto adjoining to the petroleum port. Access to the pier is through a dock 350 m. long and 33 m. wide. The pier itself is 560 m. long.

Berth No. 1 and 2 (after berths), max, length of vessel, 175 m. (557 ft. 3 in.); max. draft, 9.50 m. (31 ft. 2 in.). Max. depth, 10 m. (32 ft. 9 in.). Bunkers from line, (8 in. hose, 10 in. pipe-line). Water, by barge. Loading arms, 2 of 10 in., 3 of 8 in.

Berth No. 3 and 4 (fore berths), max. length of vessel, 208 m. (682 ft. 5 in.); max. draft, 10.50 m. (34 ft. 5 in.); max. depth, 11.00 m. (36 ft. 1 in.). Bunkers and water, as per berths 1 and 2. Loading arms, 6 of 10 in.

Pier is fitted with 1 line for each product to be loaded (14 lines) and a 20 ft. line for ballast discharge. Any quantity of ballast may be received by the pier. Access to the pier for provisions only via boats.

Shell CBM. Shell terminal for discharge of crude oil is situated in Mar Grande North-east of St. Paul's Island. Distance 3,000 m., and bearing 048° from light at the head of St. Paul Breakwater. Vessels moor at Q buoys with port anchor down. Buoys are equipped with intermittent red lights and quick-release hooks.

The hoses (2×12-in.) are signalled by marker floats and have to be lifted by vessel with derrick capacity at least 8 tons. The terminal is connected with the refinery by a 34-in. pipe-line, 5 km long. Max. length acceptable 330 m., max. draft 72 ft., max. d.w.t. 200,000 tons.

2 tugs recommended for berthing with good weather and without North-westerly winds. Night mooring and unmooring allowed.

Agip/Anic Terminal: Vessels moor with 2 anchors and with stern made fast to 4 mooring buoys.

Maximum draft 26 ft. 3 in. (8 m.). Under rough weather conditions vessels may have to leave the terminal, position being exposed. No mooring at night allowed, while unmooring is permitted. Supplies, bunkers, water, and connections with vessel by barge.

For methanol, tank inspection is usually carried out in the road, before berthing.

Pozzi Ferrandina SPA Terminal: 3 sea lines, the hoses of which must be lifted from the sea bottom by ship's gears. 1 sea line (6 in.) is used to load methanol and 1 (6 in.) to load soda. Third (3 in.) sea line is for water. Port side hose connection. Pipe-line length 0.25 mile.

Vessels moor with starboard anchor and made fast to 3 buoys astern and 1 port. Night movements are not allowed. Max. draft 22 ft. Max. length 85 m.

Industrie Chimiche Di Gaeta, G.I.D. Terminal: Situated further West of Pozzi Terminal, it has 3 sea lines with hoses of 6 in. and 10 in., which have to be lifted from sea bottom.

Vessels moor with port anchor and make fast to 3 buoys astern and 1 buoy forward starboard. Max. draft 22 ft. Night movements not allowed.

BRIDGES: 1 bridge in inner harbour. Opening times: 0020–0420 hrs., 0830, 1510, 2110 hrs. Opening on Agent's request to Harbour Master (24 hours notice requested for day opening time). Max. speed in the canal, 6 knots.

STEVEDORES: Available. Normal working hours are from 0700 to 1500 hrs. For work performed in overtime/and/or holiday, the "Tariffs to the Workers" are increased as follows:

Day	*Shift*	*Increase*
Weekday	1500–2300 hrs.	40%
	2300–0700 hrs.	80%
Saturday	1100–1500 hrs.	40%
	1500–2300 hrs.	40%
	2300–0700 hrs.	80%
Sunday	0700–1500 hrs.	50%
	1500–2300 hrs.	80%
	2300–0700 hrs.	100%

DENSITY: 1029 and 1031. Tides negligible. Maximum variation 1 ft.

FRESH WATER: Available at all quays from 0700 to 1700 hrs. Also available by barge of up to 190 tons capacity.

FUEL: Available by barges from Agip; Shell and Sincat. 48 hours notice requested, aside from usual stemming.

Lubricating Oil. Available from Shell, Mobil and Esso.

FIRE PRECAUTIONS: Performed by fire brigade and compulsory to all tankers undergoing repairs/dry docking. It is requested and paid for by the shipyard, which afterwards charge same directly to the Owners.

GANGWAY/DECK WATCHMEN: Available. Hourly cost, lire 450 per, watchman used (lire 500 on Sunday and holiday).

OPENING/CLOSING HATCHES: Usually carried out by crew, but stevedores also carry out this operation at 1,202 lire per hatch.

CUSTOMS ALLOWANCES: 40 cigarettes and 1 opened bottle wine/spirits per man.

IDENTIFICATION CARDS: Required. Shore passes issued by local police.

CONSULS: Spain, France, Panama and Norway.

REPAIRS: All major repairs undertaken.

DRY DOCKS: 2 floating docks owned by Stabilimenti Navali with dimensions as follows:

	Dock No. 1	*Dock No. 2*
Length at support level	699 ft. 8 in.	808 ft. 4 in.
Length overall	765 ft. 4 in.	869 ft. 4 in.
Breadth at support level	121 ft. 3 in.	137 ft. 1 in.
Depth	29 ft. 8 in.	27 ft. 9 in.
Lifting capacities	28,000 tons	40,000 tons

Max. draft acceptable in channel leading to the shipyard is 33 ft.

REPATRIATION: Good facilities exist.

AIRPORT: Located at Grottaglio, 20 minutes by car from the city. It is served by 4 daily connections with Rome, and 1 to Naples.

TIME: GMT plus 1 hr. Winter. GMT plus 2 hrs. Summer.

HOLIDAYS: New Year's Day (1st January); Epiphany Day (6th January); Saint Joseph's Day (19th March); Liberation Anniversary (25th April); Easter Monday; Ascension Day (19th May); Corpus Domini Day (9th June); Labour Day (1st May); Republic Foundation's Day (2nd June); Saint Peter and Paul's Day (29th June); Assumption Day (15th August); All Saints' Day (1st November); National Unity Day (4th November); Immaculate Conception Day (8th December); Christmas Day (25th December); Saint Stephen's Day (26th December); Town Saint Patron's Day 10th May, at Taranto).

SERVICES: Compass adjusting, etc. available.

SHORE LEAVE: Allowed.

AUTHORITY: Il Comandante Colonello di Porto. Ministero della Marina Mercantile.

TORRE ANNUNZIATA: 40.45 N. 14.27 E.

DOCUMENTS and all General Information – refer to "Naples".

RESTRICTIONS: Mainly a fishing port with few facilities for larger vessels. Reported not to be suitable for larger vessels during winter months due to frequent high winds and heavy swell within the harbour.

MAX. SIZE: Length 472 ft., draft 30 ft.

TRIESTE: 45.39 N. 13.45 E. (See Plan Book)

PORT LIMITS: From Barcola (4 km. East of Capo Miramare) to Zaule, in the Muggia Bay. The roadstead is 18/24 m. deep. If readiness is declared before 1200 hrs. laytime commences at 1300 hrs. If readiness is declared between 1200 hrs. and 1700 hrs. laytime commences at 0800 hrs. the following day. The declaration of "readiness" is made when the ship docks at the operative pier or when the ship anchors in the roadstead.

DOCUMENTS:

For Customs:
2 Cargo Manifests.
1 Stores List.
1 Provisions List.
For Port Authorities:
Arrival Report.
2 Crew Lists.
3 Passenger Lists.
For police:
1 Crew List.
1 Passenger List.
Shore Passes, provided by Agents.
For Port Health:
Maritime Declaration of Health.

PILOTAGE: Compulsory for vessels over 499 g.r.t. Location of Pilot station for large tankers is in approximate position 45° 37′ N., 13° 43′ E.

For smaller vessels Pilot boards in approximate position 45° 39′ N., 13° 44′ E.

ANCHORAGE: No Pilot required to anchor in roads. Normal anchorage for vessels awaiting entry is to the West of Luigi Rizzo Breakwater where the holding ground has been reported to be poor.

MAX. SIZE: Tankers up to 1,000 ft. LOA, draft 54 ft. 3 in. and 160,000 S.D.W.T. at Siot Terminal berths No's 3 and 4.

HEALTH: Free pratique is granted by the local Health Officers who board the vessels on arrival together with Port Authorities. The pratique can also be requested by cable, addressed to "Sanimare – Trieste" and stating the port of origin, the number of crew and general health condition on board.

RADIO: Trieste radio call sign IQX, operating continuously. Radio Telephony and/or telegraphy can be used. RTF Channels 8, 12, 16, and 500. ETA to be sent 48 hours in advance to Agent. Any change of ETA of more than 1 hour should be reported.

TUGS: 10 tugs available up to 3,000 h.p. Tugs normally join vessel at pilot boarding station. Ship's lines used. Tug assistance is compulsory for tankers. Tugs equipped with VHF and foam fire fighting equipment.

BERTHING: Max. draft allowed at berths as follows:

Punta Franco, Vecchio, ore pier, 28 ft.; Other berths, 21 ft. Punto Franco, Nuovo, ore pier, 30 ft. silos, 31 ft. 5 in.; general cargo, 31 ft. Punto Franco, Scalo Legnami, 24 ft. Molo Martello, 30 ft., max. length of ship, 171 m. Italsider, berths, 45 ft.

Siot Terminal, 54 ft 3 in. Pontile Aquila, oil pier, 38 ft. Italcementi, berths, 30 ft. Vetrobel, berth, 30 ft. A.F.A., berth, 21 ft.

Mole No. 7 (Container Terminal)-, max. draft 52 ft.

SPECIALISED CARGO HANDLING FACILITIES: Wheat storage-bin for cereals and oil-seeds, capacity 30,000 tons, with 4 pneumatic unloaders. Auxiliary set, capacity 16,000 tons, with 3 pneumatic dockers.

Coals and minerals plant, Molo VI North, with 7 cranes and 2 bridge cranes.

Coals and minerals plant Italsider pier with two 25-ton unloaders.

Unloading, loading, alcohol and other liquid stowage plant, capacity 5,340 cu.m.

Maturity, conservation and disinfestation fruits and vegetables plant.

Refrigerant, capacity 3,700 tons.

Container Terminal: Quay length 650 m., total area 20 ha. 3 rail-mounted 42-ton gantry cranes (portainer) and other modern and special installations for unloading/loading, moving and parking containers.

Roll-on/Roll-off: 3 ramps.

STEVEDORES: The working hours for the harbour operations are: 1st turn from 0730 to 1400 hrs. 2nd turn from 1400 to 2030 hrs. On Sundays and holidays the 2nd turn is limited to ferry boats, container ships, unloading/loading of live animals, and to perishable goods operations. Customers can take advantage of a possible 3rd turn in the labour days, Monday to Friday, from 2100 to 0330 hrs.

Night work, Sundays and holiday work, the 2nd turn of Saturday and the continuation of the turn is considered as overtime work.

MEDICAL: All facilities available. Preferable order in advance if required on holidays.

TANKERS: No slop discharge facilities; no repairs allowed to tankers at loading/discharge berths; no trucks or lorries allowed at Aquila Oil Pier which can only be approached by motor boats.

Transalpine Pipe-line Terminal (Siot). The piers are orientated 067.5°–247.5° in direction of prevailing winds. Currents do not affect the berths sensibly.

Berths No. 1 & 2 (No. 1 Finger pier 1420 ft. LOA). Max. LOA 950 ft. Max. draft 54 ft. 3 in. Max. d.w.t. 100,000.

Berths No. 3 and 4 (No. 2 Finger pier, 1,475 ft. LOA). Max. LOA 1,000 ft. Max. draft 54 ft. 3 in. Max. d.w.t. 160,000.

Discharge of crude or products is via 3×16 in. unloading arms at berths No. 1, 2 and 3 and via 4×16 in. arms at berth No. 4. The shoreline is 36 in. at foot of pier enlarging to 42 in.

Discharge rates of 14,000 cbm/hr. are possible. Max. permitted pressure 150 p.s.i.

Fuel oil and marine diesel bunkers are available at all berths through 10 in. loading arms on each side of the discharging rack.

Fresh water available all berths and should be ordered through the Agent.

DENSITY: 1025.

FRESH WATER: Available by pipe-line at all berths. No barges available.

FUEL: All grades available, loading rate about 250 t.p.h. 48 hours notice required.

GANGWAY/DECK WATCHMEN: Available but not compulsory.

OPENING/CLOSING HATCHES: Optional, but stevedores usually perform this operation for convenience.

CUSTOMS ALLOWANCES: 50 cigarettes for each man and one bottle wine/spirits between 5 men. Only one allowance given while vessel in port.

IDENTIFICATION CARDS: Shore passes are issued by local police.

CONSULS:

Austria	tel. 90891	Holland	tel. 61690
Belgium	tel. 37073	Honduras	tel. 95225

REPAIRS: All kinds of hull, deck and engine repairs can be carried out by Arsenale San Marco, Cantieri Alto Adriatico and other yards.

DRY DOCKS: dry docks available, the largest of which is 206.96 m. long; 30.0 m. wide, 27.60 m. depth and 8.25 m. sill depth.

REPATRIATION: No facilities.

AIRPORTS: 30 miles distant. Two flights daily to Venice/Milan and Rome for international connections.

TIME: GMT plus 1 hour. Summertime: GMT plus 2 hours.

HOLIDAYS: New Year's Day (1st January); Epiphany (6th January); St. Joseph (19th March); Liberation Day (25th April); Labour Day (1st May); Good Friday, Easter Monday, Ascension Day, Corpus Domini (variable dates); Proclamation Day (2nd June); St. Peter and St. Paul (29th June); Assumption B.V. Maria (15th August); All Saints' Day (1st November); St. Giusto (3rd November); Victory Day (4th November); Immaculate Conception (8th December); Christmas Day (25th December); Boxing Day (26th December); Cargo work can be arranged on the above days.

POLICE/FIRE/AMBULANCE: Police, tel. 113; Fire, 2222; Ambulance, 68888.

TELEPHONES: Can be installed on board.

SHORE LEAVE: Allowed.

DEVELOPMENTS: New dry dock 350 m. length under construction.

AUTHORITY: Ente Autonomo del Porto di Trieste.

VENICE: 45.26 N. 12.20 E.

DOCUMENTS: Minimum number of ship's papers required upon arrival:

By Port Health
2 copies Passenger List.
2 copies Crew List.

By Police
2 copies Passenger List.
2 copies Crew List.

By Ship's Agents
2 copies Passenger List
2 copies Crew List.
2 copies Cargo Manifest.

By Customs
2 copies Cargo Manifest.
2 copies Provisions and Stores List.

PILOTAGE: Pilot boards 2 miles from breakwater. Master can contact Pilot by VHF.

ANCHORAGE: Anchorage for large tankers will depend upon Master's discretion. However there is a good anchorage in position 45° 23' 30" N. 12° 34' 00" E.

RESTRICTIONS: Advisable to enter during daytime and with favourable tide. Vessel up to 29 to 30 ft. draft can enter at high water. Vessel of this size can berth alongside with use of a pontoon. Tankers; normally restricted to 31 ft. draft. Also see "Tankers".

HEALTH: Health Officer boards as soon as vessel is berthed. Pratique can be obtained by radio prior arrival. Radio request to Sanimare Venice through Trieste Radio.

TUGS: Tugs are available in plenty and will join vessel at breakwater and/or off Lido when proceeding to S. Nicolo. Ship's lines have to be used.

BERTHING: Banchina Piave have a total quayage of 2,760 ft. long with a depth of water varying from 25 to 26 ft. at low water.

Banchina Tagliamento have a total quayage of 2,500 ft. long with a depth of water varying from 26 to 29 ft. at low water.

Testata Marmi have a total quayage of 720 ft. long and 26 ft. depth of water.

Banchina Palazzo have a total quayage of 525 ft. long and a depth of water of 26 ft.

Banchina Isonzo have a total quayage of 2,360 ft. long with depth varying from 24 to 30 ft. at low water.

Testata Silos have a total quayage of 330 ft. long with a depth of water 21 ft. at low water.

Banchina S. Marte e Magazzini Generali Punto Franco (Free Port) have a total quayage of 2,950 ft. long with a depth of water varying from 21 to 23 ft. at low water.

Porto Marghera:

Leghe Leggere with a depth of water 27 ft. at low water.

Radice Molo "A" with a depth of water 27 ft. at low water.

Banchina Veneto with a depth of water varying from 22 to 25 ft. at low water.

Banchina Lombardia with a depth of water 28 ft. at low water.

Banchina Piemonte with a depth of 30 ft. at low water.

BULK HANDLING FACILITIES: Bauxite discharging at Montecatini and Molo Commerciale in Porto Marghera.

Discharge by crane grabs at rate of 2,000 tons per day at Montecatini, and 1,500 tons per day at Molo Commerciale. Vessels up to 28 ft. draft can be accommodated.

STEVEDORES: The Provveditorato al Porto Venice are exclusively entitled to manage all the commercial work in the harbour including stevedores. Vessel should en route ETA cable to Agent at least 48 hours prior vessels arrival to arrange gangs.

MEDICAL: Hospital facilities always available. No notice required in advance.

TANKERS: Tank washings cannot be disposed of inside port. Diameter of loading discharge lines 8 to 12 in.

One berth for tankers at San Leonardo can accommodate vessels up to 85,000 d.w.t. Max. draft is 43 ft. 3 in. Good discharging and no back-pressure. Speedboats up to Venice take about 40 minutes.

Discharging berths for tankers at Porto Marghera:

Darsena IROM, length 570 m., depth 30 ft. Tankers over 31 ft, draft require special approval.

Esso Pier: depth alongside 30 ft.
Shell Pier: depth alongside 30 ft.
Agip Pier: depth alongside 23 ft.

Port entrance of Malamocco, at point of the island of Lido, has been reopened where a canal 12 m. deep leads to Port of Marghera. This canal allows large tankers to proceed to coastal storage tanks without passing through urban centre of Venice.

DENSITY: Average salinity of water inside port 1020.

FRESH WATER: Available.

FUEL: All grades available and delivered by barge.

CUSTOMS ALLOWANCES: The Customs require from the ship a complete list in duplicate of Provisions and Stores. It is particularly important that the quantities of items such as tobacco, cigarettes, spirits, coffee, matches, pepper, salt, spices, cars, chocolate, should be given accurately. Customs Officers will supervise the issue while ship is in port. Amount of tobacco allowed out of Bond: 50 cigarettes per man for all foreign vessels except British and U.S.A. flags. 20 cigarettes per day per man on British and American flag vessels.

OPENING/CLOSING HATCHES: Normally carried out by stevedores.

CONSULS: Following are Consulates maintaining their offices at Venice.

Argentine
Austria
Belgium
Denmark
Finland
France
Great Britain
Germany
Greece
Guatemala
Lebanon
Liberia
Norway
Holland
Panama
Peru
Portugal
Spain
Sweden
Switzerland
Uruguay

REPAIRS/DRY DOCKS: There are ample facilities for repairs. Following are particulars of Venice dry docks:

Minore	*Maggiore*	*Principe*	
298.8 ft.	526.3 ft.	820.3 ft.	extreme length
58.4 ft.	79.8 ft.	117.8 ft.	breadth of entrance
1.0 ft.	1.0 ft.	3.1 ft.	height of sill above bottom dock
19.7 ft.	29.6 ft.	36.0 ft.	depth on sill at high water.

AIRPORT: International Airport Marco Polo about 10 km. from Porto Marghera. Served by regular airlines.

TIME: GMT plus 1 hour. Summer Time from June to September.

HOLIDAYS: The public and port holidays are the following: 1st January; 6th January; 19th March; 25th April; Monday after Easter Day; 1st May; Ascension Day; Corpus Christi Day; 2nd June; 29th June; 15th August; 1st November; 4th November; 21st November; 8th December; 25th December; 26th December.

TELEPHONES: Telephones will be placed aboard the ship.

AUTHORITY: Il Comandante di Porto.

Ivory Coast

ABIDJAN: 05.18 N. 04.00 W. (See Plan Book)

PORT LIMITS: The pilotage zone, is limited by a circle with a 3.5 mile radius centred on the pier lighthouse of the West jetty of the entry canal.

DOCUMENTS: "All ships calling at Abidjan to discharge cargo will have to supply on arrival altogether 13 sets of cargo manifests and 4 sets of freighted manifests for each port of loading, as the administration no longer accepts reproductions of documents supplied by the agents. Furthermore, Masters are reminded to hand to agents on arrival, 6 crew lists, 4 stores lists, 4 bonded stores lists, 4 crew declarations, 6 passenger lists (even if nil), 5 animal lists (even if nil), 5 narcotics lists, (even if nil), 5 lists of ports of call and 1 vaccination list. Furthermore, the attention of Masters is drawn to the fact that the Customs Services are strictly enforcing the control regulations on incoming vessels and very heavy fines are imposed in cases of omission or mistakes in declarations of slop chests, stores lists etc".

PILOTAGE: About 1 hour before arrival ships equipped with VHF shall confirm to the Pilot station their correct hour of arrival off the Roads; then the boarding time for Pilot shall be communicated. It is essential that these times are clearly understood both by ship and Pilot station.

Ships shall stay in a position so they keep across the swell and the wind which both generally come from the South and they shall put the pilot ladder on the lee side, i.e. Port if steering Eastward, Starboard if steering Westward.

Pilotage is compulsory, except for shifting alongside quays. For ships leaving harbour or shifting within harbour limits, request for a Pilot should be made at the Harbour Master's Office at least 3 hours before sailing or shifting. For a night sailing or shifting, request must be made before 1700 hrs.

Warning: when embarking Pilot, keep well clear of sandbank extending from entrance to Vridi Canal.

ANCHORAGE: Vessels may anchor on the outer road in 20 to 30 m. of water, firm sandy bottom, also to the South and to the West of the West jetty of the Vridi Canal.

RESTRICTIONS: Ships may leave or enter Abidjan only between certain time limits. These limits are transmitted by Abidjan-Radio: on 500 kc/s on request; on short wave, at the beginning of each watch period.

MAX. SIZE: Until now the largest vessel admitted was 243 m. in length. Vessels with a length of 250/260 m. may be able to be admitted ultimately. At the present time, the maximum permissible draft is 31 ft. It will soon be increased to 33 ft.

HEALTH: Request for free pratique is given by the Agent to Port Health Authority, who will board vessel on arrival.

RADIO: Masters must radio through Abidjan – Radio their ETA and draft, 24 hours and again 6 hours before their arrival, to the Port Commandant (COMPORT) or in his absence, to the consignee. For a night arrival, the telegram must arrive at the station before 1700 hrs.

When at anchorage off Vridi canal, vessels should watch for signals from Vridi signal station, which keeps continuous watch, and advise them regarding the time the Pilot will board their ship. Port Captain's office and Vridi signal station keep a permanent watch on 156.6 Mc/s and 156.8 Mc/s. Agents may be obtained through Abidjan-Radio on 2182 kHz. Abidjan-Radio answers on 1813 kHz.

Shipmaster's Report: 1978

Abidjan Radio no longer broadcast Vridi Canal opening times for entry into port of Abidjan. This information can be received from Pilots Channel 12 or from local Agent. Canal opening times are only known 3 to 4 days ahead.

VHF: Channels 16 and 12 are used: 16 for security and 12 for general traffic. It is strongly advised to use Channel 12. This Channel is strictly reserved for the harbour traffic and ships wishing to talk to each other should do so on a ship to ship Channel (6 or 8).

RADAR: Is installed in the Harbour Master's office. Vessels can contact port radar by calling "Comport Abidjan" on VHF Channels 16, 12 and 11, or through Abidjan Radio, which keeps watch on Channel 16.

TUGS: Tugs join vessel at the port entrance. Towing lines are provided by the tug.

BERTHING:

Bananier Quay: (Banana Carrier Quay): Length 350 m., 2 berths, depth 7 m.

North Quay: Length 775 m., 5 berths (Nos. 1–5) from East to West, depth 10 m.

West Quay: 1,525 m., 10 berths Nos. 6 to 15 from North to South, depth 10 m.

South Quay: 1,550 m., 9 berths Nos. 16 to 24 from North to South, depth 11.5 m.

Roll-on/Roll-off Berth: Length 200 m. Depth 11.5 m.

A temporary roll-on/roll-off berth is located at the North Quay of the fishing harbour, length of the quay 350 m., depth 7 m.

A quay 90 m. long, situated on the South bank of the lagoon between the access canal and the discharge canal (Bietri Canal) extended by a system of piles, permits the mooring of vessels 140 m. long and with 26 ft. draft. This Quay is called 'Siveng Quay' and is reserved for the Company of the same name.

2 oil wharfs situated on the East bank of the access canal accommodate large vessels of more than 200 m. with a max. draft of 31 ft.

A "sea line" buoy situated off Port-Bouet can accommodate vessels having a length of 270 m., and a draft of 46 ft. and not exceeding 75,000 d.w.t.

Mooring buoys lined up in the North part of the port (Banco Bay) are used by vessels taking on timber.

The Quays of the port are not equipped with cranes, so loading and unloading operations are undertaken by vessels own gear.

SPECIALISED CARGO HANDLING FACILITIES:

Container Terminal: Currently in the course of construction, completion expected 1979, 3 berths each of 200 m. (Berths Nos. 22, 23 and 24), the area of the container park will be approximately 120,000 sq.m. A study with regard to equipping these quays with gantry cranes is being undertaken. At the present time, only Quay No. 22 is in service, the area of the container park is 60,000 sq.m. Loading and unloading of the containers is by ship's gear. Transport on the quays is made by trailers.

Roll-on/Roll-off berth: This berth will be completed in October 1979; it will be a park of approximately 40,000 sq.m.

Details of the ramp of the temporary berth, situated on the North quay of the fishing harbour are as follows: Width 17 m., height above chart datum 1.5 m., permissible loading 20 tons by pulley: The height of the quay above datum is 1.8 m.

Vessels arriving with cereals destined for "Grand Moulins D'Abidjan" are received at Berth No. 1, or they are given a berthing priority. Handling is by means of suckers and conveyor, average rate of discharge 150 t.p.h. The capacity of the silos is 30,000 tons. The "Grand Moulins" are also equipped to load pellets in bulk at this berth. They can also receive cereals for third parties; in this case the transporting vessel still benefits from the mooring priority.

The handling companies Transafric and Socopao are also equipped with suckers (Vigan pumps) for discharge of cereals. Evacuation is then made either by tipper lorries (Transafric) or by direct discharge under hangar (Socopao). The vessels are then directed to the ordinary berths and do not benefit from any mooring priority. The rates of discharge are in the order of 50 to 70 t.p.h.

Palm oil is usually taken on board at Berth No. 16 where 2 pipe-lines come from the oil depots. The diameter of these pipe-lines are 4 in., and the flow rate is 250/280 t.p.h. Vessels mooring at this berth do not have priority. These oils may be taken on board at any other berth by tankers.

Wine in bulk is also received at the ordinary berths and also discharged by tankers.

The timber yard is situated in the North part of the port. It is bordered by a quay of 380 m. from which the timber is put in the water or loaded on barges before being towed to the vessel on which it is to be loaded. The equipment of this park (yard) is as follows: 1 gantry crane of 20 tons and 1 of 10 tons, 1 derrick of 20 tons, 3 fork lifts of 16 tons, 1 fork lift of 7 tons.

The park for discharged timber is situated between the West quays and the fishing port; it is bordered by a quay of 350 m. called "Quai de Chalandge" (Lighterage Quay), depth 2.5 m. The equipment for this park comprises: 5 fork lifts of 10 tons and 1 of 12 tons.

The port has 2 floating cranes: one with 150 tons capacity and one of 25 tons capacity.

Mooring of tankers at the wharves of the Vridi Canal is made at slack water and departure at the end of high tide. It is also to be noted that, in spite of reinforced moorings, the mooring to these wharves is sometimes rendered impossible because of the heavy swell which builds up in the canal.

Prime materials for manufacture of fertilizers are received in bulk at the "Siveng Quay" where discharge is by derricks and suckers.

The banana carrier quays are provided with air conditioned and stocking hangers as well as necessary equipment for loading.

TANKERS: (Also see "Berthing".)

Shipmaster's Report: The Sea Line Berth at Port Bouet near Abidjan.

(a) Introduction: Vessel ordered to part discharge 21,000 tons of crude. With a max. draft of 48 ft. 6 in., this was the largest vessel to use these facilities; the previous largest being about 60,000 d.w.t. (1973).

(b) Approach from sea: Coast line is low with few distinguishing marks. Outline picked up at about 18 miles range (using Marconi Raymark), at about the same time as 100 fathom line was crossed. Coast is very steep-to with a pronounced rift in sea bed leading to canal entrance in Abidjan.

(c) Anchorage: Vessel anchored about 2 miles from sea line terminal at Port Bouet. The usual anchorage is to West of canal, which would permit a more suitable approach to the berth.

(d) Berth: The sea berth is situated about 1 mile S.S.E. of Port Bouet light. According to chart prepared by terminal authorities Societe Ivoirienne de Raffinage (SIR), the depths of water in the berth are 16 m. aft and 19 m. for'd, at chart datum. Members of the diving team and terminal representatives are of the opinion that there is greater than 1m. more water than indicated; this is backed up by observed soundings of for'd depth of 21 m., with a rise of tide of 0.5 m.

Moorings consist of four 6 in. shore wires from buoys aft; 4 similar wires for'd, 2 from buoys, 2 from the sea bed; both anchors are used with about 8 or 9 shackles of cable on each.

Hoses are connected on port side, 2×12 in. leading to a 1×24 in. × 5 km. sea line. Back pressure is limited to 7 kg./sq. cm. (about 100 lb. sq. in.). Berth is aligned to head into the prevailing Southwesterly wind. Unfortunately this places the vessel beam on to the current which is unpredictable in both magnitude and direction. After 9 years' experience at the berth, the diving team are unable to predict for a particular time if the current will run at all, or in what direction or at what strength. Current velocities of up to 2.5 knots are normal. If the current starts to run at this strength at an early stage of a berthing operation it is probable that the operation will have to be abandoned.

(e) Berthing: Approach to the berth is made on a heading of 145° in line with buoys A and B on SIR chart. During much of the approach the vessel is within 5 cables of the shore, but, with one exception, the depth of water is adequate.

When the vessel was between 1 and 2 ship's lengths from buoy A, in Grid reference position 579.030 393.280 on SIR chart, the under keel clearance was 15 ft., for several minutes. There was a very low, barely discernable, swell running, but the approach to the berth runs with this swell directly abeam, causing the vessel to roll an estimated 5°; the effect of this was to give a min. bilge clearance of 10 ft.

Berthing operation is routine, with some shore labour assisting with wires. No carpenters' stoppers are provided for wires, but two each end can be made fast on to the storage drums of the winches.

(f) Discharging: Limiting back pressure maintained by two cargo pumps running at 1,200 r.p.m. Discharge rate achieved was 2,237 t.p.h., which is usual for this berth.

(g) Bunkering: Bunkers are available in the berth in amounts greater than 500 tons. As bunkers are taken via the same sea line as cargo is discharged, the operation is somewhat clumsy and time consuming: crude in the sea line is displaced by fuel oil; the hose is shifted to bunker connection; bunkers are taken; the hose is reconnected to cargo manifold; the fuel oil in the sea line is displaced by crude oil. This sequence of operations took a total of eight hours. If a total discharge was planned, it might be advisable to take bunkers in the middle of the discharge, in order to obviate the need to use stripping pumps to displace the fuel oil in the sea line, amounting to some 1,200 tons.

STEVEDORES: Gangs must be ordered before 1700 hrs. on the previous day.

MEDICAL: All medical services and hospitalisation can be arranged without difficulty. Crew members are obliged to have valid certificates against smallpox and yellow fever.

DENSITY: Varies from 1025 in January to 1000 in November.

FRESH WATER: Supplied from the quay at the rate of 40 t.p.h. per hydrant. Can be supplied by barge.

FUEL: 1500 secs. fuel available from Abidjan Refinery. Advance notice required.

WATCHMEN: Services of shore watchmen are recommended.

HATCHES: Normally opened and closed by stevedores.

CUSTOMS ALLOWANCES: Each man allowed to retain 200 cigarettes and 1 bottle of alcohol.

IDENTIFICATION CARDS: Should be carried by crew going ashore.

CONSULS: The following countries are represented locally:

Algeria
Belgium
Brazil
Colombia
Congo
Denmark
Ethiopa
Finland
France
Gabon

Germany
Ghana
Great Britain
Italy
Israel
Japan
Korea
Lebanon
Liberia
Mauretania

Morocco
Netherlands
Nigeria
Norway
Sweden
Vietnam
Tunisia
A.R.E.
U.S.A.
U.S.S.R.

REPAIRS: All types of repairs can be effected. There is a floating dock with lifting capacity 2,000 tons.

REPATRIATION: Can be arranged.

AIRPORT: Local international airport with connections to all parts of the world.

TIME: GMT. No alterations during the year.

HOLIDAYS: 1st May and 7th December no work can be carried out. Other holidays which may be worked at overtime rates are: 1st January, Easter Monday, Whit Monday, Ascension Day, 1st November, Christmas.

POLICE/FIRE/AMBULANCE: Police, tel. 35.57.57; Fire, tel. 238/82; Ambulance, tel. 238/82.

TELEPHONES: Can be connected on board if requested for vessels moored at quays No. 1, 2, 4 and 5.

SHORE LEAVE: Allowed without restriction.

DEVELOPMENTS: The container and roll-on/roll-off terminal, presently in the course of being built will be completed around October 1979.

The port extension project of the LOCODJRO site (West bank of the Bay of Banco) will be constructed around 1980/1982.

AUTHORITY: Direction du Port D'Abidjan, Commandant du Port.

AGENT: Socopao Cote D'Ivoire, B.P. 1297. Abidjan. Tel. 32 02 11. Telex 3745, 3755, 3413. Telex (Maritime): 3562. Cables: "Freight Abidjan".

Jamaica

KINGSTON: 17.57 N. 76.47 W. (See Plan Book)

DOCUMENTS:

For Customs Port Royal

2 Health Certificates (obtainable from Customs Port Royal).
2 Crew Lists.
2 copies Passenger Lists.
2 Dangerous Cargo Lists.
1 Ship's Register.
2 Crew Declaration (obtainable from Customs Port Royal).
2 Stores List.
International Certificates of Vaccination for each Crew member.

For Immigration

2 Crew Lists.
2 Passenger Lists.

For Agent

Bills of Lading covering all cargo on board.
2 Crew Lists.
2 Stores Lists.
5 Manifests.
Ship's Register, Safety Certificate and Load Line Certificate.

For Quarantine

1 Derat. Certificate.
International Certificates of Vaccination for Crew members.

PILOTAGE: Six hours advance notice to Agents required. Pilot boards vessel about 2 miles S.E. of Plumb Point Lighthouse. Contact Pilot station VHF Channel 11. Several small Pilot boats in use at present which come out from Kingston as required.

ANCHORAGES: Depth of ship channel 35 ft. recommended. 4 specified anchorages, namely A, B, C, D – these having to be reserved in advance. Also unlimited anchorage space towards Eastern end of harbour. Positions of these 4 specified anchorages as follows:

Anchorage A 221° distant from R.C. Cathedral Dome 14.4 cables.
Anchorage B 180° distant from R.C. Cathedral Dome 11.0 cables.
Anchorage C 168° distant from R.C. Cathedral Dome 10.7 cables.
Anchorage D 155° distant from R.C. Cathedral Dome 11.0 cables.

RESTRICTIONS: Entry – day or night. Rise and fall of tide, average range 10 in., occasionally 16 in. Strength of current in harbour 1.5 knots in some places. Main direction and average speed of prevailing winds E.S.E. 20 m.p.h. Months of max. rainfall (i) April/May, (ii) Sept., Oct. and Nov. Hurricane period June 15–November 15.

MAX. SIZE: Recommended max. draft into Port Royal 40 ft. for vessels of unlimited size. Main ship channel has max. recommended draft of 36 ft. 6 in. and is 800 ft. wide. Depth 39 ft. at MLO. Newport West has recommended draft of 32 ft. 6 in. with a turning basin of 1,500 ft. Esso Terminals has recommended max. draft of 34 ft. 6 in. Max. recommended draft of 32 ft. 6 in. to proceed Eastwards, from Esso Terminals, in harbour to anchorage or berths. Newport East has max. recommended draft of 27 ft. 6 in.

HEALTH: See "Documents".
Radio Pratique may be granted.

Pratique Procedure: The Customs Officer who boards vessel will indicate to Master when pratique granted, after he has checked all documents and placed under bond all excess tobacco and liquor on board. In respect of vessels arriving from restricted areas (e.g. Texas, U.S.A.) vessel will not be granted pratique at Port Royal but at berth after being sprayed (at berth) by Quarantine Officer. A vessel with suspected fever or disease on board should inform Agent before arrival. The Agent will advise Customs at Port Royal and Quarantine. The Quarantine Officer will tell Master whether to proceed to Quarantine Anchorage or to berth direct.

If a vessel obtains pratique at Kingston, automatic pratique granted to proceed to any other port in Jamaica.

RADIO: Cable Agents giving ETA, Draft, Passengers (if any), cash required. Call sign "KNRDO 6YI".

VHF: VHF Channel 16 – Kingston Radio. VHF Channel 11 – Pilotage.

TUGS: Tugs optional. Tug joins incoming vessel near berth. In case of emergency tug joins vessel wherever requested by master. Usually ship's lines used, but if tug's lines used there is no extra cost.

BERTHING: No specific requirements for berthing. If explosives on board a special permit is required from Harbour Master and Customs. Extract from Gunpowder and Firearms Law:

> "Twelve hours' notice shall be given by Agent of ship to Harbour Master or Principal Officer of Customs, as case may require, of intended arrival of a ship with Gunpowder and/or Dangerous Explosives on board, and such ship shall not be permitted to come alongside a wharf or any ship in Harbour or to break bulk until Harbour Master or Chief Officer of Customs, as case may be, is satisfied that Gunpowder and/or Dangerous Explosives are of such character and are so stowed, or are in opinion of Harbour Master or Collector of Customs, in such trifling quantity as not to be an element of danger, when proper Officer shall certify –
>
> (*a*) that in consideration of character, method of stowage, or quantity of such Gunpowder and/or Explosives it is safe for such ship to berth and proceed to discharge cargo without special precaution, or
>
> (*b*) that having regard to considerations aforesaid such ship should discharge such Gunpowder and/or Explosives into lighters or at place appointed under rules for special landing before being allowed to berth or break bulk in connection with landing or shipping of other cargo."

Kingston has a new port development in harbour West of the city. There are 11 berths (numbers 1–11) operated by two private wharf companies. Berths No. 1–9 equipped for Ro/Ro traffic. Max. depth of water in channel approaching and alongside berths is 35 ft. Recommended draft is 32 ft 6 in. Bunkering facilities available at all new berths.

Port Bustamante: Operated by Western Terminals:

Berth No.	Length	Depth
No. 1	525 ft.	26 ft.
No. 2	600 ft.	35 ft.
No. 3	600 ft.	35 ft.
No. 4	600 ft.	35 ft.
Operated by Kingston Wharves.		
No. 5	600 ft.	35 ft.
No. 6	600 ft.	35 ft.
No. 7	600 ft.	35 ft.
No. 8	600 ft.	35 ft.
Operated by Kingston Terminal Operators:		
No. 9	600 ft.	35 ft.
No. 10	600 ft.	40 ft.
No. 11	600 ft.	40 ft.

STEVEDORES: To enable Agent order gangs important to obtain accurate ETA from vessels. Time: 1200 hrs. the working day before vessel arrives. Shifts: 0700–1400 hrs., 1400–2100 hrs. Mondays to Fridays; 0700–1200 hrs. Saturdays. Sundays – full overtime.

Stevedores normally rig and open, but crew open McGregor hatches. All necessary gear supplied by stevedores except rain tents and special lifts requiring special gear, which vessel must supply. Average unloading rate 10/15 tons per gang hour for general cargo.

CARGO HANDLING: Wherry Wharf (a Sufferance Wharf) maintains a pier at Newport East for unloading lumber, corn and animal feed ingredients. The wharf is 200 ft. long and a depth of 29 ft. and an apron of 200×60 ft.

Jamaica Gypsum Limited: Jamaica Gypsum Limited operates a wharf at Harbour Head for the export of gypsum rock only.

There are 3 steel and concrete dolphins and 1 wooden dolphin. The concrete and steel dolphins are the principal docking structures. They are 161 ft. apart. The minimum draft currently available is 26 ft., but this could be increased at short notice to 29 ft. Vessels of 440 ft. length and 64 ft. beam are normally loaded. Bulk rock loading facilities capable of loading crushed gypsum at an average rate of 700-1000 t.p.h. are available.

There are no specialised berths on the public wharves for handling bulk cargoes. Although sulphur salt, caustic soda and grains have been discharged, consignees make their own discharging and storage arrangements.

Grains for the flour mill and feed factory are discharged at Shell Oil Pier and conveyed by the plant's own system into the factories. Berths 1 to 9 in Newport West are equipped for roll-on/roll-off traffic and containers. There is a mobile crane stationed on the docks capable of lifting 140 tons max. Liquid chemicals and LPG are handled by the oil companies at their private docks.

MEDICAL: Agents to be advised before arrival of vessel if emergency medical attention required. Hospital facilities available. If inoculation required Master to advise Agents prior arrival of vessel.

TANKERS: No specific requirements applicable to oil carriers. Reducers available to fit 12 in.–4 in. load/discharge lines. Slop (residue) discharge facilities available taking maximum 500 gallons. Gas free certificate required for tankers laying alongside Public Wharves in Kingston.

Texaco Caribbean Inc.:
Texaco Caribbean Inc. operates 2 wharves:

Eastern Terminal: Jetty 325 ft. long. Takes vessels up to 18,000 tons (gross). Maximum draft is 28 ft. at low tide, Berthing facilities provide 2 concrete dolphins supported by steel piles and 4 mooring buoys. 6 pipe-lines are run on the jetty for the receival of bulk petroleum products and the bunkering of vessels. No packaged goods are handled at this berth. Fresh water supplies are available.

Western Terminal: Jetty 643 ft. long. Takes vessels up to 18,000 tons (gross). Constructed with 2 concrete dolphins and wooden dock head. Berthing facilities provide 2 mooring buoys. Maximum draft at low tide is 28 ft. 6 in. Four product lines are run on the jetty to receive cargoes only. Fresh water is not available at this jetty. No packaged goods are handled at this berth. However, this berth is inactive at present.

Shell Company (W.I.) Limited: The Shell Company (W.I.) Ltd. has bunkering facilities at 2 wharves:–

Shell Installation: The wharf has a maximum draft of 32 ft. It is used for loading and unloading of goods in connection with the petroleum operations in Jamaica of the Shell Company (W.I.) Ltd. and also loading and unloading of goods in connection with Jamaica Flour Mills Limited. A complete range of bunkers is available.

Shell Bunkering Depot Newport West: A hydrant system with outlets at each berth provides a complete range of bunkers.

Esso Standard Oil S.A. Limited: Esso Standard Oil S.A. Limited operates 2 wharves:–

Esso Marketing Terminal: Maximum length of vessels – 600 ft. Maximum safe draft – 29 ft. Both day and night berthing possible. Fresh water is available. Bunkers available here are Heavy Fuel Oil (Bunker C), Marine Diesel, Auto Diesel and a wide range of intermediate bunkers.

Esso bunkering facilities are available at Newport West. Pipelines run from the nearby Esso Kingston Terminal to the berth at

Newport West providing Heavy Fuel Oil, Diesel Oil and intermediate ranges of bunkers.

Esso West Indies Limited (Refinery):
Operates 2 Wharves:

Esso Refinery Marine Dock:
Maximum length of vessels – 690 ft. Maximum safe draft 34 ft. 6 in. Fresh water is available and day and night berthing possible. The Esso Refinery Pier is used for receiving crude petroleum from tankers as feed stock for the Refinery through a 20 in. undersea pipe-line. A wide range of finished products is also delivered into tankers for export as well as for discharge at other ports on the island.

Esso Refinery Dry Cargo Dock: Maximum length of vessels – 400 ft. (Freighters) and 475 ft. (Tankers) with maximum safe draft of 18 ft. Fresh water is available. This dock is used for loading packaged and drummed lubricating oil on freighters for export to various countries throughout Central America and the Caribbean.

Other material exported here are lubricating oil in bulk and various grades of asphalt in drums.

DENSITY: Average density 1026. No tide.

FRESH WATER: Fresh water available at berth. Average rate of delivery 20 t.p.h.

FUEL: All grades (viscosities) available. At least 2 days advance notice required.

FIRE PRECAUTIONS: Fire boat available equipped for fighting harbour fires 24 hours per day. Also equipped fire engines situated within easy reach of docks available 24 hours a day.

GANGWAY/DECK WATCHMEN: Services of watchmen are recommended.

OPENING/CLOSING HATCHES: Hatches covered by Pontoon and Hatch Boards opened and closed by stevedores. McGregor hatches handled by crew.

CERTIFICATES:
Safety Certificate.
Ship's Register.
Load Line Certificate.
Test Certificates for derricks and cargo handling gear.

CUSTOMS ALLOWANCES: Tobacco, 2 oz. tobacco in any form (2 oz. pipe tobacco or 40 cigarettes) per day. Wine and/or spirits, 6 oz. or 0.5 reputed pint of spirit per day. 1 pint wine allowed Master and Officers only or as stated in the Articles under flag they fly.

CARGO GEAR: The usual certificates covering testing and inspection of all gear and equipment as required under Docks Regulation 1934 of Great Britain or by International Labour Organisation, will be acceptable.

IDENTIFICATION CARDS: No Identification Cards required.

CONSULS: Consuls not available on Saturdays and Sundays, except by special request.

REPAIRS: Minor deck and engine repairs possible by 2 firms. Pre-advice of 3 days recommended.

DRY DOCKS: Dry dock facilities available.

REPATRIATION: Facilities available for effecting crew changes.

AIRPORT: 10 miles from port and is served by regular airlines.

TIME: Local time is GMT minus 5 hours.

HOLIDAYS: Days when work is performed only on overtime rate: New Year's Day; Ash Wednesday; Easter Monday; National Heroes Day (third Monday in October); Boxing Day. Days when ports closed, no work performed: Good Friday; National Labour Day (May 23rd); Independence (first Monday in August); Christmas Day.

POLICE/AMBULANCE/FIRE: Emergency tel. numbers: Police 116; Ambulance 110; Fire 110. Commissioner of Police 79858–0. Radio Control Room 81261–2. Fire Brigade 22121. Fire Boat Station 27018.

TELEPHONES: Arrangements exist for placing telephones on board. The Jamaica Telephone Company to be advised by Agents 2/3 days before vessel arrives.

GENERAL: Bunkering Facilities: Bunkers are supplied by three firms: The Shell Oil Co. (West Indies) Ltd. Texaco Caribbean Inc. Esso Standard Oil S.A.

Ship's Chandlers: 3 ship's chandlers available.

Communications: Regular air services daily to London, New York and other European and American cities, and is therefore in excellent position to offer emergency facilities to vessels requiring urgent spares, crew replacements, etc. Vessels can anchor at Port Royal close by airport.

Customs: Vessels are searched thoroughly by Customs for *firearms* and contraband. Masters are held responsible by Customs for security of bonded stores, etc. Masters are therefore alerted to check security arrangements and to keep watch on bond whilst in port.

SERVICES: Compass adjusting services available. Although routine repairs to radar, radios and other electrical equipment are possible, technical services generally limited.

SHORE LEAVE: Crew members allowed on shore after vessel cleared by Immigration. Vessels arriving from some countries require special Government approval before shore leave permitted, but no restrictions are normally placed on vessels arriving from Western European, American or African countries.

REGULATIONS: Dogs are not permitted to land unless they have undergone quarantine or are imported from United Kingdom.

DELAYS: Normally there are no delays to vessels calling at the port.

AUTHORITY: Port Authority of Jamaica.

AGENT: Jamaica Freight and Shipping Co. Ltd., 80-82 Second Street, Newport West, Kingston 11. P.O. Box 167, Kingston, Jamaica. Tel. 923-9271-6 (six lines). Telex 2260. Cable address: Jashipco Kingston.

MONTEGO BAY: 18.30 N. 77.56 W. (See Plan Book)

DOCUMENTS, PILOTAGE and all general information: refer to "Kingston".

ANCHORAGE: There is one anchorage in Montego Bay which must be booked through the Harbour Master in Kingston. Depth 5 to 6 fathoms.

RESTRICTIONS: Entry – day and night. Rise and fall of tide, average range 10 in. No current in harbour. Main direction and speed of prevailing wind, N.E., 10 m.p.h. Subject in January–February to occasional 2–3 day spells of squalls with driving rain known as Northers which makes lying at the anchorage uncomfortable, but there is virtually no swell alongside the berths.

MAX. SIZE: Unlimited water at anchorage. The 1,500-ft.-long 400-ft.-wide straight channel has a min. depth of 34 ft. MSL, as does the 1,600 ft. diameter turning basin.

CLEARANCE: Customs, Health, Immigration offices are maintained at the port.

BERTHING:
Montego Freeport is a new port developed with 3 berths operated by Montego Wharves Limited, P.O. Box 303, Montego Bay.

Berth 2–600 ft. long, 34 ft. min. depth alongside, 7.5 ft above water line.

Berth 3–588 ft. long, 25 ft. min. depth alongside, 6.5 ft. above water line.

Berth 4–387 ft. long, 25 ft. min. depth alongside, 6.5 ft. above water line.

These berths are reached through a 1,500 ft. long straight channel 400 ft. wide dredged to a min. depth of 34 ft. There is 23,000 sq. ft. warehouse and an 87,000 cu. ft. cold storage facility adjacent to berth 2 with a wharf apron of 75 ft. Berths 3 and 4 are designed for roll-on/roll-off with 13 acres of bonded storage space adjacent. Berth 4 is used principally by cruise ships and is connected to a 5 acre duty free shopping complex by a 200 ft. long tree-lined walkway.

Montego Freeport Limited intends to build berth 1 in the next few years which will be a continuation of berth 2, creating 1,300 ft. of continuous berth face with ample space behind for expansion. The cold storage is planning on doubling its capacity.

TANKERS: No specific requirements applicable to oil carriers. Reducers available to fit 12 in.–4 in. load/discharge lines. Slop (residue) discharge facilities available taking maximum 500 gallons. One tanker berth, berth No. 2 minimum depth alongside 34 ft. MSL. Gas-free certificate required for tankers laying alongside.

DENSITY: Average density 1026. No tide.

FUEL: All grades (viscosities) available. At least four days notice required.

FRESH WATER: Can be supplied from the dock. 30 t.p.h.

MEDICAL: All facilities at St. James's Hospital.

SECURITY: Under the jurisdiction of the Montego Bay Police and also 24-hour patrols in the port area by private security guards.
CONSULS: No consular offices in Montego Bay. See "Kingston".
STEVEDORES: The Port is open 24 hours of the day. To enable Agents to order gangs, it is important to obtain accurate ETA from vessels. Time: 1200 hrs. the day before the vessel arrives. Shifts: 0700–1400 hrs., 1400–2100 hrs. Mondays to Fridays with option to extend the first shift to 1700 hrs. at single time; 0700–1200 hrs. Saturdays, thereafter at overtime. Details can be obtained from Montego Stevedoring Limited, P.O. Box 303, Montego Bay.
FIRE PRECAUTIONS: Equipped fire engines situated within easy reach of docks 24 hours per day.
IDENTIFICATION CARDS: Recommended for crew.
REPAIRS: There are no dry dock facilities, but minor repairs can be effected alongside.
AIRPORT: 5 miles from port. Donald Sangster International Airport served by regular airlines.
POLICE/AMBULANCE/FIRE: Police, tel. 119; Ambulance, tel. 110; Fire, tel. 110.
AUTHORITY: Montego Freeport Limited.

OCHO RIOS: 18.25 N. 77.07 W.

GENERAL: Reynolds Jamaica Mines must act as Agents for all vessels using the pier at Ocho Rios. *(a)* Tel. Ocho Rios 603. *(b)* Cable address is "Mines" Ocho Rios, Jamaica. *(c)* 72 hour and 24 hour ETA requested. *(d)* Radio telephone 2738 Kc/s open when calls expected at 0700, 1100, and 1500 hrs. local zone time.
PILOTAGE: Compulsory. Pilot meets vessel 1 mile N.E. of sea-buoy. On rare occasions when a local Pilot is not available expenses and detention must be paid for an outside Pilot.
MAX. SIZE: Max. LOA 850 ft. depth alongside pier 40 ft.
FRESH WATER: 50 c. per ton supplied from pipe-lines on the pier.
FUEL: Bunker "C" Fuel Oil – daily prevailing rate Kingston Harbour. Diesel Fuel Oil – per oil company suppliers Kingston.
REGULATIONS: (1) If any captain of any vessel or any other person shall throw or deposit, or permit to be thrown or deposited *(a)* any rubbish, earth, mud, stone, sand, ballast or other similar matter; or *(b)* any oil or mixture containing oil or oil residues, in any channel leading into or out of any harbour, or in any place within the limits of any harbour other than such place therein as shall be set apart for such purpose he shall be liable to a penalty not exceeding one thousand pounds. (2) No siren or steam whistle shall be sounded on any vessel in any harbour except for the purpose of making signals as laid down in the regulations for preventing collisions at sea, provided that any vessel may sound one warning blast of not more than five seconds duration before sailing. Any person committing a breach of the rules is liable for a penalty not exceeding 1,000 Dollars.
CARGOES: The Reynolds Jamaica Mines Pier is occupied about twice each week by ore carriers for 8 to 12 hours and about twice a month by sugar ships for indefinite periods.
TOURIST VESSELS: Tourist ships are accepted at Ocho Rios without Ministry of Finance approval in accordance with verbal instructions of the Collector at St. Ann's Bay, 19th September 1966, subject to the availability of berth at Reynold's option and: *(a)* Any guarantee to be only for Monday through Friday and for the hours 0700 to 1800. *(b)* Ocho Rios must be the first port of call in Jamaica of the ship on any particular voyage. *(c)* Signature of release form.
PASSENGERS: *(a)* Passengers disembark via shore gangways (2 if requested) direct to wharf situated in fence enclosed compound with guarded gate. Where lighterage is required a landing is available at the back of the wharf sufficiently large to be used by a 45 ft. tug. *(b)* Entry and clearance by Customs and Immigration are made at the pier. *(c)* Taxis are kept outside the gate. *(d)* Normally the Ocho Rios Chamber of Commerce set up a table on the wharf for the purpose of providing information and distributing literature on local musical groups to spend some time playing on the wharf for the benefit of the passengers.
AGENCY: *(a)* Normally Reynolds Jamaica Mines acts as sub-agent in Jamaica for vessels calling at Ocho Rios and bills for disbursements are directed to the Island agent for payment. *(b)* In cases where Reynolds Jamaica Mines acts as sole Agent for a vessel, a sum of money adequate to cover vessel's disbursements is requested from the owner or charterer to be deposited to Reynolds Jamaica Mines' account in advance.

PORT ESQUIVEL: 17.53 N. 77.08 W. (See Plan Book)

DOCUMENTS:
6 Crew Lists.
6 Passenger Lists.
Customs Documents:
4 Stores Lists.
Crew's Manifest of Declaration outside of Personal Effects.
4 Load Line Certificates.
4 Small Parcels Lists.
4 Customs Clearance from last port of call.
Fire Arms List.
Narcotics List.
List of live animals and meats on board vessel.
Health Documents:
International Certificate of Vaccination of all Crew members.
Maritime Declaration of Health.
Crew's Declaration of Health.
6 Manifests.
4 Bills of Lading.
Ship's Documents:
3 Stowage Plan of Cargo.
2 Deadweight Survey (Bulk carriers only).
Charter Party and any other specific documents of instructions relating to the loading or discharging of cargo.

PILOTAGE: Pilotage compulsory. Compulsory pilotage limit 2 miles to seaward of line drawn from Polink Point to Bare Bush Cay to Portland Cay to Portland Point. Cable advice 48 and 24 hours ahead of vessels ETA at Pilot station must be sent to vessel's Agent at Kingston, Jamaica.

One pilot boat *Silver Spray,* launch equipped with ship-to-shore radio communication: *(a)* One Marconi VHF – FM 30-watt output multi-channel set. *(b)* One Marlin HF – AM 75 output multi-channel set.

7/78 ok

VHF shore set manned 24 hours per day. Contact with Port or launch can be made on three international Channels – 16, 2 and 6.
ANCHORAGES: A. Seaward to East of Pilot station, depth in excess of 36 ft. B. Leeward of Pigeon Island – depth 36 ft. min. C. Eastward of entrance of main channel – depth 37 ft. 06 in. min.
RESTRICTIONS: Restriction of permissible draft to max. of 35 ft.
MAX SIZE: Max. permissible length 650 ft. and draft 35 ft. at low tide.
HEALTH: Pratique procedure requires presentation of undermentioned health documents: *(a)* International Certificate of Vaccination of all crew members. *(b)* Maritime Declaration of Health. *(c)* Crew's Declaration of Health. In event any suspected communicable disease or fever on board, Master required to advise Agents in advance.
RADIO: JAMINTEL "KNRDO 6YI".
TUGS: Pilot boat will be on standby during berthing operations of all vessels to assist in placing ship's lines on to pier.
BERTHING: Facilities for 2 berths – Eastern side and Western side of pier. Alumina bulkloading facilities on Western berth, rate 35,000 tons in 38 hours. Bulk alumina vessels given priority on Western berth. Both sides of pier used otherwise for vessels handling general cargo, loading or discharging fuel oil, caustic liquor, etc. Length of pier, East side 550 ft., West side, 600 ft.

Dolphin constructed at Head of pier for convenience of vessels turning around on arrival and departure. Dimensions 35 ft. long by 80 ft. wide. Additional berth, 250 ft. long, South-Western shoreline, with max. permissible draft of 17 ft. for this berth only.
SPECIALISED CARGO HANDLING FACILITIES: Eastern and Western berths equipped to handle receival of bulk cargoes, e.g. grain, soya meal, soya beans, salt, sulphur, etc., by using shore crane with grabs, vacuvators, vessel discharging by grabs or conveyor system. Bulk liquid chemicals handled as shown under "Tankers". Additional berth on South-Western shoreline now being used to handle small bulk grain, soya meal and soya bean carriers, and can be utilised for handling of roll-on/roll-off traffic and containerised cargo.
STEVEDORES: Cable advice to Agents in Kingston, Jamaica, 48 and 24 hours ahead of vessel's ETA at Pilot station for arrangements to provide stevedore and dock labour.
MEDICAL: Agents to be advised 48 hours ahead of vessel's ETA Pilot station of medical attention required, details of inoculations, vaccination/fever certificates, etc. Free ambulance service provided. Nearest hospital approximately 15 miles.
TANKERS: Both sides of pier equipped to handle receival and delivery of Bunker C oil, caustic liquor, sulphuric acid and molasses. Diameters of the load/discharge lines are:

Bunker C Oil	8 in.
Caustic liquor	10 in.
Sulphuric acid	4 in.
Molasses	12 in.
Water	4 in.

Max. permissible draft 35 ft.
DENSITY: 1025 subject to slight variation during heavy rainfall.
FRESH WATER: Max. of 300 metric tons available. Delivery made from storage tank at a rate of 40 to 50 metric t.p.h.
FUEL: Bunker C fuel oil is available from dock. Application to be made to Esso (W.I.) Ltd., through ship's Agent for supply of bunkers. Pumping rate approx. 130 metric t.p.h. Specification – Group 0 or Group 1 – Viscosity SSF at 122° F; 180–180 Flash P – M 190°F plus. Arrangements to supply other grades of fuel oil can be made on request of local Agents to Esso.
FIRE PRECAUTIONS: Strategically located fire hydrants throughout port and on pier. No special precautions apart from "No smoking" rule.
GANGWAY/DECK WATCHMEN: Service of watchman optional but not necessary. During time vessel is in port there is Customs guard on pier and strict security measures are carried out by port Security Force on personnel entering or leaving port compound which is surrounded by a chain-link security fence.
OPENING/CLOSING HATCHES: For bulk alumina vessels, opening and closing of hatches is done by crew members. For general cargo vessels, opening and closing of hatches may be done by crew members or on request to Agents, by stevedores.
SHIP CERTIFICATES:
Load Line Certificate.
Registration Certificate.

CUSTOMS ALLOWANCES: Tobacco: Each crew member including ship's officers, normally allowed by local customs authority 2 oz. of tobacco or 2 pk. of 20 or 25 cigarettes per day released from bond. Wine and/or Spirit: No limitations to use of wine on board. For spirits each crew member is allowed a part bottle per man.
CARGO GEAR: Local Agents provide necessary cargo gear. These are tested every 6 months in accordance with Factory Law and certificates issued for respective maximum lifting capacities.
IDENTIFICATION CARDS: Not necessary as the Passport will serve this purpose.
CONSULS: No consuls are available. Consular offices are located in Kingston approximately 30 miles away.
REPAIRS: Limited repairs may be undertaken.
DRY DOCKS: None.
REPATRIATION: Upon request, local Agents arrange crew changes and any necessary repatriation.
AIRPORT: Norman Manley International Airport approximately 40 miles away.
TIME: GMT minus 5.
HOLIDAYS: New Year's Day (1st January); Ash Wednesday (in accordance with calendar); Good Friday (in accordance with calendar); Easter Monday (in accordance with calendar); Labour Day (23rd May); Independence Day (first Monday in August); National Heroes Day (third Monday in October); Christmas Day (25th December); Boxing Day (26th December). These holidays are sometimes subjected to change in accordance with Government Proclamations.
1. No work is carried out on Good Friday and Christmas Day.
2. Work on vessels loading bulk alumina and discharging Bunker C oil and caustic liquor is usually carried out on other public holidays.
3. For general cargo vessels work is optional on public holidays except Good Friday and Christmas day, and only carried out on Master's request or in accordance with Terms of Charter Party.
POLICE/AMBULANCE/FIRE: Old Harbour Constabulary tel. 983–2255; Old Harbour Fire Brigade tel. 983–2276. An ambulance service is available for any crew member requiring medical attention. Several qualified doctors within a 6-mile radius of port. There is also a fire station.
TELEPHONES: Facilities do not exist for placing of telephones on board ship other than Magneto telephones. International telephone services available and scale of rates is as per schedule listed in Jamaica Telephone Company's Directory.
GENERAL: Port normal working days Mondays-Fridays 0730 to 1630 hrs. Overtime in excess of 8 hours per day or 40 hours per week, Monday-Friday at time and a half normal rate; Saturday between midnight and midnight time and a half normal rate, double time for hours worked on Sundays and two and one half times for hours worked on public holidays, between midnight and midnight. Rail facilities exist on Western side of the pier. Distance from fender to centre of rail line 17 ft. 09 in. Ship chandlering or any other requirements may be acquired through local Agents.
SERVICES: Special services are limited. Arrangements can be made through vessel's Agents for the port or local contractors to undertake these jobs.
SHORE LEAVE: Crew members usually granted shore leave by Immigration Authority for period vessel remains in port. Immigration Authority can, however, withdraw permission of shore leave to any individual crew member who, in their opinion, may be a security risk.
REGULATIONS: No unusual regulations.
DELAYS: The normal delays in berthing, loading or discharging or bunkering can be expected when the two berths are occupied.
AUTHORITY: *(a)* Alcan Jamaica Limited, Port Esquivel. A division of Aluminium Company of Canada Limited (Inc. in Canada).
(b) The Port Authority, Kingston.
AGENT: See Jamaica Freight and Shipping Co. Ltd. Kingston.

PORT KAISER: 17.52 N. 77.37 W.

DOCUMENTS:
6 Crew Lists.
4 Stores Lists.
Declaration of Crew Personal Effects.
Customs Clearance from Last Port.
Maritime Declaration of Health.
Vaccination Certificates for all crew members.
Cargo Documents.

PILOTAGE: Compulsory. Pilot boards about 1 mile seaward of the jetty. International code Pilot signals used.
ANCHORAGE: Recommended 1.5 to 2 miles off end of finger pier from South to S.W.
MAX. SIZE: Tankers up to 40 ft. draft.
HEALTH: Pratique granted by customs officers who board on arrival, after Master has completed Maritime Declaration of Health, and Crew's Declaration of Health. All crew members require valid vaccination Certificates. In event of suspected disease or fever on board Agent should be advised full particulars by radio before arrival.
RADIO: "KNRDO 6Y1."
TUGS: None available.
BERTHING: Tanker berth at the end of a finger pier. Pier head is adequately fendered and a holding off buoy is utilised if necessary because of swell. Vessels berth portside to the jetty. Both anchors used.

Finger pier is 610 ft. long. The berth is being dredged to 50 ft. depth.
TANKERS: Fuel and gas oil discharged, 8 in. hoses. No slop facilities.
DENSITY: 1025.
FRESH WATER: Not available.
FUEL: Not available.
CUSTOMS ALLOWANCES: 25 cigarettes and part bottle spirits per day per man.
CONSULS: Nearest at Kingston.
SHORE LEAVE: Allowed.
SHIPMASTER'S REPORT: October 1978.
Documents:
6 Crew Lists.
3 Store Lists.
2 Curio Lists.
1 Vaccination List.
1 Maritime Declaration of Health.
Load Line Certificate.
De-Rat Certificate.
Clearance from Last Port.
4 Notices of Readiness.

Pilotage: Pilot available and compulsory. Pilot station 1 mile S.W. of Pier.
Restrictions: Day and night berthing possible.
Max. Size: LOA, 650 ft. Beam 90 ft. Max. draft 36 ft.
Tugs: No tugs available. In an emergency nearest tugs at Kingston.
Berthing: Length of pier 700 ft. 1 shiploader, max. outreach 90 ft. and max. clearance under loader 46 ft. 2 shoots load 1 hatch (port and starboard). Loader movable along dock for 600 ft. Max. loading rate 1,100 short t.p.h. or 25,000 tons daily for bulk carriers. Loading carried out 24 hours a day.

Berth not very satisfactory in heavy swell and ships side rails are very prone to damage when loaded as large fenders (tractor tyres doubled up) hang over main deck and damage rails. Stevedores refuse to accept this damage.

Vessel only broke 1 mooring rope. Shore gangway used, of light aluminium construction which must be tended throughout. A hazard to get ashore or onboard.

When strong Westerly current running and Easterly winds blowing, Pilot informed me that it sometimes takes up to 7 hours to berth ships. When very heavy seas running, it is best to leave berth and return when weather improves.
Medical: 2 hospitals at Mandeville but seamen usually sent to Nursing Home.
Tankers: Fuel oil, diesel oil, sodium sulphate, caustic soda and sulphuric acid handled at the tanker berth.
Density: 1025–1026.
Fresh Water: Not available.
Fuel: Not available.
Time: GMT minus 5 hours. Except during Daylight Saving Time GMT minus 4 hours.
Repatriation: Reliefs and repatriation can be arranged through Kingston which is about 87 miles away by road. Reliefs flying out through Miami all lost their luggage for a while as it was booked right through to Jamaica. Advisable to book luggage to Miami, collect and clear through Customs and then re-check it in. U.S. visa also required even for transit through U.S.A.
Current: Usually Westerly at 2.5 to 3 knots.
Tidal Range: 1.5 ft.
Publications/Charts:
BA 260 Pedro Bank to the South Coast of Jamaica.
BA 258 Ports and Anchorages on the South Coast of Jamaica.
BA 446 Jamaica.
USA 26124 Portland Bight to Great Pedro Bluff (with plan of Port Kaiser).
NP 70 West Indies Pilot (N.W. Part) Vol. 1 with Supp. No. 4.

Tugs: The current runs at right angles to the steel girder type berth on stilts and makes it difficult to get the stern alongside so a powerful tug would have been of great assistance.
Working Hours: Office hours 0800–1600 but 24 hours when vessel in port.
Officials: Customs, Quarantine and Immigration officials boarded on arrival. The Quarantine official lives on board whilst vessel in port to ensure nothing is thrown into the sea.
Survey: Holds surveyed before loading for cleaniness and Certificate of Cleanliness issued. Draft survey taken before and after loading (6 ft. swell and rough seas at the time).
Laundry: Can be arranged but takes 2–3 days.
Provisions: Fresh provisions available from nearest country market at Mandeville. Market days – Wednesday, Friday and Saturday. Main stores can be ordered from Kingston but very expensive and trucking charge $150.
VHF: Channel 16 said to be monitored in Agents office at Port Kaiser, pilot boat and Dock Office Port Kaiser but not able to make contact when inbound.
AUTHORITY: Port Authority of Jamaica.

PORT RHOADES, Discovery Bay: 18.29 N. 77.24 W.

(See Plan Book)

DOCUMENTS:
5 Crew Lists.
2 Stores Lists.
1 Customs Clearance from last port.
2 Declaration of Crew Personal Effects.
1 Maritime Declaration of Health (available on arrival).
Vaccination Certificates for all crew members.
1 Copy of each cargo document.

PILOTAGE: Compulsory. ETA's should be cabled to "Kaisbaux Discovery Bay", 48, 24, and 12 hours before arrival.

Pilot will board vessel on arrival 2 miles outside channel, if berth is available.

ANCHORAGES: No designated anchorage. If berth is occupied, vessels will remain within a 3-mile area of the channel until berth is available. Docking instructions are given by VHF.

RESTRICTIONS: Entry may be at any time of day or night throughout the year.

MAX. SIZE: Max. permissible length, 660 ft.
Max. permissible breadth, 90 ft.
Max. permissible draft, 37 ft. 06 in.

PRATIQUE: Pratique inspection and clearance given on berthing. Notify "Kaisbaux, Discovery Bay" as soon as possible before arrival full details of any suspected disease or fever on board.

There is no radio pratique.

RADIO: Route all ETA's and cables via Kingston Radio or nearest radio station.

VHF: Channel 16, 24 hours a day. Channels 12, 13, 26 and 28 also available. Range 30 miles.

TUGS: None available. Pilot launch will assist in taking ship's lines during docking if required.

BERTHING: One finger pier, (position 18° 28′ 45″ N. 77° 24′ 20″ W.) adequate fenders, used by bauxite ships and tankers alike.

Ships loading bauxite must dock with the top of the hatch covering of the first hold to be loaded not more than 35 ft. above sea level.

Bauxite loading rate 4,000 t.p.h.

All loading hatches to be opened for inspection if weather permits.

Gangway to be rigged ready for lowering immediately on berthing.

STEVEDORES: All arrangements are made by Kaiser Bauxite Company for unloading/loading any general cargo.

MEDICAL: Medical facilities and hospital available in the vicinity.

TANKERS: Two fuel lines, hose 8 in. (pipe-line 12 in.) diameter. Back pressure 150 lb. One gas oil line, hose 8 in. (pipe-lines 6 in.) diameter. Back pressure 150 lb.

Tankers use same berth as bauxite vessels. It may be necessary at times for tankers to wait on bauxite vessels loading, or arriving, and tankers may have to vacate the berth before completion of discharging to make way for bauxite vessels which have absolute priority.

DENSITY: 1025.

FRESH WATER: Not available.

FUEL: Not available.

FIRE PRECAUTIONS: Usual non-smoking precautions with respect to tankers. Portable fire extinguisher available on pier.

GANGWAY/DECK WATCHMEN: To be provided by vessel.

OPENING/CLOSING HATCHES: To be done by ship's crew.

CERTIFICATES REQUIRED:
Load Line Certificate.
Registration Certificate.
Derating Exemption Certificate.

CUSTOMS ALLOWANCES: Tobacco: Each crew member, including officers, normal allowance 2 oz. tobacco or 2 pks. of 20 cigarettes per day released from bond. Wine: no limitations on use of wine on board. Spirits: Officers only are allowed part bottle.

IDENTIFICATION CARDS: Not required.

CONSULS: Nearest Consuls are in Kingston, 80 miles distant.

DRY DOCKS: No facilities in Jamaica for other than the smaller types of vessel (e.g. tug).

REPATRIATION: Can be arranged through ship's Agent.

AIRPORT: Montego Bay, 40 miles away; Kingston, 90 miles away.

Both are international airports, with several scheduled flights per day to U.S.A. and Europe.

TIME: GMT minus 5 hours.

TELEPHONES: No arrangements for ship-board connections.

AUTHORITY: Kaiser Bauxite Company, Discovery Bay, Jamaica.

SALT RIVER: 17.50 N. 77.10 W.

DOCUMENTS: Health Certificate. Crew List. Manifest. Bills of Lading and other ship's papers for cargo shipped, prepared by Wisco Wharves Limited, a subsidiary of The West Indies Sugar Company Limited.

PILOTAGE: Latest 12 hours prior arrival off Pilot station. Cable "Monymusk Lioneltown" giving name of vessel, ETA, date of arrival. Pilotage – optional, Barebush Cay; Compulsory, Pigeon Island; pilot boat at Salt River.

ANCHORAGE: 17° 49.58′ N.; 77° 8.40′ W.

RESTRICTIONS: No restrictions.

MAX. SIZE: Draft 30 ft.

HEALTH: Customs grant pratique.

RADIO: Cable Agents via Kingston Radio/6YI.

TUGS: Not applicable.

BERTHING: No berthing facilities.

STEVEDORES: 48 hours notice prior arrival of vessel. Commodity bulk sugar. Loading rate approximately 1,800 tons per day.

MEDICAL: No advance notice required.

FRESH WATER: Can be arranged if given sufficient notice.

FUEL: None available at port but can be arranged.

GANGWAY/DECK WATCHMEN: Customs guards.

OPENING/CLOSING HATCHES: Normally done by crew.

SHIP CERTIFICATES: Registered tonnage certificate on first call. Master's and Chief Engineer's certificates of Competency, also Loading Line Certificate.

CUSTOMS ALLOWANCES: Tobacco, determined by Customs. Wine and/or Spirit, determined by Customs.

IDENTIFICATION CARDS: Not required.

CONSULS: None.

REPAIRS: Not possible.

REPATRIATION: Can be arranged.

AIRPORT: Palisadoes International approximately 50 miles away and served by regular airlines.

TIME: GMT minus 5 hours.

HOLIDAYS: New Year's Day; Ash Wednesday; Good Friday; Easter Monday; Labour Day (23rd May); National Heroes Day; Independence Day; Christmas Day (25th December); Boxing Day. Work can be arranged on all public holidays except Good Friday and Christmas Day.

POLICE/AMBULANCE/FIRE: Police Vere 233; Ambulance Vere 337; No port fire brigade.

TELEPHONES: Radio communication ship to wharf can be arranged.

SHORE LEAVE: Crew members are allowed ashore.

DELAYS: Delays can be expected.

AUTHORITY: The West Indies Sugar Co. Ltd.

AGENT: The West Indies Sugar Company Limited, 5 Trevennion Park Road, PO Box 174, Kingston 5, Jamaica, W.I. Tel. 65927–8. Telex 13. Cable address: Head Office: "Wisco Kingstonja". Home Office: "Monymusk Lioneltown".

SAVANNA LA MAR: 18.12 N. 78.09 W.

DOCUMENTS: Declaration of Health Certificate forms obtainable from Supercargo. 4 copies Crew List, Stores List. Manifest, Bills of Lading and other ship's papers for cargo shipped prepared by Sugar Shipping Limited, a subsidiary of The West Indies Sugar Company Limited.

PILOTAGE: Latest 12 hours prior arrival off Pilot station. Cable "Wicaroo Frome" giving name of vessel, ETA, date of arrival, cash required. Diesel powered 88 h.p. launch painted black hull, red deck, white wheelhouse. District – Compulsory and Optional.

ANCHORAGE: 18° 11.27′ North; 78° 8.20′ West.

ENTRY RESTRICTIONS: No night entry or sailing.

MAX. SIZE: Draft 19 ft.

HEALTH: Maritime Declaration of Health prepared by Master and lodged with Customs. MOH is notified of any suspected illness and action taken. Pratique automatic.

RADIO: Cable Agents via Kingston Radio 6YI.

TUGS: Not applicable.

STEVEDORES: No particular ETA advice required. Commodity, bulk sugar. Average loading rate 1,500 tons per day.

MEDICAL: No advance notice required. Hospital facilities available. Smallpox vaccination by MOH and certificate issued.

FRESH WATER: No facilities.

FUEL: No port facilities, but can be arranged.

GANGWAY/DECK WATCHMEN: Customs guards.

OPENING/CLOSING HATCHES: Normally done by crew.

SHIP CERTIFICATES: Registered tonnage certificate on first call. Master's and Chief Engineer's Certificates of Competency, also Loading Line Certificate.

CUSTOMS ALLOWANCES: Tobacco, determined by Customs. Wine and/or Spirit, determined by Customs.

CARGO GEAR: No additional requirements. In use, grabs operated by ship's winches.

IDENTIFICATION CARDS: Not required.

CONSULS: None.

REPAIRS: Not possible.

REPATRIATION: Can be arranged.

AIRPORT: Montego Bay International approximately 32 miles away and served by regular airlines.

TIME: GMT minus 5 hours.

HOLIDAYS: See "Kingston".

POLICE/AMBULANCE/FIRE: Police Savanna la Mar 621; Ambulance 533; Fire 666 and 540.

TELEPHONES: Radio communication ship to wharf can be arranged during day only.

SHORE LEAVE: Crew members are allowed ashore.

DELAYS: Delays can be expected.

AUTHORITY: The West Indies Sugar Co. Ltd.

AGENT: The West Indies Sugar Company Limited, 5 Trevennion Park Road, PO Box 174, Kingston 5, Jamaica, W.I. Tel. 65927–8. Telex 13. Cable address: Head Office: "Wisco Kingstonja". Home Office: "Wicaroo Frome".

Japan

GENERAL: *Radio Pratique:* At ports where Radio Pratique is possible, vessels must be in possession of the Japanese Sanitary Inspection Certificate to obtain Radio Pratique and night-time entry. The certificate is only obtainable in Japan and is valid for 1 year.

Pollution: Effective 1975, the Marine Pollution Prevention Law requires any tanker of 150 tons gross and above which is loaded with an oil cargo to have materials for oil removal either on board, or aboard escort boats, or at a depot base. Depot bases are understood to have been established, and in this connection Owners, Time Charterers, or Masters are strongly recommended to contact their Agents at least 10 days prior to vessels' arrival Japan.

Requirements of Travelling Documents to Japan for Crew/Superintendent:

Crew Joining vessel

Max. Stay ashore	Travelling Document	Visa	Remarks
(1) Ordinary Case			
within 5 days	Seaman's Book or Passport	No	Special Landing Permit issued but valid for crew travelling direct to port where crew join ship.
over 5 days	Passport	Req'd	See names of Countries for which visa exempted
(2) New building			
within 30 days	Seaman's Book or Passport	No	See (1) Remarks
over 30 days	Passport	Req'd	See names of Countries for which visa exempted
(3) Purchase/Delivery			
Crew arrival before ownership changed within 10 days	Seaman's Book or Passport	No	Max. 10 days stay ashore permitted subject to Agents' submission of Sale of Contract and Export Licence. See (1) Remarks
Crew arrival before ownership changed over 10 days	Passport	Req'd	See names of Countries for which visa exempted
Crew joining ship before ownership changed	Passport	Req'd	See names of Countries for which visa exempted
Crew arrival after ownership changed	Same as (1) Ordinary case		
Superintendent			
(4) All cases	Passport	Req'd	See names of Countries for which visa exempted

Names of countries for which visa not required:

Within 30 days New Zealand.

Within 90 days Argentina, Bangladesh, Belgium, Canada, Chile, Colombia, Costa Rica, Cyprus, Denmark, Dominican Republic, El Salvador, Finland, France, Greece, Holland, Honduras, Iceland, Iran, Israel, Italy, Luxembourg, Malta, Norway, Pakistan, Peru, Portugal, San Marino, Singapore, Spain, Sweden, Tunisia, Turkey, Uruguay, Yugoslavia.

Within 180 days Austria, Federal Republic of Germany, Ireland, Mexico, Switzerland, United Kingdom.

Remarks: The above schedule is made out by Dodwell Tramp Agencies on general understanding with Immigration Authorities. However, the above details are not expressly stated in the text of the law but based on Immigration Control Order Article 16 which reads: Article 16. Permission for landing for Reshipping.

1. The Immigration Inspector may, in case an alien crewman desires to pass through Japan in order to reship on board another vessel in another port of entry in Japan, upon application of the carrier operating the vessel on which the alien crewman has arrived, and in case the alien crewman desires in order to become a crewman of a vessel in Japan, to land from another vessel, etc. and pass through Japan, upon application of the carrier operating the vessel in Japan, permit the landing for reshipping respectively.

2. In case the permission provided for in the preceding paragraph is given, the Immigration Inspector shall issue a permit for landing for reshipping to the crewman concerned.

3. In case the permission provided for in paragraph 1, is given, the Immigration Inspector may impose upon the crewman such restrictions regarding period of stay in Japan, route to be followed in transit, and any others which he may deem necessary in accordance with Ministry of Justice Ordinance.

In view of the foregoing, the contents of the schedule is not absolute and may be altered. In order to ensure that crew members are permitted to land Japan to join ships, please send Agent information well in advance on personal data of crewmember such as Full Name, Rating, Date of Birth, Passport or Seaman's Book Number together with Flight No. and Ship's ETA/calling port.

PILOTAGE: It is *compulsory for vessels over 10,000 g.r.t.* to take a Pilot to navigate the Uraga Channel. Application for this Pilot service must be made 24 hours and 6 hours in advance of actual ETA to the Uraga pilot station. At the same time compulsory pilotage has been extended to certain other areas in Tokyo Bay.

SHIPMASTER'S REPORT: August 1978.

It is possible to have the latest changes in ETA relayed by VHF to Inland Sea Pilot stations, for:

1. Wadamisaki via Kobe Port Radio on Channel 16, call "Kobe-Port", or Osaka Port Radio on Channel 16, call "Osaka-Port".
2. Sekisaki via Oita Port Radio on Channel 16, call "Oita-Port".
3. Hesaki, via Shimonoseki Port Radio on Channel 16, call "Shimonoseki Port".

These stations are very cooperative and they immediately give the latest information concerning boarding-time and place, as well as requirements concerning the pilot ladder.

AIOI: 34.46 N. 134.28 E. (See Plan Book)

DOCUMENTS:

Ship's Register.
Last Port Clearance.
3 Crew Lists, including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist watch, radio, firearms/swords, etc., (only at first port of call in Japan).

Ship's Agents will prepare: Inward/Outward Declaration. 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agents should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Inland Sea Pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to Pilot station. Inland Sea Pilot Association covers all inland sea ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from one of three Pilot stations dependent upon vessels last port of departure and at Master's discretion. Pilotage available throughout 24 hours and 72 hours advance notice preferred, thereafter advising any alterations. Most Inland Sea Pilots also act as Harbour Pilots up to berth or anchorage at destination. *Note:* No VHF communication available with Inland Sea Pilot stations. Also see "Shipmaster's Report" before first port.

1. Wadamisaki, at entrance to Kobe (vessels transitting Kii Straits). Position 34° 38′ N.; 135° 11′ E. Telegraphic address: "Anjin Kobe".

2. Sekisaki, 3 miles South of Sekisaki lighthouse. (Vessels transitting Bungo Channel.) Position 33° 13′ N.; 131° 54′ E. Telegraphic address "Anjin Saganoseki". In event bad weather, recommended vessels proceed for shelter as near as possible having due regard to safety, to Sekisaki Pilot station.

3. Hesaki, at East side of Kanmon (Shimonoseki) Straits. Position 33° 56′ 24″ N.; 131° 03′ 12″ E.

Aioi Dock Master not licensed to pilot vessels from outer harbour and boards at anchorage.

ANCHORAGES: Inside Aioi Bay. Max. 18 ft. draft.

A. True bearing 250° from Kabeshima post, distance 350 m.
B. True bearing 217° from Kabeshima post, distance 730 m.
C. True bearing 313° from Kasamatsu Iwa bench mark, distance 620 m.

RESTRICTIONS: Vessels may anchor any time day or night. Draft to be adjusted to enter dry dock per dockyard recommendation as follows:

Name of Dock	*Trim Recommendation*
No. 1 & 2 Dry dock	$\frac{\text{Vessel's LOA (mm.)}}{200}$ plus 500 mm.
No. 3 Dry dock	$\frac{\text{Vessel's LOA (mm.)}}{300}$ plus 500 mm.

MAX. SIZE: Max. size of ships to be accommodated as follows:

Dock	*LOA*	*LBP*	*Breadth*	*Draft*	*d.w.t. (LT)*
No. 1	238 m.	230 m.	33 m.	5.5 m.	73,000
	780 ft. 9 in.	754 ft. 7 in.	108 ft. 3 in.	18 ft.	
No. 2	156.1 m.	145 m.	19.5 m.	5.5 m.	14,000
	512 ft. 1 in.	475 ft. 8 in.	63 ft. 11 in.	18 ft.	
No. 3	341 m.	328 m.	54 m.	6.0 m.	300,000
	1118 ft. 9 in.	1076 ft. 1 in.	177 ft. 1 in.	19 ft. 8 in.	

HEALTH: Pratique to be obtained at another Port prior arrival Aioi.

At first port of call in Japan, vessel must obtain free pratique. Quarantine officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards and Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agents prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agents through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically Westbound vessel, to Choshi and Northbound to Nagasaki Radio respectively.

TUGS: Normally join vessel at anchorage inside Aioi Bay. Tug's lines always used without charge.

TANKERS: Must be fully gas-freed before arrival. No facilities for tank cleaning or gas freeing.

DENSITY: Average 1025/1026 Winter, and 1018/1020 Summer.

FRESH WATER: Available from jetty/dock.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at max. 7 days prior notice.

CUSTOMS ALLOWANCES: Only allowed 50 cigarettes to take ashore, but no spirits.

CONSULS: None.

REPAIRS: Dockyard port. All repairs available. Specialist technicians obtainable from Kobe/Osaka area.

AIRPORT: Osaka (Itanii).

TIME: GMT plus 9 hours. Permanent.

POLICE/AMBULANCE/FIRE: Police 07912 or Aioi 2–0740; Ambulance/Fire 119 or Aioi 2–7128.

TELEPHONES: Placed aboard at IHI shipyard.

SERVICES: No special services at Aioi, but available from Kobe/Osaka.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AUTHORITY: Kamigori Doboku (Public works) Office.

AGENTS: See "Himeji"

AKITA: 39.45 N. 140.03 E.

DOCUMENTS:

Ship's Register.
Last Port Clearance.
5 Crew Lists including Passport Nos.
5 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist watch, radio, firearms/swords (only at first port of call in Japan).

Ship's Agents will prepare Inward/Outward Declaration 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Ships Agents should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Not compulsory but recommended, available daylight only. Boards off Akita 1 mile 280° from Akita lighthouse or off Funakawa 1 mile 140° from breakwater end light if required. 2 Pilots board if ship's gross tonnage exceeds 18,000. Cost 180% of pilotage.

ANCHORAGE: Off Akita, 2 miles 280° from Akita Lighthouse. Depth exceeds 20 m. Bottom – soft clay with mud. No buoys.

RESTRICTIONS: Pilot available daylight only.

MAX. SIZE: Max. draft available 9.6 m. in fairway. Size at berths, see "Berthing" Min. depth at extreme low water – In fairway – 10.0 m. At Anchorage – 20.0 m.

HEALTH: Officer stationed at Funakawa. Quarantine anchorage 39° 51′ N. 139° 53″ E. When impossible to inspect at Funakawa, i.e. during bad weather, attends off Akita.

RADIO: Niigata Radio when ship coming from South. Sapporo Radio when ship coming from East/North. Choshi Radio if long distance.

VHF: VHF Channel 16–156.8 mc/s. VHF Channel 12–121.5 mc/s. Operated by Regional Maritime Safety Headquarters – Harbour Master.

TUGS: 1 tug 2,000 h.p. available owned by local government. 1 tug 800 h.p. and 4 small tugs (150-250 h.p.) available, privately owned.

BERTHING:

Wharf	*Length (m.)*	*Depth (m.)*	*Berthing Capacity (g.t.)*	*Discharging*
Nakajima No. 1	160	9.0	10,000	Phosphate, Grain, Logs

STEVEDORES: Working time 0830–1630 hrs. every day.

Phosphate rock in bulk: 200–270 t.p.h. by shore crane, 50–70 t.p.h. by ship's gear.

Grain in bulk: 150–170 t.p.h. by shore crane, 40–60 t.p.h. by ship's gear.

Logs/lumbers: 200,000 BM per gang per day (Nanyozai), 80,000–100,000 per gang per day (Beizai).

Potash in bulk: 150–180 t.p.h. by shore crane, 50–60 t.p.h. by ship's gear.

Fertiliser in bag: 250–300 tons per day per gang.

Zinc concentrate in bulk: 140–160 t.p.h. by shore crane. 40–60 t.p.h. by Ship's gear.

MEDICAL: Hospital and treatment available.

DENSITY: 1020–1021. Tidal range 20/30 cm.

FRESH WATER: Available at every wharf. Rate 30 t.p.h.

FUEL: Domestic bunkers available. If bonded bunkers required, brought from Niigata, Hakodate.

GANGWAY/DECK WATCHMEN: Not compulsory, but available if required.

OPENING/CLOSING HATCHES: Stevedores open and close hatches. Cost per hour depending on cargo. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete before berthing.

CERTIFICATES: Ship's register to show Customs Inspector, ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance seems poor.

CUSTOMS ALLOWANCES: Only 50 cigarettes to take ashore. No spirits.

CONSULS: No Consuls, but 2 notary public offices.

REPAIRS: Minor repairs only.

REPATRIATION: Possible.

AIRPORT: Flights to Tokyo 2 or 3 times per day. 12 km. from port.

TIME: GMT plus 9 hours. No alterations during year.

HOLIDAYS: Local holidays: January 2nd, 3rd, July 21st, August 13th (p.m.), 14th, December 31st (p.m.) Other Sundays/Holidays Non working days.

POLICE/AMBULANCE/FIRE: Contact through Agents.

GENERAL: *Harbour Protection* – Breakwaters, South and North.

Weather Conditions past two years

	Spring	*Summer*	*Autumn*	*Winter*
Temp. on average	8.5°C	21.7°C	13.0°C	−0.5°C

ETAJIMA: 34.11 N. 132.29 E. (See Plan Book)

OPERATORS: C.I. Oil Terminal.

LOCATION: Name of berth, Ataka Sekija. Position, Lat. 34° 11′ 30″ N., Long. 132° 29′ 00″ E.

DOCUMENTS:
- Certificate of Registry.
- Safety Equipment Certificate.
- Derating Exemption.
- Clearance from Last Port.
- 10 Crew Lists.
- 2 Crew Customs Declaration (Japanese Form).
- 4 Stores Lists.
- 5 Slop Chest Lists.
- 1 Quarantine Declaration.

PILOTAGE: Compulsory. Pilot boards in Bungo Channel 3 miles South Seki Saki Lighthouse. Pilot station (33.13 N. 131.54 E.) equipped with light signal – no VHF. Pilot remains on board during pratique operations – also see "Tankers".

ANCHORAGE: See "Restrictions".

RESTRICTIONS: Controlling depths (MLW) are as follows: entrance 20 m.; channel 17 m.; anchorage 17 m.; berth 15 m.; The mean tidal range is 3 m. Nature of bottom is mud. Velocity of current: entrance 1 knot; channel 1.5 knots; anchorage 0.5 knots; berth 0.5 knots. Vessels may berth at any stage of the tide during the day.

MAX. SIZE: 80,000 d.w.t. Length 260 m. Draft 14 m. – 15.5 m. according to tidal conditions. Beam 40 m.

HEALTH: Available during daytime only in Kure or Iwakuni quarantine anchorage. Quarantine officers inspect galley, pantry and food stores. Pilot ladder used for boarding.

RADIO: Shimonoseki – Kobe.

TUGS: Five available and advised for berthing and unberthing. One forward and one aft, 3,000 h.p.

MEDICAL: Doctor available.

TANKERS: Pilot berths/unberths vessel.

It is dangerous to navigate at night.

Moorings: Forward 3 headlines	Aft 3 sternlines
2 breast lines	2 breast lines
2 spring lines	2 spring lines

Connections: 2 × 12 in. connected and disconnected by shore gang booms not necessary. Max. pressure required by shore is 7 kg/sq.cm.

Pumping rate: 5,000 k/l per hour expected.

Pipeline: Length 131.6 m.; 2 × 24 in.

Gangway: Pilot ladder used as not sufficient room for gangway.

Pollution: Berth is closed by floating pollution retain. Dimension 320 × 56 m.

Ballast: During ballast operations shore personnel remain on board to check for dirty ballast and a motor-boat watches for same purpose. There are no slop tanks or facilities for dirty ballast ashore.

Storage capacity: crude oil, 22,000 k/l × 4 tanks; heavy oil, 22,000 k/l × 2 tanks; refined oil, 22,000 k/l × 2 tanks.

DENSITY: Summer 1020, Winter 1025 average.

FRESH WATER: Available, any quantity, by water barge from Kure, 4 days notice required.

FUEL: Available.

FIRE PRECAUTION: Standard regulations.

REPAIRS: Facilities available – shore steam and electricity available.

DRY DOCKS: Available, lifting capacity 500,000 tons.

STORES: Laundry and provisions available.

CUSTOMS ALLOWANCES: 200 cigarettes, 1 open bottle of spirits and some beer.

Customs officers inspect crew cabins.

FUKUYAMA: 34.29 N. 133.21 E. (See Plan Book)

Located on central Northern coast of Setonaikai (Inland Sea) and on border of Hiroshima Prefecture and Okayama Prefecture.

DOCUMENTS:

Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agents will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agents should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Inland Sea Pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to Pilot station. Inland Sea Pilot Association covers all Inland Sea ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from one of two Pilot stations dependent upon vessel's last port of departure and at Master's discretion. Pilotage available throughout 24 hours and 72 hours advance notice preferred, thereafter advising any alterations. Most Inland Sea Pilots also act as harbour Pilots up to berth or anchorage at destination.

Note: No VHF communication available with Inland Sea Pilot stations. Also see "Shipmasters Report" before first port.

1. Wadamisaki, at entrance to Kobe (vessels transitting Kii Straits) Position 34.09° N. 135° 07.54′ E. Telegraphic address "Anjin Kobe".

2. Sekisaki, 3 miles South of Sekisaki lighthouse. (Vessels transitting Bungo Channel). Position 33° 13′ N. 131° 54′ E. Telegraphic address "Anjin Moji". In event bad weather, recommended vessels proceed shelter as near as possible having due regard to safety, to Sekisaki Pilot station.

APPROACHES: Main approach channel (leading to raw material discharging berths and pipe loading berth). Depth 16 m. (52 ft. 6 in). Width 350 m. (1,148 ft.). Distance from quarantine anchorage to "A" berth, 9,500 m.

Pilot undertakes berthing vessels at "A", "B", "M" or "L" berths, with draft up to 16 m. Vessels drawing over 15.5 m. may berth at high tide.

Branch channel (leading to loading berths except pipe berth). Depth 11 m. (36 ft.). Width 300 m. (984 ft.). Distance from quarantine anchorage to Export berth No. 1: 11,500 m.

ANCHORAGES: Quarantine anchorage position: 34° 22.5′ N. and 133° 26.3′ E., an area of 750 m. radius.

RESTRICTIONS: Inland Sea (Setonaikai):

1. *Akashi Strait and Bisan Seto:* All vessels, over 200 m. LOA shall navigate on Bisan Seto in daytime only and also vessels over 250 m. LOA have to have an escort boat when navigating on Akashi Strait and Bisan Seto respectively in accordance with the Maritime Regulations.

2. *Kurushima Strait:* The vessels, over 200 m. LOA shall navigate on Kurushima Strait at slack water in daylight and vessels over 250 m. LOA have to have an escort boat when navigating on Kurushima Strait.

The draft restrictions are as follows: The permissible draft for LOA from 200 m. up to 250 m. shall be less than 13 m. and LOA from 250 m. up to 300 m. shall be less than 11 m.

Escort boat: 2 escort boats with VHF available. Max. speed 24 knots, cruising speed 18 knots.

MAX. SIZE:

NIPPON KOKAN K.K. – FUKUYAMA WORKS. Private Berths.
RAW MATERIAL BERTHS (Discharging Berths).

Berth	*Length and depth in metres*	*Max. size of vessels acceptable in d.w.t.*	*Cargoes discharged*	*Unloaders*
"L"	315 17.3	200,000	Coal and Ore	2 gantry cranes each with 1,500 t.p.h. discharging capacity. Average discharging rate per hour:
"M"	250 17.0			Iron Ore 1,200 tons with 1 crane. Coal 800 tons with 1 crane.
"A"	300 17	150,000	Coal and Ore	4 gantry cranes (available for both "A" and "B" berths) each with 1,500 t.p.h. discharging capacity. Average discharging rate per hour:
"B"	280 16	100,000		Iron Ore 950 tons with 1 crane. Coal 700 tons with 1 crane. Normally 2 cranes are used for a vessel
"E"	210 14	70,000	Mainly Coal	2 gantry cranes each with 750 t.p.h. discharging capacity. Average discharging rate: Coal 600 t.p.h. with 1 crane.
"F"	180 11	20,000	Mainly Coal for coastal vessels	2 level-luffing cranes each with 300 t.p.h. discharging capacity. Average discharging rate: Coal 500 t.p.h. with 2 cranes.
"S"	180	35,000	Pig Iron and Scrap for discharging and loading	3 level-luffing cranes each with 15 tons lift capacity. Average discharging rate per hour: Pig Iron 350 tons with 3 cranes. Scrap 300 tons with 3 cranes.

LOADING BERTHS:

Berth	*Length and depth in metres*	*Max. size of vessels acceptable in d.w.t.*	*Cargoes loaded*	*Loaders*
No. 1	234 11	20,000	Steel sheets, coils and plates	5 level-luffing cranes each with 30 ton lift capacity. Outreach 18 m.
No. 2	230 13	35,000	,,	Clear height average 18.5 m. from highwater level to crane hook.
No. 3	146 13	35,000	,,	1 gantry crane with 20 ton lift capacity. Outreach 22 m. Clear height 18 m. from highwater level to crane hook.
No. 4	250 13	35,000		2 level-luffing cranes with 40 ton lift capacity.
No. 5	100 13	35,000		1 gantry crane with 30 ton lift capacity.
Pipe	310 11	35,000	Steel Pipe	2 gantry cranes each with 20 ton and 50 ton lift capacity. Outreach 27.7 m. Ship's gear is concurrently used.

Berth No. 1, 2, and 3 are adjoining

Pipe berth is located in Kasaoka, Okayama Pre. (closed port).

HEALTH: Radio pratique available. At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards and Deratting Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers' health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically Westbound vessel, to Choshi, and Northbound, to Nagasaki Radio respectively.

VHF: "Fukuyama Port Radio" on Channel 16 (0600–2000 hrs.).

TUGS: 5 tugs (3,200 hp) available in the Fukuyama Harbour. Additional tugs are available from other Inland Sea terminals.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agents, the orderers must pay for waiting time. If cargo gear not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hrs. 50% additional of basic stevedorage; 2100–0500 hrs. next morning 130% additional; Sundays/holidays 60% additional.

MEDICAL: No advance notice required unless urgent.

DENSITY: Summer 1016–1022. Winter 1025. The density not much affected by tide, which is maximum 3.84 m.

FRESH WATER: Available at any berth. Supply capacity about 30 t.p.h. However, for a vessel moored to a buoy or at anchorage, water barge comes from Mizushima.

FUEL: Bunkers by lighter from Kobe, Mizushima, Tokuyama or Moji area. Advance notice required.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.

CUSTOMS ALLOWANCES: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: None.

REPAIRS: Only minor repairs.

DRY DOCK: None. Available at Innoshima or Mukayima.

REPATRIATION: Possible.

AIRPORT: Okayama airport 70 kms. from Fukuyama which takes about 2 hours by car. 1 flight daily.

TIME: GMT plus 9. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Report to Guardmen's office located at West Gate of Nippon Kokan.

TELEPHONES: No arrangements for placing telephone on board. Private telephones connecting with offices in the compound of the Fukuyama Works are placed at each of the raw material berths.

For vessels alongside export berths, private telephone available at foremen's office located on berth.

GENERAL: Fukuyama is a local and new port, developed along with the expansion of Nippon Kokan, Fukuyama Steel Works.

Ship repairs (except small ones) for machinery, radio, radar, etc., are all arranged by firms located in Tokyo, Osaka and Kobe.

SERVICES: Hold cleaning.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AGENTS: Sub-agents of Dodwell & Co. Ltd., Tokyo, Nissan Senpaku Ltd., Port Bldg., 1, Kokan-cho, Fukuyama-shi, Hiroshimaken. Cable address: Nissan Fukuyama. Domestic Telex: 6436–11; 6436–12 Nissan J. Tel.: Fukuyama (0849) 41–0535 and 0536.

FUSHIKI: 36.49 N. 137.03 E.

DOCUMENTS:

Ship's Register.
Last Port Clearance.
6 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agents will prepare Inward/Outward Declaration, 2 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Pilot available any time during daylight. Not compulsory. No telegraphic address of Pilot station, therefore, direct advice to local Agent always required. Pilot meets vessels 029°, 2 miles off leading light, thence takes vessel to Quarantine Anchorage ground. Due to many fish-nets on both sides of fairway if requiring to come into Quarantine Anchorage without taking Pilot, necessary to advise Agent in advance. In case of bad weather and need to await outside port, recommend cruising in Toyama Bay until sea abates. Bay area too deep to anchor and also danger of fish-nets. When approaching position for Pilot, give exact ETA to Agent by using Niigataradio and/or VHF to Fushiki Harbour Master. Small wooden pilot boat painted yellow. No particular light or sound signals required.

ANCHORAGE: Safe at all seasons with depth from 8 to 11 m. Sand and clay bottom. Room at anchorage for at least 6 vessels over 5,000 gross tons.

RESTRICTIONS: Pilot not available during darkness. No restrictions on tide, because small tide in all seasons. If draft over port limitation, vessel enters port after making adjustment by lightening in Outer Harbour.

MAX. SIZE: Length 180 m., draft 31 ft. in Summer and 30 ft. in Winter. However, depth of port not always definite, being a river port and dredging operations always carried out to keep depth all year round. Tidal range is maximum 0.45 m. Depths at the berths expected to be 10 m. when dredging is completed in 1978.

HEALTH: Radio Agent for free pratique not less than 12 hours and not more than 36 hours before arrival, advising full details of vessel and health conditions on board. When free pratique is granted by radio, vessel will be required to submit the following documents to Quarantine Officer on arrival:

Maritime Declaration of Health.
Crew List.
Passenger List.

The following vessels will not be able to get radio pratique.

A vessel that has been in contact with an infected area or a suspected infected area within 15 days of arrival.

If a vessel has on board any case, or any suspected case, of infectious disease within 15 days of arrival.

If crew or passengers on board do not possess valid Smallpox Vaccination certificates.

If a vessel does not possess a valid Derat or Derat Exemption Certificate.

RADIO: (Also see "Pilotage".) Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically Westbound vessel, to Choshi, and Northbound to Nagasaki Radio respectively.

TUGS: Tugs normally join vessel at port entrance, but sometimes in Outer Harbour for large vessels. Narita-Maru (2,060 h.p.) and Nihonkai-Maru (1,800 h.p.) provide lines, free of charge and Raicho-Maru (760 h.p.) uses ship's line. Used only when Pilot on board.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agents mainly by radio.

Berth	*Length (m)*	*Depth*	*Permissible Draft*	*Capacity (g.t.)*	*Shore Cranes & Pipe-lines*
Left No. 1 Wharf	160	(see note below)		10,000	2×5 T
Left No. 2 Wharf	150			10,000	
Left No. 3 Wharf	185			10,000	
Left No. 4 Wharf	185			10,000	
Left No. 5 Wharf	90			1,000	
Right No. 1 Wharf	220			2×3,500	1×5 T
Right No. 2 Wharf	220			2×3,500	
Right No. 3 Wharf	185			15,000	1×8 T

Right No. 5 Wharf	130			5,000	

Note: Depth becomes shallow with every rainfall. Therefore, recommended to contact the port authorities prior to vessel's call. See "Max. Size".

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agents, the orderers must pay for waiting time. If cargo gear not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hrs. 50% additional of basic stevedorage; 2100–0500 hrs. next morning 130% additional; Sundays/holidays 60% additional.

MEDICAL: No advance notice required unless urgent.

DENSITY: Average density between 1015 and 1019 in all seasons.

FRESH WATER: Available, from left wharf No. 1, 2 and 3, average 45 t.p.h. In other berths, to be supplied by barge, average 50 t.p.h.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. Bunkers will be lightered from the nearest bunker port at maximum 7 days prior notice.

DEVELOPMENTS: Right No. 4 wharf reconstructed, now 175 m. long, 10 m. deep, also Right No. 5 wharf, 130 m. long, 7 m. deep. Left No. 1 pier under reconstruction, when completed will be 185 m. length, 10 m. depth. Left No. 2 pier to be reconstructed and completed to same size as Left No. 1.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: None.

REPAIRS: Minor repairs only.

DRY DOCKS: No dry docks. Nearest available in Toyama.

REPATRIATION: Possible.

AIRPORT: Toyama Airport about 35 km distance. 2 regular services a day. ANA only.

TIME: GMT plus 9. No alterations made to clocks during year.

HOLIDAYS: 1st May and New Year's Day.

POLICE/AMBULANCE/FIRE: Police, Fushiki Police Station, Takaoka (0766) 44–1500; Ambulance, Fushiki Fire Station, Takaoka (0766) 44–1122, or 119; Fire, Fushiki Fire Station, Takaoka (0766) 44–1122.

TELEPHONES: No facilities for placing telephones on board.

SERVICES: Hold cleaning available.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AUTHORITY: Port and Harbour Dept.

AGENTS: Sub-agents of Dodwell & Co. Ltd., Toyko. Fushiki Kairiku Unso Co. Ltd., 6–6, Fushiki-Minato-machi, Takaoka-shi, Toyama-Ken. Tel. Takaoka. (0766) 44–1300. Telegraphic address "Fushikikairiku Fushiki". Telex: 5155–571/572.

HACHINOHE (Hachinoe): 40.32 N. 141.33 E.

DOCUMENTS:

Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits,

camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agents should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Not compulsory, but arrangeable at Master's request. Pilot always arranged by Agent if Master requires, and vessel required radio Agent ETA 24 hours before arrival. Pilot boat has no facility to communicate with ship,, but flies pilot flag "H". Pilot boards at Quarantine Anchorage (Lat. 40° 32′ N. Long. 141° 32′ E.).

ANCHORAGE: Open sea anchorage. Depth of water: 10–15 m.

RESTRICTIONS: Pilot arrangeable only in daytime for entry (0630 – sunset) and 0630 hrs. to 2200 hrs. for sailing.

MAX. SIZE: Draft: 13.00 m. LOA: 296 m. Breadth: no restriction.

HEALTH: Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards and Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days., Captain must advise crew and passengers' health condition to respective Quarantine Office through ship's Agents prior to arrival and close all soil pipes before entering port.

Formalities will be carried out at the point 1,500 m. 335° from the light of North breakwater.

Radio pratique possible.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically Westbound vessel, to Choshi and Northbound to Nagasaki Radio respectively.

TUG: Tug joins vessel inside breakwater.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

Public:

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gear not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hrs. 50% additional of basic stevedorage; 2100–0500 hrs. next morning 130% additional; Sundays/holidays 60% additional.

MEDICAL: No advance notice required unless urgent.

DENSITY: 1025.

FRESH WATER: Available from wharf and barge. 20 t.p.h. from barge (capacity: 60 tons). 30 t.p.h. from wharf. Overtime service: plus 30% for 1700–2200 hrs. and Sunday/holiday. Plus 50% for 2200–0500 hrs.

FUEL: Domestic oil except Bunker "C" is available, bonded oil will be brought from Tokyo, Yokohama or Hakodate with sufficient advance notice, when required.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: None.

REPAIRS: Minor repairs such as welding, piping and lathing.

REPATRIATION: Possible.

AIRPORT: Nearest airport at Misawa.

TIME: GMT plus 9. No alterations made to clocks during year.

HOLIDAYS: 1st May, 21st August.

POLICE/AMBULANCE/FIRE: Police 43-4141 (Headquarters); 33–0237 (Water Police Station); Ambulance 119; Fire 119.

TELEPHONE: No facilities for placing telephones on board.

GENERAL: 1. Discharging ex-gearless vessel not available at anchorage because of no facilities. 2. In case vessel is moored to buoy, vessel required to prepare anchor chain (port or starboard anchor chain) prior to ship's arrival.

SERVICE: Surveyor: Tally. Hold cleaning. Radar service by Nippon Radar Service Co. Notary public.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

SHIPMASTER'S REPORT: 1975.

Pilotage: Compulsory. The Quarantine Anchorage is position 40° 32.9′ N. 131° 32.7′ E., bounded by a circle radius 2.5 cables. In view of the considerable new development vessels should obtain Japanese chart No. 65 if possible. Vessels navigating on B.A. charts can be met by pilot at a position 2 miles north of Same Kaku lighthouse, by prior arrangement.

Restrictions: Vessels may sail any time.

Max. Size: Draft 9.5 m. LOA 170 m. breadth no restriction (June 1975).

Health: Radio pratique can be obtained by all vessels holding valid Japanese Sanitary Inspection Certificate. (This rule applies to all Japanese Ports).

Tugs: A number of tugs are available.

Berthing: A number of new berths are now available. Dredging is in progress and available drafts can be expected to increase.

Airport: Two flights per day.

Developments: Reclamation, expansion, dredging etc., in progress.

AUTHORITY: Port Administration Office.

AGENTS: See "Aomori".

HAKATA: 33.36 N. 130.24 E. (See Plan Book)

DOCUMENTS:

Customs: When vessel arrives direct from foreign port, Customs officials will board vessel for search. The following documents are to be submitted.

Crew list, Passenger list, Store list, Manifest of crew personal effects (must be signed by individual crew member), Arms and ammunition list, Narcotics list, List of ports of call on current voyage, Discharging cargo manifest, Through cargo manifest, Declaration inward/outward (Form No. C2000).

The following will be checked on board:

Ship's registry, Last port clearance.

When vessel comes from Japanese port, Customs officials will not attend on board, except special case. The Master or Agents are to attend at Custom House for entry formalities with the following documents:

Discharging cargo manifest, Through cargo manifest, Declaration inward/outward, Ship's registry, Last port clearance, Documents entrusted with the Master by at previous port.

On vessel's departure, a clearance is issued by Customs, after confirming payment of tonnage dues.

Immigration: Immigration officials board vessel on her arrival in port to examine passports, discharge books and/or other equivalent travel documents and provide a 72-hour landing pass for crew members and passengers. One copy each of crew list and passenger list are required by them. Providing vessel's Agents with a Crew List beforehand will be a great help in expediting immigration business on vessel's arrival. When vessel stays in port more than 72 hours, the landing passes will be extended every 72 hours on application.

In the event that crew members, without entry visas, are to be landed for repatriation or transfer, Immigration will not permit their landing unless passage, by either sea or air, ensuring the prompt departure from Japan (within 72 hours) of these men have been booked, or unless the vessels to which they are to be transferred, arrive in Japan within 5 days.

PILOTAGE: Not compulsory, but necessary unless Master well acquainted with locality. Pilot embarks at quarantine anchorage; position 33° 38′ N. 130° 19′ 30″ E. Request for Pilot made through ship's Agent, Master reporting ship's ETA by radio giving accurate time of arrival at least 24 hours prior arrival, also any subsequent change. No VHF. In the event of rough sea, harbour tug-boat will be used.

ANCHORAGE: No anchorage in port.

RESTRICTIONS: No restrictions if vessel in free pratique and draft less than 10 m. No tide.

MAX. SIZE: No restrictions of length, breadth. Draft 11.10 m.

HEALTH: (a) Quarantine station: Sea area surrounded by the following lines.

1. The line connecting between the top of the Nokono-Shima and point "A" which is located on the sea in the direction of 90° and at the distance of 2,540 m. from the top of the Nokono-Shima. (The parallel of 33° 38′ 00″ N.)
2. The line connecting between point "A" and point "B" which is located on the sea in the direction of 0° and at the distance of 1,750 m. from point "A". (The Longitudinal line of 130° 20′ 00″ E.).
3. The line drawn towards the Nokono-Shima in the direction of 270° from point "B". (The parallel of 33° 37′ 06″ N.).
4. The coast line of the Nokono-Shima.

The centre of the quarantine anchorage: 33° 37′ 30″ N., 130° 19′ 30″ E.

(b) Quarantine service is rendered from sunrise to 1 hour before sunset.

(c) 'Q' flag should be hoisted until free pratique is granted.

(d) Vessels exceeding 20,000 gross tonnage can undergo quarantine on application when they berth alongside wharf.

(e) When vessel arrives from plague infected or suspected area within 10 days after she left such place, a 24-hour special quarantine is required. All sanitary scuppers must be closed and garbage not thrown overboard after vessel reaches 60 miles off inland sea areas.

(f) Radio pratique is applicable.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically Westbound vessel, to Choshi and Northbound to Nagasaki Radio respectively.

TUGS: 2 tugs, 1,000 and 800 h.p. Normally join vessel when approaching wharf. Ship's lines used. If vessel over 15,000 g.r.t. an additional tug of 1,500-3,200 h.p. should be ordered from Moji or Wakamatsu.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gear not rigged on berthing, stevedores will do same for ship's crew. Normal working hours: 0800 to 1700 hrs.

Overtime work is possible by applying to customs at the following fees:

0000–0500 hrs.	350 Yen per hour
0500–0830 hrs. 1700–2200 hrs. and Sundays and Holidays	300 Yen per hour
2200–2400 hrs.	350 Yen per hour

No work can be arranged for on 31st December to 3rd January.

MEDICAL: No advance notice required unless urgent.

DENSITY: About 1024.

FRESH WATER: No water barge available. Hydrants: at Central, Hakozaki and Suzaki Pier. Rate of delivery: 10/20 t.p.h.

FUEL: Bonded bunker oil is not available at this port, but is to be lightered from other port. An adequate notice should be given to the suppliers in order to avoid delay in replenishment. The rate of delivery from oil barge is 80/100 t.p.h.

FIRE PRECAUTIONS: Modern chemical fire service boat "Hiryu Maru" (30 tons).

CONSULS:

Hon. British Consulate, Kitakyushu Tel. 093-331-1311
American Consulate General, Fukuoka Tel. 092-751-9331
Republic of China Consular Agency, Fukuoka Tel. 092-761-3458
Republic of Korea Consulate General, Fukuoka Tel. 092-771-0461

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.

CUSTOMS ALLOWANCES: Only allowed 50 cigarettes to take ashore but no spirits.

REPAIRS: Local workshop (fishing-boat repairs) available only for small repairs, so Agent for ocean-going vessel in Hakata arranges repairs from Moji or Tobata.

REPATRIATION: Possible.

AIRPORT: Fukuoka airport: Distance: about 20 minutes from Hakata port by car. JAL Domestic regular airline for Tokyo and Osaka. ANA Domestic regular airline for Tokyo, Osaka. Also, CATHAY and JAL airlines for Taipei, Hong Kong 4 times a week. Korean and JAL airlines for Seoul and Pusan daily except Sunday.

TIME: GMT plus 9. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Police/Ambulance tel. 110; Fire 119.

TELEPHONES: May be placed on board if 7 days notice given.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AUTHORITY: Port Harbour Bureau.

AGENT: Sub-agents of Dodwell & Co. Ltd., Tokyo. Holme Ringer & Co. Ltd., Fukuoka Branch, c/o Mitsubishi Warehouse Co. Ltd., 2-30, Okihama-cho, Fukuoka. Telegraphic address "Ringer Fukuoka". Tel. 092-271 1292. Telex: 722-684 stating "For Ringer Fukuoka".

HAKODATE: 41.47 N. 140.42 E.

DOCUMENTS:

Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Stores List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's agents will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Not compulsory, but in practice is necessary. Pilots available 24 hours a day and vessels able enter and leave port day and night. Pilots board about 1.5 miles S.W. of Breakwater Lt. Ho. Pilot-boat is small boat carrying flag "H".

The limit of Hakodate piloting district is the sea area surrounded by a line drawn from Obana Misaki to Kattoshi Misaki and the coastline.

ANCHORAGES: Quarantine anchorage outside Breakwater and care should be taken not to foul fishing nets. Good anchorage inside breakwater at East side of section 3 – depth 11 to 13 m.

RESTRICTIONS: Quarantine and Customs business between 08.00 and 17.00 hours only.

MAX. SIZE: Tankers up to 75,000 d.w.t. at S.B.M. Max. draft 13 m. Max. L.O.A. 250 m.

Also see "Berthing".

HEALTH: Radio Agent for free pratique not less than 12 hours and not more than 36 hours before arrival, advising full details of vessel and health conditions on board. When free pratique is granted by radio, vessel will be required to submit the following documents to Quarantine Officer on arrival:

Maritime Declaration of Health.
Crew List.
Passenger List.

The following vessels will not be able to get radio pratique:

A vessel that has been in contact with an infected area or a suspected infected area within 15 days of arrival.

If a vessel has on board any case, or any suspected case of infectious disease, within 15 days of arrival.

If a crew or passengers on board do not possess Valid Smallpox Vaccination Certificates.

If a vessel does not possess a valid Derat or Derat Exemption Certificate.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which covers all ports in Japan. If specifically Westbound vessel, to Choshi, and Northbound to Nagasaki Radio respectively.

TUGS: 1×500 h.p., 1×800 h.p., 1×1,100 h.p., 1×2,000 h.p. and 1×2,400 h.p. Tug line generally used.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agents mainly by radio.

No. 3 Buoy		10.0	9.5	10,000

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agents to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gear not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hrs. (50% additional of basic stevedorage) 2100–0500 hrs. next morning (130% additional) Sundays/holidays (60% additional).

MEDICAL: No advance notice required unless urgent.

TANKERS: *Single-Buoy Mooring:* Asia Oil Company, sea berth suitable for up to 75,000 d.w.t. at Imodco Buoy.

Position: 41° 48′ 08″ N. 140° 40′ 57″ E.

Soundings: At site 15.5 m. In approaches to site, more than 15.5 m. The approach to terminal is free from obstructions.

There is one 20-in. crude line running 2,000 m. from shore to the buoy, and about 500 m. from shore line to the storage tanks.

Mooring: There is no night mooring. Unmooring is carried out from 0600 till 2400 hrs., and may be done by the Master of the ship without a Pilot.

A mooring/unmooring gang is provided for by Agent. Two launches and one tug are in attendance at the mooring. One launch will keep the hose clear while the other handles the lines. The tug is standing by and only pushes against bow or near the stern to keep the head of the vessel in position whilst mooring.

At least six good mooring lines are required, preferably each line to its own bollard. The lines are run single to the buoy. The position of the ship's bow from the buoy is about 40 m., when the distance from the buoy to ship's manifold is about 360 ft.

When mooring, it is requested that the propeller is completely stopped or otherwise turned astern.

Both bow anchors are to be hove well up in the hawse pipe and properly secured before reaching the buoy. Anchors are never to be used while on the buoy. They may foul the buoy's mooring cables and pipe-line on the bottom if released.

Floating Hose: There is one set of 12-in. floating hose for the discharge of crude only. The floating hose is about 600 ft. long from the buoy's manifold. The last two lengths are floating in doughnut-shaped plastic floats. The end is marked with an unlit marker buoy.

The hose connections are always made to the port manifold and are lifted with ship's gear. The hose when full of cargo and equipment weighs over one and a half tons. Information is required of the distance from ship's bow to ship's manifold, and the distance from ship's side to ship's manifold prior to arrival.

Standard flanges are used on the hose. OD 19 in. diameter of bolt-circle 17 in. with 12 bolt-holes size 0.875 in.

Discharging: The discharging should be arranged in such a way as to be able to take sufficient ballast into ship's tanks, when about half way during discharge; to be able to get the ship's head down to prevent the vessel from veering too widely, and run over the hose near the buoy, in case of unfavourable conditions.

Maximum allowed backpressure by shore is about 10 kg/sq.cm. During the discharge the main engine must not be immobilised as it may be used to keep the vessel clear of the buoy.

Stand-by Men: While on the buoy, the vessel will be required to provide sleeping quarters for four men, this includes the foreman who will remain on board throughout the entire operation. It is requested that the discharge officer be provided with meals. The other men are supplied with food from shore.

Discharge Rate: 1,800 k/l per hour.

DENSITY: Average 1025.

FRESH WATER: Available at piers ex-hydrants and by barge at anchorage. Supplier, Hakodate Municipal Office.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

Fuel supplies for Hakodate are generally lightered from Tokyo Bay area and delays can be caused by weather conditions.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommended request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's register to show Custom Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gears maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: None.

REPAIRS: Hakodate Dockyard Co., undertakes hull and engine repairs.

DRY DOCKS: No. 1. Capacity 15,000 g.t., length 180 m., breadth 22.45 m. depth 6 m. No. 2. Capacity 9,000 g.t., length 140 m., breadth 8 m., depth 6 m.

AIRPORT: Distant 20 min. by car.

TIME: GMT plus 9. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Police 110; Ambulance 119; fire 119.

TELEPHONES: Arrangeable on board.

SHORE LEAVE: Local Immigration officers issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AUTHORITY: Port Administration Office.

AGENT: Sub-Agents of Dodwell & Co., Tokyo. Narasaki Sangyo Co., Ltd. c/o Kyoei Unyu Co., Ltd., No. 5–22, Kaigan-cho, Hakodate, Hokkaido. Cable address: "Funekyoei Hakodate". Domestic Telex: 9925–64. Tel. Hakodate (0138) 42–4121.

HIMEJI: (including Hirohata, Shikama, Mega and Aboshi): 34.47 N. 134.41 E. **(See Plan Book)**

DOCUMENTS:

Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agents will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: See "Kobe". Vessels take Inland sea Pilot off Wada, Hesaki or Sekisaki; or from ports of Inland sea. No exact Pilot station and no checking point at port of Himeji (Mega, Shikama, Hirohata and Aboshi) but Agents arrange Pilot when vessel approaches upon receiving cable giving 24 hours advance notice. Pilot boarding positions as follows: Mega 34° 44′ N. 134° 42′ 15″ E. Shikama 34° 45′ N. 134° 39′ E. Hirohata 34° 44′ N. 134° 37′ E. Aboshi 34° 44′ N. 134° 34′ 10″ E.

No strict location of anchorage for vessel awaiting a Pilot in Himeji area, but should be as close as possible to port according to draft and communication.

ANCHORAGE: No strict boundary areas for anchorages. Anchor as close as possible to the port according to draft.

RESTRICTIONS: At ports of Mega, Shikama and Aboshi, no Pilot boarding between sunset to sunrise. Hirohata Pilot will board from sunrise to 22.00 hours for vessels less than 10,000 d.w.t. for entry, and less than 15,000 for departure, for piers No. 4, 5, 6, 7, 9 and 10 but other berths only from sunrise to sunset.

MAX. SIZE: Draft restrictions as follows:

Mega 11.80 m., Shikama 8.80 m., Hirohata 13.0 m. for central pier, 7.50 m. for Kamota pier (Pier No. 1–7), 9.45 m. for Tsuruta pier (Pier No. 10–14). 15 m. for No. 18 Pier. Aboshi 9.0 m.

Sea buoy mooring, max. draft 19 m. Max d.w.t. 250,000 tons.

HEALTH: No quarantine office at Himeji. At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards. Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: Tug(s) normally join vesel when approaching, or at anchorage. Always use tug's lines without charges.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gear not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1630 – 2130 hrs. 60% additional of basic stevedorage; 2130 – 0830 hrs. next morning 130% additional; Sundays/holidays 100% additional.

MEDICAL: No advance notice required unless urgent.

TANKERS: Idemitsu Kosan Kaisha Ltd., Himeji oil jetty where 1 berth only and max. 11.8 m. draft allowed. Shore discharging facilities two 12 in. diameter hose connections which connect to 18 in. diameter line for tank hoses. Acceptable max. 5 kg/sq.cm. on hose gauge, discharge rate abt. 2,000 l/t per hour. Discharge rate at the Sea Berth is 10,000 t.p.h. through 2×19 in. lines.

Note: Idemitsu Kosan Kaisha Ltd., Himeji, require following information prior to arrival for smooth berthing and connecting hoses: Height from sea to deck; Length from vessel's side to underneath of hose connections; Height from deck to connection of line; Diameter of connection.

DENSITY: Average density between 1025 and 1026 in Winter season and 1018 and 1020 in Summer season.

FRESH WATER: Idemitsu Oil Jetty, Shikama public pier and Hirohata pier able to supply fresh water from shore, but *No Water Barge available at Port of Himeji* therefore not able to supply fresh water at Satetsu pier (Shikama), Shikama buoy, Aboshi buoy or outside anchorage.

Port	*Average rate of delivery*
Mega	20–30 m/t per hour
Shikama	15–20 m/t per hour
Hirohata	15–20 m/t per hour

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

GANGWAY/DECK WATCHMEN: Not specially required unless passenger or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.

CARGO GEAR: See "Certificates" but no special requirements.

CONSULS: No consuls at Himeji, Shikama or Hirohata.

REPAIRS: Most minor deck and engine repairs available at port of Himeji; in case special technician required, should be called from Kobe.

DRY DOCKS: No dry dock available at port of Hijemi, Nearest dry dock Ishikawajima-Harima Heavy Industries Co. Ltd., Aioi, who have following dry docks. Also see Aioi.

	LOA	*LBP*	*Breadth*	*Depth*	*Capacity*
Dock No. 1	238 m. (780′9″)	230 m. (754′7″)	33 m. (108′3″)	5.5 m. (18′)	73,000 d.w.t. (LT)

REPATRIATION: Possible.

AIRPORT: About 60 km. to Irami Airport. Regular services.

TIME: GMT plus 9. No alterations made to clocks during year.

HOLIDAYS: At Aboshi, no work on 1st and 3rd Sunday. At Shikama, shore crane, no work on 1st and 3rd Sunday but gangs available for discharging and loading.

POLICE/AMBULANCE/FIRE: Police (Shikama) Tel. 35–1441; Ambulance (Shikama) 119 or 35-0119; Fire (Shikama) 119 or 35-0119.

TELEPHONE: No facilities for placing telephones on board.

GENERAL: No quarantine available at port of Himeji, therefore pratique to be obtained at other ports.

SERVICES: Tally, laundry, daily provisions by ship chandler available locally. All other service from Kobe or Osaka.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for 9 days, but 3 days extension possible if ship stays longer.

AUTHORITY: See "Amagasaki".

AGENTS: Sub-agents of Dodwell & Co., Tokyo. Shikama Kalun K.K., Minatomachi, Shikama-Ku, Himeji-shi. Tel. Himeji (0792) 35-0912. Telegraphic address "Shikamakaiun Himeji".

HIROSHIMA: 34.20 N. 132.25 E.

DOCUMENTS: See "Yokohama".

PILOTAGE: Inland Sea pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to Pilot station. Inland Sea Pilot Association covers all Inland Sea ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from one of three Pilot stations dependent upon vessel's last port of departure and at Master's discretion. Pilotage available throughout 24 hours and 72 hours advance notice preferred, thereafter advising any alterations. Most Inland Sea Pilots also act as Harbour Pilots up to berth or anchorage at destination. *Note:* No VHF communication available with Inland Sea Pilot stations. Also see "Shipmaster's Report" before first port.

1. Wadamisaki, at entrance to Kobe (vessels transitting Kii Straits). Position 34° 38′ N. 135° 11′ E. Telegraphic address "Anjin Kobe".

2. Sekisaki, 3 miles South of Sekisaki lighthouse (vessels transitting Bungo channel). Position 33° 13′ N. 131° 54′ E. Telegraphic address "Anjin Saganoseki". In event bad weather, recommended vessels proceed for shelter as near as possible having due regard to safety, to Sekisaki Pilot station.

3. Hesaki, at East side of Kanmon (Shimoneseki) Straits. Position 33° 56′ 24″ N. 131° 03′ 12″ E.

Ujina Lighthouse is at South of Ujina-islet 34° 20′ 14″ N., 132° 27′ 55″ E.

RESTRICTIONS: Depth of approach to berth about 10 m. Pilots not available after sunset.

MAX. SIZE: Wharf (Hiroshima Prefecture Public Berth) No. 1 length 166 m., draft 9.7 m. (10,000 g/t vessel). No. 2, length 166 m.

Gaibo-Ganpeki (wharf for ocean-going vessel) length 337 m., depth alongside about 10 m., max. draft acceptable 9.70 m.

HEALTH: Usually vessels anchor at the quarantine anchorage, where the authorities board and grant free pratique.

TUGS: Join vessel at quarantine anchorages. Tug's lines used.

BERTHING:

Berth		*Length (m.)*	*Depth (m.)*	*Permissible Draft (m.)*	*Capacity*
10,000 Tons Wharf (Gaibo Wharf)	No. 1	170	9.2	10.0	No limit. Subject to Draft and Length
	No. 2	170	9.2	10.0	
	No. 3	170	9.7	10.0	
	No. 4	170	9.7	10.0	

STEVEDORES: Working hours: 0830 – 2100 hrs.
TIDES: Max. (spring tide) 3.9 m. Min. (neaps) 0.57 m.

Rate of current at flood tide generally 0.25 knot to N.E.; 0.5 knot at ebb tide to S.W. South area of Togeshima and Kannonsaki 0.25 knot at flood to S.S.E., and 0.5 knot at ebb tide to N.N.W.

FRESH WATER: By water barge (capacity: 330 m/t available). Additional charges made for overtime i.e. after 5 p.m., and Sunday, holidays and Saturday afternoon.

FUEL: Most grades of domestic and bonded oil available, delivered by barge.

CONSULS: No consul in Hiroshima. Nearest Osaka or Kobe. Marine note of protest can be attested by local notary public.

REPAIRS: All types of deck, electrical and engine repairs.

DRY DOCKS: Largest dry dock Taibi dry dock, Mitsubishi-Hiroshima Works, length 154 m., breadth 22.00 m., 10,300 g.t. Kanawa dry dock and Ujina dry dock available for 3,500 g.t. and 1,500 g.t. respectively.

AIRPORT: Hiroshima airport. Only domestic airlines every hour to Osaka and Tokyo.

POLICE/AMBULANCE/FIRE: Police (for emergency) 110; Ambulance 119; Fire 119.

TELEPHONE: No arrangements for placing telephones on board.

SERVICES: Any navigational apparatus can be serviced on request, Cargo holds cleaning services can also be carried out, but tank-cleaning and other services are to be arranged from Kobe.

REGULATIONS: Many seaweed and oyster beds near anchorages, therefore oil pollution precautions strictly observed.

AUTHORITY: Hiroshima-Kencho.

AGENTS: Sub-agents of Dodwell & Co. Ltd., Tokyo. Naigai Unyu Co. Ltd., 23–36, 2-chome, Kaigan-dori, Ujina Hiroshima-shi, Hiroshima-ken. Cable address: Naigai Hiroshima. Domestic Telex: 652–963 Naigai Hir. Tel.: Hiroshima (0822) 54–2421.

HITACHI: 36.30 N. 140.37 E.

DOCUMENTS: and all general information, refer to "Onahama".

PILOTAGE: Not compulsory. Pilot boards in approximate position 36° 28′ 39″ N. 140° 38′ 40″ E. (Quarantine Station). Pilot not available after sunset.

MAX. SIZE: Draft, 8.50 m. limited by channel depth.

PRATIQUE: Radio Pratique not available. Formalities carried out at Quarantine Station. (See "Pilotage").

TUGS: 1 tug of 180 h.p. and 1 tug of 700 h.p. available. A 2,000 h.p. tug will be brought from Kashima if required.

BERTHING:

STEVEDORES: Working hours: 0800 – 1630 hrs.

FRESH WATER: Available.

FUEL: Domestic oil is available; bonded oil will be brought from Yokohama, when required.

REPAIRS: Minor repairs can be undertaken.

AUTHORITY: Port Administration Office.

AGENT: Sub-Agent of Dodwell & Co., Tokyo. Hitachi Huto Co., Ltd. 3-10, 1-chome Kujimachi Hitachi-shi, Ibaragi-ken. Cable Address: Hitachi Futo, Hitachi Kujihama. Domestic Telex: 3645-543. Tel.: (0294) 53-4111. Postal No.: 319-12.

HOSOSHIMA: 32.25 N. 131.41 E.

DOCUMENTS:

Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Telegraphic address of pilot station "Pilot Hososhima". 48 and 24 hours advance notice of ETA required, and any change in ETA. Pilot boards at Hososhima Quarantine anchorage location, Hosohima lighthouse N.E. one mile off, position 32° 25′ 50″ N. 131′ 41′ 53″ E.

ANCHORAGE: Refer Japanese chart No. 1223 (Ozue-wan and Hososhima-Ko).

RESTRICTIONS: Strictly no entry after sunset.

MAX. SIZE: Max. permissible LOA 170 m., draft 31 ft. 10 in. (9.7 m.)

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers' health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: Join vessel in position 32° 26.5′ N. 131° 39.5′ E. Tug's lines to be used.

BERTHING:

Industrial Port	
Wharf No. 1	depth 9.80 m.
Wharf No. 2	depth 9.50 m.
Wharf No. 3	depth 5.70 m.
Wharf No. 4	depth 5.70 m.
Wharf No. 5	depth 7.50 m.
Wharf No. 6	depth 9.70 m.
Hyuga Refinery's Wharf	depth 9.90 m.
Sugar Plant Wharf (Dolphin)	depth 9.45 m.
Commercial Port	
Wharf No. 1	depth 5.8 m.
Wharf No. 2	depth 6.8 m.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1630 – 2130 hrs. (60%) additional of basic stevedorage; 2130 – 0500 hrs. next morning 130% additional; Sundays/holidays 100% additional.

MEDICAL: No advance notice required unless urgent.

DENSITY: Average 1025 in Winter, 1020 in Summer, subject to weather and tide current.

FRESH WATER: Available from dock, 20/30 t.p.h.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest stock ports at maximum 7 days prior notice.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's register to show Customs Inspector ship's registered gross and net tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: No local representatives.

REPAIRS: None.

REPATRIATION: Possible.

AIRPORT: Nearest, Miyazaki airport about 2 hours drive from Hososhima. JAL and ANA lines.

TIME: GMT plus 9 hours. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Police 110; Ambulance 119; Fire 119. Public telephone booth available near by the berth.

TELEPHONES: No facilities for placing telephones on board.

SHORE LEAVE: Local Immigration Officers issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AUTHORITY: Port Administration Office.

AGENTS: Sub-Agents of Dodwell & Co. Ltd., Tokyo. Hakko Unyu Co. Ltd., No. 731, Kaigan-dori, Hososhima Hyuga-shi, Miyazaki-ken (883). Cable Address: "Ringer Hyuga". Domestic Telex: 776677 Hakko Hyuga. Tel.: Hyuga (09825)2–2185.

IHO: 34.45 N. 134.46 E.

NO VESSELS CALLING AT THE PRESENT TIME – FACILITIES NOT IN USE SINCE 1973.

DOCUMENTS:

Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Stores List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agents will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agents should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Inland Sea Pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to pilot station. Inland Sea Pilot Association covers all Inland Sea ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from 1 of 3 pilot stations dependent upon vessel's last port of departure and at Master's discretion. Pilotage available throughout 24 hours and 72 hours advance notice preferred, thereafter advising any alterations. Most Inland Sea Pilots also act as harbour Pilots up to berth or anchorage at destination.

Note: No VHF communication available with Inland Sea Pilot stations. Also see "Shipmasters Report" before first port.

1. Wadamisaki, at entrance to Kobe (vessels transitting Kii Straits) Position 34° 38′ N., 135° 11′ E. Telegraphic address "Anjin Kobe".

2. Sekisaki, 3 miles South of Sekisaki lighthouse. (Vessels transitting Bungo Channel). Position 33° 13′ N., 131° 54′ E. Telegraphic address "Anjin Saganoseki". In event bad weather, recommended vessels proceed for shelter as near as possible, having due regard to safety, to Sekisaki Pilot station.

3. Hesaki, at East side of Kanmon (Shimoneseki) Straits. Position 33° 56′ 14″ N., 131° 03′ 12″ E.

ANCHORAGE: Closed Port. Agent will arrange Anchorage position for discharging, with Authorities, but usual position Iho signal station, bearing 215° distant 3,000 m. (signal stn. 34° 44′ 58″ N., 134° 46′ 12″ E.).

HEALTH: Pratique must be obtained at another Port before calling Iho.

At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers' health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically Westbound vessel, to Choshi, and Northbound to Nagasaki Radio respectively.

TUGS: Not required. Discharging at Outer Anchorage.

TANKERS: Port is operated for oil discharging only. Discharge is into barges through 6 in. hoses at either side of vessel.

DENSITY: Average density is between 1025 and 1026 in Winter season and between 1018 and 1020 in Summer season.

FRESH WATER: Not available.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunker will be lightered from the nearest stock ports at maximum 7 days prior notice.

REPAIRS: Not available.

DRY DOCK: Nearest dockyard at Aioi.

AIRPORT: Nearest airport at Osaka.

TIME: GMT plus 9 hours, no alterations.

POLICE/AMBULANCE/FIRE: Police tel. 07944/2-3377; Ambulance, 119 or 2-2101; Fire 119 or 2-2101.

SERVICES: None. Nearest services available at Kobe/Osaka area.

AGENTS: See "Himeji".

IMABARI (Imahuru): 34.04 N. 133.00 E. (incl. Mategata). (See Plan Book)

DOCUMENTS:

Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Inland Sea pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to pilot station. Inland Sea Pilot Association covers all Inland Sea ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Most Inland Sea Pilots also act as Harbour Pilots up to berth or anchorage at destination.

Note: No VHF communication available with Inland Sea Pilot stations. Also see "Shipmaster's Report" before first port.

1. Wadamisaki, at entrance to Kobe (vessels transitting Kii Straits) Position 34° 38′ N. 135° 11′ E. Telegraphic address "Anjin Kobe".

2. Sekisaki, 3 miles South of Sekisaki lighthouse. (Vessels transitting Bungo Channel), Position 33° 13′ N. 131° 54′ E. Telegraphic address "Anjin Saganoseki". In event bad weather, recommended vessels proceed for shelter as near as possible having due regard to safety, to Sekisaki pilot station.

3. Hesaki, at East side of Kanmon (Shimonoseki) Straits. Position 33° 56′ 24″ N. 131° 03′ 12″ E.

ANCHORAGE: Anchorage outside breakwater, sufficient water, but on account fast current deemed not safe anchorage. Anchorage inside breakwater generally shallow, and sea area narrow for large vessels. To discharge logs only Temposan wharf available for vessels alongside berth where holding ground is good and depth of water is 7.50 m.

Vessels drawing over 7 m.: vessel can enter Mategata (open road) deemed to be most fitted place for vessels entry to discharge logs. Port of Mategata faces Aki-Nada and located near West entrance of Kurushima Channel; 132° 55′ E., 36° 06′ N., where holding ground good and depth of water 12–20 m. is kept.

RESTRICTIONS: No entry after dark.

MAX. SIZE: Temposan Wharf length 110 m., breadth no limit, draft 7 m. Mategata (open road) length no limit, breadth no limit, draft 10 m.

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards and Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers' health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically Westbound vessel, to Choshi, and Northbound to Nagasaki Radio respectively.

TUGS: Temposan wharf: join vessel at sea anchorage, using tug's line without charge. Mategata (open road): no tug required in normal conditions.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio. Also see "Max. Size".

Kurashiki Wharf:

Section	*Length (m.)*	*Depth (m.)*
1	165	9.0
2	140	7.5
3	187	5.5
4	270	5.5

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gear not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hrs. 50% additional of basic stevedorage; 2100–0500 hrs. next morning 130% additional; Sundays/holidays 60% additional.

MEDICAL: No advance notice required unless urgent.

DENSITY: Temposan wharf 1015. Mategata 1015.

FRESH WATER: Fresh water not available but usually brought by barge from Onomichi (about 4 hours run to Imabari/Mategata). Rate of delivery 80 tons to 200 t.p.h. dependent on barge.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's register to show Customs Inspector ship's registered gross and net tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: See "Kobe".

REPAIRS: Only minor repairs.

DRY DOCKS: Not available at this port, the nearest ones are Kawasaki Heavy Industries Ltd., Sakaide; Hitachi Shipbuilding & Engineering Co. Ltd., Innoshima; and Mukaishima; dimensions of these docks as follows:

Kawasaki Heavy Industries Ltd., Sakaide. Dock No. 2 for 500,000 d.w.t. vessel. 450 m.×72 m.×12.3 m. It is not in action yet for ships to repair. Only used presently for shipbuilding and after services.

Hitachi Shipbuilding & Engineering Co. Ltd., Innoshima Dock, Dock No. 1 for 20,000 d.w.t. vessel. 175 m.×25.62 m.×9.10 m. Dock No. 3 for 130,000 d.w.t. vessel. 282.50 m.×47 m.×11.33 m.

Hitachi Shipbuilding & Engineering Co. Ltd., Mukaishima Dockyard, Dock No. 1 for 3,000 d.w.t. vessel. 86.18 m.×13.60 m. ×6.80 m. Dock No. 2 for 8,500 d.w.t. vessel. 125 m.×18 m.×7.40 m. Dock No. 3 for 25,000 d.w.t. vessel. 175 m.×29 m.×9 m.

REPATRIATION: Possible.

AIRPORT: No airport. Nearest airports are Matsuyama and Takamatsu where are All Nippon Airways.

TIME: GMT plus 9 hours. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Police Tel. 110; Ambulance 119; Fire 119.

TELEPHONES: No facilities for placing telephones on board.

GENERAL: Mategata is a closed port. To conform with regulations, vessel obtains permission from Shikoku Maritime Bureau to enter.

Customs request vessels calling Mategata to obtain permission to enter at preceding port of call by paying charge at same rate of tonnage dues prior to arrival of vessel. Application undertaken by Agent.

No quarantine available. Nearest station Matsuyama. No Immigration. Officer comes from Niihama.

SERVICES: None.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AUTHORITY: Port Administration Office.

AGENT: See "Matsuyama".

INNOSHIMA: 34.17 N. 133.11 E.

DOCUMENTS:

3 Passenger Lists.
1 Stores List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords etc. (only at first port of call in Japan).

Ship's Agents will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in Transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Inland Sea Pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to pilot station. Inland Sea Pilot Association covers all Inland Sea ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from one of three pilot stations dependent upon vessel's last port of departure and at Master's discretion. Pilotage available throughout 24 hours and 72 hours advance notice preferred, thereafter advising any alterations. Most Inland Sea Pilots also act as Harbour Pilots up to berth or anchorage at destination. *Note:* No VHF communication with Inland Sea pilot stations. Also see "Shipmasters Report" before first port.

Wadamisaki, at entrance to Kobe (vessels transitting Kii Straits) Position 34° 38′ N., 135° 11′ E. Telegraphic address "Anjin Kobe".

Sekisaki, 3 miles South of Sekisaki lighthouse (vessels transitting Bungo Channel). Position 33° 13′ N., 131° 54′ E. Telegraphic address "Anjin Saganoseki". In event bad weather, recommended vessels proceed for shelter as near as possible, having due regard to safety, to Sekisaki pilot station.

Kanmon Pilot boards at Mutsure (33° 58′ 15″ N., 130° 53′ 43″ E.) for passing Shimonoseki Strait to Hesaki where Pilot will be changed to Inland Sea Pilot.

Hesaki, at East side of Kanmon (Shimonoseki) Straits. Position 33° 56′ 24″ N., 131° 03′ 12″ E.

ANCHORAGE: No. 1. 14 m. deep, 1.4 miles off Hyakkan Island 180°. No. 2, 9 m. deep, 1.5 miles off Hyakkan Island 290°.

RESTRICTIONS: In general, mooring/unmooring and dry-docking in-and-out carried out in daytime only.

MAX. SIZE:

	Length	Breadth	Draft
(1) For mooring only	320 m.	× 50 m.	× 7 m.

(2) Max. draft for entering port: 9 m.
(3) Max. draft for mooring: 5–7 m. according to quay.

Current is N.E. at high tide, and S.W. at low tide at max. 2.5 knots.

HEALTH: In event vessel proceeding Innoshima direct from foreign port, vessel to receive pratique at Quarantine anchorage Kobe or Saganoseki (33° 15′ N., 131° 52′ E.) or Mutsure (33° 59′ N., 130° 53′ E.).

At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers' health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which covers all ports in Japan. If specifically Westbound vessel, to Choshi, and Northbound to Nagasaki Radio respectively.

TUGS: Ship taken into port by Dock Master who joins ship at anchorage with tug-boat. Usually tug's lines used.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

TANKERS: Tank cleaning station operated by Setonaijai Tank Cleaning Company, can receive slops up to rate of 250 t.p.h.

MEDICAL: No advance notice required unless urgent. Hospital facilities available.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

FRESH WATER: Available by barge.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: None.

REPAIRS: All facilities for major repairs.

DRY DOCKS: Hitachi Zosen:

FUEL: Domestic oil is available; bonded oil will be brought from Shiogama, when required.

FRESH WATER: Available from shore and by barge.

REPAIRS: Minor repairs possible.

AUTHORITY: Port Administration Office.

AGENT: Sub-agent of Dodwell & Co., Tokyo. Nanko Unyu Co. Ltd., 13-banchi, Shiomi-cho Ishinomaki-shi, Miyagi-ken. Cable Address: Nanko Ishinomaki. Domestic Telex: 8628-60. Tel: (0225) 96-3815. Postal No.: 986.

IWAKUNI, Hiroshima Bay: 34.10 N. 132.11 E.

DOCUMENTS:

Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agents will prepare Inward/Outward Declaration, Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Not compulsory. Pilots available at Quarantine Anchorage, when required.

Inland Sea Pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to Pilot station. Cable address "Ansin Moji". Inland Sea Pilot Association covers all Inland Sea ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from 1 of 3 Pilot stations dependent upon vessels last port of departure and at Master's discretion. Pilotage available throughout, 24 hours and 72 hours advance notice preferred, thereafter advising any alterations. Most Inland Sea Pilots also act as Harbour Pilots up to berth or anchorage at destination. *Note:* No VHF communication available with Inland Sea Pilot stations. Also see "Shipmaster's Report before first port.

1. Wadamisaki, at entrance to Kobe (vessels transitting Kii Straits). Position 34° 38′ N. 135° 11′ E. Telegraphic address "Anjin Kobe".

2. Sekisaki, 3 miles South of Sekisaki lighthouse (vessels transitting Bungo Channel). Position 33° 13′ N. 131° 54′ E. Telegraphic address "Anjin Saganoseki". In event bad weather, recommended vessels proceed for shelter as near as possible having due regard to safety, to Sekisaki Pilot station.

3. Hesaki, at East side of Kanmon (Shimonoseki) Straits. Position 33° 56′ 24″ N. 131° 03′ 12″ E.

ANCHORAGES: 2 anchorages, 1 for "Quarantine" and repairing, etc., other for discharging logs.
(a) Quarantine 34° 10′ 28″ N., 132° 16′ 43″ E. min. depth 27 m.
(b) Discharging area 34° 11′ 12″ N., 132° 14′ 21″ E. min. depth 10 m.
Nature of bottom mud. Minimum bottom width no limit.

RESTRICTIONS: Day and night entry possible.

HEALTH: Radio pratique available. At first port of call in Japan vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically Westbound vessel, to Choshi, and Northbound to Nagasaki Radio respectively.

TUGS: Tugs normally join vessel at Quarantine area. Tug's lines to be used free of charge. 6 tugs available, 4×3,000 h.p. and 2×2,500 h.p.

BERTHING: No berthing from sunset to sunrise. At least 2 hours notice arrival necessary to reach berth, in event of direct arrival from foreign country.

DENSITY: 1020.

FRESH WATER: Available at:
Koa Oil Private Crude Oil Pier.
Koa Oil Private Products Pier No. 3.
Public, Iwakuni North No. 3 Wharf.
Sanyo-Kokusaku Pulp Private Logs Pier.
Sanyo-Kokusaku Pulp Private Chips Pier.
Water barge arrangeable from Onomichi.

FUEL: Available ex-wharf, but not ex-barge. All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

DEVELOPMENTS: New berth named "Muronoki Pier" under construction.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

CERTIFICATES: Ship's register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gears maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.

CARGO GEAR: See "Certificates" but no special requirements.

CONSULS: No consul but marine note of protest can be attended by local notary public.

REPAIRS: Minor repairs possible.

REPATRIATION: Possible.

AIRPORT: Hiroshima airport 45 km. (Abt. 2 hours).
For Osaka (TOA Airline) 0900 hrs., 1415 hrs., 1725 hrs., 2000 hrs.
For Tokyo 0750 hrs., 1100 hrs., 1355 hrs., 1510 hrs., 1755 hrs., 1905 hrs.

TIME: GMT plus 9 hours. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Police 110 (just dial); Ambulance 119 (just dial); Fire 119 (just dial).

TELEPHONES: No arrangements available except Koa Oil.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AUTHORITY: Port Administration Office.

AGENTS: Sub-agents of Dodwell & Co., Tokyo. Naigai Unyu Co. Ltd., Iwakuni Office, 7-35, 4-chome, Shinminato-cho, Iwakuni-shi, Yamaguchi-ken. Cable address: Naigai Iwakuni; Domestic Telex: 6672-39, Naigaiunyu Iwa; Tel.: Iwakuni (0827) 21-7115/6.

KAGOSHIMA: 31.35 N. 130.33 E.

DESCRIPTION: Port situated in Kagoshima Bay, the Southern part of Kyushu and consists of 3 sections as follows:

Main Harbour: divided into Inner Harbour sheltered by breakwaters which can accommodate up to 3,000 tonners, and Outer Harbour, (open roads) where large size vessels lie at anchor.

New Harbour: adjacent to Main Harbour on the South. This section also sheltered by breakwaters and a 10,000 tonner can be accommodated.

South Harbour: located about 6 kms. away from main harbour on South and used for small coasters.

DOCUMENTS:
Customs: When vessel arrives direct from foreign port, customs officials board for search. Following documents to be submitted:
Crew List.
Passenger List.
Manifest of crew personal effects (must be signed by individual Crew member).
Store List.
Arms and Ammunition List.
Narcotics List.
List of ports of Call on current voyage.
Discharging Cargo Manifest.
Through Cargo Manifest.
Declaration inward/outward.

Following will be checked on board: Ship's Registry; Last Port Clearance.

When vessel comes from Japanese port, Customs officials will not attend on board, except special case. Master or Agents to attend Custom House for entry formalities with following documents:
Discharging Cargo Manifest.
Through Cargo Manifest.
Declaration inward/outward.
Ship's Registry.
Last Port Clearance.
Documents entrusted with the Master by Customs at previous port.

On vessel's departure, a clearance is issued by Customs, after confirming payment of tonnage dues.

PILOTAGE: Not compulsory, but necessary unless Master well acquainted with locality. Pilot embarks at quarantine anchorage (see "Health"). Request for Pilot made through Agent. Master report by radio accurate ETA at least 24 hours prior to arrival.

ANCHORAGE: Ample good holding anchorage available in Outer Harbour. Depth: Over 9 m.

RESTRICTIONS: Berthing/unberthing possible day and night.

HEALTH: Radio Agent for free pratique not less than 12 hours and not more than 36 hours before arrival, advising full details of vessel and health condition on board. When free pratique is granted by radio vessel will be required to submit the following documents to Quarantine Officer on arrival:
Maritime Declaration of Health.
Crew List.
Passenger List.

The following vessels will not be able to get radio pratique.

A vessel that has been in contact with an infected area or a suspected infected area within 15 days of arrival.

If a vessel has on board any case, or any suspected case of infectious disease, within 15 days of arrival.

If crew or passengers on board do not possess valid Smallpox Vaccination Certificate.

If a vessel does not possess a valid Derat or Derat Exemption Certificate.

Quarantine:
(a) Quarantine station: Sea area within radius of 1,000 m. from centre, position 31° 33′ 25″ N., 130° 35′ 33″ E.
(b) Quarantine service rendered from sunrise to 1 hour before sunset.
(c) "Q" flag should be hoisted until free pratique granted.
(d) When vessel arrives from plague-infected or suspected area within 10 days after she left such place, 24-hour special quarantine required.

All sanitary scuppers must be closed and garbage not thrown overboard after reaching 60 miles off Japanese coast.

RADIO: Recommended Captain contacts Agent through Choshi Radio or Nagasaki Radio which covers all ports in Japan. If Westbound vessel, to Choshi, and Northbound to Nagasaki Radio respectively.

TUGS: 3 tugs, 3,000 h.p., 2,400 h.p. and 1,000 h.p.

BERTHING: No specific requirements. Pilot boarding time will be notified by Agent mainly by radio.

New Port (Kagoshima-Shinko). Sheltered harbour with main entrance 150 m. wide between S. breakwater (350 m.) and N. breakwater (150 m.). Sheltered anchorage in depth of 5.5–9.0 m. No mooring buoy. Berthage outside breakwater in depth of 9.0 m. and inside breakwater in depth of 5.5–9.0 m.

Piers: South pier (in foreign trade zone, for outbound vessels only):
165 m. long with 9.0 m. alongside, will take one vessel of about 10,000 g.r.t.
260 m. long with 7.5 m. alongside, two vessels less than 5,000 g.r.t.
120 m. long with 4.5 m. alongside, two vessels less than 500 g.r.t.
North pier (for inbound vessels):

125 m. long with 7.5 m. alongside will take one vessel of about 3,000 g.r.t.

160 m. long with 5.5 m. alongside two vessels less than 1,000 g.r.t.

60 m. long with 4.0 m. alongside one vessel less than 500 g.r.t.

160 m. long with 5.5 m. alongside two vessels less than 1,000 g.r.t.

Taniyama Harbour: South pier has been constructed, located about 10 kms. from main harbour on South and used for large coasters.

Berthing: Sheltered harbour with main entrance 200 m. wide between S. breakwater (780 m.) and N. breakwater (650 m.). Sheltered anchorage in depth of 5.5–13 m. No mooring buoy. Berthage inside breakwater in depth of 5.5–12.5 m. South pier (in foreign trade zone, for outbound vessels only).

Name of Berth	*Length (m.)*	*Depth (m.)*	*Permissible Draft (m.)*
Taniyama Port (Sect. 1)	250	12.0	11.5
	260	7.5	7.0
	270	5.5	5.0
	550	5.5	5.0
South Port	520	4.5	4.0
	180	5.5	5.0

STEVEDORES: Maximum 10 gangs available. Working hours: 0830–1630 hrs. (st shift); 1630–2130 hrs. (2nd shift); 2130–0600 hrs. (3rd shift). No work can be arranged for 31st December and during New Year holidays (1st to 3rd January).

MEDICAL: Hattanmaru Hospital; Fukusaki Hospital; Nagata Dental Plant. No advance notice required unless urgent.

TANKERS: No tanker berths at Kagoshima, but Central Terminal Station (C.T.S.) in Kagoshima Bay. See "Kiire".

FRESH WATER: One 150-ton water barge available. Hydrants at wharves in main harbour. Rate of delivery: 50 t.p.h. from barge; 15–20 t.p.h. from hydrants.

FUEL: Domestic oil is available; bonded oil will be brought from Moji with sufficient advance notice, when required.

GANGWAY/DECK WATCHMEN: Not specifically required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores open/close hatches. Cost per hour depending on type of cargo. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete before berthing.

CERTIFICATES: Ship's register to show Customs Inspector registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears poor.

CUSTOMS ALLOWANCES: Only 50 cigarettes to take ashore but no spirits.

REPAIRS: Only minor repairs – Kikukawa Iron Works and Kagoshima Dockyard Co.

REPATRIATION: Possible. Also see "Regulations".

AIRPORT: Kagoshima Airport. Short distance from town.

TIME: GMT plus 9 hours. No alterations to clocks during year.

HOLIDAYS: See "Tokyo" (Also see "Stevedores").

SERVICES: Cargo Survey. Provisions and Stores. Fumigation – Toyo Fumigation attend from Moji on request.

WIND/TIDE: N.W. wind prevails in Winter season and Easterly wind in Summer. Wet seasons in April and July. Average tidal range 2.74 m. In the outer harbour, flood tide sets to North and ebb to South. Maximum speed of current 2 knots. Current in inner harbour is less than 0.25 knots.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 day, but 3 day extension possible if vessel stays longer. Also see "Regulations".

REGULATIONS: Immigration officials board vessel on arrival to examine passports, discharge-books and/or other equivalent travel documents and provide 72-hour landing passes for crew members and passengers. 1 copy each of crew list and passenger list required by them. Providing ship's Agent with a crew list beforehand will be a great help in expediting immigration business on vessel's arrival. When vessel stays in port more than 72 hours. the landing passes may be extended 72 hours on application. In the event that crew members, without entry visas, are to be landed for repatriation or transfer, Immigration will not permit their landing unless passage, by either sea or air, ensuring the prompt departure from Japan (within 72 hours) of these men has been booked, or unless vessels to which they are to be transferred, arrive in Japan within 5 days.

AUTHORITY: Kagoshima Kencho.

AGENTS: Sub-agents of Dodwell & Co. Tokyo. Kyoshingumi Co. Ltd., Agency Department, Zisaki, Zyonan-cho, Kagoshima-shi, Kagoshima-ken. Cable address: Kyoshingumico Kagoshima; Domestic Telex: 7822–46. Tel.: (0992) 26–7124, 26–7115.

KAKOGAWA: 34.42 N. 134.50 E. (See Plan Book)

Port is for sole use of the Kobe Steel Co. Ltd. Declared open port as of 1st May 1970, but vessels should first call off Kobe to obtain free pratique, Customs clearance and Pilot.

DOCUMENTS:

Ship's Register.

Last Port Clearance.

3 Crew Lists including Passport Nos.

3 Passenger Lists.

1 Stores List.

1 Declaration of Crew's Baggage, i.e. tobacco wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Pilot will board off Kobe when calling for free pratique and Customs clearance. Pilot will be arranged by Agent subject advance request and usual ETA advices.

HEALTH: Vessel must call off Kobe for free pratique. At first port call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers' health condition to respective Quarantine office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which covers all ports in Japan. If specifically Westbound vessel, to Choshi, and Northbound to Nagasaki Radio respectively.

RESTRICTIONS: Mooring/unmooring conducted daylight hours only.

BERTHING:

	Length	*Depth*
Pier E-1	200 m.	15.00 m.
Pier E-2	200 m.	14.00 m.
Pier E-3	300 m.	14.50 m.
Pier E-4	400 m.	17.00 m.
Pier W-4	220 m.	7.60 m.
Pier W-5	260 m.	11.90 m.
Pier W-6	270 m.	11.90 m.
LPG Dolphin	77 m.	16.00 m.
Scrap Pier	250 m.	11.10 m.
South Pier	450 m.	6.80 m.

3 unloaders are presently available. 2 have capacity of discharging 1,500 t.p.h. and the third 700 tons.

Depth at low water is 17 m. in the fairway which is 400 m. wide.

MEDICAL: Treatment has to be arranged from Kobe.

FRESH WATER: Available from quay. Rate 50–80 t.p.h.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay, and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.

REPAIRS: Arranged from Kobe.

REPATRIATION: Possible, through Kobe.

TIME: GMT plus 9 hours. No alterations made to clocks during year.

SHORE LEAVE: Local Immigration offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

SHIPMASTER'S REPORT:

When the vessel anchors off Kobe in the roads, "Kobe Harbour Control" will call on VHF Channel 16 and ask for anchoring time and position from Kobe headlight.

The maximum draft at Higashi Harima is 15.5 m.

Vessels always berth port side alongside. The gangway should be lowered as soon as possible to let the officials aboard.

The vessel loaded 112,000 metric tons in 60 hours, previously the same amount had been loaded a little quicker.

Bilge water, oil or garbage should never be thrown overboard because owners have to pay compensation to the Fishermen's Union.

Berthing takes place 2 hours before high water.

AUTHORITY: Kakogawa Doboku (Public Works) Office.

AGENT: See "Himeji".

KAMAISHI: 39.16 N. 141.55 E.

DOCUMENTS:

Ship's Register. Last Port Clearance. 3 Crew Lists including Passport Nos. 3 Passenger Lists. 1 Store List.

1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Pilot not compulsory, but arrangeable at Master's request. Pilot arranged by Agent and vessel required to radio Agent ETA 24 hours before ship's arrival. Pilot boat has no facility to communicate, nor particular light or sound signals, but flies Pilot flag "H". Pilot boards at 39° 16′ N. 141° 59′ E. 1 mile off Osaki Point. No alternative area in event bad weather.
ANCHORAGE: Up to four 30,000 d.w. tonners can safely anchor. Depth of water: 31–43 m. at Quarantine anchorage. 20–27 m. at discharging anchorage.
RESTRICTIONS: Vessel free in and out anytime.
MAX. SIZE: Draft 14 m. and LOA, 200 m. (656 ft.) Breadth no restriction. Vessels with draft exceeding 9 m. required to berth on high water.
HEALTH: Formalities will be carried out at the anchorage 500 m. outside of Harbour Line. (39° 15′ 3″ N., 141° 55′ 1″ E.)
RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically Westbound vessel, to Choshi, and Northbound to Nagasaki Radio respectively.
TUGS: Tugs (2) join vessel at anchorage and tugs' lines used free of charge.
BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

KANDA: 33.47 N. 131.00 E.

RESTRICTIONS: Main channel length 11,080 m., width 200 m., depth 9 m.

Tidal range 3.2 to 3.3 m.

BERTHING: Main berths dredged to 9 m. alongside. Berths mostly used for importing lumber.

KANMON-KO (Kanmon Harbour).

According to Japanese Harbour Area Regulations, Moji, Shimonoseki, Kokura, Tobata, Wakamatsu and Yawata are respective sections included in one port namely Kanmon Harbour. The expression of the port as "Kamon" has been used in charter parties, where these six ports are considered to be one port. Vessel's movements within these ports is treated as shifting berth in the same port. Therefore, if vessels calls at more than 2 ports within this area, such calls are covered by one payment of tonnage dues. However, at Tobata, Wakamatsu and Yawata, port dues are levied in addition to tonnage dues.

Entry/departure procedures to Customs, Immigration and/or Harbour Master should be effected at each port, as those officials stationed individually at each port.

KANOKAWA: 34.11 N. 132.26 E.

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.
PILOTAGE: Inland Sea pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to pilot station. Inland Sea Pilot Association covers all Inland Sea ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from 1 of 3 pilot stations dependent upon vessels last port of departure and at Master's discretion. Pilotage available throughout 24 hours and 72 hours advance notice preferred, thereafter advising any alterations. Most Inland Sea Pilots also act as Harbour Pilots up to berth or anchorage at destination. *Note:* No VHF Communication available with Inland Sea Pilot stations. Also see "Shipmasters Report" before first port.

1. Wadamisaki, at entrance to Kobe (vessels transitting Kii Straits). Position 34° 38′ N. 135° 11′ E. Telegraphic address "Anjin Kobe".

2. Sekisaki, 3 miles South of Sekisaki lighthouse. (Vessels transitting Bungo Channel.) Position 33° 13′ N. 131° 54′ E. Telegraphic address "Anjin Moji". In event bad weather, recommended vessels proceed for shelter as near as possible having due regard to safety, to Sekisaki Pilot station.

3. Hesaki, at East side of Kanmon (Shimoneseki) Straits. Position 33° 56′ 24″ N. 131° 03′ 12″ E.

Inland Sea Pilots also attend Harbour Pilotage but if specifically required Harbour Pilot boards at Port entrance South side of Ohkurokamishima, Position 34° 10′ N. 132° 26′ E.
ANCHORAGES: Good holding ground. Entrance channel and Harbour Channels. Depths 18 m. min. Bottom mud and sand. Difference between quoted datum and chart datum about 2 m. (to be added). Harbour anchorage about 2 miles South of "T" head berth where vessel remains if waiting berth.
RESTRICTIONS: No berthing or unberthing between sunset and sunrise.
MAX. SIZE: Length 240 m., beam 30 m., draft 13 m., deadweight 125,000. See "Tankers".
HEALTH: Closed port. Vessel must call at another port (Such as, Matsuyama or Iwakuni) for Customs and Health clearance before entering Kanokawa. At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers' health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.

N.B. Vessels destined to Kanokawa have called at Kure Quarantine Anchorage for free pratique and customs' clearance before proceeding to Kanokawa. The above practice is not only a loss of time (50 miles deviation) but dangerous for vessels to transit in a congested traffic area. In view of the above, the practice was amended and vessels from now on must call at Matsuyama or Iwakuni instead of Kure for Customs and Quarantine clearance.
RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.
TUGS: Arranged from Kure. Normally join at Kanokawa Port entrance. Usually tug's lines used without extra charge.

TANKERS:

Berth	Length (m.)	Depth (m.)	Permissible Draft & LOA (m.)	Capacity	Pipe-lines
Mitsubishi Shoji Kanokawa No. 1	30	13.2	12×240	Less than 30,000 d.w.t.	See below

Size and number of shore line	1×16 in.	2×24 in.
Max. back pressure on shore gauge	5.0 kg/sq.cm.	10.0 kg/sq.cm.
Average speed for discharging	2,000 kl/hr.	5,000 kl/hr.

DENSITY: 1023–1025 alongside berth. Rise of tide: Springs 3.4 m. Neaps 2.6 m.
FRESH WATER: Available at berth, ex-pipe-line. Average delivery rate – 20 t.p.h.
FUEL: Most grades of domestic and bonded oil obtainable by barge only at anchorage after completion of discharge, with 3 days advance notice.
CONSULS: None.
REPAIRS: See "Kure".
AIRPORT: Kure.
TIME: GMT plus 9 hours. Permanent.
POLICE/AMBULANCE/FIRE: Police 2005; Ambulance 2711; Fire 2711.
TELEPHONES: No arrangements available for placing telephones on board.
AUTHORITY: Ohgaki Doboku (Public Works) Office.
AGENTS: See "Kure".

KASHIMA: 35.54 N. 140.42 E. (See Plan Book)

DOCUMENTS:
Ship's Register.
Last Port Clearance.
5 Crew Lists including Passport Nos.
5 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.
PILOTAGE: Pilot called through Agent. Pilot boards about 2 miles to N.E. from the end of breakwater, in position 35° 58.5′ N. 140° 44′ E.
ANCHORAGE: No suitable anchorage at present Quarantine Anchorage located at section between 183° and 279° from the undermentioned centre within a circle of radius of 1,300 m. centering the position of 35° 57′ 19″ N., and 140° 42′ 30″ E., where depth of water, 18 m.
RESTRICTIONS: Pilot does not board vessel after dark.
MAX. SIZE: *Tankers:*

Berth	*Max. d.w.t.*	*Max. L.O.A.*	*Max. Safe Draft*
200,000 ton Sea Berth	200,000	No Limit	19.00 m.
100,000 ton Berth	100,000	No Limit	14.50 m.
70,000 ton Berth	70,000	No Limit	13.30 m.

Bulk carriers have entered with draft up to 44 ft.
HEALTH: Radio pratique is available if application in accordance with Japanese Regulations. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers' health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.
RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically Westbound vessel to Choshi and Northbound to Nagasaki Radio respectively.
TUGS: Usually joins vessel at anchorage where Pilot boards; ship's lines used.
BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

No. 2	220 m.	30 m.	10 m.	25,000 g.t.

AIRPORT: Distance from airport (Narita International Airport) 230 km. Airport served by regular airlines.

TIME: Akashi standard time 135° GMT plus 9 hours. Permanent.

HOLIDAYS: National holidays, Sundays. National holidays January 1, 2, 3, 15; February 11; March 21; April 29; May 3, 5; September 15, 23; October 10; November 3, 23; December 28, 29, 30, 31. Cargo work cannot be arranged on following days: December 31st; January 1st, 2nd, 3rd.

POLICE/FIRE/AMBULANCE: Police Kawasaki 26–9161; Ambulance Kawasaki 28–0963; Fire Kawasaki 28–5521.

TELEPHONES: Connection to ship. Charge for use.

SERVICES: Tank-cleaning. Compass adjusting. Direction Finder calibration.

SHORE LEAVE: Crew members allowed ashore after being issued with shore passes.

DELAYS: Awaiting favourable tide. Delay of Quarantine inspection.

SHIPMASTER'S REPORT: *The Tonen Ohgishima Sea Berth:*

1. Suggest Mikimoto Lighthouse used for end of passage as from there inwards to Uraga Channel (58 miles) heavy concentrations of traffic frequently experienced.

2. Entry to Uraga Channel for VLCCs permitted only during daylight (i.e. sunrise to sunset).

3. Pilot boards in vicinity Uraga No. 1 buoy from 1 of the 2 tugs which escort the vessel to Yokohama/ Kawasaki and requires fire fighting tug standing by at Uraga Buoys Nos. 1–6.

4. Deep draft signal to be displayed including the red flashing light and Code "First Substitute over Flag 'B' " and 2 black cylindrical shapes (0.6 m. × 1.2 m.) placed vertically (refer Maritime Traffic Safety Law).

5. ETAs (No. 1 Buoy Uraga) should be updated as promptly as possible. Considerable importance attached to the vessel's arrival/sailing time by Tokyo Wan Traffic Advisory Service Centre (TWTASC).

6. Vessel must anchor at Kawasaki Anchorage where Port Health boards (pilot hoist used).

7. Berthing/Unberthing Ohgishima Sea – berth during daylight only (sunrise to sunset).

8. Berthing pilots (2) embark at Quarantine Anchorage, 6 tugs all using nylon tow ropes with eye on bitts. Always port side alongside. Refer mooring diagram for details. No additional mooring ropes available on loan or hire from berth. Shore gangway, Chiksan arms 4×16 in. connections.

9. A spill boom completely surrounds the vessel on the berth. A comprehensive book (in English) of the Terminal Regulations placed on board on arrival. Tonen Company require a tape recording concerning oil pollution to be broadcast throughout the vessel's p/a system before cargo discharge commences.

10. Ullaging is witnessed by Oil Co. representative. Samples taken from all tanks necessitating the opening of tank hatches. All tanks dipped after discharging completed.

11. The loading of stores, provisions, etc. (either by crane or derrick) is not permitted on this berth. No restrictions on items being *carried* on board via the gangway, e.g. laundry. Necessary to anchor after discharging/ballasting to take on stores.

12. During severe weather conditions tug assistance was requested to stand by the vessel on the berth. Tugs cannot approach unless the spill boom is removed and this will only be removed if cargo discharge ceases and Chiksan arms disconnected.

13. A shore liberty boat was arranged through Agent. This service is to Yokohama, approx. 1 hour journey. A boat service to nearby Kawasaki is permitted and take 40 minutes. All boat services suspended when weather deteriorates. Shore passes issued by Immigration Authorities on board and must be collected in before vessel leaves berth.

AUTHORITY: Port & Harbour Bureau of Kawasaki Municipality.

AGENTS: See "Yokohama".

KIIRE: 31.23 N. 130.32 E. (See Plan Book)

DOCUMENTS:

Ship's Register.
Last Port Clearance.
5 Crew Lists including Passport Nos.
5 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: No particular regulations for navigating in Kagoshima Bay. Suggest enter Bay on course close to Osumi Peninsula. 3 Light Beacons South of oil piers for Ships approaching and manoeuvring. Bay pilots not provided but Mooring Master provided for assistance to Master for berthing without charge. No VHF available for ship-shore communication.

ANCHORAGES: Anchorage area ranges in depth from 30 to 60 m. Holding ground in these areas only fair; recommended vessels lie to long scope of chain. Locally tide rise approximately 3 m. in springs and 1.5 m. neaps. Maximum tide currents Northerly 0.32 knot, Southerly 0.47 knot. Ample anchorage and manoeuvring area N.E. of terminal.

RESTRICTIONS: Night entry and departure permitted subject to weather conditions. However, Harbour Master will not permit vessels loaded with oil cargoes to berth between sunset and sunrise.

MAX. SIZE: Max. draft at Nos. 1 and 2 berths – 18 m. acceptable 30,000–150,000 d.w.t. vessels. Max. draft at No. 3 berth – 28 m. acceptable 30,000–450,000 d.w.t. vessels. Max. safe draft at No. 4 berth 34 m. suitable for up to 700,000 d.w.t. Also see "Tankers".

HEALTH: Radio pratique available. Quarantine officers board the vessel either at the quarantine anchorage or at the pier, depending on availability of berth.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: Mooring and unmooring assistance provided by two 4,200 h.p. CPP tugs and two 3,000 h.p. VSP tugs regularly stationed.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

MEDICAL: Advance notice required if arriving at weekend.

TANKERS:

Berth No.	Max. LOA	Connections	Discharge Rate
1	310 m.	5×12 in.	10,000 k/l (loading only)
2	310 m.	5×12 in.	10,000 k/l
3	350 m.	6×16 in.	20,000 k/l
4	400 m.	2×16 in.	5,000 k/l
		3×24 in.	10,000 k/l

DENSITY: 1025.

FRESH WATER: Water obtainable at berth on oil piers at rate of 40 tons per hour.

FUEL: Domestic oil is available from Kagoshima and bonded oil will be lightered from Moji area, when required.

FIRE PRECAUTIONS: Very strict Safety Regulations.

Disregard of regulations will result in stopping all loading or unloading operations and the vessel being ordered off berth for appropriate action to be taken.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: None.

REPAIRS: Available Moji, Sasebo & Nagasaki.

DRY DOCKS: None.

REPATRIATION: Possible.

AIRPORT: Distance from airport about 2 hours by car. ANA and Towa airlines serve daily.

TIME: GMT plus 9. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Police station tel. 110; Fire brigade station is located at terminal and Ambulance available at that station.

TELEPHONE: Telephone placed on board at Terminal free of charge for inter-office communication.

SERVICES: All services available.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AUTHORITY: Nippon Oil Staging Terminal Co., Ltd.

AGENT: Sub-agents of Dodwell & Co. Ltd., Tokyo. Tokyo Tanker Marine Service Co. Ltd. 2856-5, Uenohama Aza Nakamyo Kiire-cho, Ibusuki-gun Kagoshima-ken. Cable Address: Tokmarine Ibusuki Domestic Telex: 7867-22 Tel.: (09934) 5-0171.

KIKUMA: 34.03 N. 132.51 E. (See Plan Book)

LOCATION: Sea Berth: 34° 03′ 34.2″ N., 132° 51′ 52″ E. Dolphin Berth: 34° 03′ 0.8″ N., 132° 51′ 21″ E.

DOCUMENTS:

Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Inland Sea Pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to Pilot station. Inland Sea Pilot Association covers all Inland Sea ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from 1 of 3 Pilot-stations dependent upon vessel's last port of departure and at Master's discretion. Pilotage available throughout 24 hours and 72 hours advance notice preferred, thereafter advising any alterations. Most Inland Sea Pilots also act as Harbour Pilots up to berth or anchorage at destination. *Note:* No VHF communication available with Inland Sea Pilot-stations. Also see "Shipmaster's Report" before first port.

1. Wadamisaki, at entrance to Kobe (vessels transitting Kii Straits) Position 34° 38′ N. 135° 11′ E. Telegraphic address "Anjin Kobe".

2. Sekisaki, 3 miles South of Sekisaki lighthouse. (Vessels transitting Bungo Channel). Position 33° 13′ N. 131° 54′ E. Telegraphic address "Anjin Saganoseki". In event bad weather, recommended vessels proceed for shelter as near as possible having due regard to safety, to Sekisaki Pilot-station.

3. Mesaki, at East side of Kanmon (Shimonoseki) Straits. Position 33° 56′ 24″ N., 131° 03′ 12″ E.

ANCHORAGE: Lat. 34° 03′ N. Long. 132° 51′ E. Depth of water: 15–30 m. Anchorage located about 350 m. off beach. Holding ground good and Port faces Iyo-Nada and located Bungo channel. Current at berth and off shore very strong. During Winter months strong N.W. wind prevails.

RESTRICTIONS: Mooring and unmooring daytime only and to be carried out on flood tide.

MAX. SIZE: See "Tankers".

HEALTH: Closed port. Vessels should obtain pratique at Matsuyama. If Kikuma is first port of call in Japan, customs formalities will be carried out by Imabari Branch Customs Kikuma Port Guard Office.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: Join vessel at sea anchorage, always using tugs line without charge. 2 to 4 tugs are required for berthing, depending on size of vessel. 3 tugs are normally used for unberthing.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

MEDICAL: No advance notice required unless urgent.

TANKERS: *Taiyo Oil Co. Terminal.* 2 tanker berths available.

Berth	*Max. d.w.t.*	*Max. LOA (m.)*	*Max. Safe Draft (m.)*	*Type Cargo & diameter/Number of shore pipes*	*Discharge rate t.p.h.*
Sea-Berth	125,000	280	20	Fuel oil 28 in.×1(12×2)	4,500
				Crude oil 28 in.×1(12×2)	4,500
Dolphin Berth	88,450	237	16	Fuel oil 24 in.×1(12×2)	4,500
				Crude oil 24 in.×1(12×2)	4,500
				Naphtha 12 in.×1	1,000

DENSITY: Anchorage 1015. Berth 1015.

FRESH WATER: Fresh water not available but usually brought by barge from Onomichi (about 6 hours run to Kikuma). Rate of delivery 80 tons to 200 t.p.h. dependent on barge.

FUEL: Can only be supplied by barge from Hanshin and Kanmon area, provided 5 days notice is given. All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from nearest bunker stock ports at maximum 7 days prior notice.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: No consuls. The nearest Consulates in Kobe.

REPAIRS: Only minor repairs.

REPATRIATION: Possible. Nearest Immigration office situated at Matsuyama.

AIRPORT: Nearest Matsuyama and Takamatsu.

TIME: GMT plus 9. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Police 110; Ambulance 119; Fire 119.

TELEPHONES: No facilities for placing telephones on board.

GENERAL: As this port is a closed port, the undermentioned procedures required: In conformity with regulations vessel required to obtain special permission to enter from Shikoku Maritime Bureau.

Customs request vessel call at Kikuma to obtain special permission for entering at preceding port, by paying the charge at the same rate of tonnage dues.

Prior to arrival of a vessel, the above procedures will be undertaken by Agent.

No quarantine available, the nearest quarantine station is located at Matsuyama.

No Immigration office at this port (coming from Matsuyama).

SERVICES: See "Kobe".

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AGENTS: See "Niihama".

KIMITSU (Kisarazu): 35.22 N. 139.52 E.

(See Plan Book)

DOCUMENTS: Arrival

Quarantine service:

Maritime Declaration of Health – WHO form, 1 copy.
Crew List – free form, 1 copy.
Passenger List (if any) – free form, 1 copy.
Vaccination Certificate (smallpox & cholera), presentation.
Derating (Exemption) Certificate, presentation.
List of valid terms of Crew's Vaccination Certificate, presentation.

Immigration service:

Crew List – free form, 1 copy.
Passenger List (if any), – free form, 1 copy.
Seamen's Ledger, presentation.
Passport or Seamen's Book (all of them), presentation.

Customs Inspection:

Ship's Register, presentation.
Last Port Clearance, presentation.
Crew List – free form, 1 or 2 copies.
Passenger List (if any) – free form, 1 copy.
Store List (Japanese Customs form required).
Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan.)
List of ports of call including last foreign port.

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: *Berthing Pilot:* Will become compulsory as of January 1st, 1979 for foreign trade vessels over 10,000 gross tonnage. Application to be made to Yokohama pilot office, via local Agent. Pilot boards on Kisarazu Quarantine station or entrance of approaching passage. Available during daytime only.

Bay Pilot . . . . Uraga & Nakano-SE on entering: Bay Pilot became compulsory in January 1977 for foreign trade vessels over 10,000 gross tonnage. Application required 24 hours prior to entering by Cable to Anjin Yokosuku through Agent or direct. Pilot boarding position located on point 5.0 miles and 161° from Kannon Saki L.H. Available any time, if any notice delay, change must be cabled to Anjin Yokosuka.

On leaving: Application same as On Entering. Pilot boarding on pier or off harbour.

ANCHORAGE: Refer to Japanese Chart No. 1062 (middle part of Tokyo Bay). Kisarazu Quarantine Anchorage boundary:

Point A, 35° 24′ 6″ N. 139° 49′ 30″ E.
Point B, 85° 3,500 m. direction from A.
Point C, 355° 1,500 m. direction from B.
Point D, 265° 3,500 m. direction from C.
Position usually used: 35° 24.5′ N. 139° 50.5′ E.

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port. A vessel may be berthed without a stay at the anchorage if Radio Pratique system used and permission of Chief of Quarantine Office.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically Westbound vessel, to Choshi, and Northbound to Nagasaki Radio respectively.

VHF: Port Radio Station at Yokohama works 24 hours. Channel 16.

TUGS:
6 tug boats belonging to Kimitsu tug boat station.

3,500 h.p.–4,000 h.p.	3 tugs
2,900 h.p.–3,500 h.p.	3 tugs
2,200 h.p.	1 tug

Another 16 tug boats listed belonging to Yokohama tug boat station.

3,500 h.p.–4,000 h.p.	2 tugs
3,000 h.p.–3,500 h.p.	4 tugs
2,500 h.p.–3,000 h.p.	2 tugs
2,000 h.p.–2,500 h.p.	8 tugs

Tug boat's lines used free of charge.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by VHF.

Centre Pier:

No. 1 – 4 Coastal chemical tanker, tug boat basin.
No. 5 Coastal Raw material discharging berth.
No. 6 Discharging berth of iron ore and coal. Max. draft 16.3 m. at high tide. Length of berth 304 m. Capable of 150,000 d.w.t.
No. 7 Discharging berth of iron ore and coal. Max. draft 18 m. at high tide. Length of berth 350 m. Capable for 200,000 d.w.t.
No. 8 Discharging berth of iron ore and coal. Max. draft 18 m. at high tide. Length of berth 422 m. Capable for 270,000 d.w.t.
No. 10 Coastal Limestone carrier berth.
No. 11, 12 Coastal tanker berth.

Centre pier unloader at No. 6 & 7 – 4 units each capacity 1500 t.p.h.
Centre pier unloader at No. 8 – unit capacity 2,500 t.p.h.

West Pier:

No. 1 – 6 Coastal small ships only.
No. 7 Loading berth of steel products. Max. draft 11 m. Length of berth 250 m. Capable for 30,000 d.w.t. Shore crane 1 unit 20 tons 1 unit 30 tons.
No. 8 Loading berth of steel products. Max. draft 11 m. Length of berth 250 m. Capable for 30,000 d.w.t. Shore crane 1 unit 30 tons 1 unit 20 tons.
No. 9 Loading berth of steel products. Max. draft 11 m. Length of berth 285 m. Capable for 30,000 d.w.t. Shore crane 1 unit 30 tons 1 unit 35 tons.
No. 10 Loading berth of steel products. Length of berth 230 m. Max. draft 11 m. Capable for 40,000 d.w.t. Shore crane 2 units each 30 tons.

East Pier:

No. 2 Loading berth of steel pipes. Max. draft 11 m. Length of berth 240 m. Capable of 30,000 d.w.t. Shore crane 3 units on No. 2 & No. 3 berth 30 ton.
No. 3 Loading berth of steel pipes. Max. draft 11 m. Length of berth 240 m. Capable for 30,000 d.w.t.
No. 4 – 13 Coastal ship use only for loading wire rod, angle bar, etc. and discharging materials.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gear not rigged on berthing, stevedores will do same for ship's crew at additional cost.

Average loading rates:	Coils 75 t.p.h.
	Plates 50–60 t.p.h.
	Pipes 40 t.p.h.
	Angle 40 t.p.h.
	Wire rods 15–25 t.p.h.
Average discharging rates:	Coal 700 t.p.h.
	Iron ore 750–800 t.p.h.
	1,500–1,600 t.p.h.
	(2,500 ton unloader)
	Manganese ore 600 t.p.h.
	Iron sand 900 t.p.h.
	Coke 700 t.p.h.

MEDICAL: No advance notice required unless urgent.

TANKERS: Only coastal tankers.

DENSITY: 1021-1025

FRESH WATER: Available from shore line. Rate of delivery 40-50 t.p.h.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at max. 7 days prior notice.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches except steel hatches. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CARGO GEAR: Usually load/unload by shore cranes.

CERTIFICATES: Ship's register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 60 cigarettes to take ashore but no spirits.

CONSULS: None.

REPAIRS: Minor repairs only.

DRYDOCKS: None.

SURVEYORS: Nippon K.K.K., Kimitsu Branch.

REPATRIATION: Possible.

AIRPORT: Narita (Tokyo) International Airport is about 3 hours distant.

TIME: GMT plus 9 hours. No alterations made to clocks during year.

HOLIDAYS: No cargo loaded on January 1st. Cargo discharged on all holidays.

POLICE/AMBULANCE/FIRE: Kisarazu Police Station tel. 0438–23–4011; Kisarazu Fire Brigade and Fire Station tel. 0438–23–7121.

TELEPHONES: No telephones installation direct to vessels alongside wharf.

SERVICES: Provisions, Laundry, Ships store, Garbage, Hold cleaning, Navigation aids. Special service are called from Yokohama and Tokyo.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

GENERAL: Notification to Maritime Safety Agency:

According to Maritime Traffic Safety Law, The Master of large vessel (over 200 m. in LOA and 10,000 gross tons) is required to give to Regional Maritime Safety Agency an advance report of estimated time passing the traffic route and other matters and also requires to obey the instruction given by the Agencies.

Notification cable definitely to be given by 1200 hrs. (JST) on the day prior to entering, directly from Master or through local Agent. Any change in reported matters, to be reported 3 hours before the time of entering by radio communication or telephone.

Seaweed cultivation to be carried out in the vicinity of Nippon Steel Corporation Kimitsu Works so Master's co-operation with regards to the following items would be appreciated.

1. The discharge of oil or oily waste into the water is strictly prohibited by Marine Pollution Law and other related ordinance.
2. Proceeding to the cultivation area is prohibited.
3. Numerous buoys each exhibiting flashing yellow light have been established to mark the outer side-line of the seaweed cultivation area.
4. Bunkering possible daytime only (sunrise to 1 hour before sunset) in the port of Kimitsu.

AGENT: Sub-agents of Dodwell & Co. Ltd. Toyko. Chiba Kaiun Sangyo Co. Ltd., Kimitsu Office, c/o Kaiun Centre Kimitsu Works of Nippon Steel Corporation, No. 1, Kimitsu, Kimitsu-shi, Chiba-ken. Tel. Kimitsu (04395) 2-0800. Telegraphic "Chibamarine Kisarazu".

KINUURA: 34.50 N. 136.56 E. (See Plan Book)

DOCUMENTS:

- Ship's Register.
- Last Port Clearance.
- 3 Crew Lists including Passport Nos.
- 3 Passenger Lists.
- 1 Store List.
- 1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: When Pilot required, cable Agent at least 1 day before arrival with ETA. Pilot station located 34° 40′ N. 136° 58′ E. If ETA changes cable "Handakoun Handa Aichi" who pass messages to Pilot. Vessels anchor to await Pilot at above position. No VHF communication available. Pilot boats have no communication system.

ANCHORAGE: Kinuura anchorage located 34° 49′ N. 136° 57′ E. Depth of anchorage: Outside high tide bank about 38-39 ft., inside high tide bank about 32-33 ft.

RESTRICTIONS: Entry restricted only by draft; no other restrictions.

Channel Depths:

Channel	*Depth (m.)*
Entrance channel	9.0–12.0
Taketoyo channel	4.5
Sekitan channel	7.5 (Access to Wharf 10.0 m.)
Nishifuto channel	5.5
Handa channel	3.5
Shinkawa channel	4.5
Takahawa channel	4.5
Minami channel	4.0

MAX. SIZE: Depth at Chubu Nihon Grain Centre, 12 m. At other berths, 10 m.

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel, to Choshi and North bound to Nagasaki Radio respectively.

TUGS: No tug required when vessels enter anchorage, only alongside wharves.

Pilot Boats – "Yahagi Maru" 1,600 h.p., "Shiomi Maru" 1,300 h.p. Tugs standby near wharves.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hrs. 50% additional of basic stevedorage; 2100–0500 hrs. next morning 130% additional; Sundays/holidays 60% additional.

MEDICAL: No advance notice required unless urgent.

DENSITY: About 1023–1027.

FRESH WATER: Available, but only 1 water barge – capacity 50 tons. When vessels alongside Public Wharves, water can be taken from shore. Delivery rate: 50 t.p.h. but if more than 50 tons required barge returns to shore to load, therefore 1 trip takes about 3 hours.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.
CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.
CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.
CONSULS: None.
REPAIRS: None.
AIRPORT: None.
TIME: GMT plus 9 hrs. No alterations made to clocks during year.
HOLIDAYS: 20th July.
POLICE/AMBULANCE/FIRE: Police 110; Ambulance/Fire 109.
TELEPHONES: No telephones available to place on board.
SERVICES: None.
SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.
AUTHORITY: Kinuura Port Office.

KIN WAN (Okinawa): 26.22 N. 127.58 E.

(See Plan Book)

Kin Wan Port Services Company, Heianza Island.
DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists, including Passport Nos.
3 Passenger Lists.
1 Stores List.
1 Declaration of crew baggage, i.e. tobacco, wines/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest, Cargo Manifest in Transit using specific forms. Therefore ship's Agents should be provided with necessary information about details of cargoes in advance.
APPROACHES: For those vessels which may not be provided with a large-scale chart the following suggestions are given as a guide to approaching the pilot station:

Vessels should make for the position 26° 26′ N., 128° 04′ E. (off the East coast of Okinawa) and from there should steer due West, passing No. 1 Buoy (fl. 4 sec., Ra. Refl.) abeam to port, distant about 1.25 miles. The Berthing Master will board VLCC's (150,000 d.w.t. plus) or any vessel which is a stranger to the port, when they are abeam of the buoy, but if circumstances should prevent this the vessel should continue on the Westerly course for a mile past the buoy and then alter course to 233 (T). About 3.25 miles on this new course brings the vessel approximately to the inner pilot station in 26° 24′ N., 127° 58′ E.

For the purpose of Traffic Separation and Control, the approach to Kin Wan Port is divided by a centre line joining the following positions:
1. 26° 26′ 00″ N., 128° 02′ 00″ E.
2. 26° 25′ 20″ N., 128° 00′ 00″ E.
3. 26° 23′ 30″ N., 127° 58′ 00″ E.

Vessels entering or leaving the port should keep to their own starboard side of this line.
PILOTAGE: Also see "Approaches".

Berthing Masters will normally board from a tug having a blue hull and cream upperworks, with a tall lattice mast bearing a number (1, 2, 3 or 4). Since the tugs have a fairly high freeboard, pilot ladders should be rigged with the bottom step about 6 ft. (2 m.) above the water-level, otherwise the lower steps may be crushed or damaged. Vessels with a freeboard exceeding 30 ft. are requested to rig the pilot ladder in conjunction with an accommodation ladder in the approved manner.

Masters of calling vessels are reminded of their obligation to comply with statutory rules and are requested to comply with International recommendations concerning pilot ladders. If the ladder is not safe, the Berthing Master may refuse to board and thus cause unnecessary delay to the ship.
ANCHORAGES: Recommended anchorages:
For mammoths in order of arrival:
M1: Lat. 26° 24′ 09″ N. Long. 127° 57′ 41″ E.
M2: Lat. 26° 24′ 49″ N. Long. 127° 58′ 15″ E.
M3: Lat. 26° 25′ 29″ N. Long. 127° 58′ 40″ E.
M4: Lat. 26° 26′ 08″ N. Long. 127° 59′ 05″ E.
(Subject Japanese Coastguard M.S.A. approval is obtained by Agent.)
For vessels 50,000 d.w.t.–150,000 d.w.t.
S1: Lat. 26° 23′ 38″ N. Long. 127° 57′ 29″ E.
S2: Lat. 26° 23′ 14″ N. Long. 127° 57′ 14″ E.
S3: Lat. 26° 22′ 50″ N. Long. 127° 56′ 59″ E.
Products anchorage: The area bounded by a line joining the following positions:
1. 26° 22′ 00″ N. 127° 56′ 29″ E.
2. 26° 22′ 13″ N. 127° 56′ 33″ E.
3. 26° 22′ 00″ N. 127° 57′ 19″ E.
4. 26° 21′ 51″ N. 127° 57′ 05″ E.

The holding ground is good in anchorages, but depths in the first groups between 22 and 25 fathoms; it is therefore recommended that at least 1 shackle of chain be walked back on the windlass before letting go the anchor.

Depths in the product anchorage vary between 10 and 14 fathoms.

Prohibited Anchorage: Owing to the existence of underwater pipe-lines, telephone cables and obstructions, anchoring is prohibited anywhere S.E. of a line joining the following 2 positions:
1. 26° 22′ 31″ N., 127° 58′ 08″ E. (i.e. the N.E. dolphin of the Sea Island)
2. 26° 21′ 37″ N., 127° 56′ 44″ E. (i.e. the N.E. dolphin of No. 3 berth on the Products Pier)

For berthing, Masters of vessels are requested to have the propeller submerged and vessel in a reasonable trim for ship-handling purposes (not exceeding 3.5 m.).
RESTRICTIONS: Berthing and sailing operations take place 24 hours a day with the exception that vessels do not berth on Nos. 4 and 5 between sunset and sunrise. However, the island of Okinawa recently reverted to Japanese control and it is possible that movements after sunset may be restricted in the future, especially if the anticipated increase in traffic takes place.

There are no specific restrictions on draft, but in order to ensure safe handling characteristics it is recommended that vessels arriving in ballast arrange that the propeller is fully submerged, with a stern trim not exceeding about 10 ft. Vessels which do not meet this requirement may be delayed in berthing until additional ballast has been run in.
MAX. SIZE: 5 berths are available for calling tankers. No. 1 berth can accommodate vessels up to 500,000 d.w.t., and No. 2 berth vessels up to 150,000 d.w.t. These 2 berths are situated at the offshore platform. Berths No. 3, No. 4, No. 5 are situated at the product dock. (Also see "Berthing").

Berth No.	*Max. d.w.t.*	*Least depth of water below datum*	*Remarks*
Sea Berth 1	500,000	102 ft.	
,, ,, 2	150,000	90 ft.	
Prod. Pier 3	60,000	50 ft.	Max. dist. stern to
,, ,, 4	20,000	36 ft.	manifold 320 ft.
,, ,, 5	10,000	30 ft.	

In addition to the above tanker berths a dry-cargo berth is also available. This berth is 110 m. in length and has a least depth of 22 ft. below Okinawa Datum.
HEALTH: At first port of call in Japan, vessel may obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset, and Captain to show all Vaccination Cards and Derating Exemption Certificate. In case vessel arrives from cholera-infected zone within 10 days, Captain must advise crew and passengers' health condition to Quarantine Officer through ship's Agent prior to arrival, and close all soil pipes before entering port.

No person other than port health and customs officer is allowed to board or disembark from a vessel until clearance has been obtained from Government Authorities.

Radio pratique is available to vessels in possession of valid certificates issued by the Japanese Government. For radio pratique procedures Owners are advised to consult with their Agents for details.
RADIO: When on route to the Kin Wan Port at Okinawa a vessel's ETA must be communicated to his Agent, 72, 48 and 24 hours prior to arrival. If VHF is not available arrival information can also be passed to your Agent by "Ship Telephone Service". Naha: 098854–5155.

It is important that ETA's are confirmed 12 hours before expected arrivals and amendments communicated when known.

VHF station "Kin Wan Tug" located on Heianza Island keeps a 24 hour listening watch on Channel 16 (156.800 mc/s) and Channel 13 (156.650 mc/s). Tel. 098967-8131 is also manned 24 hours per day.
RADAR: The port is not equipped with radar. Poor visibility may occur in heavy rain, but fog is rare. Coastlines and buoys within the bay give good echo returns on ship's radar. All tugs are fitted with radar, and on occasions vessels have been guided into the port by them in heavy rainstorms, the tug keeping close alongside within sight of the bridge, and communicating by VHF.
TUGS: 4 tugboats are stationed at the Terminal. The Berthing Master in consultation with the Master will decide the number of tugs required for each berthing operation and as stand-by tugs during the vessel's stay in port.

Vessels are berthed with the assistance of up to 4 tugs according to the vessel's size and weather conditions. Such tugs will either secure alongside, "American style", or will secure forward or aft by their towing hooks. Tugs' lines are always used. The tugs are of 2,400 h.p. and have twin C.P. propellers with independent Kort-nozzle rudders, and are manned by highly skilled crews. It should be noted that the port charges for vessels are a fixed amount based on deadweight tonnage, and this charge is not affected by the number of tugs used or not used. Masters may thus follow the Berthing Master's recommendations regarding tug requirements without having to consider what may well be dangerous economies.
READINESS: A vessel is "arrived" for notice of readiness purposes, when the Berthing Master boards or, if vessel proceeds to anchorage without a Berthing Master, when she drops her anchor.
BERTHING: In normal circumstances no lines are run out until the vessel is alongside the berth and in position. Tugs will hold her there whilst the mooring takes place, springs usually being run first, followed by breastlines, then head-and stern-lines. On the larger

berths all lines except springs are lowered to the water and taken to the dolphins by line-handling boats, where they are secured to quick-release hooks. Nothing is required in the way of pennants, tails or shackles. Springs are passed direct to the dolphins by heaving-lines.

Owing to the depth of water, anchors are not normally used when berthing at the sea-berth. However, the outboard anchor should in all cases be ready for emergency use.

Weather permitting, vessels secure starboard side alongside at No. 3 Berth. At Nos. 4 and 5 vessels can only berth starboard side to the pier, owing to the construction of the berths. Therefore if wind conditions do not permit of berthing in this way, the berthing will be delayed until the wind is suitable. At the sea-berth, mammoth vessels normally berth port side to the pier, but this is only to reduce the time taken for the operation, and they can be berthed starboard side to if conditions require it. Smaller vessels are berthed either way according to requirements and conditions.

The Marine Office is equipped with a Weather Facsimile Recorder, and Masters can obtain the latest information regarding possible storm conditions by contacting the Harbour Master on VHF Channel 14 or by calling 214 on the internal telephone system from the berths. When typhoons are imminent all cargo operations cease and vessels are required to vacate the berths and are recommended to proceed to sea.

Berth No. 1

Owners: Okinawa Terminal Company Ltd.

Position: 26° 22′ 25″ N., 127° 58′ 01″ E.

Depth: 30 m. (MLWS).

Max. Size: 385 m. LOA, 55 m. beam, 28 m. draft. 500,000 d.w.t.

Services: Fuel oil (bunkers), loading rate 2,800 kl/h, chicksan used. Fresh water available.

Loading Rates: Bunkers/HFO 3,000 kl/h, product 2,000 kl/h. All other products 4,000 kl/h. Max. pressure 250 p.s.i.

Berth No. 2

Owners: Okinawa Terminal Company Ltd.

Position: 26° 22′ 25″ N., 127° 58′ 01″ E.

Depth: 30 m. (MLWS).

Max. Size: 315 m. LOA, 45 m. beam, 20 m. draft.

Services: See Berth No. 1.

Loading Rates: See Berth No. 1.

Berth No. 3

Owners: Okinawa Sekiyu Seisei K.K.

Position: 26° 21′ 34″ N., 127° 56′ 40″ E.

Depth: 15.5 m. (MLWS).

Max. Size: 240 m. LOA, 35 m. beam, 13.5 m. draft.

Services: Fuel oil (bunkers) available, 70 kl/h. 6 in. hoses used. Fresh water available.

Loading Rates: Aviation, JP4 and Naphtha, 500 kl/h × 2 low sulphur FO 1,000 kl/h × 3. Fuel oil and diesel 1,000 kl/h. Max. pressure 15 kg/sq. cm.

Vessels normally berth starboard side to.

Berth No. 4

Owners: Okinawa Sekiyu Seisei K.K.

Position: 26° 21′ 29″ N., 127° 56′ 48″ E.

Depth: 11.5 m. (MLWS).

Max. Size: 175 m. LOA, 22 m. beam, 10 m. draft limiting condition 90 m. stern to manifold.

Services: Fuel oil available, rate 70 kl/h. Chicksan used. Fresh water available.

Loading Rates: Aviation, JP4, JP1, kerosene 500 kl/h × 2. Low sulphur F.O. 600 kl/h. diesel 1,000 kl/h, fuel oil "A" 1,000 kl/h. Maximum pressure 15 kg/sq. cm.

Vessels berth starboard side to.

Berth No. 5

Owners: Okinawa Sekiyu Seisei K.K.

Position: 26° 21′ 28″ N., 127° 56′ 58″ E.

Depth: 10 m. (MLWS).

Max. Size: 110 m. LOA, 17 m. beam, 8.5 m. draft limiting condition 10,000 d.w.t.

Services: Fuel oil, 6 in. hose, 70 kl/h diesel, 6 in. hose, 700 kl/h.

Loading Rates: JP4, JP1, kerosene, diesel and fuel oil "A" 700 kl/h. Max. pressure 20 kg/sq. cm. sulphur, 120 kl/h, max. pressure 15 kg/sq. cm. low sulphur fuel, 600 kl/h max. pressure 20 kg/sq. cm. LPG 200 kl/h max. pressure 27 kg/sq. cm.

Vessels berth port side to.

LOADING: Loading lines at the berths are as follows: (*Note:* Hoses are listed from N.E. to S.W.)

During cargo transfer or ballast operation all vessels shall show signal flag "B" during the day, and a red light during the night.

Transfer operation shall not be started, or if started shall be discontinued by either the duty officer of the vessel or the Terminal supervisor, when any of the following conditions come to his attention:

(*a*) During severe electrical storms.

(*b*) If a fire occurs on the pier or on the vessel.

(*c*) If there is not sufficient competent personnel aboard the vessel or on the pier to safely handle cargo operation in progress.

(*d*) Should any condition develop which represents a hazard to the vessel or Terminal installation.

MEDICAL: Agents should be given advance notice of medical or dental attention required. Clinic and hospital facilities are available, and in emergencies helicopter evacuation is possible. There is also a Company ambulance on Heianza Island, for emergencies only. Telephone 319. If no answer, or at night, telephone 300. Or contact C.C.D. (Central Control Desk) on VHF Channel 16 or telephone 211.

DENSITY: The bay is open to the sea, and normal density is 1025.

FRESH WATER: Available.

FUEL: Heavy fuel is available at Nos. 1 and 2 Berths. All grades of bunkers are available at Nos. 3, 4 and 5.

CONSULS: At present the only Consulates on Okinawa are those of U.S.A. and Taiwan and Philippines.

REPAIRS: Only minor repair facilities are available in Kin Wan, for such small components as can be sent ashore, e.g. repairing of valves or piping, re-winding of electric motors.

DRY DOCKS: None.

GANGWAY/DECK WATCHMEN: Shore gangways are fitted at Nos. 1, 2 and 3, and are supplied free of charge. Ship's gangways must be provided at Nos. 4 and 5. Watchmen are not required since access to the berths is controlled by the Company's security guards at the installation gates.

REPATRIATION: Crew changes and/or repatriation can be arranged by the Agent.

AIRPORT: Kin Wan Port is about 2 hours by car from Naha airport (depending on traffic conditions) from where there are frequent services by several major airlines to all parts of the world via Tokyo, Honolulu, Taipeh or Hong Kong.

TIME: Local time is 9 hours ahead of GMT, unchanged throughout the year.

HOLIDAYS: Local holidays do not normally affect operations in the port. Bank Holidays are now basically the same as those in other Japanese ports.

POLICE/AMBULANCE/FIRE: Ambulance 319 or 300 after hours or 211 (C.C.D.) or VHF 16; Fire 319 or 300 after hours or 211 (C.C.D.) or VHF 16; Police inform C.C.D. by VHF Ch. 16 or tel. 211, or Harbour Master tel. 214.

TELEPHONES: Telephones are not placed on board, but for urgent ship's business arrangements can be made for calls to be placed through the Company switchboard.

SERVICES: Tank-cleaning alongside is prohibited, but facilities for discharge of tank washings are available. See "Pollution Control".

SHORE LEAVE: For reason of safety the Terminal and the Off-Shore Platform are restricted areas. However, ship's personnel and visitors to ships are permitted to disembark and embark via the dolphins, which are also the personnel landing areas. Loitering at the loading platform will not be permitted.

Unauthorized or apparently intoxicated or disorderly persons shall be prohibited from entering the pier and the Terminal.

Shore passes will be issued by the Agent. These passes must be surrendered to the Agent prior to the ship's departure, unless the vessel is bound for another port in Japan when they can, after stamping, be used in the second port. The pass is sufficient, and no other means of identification need be carried when ashore.

POLLUTION CONTROL: Gas-freeing is not allowed on tankships alongside the pier.

To minimise the chances of pollution *all* ballast, whether clean or dirty, *must* be discharged ashore, except that which is contained in independent "permanent" ballast tanks. Also all ballast loaded into cargo tanks must be taken from ashore, and not from the Bay. The shore ballast tank has a capacity of 550,000 barrels and is connected to all tanker berths.

Caution: The sea berth is surrounded by a new type of sink/float oil fence to contain any oil that may be spilled on the sea. This fence is moored in place by 36 anchors and ropes. Vessels are therefore warned against approaching this fence or using any anchors in the vicinity of the sea berth. Nor should they throw overboard any old wires, ropes or other rubbish which may foul or damage the fence or its moorings.

The Terminal will, in case of an oil spill, take such steps as may be deemed necessary to fight the pollution before it spreads. If the spill is due to faulty equipment or materials on the vessel or to negligency on the part of ship's personnel, the Terminal shall be indemnified for any expenses incurred in connection with the preventive action taken.

No ballast is to be taken from the Bay unless required for the ship's clean permanent ballast system. Ballast for cargo tanks will be supplied by the Terminal.

FIRE PRECAUTIONS: Smoking and use of naked lights is strictly prohibited on board vessels alongside the berths, except in those enclosed spaces aboard ship specifically designated by the Master as "Smoking Areas".

Fire wires of steel must be hanging over the side of the offside bow and quarter whilst alongside to enable tugs to connect readily in an emergency situation. The towing eyes should be maintained at water level.

Boiler tubes must not be blown whilst vessel is alongside and every precaution must be taken to prevent sparks and soot particles escaping from the funnel.

Mooring of boats or craft with mechanical propulsion alongside a vessel loading/discharging crude oil or in the process of ballasting, is not allowed, unless special permission has been given by the Terminal.

In case of a fire aboard a vessel alongside the pier the following sequence of procedure should be adhered to:

(a) "Kin Wan Tug" to be informed immediately.

(b) All cargo operations to cease forthwith.

(c) MOV's and gate valves on loading arms, nitrogen and battery limit valves to be closed as soon as possible.

(d) Dock personnel to stand-by for disconnecting loading arms, unberthing or fire-fighting in accordance with instructions issued by the Berthing Master or "Kin Wan Tug".

During an emergency situation on board a vessel alongside, the Berthing Master will be in charge of organising the preliminary fire-fighting assisted by "Kin Wan Tug". He is to make use of all available means at his disposal, such as tugboats, launches, personnel, terminal equipment and other facilities to assist the vessel and protect lives and Terminal installations. Should the Berthing Master be unavailable or unable to communicate, "Kin Wan Tug" will direct the preliminary fire-fighting.

Kin Bay area comes under the jurisdiction of the 11th District of the Japanese Coastguard and lies in Kin Nakagusuku Port. The telephone number of the Captain of the Port-Coastguard offices, 11th District is 098892-4874.

AUTHORITY: Maritime Safety Agency, 11th Maritime District.

AGENT: Connell Bros. Co. Ltd., PO Box 57, Naha, Okinawa. Tel. 098863-3991/4. Cables: Seabsea, Okinawa. Telex: Connell J. 79822.

KOBE: 34.40 N. 135.12 E. (See Plan Book)

DOCUMENTS:

Ship's Register.

Last Port Clearance.

1 Store List.

1 Declaration of Crew's Baggage.

4 Crew Lists.

4 Passenger Lists (if any).

Ship's Agents will prepare other documents such as Inward/Outward Declaration, Cargo Manifest, etc., using Japanese Custom's Forms.

PILOTAGE: *Tomogashima Channel Pilot (not compulsory):* Pilot boards 5–7 miles South of Tomogashima (approximately 34° 10′ N., 135° 00′ E.). Cable address: "Baypilot Kobe". If Bay pilot is required, please inform them 24 hours prior to vessel's arrival at Tomogashima Pilot Station.

Harbour Pilot: Pilot boards at quarantine anchorage at Wada-Misaki Point. Cable address: "Pilot Kobe". 24 hours prior notice is required. When vessel moors to buoy, chain cable should be prepared.

ANCHORAGES: Quarantine anchorage: Latitude 34° 38′ N; 34° 38.6′ N. Longitude 135° 10′ E; 135° 11′ E.

All vessels requiring anchorage for awaiting berth, repairs, bunkering etc., must obtain anchoring position from Harbour Master.

RESTRICTIONS: Quarantine officials are available during daylight hours. Berthing is not permitted after 2130 hrs.

MAX. SIZE:

Name of Berth	*Max. LOA (m.)*	*Max. Safe Draft (m.)*	*Depth at Berth (m.)*
Showa Sangyo	213	10.35	12.60
Tomen Silo	223	10.35	12.40
Zenno Silo	223	10.35	12.20
Kohnan Silo	245	10.71	12.20
Hanshin Silo	210	10.26	11.60

Also see "Tankers".

HEALTH: Quarantine officials board vessel from daylight to sunset at Quarantine Anchorage.

Radio pratique is available. Vessels must be in possession of a valid Japanese Sanitary Inspection Certificate.

Documents required: Deratting Exemption Certificate, Crew List, Passenger List, Maritime Declaration of Health and Vaccination Cards.

RADIO: Recommend Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West-bound vessel to Choshi, and North-bound to Nagasaki Radios respectively.

Kobe-Radio details.

	Security and Port message	*Port message*	*Public message*
Call sign	JGD	Kobe Port Radio	JCK
Name of Station	Coast Station or Special Service Station	Kobe Port Radio	Kobe Radio
Station Owner	5th Regional Maritime Safety Headquarters	Kobe Municipality (its Port & Telegraph Harbour Bureau)	Kobe Central Office
Frequency	444 kc/s. 500 kc/s. 500 kc/s. 512 kc/s. International VHF Channels 12, 16	International VHF Channels 16, 12, 11, 18, 20. 24-hour service.	134.9 kc. 143 kc. 416.5 kc. 487.5 kc. 500 kc. 512 kc. 425 kc.

TUGS: Join vessel at entrance of fairway. Tug's lines used without extra charge.

BERTHING: Chains must be used in mooring to a buoy. Ship must not drop anchor near a buoy when it is moored to one. Ship brought head in alongside pier except in special cases. Some berths impossible to reach after sunset. Example: dolphin berths. This is why ships need to arrive outside breakwater before sunset.

See Tables pages 529 and 530.

BULK HANDLING FACILITIES: Hanshin Silo Company Berth, 11.60 m. depth alongside available for vessels up to 50,000 tons d.w.t. Discharge effected by 2 pneumatic unloaders with capacity 400 t.p.h. per unit.

Kobe Silo Berth, length 752 ft., depth alongside 41 ft. 2 mobile discharging units each with capacity of 500 t.p.h.

Kohan Silo Berth, length 214 m., depth alongside 12.2 m. equipped with 2 discharging units which can be used for grain, sugar, or general cargo, also 1 pnuematic unloader, with capacity 1,500 t.p.h. per unit.

In the current development programme a total of 7 container berths are to be provided at Kobe.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores.

MEDICAL: No advance notice required unless urgent. Hospital facilities available.

FIRE PRECAUTIONS: LPG tankers instructed by Maritime Safety Headquarters to strictly observe safety rules. Example: checking on what is carried by those who go aboard; banning ship's stores to be loaded on to ship which is working.

DEVELOPMENTS: Rokko Island is now under construction to the East of Port Island and expected to complete in 1985. The Port Island is to be completed in 1980.

WATCHMEN: Available but not compulsory.

OPENING/CLOSING HATCHES: By Stevedores or crew, ship's option.

CERTIFICATES: Ship's Register to show Customs Inspector for registered gross and nett tonnage. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance appears to be poor.

CUSTOMS ALLOWANCES: Tobacco (per passenger or crew member). Temporary shore-leave up to 50 cigarettes (duty free); Disembarkation up to 200 cigarettes (duty free). Maximum allowable (only in case of disembarkation) up to 800 cigarettes duty free (however, 600 cigarettes – taxable).

Wines and/or Spirits: Crew member: When the ship at sea for more than 1 month, up to 6 bottles (1 bottle – duty free); less than 1 month up to 6 bottles (no duty free). Passengers: When a passenger travels for less than a fortnight up to 12 bottles (1 bottle – duty free); more than a fortnight up to 12 bottles (up to 3 bottles – duty free).

CONSULS: The following countries are represented by Consuls in Kobe and Osaka area:

Argentina
Australia
Austria
Belgium
Bolivia
Brazil
Central African Rep.
Chad
Chile
Costa Rica
Denmark
El Salvador
Finland
France

TANKERS:

The Port Island receives bunker oil from tankers into the terminal and delivers Intermediate 15 and MDO by pipe-line to vessels moored at Kobe Port Island. This berth is equipped with loading arms and utilises a boom completely surrounding the discharging tanker to prevent the spread of any oil spill.

Storage facilities consist of 3 tanks of 36,000 kl (226 mb) for Intermediate 15 and 2 tanks of 5,000 kl (31 mb) for MDO.

Pumping facilities consist of 3 pumps of 700 kl/hour (4,400 b.p.h.) capacity for Intermediate 15 and 2 pumps of 200 kl/hour (1,258 b.p.h.) capacity for MDO.

Special features include an automatic control system from a central control board, remote valve operation, remote tank gauges, communication equipment at each bunkering berth, flow meters for all deliveries, a chemical fire engine, a crane and a lorry for recovery of waste oil.

The terminal is open between 0900 and 1700 hrs. and availability at other times involves overtime.

(Tankers)

Name of Berth	*Max. d.w.t. (approx.)*	*Max. LOA*	*Max. safe Draft*	*Mooring–Pipeline–discharging rate*
Shell. Bunkers ex-barge only. No slop discharge facilities.	70,000	250 m.	12.6 m.	To 4 buoys. 1×24″, 1×12″ for F.O., D.O. Minas/Seria Waxy Residue. Average discharge rate (1 Pipe) 1,000 t.p.h. Max. (2 Pipe) 3,000 t.p.h. (mooring possible when tide runs towards West)
MKS. Bunkers ex-barge only.	40,000	234 m. (breadth 33 m).	11.20 m.	To 3 buoys. 2×16″ for F.O. and D.O. Average discharge rate 1,000 t.p.h. Max. 1,300 t.p.h. (mooring possible when tide runs towards West)
Mitsubishi Shoji (for L.P.G. tankers). Bunkers available ex-wharf; ex-barge at anchorage. No slop discharge facilities.	45,000	240 m.	10.35 m.	Alongside Pier. 2×12″ for F.O. and 1×12″ for D.O. Average discharge 800 t.p.h. per pipe. Max. 2,000 t.p.h.
Port Island Oil Berth	70,000	240 m.	10.98 m.	2×16″ for Fuel oil. Average discharge rate 2,000 t.p.h. Max. 3,500 t.p.h.

TIDE: Mean height of tide 1.030 m. Some of tanker berths in West part of port affected by tide. Currents less than 1 knot inside harbour.

DENSITY: Winter: 1023–1026. Summer: 1018–1022.

FRESH WATER: Supplied from the quays at rates of 40 to 50 cu. m. per hour. Three water barges available, largest with capacity 325 cu. m., can supply vessels at rates up to 300 cu. m. per hour.

Possible to supply fresh water at anchorage weather permitting. 24 hours prior notice is required.

FUEL: All grades are obtainable from major oil companies and supplied by barge.

DRY DOCKS:

Owner	*Name*	*Overall length* m.	*Width* m.	*Depth* m.	*Remarks*

SURVEYORS: Lloyds Register, Germanischer Lloyd, American Bureau of Shipping, Bureau Veritas, Norske Veritas, Nippon Kaiji Kyokai.

REPATRIATION: Possible.

AIRPORT: Osaka International Airport. Distance from Airport about 1 hour by car.

Domestic: Following regular airlines, Japan Air Lines, All Nippon Air Lines, Nihon Kokunai Koku, Toa Koku.

International: For Far East: Japan Air Lines 31 flights per a week, Thai International Air Lines 10 flights per a week, Cathay Pacific Air Lines 8 flights per a week, China Air Lines 11 flights per a week, Korean Air Lines 12 flights per a week, North-West Air Lines 7 flights per a week.

For Europe: Lufthansa 1 flight per week, British Airways 3 flights per week, Air France 2 flights per week.

For United States: Japan Air Lines 12 flights per week, Pan American 3 flights per week.

TIME: GMT plus 9 hours. No alteration to clocks throughout year.

HOLIDAYS: 1st January (New Year's Day); 15th January (Coming-of-Age Day); 11th February (National Founding Day); 21st March (Spring Equinox Day); 29th April (The Emperor's Birthday); 3rd May (The Constitution Day); 5th May (Children's Day); 15th September (Respect for the Aged Day); 23rd September (Autumn Equinox Day); 10th October (Health Sports Day); 3rd November (Culture Day); 23rd November (Labour Thanksgiving Day).

POLICE/AMBULANCE/FIRE: *Police* 110 Water Police Station tel. 33–2351, 33–2354, Ikuta Police Station 33–0044, Fukiai Police Station 23–4441, Hyogo Police Station 55–0051.

Ambulance: 119 Ikuta Fire Department 39–4994.

Fire: 119 Water Fire Department 33–9951, Ikuta Fire Department 33–4994, Fukiai Fire Department 29–0401, Hyogo Fire Department 56–6141.

TELEPHONES: Possible to place telephone on board.

SERVICES: Compass adjusting, radio/radar services, etc.

GENERAL: When typhoon approaching, Port captain requires ships to proceed outside breakwater.

SHORE LEAVE: Crew members free to go ashore with landing passes issued by Immigration Authorities.

DELAYS: 1. Weather condition (where strong wind prevents ships entering port). 2. Tide (berths in West part of port). 3. Berths where no ships permitted berth alongside at night. 4. Where a quarantine officer or Pilot being awaited. 5. Shortage of gangs, weather.

AUTHORITY: Port and Harbour Bureau.

AGENT: Dodwell Tramp Agencies, PO Box 557 Kobe Port, Kobe Meiji Seimei Building 3–7, Isogami-dori 8-chome Fukiai-ku, Kobe. Tel. (078) 251–0021. Telegraphic "Dodtramp Kobe". International Telex J 78826.

KOKURA: 33.54 N. 130.53 E. (See "Kanmon-Ko") (See Plan Book)

Kokura situated between Moji and Tobata. On the East is contiguous to Moji Port, on the West to Tobata Port and on the North it opens to the Kanmon Straits.

DOCUMENTS:

Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Inland Sea Pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to Pilot station. Inland Sea Pilot Association covers all Inland Sea ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from one of three Pilot stations dependent upon vessel's last port of departure and at Master's discretion. Pilotage available throughout 24 hours and 72 hours advance notice preferred, thereafter advising any alterations. Most Inland Sea Pilots also act as harbour Pilots up to berth or anchorage at destination. *Note:* No VHF communication available with Inland Sea Pilot stations. Also see "Shipmasters Report" before first port.

1. Wadamisaki, at entrance to Kobe (vessels transitting Kii Straits) Position 34° 38′ N. 135° 11′ E. Telegraphic address: "Anjin Kobe".

2. Sekisaki, 3 miles South of Sekisaki lighthouse (vessels transitting Bungo Channel). Position 33° 13′ N. 131° 54′ E. Telegraphic address "Anjin Saganoseki". In event bad weather, recommended vessels proceed for shelter as near as possible having due regard to safety, to Sekisaki Pilot station.

3. Hesaki, at East side of Kanmon (Shimoneseki) Straits. Position 33° 56′ 24″ N. 131° 03′ 12″ E.

ANCHORAGE: Anchorage not in use as the area is being dredged for the purpose of navigation fairway.

RESTRICTIONS: Vessel enters port only within 1 hour before and after slack tide in daytime. No night departure.

MAX. SIZE: 18,000 tons gross., 10 m. draft.

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards and Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers' health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically Westbound vessel, to Choshi and Northbound to Nagasaki Radio respectively.

TUGS: See "Moji".

BERTHING:

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gear not rigged on berthing, stevedores will do same for ship's crew. Overtime surcharges 1700–1900 hrs. 50% additional of basic stevedorage; 2100–0500 hrs. next morning 130% additional; Sundays/holidays 60% additional.

(a) Max. 6 gangs are available.
Stevedores, regular employees 116, temporary labourers 109. Longshoremen 459.

(b) Lighters: Kokura Marine Transportation Co., lighters 25, tonnage 8,900 tons.

(c) Shore crane:

No.	*Capacity*		*Location*	*Owners*
2	10 tons		Sunatsu Wharf	Sumitomo Metal
1	6 tons		,,	Kokura Marine
3	12 tons	outreach 18 m.	Sumitomo Metal Wharf	Sumitomo Metal
3	35 tons		Hiagari Wharves Nos. 6 and 7	Shin Nihon Steel Corp.

(d) Floating crane: arrangeable from Moji.

(e) Average performance of loading/discharging:
Discharging: Iron ore 40/50 t.p.h./gang/hatch (by ship's gear). 200 t.p.h./gang/hatch (by shore crane). Coal 40/50 t.p.h./gang/hatch (by ship's gear). 100/150 t.p.h./gang/hatch (by shore cranes). Scrap steel, pressed 20 t.p.h./gang/hatch (by ship's gear). Ordinary 10 t.p.h./gang/hatch (by ship's gear). Bulky 5 t.p.h./gang/hatch (by ship's gear). Loading: Steel under 20 ft. long 25–30 t.p.h./gang/hatch, over 20 ft. long 15–20 t.p.h./gang/hatch.

(f) 2 shifts: 0800 to 1700 hrs. and 1700 to 0700 hrs. Normal working hours: 0800 to 1700 hrs. Refer to Moji for further information.

TANKERS: Also see "Berthing". At Kanematsu-Goshi Oil Refinery 1×8 in. and 1×10 in. diameter shore pipe-line. No slop facilities available.

DENSITY: 1025.

FRESH WATER: From hydrants at Sunatsu and Sumitomo Metal wharves, the rate of delivery per hour: 30 tons per hydrant. Also delivered by barge.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at max. 7 days prior notice.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: See "Moji".

REPAIRS: See "Moji".

AIRPORT: All Nippon Airways, Kitakyushu, about 30 minutes by taxi from Kokura station to airport. Japan Air Lines, Fukuoka, and Cathay Pacific Air Lines. Fukuoka, about 1.5 hours by train and taxi from Kokura station to airport.

TIME: GMT plus 9 hours. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Police 56–7171; Ambulance 119; Fire 92–4831.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

SHIPMASTER'S REPORT: 1975, Vessel discharged iron ore at Sumitomo Metal Industries.

Pilotage: Arriving from East. He Saki: Lat. 33° 56′ 24″ N. Long. 131° 03′ 12″ E. Arriving from West. Mutsure: Lat. 33° 58′ 30″ N. Long. 130° 53′ 00″ E.

Anchorage:

He Saki: Lat. 33° 56.2′ N. Long. 131° 02.9′ E. Depth 11.4 m.

Mutsure: Lat. 34° 00.0′ N. Long. 130° 52.5′ E. Depth 19.0 m.

Departing from He Saki anchorage to arrive to port of destination in Kanmon Straits in Slack Water and only in daylight.

Normally Pilot boarding 1 hour before tide change. Allowable Drafts to transit Kanmon Straits Max. 30 ft. anytime. Max. 32 ft. 10 in. at High Water.

Radio Pratique: Obtained if in possession of valid Sanitary Certificate and all Smallpox Certificates valid. Send cable to Agent with prefix RPM following the standard text.

Docking: Always Starboard side.

Anchor: Port anchor ready for emergency.

Fenders: Prismatic Rubber.

Gangway: Ship's Accomodation ladder.

Discharging Facilities: 3 Cranes – Capacity 180 t.p.h. each.

Departure from Dock: Undocking only in daylight and about 1 hour before slack water. 3 tugs are necessary for turning the vessel in the narrow basin to head out.

Under completion 2 Unloaders Canti-Lever, Bridge type with capacity of 1200 t.p.h. each.

AUTHORITY: Kita Kyushu Port Authority.

AGENT: See "Moji".

KOMATSUSHIMA: 34.00 N. 134.36 E. (See Plan Book)

DOCUMENTS:

Ship's Register.
Last Port Clearance.
6 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 5 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Not compulsory. 3 authorised licensed Pilots available.

ANCHORAGES: Situated at Western corner of Komatsushima Bay and port protected by three breakwaters, North, East and South covering 396,700 sq. m. Depths of water at anchorages as follows: *(a)* Inside breakwater 8–10 m., *(b)* Outside breakwater 8–13 m., *(c)* Wharf 8.50 m.

RESTRICTIONS: Vessels must get permission and instructions where to anchor from Port Captain before arrival. Wharf and Inner harbour: entering and sailing usually only during day-time regardless tide and current. Outer harbour: Entry and sailing anytime.

MAX. SIZE: Anchorage inside breakwater: length no limit, breadth no limit, draft 8.60 m.

Anchorage outside breakwater: length no limit, breadth no limit, draft 8.60 m.

Wharf. (Suitable 10,000 d.w.t.). length 175 m., breadth no limit, depth 9 m.

Shinko Wharf: (Suitable 10,000 d.w.t.) Length 175 m. Draft 8.5 m.

Kanaiso Wharf. (Suitable 10,000 d.w.t.) Length 175 m. Draft 8.5 m.

Kanaiso Wharf. (Suitable 15,000 d.w.t.) Length no limit. Draft 10 m. after dredging.

HEALTH: Pratique to be obtained at Shimotsu prior arrival Komatsushima. At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically Westbound vessel, to Choshi, and Northbound to Nagasaki Radio respectively.

TUGS: Wharf and inner harbour: join vessel at sea anchorage, always using tug's line without charge. Outer harbour: no tug required in normal conditions.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by telegram.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1630–2130 hrs. 60% additional of basic stevedorage; 2130–0500 hrs. next morning special additional; Sundays/holidays 100% additional.

MEDICAL: No advance notice required unless urgent.

DENSITY: 1015.

FRESH WATER: Alongside berth: Can be supplied by shore line with capacity of 25 t.p.h.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock at maximum 7 days prior notice.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: None. Nearest consulates in Osaka.

REPAIRS: Only minor repairs up to 3,000 d.w.t..

DRY DOCKS: No dry dock. Nearest at Hitachi Shipbuilding & Engineering Co. Ltd., Chikko works, Osaka; Kawasaki Heavy Industries Ltd., Kobe and Mitsubishi Heavy-Industries Reorganised Ltd., Kobe Shipyard & Engine Works.

AIRPORT: Nearest airport Tokushima (10 miles North) where TOA Domestic Airlines, 9 flights to Osaka, 1 to Tokyo.

TIME: GMT plus 9 hours. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Police tel. 110; Ambulance 119; Fire 119.

TELEPHONES: No facilities for placing telephones on board.

SERVICES: None.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AUTHORITY: Port Administration Office.

AGENT: See "Niihama".

KUDAMATSU: 34.00 N. 131.52 E.

If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gear not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hrs. 50% additional of basic stevedorage; 2100–0500 hrs. next morning 130% additional; Sundays/holidays 60% additional.

MEDICAL: No advance notice required unless urgent.

TANKERS: At Nippon Oil Refinery 2×10″ shorelines. Indonesian Crude, 6/7000 t.p.h. P. G. Crude, 1,200 t.p.h. and Fuel Oil, 500 t.p.h.

DENSITY: 1025.

FRESH WATER: At anchorage, section II Kudamatsu: water barges available from Tokuama. Rate of delivery 50 t.p.h. At Nippon Oil Refinery and Toyo Kohan Wharf, hydrants are available. Rate of delivery 20 t.p.h.

FUEL: Major oil companies are represented and all grades of marine oil can be delivered, usually by barge.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gears maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: None.

REPAIRS: Small repairs possible.

DRY DOCKS: Kasado Dockyard Co. Ltd.

Dry dock	*Length (m.)*	*Breadth (m.)*	*Depth (m.)*	*Docking capacity (g.t.)*

No. 3	220.00	37.00	11.00	34,497

REPATRIATION: Possible.

AIRPORT: Ube and Hiroshima airports: distance about 2 hours by train, and from Ube to Tokyo 1 flight per day and from Hiroshima 4 flights per day.

TIME: GMT plus 9 hours. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Police 41–0615, emergency 110; Ambulance 41–2840, emergency 119; Fire 41–2840, emergency 119.

TELEPHONES: No arrangements exist for placing telephones on board.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AUTHORITY: Port and Harbour Dept.

AGENT: Sub-agents of Dodwell & Co. Ltd., Sankyu Unyo Kiko K.K., 1379–14 Aza Yamzakiya, Oaza-Nishitoyoi, Kudamatsu-shi. Yamaguchi-Ken. Tel. Kudamatsu (0833) 43–0390. Telegraphic Address "Sankyuunyu Kudamatsu". Telex: 6754–67.

KURE: 34.15 N. 132.32 E.

DOCUMENTS:

Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc., (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Inland Sea pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to Pilot station. Inland Sea Pilot Association covers all Inland Sea Ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from one of three Pilot stations dependent upon vessel's last port of departure and at Master's discretion. Pilotage available throughout 24 hours and 72 hours advance notice preferred, thereafter advising any alterations. Most Inland Sea Pilots also act as Harbour Pilots up to berth or anchorage at destination. *Note:* No VHF communication available with Inland Sea Pilot stations. Also see "Shipmaster's Report" before first port.

1. Wadamisaki, at entrance to Kobe (vessels transitting Kii Straits) Position 34° 38′ N., 135° 11′ E. Telegraphic address "Anjin Kobe".

2. Sekisaki, 3 miles South of Sekisaki lighthouse (vessels transitting Bungo Channel). Position 33° 13′ N., 131° 54′ E. Telegraphic address "Anjin Saganoseki". In event bad weather, recommended vessels proceed for shelter as near as possible having due regard to safety, to Sekisaki Pilot station.

3. Hesaki, at East side of Kanmon (Shimonoseki) Straits. Position 33° 56′ 24″ N., 131° 03′ 12″ E.

ANCHORAGES:	*Minimum Depth*	*Minimum bottom width*	*Density of water*	*Nature of bottom*
Entrance Channel	20 m.	No limit	Summer Av. 1020	
Harbour Channel(s)	20 m.	No limit	Winter Av. 1025	Mud and sand

Depths refer to M.W.L. Difference between datum quoted and chart datum: about 2 m. (to be added) Rise of tide: springs 3.4 m. neaps 2.6 m.

Also Mooring buoys and Harbour Anchorage. (See "Berthing").

HEALTH: Radio pratique available. Vessels usually anchor at the quarantine anchorage where the authorities board and grant free pratique. Quarantine anchorage (approx. 34° 13′ 45″ N., 132° 31′ 00″ E.)

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically Westbound vessel, to Choshi, and Northbound to Nagasaki Radio respectively.

TUGS: Tugs normally join vessel at quarantine anchorage area. Tug's lines free of charge.

BERTHING: Pilots do not agree to berth or unberth outside period from sunrise to sunset. For berthing, at least 1.5 hours advance arrival necessary to reach berth before sunset. Mooring buoys: 3 buoys available in harbour for vessels less than 15,000 d.w.t. Harbour anchorage: 3 anchorages with good ground (mud) and suitable vessels up to 80,000 d.w.t. LOA 300 m.

Name of Berth	*Length (m)*	*Depth (m)*	*Permissible Draft (m)*	*Capacity (d.w.t.)*
Showa Municipal Pier No. 1	150	7.5	7.0×150	15,000
Nisshin Steel Mill No. 3	270	18.0	17.0	150,000

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notifed by the Agent, the orderers must pay for waiting time. If cargo gear not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hrs. 50% additional of basic stevedorage; 2100–0500 hrs. next morning 130% additional; Sundays/holidays 60% additional.

MEDICAL: No advance notice required unless urgent.

TANKERS: No facilities.

FRESH WATER: For domestic and boiler, 330 k/tons per barge (1 barge available, at 3 days notice, from Kure City office), delivering rate about 100 k/t.p.h. (50% additional for overtime, Sundays/holidays and Saturday afternoon also additional to basic rate for outside harbour limit).

FUEL: Most grades of domestic oil are available, bonded bunkers will be brought by barges from Iwakuni, Tokuyama, Moji or Kobe with three days advance notice.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: No consul available, but marine note of protest can be attested by the local notary public.

REPAIRS: All types of deck and engine repairs are possible.

DRY DOCKS: (Ihi-Kure). Dimensions of No. 4 Dry Dock (length 338.3 m., width 43 m., depth 17 m.) – 160,000 d.w.t. No. 3 Dry Dock, for up to 800,000 d.w.t. (length 510 m., width 80 m., depth 13.5 m.).

REPATRIATION: Possible.

AIRPORT: Hiroshima airport, distance approximately 35 km. – 40 km. and about 60–90 minutes by car. Only domestic regular airlines available. 4 flights to Osaka and 6 to Tokyo, daily.

TIME: GMT plus 9. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Police (for emergency) 110; Ambulance 119; Fire 119.

TELEPHONES: No arrangements available for placing telephones aboard.

GENERAL: Kure is a local port which makes it difficult to arrange all requirements. At least 3 days notice helpful.

SERVICES: All navigational apparatus can be serviced as required. Cargo holds cleaning service can also be carried out, but tank-cleaning equipment and services to be arranged from Kobe area, otherwise through IHI Kure Shipyards.

SHORE LEAVE: Local Immigration Offices issue shore pass valiu for 3 days only, but 3 days extension possible if ship stays longer.

AUTHORITY: Port and Harbour Dept.

AGENT: Sub-agents of Dodwell & Co. Tokyo. Naigai Unyu Co. Ltd., 1-7, 1-chome, Naka-dori, Kure-shi, Hiroshima-Ken. Tel. Kure 0823 21-5181/7. Telegraphic "Naigai Kure". Telex: 6623-40.

KUSHIRO: 42.58 N. 144.21 E.

DOCUMENTS: Ship's Register. Last Port Clearance. 3 Crew Lists including Passport Nos. 3 Passenger Lists. 1 Store List. 1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: No telegraphic address. Previous advance notice, minimum 8 hours advance notice ETA and any alterations. Contact Pilot boat through Harbour office/tug boats with wireless telephones. Pilot boat has no radio telephone. Pilot boat waits at Quarantine anchorage (1,000 m. off and 280° from North Breakwater white light), and entrance of Breakwater during Winter period (December–March).

ANCHORAGE: Bottom sand and mud. Min. depth 9 m. in passage and 7.5 m. in anchorage. Depth over 29.5 ft. 162,075 sq. m., Section 2; Depth over 24.5 ft. 690,000 sq. m., Section 2 and 3; Depth under 24.5 ft. 393,600 sq. m., Section 3. Tidal range, average high-tide plus 1.533 m., average low-tide plus 0.154 m., average tidal difference plus 0.953 m.

RESTRICTIONS: Vessel allowed enter and sail day and night. Pilot assistance officially not compulsory but in practice necessary, and Pilot service available sunrise to sunset for entry and up to 2200 hrs. for sailing.

MAX. SIZE: See "Berthing".

HEALTH: Radio pratique available. Formalities will be carried out at the anchorage. Quarantine station 1,200 m. – 293° off Kushiro breakwater Red Lighthouse.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically Westbound vessel, to Choshi, and Northbound to Nagasaki Radio respectively.

TUGS: Usually join vessel at entrance of breakwater and ship's lines to be used.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio. All berths limited by depth in entrance channel.

ANCHORAGE: The port faces Iyo-Nada and located near Bungo Straits. Entrance open to Iyo-Nada towards West, but port protected by West breakwater and small island off Northern part of approaches where holding ground good. During Winter months strong N.W. wind prevails causing heavy swell at anchorage. Depth of water 17–25 m.
RESTRICTIONS: *Oil tanker berth.* Vessel drawing less than 12 m. can moor and unmoor at half-flood during daytime but vessels drawing 12 m. or more advised to await high water.

Dry cargo is logs only and cargo working carried out at anchorage of Umaiso and Yura Bay.

Yura Bay. Vessels no longer than 110 m. can berth. Daytime entry only regardless of tide and current.
MAX. SIZE: *Maruzen Oil Co. Ltd., Matsuyama refinery, Genyu Sambashi.* Max. 50,000 d.w.t. Max. LOA, no limit. Max. safe draft 12.00 m.

Umaiso Bays. Length of vessel 160 m.; breadth no limit; draft 15 m.

Yura Bay. Length 110 m.; breadth no limit; draft 10 m.
HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers' health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.
RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically Westbound vessel, to Choshi, and Northbound to Nagasaki Radio respectively.
TUGS: For tankers: join vessel at Quarantine anchorage, using Tug's lines without charge. For dry cargo vessel, no tug required for berthing and unberthing in normal conditions.
BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

General cargo to be loaded/discharged at the following wharves in Matsuyama.

Berth section	*Length*	*Depth*	*Max. size* d.w.t.
Wharf No. 1			
Sect. 1	380 m.	9.5 m.	15,000
Sect. 2	230 m.	5.5 m.	5,000

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hrs. 50% additional of basic stevedorage; 2100–0500 hrs. next morning 130% additional; Sundays/holidays 60% additional.
MEDICAL: No advance notice required unless urgent.
TANKERS: No advance notice of dia. of load/discharge lines required. See "Max. Size"

Manifold: 1×12 in. (Fuel Oil) 600 t.p.h. and 1×12 in. (Crude Oil) 1,500-2,000 t.p.h. Shorelines 18 in. and 20 in. respectively.
DENSITY: Anchorage 1015. Berth 1015.
FRESH WATER: *Maruzen Oil Co. Ltd., Matsuyama Refinery, Genyu Sambashi.* Can be supplied by shore line with capacity 25 t.p.h.

Anchorage: Can be supplied by 60 ton barge with capacity

60 t.p.h. Strong winds prevail during Winter months, when no water can be supplied.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice. Also see "Moji, Fuel".

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless ship's crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: Consulates in Kobe.

REPAIRS: Only minor repairs.

DRY DOCKS: None. Nearest at Kawasaki Heavy Industries Ltd., Sakaide; Hitachi Shipbuilding & Engineering Co. Ltd., Innoshima and Mukaishima, dimensions of those docks as follows:

Kawasaki Heavy Industries Ltd., Sakaide. Dock No. 2 for 500,000 d.w.t. vessel 450 m.×72 m.×12.3 m. Only used presently for shipbuilding and after services.

Hitachi Shipbuilding & Engineering Co. Ltd., Innoshima Dockyard. Dock No. 1 for 20,000 d.w.t. vessel 175 m.×25 m.×25.62 m.×9.10 m. Dock No. 3 for 130,000 d.w.t. vessel 282.50 m.×47 m.×11.33 m.

Hitachi Shipbuilding & Engineering Co. Ltd., Mukaishima Dockyard. Dock No. 1 for 3,000 d.w.t. vessel 86.18 m.×13.60 m.×6.80 m. Dock No. 2 for 8,500 d.w.t. vessel 125 m.×18 m.×7.40 m. Dock No. 3 for 25,000 d.w.t. vessel 175 m.×29 m.×9 m.

REPATRIATION: Possible.

AIRPORT: Domestic airport situated South of harbour. All Nippon Airways flights to Osaka and Tokyo.

TIME: GMT plus 9 hours. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Police 110; Ambulance 119; Fire 119.

TELEPHONES: No facilities for placing telephones on board.

SERVICES: Only at Kobe.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days. 3 days extension possible if ship stays longer.

AUTHORITY: Port Administration Office.

AGENTS: See "Niihama".

MIIKE: 33.00 N. 130.23 E.

DOCUMENTS:

Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Compulsory; Pilots board at the point 32° 59′ N., 130° 23′ E. Outport Pilots board 1 mile off Kuchinotsu lighthouse, 32° 35′ N., 130° 12′ E. (Advise ETA Kuchinotsu 48 hrs. prior to arrival.)

ANCHORAGES: Lat. 33° 0′ 08″ N. Long. 130° 23′ 50″ E. Harbour limit within circle of 2,700 m. radius centring on lighthouse at West end of Northern breakwater. Roadstead affords safe anchorage, mud and sand.

RESTRICTIONS: Vessel shall dock or depart on high water. Ebb stream begins about half an hour before high water and runs to South for 6 hours. Max. current 3 knots at entrance of channel. Flood stream begins at about low water time and runs to North for 6 hours max. 3 knots at lighthouse. Channel 1800 m. long, 137 m. broad from jetty to jetty, 45.7 m. width at bottom.

MAX. SIZE: No limitation for breadth and length, but max. drafts are as follows: 30 ft. 6 in. up to 20,000 d.w.t.; 28 ft. 10 in. up to 25,000 d.w.t.; 25 ft. 7 in. up to 30,000 d.w.t.

HEALTH: Formalities will be carried out 2 miles off the lighthouse (33° 0′ 8″ N., 130° 23′ 50″ E.). Radio pratique available.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically Westbound vessel, to Choshi, and Northbound to Nagasaki Radio respectively.

TUGS: 3 tugs available. 2×1,100 h.p.; 1×800 h.p.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gear not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hrs. 50% additional of basic stevedorage; 2100–0500 hrs. next morning 130% additional; Sundays/holidays 60% additional.

MEDICAL: No advance notice required unless urgent.

DENSITY: 1025.

FRESH WATER: Available at wharf only. Delivery 20–25 t.p.h.

FUEL: Domestic oil is available; Bonded oil will be brought from Moji or Tokuyama, when required.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gears' maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: Consuls at Moji.

REPAIRS: Minor repairs only.

DRY DOCKS: See "Moji".

REPATRIATION: Possible.

AIRPORT: See "Moji".

TIME: GMT plus 9 hours. No alterations made to clocks during year.

HOLIDAYS: 15th August.

POLICE/AMBULANCE/FIRE: Tel. 110 and 119.

TELEPHONES: Available at stevedores' office at the wharf.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AUTHORITY: Port Administration Office.

AGENTS: Sub-agent of Dodwell & Co. Ltd., Tokyo. Miike-ko Service Center K.K., 1, Shinko-cho, Omuta-shi, Fukuoka-ken. Cable Address: Ringer Omuta; Domestic Telex: 7444–12; Tel.: Omuta (09445) 3–3061.

MISUMI: 32.38 N. 130.27 E. (See Plan Book)

PORT LIMITS: The sea surrounded by the line from Seto-no-hana to the lighthouse on Oyano Island, the line from Togasaki on the same island to Daishiro-bana on Chizoku Island, the line from Daishiro-bana to Usagi-bana on Tobase Island, the line West to Tobase Bridge, and the coast.

DOCUMENTS: 3 Crew Lists, 3 Passenger Lists, 1 Manifest, 1 Customs, 1 Store List, 1 Health Document, 1 Bill of Lading.

PILOTAGE: Pilot Station (acting also as an Agent for foreign vessels).

Misumi Branch Office of the Nippon Tsuun K.K. located at Higashiko 1, Misumi-machi, Uto-gun, Kumamotoken. Tel: 09645-2-3121 or 2-3125.

Misumi Kaiun K.K. located at Higashiko 1, Misumi-machi, Uto-gun, Kumamoto-ken. Tel: 09645-2-3130, 2381 or 3278.

ANCHORAGE: Within port limits.

RESTRICTIONS: A Pilot is not available after dark, also his availability depends on the tidal conditions.

MAX. SIZE: Maximum d.w.t. 15,000 tons. The tidal difference between high and low water is great. (4 m).

HEALTH: All the necessary procedures must be taken at the Misumi Branch Office of the Nagasaki Quarantine Station.

RADIO: Not available.

VHF: Not available.

TUGS: 3 tugs owned by the Misumi Tsuun K.K., 2 tugs owned by the Misumi Branch Office of the Nippon Kaiun K.K.

BERTHING:

Quay	A	Length	137 m.	Depth	8 m.

DOCUMENTS:

For Quarantine

1 Statement by Ship's Master.
1 Crew List.
1 Passenger List (if any).
Yellow cards for all.
1 Derating Certificate.

For Immigration

1 Declaration of Inward Vessel.
Passport of Seamen's Book for all.
1 Crew List.
1 Application for shore pass.

For Customs

1 Last Port Clearance.
1 Declaration of Inward Vessel.
1 Crew List.
1 List of Crew's Baggage.
1 List of Ship's Store.
2 Cargo Manifest (Discharging).
1 Cargo Manifest (Through).
1 Certificate of Ship's Registry.

For Port Management Office

1 Declaration of Inward Vessel.

For Maritime Safety Base

1 Declaration of Inward Vessel.
1 Crew List.
1 Cargo Manifest (Discharging).
1 Cargo Manifest (Through).

Above documents to be prepared by Master before arrival.

Master to telegraph ETA and crew's health condition directly to Quarantine Miyako before arrival.

PILOTAGE: Pilot not compulsory but arrangable at Master's request. Pilot boards about 1,200 m. from Miyako breakwater light 130 degrees. Master must radio vessel's Agent of ETA 24 hours in advance, because neither telegraphic address of pilot station nor VHF available. In bad weather, wait instructions from Agent.

ANCHORAGE: Quarantine anchorage located at 39° 37′ 9″ N., 141° 59′ 35″ E. outside breakwater and care should be taken not to foul fishing nets.

RESTRICTIONS: Night entry and departure permitted subject to weather conditions.

MAX. SIZE: Draft 9 m. and LOA 175 m., breadth no restrictions. New pier "Fujiwara-futo" now under construction, draft 12 m. and LOA 240 m., breadth no restrictions.

HEALTH: Radio pratique available. Formalities carried out at anchorage.

RADIO: Recommended Master communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. Westbound vessel, via Choshi Radio, and Northbound via Nagasaki Radio.

TUGS: Normally join vessel on passage from anchorage. Tug's line used. One tug available 2,400 h.p.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

Berth	*Max. LOA* m.	*Max. draft* m.	*No. of wharf*	*Max. d.w.t.*
Desaki wharf	214	7.3	2	3,000
,, ,,	175	9.0	1	10,000
Lumber port buoy		8.0	1	
Fujiwara wharf	260	7.5	2	5,000
,, ,,	240	12.0	1	40,000

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gear not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hrs. 50% additional of basic stevedorage; 2100–0500 hrs. next morning 130% additonal; Sundays/holidays 60% additional.

MEDICAL: No advance notice required unless urgent.

TANKERS: No facilities.

DENSITY: Average 1019.

FRESH WATER: Available from wharf about 50 t.p.h. but no water barge. In case vessel urgently requires water at anchorage, tugboat arrangable for this purpose.

FUEL: Domestic oil is available; Bonded oil will be brought from Tokyo or Hakodate, when required.

DEVELOPMENT: New berth named "Fujiwara Pier" under construction.

GANGWAY/DECK WATCHMEN: Not especially required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depends on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommended request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register, Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance appears to be poor.

CUSTOMS ALLOWANCE: 60 cigarettes to take ashore but no spirits.

CONSULS: None.

REPAIRS: Minor deck and engine repairs available.

DRY DOCKS: None.

REPATRIATION: Possible.

AIRPORT: Hanamaki Airport distant 150 km. from Miyako (2.5 hours by car). 1 flight between Hanamaki/Tokyo Monday/Thursday/Friday and Saturday and 2 flights Tuesday/Wednesday and Sunday by Toa Domestic Air Lines (TDA).

TIME: GMT plus 9 hours. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Police 2-5011 (Headquarters) and 2-6037 (Water Police Station); Ambulance 119; Fire 119.

TELEPHONES: No facilities for placing telephones on board.

SERVICES: Surveyor, Tally, Hold cleaning, Tank cleaning.

GENERAL: Discharging ex-gearless vessel at wharf unavailable, because no shore crane for discharge.

SHORE LEAVE: Local Immigration Office issues shore pass valid for only 3 days; 3 days extension possible if ship stays longer. If vessel advises longer stay in port on arrival, Immigration can issue shore pass for 9 days.

AUTHORITY: Miyako Port Management Office.

AGENT: Sub-agents of Dodwell & Co. Ltd., Tokyo. Miyako Kowan Unso Kaisha, Ltd. No. 1-12, Rinkodori Miyako-shi, Iwate-ken. Cable address: Koun Miyako. Domestic Telex: 8344-08. Tel: (01936) 2-3501/5. Postal No.: 027.

MIZUSHIMA: 34.31 N. 133.45 E.

DOCUMENTS:

Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: *(a)* Inland Sea pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to Pilot station. Inland Sea Pilot Association covers all Inland Sea ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from 1 of 3 Pilot stations dependent upon vessel's last port of departure and at Master's discretion. Pilotage available throughout 24 hours and 72 hours advance notice preferred, thereafter advising any alterations. Most Inland Sea Pilots also act as Harbour Pilots up to berth or anchorage at destination. *Note:* No VHF communication available with Inland Sea Pilot stations. Also see 'Shipmaster's Report' before first port.

1. Wadamisaki, at entrance to Kobe (vessels transitting Kii Straits). Position 34° 38′ N. 135° 11′ E. Telegraphic address "Anjin Kobe".

2. Sekisaki, 3 miles South of Sekisaki lighthouse (vessels transitting Bungo channel). Position 33° 13′ N. 131° 54′ E. Telegraphic address "Anjin Saganoseki". In event bad weather, recommended vessels proceed for shelter as near as possible having due regard to safety, to Sekisaki Pilot station.

3. Hesaki, at East side of Kanmon (Shimoneseki) Straits. Position 33° 56′ 24″ N. 131° 03′ 12″ E.

(*b*) Vessels over 50,000 d.w.t. or of draft of more than 12.5 m. are unable to pass through Kurushima Strait and required to transit Wadamisaki.

There are very narrow and crooked channels, such as the Kurushima Strait, maximum tidal current amounting to 10 knots; the Bisan Strait maximum tidal current amounting to 4 knots, and the Akashi Strait, maximum tidal current amounting to 6 knots.

(*c*) Harbour Pilot: Pilots of the Inland Sea Pilots Association are also employed for this pilotage if required, and Pilot boards at Mizushima Quarantine Anchorage (34° 26′ 30″ N. 133° 34′ 30″ E. approximate centre position of quarantine area). However, if an Inland Sea Pilot is employed at the above-mentioned Pilot stations, the same Pilot acts for harbour pilotage.

HEALTH: Radio pratique available. Formalities will be carried out at Quarantine Anchorage 34° 26′ N., 133° 44′ E.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which covers all ports in Japan. If specifically Westbound vessel to Choshi and Northbound to Nagasaki Radio respectively.

TUGS: Tugs normally join the vessel at the Quarantine Anchorage area. Usually tug's lines used free of charge.

*N.B.—Some allowance may be granted by Pilot depending on tidal condition. Depth of water (14.80 m.)+tide=ship's draft+keel allowance (ship's draft×0.1+0.5 m.).

ANCHORAGES: Anchorages available for small size vessels only, and not for large vessels. In case of large vessels waiting for berthing, these vessels shall wait at Quarantine Anchorage, at around Nabeshima, at nearby Sakatewan or off Kobe.

Around "Q" Anchorage Depth	15–18 m.
Around Nabeshima	,, 32–40 m. (temporarily suspended.)
Nearby Sakatewan	,, 32–41 m.
Off Kobe	,, 43–47 m.

RESTRICTIONS: (*a*) Entering and departing from port shall be in accordance with instructions to be given by Signal Station.

(*b*) No restriction imposed upon entering or leaving port during night-time, nevertheless such movements are next to impossible in consideration of the nature of the structures of the port. In addition Pilots refuse to board during night-time.

(*c*) Super-sized vessels, unable to enter except at high tide.

Pilots should be consulted in advance for draft exceeding 14.80 m.

MAX. SIZE: See "Berthing".

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notifed by the Agent, the orderers must pay for waiting time. If cargo gear not rigged on berthing, stevedores will do same for ship's crew at additonal cost. Overtime surcharges 1700–2100 hrs. 50% additional of basic stevedorage; 2100–0500 hrs. next morning 130% additional; Sundays/holidays 60% additional.

MEDICAL: No advance notice required unless urgent.

TANKERS: See "Berthing".

DENSITY: Entrance channel Summer average 1020, Winter average 1023. Harbour channel Summer average 1019, Winter average 1025.

FRESH WATER: Available at berth, ex-pipe-line. Average delivery rate 20 k/t/hour. Water barges available, sent from Onomichi. Delivery rate approximately 50 k/tons per hour.

FUEL: Most grades available.

FIRE PRECAUTIONS: (*a*) Whenever necessary to repair vessel, the rule of "Strictly and Completely No Fire" is to be observed. (*b*) To keep sufficiently powered tugboat alongside vessel at all times when engine is under repair. (*c*) A written pledge to be submitted to Oil Company, promising to take full responsibility and to pay full indemnity by ship's Owners (in case of repairing vessel) if any accident has occurred by fault of the vessel.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gears maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: No consul available, but marine note of protest can be attested by the local notary public.

REPAIRS: All types of deck and engine repairs possible by Mitsui Shipbuilding and Engineering Co. Ltd., Tamano Works. Minor repairs possible by Nojima Senpaku Co. Ltd., Mizushima Works, Sonkyo Nainenki Seisakusho Co.

DRY DOCKS: No dry docks at Mizushima, but Mitsui Shipbuilding and Engineering Co. Ltd. Tamano Dock is the nearest from Mizushima, distance approximately 20 miles and navigation about 2 hours.

Mitsui Shipbuilding and Engineering Co. Ltd., Tamano Dock.

(*a*) Dimensions of largest dry dock No. 3 D Dock (length 672 ft. × width 103 ft. 3 in. × depth 32 ft.). (*b*) Number of small docks: 2.

AIRPORT: Okayama airport is the nearest from Mizushima, distance approximately 40 km. and takes about 40 minutes by car. Only domestic regular airlines available. 3 flights to Tokyo, daily.

TIME: GMT plus 9 hours. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Police 110; Ambulance 119; Fire 119.

TELEPHONES: No telephone installation service on board.

SHORE LEAVE: Local Immigration offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

SERVICES: All navigational apparatus can be served, as requested, but technicians are to be sent from Kobe.

REGULATIONS: Quarantine Anchorage is outside harbour limits therefore (i) no persons allowed ashore from this anchorage, (ii) No supplies permitted to vessels and, (iii) No Agency services available.

AUTHORITY: Okayama-Kencho.

AGENT: Sub-agent of Dodwell & Co. Ltd., Tokyo. Naigai Unyu Co. Ltd., 1, 2-chome, Kaigan-Dori Mizushima, Kurashiki-Shi Okayama-Ken. Cables: Naigai Kurashikimizushima. Tel. Kurashiki (0864) 44–5211.

MOJI (Kitakyushu): 33.54 N. 130.58 E. (See Kanmon-Ko)

DOCUMENTS: When ship arrives direct from foreign port, customs officials will board vessel for search. Following documents to be submitted:

Crew List.
Passenger List.
Store list.
Manifest of crew personal effects (must be signed by individual crew member).
Arms and ammunition list.
Narcotics List.
List of ports of call on current voyage.
Discharging Cargo Manifest.
Through Cargo Manifest.
Declaration inward/outward (Form No. C2000).

The following will be checked on board:
Ship's Registry.
Last Port Clearance.

When ship comes from Japanese port, Customs Officials will not attend on board, except special case. Master or Agent to attend Custom House for entry formalities with following documents:
Discharging Cargo Manifest.
Through Cargo manifest.
Declaration inward/outward.
Ship's Registry.
Last Port Clearance.

Documents entrusted with the Master by Customs at previous port. On ship's departure, clearance issued by Customs, after confirming payment of tonnage dues.

ANCHORAGE:

	Depth	*Capacity (g/t)*
Tanoura	9.1 m.	20,000 tons×2

(No. 2 anchorage: 83° from Mojisaki light buoy, 1,770 m.)
(No. 3 anchorage: 80° from Mojisaki light buoy, 2,300 m.)

WIND, TIDE: Easterly winds prevail in warm seasons. North-westerly winds prevail in Winter season. Dense fog frequently prevails in Spring and Autumn.

Tidal range 3.07 m. Current near entrance of port runs Westward at flood and Eastward at ebb. Speed of current in vicinity of narrowest section of Straits sometimes reaches 7-8 knots. In stream of port, it is about 3-5 knots.

RESTRICTIONS: *(a)* Berthing: During daytime only. Swift tidal current prevails at buoy berths necessitating strong moorings, and in accordance with harbour rules, ships moor with anchor chains to buoy. Requisite chain preparations should be completed before ship leaving Pilot station. Occasionally large vessels drawing deep draft made to await high water and/or suitable current to berth alongside wharves.

(b) Departure: with adequate notice, no restrictions from anchorage and/or buoys. Night departure from wharves generally practicable, except when Pilot disagrees to ship-out; this will depend upon conditions of weather, tide, etc.

(c) Tug assistance may be required at Pilot's discretion for large vessel mooring to and/or unmooring from buoy, depending upon efficiency of engine and conditions of weather, tidal current, etc.

(d) Maximum draft to enter and passing through Kanmon Straits limited to 10 m.

MAX. SIZE:

Tachinoura Wharf (public). Approximately 7 berths with depth of water between 10 and 12 m. under construction, No. 2 and 3 wharves completed, permissible draft 9.6 m.

Tankers: 1 tanker berth, Mitsui & Co. Berth "B". Max. d.w.t. 33,000 tons. Max. LOA, 200 m. Max. safe draft 9.10 m.

PILOTAGE: (1) *Harbour pilotage* compulsory for entry and departure, but not when vessel passing through Straits. Pilots embark East-bound vessels at Mutsure Quarantine Anchorage position half mile East Mutsure L.H. 33° 58′ 15″ N. 130° 53′ 43″ E. and West-bound vessels at Hesaki Quarantine Anchorage position 125°, 1,500 m. from Hesaki L.H. 33° 56′ 24″ N. 131° 03′ 12″ E. Two Pilots embark vessels exceeding 30,000 gross tons for entry and departure charging double pilotage.

(2) *Sea pilotage:* Vessels approaching from East can obtain Pilots by radio request made at least 24 hours in advance. Pilot embarks at position 3 miles South from Sekisaki L.H. 33° 13′ 00″ N. 131° 54′ 00″ E.

(3) Pilots should be kept closely advised of vessel's accurate ETA at pilot station. If any change in vessel's movements, Master requested to immediately communicate by radio or VHF to pilot offices directly or through Agent reporting revised ETA. Cable addresses of pilot offices are: Harbour Pilot "Kanmonpilot Moji", Inland Sea Pilot "Anjin Moji".

(4) *VHF:* Vessels keep in direct contact with port authorities with regard to arrival, berthing instructions and Pilot's requirements through VHF as follows:

(a) Call sign: Kitakyushu Port Radio (or Shimonoseki Port Radio).
(b) Location of Radio facilities: Transmitting and receiving station located at the top of Mt. Hinoyama, Shimonoseki.
(c) Type of wave: Channel: Simplex 16 (calling, responding); Simplex 12 (communicating); Simplex 14 (communicating); Duplex 20 (communicating). Output 50 W.
(d) Operating hours: 00.00–24.00 hrs.
(e) Communicating range: within a radius of 50 miles from the Hinoyama Station.
(f) Communicating language: Japanese/English.

HEALTH: Radio Agent for free pratique not less than 12 hours and not more than 36 hours before arrival, advising full details of vessel and health conditions on board. When free pratique is granted by radio vessel will be required to submit the following documents to Quarantine Officer on arrival:
Maritime Declaration of Health.
Crew List.
Passenger List.

The following vessels will not be able to get radio pratique:

A vessel that has been in contact with an infected area or a suspected infected area within 15 days of arrival.

If a vessel has on board any case, or any suspected case of infectious disease, within 15 days of arrival.

If crew or passengers on board do not possess Valid Smallpox Vaccination Certificates.

If a vessel does not possess a valid Derat or Derat Exemption Certificate.

(a) Quarantine Station at Western entrance: half mile East from Mutsure lighthouse 33° 58′ 15″ N., 130° 53′ 43″ E.

(b) Quarantine station at Eastern entrance: 125 degrees, 1,500 metres from Hesaki lighthouse 33° 56′ 24″ N., 131° 30′ 12″ E.

(c) Quarantine inspection not allowed inside port except when weather or other special reasons prevent quarantine boat from approaching ship at anchorage.

(d) "Q" flag should be hoisted until ship is in free pratique.

(e) Vessels exceeding 20,000 gross tonnage may undergo quarantine on application when they berth inside port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: Normally join vessel at adequate position in judgment of pilot and tug for mooring. In operation, tug's line to be used for mooring and unmooring without any charge.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gear not rigged on berthing, stevedores will do same for ship's crew.

Average loading/discharging:

Bulk cargo:	Coal	50 t.p.h./gang/hatch (dis)
	Iron ore	45–50 t.p.h./gang/hatch (dis)
	Grain	50 t.p.h./gang/hatch (dis)
Baled cargo:	Cement	50 t.p.h./gang/hatch (load)
	Fertilisers	40 t.p.h./gang/hatch (load)
	Grain	30–50 t.p.h./gang/hatch (load)
	General	40 t.p.h./gang/hatch (load)
Steel cargo:	Under 20 ft. long	25–30 t.p.h./gang/hatch (load)
	Over 20 ft.	15–20 t.p.h./gang/hatch (load)
Scrap steel:	Pressed	20 t.p.h./gang/hatch (dis)
	Ordinary	10 t.p.h./gang/hatch (dis)
	Bulky and awkward	5 t.p.h./gang/hatch (dis)
Lumber/logs:	Lumber	15–20 t.p.h./gang/hatch (dis)
	Logs	30 t.p.h. gang/hatch (dis)

2 shifts; 0800 to 1700 hrs. and 1800 to 0500 hrs. Normal working hours 0800 to 1700 hrs. Overtime work is possible by applying to Customs. No work can be arranged on 31st December and during New Year holidays (1st to 3rd Jan.). No work on 1st and 3rd Sunday of each month.

MEDICAL: No advance notice required unless urgent.

TANKERS: No slop discharge facilities. Mobil Oil berth situated at Okubo, near Tanoura. At vicinity of berth, the current runs towards West nearly all the time. Maximum rate of current 3 knots. Vessels berthed during period that tide sets to West, in day-time only. Mooring berth consists of 1 oil pier (length 80 m. width 5 m.) and 2 dolphins. Two 10-in. pipes connected to vessel; discharge rate 1,000 t.p.h.

FRESH WATER: Good fresh water supplied from water barges to vessels lying at buoys and/or anchorage; from hydrants to those alongside wharves. The rate of delivery per hour is 20–40 tons from hydrant and 50 tons from barge.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

Bonded bunker oil is supplied by oil barges. The rate of delivery: 80-100 t.p.h.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommended request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore, but no spirits.

CONSULS: Honorary British Consulate concurrent with Honorary Swedish Consulate.

REPAIRS: Mitsubishi Heavy Industries, Ltd. Shimonoseki; Daiki Industries Co., Ltd. Moji; Kitakyushu Iron Works, Tobata.

DRY DOCKS: Refer "Shimonoseki".

REPATRIATION: Possible.

AIRPORT: Distance to Kitakyushu airport: 30 minutes by taxi and to Fukuoka airport; 2 hours by train and taxi.

TIME: GMT plus 9. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Police station (tel. 110) and Fire/Ambulance (tel. 119).

TELEPHONE: Telephone placed on board.

SERVICES: All services available, including hold cleaning and grain fitting.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days; but 3 days extension possible if ship stays longer. Immigration Officials board vessel on her arrival in port to examine passports, discharge books and/or other equivalent travel documents and provide 72-hour landing passes for crew members and passengers. One copy each of crew list and passenger list are required by them. Providing ship's Agent with a crew list beforehand will be a great help in expediting immigration business on ship's arrival. When ship stays in port more than 72 hours, the landing passes may be extended every 72 hours on application. In the event that crew members, without entry visas, are to be landed for repatriation or transfer, Immigration will not permit their landing unless passage, by either sea or air, ensuring the prompt departure from Japan (within 72 hours) of these men, has been booked, or unless the ships to which they are to be transferred, arrives in Japan within 5 days.

AUTHORITY: Kita-Kyushu Port Authority.

AGENT: Sub-agents of Dodwell & Co. Ltd., Tokyo. Holme Ringer & Co. Ltd., PO Box 72, 9-9, Minato-merchi, Moji-Ku, Kitakyushu. Tel. Moji (093) 331-1311. Telegraphic "Ringer Moji".

MURORAN: 42.20 N. 140.58 E.

DOCUMENTS:

Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare 2 Inward/Outward Declarations, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Arranged by Agent subject receipt of ETA advice at least 24 hours prior arrival. Pilot boards vessel about 1 mile outside breakwater. Not compulsory.

ANCHORAGE: Outside harbour limits: Subject notice having been given to Authorities prior arrival. Inside harbour limits: Permitted in any part.

MAX. SIZE: *Nissei Pier (Nippon Petroleum):*

Max. d.w.t.	*Max. LOA*	*Max Safe Draft*
*50,000	220 m.	10.80 m.
*30,000 (g.t.)		
100,000 Sea Berth (Under construction)	390 m.	16.00 m.

*For vessels of deadweight tons, gross tons and LOA in excess of above limits it is necessary to obtain entry permission from the Harbour Master, Pilot and the Refinery in advance.

Ore Carriers: Max. LOA, 300 m., max. draft, 16.0 m.

HEALTH: Vessels usually anchor at the sea area within a circle of radius 1,000 m. – directed 290° 4,200 m. from Daikokujima Lighthouse, where the authorities board and grant free pratique. Radio pratique also available.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which covers all ports in Japan. If specifically West bound vessel to Choshi, and North bound to Nagasaki Radio respectively.

TUGS: 10 tugs, up to 3,200 h.p. Usually meet vessel near Inner Harbour breakwater. 10% additional charge if tug's lines used.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

	Diesel Oil	1×10 in.	1,200 k/l
100,000 d.w.t.	Crude Oil		5,000 k/l

DENSITY/TIDE: Density 1025. Rise and fall of tide about 4 ft.

FRESH WATER: Delivery at piers: Average rate about 40 t.p.h. Delivery by barge: Rate about 60 t.p.h.

FUEL: Available.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: None.

REPAIRS: Only minor repairs available, but Hakodate dockyard able undertake all grades repairs.

AIRPORT: Domestic flights only from Chitose Airport – 100 km. from Muroran.

TIME: GMT plus 9 hours. Permanent.

POLICE/FIRE: Police Muroran 2-5191; Fire Muroran 2-2111.

TELEPHONES: May only be connected on board at No. 2–2 West Pier.

SHORE LEAVE: Local Immigration offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AUTHORITY: Port and Harbour Bureau.

AGENT: Sub-agent of Dodwell & Co., Tokyo. Narasaki Sangyo Co. Ltd. 3–2, 3-chome, Kaigan-Cho, Muroran-shi, Hokkaido. Tel. Muroran (0143) 24-1314/6. Telegraphic "Narasaki Muroran".

NAGASAKI: 32.45 N. 129.52 E.

DOCUMENTS:

Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport/Seaman's Book Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Not compulsory, but necessary unless Master well acquainted with locality. Pilot embarks in vicinity of Ioshima lighthouse, Lat. 32° 43′ 20″ N., 129° 46′ 43″ E. Pilot available any time, subject to adequate notice (no VHF system). All communication with Pilot through Agent. Pilot boat carries International signals. "G" flag in day-time and "Morse" signals at night to call Pilot. In event bad weather Pilot boards at anchorage off Megami.

ANCHORAGE: Megami anchorage located in Harbour Division No. 3 (within line between Kagenoo lighthouse and West end of Shirogashima) 60 ft. depth and capacity of 3 vessels of 20,000 d.w.t. Safe anchorage.

RESTRICTIONS: Berthing: During day-time only, except for emergency purposes. Entering into anchorage at Megami is generally permitted anytime with Harbour Master's permit. Departure: No restriction from buoy or wharf with adequate notice, but no night departure from Oil Terminals, except Hawashikane Oil Terminals of Doinkubi and Kozaki.

MAX. SIZE: Max. permissible length 1,200 ft., breadth 120 ft., draft 15.0 m.

Tankers:

Berth	*Max. d.w.t.*	*Max. LOA*	*Max. Safe Draft*
Hayashikane Oil Co. (Kozaki Depot)	42,000	—	10.00 m.
Hayashikane Oil Co. (Dinokubi Depot)	30,000	230 m.	15.00 m.
Mobil Oil Co. (Kibachi Depot)	22,000	200 m.	11.00 m.

REPATRIATION: Possible.

AIRPORT: Distance 54 km. (centre of town to air terminal). Time 1.5 hrs. by car. All Nippon Airway have regular daily service with 7 flights for Tokyo and Osaka, and Towa Domestic Airway have regular daily service with 1 flight for Tokyo.

TIME: GMT plus 9. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Police 22-2141; Ambulance/Fire 22-3211 (Fire station).

TELEPHONE: Shore telephone can be installed on board vessel at both wharves of Yanagi and Dejima. Vessels at Mitsubishi Yards can communicate via shipyards' switchboard with town.

SHORE LEAVE: Local Immigration Officers issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AUTHORITY: Nagasaki Port Authority.

AGENT: Sub-agents of Dodwell & Co. Ltd., Tokyo, Nagasaki Warehouse Co. Ltd., 2–13, Dejima-Machi, PO Box 6, Nagasaki. Tel. Nagasaki (0958) 24–1261. Telegraphic "Nagasoko Nagasaki" Telex: 752322.

NAGOYA: 35.05 N. 136.53 E. (See Plan Book)

Situated at northern head of Ise Bay. Harbour protected by breakwater 8,250 m. in length stretching from Chita peninsula to bank of Kiso River at opposite side of harbour.

DOCUMENTS: *(a)* Quarantine (only when arriving from a foreign port); Maritime Declaration of Health, 1 Crew List, 1 Cargo Manifest, 1 List of Passengers (if any on board), Log Book and Registry should be readily available. *(b)* Customs: 1 Declaration Inward/Outward with ports of Call, 1 Ship's Registry, 1 Last Port Clearance, 1 Store List including arms and narcotics, 2 Manifests of Cargo for day charge (prepared by Agents), 1 Manifest of Through Cargo, 1 Crew List, 1 List of Passengers, 1 List of Crew's Baggage (only necessary if crew-members have to land personal effects ashore). *(c)* Immigration: 1 Crew List, 1 Notification of Arrival, Application for Shore-passes, 1 List of Passengers, 1 Notification of Departure (to be returned through Agents after sailing). *(d)* Harbour Master: 1 Crew List, 1 Declaration Inward/Outward with ports of Call. *(e)* Port Authority: 1 Declaration Inward/Outward with ports of Call.

PILOTAGE: Request Pilot and other services to JHY (Nagoya Port Radio Station) at least 5 or 6 hours prior arrival on frequency 500 KHz. JHY keeps watch also on 480 KHz. Pilot station near No. 1 and No. 2 channel buoys at entrance of harbour channel. When wind over 15 m/sec. Pilot boards inside High tide Breakwater. When very rough, Pilot taken on board East side of Kinjo Signal Station. Pilot not compulsory but desired. Pilot boat white painted with white and red funnel and letters "Pilot" on hull.

ANCHORAGE: The port boundary indicated by line connecting Oono Lighthouse (34° 55′ 49″ N., 136° 49′ 28″ E.), Ise Bay Light Buoy (34° 56′ 05″ N., 136° 47′ 44″ E.), Southwest corner of Nagoya High tide Breakwater (35° 1′ 54″ N., 136° 47′ 04″ E.) and the base point at Northwest of the same Breakwater (35° 00′ 54″ N., 136° 46′ 09″ E.). Quarantine Anchorage, located outside High tide Breakwater offers safe anchorage for vessels awaiting Pilot or quarantine service. Depth this anchorage area ranges from 10 to 20 m. Sea bed silty clay.

MAX. SIZE:

Tankers:

Berth	*Max. d.w.t.*	*Max. LOA*	*Max. Safe Draft*
Nisseki Terminal	34,000	195 m.	9.80 m.
Esso Standard	34,000	195 m.	8.80 m.
Maruzen Standard	20,000	80 m.	9.50 m.
Kanematsu-Gosho	34,000	200 m.*	9.50 m.
Mitsui	34,000	195 m.	9.50 m.
Mitsubishi Shoji	34,000	190 m.*	9.50 m.
Chita Futo	50,000	210 m.	11.70 m.
Idemitsu Chita Pier	100,000	—	14.00 m.
Nishi Nagoya Yusosho	30,000	200 m.	11.70 m.
Isewan Sea Berth	200,000	—	26.00 m. (Depth)
Toa Kyoseki	100,000	220 m.	14.00 m.

NB—Limitation 30,000 d.w.t. These lengths available when no vessel secured to neighbouring (RYNORU) berth.

Other vessels: 160,000 d.w.t., draft 14.0 m.

HEALTH: Radio Agent for free pratique not less than 12 hours and not more than 36 hours before arrival, advising full details of vessel and health conditions on board. When free pratique is granted by radio vessel will be required to submit the following documents to Quarantine Officer on arrival:

Maritime Declaration of Health.

Crew List.

Passenger List.

The following vessels will not be able to get radio pratique:

A vessel that has been in contact with an infected area or a suspected infected area within 15 days of arrival.

If a vessel has on board any case, or any suspected case, of infectious disease within 15 days of arrival.

If crew or passengers on board do not possess valid Smallpox Vaccination Certificates.

If a vessel does not possess a valid Derat or Derat Exemption Certificate.

RADIO:

JHY (Nagoya Port Radio Station). Service area: 100 miles. Frequency: 500 KHz. (also 480 KHz.). Working frequency: 486 KHz. *International VHF (Nagoya Port Radio).* Service area: 40 miles. Frequency: Simplex working frequencies Channels 12 and 16. Duplex working frequencies Channels 18 and 20.

To be given prior arrival: Name; Capacity; draught and length; Port of departure; Last port; Time arrival outer port; time passing Kamishima Signal Station; Grade of cargo; Grade of dangerous cargo (if any); Health of crew.

TUGS: Usually join at point where vessel directs course toward allocated berth. Tug's lines normally used without charge.

MEDICAL: Hospitals conveniently located near port.

BULK HANDLING FACILITIES: Kinjo Container Terminal has 2 berths with a depth of water 10.5 m., overall berth length of 400 m. Coal pier can accommodate ships up to 10,000 tons. Depth of water 9 m.

Nippon Steel Corp., has 1 berth for handling of iron ore with 350 m. long wharf and a depth of water 14 m., 2 berths for ore and/or coal with a 500 m. long wharf and a depth of 13 m., 1 berth for scrap iron with 140 m. wharf and a depth of water 13 m.

Grain handling facilities include Wharf No. 8, 173 m. long and 10 m. deep. Tohama Wharf 135 m. long and 10 m. deep. Nisshin Wharf 150 m. long and 12 m. deep. Tokai Silo Wharf 190 m. long and 14 m. deep. Toyo Grain Wharf 170 m. long and 13 m. deep. Chita Futo Wharf 160 m. long and 12 m. deep.

TANKERS: 53 oil tanker berths over 1,000 tons including 2 offshore berths (Sea Berth) of depth: 26 m. for 200,000 ton tankers.

Berth	*Product*	*Shoreline*	*Pumping rate (t.p.h.)*

Chita Futo	Diesel, Fuel	8″×1	1,000
Idemitsu Chita Pier	LPG/Crude	20″×4	2,000
Nishi Nagoya Yusosho	Fuel Oil	12″×1	1,000
Isewan Sea Berth			18,000 k/l
Toa Kyoseki	Crude	Free size×4	2,000

DENSITY: 1020.

WATER: Water supplied direct from pier.

FUEL: All grades fuel available. Delivered by barge only.

DEVELOPMENTS: Main Channel 14 m. deep and 350 m. wide will be enlarged to 17.5 m. deep. Secondary Channel 10 m. deep and 300 m. wide will be dredged to 12 m. deep and 400 m. wide.

Anchorage area 9 m. deep at present will be deepened to 10 m.

Kinjo Pier Development: 14 berths with 10 m. will be constructed.

CONSULS: The following countries are represented in Nagoya: Ecuador, France, Netherlands, Korea, Mexico, Portugal, Sweden, Thailand.

GANGWAY/DECK WATCHMEN: Not compulsory but recommended.

OPENING/CLOSING HATCHES: Normally carried out by crew. When stevedores do this work charges are made.

CUSTOMS ALLOWANCES: For crew (per landing): 60 cigarettes, 1 bottle of spirit when sailing period exceeds one month, 2 bottles over three months.

For passengers: 3 bottles of spirit; 200 cigarettes or 50 cigars; 2 ounces of perfume; 1 watch of which price is not over Y30,000; other items of which total price is under Y100,000.

CREW IDENTIFICATION CARDS: Required.

REPAIRS: All types repairs possible. Repairs by Ishikawajima-Harima Heavy Industries Co. Ltd., Nagoya Shipyard.

DRYDOCKS: Ishikawajima-Harima Heavy Industries Co. Ltd., Nagoya Shipyard: Length 150 m., width 24.2 m., capacity 13,000 g.r.t.

Chita Shipyard of Ishikawajima-Harima Heavy Industries Co., Ltd. (IHI), length 810 m., width 92 m., capacity 250,000 g.r.t.

AIRPORT: Nagoya Airport, 20 kilometres from Port. 3 JAL (Japan Air Lines) flights for Hong Kong, 2 flights for Manila (weekly), 3 JAL flights to Seoul and 3 KAL flights to Seoul.

HOLIDAYS: National Holidays: New Year's Day (Jan. 1st), Adults Day (Jan. 15th), Foundation Day (Feb. 11th), Vernal Equinox Day (Mar. 21st), Emperor's Birthday (Apr. 29th), Constitution Day (May 3rd), Children's Day (May 5th), Respect for The Aged Day (Sept. 15th), Autumnal Equinox Day (Sept. 23rd), Health Promotion Day (Oct. 10th), Culture Day (Nov. 3rd), Labour Thanksgiving Day (Nov. 23rd). Cargo handling not arranged on December 31st, January 1st, 2nd and 3rd, and July 20th (Maritime Day).

TIME: JST (Japan Standard Time), 9 hours ahead of GMT.

POLICE/AMBULANCE/FIRE: Police 110, Ambulance 119, Fire 119.

TELEPHONES: Telephone can be arranged on board ships berthed at most wharves. For application call 652-7581. Telegram 971-4222, Time 117, Weather 177.

AUTHORITY: Nagoya Port Authority.

AGENT: Sub-agent of Dodwell & Co.. Goyo Kaiun Kaisha Ltd. 3-4, Irifune 2-chome Minato-ku, Nagoya-shi Aichi-ken. Cable Address; "Shipgoyoh Nagoya". Domestic Telex: 446-3113 SPGOYO J. Telephone No.: (052) 651-5171.

NAHA, Okinawa: 26.12 N. 127.40 E. (See Plan Book)

DOCUMENTS:

Ship's Register.

Last Port Clearance.

3 Crew Lists, including passport numbers.

3 Passenger Lists.

1 Stores List.

1 Declaration of Crew's Baggage, i.e. tobacco, wines/spirits, camera, wrist-watch, radio, firearms/swords, etc. (Only at first port of call in Japan.)

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest, Cargo Manifest in transit using specific forms. Therefore Ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Pilot services compulsory. Pilot boards in position 26° 13′ 49″ N. 127° 38′ 20″ E. International Pilot signals used.

RESTRICTIONS: Vessels entering Naha Port are controlled by the limiting depth in the entrance channel of 9.6 m. Entry possible daylight only.

MAX. SIZE: Length and beam not limited. Max. draft 9 m.

HEALTH: Radio pratique possible. Formalities will be carried out at the dock side.
RADIO: Recommended communicate with Agent through Choshi Radio or Nagasaki Radio, which cover all ports in Japan. If specifically Westbound vessel, to Choshi, and Northbound to Nagasaki Radio, respectively.
TUGS: 6 tugs available, 210-3,000 h.p.

NAOSHIMA: 34.28 N. 133.58 E.

PILOTAGE: Not compulsory; Inland-sea Pilots are available at Wada-Misaki or Hesaki (off Moji).
RESTRICTIONS: Daylight berthing and unberthing only.
HEALTH: Radio pratique not available. Vessels usually anchor at Wada-Misaki (off Kobe) or nearest quarantine port, where the authorities board and grant free pratique.
TUGS: None. Tugs from Mizushima are available.
BERTHING: Mitsubishi Metal Wharf: Length 165 m. Depth 10.0 m. Max. draft 10.0 m. Max. size: 20,000 g.r.t.
FUEL: Domestic oil is available; Bonded oil will be brought from Kobe, when required.
FRESH WATER: Water barge will be brought from Okayama, when required. (1×50 tons).
REPAIRS: Small repairs can be undertaken.
AGENTS: See "Tamano".

NIIGATA: 37.54 N. 139.04 E.

DOCUMENTS:

Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Not compulsory. Pilot embarks at Quarantine Anchorage (37° 58′ N., 139° 03′ E.) to take vessel directly to berth during daytime. All transmitting and receiving normally effected through Niigata Radio Station (call sign: JCF, Wave: 438454), or Choshi Radio Station and/or Nagasaki Radio Station. Radio ETA one weeks notice and accurate ETA at least 24 hours before arrival. Notify any changes to ETA.

ANCHORAGE: Anchorage is a rectangle located North-west of lighthouse at West breakwater in a distance of 1,600 m. covering an area of about 160,000 sq. m. North 37° 57′ 37″ East 139° 04′ 00″. Depth: 18-24 m. Bottom: fine sand.

Safe Anchoring: Warning and instructions have been given by Niigata Harbour Master to secure safety of vessels anchoring off Niigata Port especially in winter season, when the port is greatly affected by N.W. gale.

1. Vessels anchoring outside the breakwater within the Harbour limit must maintain their position Westside of N.W. line drawn from Niigata Lighthouse (Fl. R. sec. 13 m. 12 miles) and must avoid the vicinity of the mouth of the Shinano River or Showa Oil Co.'s Sea-berth (which is connected with shore facilities by submerged pipe-lines).

2. Vessels anchoring outside the breakwater must maintain their positions in the sea area where the depth of water is 25 m. or more. This rule does not apply to vessels waiting for quarantine inspection and/or Pilot. Vessels under 10,000 gross tons should also keep a sufficient distance from shore.

3. Vessels over 10,000 gross tons with dangerous cargoes or oil anchoring outside the breakwater must advise their positions to the Harbour Master by radio.

4. Vessels anchoring outside the breakwater, must keep a bridge watch unless they are equipped with radio. (According to the governing law, any vessel staying outside the breakwater is treated as a navigating vessel even if she is within the harbour limit).

5. Vessels waiting at anchorage must keep watching weather forecast. In case bad weather is reported, the following necessary actions should be taken; namely, officers on duty, confirmation of ship's position, engines on standby, the use of extra anchors, sheltering, etc.

6. In case a vessel requires shelter from N.W. wind in Winter, it is suggested that such vessel proceed to Sado Island and anchor off Morotsu Port, Akadomari Port, Sado Island South Coast or Sado Channel.

7. When approaching the entrance of the port, a vessel can be drawn too close to the East Breakwater or the shallows existing East of the port entrance by force of N.W. gale, N.E. current and river flow. Therefore, vessel must enter from N.W. of Niigata Lighthouse, approaching from Quarantine Anchorage and alter course as West Breakwater Lighthouse and Niigata Port Light Beacon are seen in a line. It is dangerous for vessel to anchor at any areas East of Shinano River.

8. Prior to arrival, Japanese Charts No. 1155A, 122 and 1197 or substitutes should be provided on board. Charts 1181, 1198 may also be needed.

RESTRICTIONS: Berthing and unberthing daytime only. Entry and/or departure at time authorised by Port Authority. Shinano fairway from port entrance to Rinko wharves, depth 11 m. to 12 m.

MAX SIZE: *Tankers:*

Berth	*Max. d.w.t.*	*Max. LOA*	*Max. Safe Draft*
Nisseki Dolphin	36,000	210 m.	10.40 m.
SBM (Sealine Buoy)	120,000	—	21.00 m.
Rinko "B" Pier	40,000	210 m.	11.00 m.
Rinko "C" Pier	40,000	210 m.	11.00 m.
Rinko "E" Pier	20,000	170 m.	10.00 m.

Bulk Carriers: Max. LOA 230 m. Max. beam,, 32 m. Max. draft, 11.0 m.

HEALTH: Radio pratique available. Vessels usually anchor at the point 37° 58′ N., 139° 03′ E., where the authorities board and grant free pratique.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. West bound vessel to Choshi, and North bound to Nagasaki Radio respectively. (Also see "Pilotage").

TUGS: Tugs normally join vessel at position of fairway. Towing operations are done by ship's lines. 7 tugs available, 150 h.p. – 1,800 h.p.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

Higashi: West Pier, depth alongside 12 m.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by Agent, the orderers must pay for waiting time. If cargo gear not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hrs. 50% additional of basic stevedorage; 2100–0500 hrs. next morning 130% additional; Sundays/holidays 60% additional.

MEDICAL: No advance notice required unless urgent.

TANKER: Slop (residues): No discharge facilities.

Berth	*Product*	*Shoreline*	*Discharge Rate (t.p.h.)*
Nisseki Dolphin	Crude Oil	16″×1	700/1,500
	Fuel Oil	12″×1	600/1,000
SBM	Crude Oil	20″×1	3,000
Rinko "B"	Crude, Fuel	10″×2	600/1,500
Rinko "C"	Crude, Fuel	10″×2	800/1,000
Rinko "E"	Crude, Fuel	8″×1	600

DENSITY: Average in Rinko wharves approx. 1006. Average in Municipal wharves approx. 1005.

FRESH WATER: Available from all wharves. Cannot be supplied at anchorage during the winter season.

FUEL: Domestic oil is available; bonded oil will be brought from Hakodate or Moji with 7 days advance notice.

DEVELOPMENTS: The reclamation of land for Niigata East Port completed in 1975. One public berth is ready for about 15,000 d.w.t. class vessel. One shore crane with about 570 M/T discharging capacity for ore in bulk per hour.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance appears to be poor.

CUSTOMS ALLOWANCES: Only allowed 50 cigarettes to take ashore, but no spirits.

CONSULS: None.

DRY DOCKS: No facilities for ocean going vessel.

REPATRIATION: Possible.

AIRPORT: 5 km. Round service Japan Domestic Air Line.

TIME: GMT plus 9. No alterations made to clocks during year.

HOLIDAY: 22nd August.

POLICE/AMBULANCE/FIRE: Water Police Station 44–2269; Ambulance Station 119; Fire Station 119; Main Police Station 110.

TELEPHONES: No facilities for telephones on board available.

SERVICES: Hold cleaning by longshoremen available.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

REGULATIONS: Oil carriers can receive bunker by oil barge and/or shoreline except when discharging cargo.

AUTHORITY: Port and Harbour Bureau.

AGENTS: Sub-agents of Dodwell & Co. Ltd., Tokyo. Niigata Rinko Kairiku Unso K.K., 2-Chome, Rinko-cho, Niigata-shi, Niigata-ken. Tel. Niigata (0252) 74–5181. Domestic Telex 3122–501. Telegraphic "Rinkokairiku Niigata".

1. Declaration of Inward Vessel	1

1. Master to telegraph ETA and Crew's Health Condition directly to Quarantine Niihama before arrival.

2. *To be prepared by Master before arrival. Others to be made up by Agent with assistance of Master on arrival.

PILOTAGE: Inland Sea Pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to Pilot station. Inland Sea Pilot Association covers all Inland Sea ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from one of three Pilot stations dependent upon vessel's last port of departure and at Master's discretion. Pilotage available throughout 24 hours and 72 hours advance notice preferred, thereafter advising any alterations. Most Inland Sea Pilots also act as harbour Pilots up to berth or anchorage at destination. *Note:* No VHF communication available with Inland Sea Pilot stations. Also see "Shipmasters Report" before first port.

1. Wadamisaki, at entrance to Kobe (vessels transitting Kii Straits) Position 34° 38′ N., 135° 11′ E. Telegraphic address "Anjin Kobe".

2. Sekisaki, 3 miles South of Sekisaki lighthouse (vessels transitting Bungo Channel). Position 33° 13′ N., 131° 54′ E. Telegraphic address "Anjin Saganoseki". In event bad weather, recommended vessels proceed for shelter as near as possible having due regard to safety, to Sekisaki Pilot station.

3. Hesaki, at East side of Kanmon (Shimonoseki) Straits. Position 33° 56′ 24″ N., 131° 03′ 12″ E.

ANCHORAGES: Approved anchorage area just inside harbour limit. A circle drawn at a point 33° 59′ 18″ N., 133° 16′ 31″ E. with radius of 430 m. where holding ground good and depth of water 12–15 m. No buoy moorings. Harbour protected by breakwater.

TIDE: (Springs) Max. 263 cm.; min.: –9 cm. (Neaps) max. 182 cm.; min.: 136 cm.

RESTRICTIONS: Pilot does not take vessel in during darkness. Vessel has to wait if depth during low water 8.50 m. is insufficient to pass channel.

MAX. SIZE: See "Berthing".

HEALTH: Quarantine Inspectors go aboard during day. Master to keep waste until Quarantine inspected in event of any suspected disease or fever on board after entered Japan.

RADIO: Choshi Radio, Nagasaki Radio.

TUG: Joins vessel at Quarantine anchorage or Section II, always using tug's lines without charge. "Niihama Maru" 700 h.p. If more powerful tugs required, can be obtained from Matsuyama or Mizushima.

BERTHING: Harbour Pilot operates during day.

Berth	*Length*	*Depth*	*Berthing restrictions*
"A"	Anchorage	8.0 m.	Draft 8.0 m. LOA 120 m.
"B"	Anchorage	9.3 m.	Draft 9.0 m. LOA 165 m.
"B-3" Wharf	103 m.	10.0 m.	Draft 9.5 m. LOA 170 m.
"K-4" Wharf	120 m.	9.1 m.	Draft 9.0 m. LOA 160 m.
"K-6" Wharf	200 m.	14.0 m.	Draft 13.0 m. LOA 200 m.

Berth A: Public berth for general purposes, no buoy, just anchorage. However, vessel anchoring at this berth sometimes ordered by port authority to shift in order vessel approaching or leaving berth No. 4 may pass.

Berth B: Owned by Sumitomo Chemical Co. Ltd., Niihama Works and used for loading of fertiliser and discharge of phosphate and muriate of potash. Possible to use for general purposes with permission by Sumitomo Chemical Co. Ltd., Niihama Works through Agent. Vessel moors stern to wharf with 2 anchors about 4 shackles each.

CRANES:

Berth "B3"	2× 5 tons
Berth "K4"	3× 5 tons
Berth "K6"	2×25 tons

One 250-ton and one 50-ton floating crane.

LOADING/DISCHARGE RATES:

Average rate of Discharging Cargo:

Alumina	150 – 170 t.p.h. by pneumatic apparatus
Anthracite coal	50 – 70 t.p.h. by ship's gear
Bauxite	700 – 800 t.p.h. by 2 shore cranes
Chemical Oil	200 – 250 t.p.h. by ship's pump
Copper Concentrates	70 – 100 t.p.h. by ship's gear 130 – 150 t.p.h. by shore crane
Logs	600,000–800,000 BFM/day by ship's gear
Nickel Concentrates	70 – 90 t.p.h. by ship's gear 130 – 150 t.p.h. by shore crane
Phosphate	70 – 90 t.p.h. by ship's gear
Potash	40 – 60 t.p.h. by ship's gear
Salt in bulk	50 – 70 t.p.h. by ship's gear 80 – 100 t.p.h. by shore crane

Average Rate of Loading Cargo:

Alumina in bag	50 – 60 t.p.h. by ship's gear
Alumina in bulk	170 – 180 t.p.h. by pneumatic apparatus
Ammonium Nitrate	50 – 60 t.p.h. by ship's gear
Anode Paste	100 – 120 t.p.h. by shore crane
Fertiliser in bag	50 – 60 t.p.h. by ship's gear
Fertiliser in bulk	80 – 100 t.p.h. by ship's gear

MEDICAL: Hospitals and medical facilities available week-days only.

TANKERS: No facilities for oil carriers.

DENSITY: Entrance 1023 (rate of tide, 1 knot); channel 1022; anchorage 1021.

FUEL: Bunkers in bond available from main ports or oil stations in tranship. 2 days notice.

FRESH WATER: Water is available from the berths "K-4" and "K-6" only after normal working hours – 10 t.p.h. Water is not available from any other berths. A 70-ton barge is available, it can supply 300 tons per day.

DEVELOPMENTS: Sumitomo Chemical Co. Ltd., Kikumoto Works, intend to make another Bauxite berth available for large size vessel (suitable for vessels up to 50,000 d.w.t.).

Sumitomo Metal Mining Co. Ltd., Niihama reclaiming land adjacent to Western harbour limit of port of Niihama to construct additional refinery for producing copper with a berth for 25,000 ton vessel to discharge copper concentrate. Final date of completion unknown.

GANGWAY/DECK WATCHMEN: Not necessary.

OPENING/CLOSING HATCHES: Stevedores.

CUSTOMS ALLOWANCES: Only 50 cigarettes to take ashore. No spirits.

CARGO GEAR: Valid Cargo Gear Certificate sometimes required by stevedores when cargo gear maintenance appears to be poor.

CONSULS: None. Nearest in Kobe.

REPAIRS: Minor repairs only. Main engine piston overhauling possible.

DRY DOCKS: None. For nearest see "Matsuyama".

REPATRIATION: Arranged by Agent.

AIRPORT: None. Nearest at Matsuyama and Takamatsu. All Nippon Airways – 11 flights per day to Osaka and one to Tokyo.

TIME: GMT plus 9 hours. Permanent.

HOLIDAYS: National Holidays: New Year's Day, January 1st; Adult's Day, January 15th; Foundation Day, February 15th; Vernal Equinox Day, March 20th; Emperor's Birthday, April 29th; Constitution Memorial Day, May 3rd; Children's Day, May 5th; Respect-for-age Day, September 15th; Autumnal Equinox Day, September 23rd; Physical Culture Day, October 10th; Culture Day, November 3rd; Labour Thanksgiving Day, November 23rd.

Local holidays: New Year's Day (Lunar Calendar), January 30th; May Day, May 1st; Memorial Day of the Sea, July 20th; Bon Festival (Lunar Calendar), August 8th; Autumnal Festival, October 17th-18th.

Vessels may enter/leave *except* January 1st, and cargo work can be done as usual at overtime rates on above national/local holidays *except* for *Niihama* December 31, January 1, 2, 3, and October 17, 18.

Vessels may enter/leave port at overtime rates and cargo work will be done up to 1700 hrs. (day-time) against surcharges.

No cargo will be handled: *Niihama* December 31, January 1, 2, 3, and October 17, 18. No ship's movement (as well as cargo handling) can be done on January 1st.

POLICE/AMBULANCE/FIRE: Police 110; Ambulance/Fire 119.

TELEPHONES: No facilities for placing telephones on board.

GENERAL: *Quarantine:* Hiroshima Quarantine Office, Niihama Detached Office, Nishibara-cho, Niihama, tel. Niihama 2–3966.

Customs: Kobe Customs, Niihama Branch Customs, Nishibara-cho, Niihama, tel. Niihama 2–3405.

Immigration: Niihama Port Station, Takamatsu Immigration Office, Nishibara-cho, Niihama, tel. Niihama 2–2672.

Maritime Bureau: Sanbashi-dori, Niihama, tel. Niihama 2–2855.

Maritime Safety Agency: Nishibara-cho, Niihama, tel. Niihama 2–3879.

Emergency Procedure: No Harbour Master radio available, therefore cable Agent. Telephone sub-agent since one person will be in attendance even during night, who in turn will contact person in charge.

Salvage: No salvage tug stationed, nearest from Kure.

SHORE LEAVE: Crew allowed ashore with pass.

AUTHORITY: Port and Harbour Bureau.

AGENT: Sub-agents of Dodwell & Co. Ltd., Tokyo. Sumitomo Warehouse Co. Ltd., 2–5, Sobiraki-cho, Niihama-shi, Ehime-ken. Cable Address: Sumitomosoko Niihama. Domestic Telex: 584–4432. Tel.: Niihama (0897) 37–1101.

NISHIHARA (Buckner Bay), Okinawa: 26.14 N. 127.50 E. (See Plan Book)

LOCATION: The Nansei Sekiyu Ltd. Refinery is located in Nishihara village on the East coast of Okinawa, towards the Southern end of Nakagusuku Bay (Buckner Bay). Also see "Max. Size". There is also a Nihon Sekiyu Terminal-SBM about 1 mile North of the NSS SALM.

DOCUMENTS:

3 Manifests
6 Crew Lists
1 Passenger List
1 Store List
1 Personal Effects List
Ship's Register
International Loadline Certificate
Safety Equipment Certificate
Derating Examination Certificate
Last Port Clearance

For Customs, Quarantine and Agent use

Each crew member will be issued with an Official Pass, which must be returned prior vessel sailing.

PILOTAGE: Normally vessels will be expected to enter Nakagusuku Bay through entrance marked Tatsu Kuchi, and pick up Berthing Master inside bay – South of Tsuken Jima. Inside bay Berthing Master requests that vessel keeps South of buoy marking Chikunigaa Shoal. Berthing shall be carried out daytime only.

A safe convenient Pilot ladder is to be provided for the Berthing Master. Berthing Master stays aboard vessel throughout discharge.

MAX. SIZE: For crude vessels a single point mooring (SALM – Single Anchor Leg Type Mooring), capable of handling vessels from 90,000 d.w.t. to 270,000 d.w.t. is established in approximate position Lat. 26° 14′ N. Long. 127° 49.7′ E. about 2.5 miles offshore.

Products are shipped from a pier connected to the shore – the pier has 2 berths, 1 for vessels up to 65,000 d.w.t. and 1 for small vessels up to 4,000 d.w.t.

PRATIQUE: Port Officials will board vessel after berthing.

RADIO: Crude vessels discharging at Nishihara should report ETA at Pilot station (26° 13′ N., 12 ° 52′ E.) 72, 48, 24, 12 hours prior arrival. Berthing instructions and time of Pilot boarding will be relayed by a telegraph appointed Agent, refinery has no VHF radio.

Weather reports essential – particularly during typhoon season.

Naha Radio – JCX medium wave 500 kHz. Traffic lists broadcast at odd hours GMT. Short wave 6470 kHz, traffic lists broadcast at even hours GMT.

ANCHORAGE: Navigation and anchorage in the waters near the NSS product pier and crude berth will in so far as possible be restricted to those ships directed into these waters by Berthing Master. In the interest of safety, ships will not enter the restricted area unless so directed by Berthing Master. The restricted area is within the following boundaries:

Beginning at a point described as 26° 13′ 33.88″ N. Lat. and 127° 47′ 30.24″ E. Long. (N. 25,074.89, E. 29,145.48); thence running S. 60° 00′ 00″ E. a distance of 200 m. to an angle point described as Lat. 26° 13′ 30.62″ N., Long. 127° 47′ 36.48″ E. (24,974.89, N. 29,318.69 E.); thence running S. 35° 40′ 45″ E. a distance of 1,170 m. to an angle point described as 26° 12′ 59.69″ N. Lat., 127° 48′ 00.98″ E. Long. (N. 24,024.88, E. 30,000.82); thence running N. 45° E. a distance of 3,350 m. to a point on the circumference of a circle described as 26° 14′ 20″ N. Lat., 127° 49′ 30″ E. Long.; thence running to the right a distance of 3,710 m. along said circumference, which is described by a radius of 1,060 m. with its centre located at 26° 13′ 56.18″ N. Lat., 127° 50′ 00.00″ E. Long. (N. 25,771, E. 33,300) to a point on the circumference described as 26° 13′ 30″ N. Lat., 127° 50′ 22″ E. Long. thence running S. 48° W. a distance of 1,780 m. to the Naka Sone buoy located at 26° 12′ 54.2″ N. Lat., 127° 49′ 37.5″ E. Long. thence running S. 53° W. a distance of 1,940 m. to the Wara reef located at 26° 12′ 17.7″ N. Lat., 127° 48′ 45.0″ E. Long., thence running W. 18° N. a distance of 2,810 m. to a buoy located at 26° 12′ 44″ N. Lat., 127° 47′ 07″ E. Long., thence running N. 17° W. a distance of 710 m. to a point at 26° 12′ 46.42″ N. Lat., 127° 47′ 56.61″ E. Long., (23,616.16, N. 29,880.55 E.).

TUGS: Two tug boats and a launch are available for assistance in mooring or departing. The Berthing Master in consultation with the Master will decide the number of tugs required for the berthing operation and for standby during the time at berth.

CRUDE BERTH: Single buoy mooring with vessel secured by 2 heavy polypropylene lines from buoy. Lines connected to chains through Bow Mooring Pipe and secured inboard. Chains secured direct to Brega Pin or by double mooring wire or mooring rope (Polypropylene over 8 in.) to bollards, port and starboard side of forecastle head. There is 85 ft. of water at buoy position. Vessels may remain in berth in winds of up to 50 m.p.h.

Floating hoses, 2×24 in. to 2×20 in. connected to 2×16 in. are connected on vessel's port side. There is a 42-in. line from buoy to shore. The maximum pumping rate is 75,000 b.p.h.

PRODUCT PIER: A 290° orientation of the pier allows tankers to approach the berth in a ballasted condition in either of 2 opposite directions. Vessels of 4 m.d.w.t. size and above will be handled at Berth No. 1 and smaller vessels at Berth No. 2.

The water depth at the pier is approximately 47 ft. The extreme tidal variation is +7.9 ft. to –1.0 ft. and maximum storm tide will add approximately 3 ft. The maximum current is less than 1 knot.

Berth No. 1 is equipped with 1–16 in. loading arm for clean products and 2–16 in. loading arms for dark products. Each of these all-metal hydraulically controlled loading arms is fitted with a remotely operated coupling device to connect to a nominal 10 in. ASA, DIN or BS flanged connection without bolting.

Berth No. 2 is equipped with 2–6 in. loading arms for dark products. These arms are part metal, part hose and are fitted with flanges to be bolted to a nominal 6 in. ASA, DIN or BS flanged connection.

Bunker fuel is available at both berths through meters and 4 in. hose connections.

Each berth is provided with a gangway.

Vessels will deballast through the loading arms into a 24 in. ballast water line leading to refinery tankage. Under no circumstances should a vessel discharge any ballast water directly to the bay.

Fire protection at the pier consists of a foam concentrate tank and proportioning pump, a fire water pump and distribution system, fixed combination water–foam monitors and air–foam play-pipes.

TIME: GMT plus nine hours.

SHORE LEAVE: Shore leave is permitted – launch service may be arranged but is at vessel's expense.

AUTHORITY: Nansei Sekiyu K.K., Nishihara Refinery, Okinawa.

OFUNATO: 39.03 N. 141.44 E.

DOCUMENTS:

Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Not compulsory but recommended as many fishing obstructions in the harbour. Pilot boards about two miles from entrance of Ofunato Bay, at 38° 59′ N. and 141° 48′ E., where depth 35 m. (but not after dark). Master must radio vessel's Agent of ETA 24 hours in advance, because neither telegraphic address of pilot station nor VHF available.

ANCHORAGE: Not suitable in stormy weather. Depth of water at anchorage 30 to 40 m. Quarantine anchorage located between radius 500 m. of 38° 59′ N. 141° 48′ E.

RESTRICTIONS: Depth of water at entrance of passage 14 m., oil tanker's draft restricted to 11 m. and draft of log and coke carriers restricted to 8 m. Depth of water alongside wharf 9 m. at mean level.

MAX. SIZE: *Tankers:* Kamei Oil Piers Max. d.w.t. 35,000 Max. L.O.A., 210 m. Max. Safe draft 11.0 m.

Log and Coke Carriers: Max. LOA 180 m., max. draft 8.0 m. Tidal range 1–1.4 m.

HEALTH: Radio pratique available. Formalities carried out at the anchorage.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.

TUGS: Small tugs 800 h.p. and 600 h.p. available. Large tugs (2,400 h.p.) can be arranged from Kaimaishi with advance notice, they usually join vessel about 400 m. in front of jetty and discharging wharf. Ship's lines used if necessary.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hrs. 50% additional of basic stevedorage; 2100–0500 hrs. next morning 130% additional; Sundays/holidays 60% additional.

MEDICAL: No advance notice required unless urgent.

TANKERS: One tanker berth. Product handled, Diesel Oil. Shoreline, 8″×2. Discharge rate, 800 t.p.h.

DENSITY: Average density 1020.

FRESH WATER: Available from shore installation. Supply 10 – 15 tons per hour.

FUEL: Domestic oil is available; Bonded oil will be brought from Yokohama or Hakodate, with sufficient advance notice.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore, but no spirits.

CONSULS: None.

REPAIRS: Minor deck and engine repairs available.

DRY DOCKS: None.

REPATRIATION: Possible.

AIRPORT: Hanamaki Airport about 17 km. from Ofunato. All Nippon Air Lines; two flights between Hanamaki/Tokyo every day.

TIME: GMT plus 9. No alterations made to clocks during year.

TELEPHONES: No facilities for placing telephones on board.

GENERAL: Discharging ex-gearless vessel at wharf unavailable, because no shore crane for discharge.

SERVICES: Surveyor: NKKK and Kentei Shin Nihonsha. Hold and tank cleaning. Provisions/Laundry/Water. Bunker: Domestic diesel oil available.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days; 3 days extension possible if ship stays longer.

AUTHORITY: Ofunato Port Office.

AGENT: Sub-agents of Dodwell & Co. Ltd., Tokyo. Morita & Co. Ltd., No. 108 Chayamae, Ofunato-cho, Ofunato-shi, Iwate-ken. Cable Address: Morita Ofunato. Domestic Telex: 8382-32. Tel.: (01922) 6-5131. Postal No.: 022.

OITA: 33.17 N. 131.40 E. (See Plan Book)

DOCUMENTS: When ship arrives direct from foreign port, customs officials will board the vessel for search. The following documents are to be submitted:–

Crew List.
Passenger List.
Store List.
Declaration of Crew's baggage. (Must be signed by individual Crew member).
Arms and Ammunition List.
Narcotics List.
List of Ports of Call on Current Voyage.
Discharging Cargo Manifest.
Through Cargo Manifest.
Declaration Inward/Outward (Form No. C2000).

The following will be checked on board:–

Ship's Registry.
Last Port Clearance.

When ship comes from Japanese port, Customs officials will not attend on board, except special case. The Master or Agents are to attend at Customs House for entry formalities with the following documents:–

Discharging cargo Manifest.
Through cargo manifest.
Declaration Inward/Outward.
Ship's Registry.
Last Port Clearance.
Documents entrusted with the Master by Customs at previous Port.
Store List.

On ship's departure, a clearance is issued by Customs, after confirming payment of tonnage dues.

No customs house open outside office hours except when advance notice given.

Immigration: Immigration Officials board vessel on her arrival in port to examine passports, discharge books and or other equivalent travel documents and provide 72-hour landing passes for Crew members and passengers. 2 copies each of crew list and passenger list are required by them. Providing ship's Agents with a crew list beforehand will be a great help in expediting immigration business on ship's arrival. When ship stays in port more than 72 hours, the landing passes may be extended every 72 hours on application.

In the event that Crew members, without entry visas, are to be landed for repatriation or transfer, Immigration will not permit their landing unless passage, by either sea or air, ensuring the prompt departure from Japan (within 72 hours) of these men have been booked, or unless the ships to which they are to be transferred, arrive in Japan within 5 days.

PILOTAGE: Not compulsory.

Harbour and sea pilotage are not compulsory, but foreign vessels are recommended to take Pilot from Sekisaki at the position 3 miles South from Sekisaki lighthouse: 33° 13′ N., 131° 54′ E. to the berth via Quarantine station and vice-versa. However, the Master of the vessel may also obtain Pilot at Oita anchorage or Oita quarantine anchorage.

Request must be made at least 24 hours in advance and Pilot should be kept closely advised of vessel's accurate ETA at pilot station. If there is any change in vessel's movements, the Master is requested to immediately radio to the Pilot office directly or through Agents reporting the revised ETA. The cable address of the pilot office is "Anjin Moji".

ANCHORAGES:

No.	Depth (m.)	Capacity (g.r.t.)	Position	Remarks
No. 1	37–38	Under 20,000	33° 16′ 26″ N. 131° 38′ 44″ E.	Within radius of 100 m.
(265°, 3,400 m. from Tsurusaki Hakuchi Breakwater East Lighthouse "A" point).

Quarantine Anchorage	25–43 m.		33° 16′ 00″ N. 131° 46′ 00″ E. (Centre)	

*It is necessary to obtain permission from Harbour before vessel's arrival.

RESTRICTIONS:
Berthing: During daytime only.
Departure: Night departure from wharves in generally impracticable, except vessels at Sea-berth and Seihin berth can depart up to 2000 hrs. However, this will depend upon condition of weather, etc.

MAX. SIZE: See "Berthing" and "Tankers".

HEALTH:

(a) Quarantine Station: 33° 16′ 00″ N., 131° 46′ 00″ E.

(b) Quarantine inspection is not allowed inside port except when weather or other special reasons prevent the quarantine boat from approaching ship at anchorage.

Quarantine is effected in berth for a vessel more than 3,000 g.r.t., provided the vessel possesses valid (i) derat exemption/fumigation certificate. (ii) all crew/passengers are healthy. (Radio message from ship's Master for these items are required 2 days in advance).

(c) Quarantine service is rendered from sunrise to 1 hour before sunset.

(d) "Q" flag should be hoisted until ship has free pratique.

(e) When ship arrives from plague infected or suspected area within 10 days after she left such place, a 24 hour special quarantine is required.

All sanitary outlets must be closed and garbage must not be thrown overboard after ship reaches 60 miles off Japanese Coast.

(f) Radio free pratique possible.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically Westbound vessel, to Choshi, and Northbound to Nagasaki Radio respectively.

VHF: Vessel can keep in direct contact with port authorities in regard to their arrival, berthing instructions also Pilots requirements, etc., through VHF, the details of which are as follows:–

(a) Call sign: Oita Port Radio.

(b) Location of radio facilities: The transmitting and receiving station is located at the top of Mount Tohmiyama, Saganoseki (Sekisaki)

(c) Channel: Simplex 16 (Calling)
12 (Communicating)
14 (Communicating)
Antenna power: 50 W.

(d) Operating Hours: 0600–2000 hrs.

(e) Communicating range: Within a radius of 100 km. from the station at sea.

TUGS: Operator: Oita Rinkai Kogyo.

Tug	g.r.t.	H.P.
*Yuhi Maru	276	3,200 Schneider
*Kakuho Maru	199	3,500 C.P.P. Kort Nozzle
*Ryusei Maru	199	2,400 Z-Peller.
Udo Maru	141	2,000

*Hikita Maru	274	3,200 Z-Peller
*Daiho Maru	293	3,200 Z-Peller
Nagata Maru		3,000

It is a practice to use tug's line for berthing/unberthing.
*Fire extinguishing apparatus equipped.
Kyushu Oil Co., own a special boat equipped with an extinguisher system and station same when a tanker berthing/unberthing at their expense.

BERTHING:

Wharf	Length berth (m.)	Max. LOA (m.)	Max. Safe Draft (m.)	Capacity (d.w.t.)	Public or Private
Sumiyoshi					
No. 1	185	160	9.10	10,000×1	Public
No. 2	185	160	9.20	10,000×1	Public

(Larger size vessels can be accommodated at Nos. 1–2 wharves, using 2 berths)

Wharf	Length berth (m.)	Max. LOA (m.)	Max. Safe Draft (m.)	Capacity (d.w.t.)	Public or Private
Otozu:					
E–3	240	200	11	Under 30,000	Private (Nippon Steel Corp.)
E–4	200	170	11	Under 30,000	
E–5	200	170	12	Under 50,000	,, ,,
E–6	200	170	12	Under 50,000	,, ,,
E–7	200	170	12	Under 50,000	,, ,,

(Larger size vessels (max. 50,000 d.w.t. and 250 m. length O.A.) can be accommodated at the wharves, using 2 berths).

Control tower for vessel's entry/departure to and from Otozu Hakuchi is located at the end of Otozu Hakuchi, close by lighthouse.

Wharf	Length berth (m.)	Max. LOA (m.)	Max. Safe Draft (m.)	Capacity (d.w.t.)	Public or Private
Sea-Berths:					
N–1	310 (plus 125 m. dolphin)	350	22	50,000/200,000	Private (N.S.C.)
N–2	310 (plus 140 m. dolphin)	350	25	5,000/300,000	Private (N.S.C.)
N–3	350 (plus 140 m. dolphin)	350	22	50,000/100,000	Private (N.S.C.)
N–4	210	180	20	5,000/30,000	Private (N.S.C.)

STEVEDORES: *Stevedoring Companies:*

Nippon Express Co. – maximum 4 gangs are available.
(at Sumiyoshi public wharves – Tsurusaki Kairiku Unyu – maximum 4 gangs are available)

Hirohata Kaiun Kaisha – maximum 2 gangs are available for loading steel products (for export) at Nippon Steel Corp.

Tsurusaki Kairiku Unyu – maximum 2 gangs are available for loading steel products (for export).

Nippon Express Co. – maximum 2 gangs are available for discharge steel scrap and pig iron.

Kamigumi Co. – 3 gangs are available for discharging iron ore/coal.

Working Hours:

(a) At Sumiyoshi public wharves: 0800 to 1700 hrs. (No work on Sundays and holidays. No work can be arranged New Years holidays).

(b) At Nippon Steel Works (coal/iron ore) 3 shifts, 0600–1400, 1400–2200, 2200–0600 hrs.

At Nippon Steel Works (loading steel products) 3 shifts/actual nett working:

1.	0700–1100 hrs. meal 1100–1145 hrs.	
	1145–1500 hrs. oiling crane: 0700–0715 hrs.	7.00 hrs.
2.	1500–1800 hrs. meal 1800–1845 hrs.	
	1845–2215 hrs. oiling crane: 1500–1515 hrs.	6.15 hrs.
	2215–0200 hrs. meal 0200–0245 hrs	
3.	0245–0700 hrs. oiling crane: 2215–2230 hrs.	7.45 hrs.
		21.00 hrs.

Average loading/discharging rates:

Bulk cargo:

Iron Ore (sinter)	1600 t.p.h./crane/hatch (dis.)
Coal	1300 t.p.h./crane/hatch (dis.)
Steel Scrap:	1000 tons per day per crane (dis.)
Pig Iron:	2700 tons per day per crane (dis.)
Logs:	30 t.p.h./gang/hatch (dis.)
Steel Cargo: HR. Coil	200 t.p.h./gang/hatch (load)

CRANES:

Shore cranes:

1. Sumiyoshi public wharves— no crane available.
2. N.S.C. loading wharves — 50 t×1, 30 t×3, 20 t×3: (for HR. Coil)
   — 50 t×1, 35 t×1: (for M.S. Plate)
3. N.S.C. Sea-Berth — 81 t×3

Floating Crane: 40 tons capacity available.

MEDICAL: Hospitals available. No advance notice required unless urgent.

TANKERS: Private berths: 24 hours operations.

Kyushu Oil Jetty (Dolphin Style):

Length of berth 480 m, max. LOA 350 m., Max. draft 20.10 m. Capacity 5,000/270,000 d.w.t.

A submarine type rubber oil fence is stretched around the berth.

5 unloading arms are installed on the unloading platform and can be connected directly to ship's manifold. 4 of these unloading arms are 12 in. diameter and used for discharging crude oil/fuel oil.

The other arm is 6 in. in diameter and used for bunkering. Nominal capacity for discharging crude oil is 10,000 Kl/hr. and for bunkering, 450 Kl/hr.

Following information required 3 days before arrival: Manifolds, type, size, number and distance between, also pump capacity.

Showa Yuka Naphtha Berth: (Dolphin) Length of berth 400 m. max. LOA 300 m. Max. draft 15 m. Capacity 5,000/70,000 d.w.t.. Product handled – Naphtha. Rubber oil fence provided at berth.

DENSITY: (Average):

1.023 in Summer season at Sumiyoshi.
1.023 in Summer season at Sea-Berth.
1.021/1.023 in Summer season at Otozu Hakuchi.
1.024 in Winter season at Sumiyoshi.
1.025 in Winter season at Sea-Berth.
1.021/1.025 in Winter season at Otozu.

FRESH WATER: Good fresh water is supplied from hydrants to vessel alongside wharves. The rate of delivery:

At Sea-Berth 30/50 t.p.h. Hydrants every 103 m. (12 hydrants).

At Otozu Wharf: 35/45 t.p.h. hydrants are every 50 m. (21 hydrants).

At Sumiyoshi Public Wharf: 25/30 t.p.h. hydrants every 100 m. (3 hydrants).

At Kyushu Oil Jetty: 25/30 t.p.h. (only 1 hydrant is available. 1 days advance notice required.

At Showa Yuka 70,000 d.w.t. Naphtha Berth: 25/30 t.p.h. 1 hydrant available. 1 days advance notice required.

150 tons water barge available at Oita for period of about 2 years from September, 1978 and in addition to this, oil barge (tank separated for fresh water) of 40 tons capacity available for emergency case.

FUEL: Bonded bunkers supplied by oil barges (except vessel at Kyushu Oil Jetty where rate of delivery is 450 kl/hr.

The rate of delivery: 200/500 t.p.h.

REPATRIATION: See "Documents – Immigration".

TIME: GMT plus 9 hours. No alteration made to clocks during year.

POLICE/AMBULANCE/FIRE: Police tel. 110; Ambulance and Fire 119.

TELEPHONES: No telephones can be placed on board.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

According to new Customs regulation, ship's Crew members are requested to land ashore by designated Micro bus or launch from ship at Sea-berth and by launch from ship at Seihin wharves via Customs house.

AIRPORT: Oita Airport: approx. 56 km. to the airport via land. Approx. 16 miles to the airport via sea (hovercraft). (Hovercrafts run between Oita City and the New Oita airport). Domestic line only, Toa Domestic Airlines and All Nippon Airways.

GENERAL: *Japan Maritime Disaster Prevention Centre:*

Tsurusaki Kairiku Unyiu K.K. are appointed by the Japan Maritime Disaster Prevention Centre as base for stock piling and use of the materials for removal of discharged oil.

Restrictions: It is prohibited to pump out bilges, to throw overboard sweepings, waste or garbage of any kind and cleaning dust out of holds, whilst the vessel is in port or in pilotage waters according to regulations. Also, not permitted to wash ship's deck and painting ship's outside shell platings.

Services: The following are available: Laundry, hold cleaning, fumigation, deck and engine stores, provisions, dunnage, Japanese charts (HO and BA charts available from Yokohama and Kobe respectively with adequate notice.).

DEVELOPMENTS: Land reclamation continues in 3 areas. Public wharves as well as private wharves will be constructed.

AUTHORITY: Port and Harbour Bureau.

AGENTS: Sub-Agents of Dodwell & Co. Ltd., Tokyo. Tsurusaki Kairiku Unyu K.K., 1000, Oaza Misa, Oita City, Japan. Postal Code 870-01. Tel. 0975–21–6111/9. Cables: Tsurukai Oita. Telex: 7723-89 Tsurukai.

OMISHIMA (Ohmishima) Inokuchi Port:
34.16 N. 133.00 E.

DOCUMENTS:

Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Inland Sea pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to Pilot station. Inland Sea Pilot Association covers all Inland Sea ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from one of three Pilot stations dependent upon vessels last port of departure and at Master's discretion. Pilotage available throughout 24 hours and 72 hours advance notice preferred, thereafter advising any alterations. Most Inland Sea pilots also act as harbour pilots up to berth or anchorage at destination. *Note:* No VHF communication available with Inland Sea pilot stations. Also see "Shipmasters Report" before first port.

1. Wadamisaki, at entrance to Kobe (vessels transitting Kii Straits). Position 34° 38′ N. 135° 11′ E. Telegraphic address "Anjin Kobe".

2. Sekisaki, 3 miles South of Sekisaki lighthouse (vessels transitting Bungo channel). Position 33° 13′ N. 131° 54′ E. Telegraphic address "Anjin Saganoseki". In event bad weather, recommended vessels proceed for shelter as near as possible having due regard to safety, to Sekisaki Pilot station.

3. Hesaki, at East side of Kanmon (Shimoneseki) Straits. Position 33° 56′ 24″ N. 131° 03′ 12″ E.

ANCHORAGE: Omishima Island located at centre of the Inland Sea and lies between Ehime and Hiroshima prefectures. Eastern part of island, Inokuchi surrounded by deep water where holding ground good. Oil company located at Inokuchi. No strong winds.

RESTRICTIONS: No restriction on entry; however mooring and unmooring to be carried out during day-time, regardless of tide and current.

MAX. SIZE: *Tankers:* Maruzen Pier, max. d.w.t. 20,000 tons. Max. LOA 230 m. Max. safe draft 9.40 m. However only vessels of 7,000 d.w.t. to discharge white oil, also coasters call to load.

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from day-light to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically Westbound vessel, to Choshi, and Northbound to Nagasaki Radio respectively.

TUGS: Join vessel at sea anchorage, always using tug's line without charge.

TANKERS: No advance information of loading/discharge lines required. No loading facility. Only one berth available for discharge. Product handled, Fuel Oil. Shoreline, 1×10″ Discharge Rate, 400 t.p.h.

DENSITY: Anchorage 1025. Berth 1025.

FRESH WATER: Not available but usually brought by barge from Onomichi (about 3 hrs. run to Omishima). Rate of delivery 80 tons to 200 tons per hour which depends on barge.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore, but no spirits.

CONSULS: No consuls. Nearest Consulates are in Kobe.

REPAIRS: Minor repairs only.

REPATRIATION: Possible.

AIRPORT: Nearest at Matsuyama and Takamatsu.

TIME: GMT plus 9. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Police 110; Ambulance 119; Fire 119.

TELEPHONES: Not available.

GENERAL: Closed port. To conform with regulations vessel obtains special permission from Maritime Bureau and Customs at Takamatsu to enter.

Customs request vessels calling Omishima to obtain permission to enter at preceding port of call by paying charge at same rate of tonnage dues prior to arrival. This procedure undertaken by Agent. No quarantine station, nearest at Matsuyama. Immigration officer comes from Niihama.

SHORE LEAVE: Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AGENT: See "Niihama".

ONAHAMA (Iwaki City): 36.56 N. 140.55 E.

The port is protected by breakwater, 8,200 ft. long and is open to the South.

DOCUMENTS:

Ship's Register.

Last Port Clearance.

3 Crew Lists including Passport Nos.

3 Passenger Lists.

1 Stores List.

1 Declaration of Crew's baggage, i.e. tobacco wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: No means of communication with Pilots and vessels should arrange pilotage by advising Agent of ETA. Not compulsory; Pilots are available at the anchorage (36° 53′ 05″ N. 140° 54′ E.) for vessels requiring Pilot services.

For Tankers at 36° 52′ 05″ N. 140° 54′ 00″ E.

ANCHORAGE: Just outside No. 1 West breakwater. Depth of water 14–22 m.

RESTRICTIONS: Restriction only by ship's draft. Depths of water alongside wharves 9 and 10 m. at low tide, and rise of tide is about 1.40 m. highest. Berthing daylight only. Unberthing anytime.

MAX SIZE: *Tankers*: Sea Berth: Max. 80,000 d.w.t. Depth 15.0 m. Max. safe draft, 14.00 m. (Also see "Berthing").

HEALTH: Radio pratique available. Formalities will be carried out at anchorage (36° 53′ 05″ N., 140° 54′ E.).

RADIO: Recommended Captain communicates with Agent through Chosi Radio or Nagasaki Radio which covers all ports in Japan. If specifically West bound vessel to Chosi and North bound to Nagasaki Radio respectively.

TUGS: Normally join vessel on passage from anchorage. Vessel's lines used. 4 tugs available, 1×2,400 h.p., 1×2,100 h.p and 2×800 h.p.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hrs. 50% additional of basic stevedorage; 2100–0500 hrs. next morning 130% additional; Sundays/holidays 60% additional.

MEDICAL: No advance notice required unless urgent.

TANKERS: Sea Berth: Product handled, Naphtha and Crude Oil. Shoreline 16″×2. Discharge rate 9,000 k/l per hour. Bunkers not available ex-pipe-line.

DENSITY: 1025.

FRESH WATER: Available from shore lines, at about 30 tons per hour. Additional 30% for overtime service; 1700–0800 hrs., Saturday afternoon, Sunday and holiday.

FUEL: Domestic oil is available; bonded oil will be brought from Yokohama with sufficent advance notice, when required.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnage. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: None.

REPAIRS: Minor repairs only.

DRY DOCKS: None.

TIME: GMT plus 9. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Iwaki (02465); Police 3–3141; Ambulance and Fire, 119.

TELEPHONES: No facilities for connecting on board.

SHIPMASTERS REPORT: June 1975

The port is protected by breakwaters, 1 running North and N.E. 11,170 ft. long and 1 running Westerly and W.S.W'ly 5,520 ft. long, the latter which affords some protection from Southerly swell. *Pilotage:* The Pilot boards at the main breakwater entrance. If possible, obtain Japanese Port Chart No. 63 and approach Chart No. 68.

Anchorage: If awaiting Pilot anchor approximately 1 mile E.S.E. of the Southern extremity of the East breakwater.
Max. Size: Several new berths have recently opened, including No. 5 and No. 6.
Health: The centre of the Quarantine anchorage is located 6 cables S.E. from the Southern extremity of the East breakwater. Radio pratique is accepted if a Japanese Sanitary Inspection Certificate is held.
AUTHORITY: Onahama Port Administration and Harbour Construction Office, Fukushima Prefecture.
AGENT: Sub-agent of Dodwell & Co. Ltd., Tokyo. Onahama Kairiku Unso Kaisha, Ltd., 36 Tatsumi-cho, Onahama, Iwaki-shi, Fukushima-ken. Cable Address: Kaiun Iwaki. Domestic Telex: 8922-80 Onakai J. Tel.: (0246) 53-3221/6. Postal No.: 971.

ONOMICHI-ITOZAKI (incl. Mihara, Matsunaga): 34.20 N. 133.16 E.

DOCUMENTS:
- Ship's Register.
- Last Port Clearance.
- 3 Crew Lists including Passport Nos.
- 3 Passenger Lists.
- 1 Store List.
- 1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declarations, 1 Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.
PILOTAGE: Inland Sea pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to pilot station. Inland Sea Pilot Association covers all Inland Sea Ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from one of three pilot stations dependent upon vessels last port of departure and at Master's discretion. Pilotage available throughout 24 hours and 72 hours advance notice preferred, thereafter advising any alterations. Most Inland Sea Pilots also act as Harbour Pilots up to berth or anchorage at destination. *Note:* No VHF communication available with Inland Sea Pilot stations. Also see 'Shipmaster's Report' before first port.

1. Wadamisaki, at entrance to Kobe (vessels transitting Kii Straits). Position 34° 38′ N. 135° 11′ E. Telegraphic address "Anjin Kobe".
2. Sekisaki, 3 miles South of Sekisaki lighthouse (vessels transitting Bungo Channel). Position 33° 13′ N., 131° 54′ E. Telegraphic address "Anjin Saganoseki". In event bad weather, recommended vessels proceed for shelter as near as possible having due regard to safety, to Sekisaki Pilot station.
3. Hesaki, at East side of Kanmon (Shimoneseki) Straits. Position 33° 56′ 24″ N. 131° 03′ 12″ E.

Inland Sea Pilot also berths vessels at anchorage berth (if Matsunaga Bay – logs), or pier in Itozaki district (Mihara section).
ANCHORAGES: Draft limitations: Itozaki-Mihara 7.5 m. Matsunaga Bay 8.5 m. Tidal range: Maximum (+) 3.91 m. Minimum (−) 0.09 m. Capacity for 3×20,000 ton vessels.
RESTRICTIONS: Entry possible anytime, sailing possible up to 2000 hrs.
HEALTH: Radio pratique not available. Vessels usually anchor at Wada-Misaki (off Kobe), or Hesaki (off Moji), where the authorities board and grant free pratique.
RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically Westbound vessel, to Choshi, and Northbound to Nagasaki Radio respectively.
TUGS: Brought from Fukuyama, Mizushima or Kure, when required.
BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

Berth	*Length (m.)*	*Depth (m.)*	*Permissible Draft and Length overall (m.)*	*Capacity (G/T)*
Municipal Nishigosho Pier	404	6.5	5.0×130	2,000
Municipal Shinhama Pier	250	5.5	4.5×100	2,000
Matsunaga Bay (Anchorage)		5.0–10.0		1×10,000 1× 6,000 1× 3,000

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gear not rigged on berthing, stevedores will do same for ship's crew. Overtime surcharges 1700–1900 hrs. 50% additional of basic stevedorage; 2100–0500 hrs. next morning 130% additional; Sundays/holidays 60% additional.
MEDICAL: No advance notice required unless urgent.
TANKERS: No facilities.
FRESH WATER: Available. Method of delivery (1) Barge. (2) Pier. Additional charge for overtime work and in event of bad weather.
FUEL: Domestic oil is available; Bonded oil will be brought from Kobe, Kanokawa, Hirohata or Moji.
OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.
CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance appears to be poor.
CUSTOMS ALLOWANCE: Only allowed 40 cigarettes to take ashore but no spirits.
REPAIRS: Minor repairs possible.
CONSULS: None.
REPATRIATION: Possible.
AIRPORT: Nearest, Tokyo International Airport.
TIME: GMT plus nine hours. Permanent.
POLICE/AMBULANCE/FIRE: Police 110; Ambulance/Fire 119.
TELEPHONES: No arrangements for placing telephones on board.
SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extensions possible if ship stays longer.
AUTHORITY: Port and Harbour Dept.
AGENT: Sub-agent of Dodwell and Co. Chugoku Kaiun Kaisha Ltd., Onomichi Chuo-Sanbashi Bldg., No. 10–3, Tsuchido 2-chome, Onomichi-shi, Hiroshima-ken. Cable Address: Chugokukaiun Onomichi. Domestic Telex: 6422-15. Tel.: Onomichi (0848) 22-3141/4.

OSAKA: 34.39 N. 135.26 E. (See Plan Book)

DOCUMENTS:
- Ship's Register.
- Last Port Clearance.
- 3 Crew Lists including Passport Nos.
- 3 Passenger Lists.
- 1 Store List.
- 1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.
PILOTAGE: 24 hours notice required. Telegraphic address: "Hanshinpilot Osaka". VHF contact on Channels 12, 16, 19, 20. Agents operate Channel 26. Three 15-ton Pilot boats with radio equipment to pilot office. Pilot boards anywhere within harbour limits. In event bad weather Pilot boards just inside breakwater when acknowledgement obtainable from Master. If awaiting Pilot, anchor inside harbour limits as near as possible to breakwater.
ANCHORAGES: Sections Nos. 7 and 8. Section 7 is quarantine anchorage. Section 8 for other vessels. Harbour Master allocates anchorage position prior vessel's arrival which radioed to Master by Agent. Max. draft about 42 ft.
RESTRICTIONS: Vessels only permitted enter from sunrise to 2000 hrs. However, order avoid danger, some wharves (oil wharf, Nakayama wharf and various shipyards where there is not enough space to conduct berthing operation), accept vessel only until sunset. Max. depth 39 ft. 4 in., Wharf No. 49.

Depth restrictions at other berths depend upon berth allocated. But less than 39 ft. 4 in.
MAX. SIZE: Max. permissible length, 750 ft., draft 34 ft. 6 in. Also see "Tankers".
HEALTH: Vessel requiring free pratique requested cable directly to "Quarantine Station", Osaka informing ETA, date of departure from last port, name of last port, number of crew and health condition. At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from day-light to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.

Radio Pratique is available only for a vessel which possesses Valid Sanitary Inspection Certificate issued by the Japanese Government.
RADIO: Osaka Port Radio, 24-hour VHF service on Channels 16, 12, 19 and 20. Osaka Harbour Radar has 24-hour navigation aid and weather information service. Contact by VHF Channels 16, 14 and 22.
TUGS: Tugs join vessel just before harbour entrance. Tug's lines used, no extra charge.

BERTHING: No specific requirements. Pilot boarding time will be notified by VHF or radio.

CONTAINER FACILITIES: Berths C1, C2, C3 and C4 each equipped with container handling gantry cranes. Berth C1 equipped to handle Roll-on/Roll-off.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gears not rigged on berthing, stevedores will do same for ship's crew. Overtime surcharges 1700–1900 hrs. 50% additional of basic stevedorage; 2100–0500 hrs. next morning 130% additional; Sundays/holidays 60% additional.

MEDICAL: No advance notice required unless urgent.

TANKERS: No slop discharge facilities. Wharf No. 49, Sakurajima Oil Wharf, max. LOA 210 m, max. safe draft 11.60 m. Product handled, Fuel oil, diesel oil. Minas Waxy. Shoreline 1×12in. Discharge rate 1,000 t.p.h.

Wharf No. 25. Max. LOA 210 m. Max. safe draft 10.30 m. Product handled, Fuel oil. Shoreline 1×14in. Discharge rate, 850 t.p.h.

DENSITY: Outside anchorage: 1023–1025. Near breakwater: 1020–1022. Average density inside breakwater 1020. Wharves near estuaries (Aji river, Shirinashi river, Kizu river and etc.): 1016–1020.

FRESH WATER: Methods of delivery: by barges or pipe-line. Rate of delivery: 200 ton barges – 4; 160 ton barges – 1; 60 ton barges – 1; Total – 6.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at max. 7 days prior notice.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore, but no spirits.

CARGO GEAR: See "Certificates", but no special requirements.

CONSULS: The following consulates available in Osaka:

Great Britain	Denmark	Mexico
Spain	Korea	

REPAIRS: All grades repairs possible.

DRY DOCKS: Mitsui Shipbuilding & Engineering Co. Ltd., Fujinagata Works, No. 1 dock size 446 ft. 2 in.×55 ft. 2 in., depth 17 ft. No. 2 dock size 541 ft. 2 in.×66 ft. 2 in., depth 23 ft. 5 in.

Hitachi Shipbuilding & Engineering Co. Ltd., No. 1 dock size 653 ft. 5 in.×88 ft., depth 34 ft. 3 in. No. 2 dock size 547 ft. 6 in.×75 ft. 3 in., depth 28 ft. 3 in.

Namura Shipyard Co. Ltd., No. 1 dock size 590 ft. 3 in.×90 ft. 1 in., depth 29 ft. 4 in. No. 2 dock size 478 ft. 7 in.×72 ft. 1 in., depth 29 ft. 1 in.

Sanoyasu Dockyard Co. Ltd., No. 1 dock size 508 ft. 3 in.×71 ft. 1 in., depth 24 ft. 2 in. No. 2 dock size 367 ft. 3 in.×55 ft. 6 in. depth 22 ft. 8 in.

AIRPORT: One hour required from Osaka Port to Osaka International Airport by car (about 25 km. distance). Regular airlines:

Overseas Lines, Japan Airlines, Cathay Pacific Airlines, China Airlines, Thai International Airlines, North West Airlines, Pan American Airlines, British Airways, Korean Airlines, Lufthansa Airlines, Scandinavian Airlines.

Domestic Lines, Japan Airlines, All Nippon Airways, Toa Airways.

TIME: GMT plus 9. No alterations made to clocks during year.

HOLIDAYS: Public 20 July; Sakurajima Nil; Silo Wharf 20 July; Nakayama Steel Nil.

POLICE/AMBULANCE/FIRE: Police tel. 110; Ambulance tel. 119; Fire tel. 119.

SERVICES: All services available.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AUTHORITY: Port and Harbour Bureau.

AGENT: Dodwell Tramp Agencies, Osaka Kagaku-Seni Kaikan, 39, 5-chome, Kawara-machi, Higashi-ku, Osaka. International Telex: J63250. Cable Address: Dodtramp Osaka. Domestic Telex: 522-3948. Telephone: (06) 203-5151.

OTARU: 43.12 N. 141.01 E. (See Plan Book)

DOCUMENTS:

Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Pilot district fixed by Ministry of Transport. Limit of Otaru piloting district is sea area surrounded by line drawn from Kayashiba-misaki to Horaiso-misaki and coast line. Licensed Pilots stationed in office from 0900 to 1700 hrs. When Pilot observes pilot signal or is requested by any other means he comes out to ship at once. Boarding place about one mile from North B.W. Lt. H. 70°. Pilot boat painted white and carries International Code flag "H" at forecastle deck. "Otaru Pilot" registered cable address for Otaru Pilot Association.

ANCHORAGE: Depth of water inside breakwater is 3.6 to 19.0 m. (average 9.4 m.) and nearly everywhere, except some Southern parts, good anchorage. Sea area, outside breakwater, also good holding for anchors, but be careful not to foul fishing nets. Around quarantine anchorage is best anchorage of ship staying outside breakwater.

RESTRICTIONS: Quarantine and Customs business between 0800 hrs. and 1700 hrs. Pilot: Vessel allowed to enter and leave day and night. Pilot assistance officially not compulsory but in practice necessary, and Pilots available 24 hours.

MAX. SIZE: *Buoys:* Four mooring buoys available for large vessels.

Pier and wharves: Four piers, two wharves, and one coal pier. Also No. 5 pier now under construction.

Mooring Buoys

Buoy Nos.	6
Position from North B.W. Lt.	218′ 650 m.
Buoyance (ton)	15
Available capacity (g/t)	12,000

Cargo handled: grain, soyabeans, timber, fertiliser, foodstuffs.

Piers and Quays

HEALTH: See Hakodate.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically Westbound vessel, to Choshi, and Northbound to Nagasaki Radio respectively.

TUGS: Two tugs available for large vessels. Tugs M/S "Sakura Maru" 147 g/t 1,000 h.p. M/S "Tatwiea Maru" 38 g/t 180 h.p. Both belong to city's Harbour Bureau.

Position: Tug boat waits and joins vessel near appointed berth according to Agent's request. Tug's line in general use.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gear not rigged on berthing, stevedores will do same for ship's crew at additional cost. Overtime surcharges 1700–1900 hrs. 50% additional of basic stevedorage; 2100–0500 hrs. next morning 130% additional; Sundays/holidays 100% additional.

MEDICAL: No advance notice required unless urgent.

TANKERS: Available berthing for small vessels only, 1,000 g/t and usual berthing 300–500 g/t. Japanese tankers only. Draft: max. permitted 7.2 m. discharging: about 100 k/t per 1 hour.

DENSITY: Average 1025.

FRESH WATER: Good drinking-water at all piers and wharves. Two water barges (both 150 tons) available when off shore in harbour. International code flag "YJ" used as "I want fresh water".

Remarks: Charges for water supply outside office hours (1700–0830) increased by 50% of basic. Very bad weather add 50%.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

FIRE PRECAUTIONS: No smoking at tanker berth, Umaya Machi Ganpeki No. 1 and No. 3 berth.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance appears to be poor.

CUSTOMS ALLOWANCES: Only allowed 20 cigarettes to take ashore, but no spirits.

CONSULS:

American Consulate, Sapporo in Sapporo City only.
Tel. 011-221-5121.

U.S.S.R. Consulate, Sapporo in Sapporo City only.
Tel. 011-561-3171.

Korean Consulate, Sapporo in Sapporo City only.
Tel. 011-621-0288.

REPAIRS: All type of deck and engine repair are possible.

DRY DOCKS: None.

REPATRIATION: Possible.

AIRPORT: Distance from airport to Agent's office at Otaru about 80 km. Service bus air station in Sapporo to airport by each airline. Charge: Y200. – Flights: JAL (from Chitose airport to Tokyo airport) 14 times per day. ANA (from Chitose airport to Tokyo airport) 13 times per day. Kokunai Koku twice per day.

TIME: GMT plus 9. No alterations made to clocks during year.

HOLIDAYS: Stevedores do not work on 1st May.

POLICE/AMBULANCE/FIRE: Tel. Police 110; Ambulance and Fire 119.

TELEPHONES: Arrangable on board.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AUTHORITY: Port and Harbour Bureau.

AGENT: Sub-agents of Dodwell & Co., Tokyo. Narasaki Sangyo Co. Ltd., Otaru Branch, Mitsui Bldg., 1–9 1-chome, Ironai-cho, Otaru-shi. Tel. Otaru (0134) 23-3281. Telegraphic "Narasaki Otaru". Telex: 9526-40.

OWASE: 34.04 N. 136.15 E.

DOCUMENTS:

Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare 2 Inward/outward Declarations, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Ocean-going vessels calling at Owase have cargo destined to Toho Oil, Owase Refinery only. There is no local Pilot Association in this port and the Oil Refinery's Dock Master boards all vessels as a Pilot. Pilot boarding time is passed to ship by ship's Agents after consulting with Pilot (Dock Master) and he boards vessel 1 mile East of Toto Island.

ANCHORAGE: Quarantine Anchorage position is 34° 4′ 13″ N. 136° 16′ 43″ E. Depth Water 60–80 m. Radius 500 m. However, it is not advisable for vessels to stay there for a long time as there are many fishing boats nearby.

RESTRICTIONS: According to Agreement between Fishery Association and Oil Refinery, ship's movement is prohibited at night.

MAX. SIZE: See "Tankers".

HEALTH: Radio pratique available. Formalities carried out after entering the port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which covers all ports in Japan. If specifically Westbound vessel to Choshi, and Northbound to Nagasaki Radio respectively.

TUGS: Tugs usually join vessel at Harbour Limit (near Sabaru Island) and tug's line is used. Tugs come from Nagoya.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

MEDICAL: No advance notice required unless urgent. Hospital facilities available.

TANKERS: *Toho Oil Owase Pier:* Depth of water 17.3 m. Max. d.w.t. 150,000. Max. LOA, 260 m. Max. safe draft 16.50 m. Product handled, crude oil. Shoreline 2×12 in. Discharge rate, 4,000 k/l per hour.

Toho Oil Sea Berth: Depth of water 21.0 m. Max. d.w.t. 210,000. Max. LOA, 350 m. Max. safe draft 19.00 m. Product handled, crude oil. Shoreline 2×20 in. Discharge rate 8,500 k/l per hour.

FRESH WATER: Fresh water can be supplied to the vessel from pipe at Quay. Supply Capacity 30 t.p.h.

FUEL: Domestic oil is available; Bonded oil will be brought from Nagoya, Yokohama, Chiba or Kobe.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS/REPAIRS/AIRPORT: None.

TIME: GMT plus 9 hrs. Permanent.

TELEPHONES: Emergency numbers, Owase Police Office (05972); 2–0004; Owase Fire Station (05972) 2–2020; Owase Hospital (05972) 2–2118. No facilities for placing telephones on board.

SHORE LEAVE: Local Immigration offices issue shore pass valid for only 3 days, but extension possible if ship stays longer.
AUTHORITY: Port and Harbour Dept.
AGENT: See "Yokkaichi" (Uyeno Unyu Shokai).

SAKAI: (Including Senboku and Hannan Port). 34.34 N. 135.27 E. (See Plan Book)

DOCUMENTS:

Ship's Register.
Last Port Clearance.
7 Crew Lists including Passport Nos.
2 Passenger Lists.
1 Store List
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (if first port of call in Japan).

Ship's Agent will prepare inwards/outward Declaration, 1 Cargo Manifest in transit using specific form. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Cable address "Hanshinpilot Osaka". 24 hours notice required. VHF (Osaka Port Radio), Chanel 16, JBD Osaka Radio, Channels 25, 26 and 27. Three boats capacity 15 tons, 147 h.p. Pilot boards anywhere within harbour area, but preferably at quarantine anchorage – sector No. 7. Bad weather: unable to take Pilot. Boarding measures: Safe Pilot ladder. Anchorage for vessel waiting Pilot: as Pilot boarding area.

Inland sea Pilot cable address: "Anjin Kobe" can also be used for following wharves: Kansai Oil Co. Ltd., Sakai Wharf; Koa Oil Co. Ltd., Sakai Wharf.

ANCHORAGE: Quarantine inspection carried out at quarantine anchorage Sect. No. 7 where max. draft 12.5 m. Vessels with draft over 12.5 m. have to obtain free pratique at other ports.

RESTRICTIONS: Entry not possible after sunset. Sailing possible anytime but Pilots not available after sunset.

(a) Arrival notice for ships over 500 tons gross must be given to Harbour Master 48 hrs. prior to arrival.

(b) Entrance passage draft limitation: 11.20 m.

MAX. SIZE:

DENSITY: Osaka Gas Wharf and Nippon Steel Corporation Wharves 1020 to 1025.

All other wharves, 1010 to 1025.

FRESH WATER: Minami Hakuchi anchorage by barges. All other wharves by shore line.

FUEL: Most domestic and bonded fuels available.

GANGWAY/DECK WATCHMEN: Recommended and compulsory for tankers working cargo.

OPENING/CLOSING HATCHES: Stevedores open and close hatches with terms subject to charter party.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance appears to be poor.

CUSTOMS ALLOWANCE: Each man allowed 200 cigarettes to take ashore but no spirits.

CARGO GEAR: See "Certificates" but no special requirements.

CONSULS: None.

REPAIRS: See "Osaka".

DRY DOCK: Hitachi Shipbuilding & Engineering Co. Ltd., Sakai Shipyard, Dock No. 2, length 455 m., width 63 m., depth 11 m., capacity 400,000 d.w.t.

REPATRIATION: Possible.

AIRPORT: International Airport Osaka, 45 km. distant.

TIME: GMT plus 9 hrs. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: See "Osaka".

TELEPHONES: Available except Nippon Steel Wharf and Public Wharf.

SHORE LEAVE: Local Immigration Officers issue shore-leave pass valid for 3 days, but a 9-day pass is obtainable in case where a vessel stays in port for longer period.

DEVELOPMENTS: 40 berths under construction at Sakai-Seaboku. Max. depth 12 m. 58 berths under construction at Hannan, depths from 4 m.–7.5 m.

AUTHORITY: Port Administration Office.

AGENTS: See "Osaka".

SAKAIDE: 34.19 N. 133.51 E. (See Plan Book)

DOCUMENTS:

Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc (only at first port of call in Japan).

Ship's Agents will prepare Inward/Outward Declaration, Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Inland Sea pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to Pilot station. Inland Sea Pilot Association covers all Inland Sea ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from one of three Pilot stations dependent upon vessels last port of departure and at Master's discretion. Pilotage available throughout 24 hours and 72 hours advance notice preferred, thereafter advising any alterations. Most Inland Sea Pilots also act as Harbour Pilots up to berth or anchorage at destination. Also see "Shipmasters Report" before first port.

1. Wadamisaki, at entrance to Kobe (vessels transitting Kii Straits) Position 34° 38′ N.; 135° 11′ E. Telegraphic address "Anjin Kobe".
2. Sekisaki, 3 miles South of Sekisaki lighthouse (vessels transitting Bungo Channel). Position 33° 13′ N. 131° 54′ E. Telegraphic address "Anjin Saganoseki". In event bad weather, recommended vessels proceed for shelter as near as possible having due regard to safety, to Sekisaki Pilot station.
3. Hesaki, at East side of Kanmon (Shimonoseki) Straits. Position 33° 56′ 24″ N. 131° 03′ 12″ E.

ANCHORAGE: Port located on North coast at East part of Shikoku Island in Inland Sea.

Boundaries and Areas. Area bounded by line joined with three points, East corner of Sosha river mouth, Mamako-Hana of Semi Jima and Tako-Saki of Shotsuji-Yama.

Depth of water inside harbour limit: 11 m. outside harbour limit: 13 m.

RESTRICTIONS: Vessels entering and/or leaving during daytime only at wharves; but done day and night at sea anchorage provided favourable weather conditions prevail.

MAX. SIZE: East section of Centre pier, length 160 m., breadth no limit, depth 9 m.

West section of Centre pier, length 110 m., breadth no limit, depth 7.50 m.

Mitsubishi Chemical Industries wharf, length 250 m., breadth no limit, depth 12 m.

Anchorage inside breakwater, length no limit, breadth no limit, depth 7–9 m.

Anchorage outside breakwater, length no limit, breadth no limit, depth 10 m.

Tankers: Asia Kyoseki Pier No. 1 – 195,000 d.w.t.

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from Cholera infected area within 10 days, Captain must advise crew and passengers health condition prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically Westbound vessel, to Choshi, and Northbound to Nagasaki Radio respectively.

VHF: *Shipmaster's Report:* There is a VHF radio station at Sakaide in position 34° 21′ 00″ N. 133° 51′ 00″ E. Watch is kept from 0600 to 2000 hrs. each day, using Channel 16. The radio station will indicate where to anchor if there is a delay in berthing.

TUGS: Wharves. Join vessel at sea anchorage, using tug's line without charge. Sea anchorage. No tug required in normal conditions.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agents mainly by radio.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gear not rigged on berthing, stevedores will do same for ship's crew. Overtime surcharges 1700–1900 hrs. 50% additional of basic stevedorage; 2100–0500 hrs. next morning 130% additional; Sundays/holidays 60% additional.

MEDICAL: No advance notice required unless urgent.

TANKERS: Asia Kyoseki refinery No. 2 pier. Depth 13 m. Product handled, Crude oil. Shorelines 2×20 in. (One for high sulphur and one for low sulphur). Discharge rate 2,000 t.p.h.

Asia Kyoseki Pier No. 1 (Sea Berth) for VLCCs, depth alongside 19.6 m.; 2×16 in. connections. Max. unloading rate 10,000 k/l.p.h.

DENSITY: Inside harbour limit 1025. Outside harbour limit 1025.

FRESH WATER: Sea anchorage. No water barge available but usually brought from Onomichi (about 4 hrs. run to Sakaide). Rate of delivery 80 tons to 200 tons per hour dependent on barge.

Centre pier: can be supplied by shore line with capacity 25 tons per hour.

Mitsubishi Chemical Industries wharf: Can be supplied by shore line with capacity 60 tons per hour.

FUEL: All grades of bonded bunkers are stocked in Tokyo, Ise Bay, Osaka and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at max. 7 days prior notice.

FIRE PRECAUTIONS: No specific precaution.

DEVELOPMENTS: There is a Sea-Berth under construction.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per gang per hour depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificate sometimes required by stevedores when cargo gear maintenance appears to be poor.

CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore, but no spirits.

CARGO GEAR: See "Certificates", but no special requirements.

CONSULS: None. See "Kobe".

REPAIRS: Only minor repairs.

DRY DOCKS: Kawasaki Heavy Industries Ltd., Sakaide, which is suitable to dry dock. Dock No. 2 for 500,000 d.w.t. vessel. 450 m.×72 m.×12.3 m. Not yet in action for ship repairs. Only used at present for ship building and after services.

REPATRIATION: Possible.

AIRPORT: No airport. Nearest Takamatsu, All Nippon Airways 11 flights to Osaka and one to Tokyo.

TIME: GMT plus 9. No alterations made to clocks during year.

HOLIDAYS: National Holidays – see "Niihama". Local Holidays: New Year's Day (Lunar Calendar) January 30th; May Day May 1st; Memorial Day of the Sea July 20th; Bon Festival August 8th.

No ship's movement can be effected on January 1st, 2nd and 3rd, August 8th and October 15th.

POLICE/AMBULANCE/FIRE: Police 110; Ambulance 119; Fire 119. Sakaide Maritime Safety Base, 6–2858.

TELEPHONES: No facilities for placing telephones on board.

GENERAL: Mitsubishi Chemical Industries Co. Ltd., Sakaide Works. As wharf of above works located outer harbour limit of Sakaide port, the undermentioned procedures required: In conformity with regulations, vessel required to get special permission for entering into closed port, which will be given from Shikoku Maritime Bureau.

Customs request vessel calls Mitsubishi Chemicals wharf to obtain special permission for entering. If tonnage dues paid prior arrival, this procedure will be attended to by Agent.

Waiting anchorage: Avoid Bisan Seto Boundary according to special water zone navigation order. Imperative to exclude water surfaces with established Fishery Privilege.

Vessels waiting to berth at centre pier are lightened at anchor.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AUTHORITY: Port Administration Office.

AGENTS: See "Niihama".

SAKATA: 38.57 N. 139.48 E. (See Plan Book)

Located at mouth of Mogami River. Strong wind blows from Japan Sea November to March.

In Winter season, wave height between 3 to 5 m., length 70 to 80 m. and period 7 to 10 seconds. Current South to North along coastline at 0.15 m. sec.

TIDAL RANGE:

Higher high water	+40 cm.
Spring tide high water	+28 cm.
Neap tide high water	+24 cm.
Mean sea level	+20 cm.
Neap tide low water	+16 cm.
Spring tide low water	+12 cm.

DOCUMENTS:

Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Stores List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc., (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Not compulsory but required. Order Pilot through Agent. Pilot boards about 600 m. off port entrance. In bad weather, wait instructions from Agent.

ANCHORAGE: All sea areas available for anchorage. No prohibited anchorage areas. Pilot station and quarantine anchorage position 38° 56.5′ N., 139° 48.0′ E.

RESTRICTIONS: Ship movements in daytime only.

MAX. SIZE: Restricted by depth alongside West Pier, 10 m.

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine Officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera-infected area within 10 days, Captain must advise crew and passengers' health condition to respective Quarantine Office through ship's Agent prior to arrival and close all soil pipes before entering port.

RADIO: Niigata. Call sign JCF. Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which covers all ports in Japan. If specifically Westbound vessel, to Choshi, and Northbound to Nagasaki Radio respectively.

TUGS: One of 800 h.p. and one 2,000 h.p.

BERTHING:

Name	*Depth*	*Length*	*No. Berths*
East Pier	7.5 m.	260 m.	2
West Pier	10.0 m.	185 m.	1
Ohama Pier	9.0 m.	330 m.	2
Sodeoka Pier	7.5 m.	390 m.	3
Buoy (Logs only)	10.0 m.	230 m.	1
Kominato Wharf	10.0 m.	370 m.	2
Sumikei Wharf (Private)	10.0 m.	260 m.	1

STEVEDORES: Working hours: 0800 to 1700 hrs.

Phosphate rock in bulk handled at a rate of 200 to 250 t.p.h by shore cranes.

Logs, 1,400 cu.m. per day are handled by ship's gear.

Rice, 900 to 1,000 tons per day loaded by ship's gear.

Manganese ore in bulk, 150 t.p.h. by shore crane, 120 t.p.h. by truck crane, 60 t.p.h. by ship's gear.

MEDICAL: No advance notice required unless urgent. Medical facilities available at Sakata City Hospital.

TANKERS: Draft not to exceed 8.5 m.

FRESH WATER: Available only from wharf at a rate of 25 t.p.h.

FUEL: Bunkers lightered from Hakodate provided at least 7 days' notice given.

GANGWAY/DECK WATCHMEN: Not specially required, unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance appears to be poor.

CUSTOMS ALLOWANCES: 200 cigarettes and three bottles of spirits per man.

CONSULS: Korean Consulate Tel. 0222–21–2751. Consul: Mr. Cho Kian.

REPAIRS: Minor repairs only.

REPATRIATION: Crew replacement conducted basis "landing for transfer to another vessel".

AIRPORT: Yamagata Airport, situated 105 km. from Sakata. Two flights per day.

TIME: GMT plus 9 hours. No alterations.

HOLIDAYS: Public offices closed on Sundays and National holidays. Cargo work every day except 1st, 2nd and 3rd January.

POLICE/AMBULANCE/FIRE: Police (urgent) 110; (usual) 2–6611; Ambulance (urgent) 119; Fire (urgent) 119; (usual) 2–3214.

TELEPHONES: No facilities for placing on board.

SERVICES: Compass adjustment.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 day extensions possible if ship stays longer.

AUTHORITY: Sakata Port Management Body.

AGENT: Sub-agent of Dodwell & Co., Tokyo. Sakata Kairiku Unso Co., Ltd., P.O. Box 35, 6–19, 2-chome, Funaba-cho, Sakata-shi, Yamagata-ken. Cable Address: Kairikusakata Sakata. Domestic Telex: 8733–08, Tel.: Sakata (0234) 22–1801.

SASEBO: 33.10 N. 129.43 E. (See Plan Book)

DOCUMENTS: See "General – Customs and Immigration".

PILOTAGE: Compulsory. Vessel should keep Pilot closely advised through Agent, of ETA Pilot station at least 24 hrs. prior arrival and any subsequent change. Pilot boards vessel 1 mile N.W. Kogosaki lighthouse. (33° 06′ N. 129° 38′ E.). In bad weather, Pilot will board at 33° 05′ 48″ N. 129° 40′ 24″ E.

Telegraphic address of Port Captain "JNK" 500 kc/s (Sasebo Maritime Safety Office).

ANCHORAGE: Ample good holding ground in inner harbour, but is controlled by U.S. Navy and only following anchorage available for commercial vessels: No. 3 Section, Depth 10 m.-37 m. Capacity (g/t) 20,000 tons and over × 20.

RESTRICTIONS: Entry and departure from sunset to sunrise only allowed under extenuating circumstances subject to Port Captain's special permission (MSTS chartered vessels excepted). No particular restrictions upon draft or tide conditions. Berthing during day only. Controlling depth of water – in the passage 23-54 m., at anchorage 10-37 m.

WEATHER: South-westerly winds prevail in Summer, while Northerly blows frequently in other seasons. Max. wind velocity recorded 26.1 m/sec. In early Spring dense fog prevails, but renders navigation impossible only for 7 days or so.

Tidal range 2.6 m. Current rate max. 1.5 knots in vicinity of harbour entrance at rising tide. At ebb tide, it flows in opposite direction and is faster than during flood, but not so strong as to hinder navigation.

MAX. SIZE: See "Berthing". No particular limitation for entering port. For berthing however, acceptable length, draft and breadth will be decided case by case in accordance with conditions of each berth consulting with Pilots, U.S. Navy and Port Captain. No tanker installations outside port.

HEALTH: See "Moji". Quarantine station: 33° 05′ 30″ N., 129° 42′ 00″ E. 1.5 mile East of Kogosaki lighthouse. Quarantine service from sunrise to 1 hour before sunset. "Q" flag should be hoisted until free pratique granted. When vessel arrives from plague and cholera infected or suspected area within 10 days (plague) and 5 days (cholera), 24-hour special quarantine required. All sanitary scuppers must be closed and garbage not thrown overboard after vessel reaches 60 miles off Japanese coast. Vessel chartered by MSTS or USN (GAA, T/C, CVC, V/C) shall be cleared by U.S. Navy Quarantine and service available after sunset also.

RADIO: See "Yokohama".

TUGS: Normally join vessel about 0.5-1 hour prior berthing and tug's lines used. Charge for use of lines included in tug hire.

BERTHING:

1	12 tons	S.S.K.

IDENTIFICATION CARDS: See "General – Immigration".

CONSULS: None.
REPAIRS: All deck and engine repairs possible.
DRY DOCKS: Sasebo Heavy Industries Co. Ltd. No. 3, dry dock: Length 370 m. Width 70 m. Depth 15 m. Max. ship (d.w.t.) 300,000. Another 5 dry docks available.
AIRPORT: Itazuke Airport, Fukuoka, about 120 km. (about 220 min. by taxi). Served by regular airlines. Nagasaki Airport, Nagasaki, about 50 km. (about 70 min. by taxi). 7 flights daily (All Nippon Airways).
TIME: GMT plus 9 hours. No alterations to clocks throughout year. **POLICE/AMBULANCE/FIRE:** Police Station: Sasebo 23-7161 (if emergency: 110). Ambulance Sasebo 23-5121 (Sasebo Fire Station). Fire Sasebo 119 (Sasebo Fire Station).
TELEPHONES: No facilities exist for placing telephones on board.
GENERAL: *Customs:* When vessel arrives direct from foreign port, Customs officials board for search. Following documents to be submitted. Crew List, Passenger List, Store List, Manifest of crew personal effects (must be signed by individual crew member). Arms and ammunition List, Narcotics List, List of Port of call on current voyage, Discharging Cargo Manifest, Through Cargo Manifest, Declaration inward/outward (Form No. C2000). Following will be checked on board. Ship's Registry, Last port clearance.

When vessel comes from Japanese port, Customs officals will not attend on board, except special case. Master or Agents to attend at Customs House for entry formalities with following documents. Discharging Cargo Manifest, Through Cargo Manifest, Declaration inward/outward, Ship's Registry, Last Port Clearance, documents entrusted with the Master by Customs at previous port.

On vessel's departure, clearance issued by Customs after confirming payment of tonnage dues.

Immigration: Immigration officials board vessel on arrival to examine passports, discharge books and/or other equivalent travel documents and provide a 72-hour landing pass for crew members and passengers. Two copies each of crew list and passenger list are required by them. Providing vessel's Agent with these documents beforehand will help in expediting immigration business on arrival. When vessel in port more than 72 hours, landing passes will be extended every 72 hours on application.

In event that crew members, without entry visas, to be landed for repatriation or transfer, Immigration will not permit their landing unless passage, by either sea or air, ensuring prompt departure from Japan (within 72 hours) of these men has been booked, or unless vessels to which they are to be transferred, arrive in Japan within 5 days. Services are rendered from 0900 hrs. to 1700 hrs.
MEDICAL: Hospital: U.S. Station Hospital (for U.S. military personnel only). Sasebo Dojinkai Hospital. Bussaka Dental Hospital. Tanaka Dental Hospital.
SERVICES: Hold cleaning. Compass adjusting. Fumigation.
AUTHORITY: Sasebo Harbour Administration.
AGENTS: Sub-agents of Dodwell & Co. Ltd., Tokyo. Nishikyushu Warehouse Co. Ltd., Tategami-cho, Sasebo-shi, Nagasaki-ken. Tel. Sasebo (0956) 24–6161. Telegraphic "Ringer Sasebo".

SHIMIZU: 35.01 N. 138.31 E. (See Plan Book)

DOCUMENTS: *Quarantine* (only when arriving from a foreign port):
1 Maritime Declaration of Health.
1 Crew List.
1 List of Passengers (if any on board).
Log Book and Registry, Certificate of Vaccination and Deratting Certificate (or Deratting Exemption Certificate) should be readily available.

Customs:
1 Declaration Inward/Outward of vessel.
1 Ship's Registry.
1 Last Port Clearance.
1 Store List including arms and narcotics.
2 Manifests of Cargo for discharge (prepared by Agents).
1 Manifest of Through Cargo.
1 Crew List.
1 List of Passengers.
1 Declaration of Crew's Baggage (only necessary if crew-members have to land personal effects ashore).
1 Parcel List.

Immigration:
2 Crew Lists.
1 Application for Shore-passes.
2 Lists of Passengers.
1 Declaration Inward/Outward of vessel.

Harbour Master:
1 Declaration Inward/Outward of vessel.

Port Authority:
1 Declaration Inward/Outward of vessel.

PILOTAGE: Pilotage should be arranged through Agent by VHF (Shimizu Port Radio, Channel 16, 12, 14, 20), or vessels requiring Pilot should hoist signal flag 'G'. Pilot Station: on the point 043° – 1500 m. from Shimizu Lighthouse (the lighthouse: 35° 00′ 24″ N. 138° 32′ 00″ E.)
ANCHORAGES: See Section 3 on Chart of Shimizu.
MAX. SIZE: Dry-cargo max. draft 12 m. Length and breadth no restriction.
HEALTH: Free pratique automatic calling at another Japanese port. Radio Pratique available.

RADIO:

Mode	Name of Station Call sign	Transmitting Frequency (kHz)	Class & Power (W)	Working Hour	Receiving Frequency	Use
MF	Shimizu Radio JGQ	500	A1 250 A2 550	H24	Public Telegram 468 kHz	Call & Reply

	Loading Arm	500 t.p.h.	1

SPECIAL CARGO HANDLING FACILITIES:
Container Berth: Okitsu No. 2 wharf No. 11 – No. 12, depth 12 m. length 440 m. (2 berths), 2 gantry cranes (capacity 30.5 tons each), 2 transtainers (capacity 30.5 tons each).
TANKERS: Toa-Nenryo Sea-Berth (7 berths); max. permitted draft 22 m., max. capacity 250,000 d.w.t. Diameter of discharge lines; 16 in. and 32 in.
STEVEDORES: Normally latest time to order gangs 1500 hrs. previous day.
MEDICAL: No advance notice required unless urgent.
DENSITY: 1023–1024.
FRESH WATER: Most berths supply by shore installations, otherwise barge.
FUEL: All grades of oil delivered by barge only.
FIRE PRECAUTIONS: Harbour fire-fighting corps with a fire-fighting boat.
GANGWAY/DECK WATCHMEN: Service of watchmen optional but not necessary.
OPENING/CLOSING HATCHES: Opening and closing of hatches may be done by Crew members or on request to Agent by stevedores.
CERTIFICATES: Ship Registry, Radio and Safety equipment Certificate, Derating Exemption Certificate, etc.
CUSTOMS ALLOWANCES: Tobacco: 60 cigarettes permitted. Wine or spirits, according to the length of voyage: none within 1 month voyage, 1 bottle over 1 month, 2 bottles over 3 months.
IDENTIFICATION CARDS: Passport or Seaman's Book.
CONSULS: None.
REPAIRS: Most repairs and overhauls possible.
DRY DOCKS: Kanazashi Shipyard (largest dry dock 120 m.× 18.6 m., 5,000 tons).
AIRPORT: 263 km. from Narita International Airport, 180 km. from Haneda.
TIME: GMT plus 9 hours. Permanent.
HOLIDAYS: No work from December 31 to January 3 and Shimizu Port Festival Day (Aug. 5).
POLICE/AMBULANCE/FIRE: Police 110; Ambulance 119; Fire 119; Water Police 52-0200.
TELEPHONE: Available on board, cost of connection: 45,000 yen plus actual expenses.
SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days but 3 days extension possible if ship stays longer.
DEVELOPMENTS: Sodeshi No. 1 wharf is under construction. Planned or scheduled completion date is 1980. This wharf will be provided with 4 berths for 30,000 d.w.t. class vessels (water depth 12 m.) and 5 berths for 5,000 d.w.t. class vessels (water depth 7.5 m.). Specially for container ships a 720 m. long straight berth is

under construction. It will be equipped with 3 gantry cranes. Total area of this wharf is 410,00 sq.m. of which 120,000 sq.m. of the East side will be allotted as a container yard.

SHIPMASTER'S REPORT: 1976.

Vessel 250,000 d.w.t., proceeding to Tonen Sea Berth.

Suggest "End of Passage" about 10–15 miles North of Omea Saki Light. Fairly high density traffic, particularly South of entrance to Suraya Wau.

Suraya Wau can be entered at any time day or night.

Pilot boards 1,500 m. 043° from Fukiai Light.

Deep draft signals to be displayed including the red flashing light.

Berthing/unberthing during daylight hours only.

Four tugs used, all with own lines with eye on the bitts. Vessel berthed port-side alongside heading 016° (T). Moorings used: 4 headlines, 3 breast lines and 2 springs, similar moorings required aft. Excellent shore gangway provided. Loading arms: 4×16-in. Chicksan.

A spill boom is placed around the vessel whilst alongside. Safety and pollution regulations placed onboard on arrival. Tape recording of the Terminal regulations played over the ships P.A. system before discharge commences. The Terminal representatives hold a safety meeting on board prior to discharge with the Master, Chief Engineer and Chief Officer.

Ullaging is witnessed by shore staff, samples and water dips taken.

Shore liberty boat arranged by Agent, journey ashore takes about 15 minutes.

AUTHORITY: Shimizu Port Administration Office.

AGENT: Sub-Agent of Dodwell & Co. Ltd. Suzuyo & Co., Ltd. 12, 3-chome Irifune-cho, Shimizu-shi, Shizuoka-ken. Cable Address: Suzuyo Shimizu. Domestic Telex: 3965-671, 672, 677 Suzuyo Smz. Tel.: Shimizu (0543) 53-3111/3914 and 52-1398.

SHIMONOSEKI (including Mutsure):

33.57 N. 130.58 E. (See Kanmon-Ko) **(See Plan Book)**

DOCUMENTS:

Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agents should be provided with necessary information about details of cargoes in advance.

PILOTAGE: See "Moji".

ANCHORAGE: Nishiyama anchorage located off Hikoshima Island, on Western end of Honshu Island. Max. draft 9.5 m. capacity 10,000×2.

Mutsure anchorage: undermentioned area is open port. The sea area surrounded by:

(*a*) Line connecting Daibahana on Takenoko Island and top of Wagora Island.
(*b*) Line connecting top of Wagora Island and Udonohama on Mutsure Island.
(*c*) Coastline between Udonohama and Unoishibana on Mutsure Island.
(*d*) Line connecting Unoishibana and Anse-no-Shiri in Shimonoseki.
(*e*) Line connecting Anse-no-Shiri and point at 370 m. from Daibahana on the line connecting Daibahana and top of Wagora Island.
(*f*) Line Long. 130° 54′ E.

Anchorage includes a part of quarantine anchorage and Mutsure oil berth; depth 10-25 m.

RESTRICTIONS: See "Moji".

MAX. SIZE:

Wharf	Numbers	Length	Depth	Capacity (g/t)
Western wharf	(3–4)	340 m.	6.5 m.	15,000×1
Daiichi Pier	(9–10)	330 m.	8.5 m.	24,000×1
	(12)	330 m.	8.0 m.	13,000×1
Daini Pier	(15–16)	340 m.	8.5 m.	15,000×1
	(17)	210 m.	9.1 m.	25,000×1
	(18–19)	260 m.	7.0 m.	5,000×2
	(20)	185 m.	9.0 m.	13,000×1
	(21)	185 m.	9.4 m.	13,000×1
	(24)	185 m.	9.5 m.	15,000×1
	(25)	185 m.	10.0 m.	15,000×1

For tank installations, see "Tankers".

HEALTH: See "Moji".
RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically West bound vessel to Choshi and North bound to Nagasaki Radio respectively.
VHF: See "Yawata".
TUGS: See "Moji".
BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.
BRIDGES: Kanmon Suspension Bridge was built in 1973 across Hayatomo Channel (narrowest place in Kanmon Strait, width of fairway 530 m.) between Shimonoseki and Moji. The height of the bridge from sea level is 61 m.
STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agents to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gear not rigged on berthing, stevedores will do same for ship's crew. Overtime surcharges 1700–1900 hrs. 50% additional of basic stevedorage; 2100–0500 hrs. next morning 130% additional; Sundays/holidays 60% additional.
MEDICAL: No advance notice required unless urgent.
TANKERS: Shell oil berth situated at Hikoshima, on Southwestern end of Honshu, facing Moji across Kanmon Strait. In vicinity of berth, flood tide sets to East, ebb tide to West, current about 5-6 knots. Mooring berth consists of 4 buoys, approximately 140 m. offshore, space between buoys being approximately 270 m.

Max. dimensions of vessel which can be safely accommodated are 18,000 d.w.t., length OA 170 m., breadth unlimited, draft 9 m. Product handled, fuel oil. Shoreline 1×8 in. Discharge rate 500 t.p.h.

Vessels only berthed or unberthed when tide sets to West during daytime only. In approaching berth, as vessel comes against tide, full engine power and tug assistance required. One 10 in. pipe connected to vessel; discharge efficiency per hour 500-600 kl.

Nissin Tanker Pier located about 610 m. South of Mutsure lighthouse. At this berth, West-going current stronger than East-going and ship taken to berth only on Westerly current, with stern towards South. Most suitable berthing time is 2-3 hrs. after commencement of West-going current. Max. dimension of vessel which can be accommodated at this berth is 100,000 d.w.t., LOA 250 m., draft 11 m. Product handled, fuel oil. Shoreline 2×8 in. Discharge rate 1,500 t.p.h.
DENSITY: 1025.
FRESH WATER: Good fresh water supplied either from water barge or from hydrants alongside wharves. Rate of delivery from water barge 50 t.p.h. and from hydrants 40-50 tons.
FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice. Also see "Moji, Fuel".
DEVELOPMENTS: At present, No. 18 wharf, mostly reclaimed land, used for ferry boat service linking Shimonoseki to Pusan, which opened service June 1970. After completion of reclamation, further 3 berths (Nos. 19, 20 & 21) will be equipped for larger vessels, where maximum draft planned 10 m.
GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.
OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can can complete it before berthing.
CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance appears to be poor.
CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore, but no spirits.
CARGO GEAR: See "Certificates", but no special requirements.
CONSULS: Korean Consul, Tel. (66) 5341.
REPAIRS: All types of repairs possible.
DRY DOCKS: Mitsubishi Heavy Industries Ltd. 4 dockyards (Nos. 3 & 4 for smaller vessels).
Hayashikane Shipbuilding K.K. 3 dockyards (Max. 1,100 g.t.).
Towa Shipbuilding K.K. 1 dockyard (Max. 1,000 g.t.).
Mitsubishi Heavy Industries Ltd.
Dimensions of dock

	Length m.	*Breadth m.*	*Draft m.*

1 Declaration of Crew's Personal Effects.

Agent should be provided with necessary information to prepare Inward/Outward Declarations and Cargo Manifests.
PILOTAGE: Not compulsory but can be arranged at request of Master. Pilot not available after dark. Pilot boards at Fairway Buoy "A", position 38° 13′ 15″ N. 141° 08′ 15″ E.
ANCHORAGE: Depth: 28 m. Bottom: Rock and sand. Anchorage not suitable in rough weather and as no sheltered anchorage nearby it is advisable for vessels to proceed offshore.
RESTRICTIONS: *For vessels entry into and sailing from Sendai:* Priority of entry and sailing from the port is given to ferries. Entry and sailing of other vessels is restricted to times outside ferry schedules. Entry of tankers controlled by Tohoku Oil Refinery Co. Ltd. under supervision of Harbour Master.
MAX. SIZE: See "Berthing".
HEALTH: Radio pratique available.
Sendai: Formalities will be carried out at the quarantine anchorage (38° 13′ 03″ N., 141° 06′ 42″ E.)
Shiogama: Formalities will be carried out at the quarantine anchorage.
RADIO: Choshi Radio or Nagasaki Radio.

TANKERS: *Tohoku Oil LPG Pier:* Vapour Line: 1×8 in., Liquid line connection (Propane) 2×12 in., Butane 1×12 in., Depth alongside 17.0 m. Dolphin berth situated in 17 m. depth of water. Length between dolphins, 125 m.

Vessel discharges through two 16 in. Chiksan loading arms each capable of receiving 4,000 t.p.h. Also 1×8 in. Chiksan loading arm for bunker.

There are no facilities for dirty ballast.
Storage capacity:

Crude Oil:	102,000 K/L×5 55,000 K/L×1
Fuel Oil:	31,000×5

New Sendai Oil Pier: Report received August 1978.
Position: 38° 16′ N., 141° 02′ E.

Pilot available at quarantine anchorage, position 38° 13′ N., 141° 06′ E. Fresh water available. Depth alongside 18 m. Permissible draft 17.0 m. Max. size 150,000 g.r.t.
FRESH WATER: Supplied by shore line at 40 t.p.h.
FUEL: *Sendai:* Domestic oil is available; bonded oil also available from Tohoku Oil K.K.

Shiogama: Domestic oil is available; bonded oil will be brought from Yokohama or Sendai, when required.
TIME: GMT plus 9 hours. No alterations during the year.
DEVELOPMENTS: 15 public wharves under construction to accommodate vessels of 15,000 – 40,000 d.w.t. for discharging and loading of general and bulk cargoes. Depth alongside 10 – 12 m.
AUTHORITY: Port Administration Office.

AGENT: Okimiya Transport Inc. 13-24, 2-chome Minatomachi, Shiogama-shi, Miyagi-ken. Cable address: Oki Shiogama. Domestic Telex: 8592-49 Oki Inc. Tel: (02236) 4-1161. Postal No. 985.

TAGONOURA: 35.08 N. 138.42 E.

PORT LIMITS: Commences 5 cables from the harbour entrance. A vessel is considered an "arrived ship" at this point.
DOCUMENTS: As for "Shimizu".
PILOTAGE: Ordered 24 hours in advance through Agents. If possible vessels should obtain Japanese Chart 1075 for the approaches and Japanese Harbour Plan No. (P) 98. Two fixed green leading lights visible 13 miles lead the ship through the entrance on a bearing of 323.5° True. Vessels should approach on this transit until 1 mile off the breakwater entrance which is marked by an occ. G. 6 second 12 mile light on the West breakwater and a occ. R. 6 second 13 mile light on the East breakwater. The Pilot will board from a tug 1 mile from the entrance. 2 tugs will attend for the entrance transit.
ANCHORAGE: Due to the steep nature of the coast no roadstead anchorages are available. In the event of having to wait for Pilot or weather to moderate it is necessary to steam outside the entrance.
RESTRICTIONS: The allowable draft should be verified with the Agents before arrival as this does vary, the average being 6.5 m. alongside the berth. The entrance channel has a minimum depth of 9 m. at all times.
MAX. SIZE: LOA 600 ft., beam 100 ft. These extremes are likely to be increased as the port develops.
HEALTH: Radio pratique is available if vessel holds a valid Japanese Sanitary Inspection Certificate, if not then quarantine will be cleared at Shimizu.
RADIO: Chosi radio. When nearing Shimizu a call can be made via Shimizu Radio VHF requesting them to telephone ETA to Tagonoura Pilot.
TUGS: 2 tugs normally required. These are ordered from Shimizu in advance by Tagonoura Agents. The same applies on departure.
BERTHING:

SPECIALISED CARGO FACILITIES: Tagonoura handles bulk phosphates, etc. Also liquid chemical carriers and tankers.
BRIDGES: None.
STEVEDORES: Private arrangements. Working hours: Weekdays 0830–2130 hrs. Labour not available 1st and 3rd Sundays of each month or January 1st–3rd or August 4th.
MEDICAL: Hospital and immediate services available.
TANKERS: Specific details unknown.
DENSITY: 1021
FRESH WATER: Unlimited. Available on the berth, rate less than 15 t.p.h. cost Yen 100 per ton.
FUEL: All grades and lubricants available from Chiba and Toyko.
REPAIRS: Minor repairs only available.
DRYDOCK: None.
SURVEYORS: Available at short notice from Shimizu, all societies.
GANGWAY/DECK WATCHMEN: Available but not necessary.
HATCHES: Opened and closed by crew.
CUSTOMS ALLOWANCES: As per "Shimizu".
CARGO GEAR: Ship's gear.
REPATRIATION: Possible. Frequent train services to Toyko.
AIRPORT: Haneda, Toyko.
TIME: J.S.T. GMT plus 9 hours throughout.
TELEPHONES: Available on the wharf only.
SERVICES: All services available at short notice from Shimizu or Toyko.
SHORE LEAVE: Possible.
IDENTIFICATION CARDS: 3 day passes issued, extended if necessary.
GENERAL: Vessel called 26th June to 2nd July discharged 10,000 tons phosphate rock.
DEVELOPMENTS: Deepening of the harbour and further berth development is in progress.
AUTHORITY: Tagonoura Port Administration.

AGENTS: Sub-Agent of Dodwell & Co., Tokyo. Suzuyo & Co., Ltd. Tagonoura Office, 1-179, Suzukawa, Fuji-shi, Shizuoka-ken. Cable address: Suzuyotago Fuji. Domestic Telex: 3925-446. Suzuyo Tagonoura Fuji. Tel: (0545) 33-0310.

TANABE: 33.44 N. 135.21 E.

DOCUMENTS:

Ship's Register.
Last Port Clearance.
3 Crew Lists, including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Not compulsory, but if required Agent to be advised 72 hours prior arrival. No pilotage sunset to sunrise. Anchorage waiting for Pilot 33° 42′ N.; 135° 19′ E. Pilot station 2,200 m. 315° from Banshono-hana lighthouse. Depth, 38 m.

ANCHORAGE: Waiting anchorage, 1,900 m. 40° from Banshono-hana lighthouse. Depth, 19 m. Bottom, sand and mud.

RESTRICTIONS: Max. draft, 9.5 m. (31ft.), high tide. Usual draft, under 8.5 m. (28 ft.).

HEALTH: Vessels usually anchor in the port of Owase or Shimotsu, where the authorities board and grant free pratique.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically Westbound vessel, to Choshi, and Northbound to Nagasaki Radio respectively.

TUGS: If required, ordered from Wakayama subject 3 days advance notice. Tug's line used, no extra charge.

BERTHING: 2 buoy-berths, depth 10 m. and 7.5 m.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gear not rigged on berthing, stevedores will do same for ship's crew. Overtime surcharges 1700-1900 hrs. (50% additional of basic stevedorage), 2100-0500 hrs. next morning (130% additional). Sundays/holidays (60% additional).

MEDICAL: No advance notice required unless urgent.

DENSITY: About 1.03.

TIDE: Tidal range. Maximum plus 2.13 m. Minimum minus 0.21 m.

FRESH WATER: Available by water-barge, capacity 30 tons. Daytime delivery only to buoy berths. 48 hours notice required.

FUEL: Bonded oil will be brought from Shimotsu or Kobe, when required.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo aboard.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance appears to be poor.

CUSTOMS ALLOWANCES: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: None.

REPAIRS: Minor repairs only.

AIRPORT: Shirahama Airport about 25 km. distant. Domestic flights only, daily to Tokyo, Osaka, and Nagoya.

TIME: GMT plus 9. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Tanabe police office, tel. 0739-22-1226; Ambulance, Chu-o Hospital, tel. 0739-22-8383; Fire department, tel. 0739-22-0931.

SERVICES: None available locally but obtainable from Osaka.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AUTHORITY: Port Administration Office.

AGENTS: Sub-agents of Dodwell & Co. Ltd., Tokyo. Shimamoto Kaiun K.K., 193 Kamiyashiki, Tanabe-shi, Wakayama-ken. Tel. Tanabe (0739) 24-2424. Telegraphic, Shimamoto Tanabe. Telex 5562-103.

TOBATA: 33.55 N. 130.51 E.
(See Kanmon-Ko).

DOCUMENTS:

Ship's Register.
Last Port Clearance.
3 Crew Lists including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Compulsory. Harbour Pilots and Inland Sea Pilots are available at the Pilots station or quarantine anchorage. Mutsure Pilots station. Lat. 33° 59′ 30″ N., Long. 130° 53′ 00″ E.

ANCHORAGES: No. 5 Section, Wakamatsu. Depth: 9–11 m. Capacity (g/t) 15,000×2. Quarantine anchorages also used when necessary.

WIND/TIDE: South-easterly winds prevail in the warm seasons and North-westerly winds in the Winter season. The maximum velocity recorded in the past being 18 m./sec. The tidal range is 2.145 m. The current at the channel leading to new port runs Southward at the flood and Northward at the ebb. The maximum speed of the current is about 3 knots. There is no current in the dock.

RESTRICTIONS:

(a) Vessels exceeding 20,000 tons gross may berth only within one hour before and/or after slack tide. Vessel's under 20,000 tons gross may berth regardless of current, if it does not exceed 5 knots.

(b) Night entry: Vessels under 10,000 gross tons may berth at Nos. 1, 2, 3 and 8 wharves until 2200 hrs. in Summer season and 2100 hrs. in Winter season, subject to Harbour Master's permission and Pilot's agreement.

(c) Night departure: Vessels under 20,000 gross tons allowed to sail from Nos. 1, 2, 3, 8 wharves and Nos. "A", "B", "C" buoys until 2200 hrs., regardless of current, provided they are moored with bow outward.

(d) Least depth in channel, 14.0 m.

MAX. SIZE: See "Berthing".

HEALTH: Formalities will be carried out at the anchorage. Quarantine station 105° – 2,800 m., (800 m. square) from Mutsure Lighthouse.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically Westbound vessel, to Choshi, and Northbound to Nagasaki Radio respectively.

TUGS: Two tugs join vessel at entrance of harbour (in front of harbour signal station). Vessels exceeding 20,000 tons gross require 3 tugs. One of them will join vessel at Mutsure leading into main harbour and 2 join vessel at entrance of port (in front of harbour signal station).

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

MEDICAL: Kinjyo Hospital, Yawata; Shimada Surgical Hospital, Yawata. No advance notice required unless urgent.

DENSITY: Average density in the port is about 1019–1021 in Summer season, 1025–1026 in Winter season.

FRESH WATER: Available in connecting lines from shore side at wharves Nos. 1, 2, 3, 8, 9. No. of hydrant 5 4 5 5 5. At buoys: from barges, arranged from Wakamatsu. Rate of delivery: 55–70 t.p.h., ex-hydrant, 60 t.p.h., barge. Overtime (0500–0800 hrs.) (1700–2200 hrs.), 50% add.; (2200–0500 hrs.), 100% add.; bad weather, 50% add.; Sundays and holidays, 50% add.; minimum quantity at Tobata, 30 tons; minimum quantity at Mutsure, 50 tons.

FUEL: Domestic oil is available, bonded oil will be brought from Moji, Ube or Ohita with sufficient advance notice, when required.

FIRE PRECAUTIONS: No tanker berth. Each tugboat equipped with fire extinguishing system for attending emergencies on request.

DEVELOPMENTS: No. 4 Wharf completed. Depth of water about 17 m., but also 2nd plan for 19 m. Berthing capacity, over 150,000 d.w.t.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo aboard.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.

CUSTOMS ALLOWANCES: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: See "Yawata".

REPAIRS: All types of deck and engine repairs possible afloat.

DRY DOCK: No dry dock.

REPATRIATION: Possible.

AIRPORT: See "Yawata".

TIME: GMT plus 9 hours. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Tobata Police Office, tel. 093-87-4321; Wakamatsu Water Police, Tobata Branch, tel. 093-87-1561; Ambulance/Fire: Tobata Fire Department, tel. 093-87-2621.

TELEPHONES: See "Yawata".

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AUTHORITY: Kitakyushuko Kanti-Kumiai.

AGENTS: Sub-agents of Dodwell & Co. Tokyo. Holme Ringer & Co. Ltd., 2nd Floor, Service Center Bldg., Outside West Gate, Tobata Works, Nippon Steel Corp., Kawashiro-cho, Tobata-ku, Kitakyushu-shi, Fukuoka-Ken. Cable Address: Ringer Tobata. Domestic Telex: Ringer Kik 7145–75. Tel.: (093) 861–0221, 871–1561 (Ext. 5678).

TOKUYAMA: 33.59 N. 131.45 E.

Port situated in Yamaguchi Prefecture on Western part of mainland, facing Seto Inland Sea. Surrounded by Oshima peninsula on the East, by Otsu-Shima and Uma-Shima (islands) on the S.W. and by the land on the North Forms a grand bay with deep water suitable for shelter. Sen-Shima and Kurokami-Shima (islands) lying in harbour, divide it into Tokuyama section and Tonda section.

DOCUMENTS:

(a) Customs. When vessel arrives direct from foreign port, Customs officials will board her for search. The following documents are to be submitted:

Crew List.
Passenger List.
Store List.
Manifest of Crew Personal Effects (must be signed by individual crew member).
Arms and Ammunition List.
Narcotics List.
List of Ports of Call on current voyage.
Discharging Cargo Manifest.
Through Cargo Manifest.
Declaration Inward/Outward (Form No. 02000).

The following will be checked on board: Ship's Registry, Last Port Clearance. When vessel comes from Japanese port, Customs officials will not attend on board, except special case. Master or Agent are to attend at Custom House for entry formalities with the following documents:

Discharging Cargo Manifest.
Through Cargo Manifest.
Declaration Inward/Outward.
Ship's Registry.
Last Port Clearance.
Documents entrusted with Master by Customs at previous port.

On vessel's departure a clearance is issued by Customs, after confirming payment of tonnage dues. Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

(b) Immigration. Immigration officials attend from Tokuyama. They board vessel on arrival to examine passports, discharge books and/or other equivalent travel documents, and provide 72-hour. landing passes for crew members and passengers. One copy each of Crew List and Passenger List are required by them. Providing ship's Agent with a Crew List beforehand will be a great help in expediting immigration business on vessel's arrival. When vessel stays in port more than 72 hours., the landing passes will be extended every 72 hours. on application. In event that crew members, without entry visas, are to be landed for repatriation or transfer, Immigration will not permit their landing unless passage, by either sea or air, ensuring the prompt departure from Japan (within 72 hours.) of these men has been booked, or unless vessels to which they are to be transferred, arrive in Japan within 5 days.

PILOTAGE:

Inland Sea Pilot (Sekisaki/Tokuyama): Not compulsory. Agent gives 24 hrs. notice to Pilot Association Moji, and advice if ETA changed. (Master to cable "Anjin Moji" in case ETA changed and believes that his advice, if relayed by Agent, will not reach in good time; for example, at night before date of arrival at Sekisaki). Location: 3 miles South of Sekisaki lighthouse (33° 13′ N., 131° 54′ E.). Pilot boards on vessel's arrival at pilot station day and night. No alternative area in event of bad weather. No VHF.

Harbour Pilot (Tokuyama Harbour or Tokuyama-wan): Not compulsory. Pilot boards in Tokuyama-wan at quarantine anchorage, or other anchorage to pilot to berth. Master who has not taken Pilot at Sekisaki should enter harbour without Pilot (no pilot station at entrance). Master to inquire position for anchoring from Agent prior arrival. Agent will advise Master in consideration of vessel's size, draft or nos. Of other vessels, especially supertankers in port.

ANCHORAGE: Quarantine anchorage, 34° 01′ N. 131° 46′ E., depth water 36 ft. Deeper water of more than 60 ft. about 2 miles S.W. of quarantine anchorage where quarantine board supertankers. If harbour congested, vessels, especially supertankers, anchor outer harbour. In this case quarantine go to outer harbour if advised by Master or Agent. In emergency or unable contact Agent, vessel can talk with Harbour Master by VHF, Channel 16, calling "Tokuyama Hoan". No restriction for entry into and/or departure from the anchorages after nightfall.

MAX. SIZE: Biggest recorded vessel to enter, 215,000 d.w.t., 64 ft. draft.

Tankers:

Berth	*Max. d.w.t.*	*Max. LOA (m)*	*Max. Safe Draft (m)*
Idemitsu Kosan Sea berth	No limit	No limit	19.50
Idemitsu Kosan Ohura No. 3 Jetty	50,000	250	12.00

Idemitsu Kosan	70,000	300	12.00
Idemitsu Kosan Centre Pier	35,000	220	11.00
Nippon Seiro Nishigamori Jetty	18,000	180	11.00

HEALTH: Radio Agent for free pratique not less than 12 hours. and not more than 36 hours. before arrival, advising full details of vessel and health conditions on board. When free pratique is granted by radio vessel will be required to submit the following documents to Quarantine Officer on arrival:

Maritime Declaration of Health.
Crew List.
Passenger List.

The following vessels will not be able to get radio pratique:

A vessel that has been in contact with an infected area or a suspected infected area within 15 days of arrival.

If a vessel has on board any case, or any suspected case of infectious disease, within 15 days of arrival.

If crew or passengers on board do not possess Valid Smallpox Vaccination Certificates.

If a vessel does not possess a valid Derat or Derat Exemption Certificate.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically Westbound vessel, to Choshi, and Northbound to Nagasaki Radio respectively.

TUGS: Join inside harbour. For supertankers outer harbour if requested. Tugs' lines used. 8 tugs available, up to 4000 h.p.

BERTHING: Also see "Tankers". No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

	Naphtha	24"×1	3,000	4 Chiksan.
Idemitsu Kosan	Crude Oil	18"×1	2,000	8"×2 Flexible.
Centre Pier	Fuel Oil	12"×2	1,500	
	Diesel Oil	10"×1	1,500	
	Kerosene	10"×1	800	
	Naphtha	14"×1	1,000	
Nippon Seiro	Raw Oil	12"×1	700	8"×1 Flexible.
Nishigamori Jetty	Fuel Oil	10"×1	500	

Idemitsu Sea berth: is located in Tokuyama Bay at the position of 33° 59.5′ N., 131° 46.1′ E., consisting of 7 mooring buoys. 130,000 d.w.t. tanker can be accommodated at this berth, being moored to buoys fore and aft. 4 powerful tug boats and 2 line boats are engaged in berthing/unberthing. The depth of water is 20 m.

Nippon Seiro Refinery: The mooring berth consists of 1 oil pier and 2 mooring buoys, to which vessel is moored fore and aft, keeping about 15 m. off the pier. The depth of water is 12 m.

Nippon Geon Wharf (25 ft.) (for LPG).

DENSITY: Salt. 1025.

FRESH WATER: Water barges available, 1 each of 450 tons, 350 tons and 160 tons. Hydrants at Idemitsu Central pier, Toyo Soda wharf. The rate of delivery: 50 t.p.h. from barge, 20 t.p.h. from hydrant.

FUEL: Major oil companies are represented and all grades of marine oil can be delivered usually by barge.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.

CUSTOMS ALLOWANCES: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: None.

REPAIRS: Minor repairs only.

DRY DOCKS: Kasado Dockyard in Kudamatsu-wan, entrance three miles E. of Tokuyama-wan entrance. Largest dry dock for 50,000 tonners and four other dry docks/building docks.

AIRPORT: Hiroshima (about 2.5 hours. by taxi/train), Ube (2 hours. by taxi/train) 2 flights a day.

TIME: GMT plus 9 hours. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Police, tel. 110; Ambulance and Fire, tel. 119.

TELEPHONES: No facilities for placing on board.

SERVICES: From Moji, Kobe or Osaka.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AUTHORITY: Port and Harbour Bureau.

AGENT: Sub-agents of Dodwell & Co. Ltd., Tokyo. Holme Ringer & Co. Ltd., c/o Sankyu Transportation & Engineering Co. Ltd., Shunan Branch, 12-7 Chikko-cho, Tokuyama-shi, Yamaguchi-ken. Cable address: "Ringer Tokuyama" Domestic Telex: 6765-93 Sankyu J. Tel.: Tokuyama (0834) 22-0039.

TOKYO: 35.43 N. 139.45 E. (See Plan Book)

DOCUMENTS:

4 copies Inward/Outward Declaration – (Form C.2000 prepared by Agent).

1 copy Berth Application (normally prepared by Agent).

3 Cargo Manifest (Form C.2030 prepared by Agent).

1 List Ship's Stores (Form C.2040).

2 Parcel List.

5 Passenger Manifest (Form C.2070).

5 Crew Manifest (Form C.2060).

1 Statement by Master (Form C.2020).

1 Declaration for Payment Tonnage Dues (prepared by Agent).

1 Maritime Declaration of Health.

1 Application for Shore Passes (prepared by Agent).

2 Baggage Lists (Form 5370).

PILOTAGE: 12 hrs. advance notice of ETA required. Pilot boats named Musashi, Takao, Tsukuba and Awase. No light or sound signals, use ship's radio in case necessity arises. Address: Tokyo Pilot Association, 3-26-82 Kaigan, Minato-ku, Tokyo (at the Southern tip of the Shibaura Wharf). Tel. (453) 1691.

Pilot boards vessel outside harbour. Vessel awaits Pilot around "Quarantine Anchorage".

Vessels requiring a Pilot for the Uraga Channel should radio request to Anjin Yokosuka advising ship's details and arriving time at No. 1 Uraga Channel light buoy. Uraga Channel Pilot embarks three/five miles S.S.E. of Kannonsaki lighthouse, and will disembark on arrival at destination port limits. Applications for Uraga Channel Pilot should reach pilot office 24 hrs. before vessels arrival at No. 1 Uraga Channel light buoy.

Vessels of 10,000 gross tons or more should give "Notification of Traffic" to ensure safety of their navigation in or near Uraga Suido and Nakanose traffic routes (normally by Agent).

ADVANCE APPLICATIONS: Passenger ships and large vessels using mooring facilities must submit applications for use of facilities to port managers (the Port and Harbour Bureau of Tokyo Metropolitan Government) through shipping firms or Agents 3 days before entry into port so that they may have berths designated.

When they want to use anchorage facilities, they must submit applications for use of anchorage areas to Tokyo-Yokohama Port Director (the Port and Harbour Section of the Tokyo Maritime Safety Agency) to have anchorage sites designated. Small vessels of less than 300 gross tons do not need to submit anchorage application.

When ships of over 500 gross tons want to enter port at night (from sunset to sunrise), must submit applications in advance to Port Director and receive permission. Copy of written permission given to captain of ship when ship has entered port.

A ship carrying explosives or any other dangerous cargo must submit 2 copies of application in advance for permission to use port to Port Director. Such ships required to stay outside port in No. 3 Area. However, they will be allowed to enter port when Port Director considers it allowable.

RESTRICTIONS: No. 1 fairway is long and narrow (4,200 m. × 300 m.) and carries considerable traffic. Vessels under 500 tons not permitted use fairway when vessel over 5,000 tons is in transit. Depth in channel 12 m.

DEPARTURE PROCEDURE: Ship over 300 tons departing must hoist signal in daytime and 2 white lamps at night and make two prolonged blasts of whistles or siren 30 minutes before starts to move and then act according to signals given by signal station on Shibaura Quay. Departure notice must be submitted to Maritime Safety Agency and port managers (Operations Section of Port and Harbour Bureau). Foreign ships must submit required documents in addition to above notice to Tokyo Custom House, Immigration Control Office

ANCHORAGES: See "Advance Applications".

Quarantine anchorage on starboard hand of No. 1 fairway.

Sector A triangular sea area formed by line passing through point 180° and 400 m. from light buoy No. 16 and point 105° and 240 m. from same light buoy. Accommodates one 1,000 ton class ship or 2 ships of 500 ton class or smaller.

Sector B circular area with radius 120 m. from point 295° and 380 m. from tide signal post of No. 3 Daiba. Accommodates one 1,000 ton class ship.

Sector C (263,330 sq.m.) is a space between Harumi Wharf and Toyosu Wharf. Accommodates five 2,000 ton class vessels.

Sector D (141,350 sq.m.) sea area enclosed by line drawn from point 217° and 400 m. from Northwestern tip of Tsukishima Fishery Base through No. 8 mooring buoy. No. 15 buoy and Southern tip of Tsukishima Fishery Base. Accommodates 5 vessels smaller than 1,000 tons, but 2 if vessels larger than 700 tons.

MAX. SIZE: (Draft) General/Bulk: 9.30 m. for buoys; 9.30 m. for Shinagawa and Harumi; 8.50 m. for Toyosu; 10.00 m. for Gochi No. 13 and 15. Passenger vessels up to 20,000 gross tons or cargo vessels up to 20,000 d.w.t.

(Tide). Vessels of said size will not be affected by tide. Largest vessels to enter: 38,914 d.w.t.

Tankers: One berth, Tokyo Gas Wharf. Max. d.w.t. 25,000. Max. LOA, 205 m. Max. safe draft 9.70 m.

HEALTH: Radio Agent for free pratique not less than 12 hrs. and not more than 36 hrs. before arrival, advising full details of vessel and health condition on board. When free pratique is granted by radio vessel will be required to submit the following documents to Quarantine Officer on arrival:

Maritime Declaration of Health.

Crew List.

Passenger List.

The following vessels will not be able to get radio pratique:

A vessel that has been in contact with an infected area or a suspected infected area within 15 days of arrival.

If a vessel has on board any case, or suspected case, of infectious disease within 15 days of arrival.

If crew or passengers on board do not possess valid Smallpox Vaccination Certificate.

If a vessel does not possess a valid Derat or Derat Exemption Certificate.

Medical inspection of plants: When a report is received in advance from a ship by telegraph or other means of communication, Tokyo Office of the Yokohama Plant Disease Prevention Station must be notified by telephone or verbally in request for an on-the-spot inspection of plant in question.

Medical inspection of animals: When a report is received from a ship in advance by telegraph or other means of communication, the Tokyo Branch or the Haneda Branch of Animal Disease Prevention Station must be notified by telephone or verbally in request for an on-the-spot inspection of the animals.

RADIO: Vessels entering are watched at all times at Torigasaki, the entrance gate to Tokyo Bay, and record of passing the point is taken. As each ship passes point, this is immediately communicated by VHF radio telephone to head office of Tokyo Signal Communications Company. From here news communicated on normal telephone or on exclusive direct call telephone to interested parties (also see "VHF").

Recommended Captain communicates with Agents through Choshi Radio or Nagasaki Radio which covers all ports in Japan. If specifically Westbound vessel, to Choshi, and Northbound to Nagasaki Radio respectively.

VHF:

A. Transmitting antenna:	Located 39° 26′ N. 139° 39′ E.
B. Type:	Single communication – Yagi type. Plural communication – corner reflector type.
C. Direction:	Southern part of entrance to Tokyo Bay and Port of Tokyo.
D. Frequency class:	F3.
E. Frequency:	Single communication – 156.6 mc/s., CH 12 156.7 mc/s., CH 14 156.8 mc/s., CH 16 (for calling, answering and safety) Plural communications – 161.6 mc/s., CH 20 161.7 mc/s., CH 22
F. Antenna power:	50 W.
G. Call sign:	Tokyo Port Radio.
H. Range:	Approx. 1,000 km (straight range) S.E. side – About 20 nautical miles South of Mojimazaki. S.W. side – About 5 nautical miles North of Oshima Island. North side – Tokyo Port and Chiba port.
I. Operating time:	All times.

Ship telephone: Uses VHF and is a service between navigating or anchored ships and subscriber telephones on land, and between ships connected via base station on land. Communicating sphere approximately 50 to 100 km. from base station. Base stations located so as to allow communication with any ship sailing along Japanese coasts.

Charges for device: Y1,000 for 1 telephone set and actual cost for use by ship.

Service charges: (in case Japan Telegraph and Telephone Public Corporation installed the unit) Y22,000 a month for long term, Y1,100 a day for short term.

Call charges: Within specified call area for ship telephone in general – Y90 up to 3 minutes and additional Y30 per minute after the 3 minutes.

TUGS: The port has 2 tug companies: (i) Toko Service Co. Ltd., 3-25-8, Kaigan, Minato-ku, Tokyo. Tel. (452) 4781. (ii) Shibaura Tsusen Co. Ltd., 3-1-3, Kaigan, Minato-ku, Tokyo. Tel. (455) 1461. Upon notification to either, tugs will be waiting in neighbourhood of scheduled berth. Ship's lines to be used.

BULK HANDLING FACILITIES: Containers handled at 2 berths at Shinagawa Wharf equipped with gantry cranes lifting capacity 30 tons and 37.5 tons.

There are also 8 container berths at Oi Wharf equipped with 16 gantry cranes of 30.5 tons capacity.

STEVEDORES: Advance advices should be made 24 hours at latest before vessel's arrival order arrange necessary gangs.

Discharge rates (approx.):

(a) Iron, steel and scrap, using crane or magnet, about 1,000 tons/day.

(b) Coal, crane and bucket, 1,500/2,000 tons/day.

(c) Ores, grabs and bulldozers, 1,000 tons/day.

(d) Timber, 1,000 tons/day.

(e) Grain, crane with bucket or suction, 1,000 tons/day.

MEDICAL: Hospitals, clinics and all specified facilities. Advance notice not necessary.

TANKERS: No slop discharge facilities (see "Services"). One tanker berth only. Products handled, Naphtha and Crude oil. Shorelines, one 12 in. for each product. Discharge rates 1,000 t.p.h. (Naphtha) 900-1,000 t.p.h. (Crude).

BERTHING: Any vessel entering port required to:

(1) Submit 1 each of "Declarations Inward/Outward of Vessels" to TMG and TMSA. See "Documents". (2) Submit "Application for Berth" to TMG. See "Documents" (3) Submit "Application for Designation of Anchoring Site" to TMSA (Form No. 13) regarding anchoring area. Berthing will be in order of arrival, passenger and special cargo vessels excepted.

Name of Wharf	*Length (m.)*	*Depth (m.)*	*No. of Berths*
Shinagawa	1,143	9.6	6

Keihin Port Development	500	12.0	2
Oi Wharf	1,800	12.0	6
Liner Wharf Reclaimed Land	1,800	10.0	9

There are many private wharves and other smaller public wharves in use and under construction.

FRESH WATER: Water supply from hydrant by Tokyo Metropolis, and waterboat by private management.

(a) Water supply on wharves		
Application	Bureau of Port and Harbour Offices in charge of each wharf.	
Work of water supply	Tokyo Port Service Association.	
(b) Water supply by water boat		
Extra charge	Overtime from 0600 to 0800	50%
	from 1700 to 2200	50%
	from 2200 to 0600	100%
	Special district	50%
	Festal day	50%

In the case of less than 20 tons per time, it will be considered 15 tons supply.

FUEL: All grades available. 24 hrs. notice required.

FIRE PRECAUTIONS: (Tankers).

1. Must enter port at dead slow speed preceded by patrol boat of TMSA, 1 tug boat each side of vessel and followed by fire patrol boat.

2. Engine to be kept ready for immediate use in case of emergency.

3. Tow lines to be placed over bow and stern with eyes close to water surface.

Note: No vessels allowed alongside a tanker during loading or discharging.

DEVELOPMENTS: 27 public wharves, 2 car ferry berths, 7 timber berths, 12 berths for dangerous cargo and 6 specialised berths to be constructed.

GANGWAY/DECK WATCHMEN: Necessary only in the case of valuable cargo.

OPENING/CLOSING HATCHES: Normally by crew.

CUSTOMS ALLOWANCES: (Tobacco) 200 cigarettes a week. (Wine and/or spirits) 760 cc's per crew member per week.

IDENTIFICATION CARDS: Not required.

CONSULS: Most countries have embassies and consuls in Tokyo.

REPAIRS: All grades of repairs available.

DRY DOCKS: Largest dry dock: length 180 m.; width 24 m.; depth 7.27 m. Capable of accommodating vessel of 16,750 gross tons. Also 1 other dry dock for ocean-going vessels.

REPATRIATION: All facilities. Many hotels.

(1) Tokyo Seamen's Club, 1-4-9 Kaigan, Minato-ku, Tokyo, Tel. (433) 5688.

(2) Tokyo Shibaura Seamen's home, 1-11-8, Shibaura, Minato-ku, Tokyo. Tel. (451) 3249.

(3) Kaiko-ryo, c/o Tokyo Central Wholesale Market, 5-2-1, Tsukiji, Chuo-ku, Tokyo. Tel. (541) 0934.

AIRPORT: Distance to new Tokyo International Airport (Narita Airport), approx. 75 km.

TIME: GMT plus 9 hours. Permanent.

HOLIDAYS: National Holidays: New Year's Holidays (Dec. 31st–Jan. 3rd); New Year's Day (Jan. 1st); Adult Day (Jan. 15th); Foundation Day (Feb. 11th); Vernal Equinox Day (around Mar. 21st); Emperor's Birthday (Apr. 29th); Constitution Commemoration Day (May 3rd); Children's Day (May 5th); Respect-for-Age Day (Sept. 15th); Autumnal Equinox Day (around Sept. 23rd); Tokyo Festival (Oct.

1st); Physical Education Day (Oct. 10th); Culture Day (Nov. 3rd); Labour Thanksgiving Day (Nov. 23rd).

No cargo work on 1st or 3rd Sundays of each month, and no work from 31st December to 3rd January inclusive. Cargo work can be arranged on all other days including National Holidays.

POLICE/AMBULANCE/FIRE: Tokyo Water Police, 1-11-12, Kaigan, Minato-ku, Tokyo. Tel. (433) 2411. Call Fire Stations for ambulances. Tokyo Water Fire Station, 5-1-23, Kachidoki, Chuo-ku, Tokyo. Tel. (531) 3121-3.

TELEPHONES: (also see "VHF").

Installed on ships moored at piers or jetties to allow telephone communications between ships and subscriber telephones on land and between ships.

SERVICES: Two tank cleaning companies available with barges of capacity 100 tons for disposal of residues. All other usual services available.

SHORE LEAVE: Crew members allowed ashore upon ship Master's request to Tokyo Immigration Office if have valid passports or seaman's pocket ledgers. In case a crew member has a criminal record or has been expelled from Japan, he will not be allowed ashore.

PORT REGULATIONS: Maintenance of order in Port of Tokyo is under the responsibility of TMSA in accordance Port Regulation Law. In case of an occurrence of disaster, TMSA and the Tokyo Water Fire Station will take charge of refuge, rescue and fire fighting.

DELAYS: Congestion in the port. Bad weather.

AUTHORITY: Bureau of Port and Harbour, Tokyo Metropolitan Government.

AGENTS: Dodwell Tramp Agencies, CPO Box 297, Togin Building, 4-2, 1-chome, Marunouchi, Chiyoda-ku, Tokyo. Tel. (03) 211-2141. Telegraphic: Dodtramp Tokyo. International Telex: J22274, J22602 and J24469.

TOMAKOMAI: 42.35 N. 141.35 E.

PILOTAGE: Not compulsory. Pilots board at the point of 500 m. off from breakwater.

RESTRICTIONS: Berthing and unberthing possible day and night.

MAX. SIZE: See "Berthing".

HEALTH Radio pratique available. Vessels usually anchor at Tomakomai, where the authorities board and grant free pratique.

TUGS: 1×4,000 h.p. 3×3,200 h.p. 1×3,000 h.p.
1×2,600 h.p. 1×1,220 h.p. 1×1,440 h.p.
1×1,100 h.p. 1× 380 h.p.

MEDICAL: No advance notice required unless urgent.

TANKERS: Max. size: 200,000 d.w.t., Max. LOA, no limit, and Max. safe draft 19 m. for Sea Berth of Nihonkai Sekiyu K.K., Toyama. Two lines, diameters 16 in. Reducing pieces supplied as necessary. Discharge rate 7,500 t.p.h.
DENSITY: 1015–1019 min./max.
FRESH WATER: Available ex-wharf at Nos. 1, 2, 3, 4 and 5 wharves; average 40 t.p.h. Other berthing positions supplied by barge which ordered from Fushiki and is filled up at Toyama.
FUEL: Domestic oil is available; Bonded oil will be brought from Moji with sufficient advance notice when required.
FIRE PRECAUTIONS: Nihonkai Oil Co., Toyama, issue Safety Regulations to Master on arrival tanker sea-berth.
GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.
OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.
CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.
CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore but no spirits.
CONSULS: Nil.
REPAIRS: Minor repairs only.
DRY DOCKS: Nihonkai Juko Co. Ltd., Toyama. No. 1 dock, used for construction. No. 2 dock, ship-building capacity: length, 104 m.; width 15 m.; depth, 1.8 m. Size of dock: length, 112 m.; width, 14.6 m.; depth, 4 m. Max. building capacity, 4,000 g.r.t. No. 3 dock, ship-building capacity: length, 150 m.; width, 20.8 m.; depth, 5 m. Size of dock: length 168.2 m.; width, 21.88 m.; depth, 9.2 m. Max. building capacity, 10,750 g.r.t.
AIRPORT: Toyama airport, distance about 10 kms. Two daily flights.
TIME: GMT plus 9 hours. Permanent.
POLICE/AMBULANCE/FIRE: Police, Toyama North Police Station, Toyama (0764) 37–7171; Ambulance, Toyama Iwase Fire Station, Toyama (0764) 37–7141 or 119; Fire, Toyama Fire Station, Toyama (0764) 37–7141.
TELEPHONES: No facilities for placing on board.
SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.
AUTHORITY: Toyama-Kencho.

AGENTS: Sub-Agents of Dodwell & Co. Ltd., Tokyo. Fushiki Kairiku Unso Co., Ltd., Toyama Port Office, 82, Higashiiwase-Irifune-cho, Toyama-shi, Toyama-ken. Cable Address: Fushikikairiku Fushiki. Tel.: (0764) 38–1100.

TOYAMA SHINKO: 36.47 N. 137.10 E.

DOCUMENTS:

- Ship's Register.
- Last Port Clearance.
- 6 Crew Lists including Passport Nos.
- 3 Passenger Lists.
- 1 Store List.
- 1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agents will prepare Inward/Outward Declaration, 2 Cargo Manifests and 1 Cargo Manifest in transit using specific forms. Therefore ship's Agents should be provided with necessary information about details of cargoes in advance.
PILOTAGE: Pilot available any time during daylight. Not compulsory. No telegraphic address of Pilot station, therefore, direct advice to local Agent always required. Pilot meets vessels 209° 2 miles off leading light of Fushiki Port, thence takes vessel to Fushiki Quarantine Anchorage ground, due to many fishing-nets on both sides of fairway. No Quarantine Anchorage ground established presently at Toyama-Shinko, therefore, every vessel obtains free pratique at Fushiki. If requiring to come into Quarantine Anchorage without taking Pilot, necessary to advise Agent in advance. In case of bad weather and need to await outside port, recommend cruising in Toyama Bay until sea abates. Bay area too deep to anchor and also danger of fishing-nets. When approaching position for Pilot, give exact ETA to Agent by using Niigata Radio and/or VHF to Fushiki Harbour Master. Small wooden pilot-boat painted yellow. No particular light or sound signals required. Even if the vessel already obtained free pratique in other port, need to approach the aforesaid position for Pilot, because of no Pilot position located in Toyama-Shinko.
ANCHORAGE: No anchorage at Toyama-Shinko, therefore, if vessel required to await for berth or some other reason, use Fushiki Outer Anchorage ground where safe at all seasons with depth from 8 to 11 m. Sand and clay bottom. Room at anchorage for at least 6 vessels over 5,000 gross tons.
RESTRICTIONS: Pilot not available during darkness. No restrictions on tide, because small tide in all seasons. If draft over port limitation, vessel enters port after making adjustment by lightening in Outer Harbour in Fushiki.
MAX. SIZE: Length 200 m., draft 34 ft. Tidal range is max. 0.45 m.
HEALTH: Formalities will be carried out at Fushiki quarantine anchorage.
RADIO: (also see "Pilotage"). Recommend Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically Westbound vessel, to Choshi, and Northbound to Nagasaki Radio respectively.
TUGS: Tugs normally join vessel at port entrance, but sometimes in Fushiki Outer Harbour for larger vessels. Maritia-Maru (2,060 h.p.) and Nihonkai-Maru (1,800 h.p.) provide lines, free of charge and Raicho-Maru (760 h.p.) uses ship's line. In case public tug, i.e. Nihonkai-Maru and Raicho-Maru used, always require Pilot on board.
BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent the orderers must pay for waiting time. If cargo gear not rigged on berthing, stevedores will do same for ship's crew. Overtime surcharges 1700–1900 hrs. 50% additional of basic stevedorage; 2100–0500 hrs. next morning 130% additional; Sundays/holidays 60% additional.
MEDICAL: No advance notice required unless urgent.
DENSITY: Average density between 1015 and 1019 in all seasons.
FRESH WATER: Available, from wharves No. 1, 2, 3, 4, 5 and 6 average 10 t.p.h. In other berths, to be supplied by barge, average 50 t.p.h.
FUEL: Domestic oil is available; Bonded oil will be brought from Kanmon area, with 1 week advance notice, when required.
GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.
OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.
CERTIFICATES: Ship's register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.
CUSTOMS ALLOWANCE: Only allowed 50 cigarettes to take ashore, but no spirits.
CONSULS: None.
REPAIRS: Minor repairs only.
DRY DOCKS: No dry docks. Nearest available in Toyama.
REPATRIATION: Possible.
AIRPORT: Toyama Airport about 25 km. distance. Two regular services a day. ANA only.
TIME: GMT plus 9 hours. No alterations made to clocks during year.
HOLIDAYS: 1st May and New Year's Day, most probably from 31st December to 3rd January.
POLICE/AMBULANCE/FIRE: Police, Shinminato Police Station, Shinminato (07668) 2–3141; Ambulance, Shinminato Fire Station, Shinminato (07668) 2–3175; Fire, Shinminato Fire Station, Shinminato (07668) 2–3175.
TELEPHONES: No facilities for placing telephones on board.
SERVICES: Hold cleaning available.
SHORE LEAVE: Local Immigration Officers issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer. Attending from Fushiki Immigration Office, Fushiki, due to no office in Toyama-Shinko.
AUTHORITY: Toyama-Kencho.

AGENTS: Sub-agents of Dodwell & Co. Ltd. Tokyo, Fushiki Kairiku Unso Co. Ltd., 6–6 Fushiki-Minato-machi, Takaoka-Shi, Toyama-ken. Head Office in Fushiki; Takaoka (0766) 44–1300/9 and Toyama-Shinko Branch; Shinminato (07668) 4–3330. Telegraphic address: Fushikikairiku Fushiki, only to Fushiki Head Office.

TSUKUMI: 33.05 N. 131.52 E.

DOCUMENTS:

Ship's Register.
Last Port Clearance.
3 Crew Lists, including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Not compulsory, but recommended unless Master well acquainted with locality. Pilot embarks vessel at anchorage, position 33° 05′ 30″ N. 131° 54′ 00″ E. Request for Pilot made through Agent; Master to report ETA 24 hours prior arrival.

ANCHORAGE: Good holding anchorage available; depth of water about 25 m. Loading and/or unloading of cargo usually effected alongside wharves and in event of loading/unloading at anchorage, when rough weather prevails, difficulty sometimes experienced on account of swell from open sea. Therefore suggested that vessel anchor as close to shore as possible consistent with safety.

RESTRICTIONS:

(a) Berthing: Night entry or berthing after nightfall, though not impractical (depending on weather) is not recommended unless special arrangements (stevedores, etc.) necessitate vessel's immediate berthing.

(b) Departure: Night departure allowed, weather permitting, and subject Pilot's agreement.

MAX. SIZE: See "Berthing".

HEALTH: Vessels usually anchor in the bay of Saganoseki or Saiki, where the authorities board and grant free pratique.

RADIO: Recommended Captain communicates with Agents through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically Westbound vessel, to Choshi, and Northbound to Nagasaki Radio respectively.

TUGS: 2 tugs, each 1,800 h.p.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agents mainly by radio.

No. 1 Wharf	82	8.0	8.0	3,500
Noshima Pier	168	16.0	16.0	60,000

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gear not rigged on berthing, stevedores will do same for ship's crew. Overtime surcharges 1700–1900 hrs. (50% additional of basic stevedorage), 2100–0500 hrs. next morning (130% additional), Sundays/holidays (60% additional).

MEDICAL: No advance notice required unless urgent.

DENSITY: Average density about 1024.

FRESH WATER: Available from shore; water barge will be brought from Saiki, when required.

FUEL: Bonded oil will be brought from Moji or Matsuyama, when required at anchorage.

FIRE PRECAUTIONS: By Marine Security Guards.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo aboard.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear's maintenance appears to be poor.

CUSTOMS ALLOWANCES: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: Nil.

REPAIRS: Local workshop available only for minor repairs.

REPATRIATION: Possible.

AIRPORT: Oita Airport; one hour from Tsukumi by train. Regular airlines: ANA, JDA, TAW.

TIME: GMT plus 9 hours. No alterations to clocks during year.

HOLIDAYS: 14th–16th August.

POLICE/AMBULANCE/FIRE: Police, 110; Ambulance/Fire, 119.

TELEPHONES: No facilities for placing telephones on board.

SERVICES: No special services available, but if required will be arranged by Agent who calls from another port.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extensions possible if ship stays longer.

AUTHORITY: Usuki Doboku (Public Works) Office.

AGENT: Sub-agents of Dodwell & Co. Tokyo. Azuma Shipping Co. Ltd., Nakatsuru Bldg., 2nd Floor, 15–5, Semento-machi, Tsukumi-shi, Oita-ken. Cable Address: Ringer Tsukumi. Domestic Telex: 7755–77. Tel.: Tsukumi (09728) 2–2144.

UBE 33.56 N. 131.15 E. **(See Plan Book)**

DOCUMENTS

Ship's Register.
Last Port Clearance.
3 Crew Lists, including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agents should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Not compulsory but recommended unless Master well acquainted with area. No Harbour Pilot stationed at Ube but Inland Sea Pilot will attend.

Inland Sea pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hrs. notice. Urgent correction of ETA outside business hours should be cabled direct to Pilot station. Inland Sea Pilot Association covers all inland sea ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from one of three Pilot stations dependent upon vessel's last port of departure and at Master's discretion. Pilotage available throughout 24 hrs. and 72 hrs. advance notice preferred, thereafter advising any alterations. Most Inland Sea Pilots also act as Harbour Pilots up to berth or anchorage at destination. *Note:* No VHF communication available with Inland Sea Pilot stations.

1. Wadamisaki, at entrance to Kobe (vessels transitting Kii Straits). Position 34° 38′ N. 135° 11′ E. Telegraphic address "Anjin Kobe".

2. Sekisaki, 3 miles South of Sekisaki lighthouse. (Vessels transitting Bungo Channel). Position 33° 13′ N. 131° 54′ E. Telegraphic address "Anjin Saganoseki". In event bad weather, recommended vessels proceed for shelter as near as possible having due regard to safety, to Sekisaki Pilot station.

3. Hesaki, at East side of Kanmon (Shimoneseki) Straits. Position 33° 56′ 24″ N. 131° 03′ 12″ E.

ANCHORAGE: Sea bottom is mud.

	Depth 4–7.5 m.	7.5–10 m.
Sheltered	73,000	233,100 sq. m.
Unsheltered	12,175,500	680,000

RESTRICTIONS:

(a) Outer harbour: No restriction.

(b) Inner harbour: Berthing/unberthing is practicable only during daytime.

(c) Deep draft vessels may berth at high water only.

MAX. SIZE: See "Berthing" and "Tankers".

HEALTH: At first port of call in Japan, vessel must obtain free pratique. Quarantine officers will attend vessel only from daylight to sunset and Captain to show all Vaccination Cards, Derating Exemption Certificate. In case vessel arrives from cholera infected area within 10 days, Captain must advise crew and passengers health condition to respective Quarantine Office through ship's Agents prior to arrival and close all soil pipes before entering port.

RADIO: Recommended Captain communicates with Agents through Choshi Radio or Nagaskai Radio which cover all ports in Japan. If specifically Westbound vessel to Choshi and Northbound to Nagasaki Radio respectively.

TUGS: "Naruto Maru" 2,800 h.p. stationed at Ube. Other tugs available from Moji or Tokuyama. Tug's lines used at no extra charge.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agents mainly by radio.

Wharf	*Length*	*Depth*
Public Okinoyama Wharf	370 m.	10 m.
Public Shibanaka Wharf	185 m.	10 m.
Ube Cement wharf	247 m.	9 m.
Ube Kosan Chisso wharf	188 m.	9 m.
Ube Kosan Urea wharf	223 m.	9 m.
Ube Kosan No. 2 pier	131 m.	9 m.
Central Glass wharf	162 m.	9 m.

Wharf for Limestone:

Name of wharf: Okinoyama Limestone Wharf (Ube Kosan No. 5 Wharf). Length of wharf 165 m. Maximum safe draft 11.00 m. Maximum d.w. tonnage 30,000 tons. Fairway 300 m. wide, 2.25 miles long, 8.80 m. deep, with shallow spot 8.40 m. at low water. Accessible max. draft 10.50 m. Facilities Loaders × 2; 1,500 tons per unit/hour. Entry and Departure Berthing/unberthing is practicable only during daytime. Deep draft vessel may unberth at high tide only.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agents advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agents, the orderers must pay for waiting time. If cargo gear not rigged on berthing, stevedores will do same for ship's crew. Overtime surcharges 1700–1900 hrs. (50% additional of basic stevedorage), 2100–0500 hrs. next morning (130% additional), Sundays/holidays (60% additional).

MEDICAL: No advance notice required unless urgent.

TANKERS: Seibu Sekiyu Co. Refinery.

(a) Geographical Location: 33° 49′ 48″ N. 131° 13′ E. 163°, 11,400 m. from Motoyama Misaki.

(b) Entry Permission: Sea berth located outside harbour limit of Ube port and treated as a closed port. Vessels therefore required to obtain special permission for entry from Customs at any open port prior to arrival.

(c) Restrictions: Max. 230,000 d.w.t. Max. LOA, 325 m. Max. safe draft 19.5 m.

(d) Diameter/No. of shore pipes: Float-sink hose: 16 in.×2 lines connecting to manifold; sub-marine hose: 20 in.×2 lines; sub-marine pipe-line: 48 in.×1 line.

(e) Discharging Rate: 7,800 t.p.h. (Crude oil).

DENSITY: 1025.

FRESH WATER: *(a)* Water barges available from Moji and supply about 50 t.p.h. *(b)* Water from wharf supply at Central Glass Ube Cement and Ube Chisso wharves.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at max. seven days prior notice.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance appears to be poor.

CUSTOMS ALLOWANCES: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: None.

REPAIRS: Sasebo Heavy Industries Co., Ltd., Moji; Kitakyushu Iron Works, Tobata; Ube Dockyard Co., Ltd.

DRY DOCKS: None.

AIRPORT: 30 mins. by road.

TIME: GMT plus 9 hrs. Permanent.

POLICE/AMBULANCE/FIRE: Police 110; Ambulance/Fire 119.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 day extension possible if ship stays longer.

SERVICES: All services available.

AUTHORITY: Yamaguchi-Kencho.

AGENTS: Sub-agents of Dodwell & Co. Ltd., Tokyo.

Dry Cargo: See "Moji".

Tankers: Uyeno Unyu Shokai, Yamaguchi Branch Office, Oaza Nishioki, Onoda-shi, Yamaguchi-ken; Cable address: Uyenoshell Ube, Domestic Telex: 6845–42, Tel. Ube (0836) 88–1171.

UNO 34.29 N. 133.57 E.

DOCUMENTS:

Ship's Register.
Last Port Clearance.
3 Crew Lists, including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Inland Sea pilotage should preverably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to pilot station. Inland Sea Pilot Association covers all inland sea ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from one of three pilot stations dependent upon vessels last port of departure and at Master's discretion. Pilotage available throughout 24 hours and 72 hours advance notice preferred, thereafter advising any alterations. No. 2 ,,		,,	293°–600 m.
No. 3 ,,		,,	252°–600 m.

RESTRICTIONS: Pilots not available after sunset.

MAX. SIZE:

No. 1 Pier: 150 m. from South end, draft limit 8.5 m.; 120 m. from above to North end, draft limit 7.5 m.

No. 3 Pier: Depth of approaches, 15–20 m.; length of berth, 150 m.; depth alongside berth, 13 m.; max. draft acceptable, 10 m.; max. length acceptable, 150 m.; max. width acceptable, 20 m.

Mitsui Kindoku (HIBI), Private Pier: Depth of approaches, 16–20 m.; length of berth, 176 m., d.w.t. 30,000 tons; max. draft acceptable, 12 m.; max. length acceptable, 176 m.

HEALTH: Vessels usually anchor at Wada-Misaki (off Kobe), where the authorities board and grant free pratique.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically Westbound vessel, to Choshi, and Northbound to Nagasaki Radio respectively.

TUGS: Tugs join vessel at out-harbour area. Tug's lines used.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

Berth	*Length (m.)*	*Depth (m.)*	*Permissible Draft (m.)*	*Permissible Length Overall (m.)*	*Capacity G/T*
No. 1 Pier	270	7.5–8.5	8.0	150	10,000
No. 3 pier	185	10	9.5	150	10,000

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gear not rigged on berthing, stevedores will do same for ship's crew. Overtime surcharges 1700–1900 hrs. (50% additional of basic stevedorage), 2100–0500 hrs. next morning (130% additional), Sundays/holidays (60% additional).

MEDICAL: No advance notice required unless urgent.

TANKERS: None.

DENSITY: Winter 22.7; Summer 23.98.

FRESH WATER: Available at pier No. 1 (40 t.p.h.) ex-shore pipe. Available by water barge, 50 tons capacity from Okayama.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance appears to be poor.

CUSTOMS ALLOWANCES: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: No consuls available, but marine note of protest can be attested by local notary public at Okayama.

REPAIRS: All types of deck and engine repairs possible.

DRY DOCKS:

Dry dock	*Length*	*Width*	*Depth*	*d.w.t.*
No. 1	545 ft. 6 in.	76 ft. 1 in.	26 ft. 9 in.	20,500
No. 2	560 ft.	74 ft. 1 in.	26 ft. 9 in.	19,000
No. 3	670 ft.	103 ft. 3 in.	32 ft.	46,000

Tamano: Mitsui floating dock, max. size 150,000 d.w.t.

REPATRIATION: Possible.

AIRPORT: Okayama Airport 25 km. Only domestic airlines; 3 flights to Osaka, via Tokyo, daily.

TIME: GMT plus 9. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Police (for emergency), 110; Ambulance, 119; Fire, 119.

TELEPHONES: No arrangements for placing telephones on board.

GENERAL: 3 days notice of special requirements essential.

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AUTHORITY: Tamano Port Administration Office.

AGENTS: Sub-Agents of Dodwell & Co. Ltd., Tokyo. Naigai Unyu Co. Ltd., Shokokaikan Bldg. 7350, Chikko Kaigan-dori Tamano-shi, Okayama-ken (706). Cable Address: Naigai Tamano. Domestic Telex: 5946–869. Tel.: (0863) 31-2211.

WAKAMATSU: 33.54 N. 130.48 E.

(See "Kanmon-Ko").

DOCUMENTS:

Ship's Register.
Last Port Clearance.
3 Crew Lists, including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: Compulsory. Harbour Pilots and Inland Sea Pilots are available at the pilot station or quarantine anchorage. Mutsure Pilots station: 33° 59′ 30″ N., 130° 53′ 00″ E. Inland Sea pilotage should preferably be arranged through Agent by cable via Nagasaki Radio giving 72 hours notice. Urgent correction of ETA outside business hours should be cabled direct to pilot station. Inland Sea Pilot Association covers all Inland Sea ports. Pilotage not compulsory but recommended in view of great number of islands causing navigational hazards. Pilots obtained from 1 of 3 Pilot stations dependent upon vessels last port of departure and at Master's discretion. Pilotage available throughout 24 hours and 72 hours advance notice preferred, thereafter advising any alterations. Most Inland Sea Pilots also act as harbour Pilots up to berth or anchorage at destination. *Note:* No VHF communication available with Inland Sea Pilot stations. Also see "Shipmaster's Report" before first port.

1. Wadamisaki, at entrance to Kobe (vessels transmitting Kii Straits). Position 34° 38′ N.; 135° 11′ E. Telegraphic address "Anjin Kobe".

2. Sekisaki, 3 miles South of Sekisaki lighthouse. (Vessels transitting Bungo Channel). Position 33° 13′ N.; 131° 54′ E. Telegraphic address "Anjin Saganoseki". In event bad weather, recommended vessels proceed for shelter as near as possible having due regard to safety, to Sekisaki pilot station.

3. Hesaki, at East side of Kanmon (Shimonoseki) Straits. Position 33° 56′ 24′ N.; 131° 03′ 12″ E.

ANCHORAGES: No. 5 section, Wakamatsu. Depth 9-11 m. Capacity (g/t), 15,000×2. Also quarantine anchorage.

RESTRICTIONS: Pilots not available after sunset. Entry and Sailing are controlled by the one-way signals as follows: *Entry:* 0800 to 1100 hrs.; 1300 to 1500 hrs. 1 hour before sunset to sunset. *Sailing:* 1100 to 1300 hrs.; 1500 hrs. to 1 hour before sunset. Sunset to 0800 hrs. Easterly winds prevail in warm season, dense fog prevails sometimes in Spring and Winter, but generally clears in a few hours in the morning. Tidal range about 1.5 m. and current in leading channel about 1.5–2.5 knots, but no current in port. Due to narrow channel leading to main harbour and shallow water at entrance of channel, length and draft of vessels are generally limited as follows:

Buoy: Ship's length overall, 165 m.; draft, 8.5 m.; 11,000 g.r.t

Fairway leading into main harbour about 200 m. wide and 2 miles long, running parallel to a breakwater and reclaimed land. In this channel, as in main harbour and fairway, vessels observe only one-way traffic and on an outgoing signal from the shore, wait outside for outgoing vessel until channel is cleared. Vessels with draft of more than 7 m. can enter/depart only at high tide. Entry permitted only from sunrise and vessel to be berthed before sunset. Night departure prohibited.

MAX. SIZE: See "Berthing".

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

*Subject to draft.

HEALTH: Radio pratique available. Formalities will be carried out at the anchorage. Quarantine station 105° – 2,800 m. (800 m. square) from Mutsure Lighthouse.
RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specially Westbound vessel, to Choshi, and Northbound to Nagasaki Radio respectively.
TUGS: 2 tugs join vessel under Wakato bridge at corner of fairway leading to main harbour.
BRIDGES: Wakato bridge. Height of mast limited to 38 m. for passing under bridge.
STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gear not rigged on berthing, stevedores will do same for ship's crew. Overtime surcharges 1700–1900 hrs. (50% additional of basic stevedorage), 2100–0500 hrs. next morning (130% additional), Sundays/holidays (60% additional).
MEDICAL: No advance notice required unless urgent.
TANKERS: No tanker berths.
DENSITY: Average density in port about 1019–1021 in Summer season; 1025/1026 in Winter season.
FRESH WATER: Available. Rate of delivery: 50–60 t.p.h. ex-barge. Minimum quantity at buoy, 10 tons; minimum quantity at No. 5 sec., 30 tons.
FUEL: Domestic oil is available; bonded oil will be brought from Moji, Ube or Ohita with sufficient advance notice, when required.
FIRE PRECAUTIONS: No tanker berth. Each tugboat is equipped with fire extinguisher system for attending emergency case at request.
DEVELOPMENTS: Land reclamation N.E. Wakamatsu for discharge wharves (coal/iron ore). Depth to be 12 m.
GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.
OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.
CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance appears to be poor.
CUSTOMS ALLOWANCES: Only allowed 50 cigarettes to take ashore but no spirits.
CONSULS: See "Yawata".
REPAIRS: All grades deck and engine repairs afloat.
DRY DOCKS: None.
AIRPORT: See "Yawata".
TIME: GMT plus 9 hours. Permanent.
POLICE/AMBULANCE/FIRE: Wakamatsu Water Police, tel. 093-76-2731; Wakamatsu Police Office, tel. 093-97-2731; Ambulance/Fire: Wakamatsu Fire department, tel. 093-76-4031; Defence/rescue department, tel. 093-76-4353.
SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.
AUTHORITY: Kitakyushuko Kanti-Kumiai.

AGENT: See "Tobata".

WAKAYAMA: 34.13 N. 135.08 E. (See Plan Book)

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists, including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.
PILOTAGE: Wakayama-Shimotsu licensed Pilots. ETA advices to Agent. Pilot boards 1,500–2,500 m. off Wakayama breakwater. Chart Nos. 1150 and 1143 (Japanese Maritime Safety Board). No pilot boat. Pilot boards from tug.
ANCHORAGE: For waiting Pilot and/or berth. (Nature of bottom, sand mixed with mud.) (Sumitomo Metal Ore Carrier): Four anchorage points for large vessels over 30,000 tons gross are provided by the Port Authority. Agents must apply for one when required. The position of each from the lighthouse (flashing white) in the Southern sector of the port is as follows:
"A" – 3,000 m. – 255°
"B" – 3,500 m. – 272°
"C" – 4,100 m. – 283°
"D" – 4,800 m. – 292°

Other vessels are required to anchor in position (approx.) 34° 13′ 30″ N., 135° 06′ 30″ E. or nearer the shore if possible. (Wakayama Log Carrier): 2,000 m. 245° and 230° from Red lighthouse; depth about 22 m.
RESTRICTIONS: Pilot available daytime only. Channel depth, (Southern Section) 9.0 m; (Northern Section) 14.0 m.
MAX. SIZE: (Wakayama Log Carrier): South Section, LOA 160 m., 20,000 d.w.t. draft 9.0 m.; LOA 200 m., 35,000 d.w.t., draft 10 m. (Sumitomo Metal Pier, South Section): LOA 250 m., 140,000 d.w.t., draft 14.0 m.
HEALTH: Radio Agent for free pratique not less than 12 hours and not more than 36 hours before arrival, advising full details of vessel and health condition on board. When free pratique is granted by radio vessel will be required to submit the following documents to Quarantine Officer on arrival:
Maritime Declaration of Health.
Crew List.
Passenger List.
Vaccination List.
The following vessels will not be able to get radio pratique:
A vessel that has been in contact with an infected area, or a suspected infected area within 15 days of arrival.
If a vessel has on board any case, or suspected cases, of infectious disease within 15 days of arrival.
If crew or passengers on board do not possess valid Smallpox Vaccination Certificate.
RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio or Kobe Radio which cover all ports in Japan. If specifically Westbound vessel, to Choshi, and Northbound to Nagasaki Radio or Kobe Radio respectively.
TUGS: Tug assistance normally commences from outer harbour. Tug lines used and charge included in towage. 8 tugs available, up to 3,000 h.p.
BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.
STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gear not rigged on berthing, stevedores will do same for ship's crew. Overtime surcharges 1630–2130 hrs. (60% additional of basic stevedorage), 2130–0400 hrs. next morning (130% additional), 0400–0830 (60% additional), Sundays/holidays (100% additional).
MEDICAL: No advance notice required unless urgent.
TANKERS: No tanker berth.
DENSITY: 1025–1030.
FRESH WATER: Available alongside and Water boat, capacity 90 tons.
FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at maximum 7 days prior notice.
GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo on board.
OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. Cost per hour per gang depending on type of cargoes. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.
CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance appears to be poor.
CUSTOMS ALLOWANCES: Only allowed 200 cigarettes to take ashore for one week but no spirits.
CONSULS: None.
REPAIRS: Minor repairs only. Suwa Shipyard Co., Ltd Tel. 0734-31-1694.
DRY DOCK: None
REPATRIATION: Possible.
AIRPORT: Itami, Osaka, about 3 hours by car.
TIME: GMT plus 9. No alterations made to clocks during year.
POLICE/AMBULANCE/FIRE: Police, 110; Ambulance/Fire, 119.
SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 9 days, but 9 days extension possible if ship stays longer.
AUTHORITY: Wakayama-kencho.

AGENTS: *Wakayama North Port* (Sumitomo Steel Mills), Sumikin Kaiun Co. Ltd., c/o Sumitomo Kinzoku K.K., 1850, Minato, Wakayama City. Tel. Wakayama (0734) 55-5151. Telegraphic, "Shipsumikin Wakayama".
Wakayama South Port (Lumber/log discharge), Shimamato and Co., Ltd., 5-7, Chikko, Wakayama City. Tel. Wakayama (0734) 22-5111. Telegraphic, "Shimamoto Wakayama".

YAWATA: 33.52 N. 130.49 E.

(See "Kanmon-Ko").
DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists, including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits,

camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: *Harbour pilotage:* Compulsory for entry and departure but not when passing through straits. Pilots embark Eastbound vessels at Mutsure quarantine anchorage (see "Moji"), Westbound vessels at Hesaki quarantine anchorage (see "Moji"). Two Pilots embark vessels exceeding 20,000 gross tons, charging 180% pilotage.

Sea pilotage: Vessel approaching from East obtain Pilot by radio request made at least 24 hours in advance. Pilot embarks 3 miles South from Sekisaki lighthouse; 33° 13′ N.; 131 54′ E.

Pilots should be kept closely advised of accurate ETA Pilot station. If any changes, Masters requested radio immediately to Pilot offices direct or through Agent reporting revised ETA. Cable addresses of Pilot offices: Harbour Pilot, "Kanmonpilot Moji". Inland Sea Pilot, "Anjin Moji". Require 24 hours notice of ETA, but can attend with 2–3 hours notice in emergency cases.

ANCHORAGES: No anchorage at Yawata, but quarantine anchorage used in essential cases. See "Quarantine".

RESTRICTIONS:

(*a*) Because of narrow channel leading to Yawata and shallow water at entrance of channel, length and draft of vessel limited, except for berthing at Nishi-Yawata wharf, where 20,000 gross tonnage with 200 m. length overall and 8.3 m. draft may be accommodated. Limits:

	Wharf	*Buoy*
Length (overall)	166 m.	155 m.
Draft	8.5 m.	8.5 m.
Gross tonnage	10,000 tons	10,000 tons

Vessel slightly exceeding above may be berthed at the Pilot's discretion, subject weather conditions and efficiency of engine, steering, etc.

(*b*) Fairway leading into main harbour about 200 m. wide and 2 miles long, running parallel to breakwater and reclaimed land. In this channel, as in main harbour and fairway to Yawata, vessels observe one-way traffic and, on a "not-clear" signal from shore, wait outside for outgoing vessels to clear channel. Vessels with draft of more than 7 m. can enter/depart only at high tide.

(*c*) Entry permitted only from sunrise and vessels to be berthed before sunset. Night departure prohibited.

(*d*) Wakato suspension bridge crosses channel between Tobata and Wakamatsu. Height of bridge from water line at fairway 42.675 m. at spring high tide; height of mast of vessels passing under bridge limited to 38 m.

(*e*) Easterly winds prevail in warm season. N.W. winds in Winter. Dense fog sometimes in Spring and Winter, but generally clear in morning. Tidal range about 1.2 m. Tidal current in channel about 1.5 to 2.5 knots, but no current in port.

(*f*) Port privately owned and controlled by Nippon Steel Corp.

MAX. SIZE: See "Berthing".

HEALTH: See "Moji".

(*a*) Quarantine station at Western entrance: 0.5 mile East of Mutsure lighthouse 33° 58′ 15″ N., 130° 53′ 43″ E.

(*b*) Quarantine station at Eastern entrance: 125°, 1,500 m. from Hesaki lighthouse 33° 56′ 24″ N., 131° 30′ 12″ E.

(*c*) Quarantine inspection not allowed inside port except when weather or other special reasons prevent quarantine boat from approaching ship at anchorage.

(*d*) Quarantine service is rendered from sunrise to one hour before sunset.

(*e*) "Q" flag should be hoisted until ship in free pratique.

(*f*) Vessels exceeding 20,000 gross tonnage may undergo quarantine on application when they berth inside port.

(*g*) When ship arrives from plague-infected or suspected area within 10 days after she left such place, 24 hours special quarantine required. All sanitary scuppers must be closed and garbage must not be thrown overboard after ship reaches 60 miles off Japanese coast.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically Westbound vessel, to Choshi, and Northbound to Nagasaki Radio respectively.

VHF: Vessel can keep in direct contact with port authorities in regard to arrival, berthing instruction, etc, through VHF, details as follows:

	Kitakyushu (Moji)	*Shimonoseki*
(*a*) Call sign:	"Kitakyushu port radio"	"Shimonoseki port radio"

(*b*) Location of radio facilities: The transmitting and receiving station located at top of Mt. Hinoyama, Shimonoseki, for the above both radio.

(*c*) Type of wave:

Channel:	Simplex 16 (Calling, responding)	16 (Calling, responding)
	Simplex 12 (Communication)	12 (Communication)
	Simplex 14 (Communication)	14 (Communication)
	Duplex 20 (Communication)	20 (Communication)
Outport:	50 W.	50 W.

(*d*) Operating hours: 0600–2000.

(*e*) Communicating range: Within a radius of 50 miles from the station.

(*f*) Communicating language: English and Japanese.

TUGS: 2 tugs join vessel at corner of fairway leading into main harbour. Ship's lines used when vessel berths.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

BRIDGE: See "Restrictions".

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by the Agent, the orderers must pay for waiting time. If cargo gear not rigged on berthing, stevedores will do same for ship's crew. Overtime surcharges 1700–1900 hrs. (50% additional of basic stevedorage), 2100–0500 hrs. next morning (130% additional), Sundays/holidays (60% additional).

MEDICAL: No advance notice required unless urgent.

TANKERS: No tanker berth.

DENSITY: Average density in port about 1020–1022 in Summer season, 1024–1025 in Winter season.

FRESH WATER: At buoys: Water barges available from Wakamatsu, rate of delivery about 50 t.p.h. At wharves: (No. 16, 17, 18, 19, 20 and Nishi-Yawata wharf.) From hydrants: 25–40 t.p.h. For supply at Nishi-Yawata wharf, 1 day prior notice required. Overtime charge: (0500–0800 hrs.) (1700–2200 hrs.), 50% add.; (2200–0500 hrs.), 100% add.; bad weather 50% add.; Sundays and holidays, 50% add. Minimum quantity at Yawata, 10 tons. Minimum quantity at Mutsure anchorage, 50 tons.

FUEL: Domestic oil is available; Bonded oil will be brought from Moji, Ube or Ohita with sufficient advance notice, when required.

FIRE PRECAUTIONS: No tanker berth. Each tugboat is equipped with fire extinguisher system for attending emergency cases.

DEVELOPMENTS: All the present discharging berths (wharves) for coal, ore (including Nishi-Yawata scrap wharf) converted to loading berths.

GANGWAY/DECK WATCHMEN: Not specially required unless passengers or valuable cargo aboard.

OPENING/CLOSING HATCHES: Stevedores carry out opening and closing hatches. If any time lost by ship's crew doing this work, stevedores charge ship for waiting. Recommend request stevedores for this work unless crew can complete it before berthing.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gear maintenance appears to be poor.

CUSTOMS ALLOWANCES: Only allowed 50 cigarettes to take ashore but no spirits.

CONSULS: British Consul, who is also acting Swedish Consul, is stationed with Holme Ringer, Moji (tel. 093-33-1311). American Consul stationed at Fukuoka (tel. 092-75-9331). Korean Consul stationed at Fukuoka (tel. 092-77-0461).

REPAIRS: All types of deck and engine repairs possible.

DRY DOCKS: No dry dock available.

REPATRIATION: Possible.

AIRPORT: Fukuoka Airport; approx. 70 kms.

(*a*) International line:

JAL, for Pusan (Tuesday and Thursday);
for Taipei-Hongkong (Monday and Thursday);
CPA, for Taipei-Hongkong (Wednesday and Saturday);
KAL, for Pusan-Seoul (Mon., Tues., Wed., Fri., and Sat.).

(*b*) Domestic line:

JAL and ANA, regular service.

Kitakyushu airport; approx. 20 kms. Flights often suspended by heavy rain and fog.

(*c*) Domestic line:

ANA, regular service.

TIME: GMT plus 9. No alterations made to clocks during year.

POLICE/AMBULANCE/FIRE: Yawata Police Station, tel. 093-67-6631; Wakamatsu Water Police, Yawata Port branch, tel. 093-67-0611; Ambulance/Fire, Yawata Fire Department, tel. 093-67-4831.

TELEPHONES: Nippon Senpaku Tsushin K.K. available at Moji (tel. 093-33-1089). In case of Mutsure anchorage, extra boat charge and personnel expenses will be incurred. Due to insufficient number of telephones require adequate advance notice for installation. Suitable ship's electrical voltage; DC–22/28 v. AC–100 v. 110 v. 120 v. (to keep at least within 10 v.).

GENERAL: Whenever vessel takes bunkers in port, advisable to close deck scuppers' holes before pumping in order to avoid overflow oil into sea.

SERVICES: Tank cleaning, sand blasting (Fuji Co., Tobata), chemical cleaning (Fuji Co., Tobata). Hold cleaning (Tsuyama Kosan K.K., Yawata; Fuji Co., Tobata). Compass adjusting (Kajiwara Koki, Shimonoseki). DF calibration (Nippon Radio Co., Tobata). Life-raft servicing and inspection (Kikutani Sengu, Shimonoseki; Marinair International, Kobe; International Marine, Kobe; Marine International; Yokohama and Tokyo); this service requires name of maker in advance. Radio and radar repairs available, but requires name of makers/type of the machine in advance. Laundry (Sunrise Cleaning, Tobata; Moji Dry Cleaning, Moji). Watchmen service available. Charts: only Japanese charts available locally; BA and HO charts can be obtained from Kobe and Yokohama respectively, with adequate notice. Grain fitting (Ushio Co., Moji; Fuji Sobi, Moji); this work is usually carried out at Moji (public port). Fumigation (Toyo Fumigation Co., Moji), this work is not permitted at Yawata but at Moji. Floating crane, capacity 200 tons (Kondo Kaiji, Wakamatsu; Nichibei Kosan). Diver (Nippon Salvage Co., Moji; Tsuyama Kosan, Wakamatsu). Salvage service (Nippon Salvage, Moji) Painting service (Fuji Co.).

SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days, but 3 days extension possible if ship stays longer.

AUTHORITY: Kitakyushuko Kauti-Kumiai.

AGENTS: See "Tobata".

8PT Bold CAPS.

YOKKAICHI: 34.57 N. 136.38 E. (See Plan Book)

DOCUMENTS: See "Yokohama".

PILOTAGE: Not compulsory; Pilot available at 34° 56′ 15″ N.; 136° 40′ 40″ E. Vessels requiring Pilot cable Agent at least a day ahead advising exact ETA Pilot station.

Wireless station for communicating with entering ships and for other port business, call signal JCZ. Radio wave in use is A1.A2 500 kc/s. and A1.A2 486 kc/s., output A1 50 W. and A2 110 W. Zone of communication about 100 km.

Yokkaichi signal station also equipped for assigning berths to entering ships and for other port business. VHF communication available, call signal Yokkaichi Port Radio, Channel 16. Working Channel 14, 0600 to 2000 hrs. any day.

ANCHORAGE: Vessels anchor 34° 56′ 15″ N., 136° 40′ 40″ E. where authorities board and grant free pratique; max. depth 13 m.

RESTRICTIONS: Entry restricted by vessel's draft and pratique. Max. draft inside port 12 m. Quarantine Authority attend vessel usually from dawn to sundown on any day. Berthing daytime only. Unberthing any time except tankers daytime only.

MAX. SIZE: Max. permissible draft inside port 12 m.

Tankers:

Berth	*Max. d.w.t.*	*Max. LOA (m.)*	*Max. Safe Draft (m.)*
Showa Outer SBM	275,000	No limit	19.30
Showa Inner SBM	170,000	No limit	16.00
Showa Wharf "E"	45,000	211	10.00
Daikyo SBM	230,000	No limit	9.50
Daiyo Umaokoshi Pier	60,000	245	9.80

HEALTH: Request for radio pratique to be addressed to Agents not less than 12 hrs. before arrival.

TIDE: Tidal current of Ese Bay runs Northward along East side of Mie Pref. and turns round at mouth of Kiso River and runs Southward for Chita peninsula.

Tidal level:		Tidal level (average)
	High tide	+7.74 ft.
	Mean tide	+4.30 ft.
	Low tide	+0.00 ft.

TUGS: Normally stand-by to assist vessel inside breakwater of entrance to fairway; tug's lines used.

BERTHING:

Berth No.	*Depth (m.)*	*Length (m.)*
1	8.0	161.0

16	7.5	114.0
17–18	5.5	163.0
19–21	5.0	210.0

SPECIALISED CARGO HANDLING FACILITIES: *Bulk Cargoes:* No. 2 wharf has a cereal silo which can store 56,840 tons of imported grain. Two pneumatic unloaders with unloading capacity of 300 t.p.h. per machine at the Northern berth of the pier to connect the silo with conveyors.

Containers: One deep-sea container berth of 280 m., quay length and minimum water depth of 12 m., incorporating a ro-ro ramp. Two 37.5 ton and 44.5 ton Hitachi container cranes. Container yard and marshalling yard area of 58,750 sq.m. Three TCM straddle carriers, 3 forklift trucks (10–25 tons), 15 tractors, 35 trailers. Container freight stations at Asake 5,940 sq.m. Wool centre 46,768 sq.m.

Liquid Chemicals/LPG Carriers: Private berth.

Facilities of Container Terminal:

1. Total area 58,750 m.
2. Container berth: Length 280 m., depth 12 m., mooring capacity 25,000d.w.t.×1 berth.
3. Cargo handling equipment: Ramp-way 1 unit, container cranes 2 sets, one 44.5 tons, one 37.5 tons.
4. Transport machine: Straddle carrier, 3 units, one 40 ft., two 20 ft.; fork lift 3, one 25 tons, one 20 tons, one 10 tons.
5. Container yard: Container yard 6 yards, 29,730 m. refrigerated container yard, one yard 1,275 m.
6. Other relevant facilities: Chassis yard 5,740 m.; wool centre 46,768 m.; cold store 4,664 m.; meat centre 3,335 m.

Tankers:

Berth	*Product*	*Shoreline*	*Discharge Rate (t.p.h.)*
Showa Outer SBM	Crude Oil	16 in.×2	4,500/6,500
Showa Inner SBM	Crude Oil	12 in.×2	4,500/5,000
Showa Wharf "E"	Naphtha	12 in.×1	500/900
	Fuel Oil	12 in.×1	500/900
	Kerosene (Load)	10 in.×1	300/500
	Lub. Oil (Load)	3 in.×1	200/300
Daikyo SBM	Crude Oil	16 in.×2	4,500/6,000
Daiyo Umaokoshi Pier	Crude Oil	12 in.×2 (Chiksan)	3,000/4,000
	Fuel Oil	12 in.×1 6 in.×1	700/900
	Kerosene (Load)	6 in.×2	380/400

DENSITY: Average 1025.

FRESH WATER: Available, rate of delivery 50 t.p.h. from shore pipes at Government wharves; 100 tons from barge; before 2200 hrs. additional cost 50%; after 2200 hrs. additional cost 100%.

FUEL: Most domestic and bonded oil available, ex-barge. Min. five days notice required.

CONSULS: None.

REPAIRS: Minor repairs only.

AIRPORT: No airport.

POLICE/AMBULANCE/FIRE: Police, tel. 110; Ambulance/Fire, tel. 119.

TELEPHONES: Telephone can be arranged from shore connection at Government wharves. No connections at tanker berths.

GENERAL: Lightening: Not allowed, except a cargo of oil or chemicals.

SERVICES: Technicians for vessel's instruments can be arranged from other ports.

REGULATIONS: Under adverse weather conditions:

1. If a typhoon is reported approaching, and upon advice from refinery representative, loading or unloading operation will be suspended and vessel will leave berth to a designated area for refuge.
2. During a violent thunderstorm, cargo work will be stopped upon receiving order from refinery, and vent-line valves securely closed.
3. During stormy weather, with gusty winds condition, Master shall follow weather reports closely and shall endeavour to prevent any accidents by taking all possible precautions, such as reinforcing mooring ropes and arranging adequate emergency personnel to stand-by for any emergency.

Liability for Accidents: If accident is judged by Maritime Safety Office and Port Captain to be ship's fault, either through negligence of these Safety Regulations or otherwise, Master shall immediately cease operations, if necessary, and simultaneously follow in good faith the instructions of refinery and Port Captain, and take all necessary actions. Master shall inspect and verify cause of accident in the presence of refinery representative and ship's Agent, and shall be held responsible for reporting the accident, in writing, to the parties concerned. Until this is completed and full agreement reached with refinery representatives, the vessel shall not leave the jetty, unless otherwise requested. For actual confirmation of the accident, and damage liability, Public Surveyor (Messrs. Japan Marine Inspections Co. Ltd.) is fully entitled to inspect the accident.

AUTHORITY: Yokkaichi Port Authority.

AGENTS: Sub-agents of Dodwell & Co. Ltd., Tokyo.

Dry Cargo Vessels: Yokkaichi Warehouse Co. Ltd., 6, Chitose-cho, Yokkaichi Mie-ken. Cable address: "Sodo Yokkaichi". Domestic Telex: 4948–179 Yonso J. Tel. Yokkaichi (0593) 53–5211.

Tankers: Uyeno Unyu Shokai Yokkaichi Office c/o Showa Yokkaichi Sekiyu K.K. 1, Shiohama-cho, Yokkaichi-shi Mie-ken. Cable address "Uyenoshell Yokkaichi". Domestic Telex 494–8276. Tel. Yokkaichi (0593) 45–2271/8.

YOKOHAMA (incl. Negishi and Tsurumi): 35.27 N. 139.38 E. (See Plan Book)

DOCUMENTS:
Ship's Register.
Last Port Clearance.
3 Crew Lists, including Passport Nos.
3 Passenger Lists.
1 Store List.
1 Declaration of Crew's Baggage, i.e. tobacco, wine/spirits, camera, wrist-watch, radio, firearms/swords, etc. (only at first port of call in Japan).

Ship's Agent will prepare Inward/Outward Declaration, 1 Cargo Manifest and Cargo Manifest in transit using specific forms. Therefore ship's Agent should be provided with necessary information about details of cargoes in advance.

PILOTAGE: As Yokohama/Kawasaki a busy port, all movements – entering, leaving port and shifting within port – regulated by Harbour Authorities, and Agent has to make application for movement one day before, also tugboat(s) arranged through Agent. If any change necessary to arrangement already made, two hrs. notice sufficient to make rearrangement with Pilot. If Pilot required at area off Ashika Shima Lt. Bn. in Tokyo Bay for passing Uraga Strait, 24 hrs. prior notice required for dispatching Pilot. (In rough sea Pilot cannot be obtained in that area.) No station pilot boat; Pilots use small launches and often make use of tugboat when it is employed at same time, for embarking and disembarking especially when sea rough. In either case, launch or tugboat with Pilot on board displays "H" flag or lights prescribed in International Regulations. Pilot for Yokohama/Kawasaki port picked-up off Yokohama fairway entrance buoys No. 1 and No. 2, but in case ship has to wait for berth, usually does not take Pilot and proceeds to anchorage shown on chart as "Quarantine Anchorage" or as near as safety permits, and anchors. In this case Pilot boards at anchorage. If anchor or picks-up Pilot inside harbour limit, pilotage cheaper because assessed on two stages; "From Bay to Sea" and "From Sea to Berth", but Master requested to anchor outside fairway. Vessel to provide properly approved Pilot ladder.

Uraga Channel:

Vessels requiring a Pilot for the Uraga Channel should radio request to Anjin Yokosuka, advising ship's details and arriving time at No. 1 Uraga Channel light buoy. Uraga Channel Pilot embarks 3 to 5 miles S.S.E. of Kannonsaki lighthouse, and will disembark on arrival at destination port limits. Applications for Uraga Channel Pilot should reach pilot office 24 hrs. before vessels arrival at No. 1 Uraga Channel light buoy.

Recommendations: To be followed by tankers of 100,000 d.w.t. or more when they navigate through the Uraga Channel with cargo loaded:

1. Twelve hrs. and three hrs., respectively, before such a vessel expects to pass the Uraga Channel No. 1 light buoy, it should report the following items to the Yokohama Maritime Safety Division. Also, after the three-hours-in-advance report, it should keep its radio station open. This, however, is not required if the vessel is South bound:
   - *(a)* Name of vessel.
   - *(b)* Signal letters, d.w.t. tonnage, type and quantity of cargo, name of port intended to enter (not required in a three-hours-in-advance report).
   - *(c)* Availability of international VHF transmitter-receiver equipment aboard.
   - *(d)* Time at which the vessel expects to pass the Uraga Channel No. 1 light buoy.
2. Refrain from sailing through the Channel when visibility is poor (less than about one nautical mile).
3. Avoid sailing through the Channel at night unless it is essential to do so.

   Follow any instruction that may be issued from the Director of the Yokohama Maritime Safety Division as to the time for sailing through the Channel.
4. Maintain look-out at stem.
5. Between the neighbourhood of the Uraga Channel No. 2 light buoy and that of the Uraga Channel No. 5 light buoy, avoid overtaking other vessels (weighing about 500 g.r.t. or more) unless it is essential to do so.

ANCHORAGES: 12–26 m. in quarantine anchorage, and 26–34 m. in other areas. For details refer to chart published by Hydrographic Division of Japan MSA.

RESTRICTIONS: Entry or departure or movement inside port not allowed from sunset to sunrise, but ships less than 15,000 g.r.t. without dangerous cargo can be given special permission to enter, leave port and move inside the port (only in Yokohama). In Kawasaki, which is very narrow and long, no special permission given. Depths of shallows in Yokohama, Tsurumi and Kawasaki fairways 11.6, 11.2 and 12.0 m., and Pilot Association make these the max. drafts accessible to the berths inside the respective fairways. Ship with max. draft of 11.6 m., when entering Yokohama through Yokohama fairway, has to wait for tide.

STEVEDORES: At least 24 hours prior notice excluding Sundays and holidays required in order for Agent to arrange stevedores. Vessel must constantly keep her Agent advised of ETA. If stevedores cannot commence loading/unloading at time notified by Agent, the orderers must pay for waiting time. If cargo gear not rigged on berthing, stevedores will do same for ship's crew. Overtime surcharges 1700–1900 hrs. (50% additional of basic stevedorage), 2100–0500 hrs. next morning (130% additional). Sundays/holidays (60% additional).

MAX. SIZE: *Tankers:*

Name of Berth	*Max. d.w.t.*	*Max. LOA*	*Max. safe draft*
Keihin Yokohama (Sea berth)	No limit	No limit	19.50 m.
Shell Oil (Main Jetty)	No limit	180 m.	10.00 m.
General Sekiyu	No limit	182 m.	9.30 m.
Mobil Oil	No limit	176 m.	9.45 m.
Asia Oil No. 5	No limit	No limit	12.00 m.
Nisseki Koyasu	No limit	250 m.	12.00 m.
Nisseki Negishi A (E.)	No limit	310 m.	17.00 m.
Nisseki Negishi B	No limit	250 m.	13.60 m.
Shell	No limit	260 m.	11.70 m.

HEALTH: Radio Agent for free pratique not less than 12 hrs. and not more than 36 hrs. before arrival, advising full details of vessel and health conditions on board. When free pratique is granted by radio, vessel will be required to submit the following documents to Quarantine Officer on arrival:
Maritime Declaration of Health.
Crew List.
Passenger List.

The following vessels will not be able to get radio pratique:

A vessel that has been in contact with an infected area or a suspected infected area within 15 days of arrival.

If a vessel has on board any case, or any suspected case of infectious disease, within 15 days of arrival.

If crew or passengers on board do not possess valid Smallpox Vaccination Certificates.

If a vessel does not possess a valid Derat or Derat Exemption Certificate.

RADIO: Recommended Captain communicates with Agent through Choshi Radio or Nagasaki Radio which cover all ports in Japan. If specifically Westbound vessel, to Choshi, and Northbound to Nagasaki Radio respectively.

VHF: Call sign Yokohama Port Radio. (See details under "Kawasaki/VHF").

MEDICAL: No advance notice required unless urgent.

TANKERS: Masters of tankers seldom requested to fit reducing pieces before arrival for connection of shore lines since oil installation have own appliances. Two slop disposal facilities, one in district No. 5 in Yokohama which is private enterprise and can dispose of dense residues, and one in District No. 1 in Kawasaki which is run by Kawasaki city and can dispose of diluted slop or oily ballast. (Also see "Max. Size").

Berth	*Product*	*Shoreline*	*Discharge Rate (t.p.h.)*
Keihin Yokohama Sea Berth	Crude	16 in.×3	10,000

Shell Sekiyu	Fuel	12 in.×3	1,200
	Crude	12 in.×3	4,800

TUGS: Under control of Pilot, compulsory in Yokohama/Kawasaki for foreign ships, and normally join ships in fairway between outer breakwater and Lt. Hos. and Entrance Lt. Buoys. If ship is at anchor in quarantine area or near to it, tug(s) joins ship at anchor. Usually two tugs used for mooring and/or unmooring, but depends largely upon special conditions of berth and weather conditions. Tug's lines used and charge included in towage.

BERTHING: No specific requirements. Pilot boarding time will be notified by ship's Agent mainly by radio.

Mooring Buoys:

District	*Mooring Capacity*	*No. of Berths*	*Buoys*	*Depth (m.)*

DENSITY: Average approx. 1023.

FRESH WATER: Available at Honmoku Pier, Yamashita Pier, Osambashi Pier, Shinko Pier, Takashima Pier, Yamanouchi Pier, Mizuho Pier, Detamachi Pier and 4 Automatic Vending Machines. Water barge with 280 tons capacity also available.

FUEL: All grades of bonded bunkers are stocked in Tokyo Bay, Ise Bay, Osaka Bay and Kanmon Port. At all other ports bunkers will be lightered from the nearest bunker stock ports at max. 7 days prior notice.

FIRE PRECAUTIONS: Oil installations in Yokohama/Kawasaki generally do not allow bunker barge to come alongside ships moored to their berths.

CERTIFICATES: Ship's Register to show Customs Inspector ship's registered gross and nett tonnages. Valid Cargo Gear Certificates sometimes required by stevedores when cargo gears maintenance appears to be poor.

CUSTOMS ALLOWANCES: Only allowed 50 cigarettes to take ashore but no spirits.

REPAIRS: Any kind of repairs can be effected at this port.
DRY DOCKS: The largest dry dock, owned by Ishikawajima-Harima Heavy Industries Ltd. (and another six smaller dry docks owned by Mitsubishi Heavy Industries Ltd., Nippon Kokan K.K.). Max. length, 1,161 ft. 5 in.; breadth at entrance, 183 ft. 8 in.; height of sill above bottom dock,, 5 ft. 3 in.; depth on sill at high water, ordinary spring tides, 20 ft. 3 in.
REPATRIATION: Possible.
AIRPORT: Haneda International Airport 25 km. and served by many regular airlines.
TIME: GMT plus 9 hrs. No alterations made to clocks during year.
HOLIDAYS: Only observed at Public terminals.
POLICE/AMBULANCE/FIRE: Police, 110; Ambulance, 119; Fire, 119.
TELEPHONES: Telephones can be placed on board.
SERVICES: Almost all requirements by ships could be met, if time permits.
SHORE LEAVE: Local Immigration Offices issue shore pass valid for only 3 days; but 3 days extension possible if ship stays longer.
DEVELOPMENTS:
Daikoku Pier Construction Project:
The following construction works are now under way just off Daikoku-cho of Tsurumi Ward:
1. A 2-berth pier of 600 metres long, with the depth of water of 12 metres, to accommodate container vessels of 35,000 ton class.
2. A 11-berth pier of 2,200 metres long, with the depth of water of 10 metres, for liners of 15,000 ton class.
3. A 2-berth pier of 480 metres long with the depth of water of 12 metres for tramps of 30,000 ton class.
4. A 4-berth pier of 520 metres long with the depth of water of 7.5 metres for coastwise vessels of 5,000 ton class.
5. An island-like pier with loading and unloading places.

As for the 11-berth pier for liners as mentioned above, four berths are already in use. This will be followed soon by the commissioning of two berths out of the four for coastwise vessels.

It may be noted that a project to make on this pier a green zone that will provide a recreation place and an athletic field for the benefit of port workers and citizens is now being undertaken. The athletic field is already open for public use.

Honmoku Pier (For Construction Materials) Construction Projects:
With a view to ensuring stabilized supplies of construction materials in good quantities by sea from distant places, a pier with one berth of 185 metres long with the depth of water of 10 metres for vessels of 15,000 ton class is now under construction adjacent to D jetty of the Honmoku Pier.

Land Reclamation Project (near the Honmoku Pier):
For the purpose of securing land for piers and creating a green zone and, at the same time, acquiring the ground where to dispose of the city refuse, this project aims at reclaiming land in front of D jetty of the Honmoku Pier by burying dredged soil and sand, unwanted mud and soil and general wastes that do not pollute the environment. It will reclaim land for further improvement of piers and make a park and a green zone for the benefit of citizens. A jetty for fishing will also be provided.

Kanazawa Reclamation Project:
A reclamation work will be carried out in the sea in front of Kanazawa Ward, in accordance with the city redevelopment plants. A modern industrial zone will be formed on this reclaimed land and many factories that are now scattered in the city, whose locations are undesirable from an environmental view point, will be urged to be relocated to this zone. Thus, while improving the conditions in the city area and various city facilities, the project aims at realizing an ideal industrial complex where new and relocated factories will be given sufficient guidance and assistance to have highly modernized facilities that will be free from any pollution problem.

Land for housing for employees of the relocated factories will be secured, as also the land for public facilities to ensure the smooth functioning of the city. In addition, a marine park will be made, where the people can enjoy the beauty of nature and take quiet repose.
AUTHORITY: Port and Harbour Bureau.

PILOTAGE: In applying for Pilot at time of entry and departure, Pilot station should be contacted 24 hours in advance of beginning of Pilotage through Agent. 44 Pilots available. Pilot boat has telephone.
ANCHORAGES: At 4th District of Yokosuka Port. Depths 10–30 m.
RESTRICTIONS: The 1st, 2nd and 3rd District of Yokosuka Port under compulsory pilotage districts.
Possibilities of Entry or Sailing after Sunset:
Nagura Pier:
Entry – 0600 to 1800 hrs.; Sailing – 0600 to 2200 hrs.
Yokosuka Shin-ko:
Entry – 0600 to 1700 hrs.; Sailing – 0600 to 1700 hrs.
MAX. SIZE: See "Berthing".
HEALTH: Radio pratique available. Authorities board at anchorage. Quarantine station to be informed in advance name of last port, ship's name, tonnage, number of crew, number of passengers, ship's nationality, etc. In event any suspected disease, Agent should be advised. When isolation of ship needed, it will be transferred to Nagahama Quarantine Station in Yokohama.
RADIO: Local radio station.
TUGS: Can be arranged through Agent. Tugs normally join vessel in 3rd District when vessel enters Nagaura and New Port, and in 7th District when it enters Kurihama. Tug's lines to be used. Charge for tug's lines included in charge for tug.
BERTHING: Agent submits application for berth to Port Authority (Nagaura and Kurihama port offices and Yokosuka New Port Wharf Company).

STEVEDORES: Agent will arrange stevedores.
MEDICAL: Agent can arrange doctor who understands foreign languages.
TANKERS: No berthing facility for commercial tankers. Only U.S. Naval Base, Yokosuka, has berthing facilities.
FRESH WATER: Available by barge or ex wharf. 50% additional charge in case of bad weather or out of office hours.
FUEL: Most grades of domestic and bonded oil are available from Yokohama or Kawasaki.
GANGWAY/DECK WATCHMEN: Agent arranges watchmen.
OPENING/CLOSING HATCHES: Stevedores or crew carry out this work.
CUSTOMS ALLOWANCES: Tobacco: 2 packets per day. Spirits: 1 bottle when more than 1 month voyage; 2 bottles when more than 6 months voyage.
CONSULS: None.
REPAIRS: Dockyards available for all repairs.
DRY DOCKS: 1 – 475×19.5 ft.; 1 – 352×15.75 ft. 5 large-size slips; 1 rigging wharf.
REPATRIATION: No facilities exist. If necessity occurs, Yokohama Immigration Office will attend.
AIRPORT: 40 km. to Tokyo International Airport.
TIME: GMT plus 9 hours. No alterations during year.
HOLIDAYS: Cargo work usually daytime. On Saturday afternoon and Sunday, National holidays, Municipal Inauguration Anniversary, and December 31, January 1, 2 and 3 no cargo work.
POLICE/AMBULANCE/FIRE: Police, 110; Ambulance/Fire, 119.
TELEPHONES: Facilities now underway.
GENERAL: Port situated in city confines, a portion of port is used by JMSDF and also by the U.S. Navy according to Japan-U.S. Security Treaty.
AUTHORITY: Yokosuka City.
AGENT: Sub-Agent of Dodwell & Co., Tokyo. Sagami Unyu Kabushiki Kaisha, Taura Minato-Machi, Yokosuka-shi, Kanagawa-ken. Cables: Sagami Yokosuka Taura. Tel. Yokosuka (0468) 61–3111. Telex 3852–528.

Jordan

AQABA: 29.31 N. 35.01 E.

DOCUMENTS:

1 copy Freighted Manifest, stating all details.
6 copies Unfreighted Manifest.
2 copies of Unfreighted Manifest not showing shippers nor consignees but weights and measurements.
1 set of non-negotiable Bills of Lading.

All Manifests should bear the following clause: "This is to certify that the above vessel has not called and is also not scheduled to call at any Israeli ports nor is owned by any Israeli Company, also it is not included in the Black List." All the above documents are to be airmailed to the Agent's Head Office in Amman and not Aqaba.

Documents required by the authorities for free pratique:

7 copies Crew List.
7 copies Passenger List.
1 copy Stores List.
1 copy Crew Declaration List.
1 copy Vaccination List.

The following forms to be filled:

2 copies of Maritime Declaration Form.
1 Customs Declaration Form.
2 copies Vessel's Specification Form.
1 copy Pilotage Form.

The following documents to be produced for checking:

(a) Log Book.
(b) Ship's Registry Certificate.
(c) Derating Certificate.

PILOTAGE: Compulsory Pilotage in that area of Aqaba Bay North of an imaginary line 270° from Al-Breij Point. Ships in harbour requiring a Pilot should by day hoist "G" flag below a ball or shape, one hour before ship is ready to move; and "B" flag by night with a red over white. The sound signal is four long blasts. Advance notice of the ship's requirement of pilot service should be given to the Agent who will advise the Harbour Master or his representative. It should be noted that vessels may proceed to sea from the anchorage without taking a Pilot, but for ships leaving the berths alongside, pilotage is compulsory, and the signals described above should be made.

ANCHORAGE: About 0.5 miles from shore in depths of 15 to 30 fathoms. Ships awaiting discharge can easily anchor in deep water anchorage which can accommodate 25 ships or more.

MAX. SIZE: Up to 20,000 d.w.t. Max. draft 32 ft. Phosphate loading berth: up to 50 ft. draft.

TUGS: The tugs available at Aqaba are only for towing barges and handling ship's line during berthing but no salvage tugs are available.

HEALTH: A ship arriving from sea should, in addition to the "G" flag for Pilot, hoist its signal letters and "Q" flag to request free pratique if it is healthy. If there are passengers to land, "I" flag should be hoisted. The port doctor boards the vessel together with a representative of the Port Dept., Customs Dept., Passport Dept., and Police. If the vessel has to anchor first, boarding the vessel takes place at anchorage. If the vessel berths alongside, then the aforementioned representatives board the vessel. Health certificates of crew and passengers are required.

RADIO: Aqaba Radio station call sign JYO. Watchkeeping hours GMT 0500 to 1700. Station has transmitting frequencies presently only 500 and 477, however, 2182, 2612.5, 4326.5, 6479, 8723 are reserved.

Station can receive on all M/F and H/F frequencies. Station listens continuous, 500 kc/s. at present; will listen 6200 to 6300 A1 H to H plus 10.

VHF: Aqaba Port Control at Harbour Master's office listen from 0700 to 2400 hrs. local time on VHF Channel 16, working Channels 10 and 12 for service messages. Pilots listen VHF Channel 16.

BERTHING:

General Cargo Berth: Three medium-size ships or two large ships can berth alongside. The depth is 10 m. (32 ft.) at low tide.

Phosphate Loading Berth: The berth is 210 m. long and 32 ft. depth. It is situated South of the General Cargo Berth and is especially built to load phosphate. The berth is designed to accommodate ships of up to 20,000 d.w.t. In addition, pipes have been laid to supply petroleum to a nearby tank farm for the occasional import of some petroleum products. There are two main berthing dolphins with a loading tower in between, and mooring dolphins at each end. The loading tower is connected with a conveyor belt feeding the tower from two silos with a 20,000-ton capacity each. There is a short retractable boom and telescopic trunk which can be travelled forward up to a distance of 9 m. from the berthing face to plumb the centre of the hold of a ship. The loading capacity is 500 t.p.h. The guaranteed loading rate by the Phosphate Company is 2,000 tons per weather working day of 24 hours. Vessels should arrive at the berth with as large an amount of water ballast as possible, both to facilitate berthing (as there is no tug) and to reduce the height from water-line to hatch coaming. This height should not exceed 30 ft.

Bulk Export Berth "B": Is 180 m. long with 15.5 m. (50 ft.) depth of water at low water spring tides and is designed for berthing and loading 100,000 d.w.t. bulk carriers. The travelling ship-loader has a capacity of 1,500 tons of phosphate per hour and provision is made in the design for the installation in the future of a second similar shiploader to give a total loading capacity of 3,000 t.p.h. Phosphate for loading into ship is weighed on a continuous recording belt weigher (accuracy +0.5% between 25% and 150% of rated capacity) and is loaded through a telescopic pivoting feed chute. Clearance above high water level is 18 m.

Lighters Wharf: The Lighters Wharf has a length of 215 m. and a width of 10 m. and a depth of about 9 ft. About 10 lighters can be discharged alongside.

Floating Berths: 2 berths. Each designed for one general cargo vessel 15,000 d.w.t. and 30 ft. draft, or 2 general cargo vessels of about 3,000 d.w.t. and 2 Roll-on/Roll-off ships each of 7,000 d.w.t. Also see "Developments".

STEVEDORES: Stevedoring Company's working hours are from 0800–1600 hrs. Work has to start at 0700 hrs. and end at 1600 hrs.; therefore, there are two compulsory overtime hours in the morning, from 0600 to 0800 hrs. and 1 hour in the afternoon, i.e. from 1600 to 1700 hrs.

Ships Working Hours: Ships can work round the clock, depending on Captains' option and the number of ships available in port. Opening hatch of a ship is allowed up to 2200 hrs. and subject to Port Authority agreement. Friday is the official weekly holiday, however, work is carried on, on the ships.

TANKERS: Berth in daylight hours only.

MEDICAL: The Health Section of Aqaba Port Department gives all medical services required and responds to any urgent call by radio before arrival. A government hospital is available and is satisfactorily staffed by doctors. A doctor may be called on board at any time day or night, to attend to sick crew or passengers by arrangement with the Agent.

FRESH WATER: Can be supplied to ships berthed alongside.

FUEL: Bunkering is inadvisable. In case of necessity, fuel oil can be transported from the refinery in Zerka by tank lorries with a capacity of 12 tons each. Three day's notice must be given in order to arrange transport.

GANGWAY/DECK WATCHMEN: Customs provide a guard who has to be given full board and lodging. Ships are also supplied by local watchmen through Agents.

HOLIDAYS: Arbor Day (January 15th); Arab Summit Conference Day (January 17th); *Thil-Hijja 10, Eid El Adha (January 14th); Arab League Day (March 22nd); *Moharram 1, Islamic New Year (March 3rd); Independence Day (National Day May 25th); *Rabi' El Awal 12, Prophet's Birthday (April 13th); H.M.'s Accession to the Throne (August 11th); Birthday of Crown Prince Hassan (September 5th); *Rajab 27, Al-M'raj Al Sharif (May 24th); Birthday of H.M. the King (November 14th); Arab Renaissance Day (November 22nd); *Shawal 1, Eid El Fitr (November 26th).

*Dates fluctuate due months being lunar months.

CONSULS: No consul or vice-consul available at Aqaba. All Consular Offices in Amman, the Capital.

TIME: GMT plus 2 hours.

REPAIRS: A shipyard has been established to build fishing boats and trawlers, barges, tugboats and undertake minor repairs. Welding can also be carried out.

DRY DOCKS: No dry docks are available at Aqaba.

AIRPORT: From Aqaba Air communication: Alia, (The Royal Jordanian Airlines) to Amman 4 flights weekly. Distance to Amman International Airport, 355 kms.

GENERAL: Masters are warned that during the Winter months strong Southerly gales can develop within two hours followed by swell. In such case it may be necessary to unberth the vessel, and it should be noted that there is no tug available for this operation. Vessels in the anchorage in such weather conditions should not hesitate to weigh anchor if there is a possibility of dragging, and proceed out of the bay until the weather moderates.

DEVELOPMENTS: 4 general cargo berths under construction. It is estimated that the construction will take about 2 years, total length of the 4 new berths is 720 m.

AUTHORITY: Aqaba Port Department, Ministry of Transport, Ports, Railways and Airports in Amman.

NOTES

Please also advise Shipping Guides Ltd.

Kenya

MOMBASA: 04.04. S. 39.40 E. (See Plan Book)

PILOTAGE: ETA through ships' Agents, 48 hours' notice. VHF Channel 12 (Mombasa Radio VHF Ch. 16). Pilot boat 72 ft. ex-Admiralty launch, white. No signals for Pilot – call on VHF 12 (Mombasa Pilots) or by signal lamp to lighthouse. Pilot boat position one mile outside turning buoy on Ras Serani leads (301°) except for deep-load tankers (over 35 ft.) when pilot boat position one mile from turning buoy on Mackenzie leads (327°). No special bad weather regulations. Pilot ladder 6 ft. from water – must have manropes – light at night.

ANCHORAGES: No safe outer anchorage.

RESTRICTIONS: No tidal restrictions. Entry for dangerous cargo restricted to daylight. Entry for tankers over 650 ft. restricted to daylight.

MAX. SIZE: Length 820 ft. Draft 40 ft.

HEALTH: Radio Port Health Officer, Mombasa, giving last port of departure, ETA Mombasa, condition of crew, any sickness on board, passengers. Must have Q Flag until doctor visits vessel or until Pilot passes information to lower flag.

RADIO: Mombasa Radio Coast Station M/F, H/F, W/T & R/T and VHF R/T Services:

Station 5ZF (W/T) 500–524 kc/s.; traffic list 0100, 0500, 0900, 1300, 1700, 2100; Continuous watch; listening freqs. 500 kc/s.

Station 5ZF2 (W/T) 8710.4 kc/s.; traffic list 2018; schedules 2018–2030, OBS only 0000–0030, 0600–0630, 1200–1230, 1800–1830; listening freq. 8354–8374 kc/s.

Station 5ZF3 (W/T) 13065 kc/s.; traffic list 0448, 0830, 1518; schedules 0448–0530, 0830–0900, 1518–1545; listening freq. 12531–12561 kc/s.

Station 5ZF4 (W/T) 17175.2 kc/s.; traffic list 1248; 1248–1315; listening freq. 16708–16748 kc/s.

Station (R/T) 2595, 2181 kc/s.; traffic list 0603, 1203; schedules 0600–0630, 1200–1230; continuous listening watch outside Skeds 2182 kc/s.; listening freq. 2182 kc/s.

Station (R/T) 4409.4 kc/s.; traffic list 0533, 1303; schedules 0530–0600, 1300–1330; listening freq. 4104.4 kc/s.

(R/T) 8805.6 kc/s.; traffic list 0633, 1233; schedules 0630–0700 1230–1300; listening watch on 8255.6 kc/s 0330–1530 listening freq. 8255.6 kc/s.

Mombasa Radio also provides continuous R/T service on VHF for the benefit of ships in and around Mombasa within radius of 30 miles. Channel 16 for calling and Channels 26 and 27 for working. All times in GMT.

TUGS: Tugs join vessel inside harbour between Ferry and Kilindini reef. Tug lines no additional charge.

BERTHING: All berths fendered. Nos. 89 and 10 and Shimanzi Oil Terminal berths, no berthing on ebb tide, with range of 6 ft. or more. Kipevu Oil Terminal berthing on first of ebb with tankers over 650 ft.

CARGO HANDLING No. 9 berth has been arranged for bulk export of soda ash. No berths for roll-on/roll-off traffic but a site is being considered. No container berth is available, but certain facilities at berths No. 16 and 17 available for containerised cargo in 1976.

Mbaraki cement berth for bulk export of cement clinker and automated loading of cement in bags is now in operation.

Shimanzi oil terminal now handles all imports of bulk vegetable oil as well as all other oil products except crude oil.

Bulk cargoes are at present handled by grabs, railway wagons, and lorries.

STEVEDORES: ETA preferably 48 hours in advance in order to arrange gangs. Advisable notify Habour Master ETA and also give quantity of cargo to be loaded and/or discharged and other matters of importance.

MEDICAL: In emergencies necessary to receive advance notice. Hospital facilities available. Inoculations required – smallpox (compulsory), yellow fever (endemic zones in Africa and South America), cholera (all ships from Asia).

TANKERS: Discharge and load white oils at Shimanzi. Discharge and load Heavy oils at Kipevu.

Shimanzi Oil Terminal: T-head jetty with 200 ft. long berthing head. Depth alongside 32 ft. LWOST. Bunkers and fresh water available. Slop reception facilities for up to 6,000 tons.

Kipevu Oil Terminal: T-head jetty with 225 ft. long berthing head. Tankers up to 65,000 d.w.t. berth at dolphins alongside jetty head; depth alongside 44 ft. LWOST. Max. length 820 ft. Max. draft 40 ft.

DENSITY: 1025.

FRESH WATER: Available at all berths in stream ex-tug at Harbour Master's discretion or barge of 140 tons capacity. 30 t.p.h. on quay.

FUEL: *Main Quay Berths:* Marine fuel oil, viscosity 1500 seconds. Marine diesel fuel. Gas oil cannot be delivered by pipe-line at these berths but delivery can be made up to only 10 tons by bulk lorries at extra delivery cost. Minimum 48 hours' notice required. Quantities of 10 to 30 tons can be made by rail tank wagon if 48 hours advance notice given. Thin fuel oil viscosity below 1500 secs. can be delivered at all berths through Fisher blender. Only 1 Fisher blender available and can deliver fuel to only 1 vessel at a time.

Shimanzi Oil Terminal: All grades, i.e. fuel oil, marine diesel, gas oil and thin fuel oil (through Fisher blender).

Cased Oil Jetty: Only marine diesel and gas oil can be delivered at this jetty.

Kipevu Oil Terminal: Only fuel oil of viscosity between 1500 secs. and 3500 secs available. Fuel oil viscosity below 1500 not available. At least three days clear notice required by EA Oil Refineries for arranging bunker delivery. Not possible to deliver any marine diesel or gas oil either ex pipe-line or rail tank-wagons/bulk lorries at this berth.

GANGWAY/DECK WATCHMEN: Watchmen available for gangway and deck and recommended.

OPENING/CLOSING HATCHES: Normally done by stevedores except Macgregor type hatches.

CERTIFICATES: Normal port requirements for safety cargo equipment.

CUSTOMS ALLOWANCES: Tobacco, 200 cigarettes for each crew member for 8 days. Wine and/or Spirit, 8 small bottles of beer for each crew member for 4 days.

CARGO GEAR: All cargo gear supplied by stevedores.

IDENTIFICATION CARDS: Not required.

CONSULS: The following countries are represented in Mombasa: Germany, British High Commission, India, Belgium, Denmark, France, Italy, Norway, Sweden, Netherlands, Greece.

REPAIRS: Normal running repairs.

DRY DOCKS: Vessels up to 2,000 tons, length 320 ft., beam 50 ft. New dry dock for vessels up to 18,000 g.r.t. Length of dock 590 ft., width of entrance 80 ft. All repair facilities available. Mobile cranes up to 12 tons and fixed cranes up to 30 tons capacity.

REPATRIATION: Possible. Facilities available.

AIRPORT: About 7 miles from port. Served by regular airlines. Mombasa/Nairobi 4 flights a day. Mombasa/Dar-es-Salaam 4 flights a day. From Nairobi regular lines all over world.

TIME: GMT plus 3 hours.

HOLIDAYS: Weekdays: 3 shifts – 0700–1500 hrs. 1500–2300 and 2300/0600 hrs. Saturday: 2 shifts – 0700–1230 and 1230–1800 hrs. Sundays: 1 shift – 0700–1500 hrs. New Year's Day; Good Friday; Easter Monday; Labour Day (1st May.); Madaraka Day (1st June); First Monday in August; Kenyatta Day (20th October); Independence Day (12th December); Christmas Day; Boxing Day (26th December).

Also for persons belonging to Islamic Faith: Idd ul Azha and Idd ul Fitr. 1st May (Labour Day) and Christmas Day are normally only holidays on which port closed except for necessary pilotage of ships in and out and for dealing with mails, passengers and their baggage, livestock and perishables. On other public holidays restricted working at Mombasa may be carried out at overtime rates. Overtime rates also apply on Saturdays after 1500 hrs. and on Sundays, and to third shift between 2300–0600 hrs.

POLICE/AMBULANCE/FIRE: In Port Area – Police 567 444; Ambulance 33; Fire 333.

TELEPHONES: Telephones supplied on board. Charges include cost of local calls. Telephone essential per port regulations.

SERVICES: All solvents for tank cleaning available. Repairs to Gyro compass, radar and most other electronic aids to navigation. Compass adjusting by arrangement with port.

SHORE LEAVE: All crew members allowed ashore and to travel except those from Socialist countries who must stay on Mombasa island. This does not include Tanga and Dar-es-Salaam.

PORT REGULATIONS: White tankers and vessels carrying explosives enter port daylight only. No vessels carrying explosives or dangerous cargo allowed to berth at Main Quay.

DELAYS: Normally one or two days for loading and discharging and for bunkering. Usually no waiting days.

SHIP'S OFFICER'S REPORT: The Boarding Customs require crew declarations on their special form duly signed by each individual member of crew. The excess private property, or the items not required during the ship's stay in port, are to be collected and placed in a locker or room and sealed by the Customs. This seal has to be kept intact even in the case of the vessel sailing from Tanzania to Kenya or vice versa. On arrival at the next port, the previous Custom's seal is replaced by the local authorities. No new crew declaration is needed if once filed at first port. However, it is recommended that an extra copy of the crew declaration is kept on board as a record in case it is requested by the local authorities.

AUTHORITY: Kenya Ports Authority.

AGENT: East African Commercial and Shipping Company, Kilindini Road, PO Box 95103. Tel. 26251/2. Telex 21151. Cables "Kenship, Mombasa".

Korea (North)

CHUNGJIN 41.43 N. 129.42 E.

DOCUMENTS:
8 Crew Lists.
2 Vaccination Certificates.
2 Lists showing currency, gold and valuables in possession of crew members.

The following information should be radioed to port authorities before arrival:
Number and nationality of crew.
Name of last port.
Ports called at during last month.

PILOTAGE: On reaching North Korean waters, vessels required to give a position report every 3 hours to KCSA Chungjin. Pilot and Port Authorities board in position 41.30 N. 130.05 E. where vessels should await Pilot. Water depth too deep to permit anchoring.

ANCHORAGE: No possibility of anchoring outside harbour limits.

CLEARANCE: On arrival in port, the radar, echo sounder, main and emergency transmitters and all optical equipment is sealed. An inspection team board the vessel to verify currency and valuables declarations. Seamen's Books required to be stamped with landing pass.

BERTHING: Berth No. 1 max. draft 24 ft. Berths 2 and 3 max. draft 27 ft. Berths No. 4 and 5 max. draft 28 ft.

CARGO GEAR: Vessels loaded and unloaded by ship's gear. At berths 4 and 5 there is a conveyor belt facility for coal loading.

SHORE LEAVE: Seamen not allowed to visit other vessels, or leave the harbour area.

Unauthorised money changing forbidden, and it is prohibited to take Korean currency out of the country.

No bathing in harbour area.

HAEJU (Haijuube) 37.59 N. 125.42 E.

SHIPMASTER'S REPORT: August, 1978

DOCUMENTS: Same as Nampo, but Korean Forms must also be filled in on arrival.

PILOT STATION: B.A. Chart 1258. Situated between following points:

37° 40′ 30″ N.	125° 35′ 00″ E.
37° 42′ 00″ N.	125° 35′ 00″ E.
37° 42′ 00″ N.	125° 32′ 24″ E.
37° 40′ 30″ N.	125° 32′ 24″ E.

The ship should anchor and wait. It is imperative to anchor within Pilot Station Area, which is used by North and South Korea, otherwise the Authority will not board the vessel. Approaches to Haeju are not covered by B.A. Charts, Korean (Nos. 15–1354, 1328, 1329) not obtainable. Pilot boards together with Quarantine and Immigration officer. The inspection starts immediately, all crew must have Seaman Book for identification. Food stores and pantries also inspected. Pilotage is carried out depending on tide and ship's draft, daytime only. Berthing at slack tide. After berthing arrival inspection continues (Harbour Master, Custom, Coast Guard).

ANCHORAGE: Ships sometimes complete loading at the Anchorage in position 37° 55.5″ N., 125° 46′ E., depth 11.4 m., but probably swinging space for one ship only. Ships waiting for berth anchor in the vicinity of the wharf. With no chart it makes the situation difficult, as there are no lights or light buoys. Position only obtained by radar. One anchor used due to strong tide which sometimes reaches 4 knots.

ARRIVAL ADVICE: The arrival notice to be sent to KZSA Haeju giving all particulars same as Nampo. first contact via Haeju Coast Radio Station, call sign HMJ, to be made 48 hours before arrival. Earlier contacts via Shanghai Radio.

RADIO: Haeju Radio, call sign HMJ.

BERTH: Old berth described in China Sea Pilot, Vol. III, page 540. Extension works in progress. Shore cranes. Depth at low water about 6.8 m.

EXPORTS: Zinc concentrates, cement from the new factory connected with Port by conveyor belt.

FRESH WATER: From hydrant alongside, at anchor by barge (dredger).

FUEL: In restricted quantities, price unknown.

SERVICES: Provisions and Laundry, available through Seamen's Club.

AUTHORITY: Port Master and Harbour Master.

AGENT: The Ocean Shipping Agency of the DPR Korea, Cable KZSA.

NAMPO (Chinnampo): 38.43 N. 125.25 E.

(See Plan Book)

Shipmaster's Report No. 1

DOCUMENTS:
8 Crew Lists.
2 Vaccination Lists.
2 Lists showing currency, gold and valuables in possession of crew. Bonded stores must be declared but not sealed.

ARRIVAL ADVICE: The following information should be radioed to KNSA Nampo before arrival:

(1) ETA Nampo Station, Lat. 38° 37′ 30″ N., Long. 124° 49′ 30″ E.
(2) Nationality.
(3) Gross Registered Tonnage.
(4) Net Registered Tonnage.
(5) Deadweight.
(6) Length overall.
(7) Height of Freeboard.
(8) Speed.
(9) Last Port of Call.
(10) Colour of ship's hull.
(11) Number of crew and passengers.
(12) Hatch Loading/Discharging cargo Plan.
(13) Draft.
(14) Ship's position together with ETA 24 hours before arrival within area connected positions 37° 00′ N. 124° 30′ E., 38° 08′ N., 123° 35′ E., and 39° 50′ N., 124° 07′ E. Also vessel should advise position and time passing above connected lines.

PILOTAGE/ANCHORAGE: Pilot and Port Authorities (Quarantine Officer and Immigration Officers) board at position 38° 37′ 30″ N. 124° 49′ 30″ E. where vessels should anchor awaiting Pilot.

Night pilotage prohibited, according to port regulations.

CLEARANCE: After embarkation of Port Authorities at Nampo Station the Radar, Echo sounder, VHF, DF, Radio Room and all optical equipment is sealed. On arrival in Port, Customs Officers board the vessel and together with Immigration Officers search the whole ship.

Seamen's books required to be stamped with landing pass, also seamen's books are taken ashore by Immigration Authorities for formalities.

BERTHING: Coal berth can accommodate vessels up to 20,000 d.w.t. There are 2 conveyor belts for coal loading but 1 only can work at a time. Conveyor belts are not movable, the vessel has to shift. Vessels loaded and unloaded mostly in the roads by ship's gear. There are 3 other berths but have no information.

RADIO: Nampo Radio. Call sign HML.

FRESH WATER: Only available by barge.

TIME: GMT plus 9 hours.

SHORE LEAVE: Seamen allowed to go ashore by boat or bus only. Seamen are not allowed to leave harbour area. In order to visit other vessels in port, application should be made to Immigration Authorities.

GENERAL: *Currency:* It is prohibited to take Korean currency out of the country.

Bathing: Prohibited.

Fishing: Prohibited.

Provisions: Limited quantities available at the Seamen's Club.

Shipmaster's Report No. 2

Information covering Nampo, North Korea, previously known as Chinnampo. See in connection with this B.A. Chart 1257 and 1656, China Sea Pilot III.

The following general information was produced by the navigating officers of a vessel in 1974.

NAVIGATIONAL INFORMATION: Pilot boarding point now 38° 37′ 5″ N., 124° 49′ 5″ E. Wreck at 37° 38′ 2″ N., 124° 48′ 2″ E., 3 masts above water at all states of tide. Radar echo good at 6 miles. Buoy – old position 37° 37′ 4″ N., 124° 51′ 4″ E., moved to 37° 37′ 2″ N., 124° 50′ 7″ E.

Light Sei To – flash every 23 sec. Visible for 8 miles
Light buoy at 37° 37′ 4″ N., 124° 53′ 6″ E., flashes 18 sec.
Light Shimai To flashes 18 sec.
Light San extinguished
Light Chiri extinguished
Light Hi To extinguished
Light at 38° 41′ 7″ N., 125° 18′ 1″ E., (Bachishin) flashes 30 sec.
Light at Nanryoki extinguished
Light at 38° 43′ 3″ N., 125° 24′ 6″ E., extinguished.

PILOTAGE, ANCHORAGES, INSPECTION AND CLEARANCE: The Pilot boarding point is at the same time the outer limit of Nampo Harbour and the clearing inwards point. To await Pilot and further instructions before proceeding into Nampo, vessels must wait here. Information can be obtained via coastal radio Nampo (details in Nautical Wireless Service Standing Instructions), VHF is not available.

The anchorage at the pilotage waiting point is good, and the bottom is a thin layer of grey mud with clay underneath it. With wind from the S.W., there is a slight swell. Depth of water between 25 m. and 26 m., vessels should anchor with a chain length of at least 100 m. on the capstan and calculate adequate room for swinging, since there is a very strong tidal flow at all states of the wind and weather, running up to 4 kn. according to our observations.

The Pilot comes on board with clearance authorities. As pilot cutter (also no VHF) a normal tug is used, which in Winter is also used as an ice-breaker. The tug does not display a Pilot's flag, only the national flag. The hull of the tug is black, superstructure white with large Korean characters on the front of the bridge. Pilotage only available during daylight hours.

At clearance inwards point (pilotage boarding point) all binoculars, including bridge binoculars, and photographic equipment is gathered together and sealed for the total time in port. It is only released after the Pilot leaves the vessel on departure from the port. Likewise all echo-sounding, radar, direction finding equipment is sealed. The use of such equipment and filming and photography in North Korean ports is completely forbidden.

From the clearance inwards point the journey to the anchorage in front of the town is usually at full speed for most of the way. The anchorage is selected by the Pilot. The Pilot gives a good impression and from our observations knows his job well. However, one can only expect very rudimentary English from him. The same applies to the clearance authorities who have only a very few words of English. Clearance proceeds slowly but is carried out very correctly.

GENERAL INFORMATION: When at anchor in front of the town, further official authorities come on board. These check the whole ship, and go through the deck and engine room areas accompanied by one chosen member of the crew. Whilst the ship is being examined, all other crew members must remain in their cabins. The crew member accompanying the authorities must have his seaman's book with him as identification. When the authorities leave the ship finally they take the log away, and bring it back after a few days. Going ashore is permitted, but normally only in the port area. There is a seaman's hostel there. Travel further inland is possible, but only by giving 24 hours prior notice to Immigration via the ship's Agent. Also from time to time it is possible for crew members to fly out, but this must be arranged via the state shipping Agent. Visits to other ships is also possible, but only by giving 24 hours prior notice to Immigration. Radios and cassette recorders may not be taken on land or even on deck. Their use is only permitted within the ship and cabins. Fresh water and fresh food are available. In the roads, water is delivered by water boats. Removal of rubbish is also possible by due notice through the Agent, and is even possible at the anchorage. Boat manoeuvring can likewise take place, but it must be reported, and may only take place in the vicinity of one's own ship.

For clearance inwards, the following documents are required:

7 crew lists.
1 list of items in possession of crew divided into gold, valuables, money, signature.
1 vaccination list.
1 maritime declaration of health.
1 passenger list, even if none on board.
1 narcotics list.
1 list of tobacco and personal goods.

The authorities bring a list of provisions with them and fill it out after declaration on board. Stores, such as alcohol and cigarettes are not sealed.

The health authorities place greatest score by cleanliness of toilets, refrigerators, food stores, kitchens, pantries, hospital and first-aid station.

Generally, it may be stated that the ship's broker and Agent speak and understand good English, but from the authorities normally one can expect no knowledge of Western languages.

The port roads offer anchorages for at least 15 sea-going vessels and enough room for swinging. However, in each case at least 170 m. chain should be allowed so that the vessel lies securely. The tidal current, in accordance with our observations, runs at a good 4 kn. The anchorage bottom is good and comprises grey mud. The depths of water shown in the charts are, in accordance with our observations, roughly correct.

To the West of the port on the town shore there is a large shipyard with a mobile gantry crane over a slipway under construction. The slipway is about 150 m. long. Normally, the crane is at night directly on the bank (high water mark) is illuminated and thus constitutes a good bearing, particularly at night, since otherwise no long-range port lights are available.

The position of the crane is about 34° 43′ 2″ N., 125° 24′ 1″ E. This area where the shipyard is located is designated as "Iron works" in chart 1656 map of Chinnampo Ko. The waterside there no longer has an inlet, but has been straightened out, and building work is still in process. See plan section of "Guide".

Likewise building works are in progress along the whole shore line between the shipyard and Nampo Ki. The shore line is also straightened here, and to all appearances has been developed as anchorage and repair yard for the Korean Navy. The 2 red/black buoys to the South of the iron works in the chart are no longer there. In this area there is only a small fixed buoy for guard boats and fishing craft.

In the middle of Shienshin Island there is a 9-storey white hotel, which is a good landmark by day.

The tidal pole in front of Nampo Ki is no longer available. On the Southern end Nampo Ki is a bunker with a small house on top. The lower part of the house is pink and the upper part white. The West pier of Hibatsu To has 5 mobile port cranes, with lifting capacity up to 5 tons. At the Southern end of the pier are 2 new large warehouses. A floating crane is available with a capacity of about 160 tons. On the Western pier is likewise a small warehouse and 2 mobile port cranes (up to 5 tons). At the Southern end of the Western pier, are two berths for deep sea freighters with a good 9 m. water depth N.W. alongside. At the Southern part of the Western pier there is a good 8 m. of water along a length of some 210 m. At berth 1 (West pier, Southern berth), vessels up to 32 ft. draft can go alongside in normal water conditions. The depth of water in the inner part of the port could not be exactly determined, but judging by the vessels there must be about 5 m.

The old coal pier has a berth with at least 10 m. depth of water. East of this pier is also a further coal pier, equipped also with conveyor belts and about 10 m. depth of water alongside.

For berthing and unberthing there are one large and three small tugs available. The large tug acts as pilot craft and for the authorities to visit for clearance. It has been previously described.

From our observations, in the inner roads loading and unloading rarely takes place. There are only a few lighters available. As the port is overloaded, a long waiting time must always be allowed for (at least 14 days).

Medical care for crew members here is somewhat difficult, since one tries with all means to avoid having to have the crew member transferred beyond the confines of the port. In this connection, the doctor comes only once on board and a decision is taken as to whether or not a visit to hospital is necessary. For such a hospital visit one has further to go through the Agent to the authorities to obtain permission to go beyond the port area.

Below are some soundings of the roads. The vessel's draft = 8.35 m. Times in GMT. Wind in degrees and knots. First bearing is Nampo Ki, second bearing is the pier light, fixed red, in front of the east pier:

Weather	*Bearing*	*Time*	*Measured depth, taking into consideration vessel's draft* m.
15° 8 kn.	344°, 38°	2330	21.15
100° 8 kn.	355°, 42°	0130	19.93
360° 5 kn.	355°, 39°	0715	15.97
340° 5 kn.	343°, 37°	0900	18.41
070° 9 kn.	340.5°, 38.5°	2330	21.15
060° 5 kn.	343°, 39.5°	0100	21.46
Circulating 5 kn.	324°, 41°	0430	16.88
270° 13 kn.	339°, 37°	0000	21.46
300° 20 kn.	357°, 40.5°	0300	19.93
290° 10 kn.	345°, 40°	0840	18.43
Circulating 5 kn.	360°, 45°	0640	16.58

The pier structures have shuttering walls at the bottom, and the upper part is composed of equal-shaped stone blocks. At the mooring points fenders are composed of car tyres strung together on wires. The pier itself is in a satisfactory condition. Rail connection is available, and lorries may run along it. Water connections are also available. As the two cranes on pier berth No. 1 have very large beams, they are often positioned between two hatches and then work the two hatches alternately.

Loading and unloading is made difficult since it is not possible to obtain precise information as to the number of gangs, the time they will turn up for work, whether they will work with their own equipment or with cranes or with the mobile cranes available. It continually happens that suddenly port workers will appear or disappear, although shortly beforehand the Agent will inform to the contrary.

Telephone connections with Europe are possible. Connections can be obtained at the Seaman's Club in the port after 1600 hrs. On average it takes an hour to get through. It is advisable always to try to get a line to Moscow, and then ask for the required connection oneself in English from the Moscow operator. This noticeably hastens the connection. Comprehension is at times very bad, calculation of charges is dreadful, and one must be prepared to pay three or four times the price as would appertain for a similar call in Europe.

The local currency is the Won. 1 US dollar = approx. 2.15 Won. In the Seaman's Club all customary Western currencies can be changed into Wons.

Loading rigging can be positioned from the ship. If for example this has to be done at night, it must be discussed in advance with the Agent as to whether this has to be done by the ship or the port personnel. If the rigging is done by the port personnel, it must be checked carefully.

Clearance outwards occurs in the harbour roads and not at the pier. It takes a good 3 to 4 hours. Here also, all crew members must be in their cabins for checking purposes, and if the authorities require it, personnel must be available to guide them around the ship. On leaving the port, yet another list must be presented of currency which each crew member has spent in Korea.

They are only interested in foreign currency which has been exchanged for Wons in the Seaman's Club, since Wons may not be exported.

On the journey out from the port, the Pilot is accompanied by an assistant and member of the coastguard. The latter, shortly after coming on board, removes all seals from apparatus sealed when coming into port. The Pilot leaves the vessel at a position 38° 35′ 5″ N. and 124° 55′ 5″ E.

Herewith some soundings, taking into consideration draft of vessel. First bearing – pier light East side Hibatsu To – fixed red. Second bearing chimney at 38° 44′ 1″ N. and 125° 25′ 9″ E. (shown on the chart as Chy.)

GMT	*Weather*	*Bearing*	*Line sounding* m.
0030	Calm	338°	21.78

	1022	38°	24.18

Korea (Republic of South)

GENERAL:

Foreign flags: Ministry of Transportation issued following instructions regarding entry and exit of foreign flag vessels in South Korea waters.

Item 1: Director, local Marine Bureau shall not grant permission on entry of foreign flag vessels under ownership of North Korea, North Vietnam and Red China.

Item 2: Director, local Marine Bureau shall not grant permission on entry of foreign flag vessel bound for North Korea or falling short of 90 days of departure from ports of North Korea.

Item 3: No restriction shall be applied on entry of foreign flag vessels unless same appertained to above clauses in accordance with internationally accepted practices.

CHINHAI: (Jinhae)

SHIPMASTER'S REPORT: 1977

LOCATION: 35° 09′ N., 128° 40′ E. (Town); 35° 07′ N., 128° 42′ E. (Pier).

DOCUMENTS:

8 Cargo Manifests.
8 Crew Lists.
4 Stores Lists.
3 Lists of Crew's Personal Effects. Tobacco/Spirits.
1 Vaccination List.
1 Health Declaration.
2 Currency Lists.

All documents are Standard Form. Although currency lists are required, there are no restrictions on importing or exporting either Korean or other currencies.

PILOTAGE: Pilotage not compulsory but recommended. Pilots are ordered through Agents and board vessel about 10 cables West of Kadok Do Island. VHF not available. No pilotage during night hours. Pilot boat is a wooden launch exhibiting International pilotage signals.

ANCHORAGE: Recommended 7 cables in Northwesterly direction off Tongdu Mal Lt. Ho. (Kadok Do.). Depth 25 m. Good anchorage is sand and mud. Quarantine anchorage is located about 1 mile N.N.W. from Chori Som Island.

RESTRICTIONS: Curfew effective from 2400 hrs. until 0400 hrs. daily.

HEALTH: Radio pratique not available. Pratique granted after inspection.

RADIO: Pusan Radio, call-sign "HLP".

TUGS: Required for mooring and unmooring. 2 tugs available of 600 and 1,000 h.p.

BERTHING: Chinhai is a principal naval base. Vessels drawing up to 17 ft. can be accommodated alongside inner harbour.

A buoyed channel with a depth of 36 ft. MHW leads from East of Madang So, to the only berth available for deep-sea vessels about 1.5 miles N.E. The berth, about 660 ft. in length, belongs to the Chinhai Chemical Co. and can accommodate vessels with a maximum draft of 34 ft.

Depth-sounding alongside showed at least 43 ft. 3 in. at HW. (officially 34 ft.). Distance from HW level to deck of pier 2.10 m. Bottom thick mud, and density 1025.

Vessels not exceeding 34 ft. saltwater draft berth 2 hours prior HW., and discharging commences immediately.

The berth is equipped with 1 grab only, and with conveyor-belt to nearby factory. The berth is used for discharging phosphate and potash, and very few general cargoes are handled. Discharge rate for phosphate is a maximum of 8,000 tons per 24 hours, with average of 6,200 tons.

STEVEDORES: Work is continuous throughout 24 hours including Sundays, and without mealbreaks.

MEDICAL: Attention available.

FRESH WATER: Available ex-barge from Masan, Min. 200 tons at US $3.00 per ton.

FUEL: Available ex-barge from Masan.

CONSULS: Nearest at Pusan.

REPAIRS: Minor repairs only.

GANGWAY/DECK WATCHMEN: Available and recommended.

REPATRIATION: Possible from Pusan.

CUSTOMS ALLOWANCES: No restrictions. Stores remain unsealed.

TIME: GMT plus 9 hours. No alterations.

AUTHORITY: Masan District Marine Bureau.

DAIPORI (Daepo): 38.10 N. 128.36 E.

Vessels bound for Daipori to load iron ore must first call at Mukho for quarantine and customs clearance.

Pilotage from Mukho to Daipori, distance of 50 miles, is not compulsory, but recommended.

INCHON: 37.29 N. 126.38 E.

DOCUMENTS: *Purser's Report:*
Arrival:

8 Crew Lists.
4 Cargo Manifests.
4 Stores Lists (Bond and shop).
4 Crew Customs Declaration.
4 Narcotics List.
4 Arms and Ammunitions List.
4 Ports of Call Lists (last 90 days).
4 Vaccination List.
2 Money Lists.
4 Passenger Lists (Marked Nil).
Derat Certificate or exemption.

All the above lists are typed on ship's plain paper.

Coasting on Korean Coast: At each port after the first, one requires the same papers but only 2 copies of each, with the exception of the Crew List, of which 5 copies are required.

Vessels with hazardous cargo must complete application to carry hazardous cargo and an application for anchorage of hazardous cargo vessel.

PILOTAGE: There are 2 Pilot stations for entering Inchon:

Ando At the Ando Light some 38 miles off Inchon, position 36° 58′ N. and 126° 10′ E. located in entrance to Channel approaching Inchon from the Yellow Sea. 48 hrs. advance notice to Agent required for vessels requesting to meet Pilot at Ando. Customary boarding point for deep-draft vessels.

Palmido – Pilotage from Palmido to Inchon or Inchon to Palmido is compulsory. This Pilot station is at Palmido Island and Light, some 8 miles off Inchon, position 37° 21′ N. and 126° 31′ E.

ANCHORAGE: *Anchorage A.* Commercial anchorages available for 9 vessels. The position of each anchorage is as follows:

Number	*Position*	*Draft acceptable*
A–1	37° 29′ 56″ N. 126° 36′ 05″ E.	42 ft.
A–2	37° 29′ 32″ N. 126° 36′ 02″ E.	31 ft.
A–3	37° 29′ 15″ N. 126° 35′ 44″ E.	39 ft.
A–4	37° 28′ 56″ N. 126° 35′ 25″ E.	33 ft.
A–5	37° 28′ 33″ N. 126° 35′ 20″ E.	29 ft.
A–6	37° 28′ 11″ N. 126° 36′ 08″ E.	42 ft.
A–7	37° 27′ 57″ N. 126° 35′ 30″ E.	28 ft. (Coaster only)
A–8	37° 27′ 48″ N. 126° 35′ 04″ E.	42 ft.
A–0	37° 27′ 23″ N. 126° 35′ 40″ E.	26 ft. (Coaster only)

Only 2 anchorages, as specified below, are allocated for vessels carrying logs to be discharged rafting in stream:

A–2E	37° 29′ 28″ N. 126° 36′ 08″ E.	28 ft.
A–3E	37° 29′ 07″ N. 126° 36′ 02″ E.	32 ft.

A sudden congestion of log vessels could cause undue delay in waiting berth.

Anchorage B. Available for 12 vessels. This anchorage is used mostly for military cargoes, partly used as quarantine anchorage and/or for commercial and Army vessels awaiting berth.

Number	*Position*	*Draft*
B–1	37° 27′ 22″ N. 126° 34′ 59″ E.	35 ft.
B–2	37° 26′ 54″ N. 126° 34′ 45″ E.	39 ft.
B–3	37° 26′ 24″ N. 126° 34′ 35″ E.	37 ft.
B–4	37° 25′ 55″ N. 126° 34′ 24″ E.	37 ft.
B–5	37° 25′ 27″ N. 126° 34′ 13″ E.	37 ft.
B–6	37° 24′ 58″ N. 126° 33′ 58″ E.	40 ft.
B–7	37° 28′ 00″ N. 126° 35′ 25″ E.	34 ft.
B–8	37° 26′ 30″ N. 126° 35′ 11″ E.	35 ft.
B–9	37° 26′ 01″ N. 126° 35′ 02″ E.	36 ft.
B–10	37° 25′ 32″ N. 126° 34′ 51″ E.	40 ft.
B–11	37° 25′ 08″ N. 126° 34′ 36″ E.	42 ft.
B–12	37° 24′ 28″ N. 126° 33′ 50″ E.	44 ft.

Anchorage C. Available for 8 vessels. This anchorage is used either for quarantine, vessels awaiting berth, or for vessels (military) discharging/loading dangerous cargoes.

Number	*Position*	*Draft*
C–1	37° 24′ 29″ N. 126° 34′ 26″ E.	26 ft.
C–2	37° 24′ 07″ N. 126° 34′ 17″ E.	30 ft.
C–3	37° 23′ 07″ N. 126° 34′ 08″ E.	35 ft.
C–4	37° 21′ 21″ N. 126° 33′ 55″ E.	42 ft.
C–5	37° 24′ 37″ N. 126° 34′ 52″ E.	42 ft.
C–6	37° 24′ 10″ N. 126° 24′ 45″ E.	30 ft.
C–7	37° 23′ 47″ N. 126° 34′ 36″ E.	42 ft.
C–8	37° 23′ 25″ N. 126° 24′ 21″ E.	42 ft.

RADIO: Address of Radio Station and call sign, Inchon Radio (HLC).

RESTRICTIONS: A peculiarity of Inchon port is the wide tidal range, i.e. max. 30 ft. difference between the low and high tides. Because of the extreme tidal range in Inchon Harbour and the strong tidal currents which result, the importance of maintaining strict surveillance of the vessel's mooring lines is emphasised. In this regard, the ship's officers and crew must be diligent in the performance of their duties. All vessels to discharge or load commercial cargoes should invariably obtain prior permission for berthing/anchoring from the Inchon District Marine Bureau at least 24 hrs. before arrival, then proceed to a nominated anchorage in the stream under direction of a compulsory Pilot.

HEALTH: The Quarantine Anchorage is located outside the harbour limit, at anchorages No. B–4, B–5, B–6, B–10, B–11, B–12, or C–1 to C–8, the position and depth of which are noted above. A vessel which sailed from an "Affected Zone" and not passed 10 days thereafter is compelled to receive 24 hrs. quarantine before entering the discharging anchorage. Quarantine is available only for the period from sunrise to sunset.

TUGS: Tankers berthing at Kyung In Energy Co. Terminal normally require three tugs for berthing and two for unberthing. All tugs operated by Korean Navy.

BERTHING: The port consists of the "Outer Harbour" and "Inner Harbour" which are separated by two islands called Wolmido and Sowolmido, which are connected by a bank. The Outer Harbour, comprising downstream of the Han River, is used as Stream Anchorages for commercial ocean steamers.

A new tidal basin constructed in the area of the present inner harbour. The dock will include entire area of the present Inner Harbour which would provide a total 1,400,000 sq.m. of water area; 3,820 m. of berthing pier including 1,160 m. of (Container Pier and max. 12 m. or 39 ft.) depth. This new dock is directly connected with the terminal of the Seoul-Inchon Highway. After completion the new dock would accommodate a total of 240,000 tons of vessels alongside the piers simultaneously, as follows:

50,000 tonners 1 ship
20,000 tonners 3 ships
10,000 tonners 6 ships
8,000 tonners 8 ships
5,000 tonners 1 ship

TANKERS: *Kyung In Energy Co. Terminal*
Designed for 50,000 d.w.t. over 50 ft. depth at LW. The marine terminal is situated at 37° 30′ 12″ N. 126° 36′ 19″ E. The face of the dolphin fendering system is on a bearing of approximately 347° true.

The vessel will be berthed alongside the main and secondary berthing dolphins with the vessel's hull against the fenders, which are an integral part of the dolphins. All the dolphins are equipped with electric capstans and quick-release mooring hooks. A navigation light and fog horn is located on the Southern Exterior Mooring Dolphin (Exterior Mooring Dolphin No. 1). A navigation light is also located on Exterior Mooring Dolphin No. 2 on the N. side of the terminal facilities. When a vessel of the 50,000 d.w.t. class is moored to the terminal, the bow and stern lines will perform the function of the breast lines. Therefore, the spring lines must be led out through the chocks on board which will provide sufficient leads ahead and astern to restrict the movement of the vessel along the face of the dolphins. In this regard, due consideration must be given to the rise and fall of the tide.

Loading Arms: There are three "Continental-Emsco" loading arms situated on the loading platform. The one to the extreme North and the middle one of the three are for the discharge of crude oil. Both are fitted with 16-in. swivel connections having 150 pound flanges. The loading arm to the extreme South is for the loading of naphtha and is fitted with a 12-in. 150-pound flange. The loading arms are designed for a working pressure of 100 p.s.i.

During the connecting and disconnecting of the loading arms to the vessel, the loading arms will be manipulated and positioned by shore personnel. During the period of time when the loading arms are connected to the vessel's manifold, they will be in the "float" position and will be self-adjusting.

General Information:

Under no circumstances should any member of the ship's crew activate or operate the controls for the loading arms. Authorised shore personnel will perform this function.

The "Continental-Emsco" loading arms will tolerate only a min. amount of transverse movement by the vessel in either direction. In other words, the movement of the vessel along the face of the dolphins is restricted. For this reason, it is mandatory that the vessel be kept in position, and that the mooring lines be properly tended. It is the responsibility of the vessel to maintain sufficient deck crew on duty to properly tend the mooring lines, and to ensure that the vessel maintains proper position relative to the loading arms.

Discharging Crude Oil:

The distance from the loading platform to the tanks is approximately 2.2 kms. (1.4 miles). A 30-in. block valve is situated near the location where the trestle joins the island causeway. Block valves are also installed in the pipe-line system near the inlet to each of the crude oil storage tanks.

There are three crude oil storage tanks on Yul Do Island. Each has a capacity of 200,000 barrels. The tanks are 48 ft. in height with an overflow at 46 ft. There are no check valves in the crude oil pipe-line system. Thus, the vessel must take precautions against back-filling due to head pressure on the system.

It may be necessary to discontinue the discharge of crude oil when changing from one tank to another ashore. The vessel will be given adequate notice for the stoppage of the ship's cargo pumps.

Ballast:

It is unlawful to discharge dirty or oily ballast water into the waters of Inchon Harbour. Severe penalties may be invoked against the vessel by the Republic of Korea in the event of pollution of harbour waters.

The centre loading arm provides a dual function. It is used for discharging ballast from the vessel as well as for the discharge of crude. The ballast flows through a 12-in. pipe-line to the ballast storage tank on Yul Do Island. This tank has a capacity of 30,000 barrels, and is situated about 1.1 kms. (0.68 miles) from the loading platform.

Loading Naphtha:

Naphtha is stored in two mainland storage tanks each of which has a capacity of 125,000 barrels. Three pumps provide the flow for shipping naphtha. Each pump has a capacity of 1,600 g.p.m. (2285 BHP). The pumps are on independent circuits. Thus, the loading rate of the naphtha can be governed by the number of pumps used.

The pipe-line from the pumps to the loading platform is 18 in. and is reduced to 12 in. on the loading platform. A block valve is located in the 18-in. pipe-line near the point where the island causeway joins the trestle. Another block valve is provided in the 12-in. pipe-line on the loading platform.

The pumps which are used for shipping naphtha can be stopped from the Marine Terminal Loading Platform, but they must be started from the mainland. Under normal conditions the vessel's deck officer on watch should give the terminal personnel 10 minutes notice prior to requesting that the loading rate be reduced, and the same notification prior to the completion of loading. As previously stated, the pumps can be stopped from the loading platform in case of an emergency.

The approximate distance from the mainland naphtha storage tanks to the loading platform is 5.4 kms. (3.35 miles).

Regulations:

1. Sufficient number of crew members are to be on duty at all times to properly tend the mooring lines and ensure that the position of the vessel is maintained alongside of the dolphins.
2. Except in the case of an emergency, the deck officer on duty shall give the terminal personnel at least 10 minutes notice prior to changing the loading rate of the naphtha, and at least 10 minutes notice prior to the completion of loading cargo.
3. Under no circumstances is the vessel's main propulsion engine to be disabled, or are any repairs to be undertaken while the vessel is moored to the marine terminal.
4. The vessel's fire-fighting equipment is to be kept ready for immediate use. A sufficient number of hoses shall be led out forward and aft to provide full deck coverage.
5. Lights must be provided by the vessel to illuminate the water area in the vicinity of the bow, stern and off-shore side.
6. Smoking will be permitted in such *Interior* spaces as may be designated by the vessel's Master. However, smoking will not be permitted on any open deck areas.
7. The loading of ship's stores and supplies will not be permitted during the time ballast is being discharged, or naphtha is being received by the vessel.
8. Ullage hole screens are to be used at all times while bulk oil transfer operations are in progress.
9. Galley ranges, unless electric, are not to be used while the vessel is loading naphtha.
10. Except for the period of time actually required for passengers to embark or disembark from a launch, no boats, launches or vessels will be permitted to moor alongside a vessel which is berthed at the marine terminal.
11. Safety practices which are common to marine terminals on a world-wide basis will apply.

Honam Buoys: Lat. 37° 29′ 00″ N. and Long. 126° 36′ 03″ E., draft acceptable 30 ft., at East side of A-3 anchorage. This berth is the private facility of the Honam Oil Refinery Co. (joint company with Caltex) for discharge of their own petroleum products. Consisting of 4 mooring Buoys and sub-marine pipe-lines.

Union Oil Terminal, 42 ft. depth alongside. Berthing/unberthing in daytime slack water only.

MEDICAL: Launch is provided in emergency call to evacuate sick men. Modernised hospital is available. Provincial and Christian hospital.

STEVEDORES: There are 12 stevedoring companies with:
162 wooden barges (16,200 tons) – total capacity 34,200 tons.
60 steel barges (18,000 tons) – total capacity 34,200 tons.

DENSITY: Varies between 1022 and 1024.

FRESH WATER: Can be supplied by lighter, max. quantity 250 tons in 10 hrs. Earliest advance notice essential.

FUEL: Available by barge only.

CUSTOMS ALLOWANCES: One carton cigarettes or 1 lb. of tobacco, and 1 bottle wine or spirits allowed, each man.

IDENTIFICATION CARDS: Crew required to carry valid identification cards at all times.

REPATRIATION: Facilities for crew changes or repatriation.

GANGWAY/DECK WATCHMEN: Ship security guard is required. Stream charge 30% additional.

OPENING/CLOSING HATCHES: Normally carried out by stevedores.

CONSULS: None.

REPAIRS: Deck and engine repairs possible. Floating cranes up to 60 tons capacity.

AIRPORT: 20 miles from port. Regular flights to Japan.

POLICE/FIRE/AMBULANCE: Police Officer (2) 0568; Fire Depot (2) 119; Medical Centre (2) 2535.

TELEPHONES: Portable communication facility is available.

TIME: Korean Standard Time. 9 hours ahead of GMT. No alterations during year.

HOLIDAYS: 1st January, 1st March,, 5th April, 6th June, 17th July, 15th August, 3rd October, 9th October, 24th October, 25th December.

GENERAL: Tide condition is critical, swift currents (high tide: 9 to 10 m.) special attention is required.

ACCOMMODATION LADDER: Essential for Port Officials on entry. Also for tanker berth no access allowed through plant. Rig on port side.

SHORE LEAVE: Launch service required, also local curfew ashore 2400 to 0400 hrs., on launches and craft 1900 to 0600 hrs.

DELAYS: Can be caused by bad weather.

SHIPMASTERS REPORT: 1974

Approaches: Inchon, the port for Seoul, the capital of South Korea, is situated in Lat. 37° 28′ 20″ N., Long. 126° 37′ 09″ E., and is approached from the South through the Yellow Sea. From Kyoknyolbi Do (Clifford Is.) LH. a course should be set to pass 1 mile North of An Do LH., in the vicinity of which the pilot boat will be waiting. Pilotage is not compulsory from this point but is recommended and the Pilot should be ordered at least 48 hours before arrival through the Agent, in Inchon.

From An Do vessels proceed via the Dong Soodo (East Channel) which is very winding and narrow in places. All lighthouses on this part of the Korean coast appear to show lights of very low power, the range of visibility appears to be about one quarter of that shown on charts and in the Admiralty Light List.

Pilotage is about 38 miles to the Inchon anchorage for deep-sea vessels, about three hours steaming. The Pilot was good even in thick fog, and all Pilots seem to speak reasonable English. The Pilot launch is fitted with VHF.

The anchorage is extensive, with room for about 30 ocean-going vessels, holding ground is good and no trouble was experienced in currents of 5 knots, although even stronger currents are experienced at Spring tides.

The port: Can be divided into three sections according to location and function; the inner dock, outer harbour and Northern shoreline.

The Inner Harbour basin is presently operated for the accommodation of cargo ships up to 50,000 d.w.t. The outer harbour, of new construction, is largely for coastal and fishing vessels of less than 500 tons, and is located just outside and to the S.W. of the inner basin.

The Northern shoreline, North of the closed basin has unloading facilities at many private plants. These are lighter berths.

With the completion, in May 1974, of the new lock system and second tidal basin, the berthing facilities in the port have changed the cargo handling capacity from 1,420,000 tons to 6,270,000 tons per year by providing 3,820 m. length of quay and container berths.

Within the inner harbour is the first tidal basin (the older lock system dating from 1923). This basin is accessible through the new lock system.

Lock Particulars:

	For 50,000 d.w.t. vessels	*For 10,000 d.w.t. vessels*
Lock chamber	1 base	1 base
Total length	381.0 m.	288.25 m.
Usable length to Inner gate	280.0 m.	183.00 m.
Outer gate	310.0 m.	208.00 m.
Width	36.0 m.	22.50 m.
Height from sill	18.5 m. from sill	18.50 m. from sill
Height	19.0 m. from bottom	19.00 m. from bottom
Number of gates	3 sets	3 sets
Length of gates	38.0 m.	24.50 m
Width of gates	8.3 m.	6.40 m.
Height of gate	18.5 m.	18.50 m.
Weight per gate	1,050 tons	590 tons
Time required for opening–closing	5 min.	3 min.

The Inner Harbour has berths for 27 vessels as summarised below:

Pier	*Length* (m.)	*Berthing capacity* d.w.t. (vessels)	*Cargo type*
Pier No. 1	454	4,500 (3)	Dry cargo
Pier No. 2	1,425	2,000 (4)	Dry cargo and bulk cargo
		20,000 (1)	" " " "
		8,000 (5)	" " " "
Pier No. 3	1,250	8,000 (4)	Steel products
		10,000 (2)	" "
		20,000 (1)	Heavy cargo
Pier No. 4	1,160	10,000 (1)	Dry cargo and containers
		20,000 (1)	" " " "
		30,000 (1)	" " " "
		40,000 (1)	" " " "
		50,000 (1)	" " " "
Pier No. 7	786	50,000 (2)	Bulk grain

Equipment in use (August 1974): Tug boats, 2 of 2,000 h.p.; 3 of 3,600 h.p.; Floating cranes, 1 of 75 tons capacity; 1 of 30 tons capacity; Container crane, 1 of 30 tons capacity. Bulk Grain: Pier 7 elevator with conveyor facilities; capacity 800 t.p.h.

Additional equipment planned: Tug boats, 4 of 7,000 h.p. Floating cranes, 1 of 100 tons capacity; 1 of 70 tons capacity. Container cranes, 4 of 35 tons capacity.

Further expansion is planned for the Northern side of the inner harbour. When completed there will be an additional 800 m. of quay at Pier 6 and 780 m. at Pier 8. This will add a total of 10 new berths for vessels from 5,000 to 50,000 d.w.t.

The Port of Inchon is administrated, managed and operated by the Government, represented by the Inchon District Marine Bureau (IDMB) in the Ministry of Transportation.

Decisions on administration and operation of the port, particularly to daily activities, are made by the Director, District Marine Bureau of the above Ministry.

Port activities, such as cargo in transit sheds, or in storage and port facilities of Government property, are in the custody of the Association of Port Management. This Association is formed from members of the various port users associations and was formed in 1972, under the control of the Minister in charge of Port Operations.

Port service companies and Stevedoring companies are still privately owned.

Repatriation and relief of crew members was made without any apparent difficulty. Flights to and from the U.K. being routed through Tokyo.

SHIPMASTERS REPORT: 1975:

The Ando pilot vessel is equipped with VHF Channel 16. If berthing in the tidal basin it is necessary to use vessel's sewage tank or sanitary tanks provided from ashore. Immigration require 2 copies of crew list forwarded before arrival to Agents, also require ports of call list for previous 3 months. If any crew member is caught smuggling in South Korean ports the vessel is liable to be detained indefinitely.

AUTHORITY: Inchon Marine Bureau.

KUNSAN (including Changhang): 35.55 N. 126.45 E.

The Port of Kunsan is situated on the Southern mouth of the Kum River which flows into the Yellow Sea, and North Changhang.

DOCUMENTS:

6 copies Report (Ent/Departure).
6 copies Crew List.
6 copies Passenger List.
2 copies Crew Personal Effects List.
3 copies Passenger Luggage List.
2 copies Store List.
9 copies Manifest (Dis./Loading) only.

NOTICES: All vessels bound for Korean ports should give an ETA to the local Agents 27 hours prior arrival. This is essential to enable the Agents to notify the Port Authorities and arrange Pilot if necessary.

RESTRICTIONS: Vessels should enter during daylight hours only. Many small Korean fishing and cargo boats in this area display dim navigation lights or none at all at night. Pilot is not compulsory but all vessels calling at this port recommended employ a Pilot in view of the hazardous channel and tidal difficulties. Controlling depth 8 ft. at Bar. Keel clearance of 2 ft. required.

PILOTAGE: The Pilot station is situated at the Southern side of Piun Do (Hiyo To) Island the correct position of which is at 35° 56′ N. and 126° 27′ E.

The boarding point near Piun Do is about 14 miles from Kunsan. Pilot to be ordered at least 24 hours in advance. Pilots cannot board in rough weather. Due to constantly changing bottom conditions, vessel should not attempt to enter without Pilot.

ANCHORAGE: Outer anchorage about 5.5. miles West of Kunsan for vessels drawing up to 28 ft.

Inner anchorage off Kunsan suitable for vessels of 21 ft. draft.

RADIO: Kunsan Radio, call sign HLN operating on 500 and 484 kHz.

MAX. SIZE: Draft 18 ft. to 27 ft. dependent on height of tide.

TUGS: 5 tugs with respective capacity of 300 h.p. (1) 150 h.p. (2) and 80 h.p. (2) are available. 1 floating crane with capacity of 30 tons owned and managed by the Korea Dredging Corp. is available.

BERTHING: The port is controlled by Kunsan District Marine Bureau and all vessels come under jurisdiction of Kunsan Custom House. The anchorages in stream inner harbour can accommodate 1 or 2 vessels less than 1,000 gross tons, and outer anchorage (Yubudo Anchorage) accommodates 1 ocean going vessel drawing about 28 ft. There are 5 pontoon piers (3 for Kunsan and 2 for Changhang) each of which can accommodate an ocean-going vessel with maximum draft of 27 ft.

STEVEDORES: There is 1 stevedoring company with 14 wooden barges, 3 steel barges and 3 tug boats. Discharging capacities: average records per day of 24 hours: coal 1,500 tons; grain and wheat 1,600 tons; fertilizer 1,300–1,400 tons; cement 1,000–1,100 tons; lauan log 500,000 B/F. Daytime only.

MEDICAL: Crew members should be in possession of health certificate showing vaccinations for smallpox and typhoid. In case health certificate has expired, the person(s) will be vaccinated/inoculated by a quarantine doctor.

CURFEW: In Korea the curfew is still effective from 2400 to 0400 hrs. every day.

TIME: Korean Standard Time, GMT plus 9 hours.

HOLIDAYS: Public Holidays – New Year (January 1-3); Independence Movement Day (March 1); Labour Day (March 10); Arbor Day (April 5); Memorial Day (June 6); Constitution Day (July 17); Liberation Day (August 15); Nation's Foundation Day (October 3); National Alphabet Day (October 9); United Nations Day (October 24); Christmas Day (December 25). (Can be worked if requested.)

Local Holidays. Work cannot be carried out on Lunar New Year's Day and the Moon Festival, about 15th August.

SHORE LEAVE: Crew shore passes will be issued by Port Immigration Office.

AUTHORITY: Kunsan Maritime Bureau.

MASAN: 35.11 N. 128.33 E.

DOCUMENTS:

6 copies Report (Ent/Departure).
6 copies Crew List.
6 copies Passenger List.
2 copies Crew Personal Effects List.
2 copies Store List.
9 copies Manifest (Dis./Loading only).

PILOTAGE: Not compulsory, but inadvisable to enter without Pilot. Pilots available at Pusan, to be ordered by Agent at least 24 hours in advance. Pilot station at Kaduk Do. A berthing/unberthing pilot available at Masan.
NOTICES: All vessels bound for Korean ports should give ETA to the local Agents 27 hours prior arrival. This is essential to enable the Agents to notify the Port Authorities and arrange a Pilot if necessary.
MAX. SIZE: The maximum draft admissible for entrance is 26 ft.
TUGS: 1 tug boat of 1,000 h.p., owned and managed by Masan District Marine Bureau available. Also 6 private tugs.
ANCHORAGE: Mooring capacity at anchorages: A-1, A-2, A-3 Depth 30 ft.; A-4, A-5, A-6 Depth 24 ft.; A-7, A-8 depth 23 ft. Quarantine Station A Depth 36 ft.
BERTHING:

	Depth (m)	*Length (m)*	*Max. Size*	*No. of Berths*
Pier No. 1	8.0	445	8,000	2
Pier No. 2	5.0	385	500	2
Pier No. 3	11.0	210	20,000	1
	11.0	210	20,000	1*
Pier No. 4	11.0	240	20,000	1*
Electric Power Plant Pier	6.5	115	3,000	1
Central Lighters Wharf	1–2	1,022	—	—

*Under construction.
STEVEDORES: Korea Express Co., 8 barges (1,000 tons), 1 tug (145 h.p.); Hyopshin Stev. Co., 6 barges (1,000 tons), 1 tug (180 h.p.).
Discharging capacity – average records per day (24 hours).

Coal	in bulk	1,000 tons
Cement	in bags	1,000 tons
Grain & Wheat	in bulk	1,000 tons
Fertiliser	in bags	1,000 tons
Steel Scrap	in bulk	750 tons

MEDICAL: Crew members should be in possession of health certificate showing vaccinations for smallpox and typhoid. If the health certificate has expired, the person(s) will be vaccinated/inoculated by a quarantine doctor.
CURFEW: In Korea the curfew is still effective from 2400 to 0400 hrs. every day.
TIME: Korean Standard Time. GMT plus 9 hours.
HOLIDAYS: Public Holidays:
New Year (January 1–3); Independence Movement Day (March 1); Labour Day (March 10); Arbor Day (April 5); Memorial Day (June 6); Constitution Day (July 17); Liberation Day (August 15); Nation's Foundation Day (October 3); National Alphabet Day (October 9); United Nations' Day (October 24); Christmas Day (December 25).
SHORE LEAVE: Crew shore passes will be issued by Port Immigration Office. Extension of shore passes should be made every 72 hours.
AUTHORITY: This port is controlled by Masan District Marine Bureau, under jurisdiction of Masan Custom House.

MOKPO: 34.37 N. 126.23 E.

DOCUMENTS:

- 6 copies Report (Ent./Departure).
- 6 copies Crew List.
- 6 copies Passenger List.
- 2 copies Crew Personal Effects List.
- 3 copies Passenger Luggage List.
- 2 copies Stores List.
- 9 copies Manifest (Dis./Loading only).

PILOTAGE: Pilots stationed at Kasado Island, 34° 27′ N. 125° 02′ E. 30 miles from Mokpo. 24 hours notice to Agent required to arrange Pilot. Although not compulsory, vessels strongly recommended not to enter without Pilot.
NOTICES: All vessels bound for Korean ports should give an ETA to the local Agents 27 hours prior to arrival. This is essential to enable the Agents to notify the Port Authorities and arrange a Pilot if necessary.
RESTRICTIONS: Mokpo is located at the South-Western end of the Korean peninsula. The port is at the mouth of the Yungsan River which flows through the Yungsan peninsula. Kasako Island protects this port from heavy winds and swell. The Yungsan River provides 5 anchorages where 5 vessels of Liberty type can berth at a time. The port is 30 miles from the pilot station off Ksasdo Island, in position 34° 27′ 20″ N. and 125° 02′ 05″ E.

Tide Information: max. tide level at high water 4.5 m.; min. tide level at high water 2.8 m.; average tide level at high water 3.5; Max. tide level at low water 0.5 m.; Min. tide level at low water 1.3 m.; Average tide level at low water 0.7 m.
ANCHORAGE: Five anchorages in depths from 11 m. to 20 m. Anchorage Nos. 2, 3, and 4 are better than No. 1 and 5 for discharging cargo because No. 1 is sometimes very dangerous due to strong tidal currents.
TUGS: Three tugs available, up to 150 h.p.
RADIO: Mokpo Radio. Call sign HLM operating on 500 and 484 kc/s.
BERTHING: Sam Hak Do Pier, length 168 m. and width 18 m., where only one 8,000 ton ocean-going vessel can operate in 13 m. depth.
STEVEDORES: There are 3 stevedores companies with 28 wooden barges (1,680 tons), 7 steel barges (1,200 tons) and 3 tug-boats.
MEDICAL: Crew members should be in possession of Health Certificate showing vaccinations for smallpox and typhoid. In case the Health Certificate has expired, the person(s) will be vaccinated/inoculated by a quarantine doctor.
FRESH WATER: Available at rate of 150 tons per day. 24 hrs. notice required.
CURFEW: In Korea, the curfew is still effective from 2400 to 0400 hrs. every day.
TIME: Korean Standard Time, GMT plus 9 hrs.
HOLIDAYS: Public Holidays; New Year (January 1st-3rd); Independence Movement Day (March 1st); Labour Day (March 10th); Arbor Day (April 5th); Memorial Day (June 6th); Constitution Day (July 17th); Liberation Day (August 15th); Nation's Foundation Day (October 3rd); National Alphabet Day (October 9th); United Nations Day (October 24th); Christmas (December 25th). Work can be arranged on all above holidays. Local Holidays; No work can be done on Lunar New Year or on the Moon Festival about August 15th.
SHORE LEAVE: Crew shore passes will be issued by Port Immigration Office. Extension of shore passes should be made every 72 hrs.
AUTHORITY: Mokpo District Marine Bureau.

MUKHO: 37.33 N. 129.07 E. (See Plan Book)

PORT LIMITS: The port limit is established by lines joining the following points:

A.	37° 33′ 12″ N.	129° 07′ 25″ E.
B.	37° 33′ 12″ N.	129° 08′ 12″ E.
C.	37° 32′ 00″ N.	129° 08′ 23″ E.
D.	37° 32′ 00″ N.	129° 07′ 02″ E.

DOCUMENTS:

- 6 Crew Lists.
- 6 Passenger Lists (In case of any passenger aboard)
- 3 Store Lists
- 3 Personal Effect Lists
- 3 Cargo Manifests (In case of any cargo on board)
- 2 Port Itinerary Reports (For the last 6 months)

PILOTAGE: Compulsory and 3 licensed Pilots are available from 0500 hrs. to 2200 hrs., and usually join ship in position Lat. 37° 32′ 30″ N., Long. 129° 08′ 25″ E.

VHF Radio is available for contacting pilot station.
ANCHORAGE: Outer Harbour offers anchorages for the vessel awaiting docking order with a rocky and sandy bottom.

Vessels lying anchored in this anchorage which is open roads, are recommended to pay attention to weather conditions. The depths vary from 9 m. to 26 m.
RESTRICTIONS: Pilot for entering inner harbour is available from 0500 hrs. to 2200 hrs. due to close of port and curfew.

The max. available depth of inner harbour is 8.5 m. or 28 ft. The max. tidal range is 0.4 m.
MAX. SIZE: The max. permissible length, breadth and draft for entering inner harbour is as follows:

Length – 180 m. Breadth – 25 m. Draft – 8.5 m.
HEALTH: Pratique is automatic. For pratique it is necessary to prepare the following documents: Yellow cards. Deratting certificate and/or Deratting Exemption Certificate. In the event of any suspected disease or fever on board it should be reported without delay to Quarantine Station and/or Agent in Mukho.
RADIO: Shore Radio Stations: Seoul Radio, Kangreung Radio, Busan Radio and Mokpo Radio.

Mukho harbour Network 6MF2.
VHF: Call sign "Mukhoradio" Channel 16 for calling station. Channel 26 for communication.
RADAR: None.
TUGS: 2 tugs of 1,000 h.p. each equipped with their own towline are available.
BERTHING: *No. 1 Pier.* (Exclusively for loading Coal/Graphite in bulk).

Berth A: Exclusively for loading Coal/Graphite in bulk. Length 100 m. Available draft at LW 7.5 m. 2 lines of belt conveyor and 2 loaders, height above HWL. 7 m. Loading rate per loader per hour 300 metric tons.

Berth B: Exclusively for loading Coal/Graphite in bulk. Length 110 m. Permissible draft at LW 8 m. 2 lines of belt conveyor and 2 loaders, height above HWL. 7 m. Loading rate per hour per loader 400 metric tons.
No. 2 Pier: Exclusively utilized for Naval and Coast Guard ships. Length 140 m. Depth available 4 m.
No. 3 Pier: For loading bulk cement, bagged cement and cement clinker in bulk, and loading/unloading general cargoes. Length 330 m. Available draft at LW 8.5 m. or 28 ft. 1 line of conveyor and 1 loader (air slider) for loading bulk cement. 2 lines of belt conveyor and 2 loaders for loading bagged cement. 1 line of belt conveyor and 1 loader for loading cement clinker in bulk. Available height above HWL 8 m. Loading Rate: Bulk cement 400 metric tons per hour. Bagged cement 1,500 metric tons per day per loader. Cement clinker 350 metric tons per hour.
Loading rate for General Cargo as follows:
Average discharging rate per hour/gang:

Steel material	Various	30 Metric tons
Machinery	Case	30 tons
Grain	Bulk	25 metric tons
Gypsum	Bulk	25 metric tons
Coke	Bulk	15 metric tons
Fertilizer	Bag	20 metric tons

Average Loading Rate per hour/gang:

Iron Ore	Bulk	20 metric tons

No. 4 Pier: For loading bulk cement and loading/unloading general cargoes. Length 150 m. Permissible draft at LW 7.5 m. 1 line of belt conveyor and 1 loader (air sliding chute) for loading bulk cement. Height above HWL 8 m. Loading Rate: Bulk Cement 400 metric tons per hour. Loading rate of general cargoes same as at No. 3 Pier. Discharging rate of general cargoes same as at No. 3 Pier.

Central Pier: For loading/unloading general cargoes. Length 120 m. Permissible depth at LW 6.5 m. No shore facilities. Loading/unloading general cargoes same as at No. 3 Pier.

CRANES: Mobile Cranes 1×20 ton and 1×30 ton.

BULK CARGO FACILITIES: No discharging facilities. Loading facilities see "Berthing".

STEVEDORES: Vessels bound for this port are to radio Agent Shipper/Consignee and Harbour Master, at least 24 hours prior to arrival, draft on arrival, description/quantity of cargo.

Average Discharge Rate per gang/hour:

Steel materials	Various Types	30 tons
Machinery	Case	30 tons
Grain	Bulk	25 tons
Ores	Bulk	25 tons
Fertilizer	Bag	20 tons

Average Loading Rate per gang/hour:
(Only with labourer hands – manually)

Ores	Bulk	20 tons

Average Loading Rate per gang/hour:
(By shore loading facilities)

Coal/Graphite	Bulk	350 tons
Cement	Bulk	350 tons
Cement	Bag	60 tons
Cement Clinker	Bulk	350 tons

MEDICAL: Several hospitals available.

TANKERS: No facilities.

DENSITY: Average salinity of water in the port is 1.025.

FRESH WATER: Supply of fresh water available by water barge and from shore water works.

Supply at pier	50 t.p.h.
Supply by barge	100 tons per day

FUEL: Most grades of domestic and bonded oil available with 4 days prior notice.

FIRE PRECAUTIONS: None.

CONSULS: None.

REPAIRS: None.

DRY DOCKS: None.

SURVEYORS: Classification surveyors are in Seoul and/or Busan.

GANGWAY/DECK WATCHMAN: Owners/Master's option.

HATCHES: First Opening/Final Closing by crew and intermediate handling by stevedores.

CUSTOMS ALLOWANCE: Cigarettes: 1 carton. Wine /Spirit: 2 bottles.

CARGO GEAR: Shore loading facilities see "Berthing". No heavy lift cranes.

REPATRIATION: Possible.

AIRPORT: No airport locally, however there is an express bus service between Mukho and Seoul.

TIME: GMT plus 9 hours.

HOLIDAYS: *Official Holidays are as follows:*

The New Year Day	1st January	Work cannot be arranged
Independence Movement Day	1st March	Can be arranged
Memorial Day	6th June	Can be arranged
Constitution Day	17th July	Can be arranged
Independence Day	15th August	Can be arranged
National Foundation Day	3rd October	Can be arranged
Hangul (Korean Alphabet) Day	9th October	Can be arranged
Armed Forces Day	1st October	Can be arranged

Festival Days:

Lunar Calendar New Year	1st January (Lunar)	Work not possible
Labour Day	10th March	Work possible
Children's Day	5th May	Work possible
Buddha's Birthday	8th April (Lunar)	Work possible
Moon Festival Day	15th August (Lunar)	Work not possible
Christmas Day	25th December	Work possible

POLICE/AMBULANCE/FIRE: Police – 3112. Ambulance – 3900. Fire – 119, 3005.

TELEPHONES: None.

SERVICES: None. Should be arranged from Busan/Inchon.

SHORE LEAVE: Possible, curfew in effect from 2400 hrs. until 0400 hrs.

IDENTIFICATION CARDS: Shore passes are issued for every Crew member who wishes to go ashore.

REGULATIONS: No particular regulations.

DELAYS: Normal delays.

DEVELOPMENTS: The Port of Bukpyong, 3 miles Southward of Mukho, is under construction and will be completed in mid-1979, and will be able to accommodate as follows:

After 1st stage construction in 1979:

2× 5,000 d.w.t.	2× 8,000 d.w.t.
1×10,000 d.w.t.	4×20,000 d.w.t.

After completion of 2nd stage construction in 1981:

12× 5,000 d.w.t.	2× 8,000 d.w.t.
4×10,000 d.w.t.	4×20,000 d.w.t.
1×50,000 d.w.t.	

GENERAL: None.

AUTHORITY: Mukho District Maritime & Port Authority.

POHANG: 36.01 N. 129.24 E. (See Plan Book)

PORT LIMITS: The sea within the line joining the position of Yeonam Southern Cape 129° 25′ E. to that of 35° 59′ 50″ N. 129° 27′ 30″ E.

DOCUMENTS: See "Busan".

PILOTAGE: Compulsory, 4 licensed pilots available.

ANCHORAGE: 4 anchorages in depth 12 m. – 22 m. With muddy and sandy bottom.

MAX. SIZE: The first pier depth 16 m. Length 930 m. Max. d.w.t. 100,000.

The second pier depth 5.5 m. – 12 m. Length 840 m. Max. d.w.t. 50,000.

The third pier depth 5.5 m. – 9.5 m. Length 440 m. Max. d.w.t. 5,000.

The fourth pier depth 11 m. – 12 m. Length 420 m. Max. d.w.t. 30,000.

The fifth pier depth 7.5 m. – 11 m. Length 695 m. Max. d.w.t. 50,000.

The sixth pier depth 5.5 m. Length 220 m. Max. d.w.t. 2,000.

HEALTH: Certificates required.

TUGS: 3 tugs available of 3,000 h.p. The tugs are stationed at the third pier.

BERTHING: Quay height above sea level: 3 m. at high tide and 2.8 m. at low tide. Total quay length 3,575 m.

REPATRIATION: All facilities available for crew changes.

CRANES: 12 Shore cranes. (Lifting capacities 3,138 t.p.h.)

CUSTOMS ALLOWANCE: Tobacco: 400 cigarettes. Wine: 1,500 cc.

HOLIDAYS: New Year's Day – 3rd January, 1st March, 5th April, 5th May, Buddha's Birthday, 6th June, 17th July, 15th August, 3rd October, 9th October, Christmas Day.

POLICE/AMBULANCE/FIRE: Police 2-3419. Fire 119. Ambulance 2-5269.

FRESH WATER: Can be supplied alongside the quay or by water barge.

SHORE LEAVE: Crew members allowed ashore.

IDENTIFICATION: Seaman's book is sufficient.

AIRPORT: Kimpo 200 km. Kimhae 150 km.

FUEL: All grades obtainable from oil companies.

SERVICES: Sub-agents. Ship's laundries, etc.

MEDICAL: 2 hospitals available.

SHIPMASTER'S REPORT: 1975.

Pilot: Usually boards the vessel after anchoring in position 36.03 N., 129.26 E.

Anchorage Position for Quarantine Clearance: Same as for Pilot.

Berthing; Entry and departure are only permissible during daylight hours, vessels are not allowed to berth at night.

Fresh Water; Available at all times ex-wharf without limit on quantity taken.

SHIPMASTER'S REPORT: 1975.

Approaches: There are no British Admiralty Charts covering this port. The coastal approach to Yongil Man can be made on Chart BA 3666, thereafter an American Chart No. 95166 (formerly HO 3257) is suitable for making the approach to the quarantine anchorage.

There are no offlying dangers, and depths shelve gradually from the entrance to the head of the bay.

A good lookout should be maintained for fishing nets which are very profuse.

Quarantine: Port Health officials board at the quarantine anchorage – Position 36° 02′ N., 129° 26′ E., in a depth of 19 m. No radio pratique available.

If vessel arrives at night, officials board at daybreak next morning. No port movements during the hours of darkness.

Notice of Readiness: Accepted at time of free pratique granted.

Pilotage: Pilot boards with port health at anchorage. Pilot stated that our vessel 72,072 d.w.t. was too big for the port, which was designed for max. size 50,000 d.w.t. However, no difficulties experienced, berthing in calm weather conditions. Berthing and sailing in daylight hours only.

Entrance Channel: Entrance to harbour is made via dredged channel, commencing between two buoys, (No. 1 & 2), about 200 ft. apart, situated about 1 mile off Southern breakwater head.

Axis of approach channel, from midway between the buoys to midway between the breakwater heads, is a straight line 259° True.

Dredged depth in the channel is stated to be not less than 13 m. However, according to the echo sounder, depth beneath keel was never less than 11 ft. until vessel entered the harbour basin, when further depth recording was impossible due to 'noise' from propeller wash caused by astern movements, obscuring echo sounder signal propagation. As the vessel's draft was 36 ft. 08 in. min. depth of water was therefore 47 ft. 08 in. = 14.5 m. approx. This was verified on the outward passage. The 13 m. min. probably refers to the basin within the harbour entrance.

Tide: The rise and fall of tide is only about 1 ft.

Tugs: There are only 2 tugs available, both very weak. Pilot kept complaining that the tugs were inadequate for a vessel of this size, which was a fair assessment.

Berth: See sketch (Plan) for depth alongside POSCO mineral quay. Min. depth at berth stated to be 12 m. = 39 ft. 04.5 in. Max. permissible draft 11.2 m. = 36 ft. 09 in. Density was 1026.

Loaded vessels berth head in, starboard side alongside. Can prepare accommodation ladder starboard side before arrival.

The face of the quay is protected by permanent heavy-duty rubber fendering.

Moorings: A min. of 3 headlines, 1 breastline, and 2 backsprings, each end, is recommended. Although the port is well sheltered from the prevailing W. – N.W. winds, it is wide open to the N.E. from which strong gales can suddenly develop.

Discharge: 2 modern transporter grabs discharge into a conveyor belt system. Discharge rate overall about 1,100 t.p.h., on a 24 hour basis. Holds were well swept clean on completion.

A meticulous draft survey was held upon arrival and after completion, to verify Bill of Lading.

Fresh Water: Plentiful supply from pipe line on the quay. Apply to Agent for services of waterman.

Customs: The bond is not sealed, but a Custom's Officer is stationed on board at the gangway throughout.

Curfew: A curfew is in operation in South Korea, from 2400 hrs. to 0400 hrs.

Shore Leave: The crew are not allowed to pass through the steelworks, going ashore. A liberty boat must be hired, which plies between the end of the quay and Pohang town pier, about a half hour run.

Last boat returning to ship at night leaves the town at 2200 hrs. First boat in the morning leaves at 0600 hrs. Shore passes issued on arrival.

Documents: The following arrival papers are required:—

Quarantine Declaration and Vaccination List.
14 Crew Lists.
3 Stores Lists.
3 Crew's Effects Declarations.
10 Cargo Manifests in Metric Tons.

N.B. The cargo manifests can be made up on board by typing on plain paper, but quantities must be stated in *metric tons.*

Agent: Pohang Shipping Agency Co. (Teladdress "Pohangship Pohang"), are sub-agents for Young Jin Shipping Co. Ltd; Seoul, (Teladdress "Three Young Seoul"). The Agent was very helpful and attentive.

Repatriation: Possible. A complete Chinese crew change (25 men) was carried out during vessel's stay, plus one officer to the U.K.

Communications: There is no Telex system in Pohang. Cables are passed by telephone to General Agents in Seoul, for onward transmission. There is no problem arranging telephone communication with the U.K., but it is not possible to reverse the charges. (call collect). Average waiting time about 1 hour.

Repair Facilities: Most engine and hull repairs can be carried out. There are 4 repair firms available, but it is advisable to take the Agent's advice as 3 of these firms are very small, with limited manpower. Materials not immediately available, can be brought by road from Pusan, about 3 hours journey. Lloyd's Hull & Engine Surveyors based in Pusan.

Future Port Developments: Work is at present in progress on the construction of a new bulk-handling facility, seaward of the present installation. The approach channel to the new facility will have a min. depth of 16 m., and the berths will be capable of taking vessels of up to 100,000 d.w.t., at drafts of up to 14 m. Scheduled for completion in 1977.

SHIPMASTER'S REPORT: 1975.

Port Limits: By a line drawn from 36° 04′ 10″ N., 129° 25′ E., to 35° 59′ 50″ N., 129° 27′ 30″ E., Korean Chart No. 135 Pohang Harbour and Approaches refers.

Documents: See "Pusan" (Busan).

Pilotage: Pilots board either at the Quarantine anchorage or off the channel entrance as required. Pilotage within the harbour breakwaters is compulsory. No VHF available but Pilots are equipped with transceivers for port operations.

Anchorages: In roadstead, open to the N.E. in depths of 15 to 20 m. – Numerous mooring buoys and marker buoys for reclamation are in the vicinity. Vessels should anchor to seaward until a Pilot boards.

Restrictions: Vessels may arrive and sail from the roadstead at any time, but in daylight only if using the inner harbour.

Max. Size: No restriction in the roadstead, 12 m. in the inner harbour.

Pratique: It is advisable to give advance notice of pratique. Pratique is granted to vessels anchored in a circular quarantine anchorage, radius 500 m., the centre of which is located in 36° 03′ 20″ N., 129° 25′ 25″ E.

Radio: All messages to Pohang should be routed through Busan Radio HLP.

Tugs: A number of tugs are available, the 2 largest being 2,500 h.p. each. Tugs join the vessel at the breakwater entrance.

Approaches: Vessels using B.A. Chart 3666 should find flashing seabuoy in the entrance to Yon Iru Bay located in position 36° 05′ 50″ N., 129° 30′ 35″ E., and from there steer a course 227° True (6.8 miles) to the inner harbour fairway entrance, which is marked by two buoys marked 1 and 2 and QK FL. G. and FL. R. 3 seconds, respectively each visible 5 miles. An anchorage should be found close seaward of the entrance buoys whilst awaiting a Pilot.

Berthing: A number of inner harbour berths are available at depths ranging between 8 and 12 m. datum.

The entrance fairway has a min. depth of 12.4 m. Harbour developments are still in progress.

Stevedores: Arranged through Agents. Advance notice desirable.

Medical: Available.

Fresh Water: Limited quantities available by barge, if advance notice given.

Fuel: None.

Consuls: None.

Repairs: Only repairs of a minor nature can be undertaken.

Drydock: None.

Surveyors: Lloyds available from Busan.

Gangway/Deck Watchmen: Not required.

Opening/Closing Hatch: By Crew.

Customs Allowance: See "Busan".

Repatriation: Not available.

Airport: Busan (Suyeng).

Shore Leave: Permitted, but even if vessel berthed alongside, launch service must be used.

Identification: Shore Passes.

Curfew: 2400–0400 hrs.

Developments: Considerable reclamation and harbour developments in progress.

General: Last call of vessel was July 1975. B.A. Chart No. 3666 does not show the new port of Pohang at all but can be used for approach work. Korean Chart No. 135 should be obtained if possible.

AUTHORITY: Pohang District Maritime and Port Authority.

PUSAN: 35.07 N. 129.02 E.

DOCUMENTS:

9 Cargo Manifests.
3 Transit Cargo Manifests.
8 Crew Lists.
8 Passenger Lists.
4 Passenger Baggage Lists.
4 Mail Lists (forms supplied by Agent).
5 Parcels Lists (forms supplied by Agent).
2 Arms-Narcotics Lists.
2 Tobacco Lists.
2 Currency Lists.
4 Stores Lists.
4 Crew Personal Effects Lists.

Immigration: All Seamen's Books examined and shore passes made out. These passes to be carried at all times when ashore. Strict curfew from 0000 hrs. to 0400 hrs.

CERTIFICATES:

Derat. Certificate or Exemption.

Inoculation and Vaccination Certificates for all crew members.

PILOTAGE: Professional Pilot service is available at Pusan and contact can be made by telephone No. 6-1346 or 6-1743. Necessary for arriving vessel to notify Pilots of arrival 24 hrs. in advance. VHF unavailable. Formal address is: 73 2-Ka, Choong-Gu Taigyo-Ro, Pusan, Korea. Blast signal from vessel used to call Pilots. Pilot station position 35° 05′ 5″ N. 129° 05′ E.

Pilotage is compulsory and available day and night. Pilot boards off the entrance to the outer harbour. Pilot boat is white launch with pilot signals. Tugs cannot be employed unless Pilot is on board.

HEALTH: Pratique granted to vessels anchored in a circular quarantine anchorage located in outer harbour. Quarantine inspection can be arranged by day or night if sufficient advance notice given although regular hours are sunrise to sunset. Valid smallpox and cholera certificates required. Inoculations against typhoid and typhus may be required depending on prevalent conditions.

ANCHORAGES:

Designation	*Depth*	*Capacity*
S-anchorage	8-9 m.	6 vessels of 300-2,000 t.
E-anchorage	11-12 m.	6 vessels of 8,000-12,000 t.
N-anchorage	7-10 m.	18 vessels of 500-6,000 t.

RESTRICTIONS: Vessel having called at Communist ports within 6 months of contemplated entry of Pusan needs to obtain permission of authorities.

MAX. SIZE: No restrictions on length or breadth of a vessel. Draft should be less than 10 m. when vessel is alongside a pier, or 12 m. when anchored at an anchorage.

RADIO: Pusan Harbour Radio Station: call sign, HLP. Frequency, 500, 434 kc/s. operation round the clock.

Cable Harbour Master 12 hrs. in advance, advising ETA, last port and max. draft. If name of Agent is included, the Harbour Office will inform Agents.

VHF is now available.Calling Channel 16. Working Channel 14. Call sign "Harbour Control". Range about 12 miles.

A radar has been sited at the Harbour Office to help vessels approaching in poor visibility.

TUGS: Tugs join an arriving vessel at immediate interior to breakwater, Pusan Harbour, Ship's own lines are used.

BERTHING: Normally in daylight only.

	Length	*Beam*	*Draft*
Pier No. 1	407 m.	115 m.	28 ft.
Pier No. 2	407 m.	116 m.	28 ft.
Quay way No. 2	645 m.	—	27 ft.
Pier No. 4	556 m.	145 m.	29 ft.

STEVEDORES: On basis using full gangs per day, the capacity is : 1,000 L/tons on general cargo; 1,200 L/tons on grains; 1,500 L/tons on anthracite or coal.

TANKERS: A T-head oil pier extends about 700 ft. on the S.E. side of the North harbour. Least depth at pier head is 32 ft. Used by tankers servicing Korea Oil Corporation.

DEVELOPMENTS: Dredging of the approach channel to piers to about 36 ft. Dredging Northern section of harbour to 29 ft.

MEDICAL: Service is available at short notice.

FRESH WATER: Available. Rate of water supply, 80 L/t.p.h. Supplied at pier, or by barge.

FUEL: Availability on Bunker "A", Bunker "C", LRFO, LO and diesel oil.

FIRE PRECAUTIONS: Port has separate anchorage for tankers. Port requests for compliance with regulation not to contaminate waters with inflammable substances, e.g. petroleum products. Tankers are prohibited to clean tanks in port.
GANGWAY/DECK WATCHMEN: This service is available.
OPENING/CLOSING HATCHES: Usually carried out by stevedores.
CUSTOMS ALLOWANCES: One carton cigarettes or 1 lb. of tobacco, and one bottle wine or spirits allowed, each man.
IDENTIFICATION CARDS: Crew required to carry valid identification cards at all times.
CONSULS:

Consul, Republic of China (Formosa)	Tel. 4-0276
Consul, Japan	,, 22-0135

REPAIRS: All repairs can be effected.
DRY DOCKS:

Name of facility	*Capacity*	*Location*
Korea Ship Building Eng. Corp. No.1	5,000	Pusan
Korea Ship Building Eng. Corp. No.2	10,000	Pusan
Korea Ship Building Eng. Corp. No.3	100,000	Pusan
Dae Sun Ship Building Corp.	4,000	Pusan

REPATRIATION: No facilities.
AIRPORT: Airport is at Suyeng about 12 km. from Pusan. Japan-bound plane takes off once a day.
TIME: Korean Standard Time. 9 hrs. ahead of GMT. No alterations during year.
HOLIDAYS: 1st-3rd January; 1st March; 10th March; 5th April; 6th June; 17th July; 15th August; 3rd October; 9th October; 24th October; 25th December.

On above holidays vessels can be discharged and loaded with permission to work granted by the Customs Authority on request.

Local holidays when no work may be performed are: New Year's Day in Lunar Calendar, and the Moon Festival (15th August) in Lunar Calendar.
POLICE/AMBULANCE/FIRE: Police, 22-0863/2497; Ambulance, Pusan Quarantine Station, 6-1371, 4-5736.
TELEPHONES: "Port Telephone Service" operates for purpose of serving communication on board-shore.
SERVICES: Adjustment of compass, available.
SHORE LEAVE: Allowed.
DELAYS: Port congestion is experienced occasionally.
AUTHORITY: Pusan District Marine Bureau.

ULSAN: 35.27N.129.23E. (See Plan Book)

DOCUMENTS:
3 copies of Manifested Parcels on board.
3 copies of the Store List.
3 copies of List of Narcotics on board.
3 copies of List of Arms and Ammunition on board.
3 copies of List of Vessel's Foreign Currency.
3 copies of List of Crew's Foreign Currency.
3 copies of List of Vessel's Tobacco, Cigarettes, Spirits, etc.
13 copies of the Crew List.
3 copies of List of Crew's Personal Effects, Tobacco, Cigarettes, Spirits, etc.
Crew's Vaccination Certificates.
Deratisation Exemption Certificates.
Clearance from Last Port.
10 copies of List of Landing Passengers, if any.
10 copies of List of Passengers in Transit, if any.
3 copies of List of Passengers Baggage.

PILOTAGE: The seaward approaches to the Imodco Terminal mooring site are free of underwater obstructions and existing landmarks and navigation aids are adequate. Depth of water not less than 65 ft. in approaches. The Imodco Terminal can be approached with the summit of Pongdae San bearing 333° true. When in position the following navigation fix will obtain at the mooring site:

Pongdae San (summit)	bearing 333° true	distance 2,915 yd.
Pongjin Hang Light (end of breakwater)	" 053° true	" 4,770 yd.
Chuck To (centre cut)	" 255° true	" 3,800 yd.

A good radar echo will be obtained from the tanks ashore at approximately 20 miles, the Imodco buoys at a distance of 8 miles, and the small buoys, marking the floating hose heading off the Imodco buoy, at 1.5 miles.

Lights ashore, lights on the Imodco buoys and on the small buoys appear to be unreliable.

After clearing Customs a Harbour Pilot will board the vessel to direct it to the buoy and conduct the mooring operations if required. There is no night mooring. However, unmooring is carried out during darkness as well as in daylight.
ANCHORAGE: Anchor the vessel about 1 mile South-east of the buoy, if the weather permits. In this location it is less difficult to find vessel, when in fog. Do not anchor less than 1 mile from buoy, and under no circumstances can the anchors ever be used on approaching the buoy terminal, chain cables and pipe-lines are located at this site and anchoring is strictly prohibited.
HEALTH: Entry prediction to be supplied to quarantine authorities by vessel's Agent 24 hrs. before arrival. Master required to complete Health Declaration when officer boards on arrival. Free pratique is automatic when coming from another Korean port.
RADIO: There is no marine radio telephone at Ulsan to communicate with on radio telephone frequency. A small transreceiver on shore can communicate with attendant launch.
BERTH DESCRIPTION: 2 berths at single buoy moorings.
No. 1 Imodco Buoy
Position: Lat. 35° 27′ 15″ North, Long. 129° 23′ 30″ East.
Description: A 12.5 m. red and white vertically striped buoy.
Lights: On buoy; alternate flashing red and white every 12 sec., visibility 5 miles or more. Duration of each flash 4 sec.
On hose; there are 3 red flashing marker lights equally spaced along 675 ft. hose, visible for 2 miles.
All of the above lights are activated by photoelectric cells.
Radar Reflector: On buoy's mast.
Foghorn: A 2-sec. blast, period 20 sec., range 1 mile. Must be turned on at the buoy.
Soundings: 11 fathoms in buoy area.
No. 2 Imodco Buoy
Position: Latitude 35° 26′ 44″ North, Long. 129° 23′ 20.5″ East.
Description: A 12.5m. red coloured buoy.
Lights: On buoy; has a range of at least 5 miles, on hose; as for No. 1 Imodco buoy.
Foghorn: A battery powered foghorn with a range in excess of 0.5 mile.
DRY CARGO BERTHS:

Commercial harbour mainly serves export of chemicals, fertilisers and by-products of the refineries. The harbour lies about 4 miles in from the sea and there are 4 berths available with depths up to 33 ft.

Quarantine/Pilot station situated in position 35° 27′ 26″ N., 129° 24′ 30″ E.

Entrance at night is not permitted. Only 1 tug is available. Water is available. No VHF. Max. tide in harbour is 1 ft.
BERTHING: 2 launches are in attendance during mooring and unmooring operations. 1 launch will keep the hoses clear and the other handles the mooring rope. Both bow anchors are to be hove well up in the hawse pipes and properly secured before reaching the buoy. Anchors are never to be used while on the buoy, they can foul buoy cables and pipe-line on the bottom if released.

No. 1 Buoy. The vessel will be moored with 4 to 5 ropes off the bow. No rope used from the well decks. 1 rope will be run single to the buoy to heave the vessel in proper position, all other lines will be used double by sending one end out through the port or starboard bow chock and hove back through the opposite side of the bow chock, sufficient slack is brought on board so that a complete set of turns can be securely placed on the bollard. A good messenger rope about 3.5 in. to 4 in. circumference, at least 400 ft. in length, will be required to heave the lines around the mooring arm on the mooring and back on the vessel. The first line used single will be doubled up last.

No. 2 Buoy. The vessel will be moored with 2 nylon lines, 250 ft. in length, floating off the buoy. 2 of the ship's mooring ropes will be run to the buoy to heave the vessel in proper position. At about 40 yd. distance from the buoy a good messenger rope will be required to pick up the floating ropes one by one. When the floating ropes are made fast on board, 1 of the 2 ship's ropes sent to the buoy will be doubled up.
HOSES: *No. 1 Buoy.* There are 2 sets of 12 in. hoses and 1 set of 8 in. hose. The 2×12 in. hoses are for crude oil and the 8 in. hose for gas oil. The hoses are 675 ft. in length from the buoy manifold and are floating in plastic doughnut shaped floats. The hose connections are always made to the port manifold, and are lifted one at a time to the ship's manifold. Each hose, when full of cargo and equipment, is over 1.5 tons in weight.

No. 2 Buoy. There are 2 strings of 16 in. hoses, each 945 ft. in length. The final 70 ft. of hose is reduced to 12 in. to permit lifting by the tanker's lifting gear. The hose connections are made to the starboard manifold of the vessel.
BUNKERS AND WATER: Available by barge only.
BALLASTING: After the vessel has been somewhat more than half discharged, the vessel should be ballasted to a safe margin, to draw not less than 12 to 13 ft. forward. This will avoid the vessel yawing widely on the buoy with strong winds and assist in avoiding contact with the buoy and hoses. Vessel will moor about 120 ft. from buoy.
CUSTOMS ALLOWANCES: One carton cigarettes or 1 lb. of tobacco, and one bottle wine or spirits allowed, each man.
IDENTIFICATION CARDS: Crew required to carry valid identification cards at all times.
REPATRIATION: Nearest facilities for crew change or repatriation are at Pusan.
TIME: Korean Standard Time, 9 hrs. ahead of GMT. No alterations during year.
HOLIDAYS: 1st January; 1st March; 5th April; 6th June; 17th July; 15th August; 3rd October; 9th October; 24th October; 25th December.
SHORE LEAVE: Allowed up to midnight.
GENERAL: Vessels arriving at Ulsan should radio to Agent at Pusan 4 days in advance information on size of vessel's manifold connections, as the adapters, if required, will have to be made by the Korea Oil Corp. This applies mainly to vessels arriving at Ulsan for the first time or in case there has been any alteration to the manifold since the last arrival.

While on the buoy the vessel will be required to provide sleeping quarters and linen for about 8 to 10 men; this includes the discharging Master and his apprentice. The standby men include launch-men and riggers; these men connect and disconnect hoses and are mainly kept on board for emergency.

The discharging Master will remain with the vessel during its entire operation on the buoy. Under certain conditions, should it become necessary, they may ask the vessel for meals; however, food for standby men is generally furnished from ashore.

The ship's engines must remain ready for immediate use.

CHIEF OFFICERS REPORT: 1975

Vessels Particulars:
Length Overall — 162.18 m. Breadth — 22.8 m.
Summer Draft — 10.382 m. Summer d.w.t. 21,705 m./tons.

Dry Cargo Berths

Anchorage: Local Agents generally wireless the quarantine anchorage position which is approx. 1.5′ W.N.W. from the position shown on BA Chart No. 898. Care should be taken while anchoring as there are innumerable fishing floats, nets, etc. North of 35° 28′ N., and West of 129° 23.7′ E.

Restrictions: No pilotage between sunset and sunrise. Curfew from 0000-0400 hrs.

Pilotage & Berthing: The standard of pilotage was generally good. Pilot arranged by Agents and embarks at quarantine anchorage after vessel is cleared by authorities. 1 anchor is used while going alongside. 1 tug of unknown h.p. and 2 mooring boats assist while berthing. 4 berths are available:-

No. 1 Pier — Length 300 m. Depth variable (see plan)
No. 2 Pier — Length unknown. Depth supposed to be 36 ft.
No. 3 Pier — Length 165 m. Depth 29 ft.
No. 4 Pier — No details known.

Local authorities themselves do not have any idea as to the actual depths alongside. It is advisable to sound the bottom twice daily especially at No. 1 Pier as the depths were found to vary almost every 10 ft. Cargo is loaded/discharged by vessels cargo gear. Rate of loading Bagged Urea is approx. 400 m/tons per gang per day. Working hours are normally between 0700 hrs. and 1900 hrs. every day, Saturdays and Sundays included. Only on National Holidays no cargo is worked. Discharge of Bulk Sulphur and Gas/Product Carriers is around the clock. A vessel carrying 28,000 tons of Bulk Sulphur was discharged in 5 days. There is 1 crane and conveyor belt on No. 1 Pier only for handling Sulphur. It was observed that sometimes small coasters were loaded/discharged by mobile cranes.

Stevedores: Ulsan Port has a rule that a gang engaged for one particular hatch will only work that hatch from start to finish and will not work any other hatch, not even the other end of the hatch if the hatch has more than 1 set of derricks. Gangs have to be ordered before noon for the next day.

Medical — Local hospital used, patients normally taken there by watchmen.

Density — Apparently varies. Once 1016 was obtained while 10 days earlier 1020 was obtained.

Fresh Water — Available from barge whose capacity appears to be 150 tons. At least 24 hours notice necessary. Charges approx. 150 Won/Ton. (1 U.S. $ = 480 Won approx.)

Fuel — Not available.

Repairs — Facility available but rates exorbitant.

Dry Docks — Hyundai Shipyard located at Ulsan. Builds VLCC's but we have no information regarding details.

Watchmen — Essential on foreign vessels. Arranged by Agents.

Hatches — As per charter party but suggest use own crew as labour are only experienced with wooden hatchboards.

Repatriation — Usually done through Seoul which is about 5 hours away by bus. We changed Radio Officers and experienced no difficulty.

Telephones — Placed on board, but only for local calls via exchange.

Services — Only 1 shipchandler who handles everything including providing watchmen, laundrymen, etc.

Identity Cards — Shore pass issued for Ulsan valid for 3 days. To be renewed every fourth day. Usually done by watchmen who collect all passes and go to Immigration Office.

Surveyors — Lloyds can be arranged from Busan.

General — Ulsan is a very busy port with a large amount of local and Japanese coastal traffic. Local Agents keep trying to shift bigger vessels ahead and astern to try and squeeze in small coasters. It is advisable to strictly adhere to the charter party rules at all times in this port to prevent delays and expense on vessels account.

AUTHORITY: Korea Oil Corporation, Ulsan.

YOSU: 34.44 N. 127.45 E. (See Plan Book)

(A) SINGLE BUOY MOORING, HONAM OIL REFINERY
(B) PRODUCT WHARF, HONAM OIL REFINERY
(C) NAKPO WHARF, NAMHAE CHEMICAL CORPORATION
(D) PIER, DAE SUNG METHANOL PLANT
(E) DRY CARGO, YOSU HARBOUR

DOCUMENTS:

- Last Port Clearance.
- Register.
- 12 copies of Crew List.
- 12 copies of Passenger Manifest.
- 3 copies of Store List.
- 3 copies of Bonded Store List.
- 3 copies of Arms and Ammunition List.
- 3 copies of Livestock List.
- 1 copy of Vaccination List showing dates of last smallpox and yellow fever vaccination, etc.

PILOTAGE: There are 2 pilot stations. Pilot station for vessels of less than 30,000 g.r.t. is located at Lat. 34° 44′ N., Long. 127° 49′ E., and for more than 30,000 g.r.t., such as crude tankers, is located at Lat. 34° 39′ N., Long. 127° 58′ E.

Vessels calling at Yosu must cable the exact time of arrival at the pilot station to ship's Agent and Harbour Pilot's office. VHF Radio for calling Agent is Channel 16, name Agent and switch to Channel 26 to talk.

MEDICAL: ETA to be supplied to quarantine authorities by vessel's Agent 24 hours before arrival. Master required to complete Health Declaration when officer boards on arrival. Free pratique is automatic when coming from another Korean port.

There are medical facilities in Yosu town. Inoculations and vaccinations can be arranged by the quarantine doctor.

The Quarantine Stations are located at Lat. 34° 42.5′ N., Long. 127° 52.7′ E., for deep drafted vessel and Lat. 34° 45.2′ N., Long. 127° 46.3′ E., for less drafted vessel. The Quarantine inspection can be made at other than the above location depending on the situations. The inspection takes place during daylight.

RADIO: See "Radio" in section "A".

TUGS: Available, up to 2,000 h.p.

DENSITY: 1025.

FRESH WATER: Fresh water is available for delivery to ships.

FUEL: Bunkers available by barge subject to advance notice being given.

REPAIRS: There are repair facilities in Yosu.

CUSTOMS ALLOWANCES: One carton cigarettes or 1 lb. of tobacco, and one bottle wine or spirits allowed, each man.

REPATRIATION: Crew changes or repatriation can be arranged.

TIME: Korean Standard Time, GMT plus 9 hours. No alterations during year.

HOLIDAYS: 1st, 2nd and 3rd January, 1st March, 10th March, 5th April, 5th May, 6th June, 17th July, 15th August, 1st October, 3rd October, 9th October, 25th December. 1st January (Lunar Calendar), 8th April (Lunar Calendar), 15th August (Lunar Calendar).

IDENTIFICATION CARDS: Crew required to carry valid identification cards at all times.

SHORE LEAVE: Shore leave for ship's personnel is arranged by ship's Agent and the local authorities.

(A) SINGLE BUOY MOORING, HONAM OIL REFINERY

GENERAL DESCRIPTION: The 10 m. diameter IMODCO Single Buoy Mooring Terminal is located at the approximate position of Lat. 34° 51′ N., Long. 127° 47.3′ E. The terminal is modified to provide a safe mooring for tankers up to 200,000 d.w.t. under the environmental condition of about 40 knots maximum wind speed.

MAX. SIZE: The safe depth of Samg i channel which is located 4 miles South of the Terminal is 19 m. at about LLW.

The tidal rise in this area is 2 to 3.5 m. at high tide. Therefore, the terminal accepts tankers having draft up to 19 m.

NAVIGATIONAL AIDS: Vessels calling Honam Oil Terminal should have charts No. 242 and 209 published by the Republic of Korea Hydrographic office. Within the area, there is no port radar service.

NOTICE OF READINESS: Notice of Readiness will be tendered and accepted at the time when the vessel is in all respects ready for cargo operations and in accordance with charter party agreed.

BERTHING: Mooring operations are done jointly by ship's crew on the forecastle and mooring gang from Yosu on mooring boat.

The vessel shall prepare 2 strong messenger lines of more than 50 m. each and pass them to the mooring boat. The mooring gang will tie the vessel's messenger lines to 18 in. Buoy ropes' messenger lines. Upon signal from mooring gang, vessel will heave in both mooring ropes up to chafing gear of the ropes on deck and make fast to the vessel's bollards by the 8 turn method.

Normally starboard rope is heaved in first and or both port and starboard ropes are heaved in simultaneously.

It is compulsory to moor with 18 in. Buoy ropes. For the use of these ropes Honam Oil charges a nominal fee for each call at the SBM.

CONNECTING HOSES: The vessel must install two 16 in. ASA type flanges to her starboard manifolds, rig starboard derrick doubled and capable of lifting up to 10 tons of weight prior to berthing and have standing by a derrick operator and responsible ship's officer at her manifolds upon berthing.

Connecting/disconnecting cargo hoses will be done by shore team. The team leader will co-ordinate with ship's cargo officer for cargo hose handlings.

DISCHARGING: Discharging should be commenced by the signal of Terminal representative. The Terminal receiving facilities have a working pressure of 225 p.s.i. with safety factor of 7:1, but the pumping pressure must be raised gradually and then the pressure should be raised up to 225 p.s.i. at ship's manifolds. The vessels are required to find out discharging rate at least every 4 hours.

SHIP'S READINESS: During discharging the international code flag "B" shall be displayed from a topmast signal halyard during daylight hours. During hours of darkness, a red light shall be displayed, visible at a distance of at least 1 mile and show an unbroken light all around the horizon. The vessel's engines must be ready while discharging at a moment's notice and the Master is responsible for having sufficient officers on duty both on bridge and in engine room to take action immediately upon instructions from Honam Oil representative.

In order to avoid riding up on the buoy and the cargo hoses, astern movements of the vessel are required. For turbine vessels when for various reasons, the Chief Engineer officer is unable to completely stop his engines, the r.p.m. must be kept at a minimum by using the turning gear. The propeller must also propel the vessel astern only. Vessels which are not able to conform with these regulations should advise Honam Oil representative in writing. In addition to the lights usually displayed, vessels discharging cargo during darkness, will illuminate the area around the ship and especially the IMODCO Buoy to the satisfaction of the terminal representative in order that any oil on the surface of the sea may be readily detected and appropriate action taken. Vessels should provide suitable floodlights for working on deck during night operation.

BALLAST: There are no facilities for reception of dirty ballast. It is the ship Master's responsibility to see that no oil or oily ballast is spilled or pumped overboard from his ship. Drip-pans must be used at all times and all scuppers must be plugged. The waters in or adjacent to the terminal must not be polluted and only oil-free bilge water may be discharged at the terminal. If, during inspection or during progress of discharging, it is revealed that the vessel's tanks are not oil-tight, she will be refused further discharging facilities.

SAFETY: Sufficient officers and crew personnel must always be on board to attend to the vessel and to cargo. Power must be available at all times on deck winches and windlass while the vessel is in the moorings.

The presence of unauthorised craft alongside is extremely hazardous, and Masters are requested to require all unauthorised craft to clear the vessel's side prior to commencement of cargo discharging. Master should shut down all cargo operations during severe electrical storms and under any circumstances which imperil the cargo operation.

While bunkering barge is alongside the crude tanker, it is required that ship's Master shall check mooring lines, fenders or engines of bunkering barge or other safety items.

RADIO: In Korea there are 4 coastal radio stations, Pusan, Inchon, Mokpo and Yosu as listed in International communication publications. Vessels calling Yosu would call Pusan, Mokpo, and Yosu.

For the vessels visiting Honam Oil Refinery, it is recommended to call Mokpo coastal station, call sign HLM and address to: Honam Oil Yosu Refinery Telex number K762 or K764, via: Mokpo Radio. The Mokpo Radio keeps telex operation network with telex room of Honam Oil Yosu Refinery and messages can be handled within half an hour during the service hours of Honam Oil Yosu Refinery Telex room (weekdays: 0830–1930, Saturday: 0830–1500, Sunday/Holiday: off-service). Also vessels within VHF voice radio range of about 100 km to Yosu, call Ch-16 (Simplex), Switch to Ch-26 (Duplex) and then ask for vessel Agent, Harbour Pilot or Honam Oil Yosu Refinery. Honam Oil Yosu Refinery provides the telephone service every day from 0830 to 2300 hrs. local time with telephone number 3141-9. (Terminal representative located on extension 279 for office hours, 370 for out of office hours).

The communications from tanker to shore when moored at the IMODCO Buoy will be made by ferry boat and refinery matters are made by transceiver handled by refinery personnel on board.

AUTHORITY: Honam Oil, Yosu Refinery.

(B) PRODUCTS WHARF, HONAM OIL REFINERY

BERTHING: The 4 products berths are located in approximate position 34° 51′ 38″ North, 127° 44′ East, in East-West direction and designed to accommodate 4 tankers simultaneously viz. No. 1 and No. 4 berths for about 5,000 d.w.t. tankers, No. 2 for 3,000 d.w.t., and No. 3 for 20,000 ton tankers. No. 3 berth is under modification and installation of Chicksan loading arm. The Honam Oil Product Wharf is designed to moor and unmoor tankers on a 24-hour basis, depending on the condition prevailing at the time and the Master's judgement. The wharf is well and sufficiently illuminated for night work.

Minimum mooring line requirements are:

Forward: 3 headlines	Aft: 3 stern lines
1 spring line	1 spring line
1 breast line	1 breast line

In strong wind 1 more head and 1 more stern line are required.

The direction of the tidal stream in the vicinity of the products wharf is nearly rectilinear and parallel to the berths, the flood running in a 272° direction and the ebb in an 084° direction. The maximum velocity is 2.5 knots or more. The duration of the ebb stream is about 6.75 hours, and the flood stream 5.5 hours.

The tidal range is about 4 m. Therefore, ship's crew must adjust vessel's ropes with tidal height so as to avoid damage to the ropes.

MAX. SIZE: There is shallow water of about 10 m. depth at LLW en route approaching the channel to the wharf. With this depth of water, the Terminal limits vessel's draft to less than 32 ft.

CONNECTING HOSES: It is the policy of the Honam Oil Refinery Co., Ltd. that the ship's crew shall be responsible for the connecting and disconnecting of the cargo hoses at the ships manifold. The wharf crew will operate the cargo hose winches.

FRESH WATER: Vessels requiring fresh water request required amount of water to ship's agent in advance.

LOADING: The refinery can furnish loading at 5,000 b.p.h. or more. The Chief Officer should, however, state the loading rate he requires which should be maximum consistent with safety at all times. A qualified deck officer should, however, be on deck during the entire loading operation. The international code flag "B" shall be displayed from the signal yard-arm during daylight hours. A red light shown during hours of darkness. Lines for loading and deballasting are as follows:

Product	*Lines Dia., inches*
LPG	6
Regular gasoline	10
Military and Premium gasoline	12
Kerosene/JA–1	10
Naphtha	10
JP–4	12
Solvent	6
Diesel	12
LRFO/NSFO	10
Bunker–C	14
Bunker–C	12
Asphalt to Cosmos Wharf	3
Bunker–A	10
Ballast water	10
LPG Vapor return	3

REPAIRS: There are no repair facilities and also repairs are not allowed on the product wharf. In the event of emergency cases, Honam Oil will assist in carrying out repairs under the supervision of refinery's safety personnel to expedite vessels from the wharf and a quick turn around.

RADIO: See "Radio" in section "A".

AUTHORITY: Honam Oil Refinery.

(C) NAKPO WHARF, NAMHAE CHEMICAL CORPORATION

A straight berth which could accommodate one 50,000, one 30,000 and two 20,000 d.w.t. vessels is located at about Lat. 34° 51′ 40″ N., Long. 127° 44′ 40″ E. The wharf is handling raw material by 800 tons crane and product of fertilizer by 300 tons crane.

(D) PIER, DAE SUNG METHANOL PLANT

Located close to the product wharf of Honam Oil Refinery at about Lat. 34° 51′ 30″ N., Long. 127° 44′ 05″ E. Maximum vessel size and draft are about 4,400 d.w.t. and 5.5 m. respectively.

(E) DRY CARGO PORT

PIERS: 3 piers are located in Yosu town at about Lat. 34° 44.3′ N., Long. 127° 45.3′ E. and consist of No. 1, No. 2 and No. 3 Piers.

RESTRICTIONS: No. 1 Pier is used for only small vessels. No. 2 Pier for the vessels of less than 20 ft. draft and max. draft of No. 3 Pier is 26 ft. At anchor draft up to 35 ft.

CARGO-HANDLING FACILITIES: Crane barge of 30 tons capacity is available.

RADIO: See "Radio" in section "A".

AUTHORITY: Local Port Authority, Yosu.

NOTES

Please also advise Shipping Guides Ltd.

Kuwait

KHOR-EL-MUFATTA: 28.39 N. 48.23 E.

DOCUMENTS: The only document required for this port is copy of the Cargo Manifest.
PILOTAGE: No pilotage available.
ANCHORAGE: Vessels anchor to seaward side of black and white conical shaped buoy which is situated 2 miles to the East of the Khor. Mufatta is some 55 miles by sea from the port of Kuwait. The flashing lights marked on the charts at the entrance to the Khor have been discontinued.
HEALTH: Before arrival vessels required pass following items to Agent (about three or four days prior to ETA). Name of vessel, Nationality, ETA, Last Port of Call, tonnage, quarantinable disease on board (if any) infectious disease (if any), sick persons, death, and any requirements.

ETA should be notified again 24 hours before arrival.
RADIO: No separate radio service for this port and all communication to Agent to be made through Kuwait Radio 9 KK.
TUGS: None.
BERTHING: Ship discharged in open roadstead.
STEVEDORES: Sent from Kuwait. At least 48 hours notice required.
MEDICAL: Facilities available only at Kuwait.
DENSITY: Salt water.
FRESH WATER: Not available.
FUEL: Can be arranged at Mina Abdulla. Mina-al-Ahmadi.
FIRE PRECAUTIONS: No equipment for fire-fighting.
GANGWAY/DECK WATCHMEN: Can be arranged through Agent.
CERTIFICATES: All usual documents such as Ship's Manifest, Bill of Health, Crew List, Clearance from last port, Store List, Bonded Store List, etc.
CUSTOMS ALLOWANCE: (Tobacco) No restrictions. (Wine and/or Spirits) Alcoholic beverage strictly prohibited to be held out of bond. Master allowed keep limited quantity in cabin.
CARGO GEAR: Ship's gear used for discharging.
IDENTIFICATION CARDS: Not needed.
REPAIRS: None.
REPATRIATION: Can be arranged via Kuwait.

Seamen arriving Kuwait Airport to join vessels at Partitioned Zone ports can obtain transit visa at airport, if Agents arrange to submit necessary guarantee to Immigration Authorities confirming that they are in transit and joining vessels calling at Kuwait and/or Partitioned Zone. In order to meet the crew at airport and arrange transit visa, cables confirming their arrivals and flight numbers are to be sent to Agents to reach them at least 24 hours before arrival of crew.

Marine Superintendent of Owners, or Owners' representatives and businessmen visiting Kuwait must have valid visas. Such visas can be obtained from Kuwait government's diplomatic missions abroad.
AIRPORT: Kuwait Airport served by regular airlines.
TIME: GMT plus 3 hours.
HOLIDAYS: New Year's Day; Eid al Fitr; Accession to the Throne; Eid al Haj; 1st Muharram; Prophet's Birthday; Rajab.
TELEPHONE: Cannot be arranged on board.
PROVISIONS: Foodstuffs, beverages, tobaccos, etc., available from ships chandlers in Kuwait in limited kinds and quantities. Prices more expensive than town of Kuwait due to long transportation. Ship's Agent should be advised by cable well in advance.
SPECIAL SERVICES: Swedish Welfare for Seamen, Lloyds Surveyor, Butterworth tank cleaning machines and equipment, and under-water cleaning.
SHORE LEAVE: Not limitations.
AGENT: See "Shuwaikh".

MINA ABDULLA: 29.02 N. 48.11E. (See Plan Book)

LOCATION: Mina Abdulla bounded on South by parallel of Lat. 28° 55′ N. on the East by Long. 48° 18′ E. and on North by a line joining following points:

(1)	29° 01′ 45″ N.	48° 09′ 25″ E.
(2)	29° 01′ 45″ N.	48° 10′ 06″ E.
(3)	29° 02′ N.	48° 10′ 18″ E.
(4)	29° 02′ N.	48° 18′ 00″ E.

FLAG: Every merchant ship when entering or leaving port between sunrise and sunset shall fly her national flag and national flag of Kuwait and, when entering port, shall fly her signal letters. All vessels required to fly Kuwait flag on foremast during daylight hours. Flags may be obtained from Agent.
APPROACHES: 2 oil-loading berths supplied by 3 pipe-lines are situated here. A number of large tanks define tank farm area. A refinery stands to S.W. of tank farm. The flare is conspicuous. Other conspicuous objects in area are the radio tower, Mosque Minaret and the 4 leading beacons for 2 berths. These are lit for night berthing by 3 white lights on each beacon in the form of triangles, the beacon lights for Berth No. 1 are occulting every 5 seconds, the lights of No. 2 Berth are fixed.

When a vessel is ready to enter at the same time as another vessel is ready to leave the port, the outgoing vessel shall have priority over the incoming vessel, subject always to the provisions of the International Regulations for Preventing Collisions at Sea and to the requirements of safe navigation.
DOCUMENTS: Before leaving Kuwait the Master shall be responsible for obtaining a Port Clearance Certificate. The documents necessary for vessels to enter and leave Mina Abdulla are:
Enter
Ship's Mainfest.
Bill of Health.
Crew List.
Clearance from Last Port.
Light Dues Certificate.
Clear
Register.
Load Line Certificate.
Radio Certificate.
Safety Certificate.
Last Port Clearance.

Masters and Agents of vessels shall, when called upon by a Customs Officer or Marine Officer, produce any documents relative to the landing or shipment of their vessel's cargo in the port. The Master or his representative is required to hand to the Company a written Notice of Readiness to load.

Discharging certificates of oil cargo loaded from Kuwait and Partitioned Zone ports are to be sent to vessels' local Agents immediately duly attested by the Customs Authorities and Arab Consulate covering full quantity as per Bill of Lading.

If a vessel, which has not submitted the certificate for the previous voyage, calls for the second time, she will be allowed to load and sail only after paying a cash deposit of KD 2,000.

In order to avoid delay in berthing, loading and outward clearance for vessels, all owners must give instructions to Agents at discharging ports to forward relevant cargo discharge certificates to Agents at loading ports without delay.
PILOTAGE: Mooring Master normally meets vessels within 1.5 miles of terminal sea berths and will act as Pilot and as Company's Representative and remain on board during vessel's stay in port. Vessels requested to have Pilot ladder of an approved pattern, safely and securely rigged, ready for immediate use, and long enough to reach Mooring Master's launch. When it is necessary for a vessel to anchor before being berthed she should do so in the recommended anchorage area. Two 45 ft. tugs painted blue with white superstructure assist berthing by running mooring lines to stern buoys. The Pilot boat has a blue hull and white superstructure and is radar equipped. The name "Independent" is on each bow and stern.

Vessels with a Mooring Master on board shall display International Code Flag "H" in a prominent position whilst manoeuvring under his advice, and shall, if so instructed by Mooring Master, display a flag indicating berth to which vessel is proceeding.
ANCHORAGES: Vessels requiring anchor for any reason in port limits should do so within area enclosed between positions:

29° 02′ N.	48° 14.3′ E.
29° 02′ N.	48° 15.1′ E.
29° 01.2′ N.	48° 15.1′ E.
29° 01.2′ N.	48° 14.1′ E.

or within reasonable proximity to the East if congestion arises in anchorage area.

All vessels and craft within the port shall be navigated with care and caution, at a speed, and in a manner which shall not endanger the safety of other vessels or craft. In particular, special care and caution is to be observed in passing vessels or craft of the following category: weight-lifting or deeply-laden craft, vessels which are mooring or moored at terminal buoys, vessels or craft in tow and vessels or craft engaged on diving, dredging, grabbing, pile-driving or construction work, survey operations or the removal of obstructions.

All vessels within the port shall anchor, or moor and unmoor, when and where required by the Marine Officer, and shall be moved from place to place as required and by such means or appliances as may be ordered by the Marine Officer.

Vessels or craft shall not anchor near any submarine lines within the port limits, unless engaged on work which, in the opinion of the Marine Officer, necessitates their doing so.
MAX. SIZE: Vessels of unlimited length can be accommodated. Approximately 90,000 d.w.t. tankers fully loaded up to a maximum draft of 46 ft. on arrival, calling for bunkers only, can be accommodated. Vessels in the 200,000 d.w.t. class can be accommodated arriving in ballast condition for loading part cargoes up to a max. sailing draft of 51 ft. or for normal bunkering requirements when remaining in ballast.
HEALTH: Quarantine regulations administered by Kuwait Government's Quarantine Medical Officer. Pratique granted at anchorage or berth.

Vessels calling at Mina Abdulla are requested to send following information to "Health Shuaiba Port":
(1) Name of vessel.
(2) Last port of call.
(3) Health condition of crew.
(4) Validity of Smallpox and Cholera Certificates.
(5) Request for Free Pratique.

No craft, other than one having on board the Mooring Master or Port Health Officer, may approach any vessel entering the port and no other person may board any such vessel until free pratique has been granted.

Adequate covers shall be placed over all overside discharges.

Masters shall be responsible for ensuring that no unhealthy or offensive matter is deposited from their vessels on port premises.

Any such matter so deposited that is, or becomes offensive, or, in the opinion of the Port Health Officer, injurious to health, may be removed, confiscated or destroyed and the place of deposit cleaned or disinfected on the direction of the Marine Officer at the expense of the Master responsible.

Any vessel, having on board offensive goods, or goods which, in the opinion of the Port Health Officer, are injurious to health, may be ordered to leave the port by the Marine Officer.

No ashes, refuse or other objectionable matter shall be thrown overboard from any vessel either on to any premises or into any waters of the port.

RADIO: Master shall inform "Mina Abdulla Marine" at least 72, 48 and 24 hours notice of time of arrival via Kuwait Government Coastal Radio Station, call sign "9KK".

MOORING: Mooring Masters may decline to moor any vessel if in his opinion it is not equipped with satisfactory mooring facilities, lines and gear, etc.

Vessels shall provide such tackle as may be required for loading or discharging cargo.

Vessels berthed at sea terminals shall provide not less than 6 good quality mooring ropes and/or wire hawsers aft, each not less than 120 fathoms in length. An eye shall be spliced in ends of ropes to secure lines to pelican hooks on buoys. 2 insurance wires are provided in each berth. Ships must have both anchors ready for immediate use each with minimum of chain as follows:

Below: d.w.t. 10,000, 8 shackles. Between: d.w.t. 10,000–20,000, 9 shackles; 20,000–30,000, 10 shackles. Above: d.w.t. 30,000, 11 shackles; 40,000, 12 shackles. Above 60,000, 13 shackles; and above 80,000, 16 shackles. The term shackles is to be interpreted as a length of 15 fathoms. Masters shall be responsible for seeing that a strict watch is kept on their vessel's moorings to prevent ranging.

BERTHING: Master shall, before berthing, advise Marine Officer of any special damage or disability to the vessel. No. 1 Berth Lat. 29° 01′ 16″ N., Long. 48° 11′ 52″ E. approximately, situated about 2 miles offshore in 43 ft. water LWOST over sand and coral with fair holding ground. A spar-buoy painted yellow with black bands marks end of submerged steel pipe-lines. A common bunker line to the berths, off-branches approximately 1,000 ft. South of Berth No. 1 and runs in to meet the direct line from shore to this berth. Ends of attached loading hoses marked by can-buoys on either side of the Spar. 4 mooring buoys in Berth No. 1 and 5 in Berth No. 2 painted red and silver located in an arc, 1–2 cables approximately E.S.E. through South of S.S.W. from spar-buoys for vessel's stern moorings. Ship's anchors only are used forward No. 2 Berth (situated approximately half a cable South and 9 cables East of Berth No. 1); Lat. 29° 01′ 0″ N., Long. 48° 12′ 51″ E. approximately. Depth of water in Berth No. 2 is 56 ft. LWOST over mud and clay which is excellent holding ground.

LOADING: Terminal has facilities to load at max. rate of 1,500 t.p.h. in Berth No. 1 and 2,800 t.p.h. in Berth No. 2, but this loading rate can be achieved only when vessel is furnished with appropriate equipment.

Caution: The incoming oil stream is pumped from shore and it is extremely dangerous to close a ship's valve against the incoming oil stream. Such a procedure creates an excessive pressure, which may damage submarine lines, ship's pipe-lines or the terminal facilities. Vessels will be held liable for damages resulting from failure to observe this precaution.

Raising, connecting, disconnecting and lowering of submarine hoses will be performed by shore crew as advised by Mooring Master who will remain on board while ship is mooring, loading or discharging and unmooring. Vessels will provide winch drivers and remove such manifold blanking flanges and fit reducing pieces as required.

Deck hose connections from submarine lines as follows:

Cargo: 10 in. ID, working pressure 150 p.s.i., fitted with 150# ASA steel flanges. Bunker flanges 8 in. ID, working pressure 150 p.s.i., fitted with 150# ASA steel flanges.

Loading and discharging of petroleum vessels shall not be undertaken without permission of Marine Officer.

Loading and discharging of petroleum vessels shall not commence until:

(1) Master or Chief Officer has certified to Marine Officer that all necessary valves are open and that vessel is in proper condition to receive or discharge cargo.

(2) Master or Chief Officer has certified to Marine Officer that all ship's sea valves are closed or blankflanged except those required for water circulation purposes, and that these regulations are being and will be observed.

(3) Ship's tanks have been inspected by an authorised inspector and passed as suitable for loading.

Throughout period of loading and discharging operations, following conditions shall be observed:

(1) A responsible ship's officer shall be on watch on board at a point near tanks which are receiving oil during process of loading. The company's staff have received instructions to stop loading immediately whenever this rule is disregarded.

(2) A capable member of ship's crew shall be stationed by ship's tank valves which are receiving oil during loading.

(3) All pipe-lines and hoses shall, while rigged for loading or discharging petroleum, be directly and continuously earthed and kept constantly under supervision.

(4) No petroleum shall be allowed to escape or overflow.

(5) The following signals will be observed, as well as the radio communications, between ship and shore:

Signal Flag by Day		*Light Signal by Night*
	Starting	
1 Red Flag	Slow Speed	1 Red Light
2 Red Flags	Full Speed	2 Red Lights
	Stopping	
1 Red Flag	Slow Speed	1 Red Light
All Flags Down	Stop	No Lights

(6) When normal ship-to-shore communication fails, the emergency signal to stop the oil flow will be a continuous blast on the ship's whistle until the oil ceases to flow. Steam or air should never be shut off from whistle during loading. When practical, means should be provided for blowing the whistle from the after section of the cat walk. Whenever an Emergency Whistle Signal is used, all loading operations in the berths will be shut down until normal communication is restored. For this reason it is requested that ships in the area refrain from using ship's whistle for other than essential purposes.

Load Lines: Masters are warned that their load lines are subject to scrutiny by the port officer from Mina-al-Ahmadi on completion of loading or bunkering. It is in their own interest therefore, to observe the regulations, as vessels are liable to be delayed and have to pump ashore or be fined if overloaded, and Port Clearance withheld.

BALLAST: As soon as practicable after arrival, all vessel's tanks will be inspected for evidence of oil in ballast. During discharge of ballast, similar inspections will continue. If evidence of oil appears at any of these inspections, the ship must return at once to a point not less than 100 miles from the coastline and there completely discharge all oily or dirty ballast.

Masters will be required to sign a declaration certifying that any water ballast intended for discharge from vessel is clean and free from oil. Arrangements are being made by the Company for dirty ballast disposal facilities to be supplied in the future, if and when required, by vessels in this port.

POLLUTION: Cases of discharging dirty ballast or oil spillages will be investigated and vessels are liable to fines and/or detention. Vessels shall not discharge into the water of the port any part of the content of their cargo, slop, or ballast tanks or bilges which is liable to pollute these waters. Masters shall ensure that pipe-line and equipment are clean before using them for discharging anything into the water of the port. Scuppers shall be plugged effectively and no leakage or spillage of petroleum on board shall be allowed to leak or be swept overboard.

The State of Kuwait has stringent laws in force concerning the pollution of the sea by oil. The following are 2 amended paragraphs of this law:

Paragraph 1, Art. 4. "A person responsible for any pollution as described in Articles 1 and 2 shall be punished by a fine of not less than 1,500 and not more than 6,000 Dinars. In the event of his committing a similar crime within a period of 1 year from the date of his conviction, such a person shall be punished by a fine of not less than 3,000 and not more than 6,000 Kuwaiti Dinars, and in the event of his committing yet another crime within a year from this last conviction he shall be punished by a fine of 6,000 Kuwaiti Dinars."

Paragraph 3, Art. 6.. "The person responsible for pollution may suspend the detention order against the ship on payment, as a cash guarantee, of 6,000 Kuwaiti Dinars to the official entrusted with the execution of such order."

TIDE: The maximum tidal range is 10 ft. 6 in. and velocity of tide is from 0.5 to 2 knots.

DENSITY: 1025.

MEDICAL: Patients will in normal course of events be treated by Quarantine Medical Officer on board. Neither medical nor hospital facilities are provided by the Company. However, in cases of emergency those requiring urgent hospitalisation may be taken by vessel's Agent.

FUEL: Fuel oil bunkers can be loaded in either berth at a max. rate of 500 t.p.h, thus raising the max. loading rate of either berth by 500 t.p.h. for fuel oil cargoes only.

FRESH WATER: Cannot be supplied at Mina Abdulla. In case of utmost need Agent may hire a barge with a capacity of 100 tons of fresh water from Kuwait, and send to Mina Abdulla.

CUSTOMS: Import of firearms and ammunition is forbidden. Under Kuwait Law No. 46, it is an offence to sell or trade liquor within the State of Kuwait. Any person convicted for selling, purchasing, giving away, accepting or acquiring in any manner, liquor or any intoxicating drinks for the purpose of trading and marketing shall be punished by a maximum 3 years imprisonment and a maximum fine of KD 300 or by only 1 of the 2 aforesaid penalties. Alcoholic beverage is strictly prohibited to be held out of bond. Master allowed to keep limited quantity in his cabin.

CONSULS: See "Shuwaikh". The American Consulate is situated just outside Kuwait town, some 30 miles from the terminal.

REPAIRS: No facilities.

REPATRIATION: Seamen arriving Kuwait Airport to join vessels at Kuwait ports can obtain transit visa at airport, if Agents arrange to submit necessary guarantee to Immigration Authorities confirming that they are in transit and joining vessels calling at Kuwait. In order to meet the crew at airport and arrange transit visa, cables confirming their arrivals and flight numbers are to be sent to Agents to reach them at least 24 hours before arrival of crew. Marine Superintendent of Owners, or Owner's Representatives and businessmen visiting Kuwait must have valid visas. Such visas can be obtained from Kuwait Government's diplomatic missions abroad.

AIRPORT: Kuwait.

TIME: GMT plus 3 hours.

PROVISIONS: Aminoil does not provide any chandlering facilities. Masters of vessels calling at Mina Abdulla must arrange for supplies through ship's Agent. Foodstuffs, beverages, tobaccos, etc., are available from ship chandlers in Kuwait in limited kinds and quantities. Prices a little more expensive than in Kuwait due to long transportation. Ship's Agent should be advised by cable well in advance.

CERTIFICATES: See "Documents". There is no organisation for dealing with Deratisation Certificate at Mina Abdulla. Agents are responsible for presentation of Oil-discharging Certificate to Customs Authorities as guaranteed by them. All Cargo Discharge Certificates duly attested by the Arab Consulate are to be sent to Agents directly.

SHORE LEAVE: At present, crews not allowed ashore at Mina Abdulla, and this rule will be strictly adhered to.

REGULATIONS: Main engines shall always be kept ready for immediate use. Steam pressure shall be maintained at min. necessary to operate auxiliaries and to manoeuvre in case of need. Deck steam is to be maintained at all times.

Engine repairs which may prevent working of main engines may only be undertaken with written permission of Marine Officer.

Master shall at all times retain on board sufficient crew to work vessels.

Vessels shall have both anchors ready for immediate use on arrival and departure.

Vessels berthed at sea terminals shall not carry out engine trials without permission of Marine Officer.

Vessels berthing during hours of darkness must if available provide a portable light of an approved gas-tight pattern capable of being placed on either quarter of vessel to illuminate vessel's mooring ropes sufficiently for mooring boat.

Vessels shall provide an efficient accommodation ladder and boat rope for port authorities and, during hours of darkness, shall install adequate approved lighting for same. Failure to comply with this may lead to inward clearance being delayed by authorities, thus incurring delays to vessel.

No swimming in vicinity of vessels or from vessels in berth is allowed.

SHIPMASTER'S REPORT: December 1978

Berth No. 1: This berth is now reserved for loading of naphtha only. Loading rate 1,500 t.p.h. Cargo line is 10 in.

This berth is also fitted with a line of 8 in. for fuel oil bunkers. Rate for bunkering: 500 t.p.h.

Berth No. 2: This berth is operated for loading either crude oil or fuel oil.

The cargo line is 10 in. Loading rate: 2,800 t.p.h.

This berth is also fitted with a line of 8 in. for fuel oil bunkers. Rate for bunkering: 500 t.p.h.

For loading of crude oil cargoes, only the cargo line is used and the actual loading rate is 2,800 t.p.h.

For loading of fuel oil cargoes, both cargo and bunker lines are used simultaneously, and the loading rate is increased to 3,300 t.p.h.

At the end of loading operations, the cargo line is flushed when a different grade of cargo is to be loaded on the following vessel.

AUTHORITY: Kuwait National Petroleum Co., Mina Abdulla.

AGENTS: See "Shuwaikh".

MINA-AL-AHMADI: 29.04 N. 48.09 E.

OPERATORS: Kuwait Oil Company Ltd.

LOCATION: Port of Mina-al-Ahmadi is open roadstead situated on Western shores of the Gulf.

PORT LIMITS: From the shore at Lat. 29° 02′ 50″ N. Eastward to Long. 48° 09′ 42″ E. Thence in a S.E. direction to position Lat. 29° 02′ 45″ N., Long. 48° 09′ 47″ E. then in an Easterly direction towards Long. 48° 11′ 30″ E. and the Northerly limit 29° 10′ 00″ N. from the shore to 48° 11′ 30″ E.

FLAG: National flag of Kuwait is to be flown at foremast head during vessel's stay in port.

NAVIGATIONAL AIDS:

Current hydrographic information may be obtained by radio from the "Middle East Navigation Aids Service, Bahrain".

Lights and Fog Signals

A fog signal on the extreme South end of South Pier with characteristics of one 3-second blast every minute. Approx. position Lat. 29° 04′ 05″ N., Long. 48° 10′ 00″ E.

A fog signal situated on the North Pier with a characteristic of 2.5-second blast, 3-second silence, 2.5-second blast, 3-second silence, 2.5-second blast, 46.5-second silence, Approximate position 29° 07′ 24″ N., 48° 09′ 00″ E.

A fog signal situated on the Sea Island with a characteristic of 2×3 second blasts every 90 seconds. Approximate position 29° 06′ 48″ N., 48° 17′ 29″ E.

DOCUMENTS:

1. To obtain clearance inwards, following documents required by Agents:
   - (i) Ship's Register.
   - (ii) Safety Equipment Certificate.
   - (iii) Safety Radio Certificate.
   - (iv) Load Line Certificate.
   - (v) Last Port Clearance.
   - (vi) Two copies of Crew List showing names, nationalities and passport/seamen's book numbers.

Items (i) to (v) are returned to Master together with Port Clearance (valid 24 hours only) prior to sailing.

2. Customs boarding officers require following:
   - *(a)* One copy of Crew List.
   - *(b)* Log Books covering period from last visit.
   - *(c)* Completed Customs Declaration Form (supplied by boarding officer).
   - *(d)* List of Ports visited with arrival and departure dates since last visit (form also supplied by boarding officer).
   - *(e)* Completed Ballast Form (form also supplied by boarding officer).

3. Immigration officials require the following:
   - *(a)* Valid Passport or Seamen's Book – the latter is preferable for landing.
   - *(b)* Letter of Guarantee from Agents (iv above).
   - *(c)* Two copies of Crew Lists.

4. Early Departure Procedure. KOC Documents Section are now operating an Early Departure Procedure to cut down delays in documentation. Masters may opt to use this scheme, full details of which can be obtained from KOTC.

5. Discharge Certificates: Discharging certificates of oil cargo loaded from Kuwait and neutral zone ports are to be sent to vessels' local Agent immediately, duly attested by Customs authorities and Arab Consulate covering full quantity as per Bill of Lading.

If a vessel, which has not submitted the certificate for the previous voyage, calls for the second time, she will be allowed to load and sail only after paying a cash deposit of KD 2,000.

In order to avoid delay in berthing, loading and outward clearance for vessels, all owners must give instructions to Agent at discharging ports to forward relevant cargo discharge certificates to Agent at loading ports without delay.

PILOTAGE: Vessels should arrive with sufficient clean ballast for safe manoeuvring under prevailing weather conditions. Under certain conditions the Pilot, after consulting the Harbour Master, may require additional ballast to be run in before berthing.

All berthing, unberthing and manoeuvring of vessels within the port limits, restricted area and prohibited anchorage must be done under the supervision of a KOC Pilot.

It is the duty of the Master to inform the Pilot of any special conditions, difficulties, or peculiarities whatsoever pertaining to his vessel which might impose hazards in connections with the handling, mooring, unmooring, loading or discharging of the vessel.

ANCHORAGES: The suggested anchorages in the port of Mina-al-Ahmadi have been laid out to facilitate shipping in general. These anchorage areas are outside of the port limits and clear of the prohibited anchorage and restricted areas. Depths in the anchorages range from 10 to 15 fathoms, the seabed is of sand and soft coral with mud patches and affords good holding ground.

Incoming vessels are assigned berths by the Harbour Master in accordance with time of arrival, type of cargo required, size of vessel and loaded draft. Endeavour is made to berth vessels on arrival and Masters will be advised, prior to arrival, of the pier at which they will berth. If a berth is not available, vessels will be requested to anchor in one of the three anchorages as follows:

1. To the North-East of the Sea Island and outside of the restricted area.
2. To the East of the North Pier, outside of the port limits and to the North of the prohibited anchorage.
3. To the East of the South Pier, outside of the port limits and between the Southern limit of the prohibited anchorage and the Northern port limit of Shuaiba Port.

To the East of the port limits exists a prohibited anchorage and a restricted area which embraces the Sea Island and submarine-feeder pipe-lines.

Positions of these areas are:

Prohibited anchorage	29° 05′ 00″ N.		29° 05′ 00″ N.
	48° 11′ 30″ E.	to	48° 15′ 00″ E.
	29° 07′ 00″ N.		29° 07′ 00″ N.
	48° 11′ 30″ E.		48° 15′ 00″ E.
Restricted area	29° 05′ 00″ N.	to	29° 05′ 00″ N.
	48° 15′ 00″ E.		48° 20′ 00″ E.
	29° 09′ 00″ N.		29° 09′ 00″ N.
	48° 15′ 00″ E.		48° 20′ 00″ E.

HEALTH:

Vessels calling at Mina-al-Ahmadi are requested to radio the following information to "Health Minahmadi Port":

(1) Name of vessel
(2) Last port of call
(3) Health condition of crew
(4) Validity of Smallpox and Cholera Certificates
(5) Request for Free Pratique

Free pratique will be considered at the discretion of the Quarantine Officer, and vessels must hoist the yellow flag unless they are informed by Agent or Harbour Control that free pratique has been granted.

Regulations.

(i) All vessels must exhibit quarantine signals until quarantine formalities are completed or free pratique granted. By day, International Code Flag "Q"; by night, red light over white light. No person other than the Pilot is allowed to board any vessel either alongside pier or at anchorage until pratique has been granted.

(ii) Valid smallpox Vaccination Certificates for all crew members and passengers are required. Valid Cholera Certificates will be required from travellers coming from infected areas with the exception of children under one year.
(iii) Ratguards must be fitted to all moorings – this is being rigidly enforced.
(iv) Maritime Declaration of Health Form (supplied by boarding quarantine officer) to be completed.
(v) One copy of Crew List containing dates of vaccination and inoculation is required.
(vi) International Certificates of Vaccination and Inoculation to be available for inspection if required.
(vii) Details of air-conditioning available in vessel (form supplied by boarding officer).
(viii) A valid Deratisation Certificate must be produced. Facilities are available locally for renewal.

RADIO:

1. *Station:* All radio communications to the Company should be quoted in Greenwich Meantime and should be routed through Kuwait Coast Station 9KK, details of which are given below:

412G Al Kuwait (9KK) 29° 10′ 09″ N., 47° 45′ 42″ E.

Frequency			*Hours*
(9KK) 430*, 450, 500	A1, A2	2 kW.	0300–2100
(9KK2) 4,287	A1	0.75 kW.	On request
(9KK3) 6,370	A1	0.75 kW.	On request
(9KK4) 8,525	A1	0.75 kW.	0300–2100
(9KK5) 12,895	A1	0.75 kW.	0300–2100
2,182, 2,200, 2,750	A3	0.1 kW.	0300–2100

*On request.

Procedure: Transmits traffic lists on 450 kc/s. each even hour; 8,525 and 12,895 kc/s. each odd hour plus 35, listens for 30 mins. thereafter: 2,750 kc/s. each odd hour plus 05.

2. *ETA:* 96 hours before arrival Masters should transmit to Kuoco through Al Kuwait Radio (9KK) the following information required by Kuwait Oil Company.

1. ETA.
2. Cargo and Bunkers required.
3. Notice of any repairs which may immobilise vessel.
4. Any special requirements regarding cargo documents.
5. Max. loading rate and ballast discharge time, special loading instructions if any.

The ETA should be confirmed 24 hours before arrival. The Master should also provide Agent with following information prior to arrival:

1. ETA.
2. Last port of call.
3. Any sickness on board.
4. Number of crew members unprotected against smallpox.
5. Number of crew to see doctor or dentist.
6. All requirements – provisions, supplies, lubricating oils, repairs, stores, machinery for landing, crew repatriation, etc.

3. *Radio Beacon:* A low power radio beacon call sign "9KU" frequency 312.6 kc/s. is situated at Lat. 29° 04′ 13.4″ N., Long. 48° 08′ 27.5″ E. Code transmissions are repeated every 20 minutes commencing on the hour throughout the 24 hours as follows: 9KU repeated 3 times for a period of 20 seconds followed by a dash for 20 seconds alternately for a whole period of two minutes.

VHF: A short range VHF radio telephone Port Control system is in operation and continuous watch is maintained on International Channel 16. Port Working Channels are:

Channel	*Function*
11	General Port Working
12	Pilot and Tugs North/South Pier/Sea Island
13	Sea Island Loading
14	Pilot and Tugs North/South Pier/Sea Island
26	Public Correspondence
27	Public Correspondence

Vessels bound for Mina-al-Ahmadi should contact Port Control calling "Mina South Pier signal" on Channel 16 a few hours before arrival.

N.B As Channel 16 is reserved for Calling, Safety and Emergency, vessels should refrain from using this Channel unnecessarily.

NOTICE OF READINESS: *(a) Vessels Berthing Direct from Sea:* The vessel will be advised by VHF or signal lamp. "Berthing on arrival" and the "Notice of Readiness time" will be taken as the time the Pilot boards the vessel.

(b) Vessels Anchoring and Awaiting Berth: When a berth is not available, or in the absence of any communication from the shore the time of NOR is taken as the time the vessel anchors in the roads. Time of anchoring, together with position relative to South Pier Control, should be advised to the Harbour Master by VHF or through 9KK as soon as possible. All vessels at anchor are required to be ready to berth on receipt of one hour's notice from the shore; this notice will be given by VHF or lamp and vessels should ensure an efficient watch is maintained to receive this notice.

(c) Cancellation of NOR: If after receiving one hour's notice a vessel is not ready to berth when Pilot boards, at the expiry of that notice the original NOR will be cancelled and the Pilot withdrawn. The new NOR will be the time the vessel indicates to the shore that she has rectified the defect that originally prevented her from berthing. As vessels are normally berthed in strict order to NOR time a vessel could lose considerable time through not being ready, and Masters should ensure that delays of this nature do not occur.

TUGS: KOC maintain 6 diesel tugs for port use. 4×1,500 h.p. with a bollard pull of 24 tons, and 2×2,500 h.p. with a bollard pull of 30 tons. 4 tugs normally maintained on duty at all times. Hire charges for the services of Pilots, tugs and rope launches are covered by comprehensive port charges. Under normal operating conditions, no tug or other craft will come alongside the vessel before the Pilot boards; ship's personnel must not signal for tugs or other boats to come alongside.

MOORINGS: When at berth, vessels must be moored to entire satisfaction of Pilot. Vessels must be ready at all times to put out extra moorings as requested by pier personnel or dictated by weather changes.

Mina-al-Ahmadi is subject to sudden fierce squalls; winds of 70 knots have been recorded, therefore vessel's mooring lines must be checked frequently to prevent excessive movement of vessel in berth. Experience has shown that wholly synthetic moorings have too much elasticity and allow vessel to range or drift away from the berth during periods of adverse weather. Whilst these moorings are acceptable as head/stern ropes, it is felt that the ideal breast moorings should be of wire or a wire rope combination with the end being sent ashore fitted with a synthetic pennant or tail. This type of mooring provides the necessary elasticity while still being able to hold the vessel in position. All vessels moored with automatic tension winches must set the manual brakes on these winches.

BERTHING: Vessels can berth at any time of the day and night. Berths are allocated depending on shipping position and size of vessel and the berthing position is advised by VHF. All vessels must establish contact with Signal Station or Sea Island Control before anchoring to ascertain position indicating the NOR time. Vessels should remain at one hour notice for berthing at all times and maintain an efficient watch on VHF.

There are 2 piers, 6 buoy moorings (seaberths) and a Sea Island.

South Pier. The South Pier is connected to the shore by an approach trestle, this trestle leaves the shore in position 29° 04′ N., 48° 09′ E., and runs seaward in an 071° 26′ direction for a distance of 4,200 ft. (1,280 m.). The "T" head is formed by the oil pier running Northwards in a 341° 26′ direction for 2,805 ft. (655 m.) and the general cargo/oil pier running Southwards in a 174° 26′ direction for 1,076 ft. (328 m.). The pier is a steel piled structure with a wooden deck, 24 ft. above LWOST. The South Pier has 6 oil-loading berths, plus 2 berths which can be used for general cargo or L.P.G. loading; details of these berths are as follows:

Limiting Depths and Berth Lengths

Berth	*Depth at LWOST*	*Nominal Length*
1	48.0 ft.	660 ft.
2	47.0 ft.	675 ft.
3	47.0 ft.	705 ft.
4	50.5 ft.	765 ft.
5	41.5 ft.	765 ft.
6	43.5 ft.	705 ft.
9	44.0 ft.	615 ft.
10	49.0 ft.	1,050 ft.

All berths except Nos. 1 and 10 are equipped with 10 in. cargo lines and 8 in. bunker lines. No. 1 and 10 berths are equipped for loading LPG each comprising a 16 in. loading line and a 10 in. vapour return line and a 6 in. circulating line. No. 9 is only equipped for bunkers and dry cargo.

North Pier. The North Pier is situated 3.5 nautical miles North of the South Pier and connected to the shore by an approach trestle which runs seaward from 29° 07′ 04″ N., 48° 08′ 10″ E. in a direction of 071° for a distance of 4,754 ft. (1,449 m.); the head is formed by the oil pier which runs Northward in a direction of 341° for a distance of 2,304 ft. (702 m.). The pier is a steel piled structure with a wooden deck, 20 ft. above LWOST. The North Pier has 4 oil-loading berths details of which are:

Limiting Depths and Berth Lengths

Berth	*Depth at LWOST*	*Nominal Length*
11	59 ft.	1,008 ft.
12	58 ft.	1,296 ft.
15	57 ft.	792 ft.
16	57 ft.	740 ft.

Berths 11 and 12 each have 4×12 in. cargo hoses, 1×12 in. Chiksan arm for naphtha loading and 2×8 in. bunker hoses. Berths 15 and 16 each have a Chiksan loading unit consisting of 4×12 in. cargo arms and 2×8 in. bunker arms. To facilitate the connecting of hoses on Berths 11 and 12, North Pier vessels are requested to retain sufficient ballast so that their manifold height above zero ft. tide does not exceed 60 ft.

MAX DRAFT

Sea Island Terminal. The loading platform of this new terminal is located in position 29° 06′ 48″ N., 48° 17′ 29″ E., approximately 7.4 miles East of the North and South Piers. This terminal is a steel piled structure in 94 ft. of water (LWOST). It consists primarily of a central loading platform with control tower, 6 mooring and 4 breasting dolphins, all interconnected by catwalks. The terminal, which lies in 330°–150° direction, is some 1,620 ft. in length. The height above datum of the loading platform is 44 ft.

Control Room on this terminal is about 90 ft. above water level.

2 vessels can berth at the same time but loading is possible one at a time, and the crude oil is fed by a 48 in., and heavy fuel oil bunkers by a 20 in., submarine pipe-line from shore. Navigational lighted buoys lettered A, B and C have been installed to mark the run of these pipe-lines. Other than heavy fuel oil no other bunkers available. Light fuel, marine diesel are not available at the Sea Island Terminal. Therefore vessels berthing at Sea Island requiring light fuel oil and marine diesel should inform Sea Island Control prior to berthing to avoid any possibility of delays. Sea Island berths each fitted with 4×16 in. cargo lines and 2×12 in. bunker lines.

Sea Berths: These berths are no longer in use and the buoys and moorings have been withdrawn.

Manifold Loading Connection Sizes. North Pier cargo flanges are 12 in. and bunker flanges 8 in. standard 150# ASA. South Pier cargo flanges are 10 in. and bunker flanges 8 in. standard 150# ASA. Sea Island Terminal cargo flanges are 16 in. and bunker flanges 12 in. standard 150# ASA.

Reducers. All vessels using the port of Mina-al-Ahmadi, should be equipped with reducing spools to fit these loading connections. These fittings should be in place prior to berthing to help expedite the vessel's turn-around time.

Slops. A 6 in. slop-line is available on all berths on North and South Piers for reception of slops. For first 3 hours use of this facility is free, for each additional hour or part thereof, a charge is made. Reception of slops is necessarily slow and a vessel may be considerably delayed in having to pump slops ashore. Vessels are therefore expected to arrive with clean ballast and Masters are asked to certify that all tanks and lines have been thoroughly washed unless "load on top" techniques are being operated.

CRUDE/PRODUCT LOADING RATES: The following table shows the crude products available at each berth and the nominal loading rates:

Cargo	*Available at berths*	*Nominal t.p.h.*	*Maximum potential*
Crude Oil	Sea Island 20 and 21	15,000	
Crude Oil	11, 12, 15 and 16	7,200	12,000
Crude Oil	2, 4 and 5	3,800	7,000
Crude Oil	3 and 6	3,200	5,000
Crude Oil	1 and 10	2,800	2,800
Heavy Fuel Oil	11, 12, 15 and 16	2,000	
Heavy Fuel Oil	4, 5 and 6	2,700	
Heavy Fuel Oil	3	1,100	
Heavy Fuel Oil	1, 2, 9 and 10	500	
Light Fuel Oil	11, 12, 15 and 16	600	
Light Fuel Oil	3, 4, 5 and 6	1,100	
Light Fuel Oil	1, 2, 9 and 10	500	
Admiralty FO	3, 4, 5 and 6	1,200	
Diesel Oil	11, 12, 15 and 16	250	
Diesel Oil	1, 2, 3, 4, 5 and 6	500	
Diesel Oil	9 and 10	250	
Gas Oil	1, 3, 4, 5 and 6	1,500	
KLD	1, 2 and 4, 11 & 12	1,400	
PPO	1 and 2	300	
KNG	1, 2 and 4, 11 & 12	1,400	
Bulk-LPG	1 and 10	1,000	

Note: All blended cargoes containing crude oil as one of the components can be loaded at any berth.

FUEL: Heavy, light and diesel fuel can be supplied on all berths except the Sea Island, where only heavy fuel is available. Approx. Specifications:

	API	*Viscosity*	*Sulphur content*
Heavy Fuel	15.2–15.8	2,900–3,400	4.0 or less
Light Fuel	19.0–20.0	600	3.5 or less
Diesel Fuel	35.5–36.5	36	1.5 or less

LUBRICATING OILS: The stock of marine products of BP, Shell and Gulf Oil are maintained at Mina-al-Ahmadi and requests indicating the quantities are to be made in advance. All drums are to be handled during deballasting or before loading. Vessels will not be allowed to load more than 9 drums after loading unless under special circumstances and depending on shipping congestion. No bulk luboil delivery service available in Kuwait.

DRY CARGOES: Dry cargo vessels will either discharge into lighters in the anchorage or alongside South Pier at Berths No. 9 or No. 10, subject availability of berths.

Cargo Cranes. Portal cranes of 5 tons capacity on Berths 9 and 10, also a stiff-leg derrick with a lift of 54 tons on Berth No. 10A. However, vessels are expected to have their own cargo equipment ready for use in case this gear is required.

Explosives. Cargo vessels carrying explosives are not allowed alongside piers.

Barges. Company barges available for use in discharging dangerous cargoes or other cargo in the anchorage.

Stevedores. Agents will arrange stevedores to work cargo whilst KOC will provide launch, barge and shore labour.

THE ABOVE INFORMATION IS INCLUDED FOR INTEREST ONLY. IN JANUARY 1979 THE PORT AUTHORITIES AND K.O.C. (KUWAIT OIL CO.) ADVISED THAT DRY CARGO DISCHARGING NO LONGER PERMITTED BECAUSE OF THE CURRENT LPG PROJECT.

K.O.C. CARGO IS NOW BEING DIVERTED TO SHUAIBA ANCHORAGE WHERE DISCHARGING EFFECTED INTO BARGES EXCEPT DURING BAD WEATHER CONDITIONS WHEN VESSELS ARE BROUGHT ALONGSIDE IN SHUAIBA PORT.

MEDICAL: Patients will normally be treated at State Quarantine Clinic, where doctors are on duty between 0800–1200 hrs. and 1500–2000 hrs. daily. In emergencies doctors are available any time. Patients requiring hospital treatment will be transported by Agents to either KOC hospital in Ahmadi or to State hospital in Kuwait. Dental treatment can be arranged by Agents.

FRESH WATER: Fresh water is not normally available except in emergency cases but in the Summer it will be difficult to obtain. However, vessels must send in their requirements well in advance to ascertain possibility of supply from Shuwaikh anchorage. This will be subject to draft restrictions, deviation, delay depending on availability of suitable barges and previous port commitments to other shipping and additional port charges.

DEEP WATER DEPARTURE CHANNEL: A comprehensive survey was carried out to determine the route of the departure channel for the larger and deep draft vessels leaving the port of Mina-al-Ahmadi in a loaded condition. This channel is some 28 miles in length; it extends from the Sea Island Terminal to Madaira Reef and is marked by 21 light buoys and 2 light beacons, one established on Taylor Rock and the other on Madaira Reef. In addition to the above aids, Madaira Reef Light Vessel has been re-positioned further to the East and renamed Ahmadi to act as a fairway mark. Water depth in the departure channel is from 91 ft. to 100 ft. and above. Two shallow patches, one is about 9 miles from Sea Island with a minimum 91 ft. and the second is 14 miles from Sea Island with 92 ft. minimum water. Vessels which by reason of their draft are confined to this deep water channel and consequently hampered in their freedom to manoeuvre, will exhibit the following signals:

(i) *By day.* A black cylinder 4 ft. long by 2 ft. in diameter exhibited where it can best be seen.

(ii) *By night.* Four red lights vertically disposed spaced 3 ft. apart with an all round visibility of 4 miles exhibited where they can best be seen.

The exhibition of these signals in no way absolves any vessel from taking all appropriate action to avoid collision as required by the International Rules and Regulations for Preventing Collisions at Sea, but if a deep draft vessel is in doubt that an approaching vessel is not giving her sufficient room to manoeuvre she should indicate such doubt by giving at least five short and rapid blasts on her whistle.

Vessels having less draft should, when able to do so, give way to vessels exhibiting and sounding these signals and indicate this intention by giving one short blast followed immediately by 1 long blast on the whistle. Normal sound signals for vessels in sight of another should then follow.

Anchoring and fishing are forbidden within the deep water departure channel.

The departure channel is marked by the following buoys and beacons:

Number/ letter	*Type*	*Position N/Lat.*	*Position E/Long.*	*Character*	*Port star-board/ middle ground*	*Vis. (0.85) (miles)*

CUSTOMS: Customs officials will board vessels to inspect log books to ascertain violation of Israeli Boycott Rules and seal the liquor bond during stay in berth. An accurate list of alcoholic drinks in *Bonded Store* only is to be presented to the officials sealing the bond and the seal is not to be broken until vessel leaves the port.

(i) Personal effects mainly required for personal use and not for re-sale or purpose of commercial gain are allowed free of duty. However, all other goods are subject to a 4% ad valorem duty (CIF value). Suppliers invoices and Certificate of Origin are required for clearance.

(ii) Importation and the sale of alcoholic beverages is strictly prohibited.

(iii) All goods for landing from tankers must be declared to boarding Customs Officer and necessary documentation completed.

(iv) Israeli goods, goods made by companies having interest or branches in Israel, Israeli vessels and vessels trading with Israel are boycotted and not allowed entry into Kuwait.

IMMIGRATION:

(i) Nationals of all friendly countries normally allowed to land. Israelis forbidden entry into Kuwait.

(ii) Transit visas should be obtained from Kuwait Embassies and Consulates abroad. However, in emergencies entry visas can be arranged at airport.

(iii) Transit passengers having valid connecting airline ticket to next port are allowed to land without visas up to 24 hours, extendable to 48 hours if required.

(iv) Seamen of all friendly countries normally allowed to land in transit to join vessels, without visas but on Agents guarantee. Advance information regarding names, nationalities, age, sex, etc. is required by Agents in order to facilitate reception and immigration clearance. *N.B.* Thursdays and Fridays are Company holidays.

(v) Seamen allowed to land for hospitalisation, repatriation, transfer, etc., on a written undertaking that all expenses are met by Agents on behalf of Owners.

(vi) Passports must be valid for Kuwait for citizens of all countries. Stateless persons are required to have a visa before arrival in Kuwait.

CONSULS: Most friendly countries maintain Embassies or Consulates in Kuwait Town.

TIME: Kuwait State bases local time on the 45th meridian (GMT plus 3 hours). This time is in force the whole year.

SERVICES: To avoid delay all vessels advised to cable Agent of all their requirements in advance, giving full details:

Repairs

(a) *Ship Repair.* All running repairs are undertaken through local contractors.

(b) *Radar/Radio and Electronic Equipment.* Maintenance service of this equipment is available through KOTC whose engineers/technicians are available for service on request.

Supplies. Supply of chemicals, paints, spare parts and provisions are available through local Agents.

Laundry. Laundry service is available on advance notice.

Oil Inspection. E. W. Saybolt & Co. maintain an independent inspection service.

Seamen Centre. This service is now centred only on South Pier, open to visiting seamen from 0700–2200 hrs. daily. Film exchange facilities are available at the South Pier.

Classification Societies. Lloyds Register of Shipping has a Resident Surveyor in Kuwait and maintains an office with Kuwait Maritime & Mercantile Co., who attend marine and non-marine work. Other societies have non-exclusive surveyors and their services can be obtained through KOTC.

Divers. Divers services are available, including underwater hull cleaning service, through KOTC.

SHORE LEAVE: Ship's personnel and passengers not permitted ashore for any purpose whatsoever until pratique granted. All shore leave is contingent upon compliance with quarantine regulations and, under limited conditions and hours, shore leave may be granted. Masters should consult Agents to obtain the necessary passes.

REGULATIONS:

(a) *Local laws.* The laws of Kuwait are in force at the port of Mina-al-Ahmadi. Masters and crew members are advised for their own protection to abide by them. Comprehensive regulations governing the use of the port are promulgated in Law No. 21 of 1961. Masters of visiting vessels should acquaint themselves with this law.

(b) *Pollution.* The State of Kuwait has stringent laws in force concerning the pollution of the sea by oil. The following are two amended paragraphs of this law:

Paragraph 1, Art. 4. "A person responsible for any pollution as described in Articles 1 and 2 shall be punished by a fine of not less than one thousand and five hundred and not more than six thousand Dinars. In the event of his committing a similar crime within a period of one year from the date of his conviction, such a person shall be punished by a fine of not less than three thousand and not more than six thousand Kuwait Dinars, and in the event of his committing yet another crime within a year from this last conviction he shall be punished by a fine of six thousand Kuwait Dinars".

Paragraph 3, Art. 6. "The person responsible for pollution may suspend the detention order against the ship on payment, as a cash guarantee, of six thousand Kuwaiti Dinars to the official entrusted with the execution of such order."

(c) *Certificates.* All vessels must comply with International Safety Regulations and ensure that ship's certificates, i.e. Safety Radio, Safety Equipment and Load Line are valid. Facilities are available for renewal or extension providing proper notice is given. At least 48 hours should be allowed *excluding* Thursdays, Fridays or other local holidays.

(d) Load Line Regulations are strictly enforced, vessels overloaded will not be allowed to sail and subject to lengthy delay awaiting suitable facilities for pumping ashore. No facilities for pumping cargo ashore from Sea Island are available.

(e) A Cargo Discharge Certificate for cargo loaded from Kuwait each voyage is to be presented to the Customs and Ports in Kuwait through the Agents within 4 months from sailing and these certificates are to be signed and stamped by local Customs officials and authenticated by an Arab Embassy or Consulate in the country of discharge.

PORT TAX: New tax introduced by the State of Kuwait at the rate of 45.25 fils (KD. 0.4525) calculated on ship's g.r.t. and outward clearance is subject to payment of their dues before departure.

Declaration of g.r.t. and n.r.t. details essential to avoid overcharge.

Early Departure Procedure:

EDP Cargo Documentation System is offered to all ships. Those vessels not accepting this system of documentation are unberthed to anchorage to await documentation and therefore subject to delay in sailing until documents are ready and delivered on board by launch. Weather conditions may prolong such delays on occasions.

AGENT: For all tankers loading/discharging or sundry errands on a sole agency basis. Address: Kuwait Oil Tanker S.A.K. (Agency Branch), P.O. Box Fahaheel No. 7055, Kuwait. Telex: 4201, 4202. A/B MINATANK KWT. Tel. 911753/5; 911758/9; 911811. Cables: "Minatank Kuwait."

KOTC Agency is also connected with direct short range telephone VHF system and continuous watch is maintained on Channel 16. Working channels are and can be reached by calling "Minatank". Channel 16, calling only. Channel 26, Agency working. Channel 27, Agency Working.

For dry cargo vessels: See "Shuwaikh".

MINA SAUD: 28.45 N. 48.24E. (See Plan Book)

LOCATION: Mina Saud located just South of Ras Az Zaur approximately 23 miles 244° from Madaira Light Vessel. Terminal connected to field and production centre at Wafra, 31 miles to N.W., by 16-in, and 10-in. oil pipe-lines, and 8-in. gas line.

The most conspicuous object at the terminal is the refinery flare, in position 28° 44′ 13″ N. 48° 23′ 19″ E. Other objects conspicuous to the navigator are: Northern Radio Mast, Lat. 28° 44′ 32″ N. Long. 48° 23′ 38″ E. surmounted by a fixed red light at night; Az Zaur Beacon 28° 44′ 28″ N. 48° 23′ 40″ E. a 30 ft. high frame exhibiting flash every 5 seconds.

OPERATORS: Mina Saud Marine Terminal operated by Getty Oil Company (hereinafter referred to as the Company) 7 days a week. Weather and other circumstances permitting, ships will be loaded, moored and unmoored at all hours of the day. Company representatives available at all times to discuss with Master any problems affecting vessel turnaround.

FLAG: All vessels required to fly Kuwait flag at foremast during daylight hours. Flags may be obtained from Agents.

APPROACHES: Vessels on passage direct to Mina Saud up Gulf should pass about 1 mile South of Madaira Reef light-vessel, thence make good a course of 242° to an anchorage off Mina Saud in 9 fathoms.

DOCUMENTS:

Ship's Manifest.
Bill of Health.
Crew List.
Clearance from Last Port.
Passengers Manifest, if any.
Store List.
Bonded Store List.

Agents are responsible for presentation of oil discharging certificate to Customs authorities as guaranteed by them. All cargo discharge certificates duly attested by Arab Consulate to be sent to the Agents directly.

Cargo documentation carried out by Terminal. Masters will greatly assist Terminal Staff by prompt provision of ship's tank ullages on completion of loading.

PILOTAGE: Vessels boarded by Mooring Master either on approach or at anchorage. Mooring Masters are Licensed Masters Foreign Going. They act in an advisory capacity to Master and have expert knowledge of local conditions.

Mooring Master will pilot the vessel into the berth, supervise the mooring and unmooring, and advise Master with respect to the connecting and disconnecting submarine hose. A ship's deck officer must be on the bridge at all times while ship is manoeuvring, and deck officer must direct ship's crew in all hose handling. During loading operations Mooring Master will act as Company's representative

ANCHORAGE: Centre of anchorage area recommended is in position 090° from Flare 4.3 miles, which has good holding ground with mud and sand bottom.

Prohibited anchorage area defined as follows: beginning at refinery flare 060° 3.5′ thence 180° 1.75′ thence 270° 3.0′ to refinery flare.

MAX. SIZE:

Guidance for Maximum Dimensions:

	Berth No. 1	*Berth No. 2*
LOA	800 ft.	1200 ft.
Beam	No limit	No limit
Max Sailing Draft	41 ft.	52 ft. (56 ft.*)
Max. d.w.t. (for full cargo) approx.	50,000†	approx. 140,000†
Min. depth in berth	43.6 ft.	55.8 ft. (48.5 ft. on inshore bar)
Min. depth on exit route	43.6 ft.	53.8 ft.

*Tidal loading to 56 ft. allowed in suitable conditions.

†Larger vessels are allowed for part cargo or bunkers providing other parameters are satisfied.

HEALTH: Vessels calling at Mina Saud are requested to include the following information.

(1) Name of vessel
(2) Last port of call
(3) Health condition of crew
(4) Validity of Smallpox and Cholera Certificates.
(5) Request for Free Pratique or details or any cases or suspected cases of infectious diseases during the last four weeks.

Free pratique will be considered at the discretion of the Quarantine Officer and vessel must hoist the yellow flag unless informed by Agent or Harbour Control that free pratique has been granted.

RADIO: W/T messages routed via Kuwait Radio, call sign 9KK on

500 kHz. Kuwait radio transmits traffic lists on 450 kHz at 25 minutes past every even hour and on 8525 kHz and 12895 kHz at 35 minutes past every odd hour.

VHF Service maintained by Mina Saud Marine. Listening on Channel 16 (156.8 mHz). Operating hours: 0700 to 1200 and 1300 to 1600 local time.

Masters are requested to advise ETA 72 hours before arrival Mina Saud, and to confirm this when 24 hours distant from the Port.

It will assist if the following information is passed to "Gettymar Mina Saud" before vessel's arrival.

Arrival draft and expected max. sailing draft.

Bunker fuel requirements in metric tons or U.S. bbls. at 60° F.

Cargo requirements in long tons or U.S. bbls. at 60° F.

Confirmation that only clean ballast is to be discharged and expected deballasting time.

ETA should be confirmed 24 hours before arrival.

When berthed at Mina Saud Contact with the shore is maintained by VHF R/T portable units supplied by the Company.

TUGS: None.

READINESS: Notice of Readiness will be accepted by Company within terms of Charter Party or Contract when known, otherwise during ordinary business hours, which shall be between 0700 and 1800 local time except on Fridays and Public Holidays.

Laytime to commence 6 hours after time of acceptance or upon commencement of loading, whichever occurs first, except that when Notice of Readiness received before 1600 hrs. local time the 6 hours shall be continuous, but if received after 1600 hrs. then such 6 hours shall be daylight hours, daylight hours for such purpose being between 0600 and 1800 hrs. local time.

If after giving Notice of Readiness, vessel is delayed in getting into berth or in loading, such delay shall not count as used laytime unless delay shall be due to default of Company. On completion of loading, laytime shall cease upon disconnecting cargo hoses.

Should Company Mooring Master be handed a Notice of Readiness out of business hours and before commencement of loading he will note it as "Received" at that time, for acceptance by the Company at earliest recommencement of business hours, or at time of commencement of loading, whichever shall be first.

If Notice of Readiness given after latest accepted nominated lifting date, laytime shall not commence before commencement of loading.

BALLAST: Vessels must have enough clean ballast to permit safe manoeuvring under any conditions.

Mooring Master will advise when ballast discharge may commence. Inspection of ship's tanks for suitability to receive cargo carried out by Mooring Master or by qualified petroleum inspectors if required.

GEAR: For handling 12 in. and 10 in. strings of hoses ship's derrick should have a minimum safe working load of at least 5 tons. Outreach overside should be at least 5 ft.

2 lengths of 1 in. diameter good quality rope each of 20 fathoms in length should be available for use as slip ropes for flexible hoses.

Reducers should be available for connection of hoses to ship's manifold and to ship's bunker line connection.

Company provides snub lines of manilla and wire rope for hanging off hoses.

In the event that ship's derrick gear is inadequate for loads required, a work barge can be made available. Charge for this barge, including positioning and personnel, is equivalent of 150 U.S. Dollars per hour (approx.).

BERTHING: There are 2 loading berths, each conventional multi-buoy moorings which are connected by a 20 in. submarine line for cargo and a 12 in. submarine line for bunker fuel. Each berth has two 12 in. cargo hoses, and a 10 in. hose for bunkers. Hose connections should be prepared for one 12 in.×150 ASA standard hose on forward side of manifold and one 10 in.×150 ASA standard hose on after side of manifold (10 in. hose is normally utilized for loading cargo after completion of bunkers).

In cases where bunker connection is forward of cargo manifold, (necessitating crossing of flexible 10 in. bunker hose over the top of 12 in. cargo hose) 10 in. cargo connection is prepared forward of 12 in.

The outer berth, 073°-2.6 miles from refinery flare, is equipped to take vessels of up to approx. 140,000 d.w.t. for full cargo. Larger vessels can be accommodated for bunkering only or part cargo. Max. draft allowed is 52 ft. In exceptional circumstances tidal loading to 56 ft. is allowed. See Appendix below.

Appendix A. Mina Saud Tidal Loading Procedure December, 1975: Assuming 1000 ft. ship has berthed. Starboard anchor between 150 ft. and 300 ft. South of starboard anchor marker and one ship's length (1000 ft.) inside, (Course make good 270°T). Starboard anchor ranged along bottom and port anchor let go when 11 – 12 shackles out on starboard. i.e. 1000 ft. West of starboard (allowing for slack). Vessel would be in berth with between 8 – 10 shackles on each anchor.

When letting go at HW with ebb tide and heaving port anchor. V/L should manage to remain in at least 16.4 m. charted depth, heading about 340°T with stern in line with, or to seaward, of manifold marker buoy.

Every effort should be made to pick up port anchor without slacking too much on starboard anchor. Ideally, last shot of port cable is dragged home whilst starboard cable is fairly tight, so that when port anchor is aweigh vessel swings to starboard and presents her port side to the ebb, thus regaining a mid berth position. (Sometimes necessary to put engines ahead in order to clear manifold marker hose buoys).

Pilot should endeavour to have vessel heading North when starboard anchor is aweigh. Vessel should then steam North or slightly West of North in order to maintain a distance of approx. 1000 ft. from starboard anchor marker buoy. Vessel should start turn to starboard (bearing in mind ebb tide) when abeam of starboard anchor marker buoy, and endeavour to turn on radius of about 1000 ft. with starboard anchor marker buoy at centre. A course of 66°T should be made good until deep water is reached. If this procedure is followed, the min. depth should be not less than 16.4 m. (chart datum).

Note: 16.4 m. exists in berth and on exit channel. Close attention must be paid to vessel's position, as depths of less than 16 m. are in close proximity to exit channel.

Vessel should finish loading cargo or bunkers at least three hours before HW. Thus ensuring maximum height of tide for bottom clearance plus ebbing tide for easier control. (Ebb tide usually commences 2 hours before HW).

Divers should be utilised to check clearance at LW or some convenient time before ship is committed to a tidal loading. (In case of tidal anomaly).

16.4 m. must be reckoned governing depth. (53.8 ft.) and "Alaska Getty" must never be loaded to max. draft unless it is certain that she will sail with at least 1.8 m. of tide above chart datum.

For other vessels calculate thus:-16.4 + height of tide then subtract 1 m. Result will be max. allowable draft (only if weather conditions are ideal).

eg. Alaska Getty
16.4
+ 1.8 ht of tide
18.2
1.0 clearance
17.2 allowable draft (56 ft. 05 in.)

It must be borne in mind that mentioned clearances are the absolute minimum that can be tolerated in ideal conditions.

Seismic survey indicates feasibility of dredging or burying pipelines should it ever be necessary and also indicates good anchor holding power potential throughout area. *End of appendix.*

The inner berth, 073°–2.0 miles from refinery flare, has a min. depth of 44 ft. at lowest low water and can accommodate vessels up to 800 ft. in length. Max. draft allowed is 41 ft.

MOORING: *(a)* Port is an open roadstead and ships must be prepared to use main engines, unmoor and leave at any time.

(b) Mooring and unmooring carried out during day or night, as required. Except mooring at Berth 1, during daylight only.

(c) Vessels moored to ebb tide stream at both inner and outer berths.

Resilience in mooring achieved by weight of clump anchor and catenary of chain cable. A quick release hook connects ship's ropes to the buoy.

(d) Both port and starboard anchors should be lowered clear of hawse pipes and ready for instant letting-go from brakes.

Spar buoys established to mark starboard and port anchor dropping positions.

(e) 9 good quality synthetic ropes should be flaked ready for running from the stern. After anchoring, as vessel proceeds astern in Berth, quarter lines are run by Company launch and secured to quick release hooks on quarter buoys.

(f) When securely moored in correct position for handling hoses, each anchor should have about 8 shackles out and it is advisable that tankers using these submarine berths be provided with not less than ten 15 fathom lengths of cable on each anchor.

(g) Masters are requested to ensure that power to deck machinery and sufficient seamen to operate it are immediately available at all times when in berth.

LOADING: Submarine line marked by permanent buoy at each berth, and marker buoys fitted to all hoses.

Recovery of flexible hoses is by fleeting with ship's tackle making use of beckets fitted to recovery chain.

"Ship's Stop" is invariable rule except in an emergency. Ship must give reasonable stand-by time to Mooring Master, 15 to 20 minutes, to alert Terminal staff on shore for closing gauges.

Loading rate at present averages 1,500 t.p.h. Max. 2,000 t.p.h.

MEDICAL: In emergency only. For normal cases, Agent arranges visit to Port Health Doctor.

FRESH WATER: Not available.

FUEL: Bunker fuel (Max. 1500 secs Redwood No. 1 equivalent to 180 Cst.) at loading berths through 12 in. submarine line with single 10 in. flexible hose, at Berth 1, and 10 in. hose at Berth 2.

FIRE PRECAUTIONS: Masters are responsible for enforcing "No Smoking" regulations for their vessels and Mooring Master will stop loading if he considers them to be inadequate or if they are not being obeyed. Smoking in Company craft in the berths is forbidden.

CUSTOMS: Alcoholic beverages strictly prohibited to be held out of bond. Master allowed to keep limited quantity in his cabin.

It is important to remind Owners and Masters that all goods, either landed or embarked, must be cleared by Agent through local Kuwait Government Customs.

Import of firearms and ammunition forbidden.

CONSULS: See "Kuwait."

REPAIRS: No regular repair facilities available. However, fully qualified divers are available from Terminal. Underwater cutting gear and welding equipment available.

Services of divers and equipment are available at rates to be arranged for the job and agreed by Superintendent of Marine and Terminal Operations, Mina Saud.

Repairs to main engines must not be carried out in the berth without permission of Superintendent of Marine and Terminal Operations. Normally vessels requiring to immobilise engines will be anchored well clear of other ships.

REPATRIATION: Crew changes normally effected through Kuwait.

Seamen arriving at Kuwait Airport to join vessels at Partitioned Zone ports can obtain transit visa at the airport, providing Agents have arranged to submit the necessary guarantee to the Immigration Authorities confirming that they are in transit and joining vessels in the Kuwait Sector of the Partitioned Zone. In order to meet the crew at airport and arrange transit visa, cables confirming their arrivals and flight numbers are to be sent to Agents to reach them at least 24 hours before the arrival of the crew.

Marine Superintendent of Owners, or Owner's representatives and businessmen visiting Kuwait must have valid visas. Such visas can be obtained from Kuwait Government's diplomatic missions aboard.

TIME: GMT plus 3 hours. Permanent.

WEATHER: In Summer months of June, July and August light to moderate Northerly and North-westerly winds are general rule at Mina Saud. Occasional strong N.W. winds of Gale force. Strength and duration governed by strength of S.W. monsoon blowing outside the Gulf.

During Autumn and early Winter months fine weather is generally experienced associated with moderate N.E. monsoon prevailing outside the Gulf. Occasional 'Shamals' (N.W. winds) occur.

In late Winter period and Spring, strong S.E. winds with moderately heavy seas frequently experienced at Mina Saud. These are due to approach of low pressure systems from Atlantic and Mediterranean Sea spreading Eastwards across Levant and Iraq.

TIDES: Tide cycle is combination of diurnal and semi-diurnal tides giving a Higher High, Lower High, Higher Low and Lower Low waters during a 24 hour period.

Range of tide is average 7.5 feet at Springs and 5 feet at Neaps.

Commencement of ebb stream (direction 190°) after High water may be taken as 2 hours before predicted time of High water at Mina Saud published in Admiralty Tide Tables.

Main direction of flood and ebb streams are 010° and 190° respectively. Direction is extremely variable between Lower High Water and Higher Low Water period. Average direction during this period about 045°.

Tides subject to meteorological conditions and may be affected in height by more than 3 ft. in extreme circumstances. Times of High and Low water may also be considerably affected.

The Mooring Masters have access to information from the Marine Meteorological Station at Mina Saud.

STORES: Provisions and stores are available from Kuwait. Requirements should be arranged with Agents through Kuwait Radio prior to arrival at Mina Saud.

SHORE LEAVE: Can be arranged through agent.

AUTHORITY: Getty Oil Company, Mina Saud.

AGENTS: See "Shuwaikh."

Communication is by road by personal visit of agency staff. Distance about 50 miles.

SHUAIBA: 29.02 N. 48.08 E. (See Plan Book)

PORT LIMITS: Shuaiba port limits defined as follows:

North: This separates port of Shuaiba and Mina-al-Ahmadi and is defined by the point of intersection of the coast line with Lat. 29° 02′ 50″ N. in an Easterly direction until it intersects Long. 48° 09′ 42″ E. Thence in a South-easterly direction to the intersection of Lat. 29° 02′ 45″ N. and Long. 48° 09′ 47″ E. Thence in an Easterly direction along Lat. 29° 02′ 45″ N. seawards to Long. 48° 15′ 07″ E.

East: Long. 48° 15′ 07″ E.

West: Coast line.

South: This separates port of Shuaiba and Mina-al-Abdullah and is defined by the point of intersection of the coast line with Lat. 29° 01′ 45″ N. Extends due East till Long. 48° 09′ 59″ E. and runs on 45° direction to Lat. 29° 02′ 00″ N. then due East on that line until Long. 48° 15′ 07″ E.

All vessels within Port Limits should fly their national flag at the after part of the vessel and the Kuwaiti national flag at the fore.

DOCUMENTS: 10 copies of Cargo Manifest (3 copies duly signed by Agent at loading port) and one copy each of hatch list and stowage plan. Also 2 copies of Crew List to be presented to Customs Office.

N.B. A copy of complete set of Inward Manifests and a copy of the Stowage Plan covering cargo for discharge at Shuaiba has to be passed to Authorities by Agents at least 24 hours before vessels expected time of arrival, otherwise berthing likely to be delayed.

PILOTAGE: Pilotage is compulsory and requests for Pilots should be made to Shuaiba Port Communications Centre (call sign "Shuaiba Port" on Channel 16).

ANCHORAGE: Lat. 29° 02′ 24″ N., Long. 48° 12′ 18″ E. Depth is 18.5 m. with good holding ground.

MAX. SIZE: See "Berthing".

HEALTH: Vessels calling at Shuaiba are requested to send the following information to "Health Shuaiba Port".

(1) Name of vessel
(2) Last port of call
(3) Health condition of crew
(4) Validity of Smallpox and Cholera Certificates
(5) Request for Free Pratique

Free pratique will be considered at the discretion of the Quarantine Officer, and vessels must hoist the yellow flag unless they are informed by Shuaiba Port Communications Centre that free pratique has been granted.

RADIO: Submit ETA well in advance and confirm ETA 24 hours before arrival to Agents or Harbour Master through Radio Kuwait (9KK). When within range ships should contact Shuaiba Port Communications Centre ("Shuaiba Port") on Channel 16. The Port Communications Centre maintains a 24 hours watch on Channel 16 and will allocate either Channel 13 or 9 as a working frequency. ETA's should contain details of arrival draft.

TUGS: 3 tugs of 2,100 h.p. are available. The use of tugs is mandatory whenever directed by the Pilot or Harbour Master.

BERTHING:

The port consists of 3 main parts as follows:

Main Cargo Quay Mole: Permits berthing of ships on both sides. The Eastern side consists of 2 berths Nos. 4 and 5 having a total length of 350 m. The Western side consists of 3 berths: Nos. 1, 2 and 3 having a total length of 500 m.

Berth No. 1	maximum allowable draft	8.4 m.
Berth No. 2	,, ,, ,,	9.75 m.
Berth No. 3	,, ,, ,,	10.67 m.
Berths No. 4 and 5	,, ,, ,,	6.7 m.

Usage of berths 4 and 5 is restricted to good weather conditions only.

Small Craft and Barge Harbour: Situated South-west of the Main Cargo Quay Mole and comprising 3 berths accommodating vessels of less than 4 m. draft:

(i) Berth No. 1	Length	100 m.
(ii) Berth No. 2	,,	200 m.
(iii) Berth No. 3	,,	175 m.

Berth No. 3 is reserved for fishing vessels.

Oil Pier: Situated in deep water to the East of the main cargo quay mole and is connected to the Main Quay by an approach pier of 1,000 m. length. The Oil Pier consists of 4 berths, Nos. 1 and 3 on the North-easterly face of the Oil Pier, Nos. 2 and 4 on the South-west face. Dolphins are situated at the Northerly and Southerly ends of the Oil Pier to facilitate the berthing of larger tankers without difficulty. Oil products such as fuel oil, marine diesel, kerosene, aviation fuel, naphtha and gasolene can be loaded. Liquid ammonia can also be loaded at the Oil Pier.

Tankers of the following lengths and drafts can be accommodated at the Oil Pier as follows:

Oil Pier No. 1 up to 300 m. in length, draft 13.71 m.
Oil Pier No. 2 up to 213 m. in length, draft 12.19 m.
Oil Pier No. 3 up to 300 m. in length, draft 13.71 m.
Oil Pier No. 4 up to 213 m. in length, draft 12.19 m.

Tankers of more than 300 m. in length, but restricted to a draft of 14.02 m., will be considered by the Authority but strictly on a case-by-case basis.

The allocation of berths is at the sole discretion of the Port Manager.

The Harbour Master's Office, Port Communications Centre, Customs, Immigration and Port Health are all situated at the Main Cargo Quay Mole.

SHORE FACILITIES: Main Cargo Quay Mole: Berths 1, 2 and 3 are equipped with 5 travelling electric cranes of 3 and 5 tons capacity.

All berths are fitted with bunker lines for fuel and fresh water.

STEVEDORES: Stevedores will be provided by ship's Agent. Vessels will be required to maintain a minimum daily tonnage dependent on the type of cargo they are carrying.

Permission for the landing of heavy lifts on the quay must be obtained from the Port Manager each time in advance. On the quay pieces up to 300 tons have been discharged.

MEDICAL: Advance notice required if medical attendance needed on board.

DENSITY: 1025.

FRESH WATER: All berths fitted with fresh water connections and a fresh water barge will shortly be available. Vessels can obtain water according to requirement.

FUEL: The Kuwait National Petroleum Co. KSC, Kuwait, supply marine fuel and diesel oil at cargo wharves and oil jetty at Shuaiba. Specifications as under:

	FO 1500	*FO 600*	*MDO*
Ash % wt. max.	0.5	0.5	0.01
Pour point ° C (° F.) max.	10 (50)	2 (50)	2 (35)
Specific Gravity 60/60 ° F max.	0.99	–	–
Sulphur % wt. max.	3.8	3.5	1.8

Bunker nominations may be arranged through Kuwait National Petroleum Co. (U.K.) Ltd., 25 St. James Street, London S.W.1: cables: "Kunpetco", London S.W.1. Telex: 261998 or KNPC, PO Box 70 Safat, Kuwait. Telex: KNPC 2006 KT, KNPC 2689 KT and KNPC 2457 KT. Tels: Kuwait 449400, 443486, 437427. At least 3 days notice required.

Facilities on main quay mole for bunker fuel, gas oil and marine diesel oil in berths 1 through 5. No barges.

DEVELOPMENTS: The Port of Shuaiba will be extended by adding another finger pier and a marginal berth. The first phase, starting from December, 1976, will consist of a marginal multi-purpose berth and three finger berths. Water depth for all berths will be 14 m.

The extension consist of a piled trestle of 108 m. in length which incorporates a mooring dolphin, a piled berthing structure of 282 m. in length providing one berth on its seaward side for tankers of max. 13.7 m. draft and one berth on its landward side for tankers of max. 12.8 m. draft and a piled trestle and mooring dolphin at the Southern end of 56 m. in length.

GANGWAY/DECK WATCHMEN: Watch to be maintained by ship's crew.

OPENING/CLOSING HATCHES: Opening and closing of hatches normally carried out by stevedores on liners, and by ship's crew on charter vessels.

CERTIFICATES: All usual documents such as:

Ship's Manifest.
Crew List.
Clearance from Last Port.
Passenger Manifest.
Store List.
Bonded Store List.
SOLAS Certificates.
Bill of Measurements, etc.

CUSTOMS ALLOWANCES: Tobacco. No restrictions. Wine and/or Spirit. Alcoholic beverage strictly prohibited to be held out of bond. Master allowed to keep limited quantity in his cabin.

IDENTIFICATION CARDS: Passport or seamen's book necessary.

CONSULS: See "Shuwaikh".

REPAIRS: Small repairs can be arranged if sufficient notice is given.

DRY DOCK: No dry dock available.

REPATRIATION: Can be arranged. Entry visa regulations have been enforced in Kuwait, and the following is roughly the procedure in respect of crew changes.

1. Seamen arriving at Kuwait Airport to join vessels at Kuwait and Partitioned Zone ports can obtain transit visa at Airport if Agents arrange to submit necessary guarantee to Immigration Authorities confirming that they are in transit and joining vessels calling at Kuwait and/or Partitioned Zone. Agents meet crew at airport and arrange transit visa, cables confirming their arrivals and flight numbers are to be sent to Agents to reach them at least 24 hours before arrival of crew.

2. Marine Superintendent of owners, or owners' representative and businessmen visiting Kuwait must have valid visas. Such visas can be obtained from Kuwait Government's diplomatic missions abroad.

TIME: GMT plus 3 hours.

HOLIDAYS: New Year's Day (1st January), Kuwait National Day (25th February). The following Islamic holidays are celebrated but dates are subject to alteration: Prophet's Birthday, Prophet's Ascension, Eid Al Fitr, Eid Al Haj and 1st Muharram.

TELEPHONES: Telephone sockets fitted on North side of Main Quay Mole for convenience of vessels requiring a telephone on board.

SPECIAL SERVICES: The services of Classification Society Surveyors, Tank Cleaning Operators, Compass Adjusters, Divers and Underwater Cleaning and D/F Calibration Adjusters are available in the area.

SHORE LEAVE: Permitted.

PORT REGULATIONS: The following are excerpts of some of the more important port regulations:

Fire fighting appliances to be kept in readiness for immediate use.

Pumping or discharging in any way into the sea oil fuel tanks, bilges, dirty ballasts, etc., is prohibited.

Disposal of garbage over the side of the ship into the harbour is prohibited.

The presence of a Pilot on board a vessel shall not relieve the Master of his responsibility regarding the safety of the vessel. The Port Authority shall have the right to claim against a vessel for any damage caused by that vessel to berths, shore installations, tugs, buoys, etc.

The Harbour Master or his deputy may order a vessel to leave the berth at short notice in the case of emergency, bad weather, etc.

Vessels carrying explosives or dangerous cargoes must declare quantities and categories of same when they report their ETA.

Crew members are prohibited from swimming within the harbour.

Lowering into the water of ship's life-boats, launches or life-rafts is prohibited without the written approval of the Harbour Master or his deputy.

Mooring of ship's life-boats, launches or life-rafts to navigational marks and buoys is prohibited.

Due regard shall be given to the safety of divers when they are working within the Port Limits. Engines should be stopped when approaching their working area at a circle of 150 m. The launch attending divers displays the International flag letter "ABLE" during diving operations.

AGENT: For dry cargo vessels only: International Shipping Agency Limited, POB Safat No. 20637, KIC Building, 1st Floor, Safat Square, Kuwait, State of Kuwait. Tel. 441860 to 441862. Telex: 2208 (answerback "Isaship KWT") and 2396 (answerback "ISATUG KT"). Cables: "Shipagent, Kuwait").

In the case of tankers agency services are provided by the Kuwait Oil Tanker Company.

SHUWAIKH (Kuwait Harbour): 29.21 N. 47.56 E.

(See Plan Book)

PORT LIMITS: According to the General Port Rules (1959) the Seaward Limits comprise all waters in the area confined by line drawn in direction 000° from Ras Al Ajuza, (Lat. 29° 23′ 27″ N., Long. 48° 00′ 24″ E.) to the parallel of Lat. 29° 30′ 00″ N. Hence in direction 230° to Ras Al Ashairij Lat. 29° 23′ 15″ N., Long. 47° 51′ 00″ E. For the seaward boundaries of the Port within which a vessel is considered to be on "arrived ship", refer to "Anchorage".

DOCUMENTS:

Customs:

2 Copies of Crew List and passengers, with their nationalities.
1 copy of Store List.
1 copy of Crew Personal Property List.
Deck Log Book (if vessel calling first time, then all the log books which are available on board).
1 copy of Customs form (which will be given by Customs).

Immigration:

2 copies of Crew List with their nationality.
2 copies of Passenger List (if passengers on board), with their nationality.
All seamen's books or Crew/Passengers Passports.
A certificate signed by the Master, stating that there are no Stowaways on board.

Quarantine:

1 copy of Crew List.
1 Copy of Vaccination List.
All Vaccination Books.
1 set Quarantine Forms (which will be given by Quarantine Officer).

Port Clearance:

Ship's Registry.
Load Line.
Safety Equipment Certificate.
Safety Radio Certificate.

Port Surveyor:

Valid Liferaft Certificate (with annual renewal and survey).

Co-ordination Office: The listed documents below, should be handed to the Co-ordination Office, at least 48 hours before the ship's arrival.

6 copies of the Cargo Manifest, 3 copies duly signed by the Agent at loading Port.
1 copy of the Cargo Stowage Plan.
2 copies of Cargo List, in detail.
2 copies of Dangerous Cargo List.
1 copy of Transit List.

PILOTAGE: Pilotage service available and request for Pilot should be made to Port Signals Station, or to look-out Signal Station when in use. Ships proceeding through the dredged channel to Shuwaikh are boarded by the Pilot in the anchorage. Pilotage not compulsory in the outer anchorage.

ANCHORAGE: Ships may take up anchor berth in the outer anchorage, without the Pilot.

Because of congested anchorage, and for the benefit of all concerned, the outer anchorage (BA Chart 1214) was divided in the areas, and the approach waterway of three quarters of a mile in width from Ras Al Ardh to anchorage and vice versa, is left free for navigation.

Ships bound for Kuwait, in order to *discharge their cargo* should anchor in the area marked by the following co-ordinates, and in the depth of water, according to their drafts.

Lat. 29° 25.0′ N.	Long. 47° 58.7′ E.
Lat. 29° 27.0′ N.	Long. 47° 58.7′ E.
Lat. 29° 27.0′ N.	Long. 48° 02.5′ E.
Lat. 29° 25.0′ N.	Long. 48° 02.5′ E.

Ships which have *no cargo* for Kuwait, and calling only for fresh water, provisions, crew changing, transhipments or any other reason, but discharging cargo, should anchor:

North of Parallel 29° 25.0′ N. and East of meridian 48° 03.0′ E.

If mentioned anchorage area described is congested the ship could take temporary anchorage:

North of Parallel 29° 24.0′ N. and East of Meridian 48° 05.5′ E.

But change their position to the area described, immediately as opportunity occurs.

The ship should leave the anchorage immediately after they have received the facilities, and proceed to the anchorage of the Port, they are bound for.

Ships which have received instructions of possibility of berthing in the morning, should change their position to the area reserved, marked by the following co-ordinates:

Lat. 29° 25.0′ N.	Long. 47° 57.6′ E.
Lat. 29° 27.0′ N.	Long. 47° 57.6′ E.
Lat. 29° 27.0′ N.	Long. 47° 58.7′ E.
Lat. 29° 25.0′ N.	Long. 47° 58.7′ E.

When the movement is confirmed the vessel should hoist:

By Day: "G" Flag over a Black Ball or Shape.
By Night: A White Light over a Red Light, visible all round.

Note: (1) The Master shall advise the Harbour Master and/or the Pilot for any damage or disability to the ship under his command, *before berthing.*

Ship unable to comply with the berthing instructions, should notify the Harbour Master in ample time of their inability to do so, by VHF, Visual Signals or via Kuwait Radio:

500 kHz 9 KK 4 – 6381 kHz
450 kHz 9 KK 6 – 8525 kHz

Any ship sailing from the outer anchorage for any reason, should notify the Kuwait Harbour Control that she is sailing and give the reason *and not adhering to any instructions from the Agent.*

The Area North of Parallel 29° 25.0′ N. and West of Meridian 47° 57.6′ E., is reserved for ships of *National*

Fleet, who require repairs, waiting for orders, changing the crews, etc.

(2) The Harbour Master may direct any vessel to move from one berth to another, or vacate a berth as circumstances demand.

(3) a. A ship whose turn is defined in the Morning Meeting, and whose Agent is notified, and upon calling her no reply is received shall be prohibited from her turn for *3 days*, and after its elapse will be given another turn.

b. A ship which is defined as a temporary one on the record in the Morning Meeting, and upon calling, is not ready shall be prohibited from taking her turn for *2 days*, after which it will be given a normal turn.

c. A ship which is registered and then sails, if she delays her return for her specified turn for berthing will be prohibited for *15 days*, as delay penalty.

MAX. SIZE: Max. draft at berths Nos. 1 to 8, 31 ft. 6 in. (32 ft. at Spring tides), and 27 ft. at dolphins. These drafts allow 2 ft. of water under the keel. Tidal range is about 2.8 m. (9 ft.). Berthing draft dependent upon tidal conditions at time of arrival, and vessels exceeding 27 ft. have to wait for tide.

HEALTH: Vessels calling at Shuwaikh Port must send the following information to "Health Port Shuwaikh" by cable:

(1) Name of vessel
(2) Last port of call
(3) Health condition Crew members
(4) Validity of Smallpox and Cholera Certificates
(5) Request for Free Pratique

Vessels arriving at outer anchorage must hoist Q Flag, and keep it hoisted until Free Pratique is granted.

Free pratique will be granted usually at anchorage, and in some cases alongside, at the discretion of the Quarantine Officer.

No person, except the Pilot, shall board the vessel, before Pratique is granted.

RADIO: *Signal Station:* (Call Kuwait Harbour Control)

There is Lookout Signal Station at Ras Al Ajuza (Lat. 29° 23.3' N., Long. 47° 59.8' E.) and a Port Operation VHF/RT Service at the same position. The VHF/RT is a Single Frequency Simplex Service, operating in Channel 13 (156.650 mc/s), 12 (156.600 mc/s) and 11 (156.550 mc/s) working restricted to messages relating to the Movements and Safety of Ships.

All Vessels arriving, should establish contact with either one of these Stations as soon as possible by VHF or Visual Signals:

Tel: 443788 – 435873 Telex: 2733

Kuwait Coastal Station (9 KK) operates from 0600 hrs. up to 2400 hrs.

Radio Station:

2182 kHz	8802.4 kHz
2765 kHz	13182.5 kHz
2750 kHz	17328.5 kHz
4434.9 kHz	22699.0 kHz
6518.6 kHz	

Radio Telegraphy – 9 KK:

9 KK	9 KK 2 — 4299 kHz
500 kHz	9 KK 4 — 6381 kHz
450 kHz	9 KK 6 — 8525 kHz
	9 KK 8 — 12895 kHz
	9 KK20 — 12925 kHz
	9 KK22 — 16995 kHz
	9 KK23 — 22304 kHz

For Kuwait: Only English and French languages are accepted, for the other countries all languages are accepted.

Marine Communications

This Service links the ship directly with their Agent or Principal in Kuwait and the Call for this Branch is "Kuwait Maritime".

The "Kuwait Maritime" Service covers all the ship's calls with Kuwait and abroad.

The procedure is as follows:

Agent to Ship

Call by telephone No. 108 Kuwait Maritime, asking for connection, giving the Name of the Ship, and her Call Sign.

The Kuwait Maritime operator will contact the ship for you on Channel 16 (156.800 mc/s) and then transfer to vessel's frequency for communication.

Ship to Agent or Abroad

Call "Kuwait Maritime" on VHF Channel 16 (156.800 mc/s) and ask to be connected to Agent or abroad.

HARBOUR MASTER'S REQUIREMENTS:

Masters of all vessels calling to Shuwaikh Port (Kuwait) are requested to notify the Harbour Master by cable, 24 hours prior of their arrival via Kuwait Radio, in addition to their ETA and draft, the following:

Ship's Discharging Gear in order (most important).

Cargo which cannot be handled by Ship's Gear (if any).

Any Explosives, Inflammable or Hazardous Cargo.

If such cable is not received a questionnaire issued by the Harbour Master, should be duly filled and signed by the Master of the vessel, prior to berthing, which will be presented by the Ship's Agent, after the "Free Pratique" is granted.

This could cause delays in List Turn.

When approaching "Anchorage" the vessel should hoist the ship's "Call Sign" and "Quarantine Flag".

Masters should advise the Harbour Master of any special damage of disability to the ship under his command before berthing. A ship when entering or navigating the Dredged Channel, shall have both anchors ready for immediate use.

REGISTRATION PROCEDURE: (To register turn for berth, before proceeding to another Port).

On arrival at Kuwait Anchorage, Master to contact Kuwait Harbour Control by VHF or Visual Signals stating his wish to register.

The vessel should not leave until the registration is confirmed by Kuwait Harbour Control, which accepts registration 24 hours a day.

A stowage plan and manifest must be shown to the Port Authority before Registration.

TUGS: Join vessel entering dredged channel, Tug's lines used. The use of tugs by ships manoeuvring within Shuwaikh port limits under direction of Harbour Master or Pilots. Number of tugs used for each movement: *(a)* 2 tugs for ships exceeding 400 ft. in length. *(b)* 1 tug for ships between 250 ft. and 400 ft. in length.

6 tugs available, 2 of 750 h.p., 1 of 1,000 h.p. and 3 of 1,400 h.p. Use of tugs is compulsory.

BERTHING: The present Port consists of 18 deep water wharfs each 190–200 m. long.

14 of these berths have −10 m. depth (B.A. Chart Datum), and remaining 4.0 – 8.50 m.

2 dolphin berths with depth alongside of −8.50 m. below B.A. Chart Datum, and capable to take ships up to 185.0 m. in length.

3 shallow berths with depth alongside of 6.65 m. below B.A. Chart Datum, and capable of taking ships up to (1 × 121 m. and 2 × 195 m.).

Ships may under certain circumstances and at the Port Authority discretion, divert to Shuaiba Port, during the congestion periods.

There are 3 basins known as:—

Small Craft Harbour:	431.58 m. × 91.43 m.
Yacht Basin:	76.19 m. × 76.19 m.
Maintenance Basin:	118.86 m. × 82.90 m.

The entrance to Small Craft Harbour and Yacht Basin is 60.95 m., and to Maintenance Basin is 41.45 m.

These Basins are dredged to a depth of −3.35 m., and are used at present mainly by Barges, Tugs, Launches, Yachts, Security Boats and Navigational Aids Craft.

Berth turn is decided at a port meeting, held in the morning on all port-working days. With the exception of the dolphin berths, berthing takes place any hour, day or night.

1. Notification of vessels arrival. According to port regulations a questionnaire issued by the Harbour Master, duly filled in and signed by the Captain of the vessel, is to be submitted to the port prior to berthing. In many cases vessels arrive and obtain berth immediately and thus there is no possibility of presenting the questionnaire to Authorities in time. In order avoid berthing delays Masters should cable following information to the Harbour Master directly, 48 hours before arrival:
   (a) ETA.
   (b) Total cargo for discharging Kuwait.
   (c) Distribution quantity each hatch.
   (d) Declaration hazardous, inflammable and explosives cargo, and guns and ammunition.
   (e) Declaration all vessels winches in good working condition and cargo clear for discharging at Kuwait.
   (f) Draft fore and aft.

We quote below specimen cable covering the above:

"Vessel XXX ETA Kuwait 21/8 0600 local quantity discharging 1,400 tons general hatch one 300 hatch two 300 hatch three 250 hatch four 300 hatch five 250 no hazardous, inflammable explosives guns ammunition stop All winches derricks good working condition draft fore 24 ft. Aft 27 ft.".

The above cable sent to the Harbour Master will facilitate berthing vessel on time. ETA to be reconfirmed before 24 hours, if any change.

2. Vessels with a cargo of up to 400 measurement tons will be given priority alongside pier.
3. Vessels carrying up to 500 tons weight will be given priority to discharge at the buoys providing heavy lifts do not exceed 20 tons, or vessel does not carry reefer cargo.
4. A vessel that intends to stay in the anchorage in Kuwait until her turn will be allowed to shift over-stowed cargo while waiting.
5. Liners carrying cement in bags will still be considered as liner ships. Thus they will not be taken out to wait their turn at the cement berth.

CRANES:

Berth		*3 Tons*	*6 Tons*	*Grain Elevator*

Maximum Loads on Wharves:

Berth No. 1	3 tons per sq.m.
Berth No. 2-8	600 lbs. per sq.ft.
Berth No. 9-18	3 tons per sq.m.
Fishing Piers	1.5 tons per sq.m.

STEVEDORES: Aboard ship will be provided by the Agent. Labourers in barges and ashore will be provided by the Port of Kuwait but under ship's responsibility as for breakage, pilferage, etc.

Working Hours: 0600-1300, 1500–2230; Overtime 1300-1500, 2200-2400 hrs. Overtime is compulsory for all vessels. On Fridays, only work on vessels which are to be completed during the day.

DISCHARGE RATES: Allowing for stoppages, non-working periods, etc. and, considering 4 or 5 gangs employed, the average discharging rates are as follows:

Tanker cargo (fuel oil)	300 t.p.h., 7,200 tons per day.
Bulk cargoes (grain)	150 t.p.h.
General cargo	300–400 tons per day.
Cement	1,750–2,000 tons per day.
Bag cargoes	800–1,000 tons per day.
Steel (bundles)	600–750 tons per day.
Timber (soft wood)	500 tons per day.
Timber (Teak wood)	400 tons per day.

MEDICAL: Masters to radio prior arrival if medical attendance required on board. Hospital facilities available.

A rescue vessel, 90 ft. and 20 knots speed, equipped with surgery, operating theatre and all medical appliances is maintained by the Ministry of Health.

DENSITY: 1.028 (Winter); 1.036 (Summer).

FRESH WATER: Berths Nos. 1–7 have fresh water connections and water can be supplied by pipe-line. Rate 20/25 t.p.h.

In addition to water available alongside the berths by pipe-line and hose, water may be supplied by barge to ships alongside dolphin berths.

KNFC water tenders with capacity 1,200 tons and 200 tons are also authorised to supply vessels in outer anchorage, on request of Shipping Agents. There are 3 companies supplying water to the ships in outer anchorage.

FUEL: No coal bunkers are available.

In addition to the full facilities afforded at Mina-al-Ahmadi and Shuwaiba, light bunker fuel oil specific gravity 0.9339 – viscosity 570 sec. (300 t.p.h.), and marine diesel oil, specific gravity 0.8448 (200 t.p.h.), can be supplied alongside the deep water berths Nos. 1 to 7, while vessels are discharging, and provided nomination for supply has been made to K.N.P.C. London Office, B.P. Trading Ltd., or Gulf Eastern Co., London.

Gas oil, specific gravity 6.83, (25 t.p.h.) available on No. 6 and No. 7 berths.

Small quantities of gas oil may be supplied by tanker truck to the berths and lubrication oils are available.

FIRE PRECAUTIONS: Shuwaikh Fire Brigade is responsible for all fire fighting in port areas and storage areas. There is also a fire station situated near the Small Boat Harbour, where the 3 fire fighting tenders are berthed. A salt water main for the fighting services is laid at all berths. There are two 90 ft. fire fighting tenders capable of pumping 5,000 gallons of water per minute from 4 nozzles. In addition they can pump 900 gallons of foam per minute. The 98 ft. fire fighting tender is capable of pumping 9,000 litres of water per minute and 650 litres of foam, and the capacity of her pump is 4,500 litres of water or 143.5 litres of oil. The tender has 8 nozzles for water and 2 nozzles for foam. These modern fire-fighting units are equipped with radio, radio-telephone, radar etc.

DEVELOPMENTS: The Port will extend to the North-East and North providing an extra 26 berths and depths up to 42 ft. at A.C.D. Also the channel for tow-ways, depth up to 33 ft. at A.C.D. will be enlarged.

GANGWAY/DECK WATCHMEN: Available, but not necessary in port area.

OPENING/CLOSING HATCHES: Opening and closing of hatches is normally carried out by the stevedores on liners, and by ship's crew on charter vessels.

CUSTOMS ALLOWANCES: Tobacco: No restrictions. Wine and/or spirit allowance: Alcoholic beverage is strictly prohibited to be held out of bond. Master allowed to keep limited quantity in his cabin.

CERTIFICATES: A survey of life rafts may be carried out unless vessel's safety certificates indicate that life rafts were surveyed less than 12 months previously.

CARGO GEAR: Ship's gear and cranes used for discharging. Slings can be hired from the port.

IDENTIFICATION CARDS: Passport or seaman's book necessary.

TELEPHONES: Cannot be arranged on board.
PROVISIONS: All kinds of food available at reasonable prices.
SERVICES: Swedish Welfare for Seamen. Lloyd's Surveyor. Butterworth Tank Cleaning Machines and Equipment and also under-water cleaning.
SHORE LEAVE: Permitted.
REGULATIONS: The State of Kuwait has stringent laws in force concerning the pollution of the sea by oil. The following are two amended paragraphs of this law:

Paragraph 1, Art. 4. "A person responsible for any pollution as described in Articles 1 and 2 shall be punished by a fine of not less than one thousand and five hundred and not more than six thousand Dinars. In the event of his commiting a similar crime within a period of one year from the date of his conviction, such a person shall be punished by a fine of not less than three thousand and not more than six thousand Kuwaiti Dinars, and in the event of his committing yet another crime within a year from this last conviction he shall be punished by a fine of six thousand Kuwaiti Dinars".

Paragraph 3, Art. 6. "The person responsible for pollution may suspend the detention order against the ship on payment, as a cash guarantee, of six thousand Kuwaiti Dinars to the official entrusted with the execution of such order."

The Master shall advise the Harbour Master and/or Pilot of any special damage or disability to the ship under his command before berthing or unberthing.

A vessel in outer anchorage receiving a Movement Order in writing, by signal or VHF, and awaiting the Pilot, shall carry:
By day: "G" Flag, over a black ball or shape.
By night: A white light over a red light.

Ships that receive instructions to berth at specified hours and not adhering to these instructions could lose their turn and be liable to pay charges for the time lost at the berth, and facilities arranged for and not used due to such delay.

Ships that receive instructions to unberth at specified hours and not adhering to these instructions, i.e. retarding the movement of incoming ship, will be liable to pay charges for time lost at the berth and the facilities for the incoming ship, and not used, due to such delay.

Ships unable to comply with the berthing or unberthing instructions should notify the Harbour Master in ample time of their inability to so do by VHF, visual signals, personally or through Agent.

A ship entering or navigating within the dredged channel or inner basin shall have at least 1 anchor ready for immediate use.

The Master of a ship alongside Shuwaikh wharf or dolphin berth, shall ensure that:

(a) Vessel not allowed to use VHF to any vessel except to call Kuwait Harbour Control or Kuwait Maritime.

(b) A safe and proper accommodation ladder to the quay is provided, adequately lit during the hours of darkness.

(c) A Quartermaster or watchman is stationed on deck, in charge of the ship's gangway, who shall inform the Master or the Duty Officer whenever required by the Port Authority Officials, and shall check that no authorised persons will enter the officer's or crew's accommodations.

(d) The crew or watchman to attend the mooring ropes and lines, and shall cause their adjustment from time to time, as necessary on the rise and fall of the water.

(e) That no substance, matter or material is thrown overboard, either into the water or on to the wharf.

(f) That no engine repairs are undertaken which would prevent the movement of the vessel under her own power, without first obtaining the permission of the Harbour Master.

(g) That all pipe discharges on that side of the ship nearest to the wharf are either adequately and properly covered to prevent their effluent falling on to the wharf, or their use discontinued while the ship remains alongside.

(h) It is forbidden to jettison or ballast other than clean water or pump out the bilges or oil of any description within the port limits.

(i) All ships loaded with petroleum or crude oil at the wharf shall have the end of a steel hawser of sufficient strength, paid out to the water edge, at the offshore bow and quarter, to enable tugs to take the vessel to place of safety with the least possible delay.

(j) The Master shall at all times retain on board sufficient crew to work his ship.

(k) Ratguards to be fixed to all ship's mooring ropes.

(l) The Master shall not shift his vessel while alongside the wharf, prior to receiving permission from the Harbour Master or Berthing Master.

(m) The Master shall not connect water hoses to the water supply points and take water on board before receiving permission from the person in charge of water distribution.

(n) The Master shall report to the Harbour Master or Berthing Master any incident, accident or unusual happening on board his ship.

The Master not complying with the above-stated Port Rules, shall be liable to suffer the penalties prescribed for contravention.

Warning: Port tugs are supplied with nylon and polypropylene hawsers, which require particular attention when securing to ship's bollards, in order that they do not slip. Extra turns than normal on the bollards are recommended.

Ships that receive instructions to unberth at specified hours and do not adhere to these instructions, i.e. retarding the movement of incoming ship, will be liable to pay charges for time lost at the berth and the facilities arranged for the incoming ship, and not used due to such delay.

Ship unable to comply with the berthing or unberthing instructions should notify the Harbour Master in ample time of their inability to do so, by VHF, Visual Signals, personally or through Agents.

Ship's Life Boats:

In the Harbour: It is prohibited to use the ship's boats for transportation or boat-drill.

In the Outer Anchorage: It is permitted to use the ship's boats for transportation, but the crews land *only at Niga's Dhow Harbour* situated in Lat. 29° 22.7′ N. Long. 47° 58.2′ E. and every Crew member must have in his possession a valid passport or seaman book.

TIME: GMT plus 3 hours.
AUTHORITY: Government of Kuwait, Ministry of Communications.
AGENT: International Shipping Agency Limited, POB Safat No. 20637, KIC Building, 1st Floor, Safat Square, Kuwait, State of Kuwait. Tel. 441860164. AO 510901. Telex: 2208 (Answerback "ISASHIP KWT"). and 2396 (Answerback "ISATUG KT"). Cables: "Shipagent Kuwait".

NOTES

Please also advise Shipping Guides Ltd.

Lebanon

BEIRUT (Beyrouth): 33.54 N. 35.30 E.

DOCUMENTS:

Manifests should be visaed by Lebanese Consul at ports of shipment, or at any port *en route* where there is a Lebanese Consul. If on account of non-existence of Lebanese Consul at ports of shipment or at any of these *en route* the manifests are not visaed, then such consular visa dues are collected at Beirut.

5 Copies of Cargo Manifests.
2 Store Lists.
5 Passenger Lists.
2 Lists of Cigarettes and Tobacco. (See "Customs Allowances").

PILOTAGE: Agent arranges Pilot via Harbour Master. Agent therefore to be kept well informed of ETA, 48 hrs. and 24 hrs. prior arrival. Pilot boat white with red funnel. Sound signals, 2 long and 1 short or contact can be made via VHF to Harbour Master. Pilot boards outside main breakwater. Assistance of Pilot outside daily normal hours, Sundays and official holidays, will be cost calculated at 100% more. Official normal working hours for pilotage station as follows: from 1st October up to 30th April, 0700 till 1700 hrs.; from 1st May up to 30th September, 0700 till 1800 hrs., For tankers outside harbour, the pilotage dues will be 100% extra.

ANCHORAGE: In roads outside breakwater.

RESTRICTIONS: No particular restrictions. Pilot normally available between sunrise and sunset otherwise by special agreement.

MAX. SIZE: Max. draft in port 13 m. No limitation to breadth or length.

HEALTH: Health Authorities board in roads. Health form obtainable from Agent or doctor. Smallpox and yellow fever certificates required for ships coming from Far East and Red Sea. Owners should check with Agents respecting any recent imposition of anti-epidemic regulations and requirements for additional injections for Crew members.

RADIO: Cables via Beirut Radio to and from Agent.

VHF: VHF Channels 13 and 16, Frequency 156.6 and 156.7.

TUGS: Tugs of 1,000 h.p. join vessel inside port when necessary. Ship's lines to be used.

BERTHING: If port congested priority given to vessel already registered. Passenger-tourist vessel and cargo for Army have priority. Harbour capable of berthing 24 ships simultaneously and 3 moored on buoys, discharging into barges. All discharging is by ship's gear.

Dock No. 1. Surrounded by quays Nos. 1,2,3. Depth of water varies between 3 and 8 m. Parts of quay No. 1 and quay No. 2 with 3 m. depth of water are reserved for floating units of port company and for launches of Harbour Master and pilotage service. Slipway of 1,000 tons capacity and workshops.

Dock No. 2. Surrounded by quays Nos. 4,5,6,7, with water depths varying between 8 and 10.5 m. On quay No. 5 berthing priority is given to passenger ships, while the other quays are for cargo vessels.

Dock No. 3. Surrounded by quays Nos. 8,9,10,11, with depths varying between 10.5 and 13 m. All these quays can berth ships bringing general cargo. At quay No. 8 of 13 m. depth, priority of berthing is given to grain ships.

Grain Silo At the present time bulk grain ships are unloaded by means of removable suction machines, which can be installed on the ships and deliver the grain to lorries for direct transport. There is a 60,000 metric tons capacity silo. Ships will be unloaded by means of 2 gantry type suction machines, mobile on rails with a capacity of 6×100 t.p.h. An eventual extension is already designed which would increase capacity of silo to 105,000 tons.

Containers: A ship's Master advises that containers should be loaded on one side of the vessel and vessel berth that side to the berth as crane unable to reach outboard side.

STEVEDORES: Ordered by Agent. No ETA to Stevedores necessary. Working hours, 0800-1200, 1300-1600. Otherwise overtime on Sundays and on official holidays.

MEDICAL: Master to advise Agent by cable prior to arrival if medical attendance required.

DENSITY: 1025

FRESH WATER: The port company has equipped all quays with hydrants. Ships moored on buoys can also be supplied with water from cistern barge. By shore installation or by barge. Delivery rate 20/25 t.p.h. Outside harbour double price per barge.

FUEL: Fuel, gas oil, diesel obtainable. 48 hrs. notice required.

FIRE PRECAUTIONS: Special berths for tankers.

DEVELOPMENTS: Discussions about a fourth basin.

GANGWAY/DECK WATCHMEN: Available and recommended.

OPENING/CLOSING HATCHES: For liners, by stevedores, otherwise per agreement.

CUSTOMS ALLOWANCES: (Tobacco) 40 cigarettes per Crew member (Master 2-3 cartons). Customs very strict, and will search crew cabins. Regulations are as follows:

1. That the quantity of tobacco to be allowed on board vessels upon their arrival at a Lebanese port, will be fixed on the basis of 2 packets per Crew member, passenger per day and to be calculated on a maximum period of 4 months, if the vessel emanates from an American, Asian or African port -not central Africa; and for 2 months if the vessel last port of call is in Europe, Central Africa or Mediterranean, which will be deducted from the quantity, and, on the same basis the consumption by the Crew members and passengers during their trip, and this to start from the last port of call, until arrival at a Lebanese port. That the number of passengers to be taken into account on a tourist vessel, will be the number of berths the vessel can accommodate and not the number of passengers actually on board. As to cargo vessels, the actual number to be accounted for will only be the Crew members and the Master of the vessel.

2. In the event that it is the first call of the vessel at a Lebanese port and not aware of such regulations, and it was found onboard her an excess quantity to the actual one allowed, as indicated above, a Proces Verbal will be established for the excess quantity found and the cigarettes placed under seal. An undertaking is also to be obtained from either the Owners and/or her Agents to the effect that they will submit a certificate, within 1 month, to be issued by the relevant Customs Authorities of the next port of call of the vessel after a Lebanese port. While the seizure on the vessel will be lifted when a Bank Guarantee equalling the amount of fine and dues is placed, or a personal guarantee from the Agent – if solvable – and in the event that the undertaking is not fulfilled the usual penalties will be inflicted according to the Law.

3. In the event the vessel is aware of such restriction, and for one reason or another, she is carrying an excess quantity, this excess must be, as per offical regulations, shown on the manifest legalised and issued at the last port of call touched by the vessel prior to Beirut. Any excess found over and above such declaration will be considered as smuggling and the law will be applied.

Wine and/or Spirits: 1 bottle per Crew member. Captain allowed 3/4 bottles.

CARGO GEAR: Ship's gear to be used but mobile cranes can be hired. Shore cranes except for mobile cranes only available at quay No. 9 and 11. Floating crane of 120 tons available.

IDENTIFICATION CARDS: Shore pass given to each Crew member. Passport and seaman's book to remain in Captain's care.

CONSULS: Most countries have consulates.

REPAIRS: Most types of repairs carried out.

DRY DOCKS: None except for 500/1,000 tonner.

REPATRIATION: Very good facilities for repatriation.

AIRPORT: About 10km. distant, served by regular airlines.

TIME: GMT plus 2 hrs. Summertime, GMT plus 3 hrs.

HOLIDAYS:

Holidays	*Date*	*Days*
New Year's Day	January 1	1
Al-Adha (Kurban Bairam)	Varies	2
Ashoura	"	1
New Year (Islamic)	"	1
Arab League Day	March 22	1
Good Friday	Varies	1
Easter Monday	"	1
Good Friday (Orthodox)	"	1
Easter Monday (Orthodox)	"	1
Labour Day	May 1	1
Martyr's Day	May 6	1
Ascension Day	Varies	1
Mohamed's Birthday	"	1
Assumption Day	August 15	1
All Saints' Day	November 1	1
Independence Day	November 22	1
Ramadan	Varies	2
Christmas Day	December 25	1

Port closes completely: New Year's Day, Al-Adha, Easter Monday, Labour Day, Independence Day, 1st day of Ramadan and Christmas Day. On other holidays, day work in port carried out against overtime payment.

POLICE/AMBULANCE/FIRE: Telephone numbers: Police 16, Ambulance 18, Fire 17.

TELEPHONES: On request by shipping agency, berthed ships can be connected to telephonic network of city.

SERVICES: Tank-cleaning equipment. Facilities for discharge of tank-washings, compass adjusting, laundry, etc., available.

SHORE LEAVE Crew allowed onshore.

DELAYS: 1. Unavailability of berth or barges due congestion mainly during Winter months (December to April). 2. Vessel already registered will lose turn if not returned to port in time. 3. Barge ordered for bunkering might be occupied if vessel's arrival delayed.

SHIPMASTERS REPORT: 1978.

Navigation Buoy: "The buoy off the end of the breakwater has been replaced in approximately the same position as the original buoy. The present buoy is painted green with a 'cone top mark'. Although the buoy is a light buoy the flash was not observed. On no account should the vessel pass between the end of the breakwater and the buoy as rubble is being dumped to extend the breakwater. The actual dumping position is marked.

The local Pilots are now working VHF Channel 16 from the Harbour Office".

AGENT: Gulf Agency Co. (Lebanon) Ltd., PO Box 4392, Beirut, Lebanon. Cable address: "Gacship" Beirut. Telex 20906 (Answerback "GAC 20906 LE" or Athens 216344. Telephones, 296733, 256516. AO 453957. Office in El Arz Street, Modern Building.

CHEKAA: 34.20 N. 35.43 E.

Port is used for cement loading and discharge of sulphates.

ANCHORAGE: Safe anchorage in Chekaa Bay.

MAX. SIZE: Draft up to 26 ft. 6 ins. (in calm weather) alongside quay. In event of swell, vessel required to leave quay and anchor in bay.

LOAD/DISCHARGE: 800/1,000 metric tons per 24 hours.

AGENT: See "Beirut".

RAS SELAATA: 34.16 N. 35.39 E.

Port is used for discharge of sulphates and sulphuric acid.
MAX. SIZE: Up to 21 ft. draft (in calm weather) alongside pier which has 2 cranes.

AGENT: See "Beirut".

SIDON 33.30 N. 35.21 E. (See Plan Book)

GENERAL
BERTH No. 1 HAS BEEN TAKEN OUT OF SERVICE AND ALL MOORING BUOYS HAVE BEEN REMOVED. THE SUBMARINE LINE IS STILL THERE.

BOTH THE WHITE AND THE RED SEABUOY ARE MISSING.

OPERATORS: Trans-Arabian Pipe-line Company, Sidon Terminal. The Company transports crude oil from Saudi Arabia via pipe-lines and exports from terminal South of Sidon (Saida). Terminal operates 24 hrs. a day, 7 days a week.
FLAG: All vessels required to fly Lebanese Ensign on foremast during daylight hours. Lebanese flags may be obtained from ship's Agent.
LOCATION: Sidon Terminal is open, unsheltered roadstead, situated immediately North of Zahrani River, about 5 miles South of city of Sidon (Saida), Lebanon. It is approximately 35 miles South of Beirut, and 17 miles North of Tyre.
DESCRIPTION: Terminal's Tank Farm consists of 23 storage tanks situated East of terminal at 360 ft. (average) above sea level. Marine and administrative offices, a laboratory for testing stocks, 2 large and 2 small storage tanks all located within area just above sea level. An "L"-shaped pier for harbouring Company's marine craft extends approximately 1,000 ft. from shore near Southern end of berthing area.
NAVIGATIONAL AIDS: Terminal sea buoy approximately 1 mile Westward of mooring berths in 98 ft. of water. Position 33° 32′ 02″ N.; 35° 19′ 16″ E. Buoy painted white and exhibits flashing white light every 4 seconds (flash 0.3 seconds, eclipse 3.7 seconds). Lantern 11 ft. above water and visible 8 miles. Mooring Master will board vessels within 2 miles to Westward of this buoy. Vessels should not enter inside restricted area described by a line joining South-west buoy and North-west buoy with terminal sea buoy unless so directed by Mooring Master.

Radio beacon tower located 1,200 ft. back from beach, South-east of moorings. Occulting red light (about 30 flashes per minute) mounted on top, elevation 184 ft. above sea level; position 33° 30′ 04″ N.; 35° 20′ 31″ E. Tower also marked with 2 sets fixed red lights located respectively 45 and 90 ft. below occulting red light. Radio beacon is automatic and operates on 24 hr. basis on frequency of 296.5 kc/s, with "SAD" as the identifying call sign. It will signal 2 times over a 10-second period and then give a constant 1,000 cycle tone for 72 seconds. Tower is of cage-type construction, painted red and white. About 2.5 miles South-west of terminal sea buoy and approximately 2 miles offshore is rocky shoal with approximately 32 ft. of water over it. Outside this shoal is a lighted buoy, painted red, in 51 ft. of water, showing flashing red light every 4 seconds (flash 0.3 seconds, eclipse 3.7 seconds). This buoy moored in 33° 30′ 21″ N.; 35° 18′ 04″ E. Lantern 11 ft. above water and visible 5 miles. Vessels approaching from Southward should keep offshore until radio beacon tower bears 100° true before hauling-in.

"Sailing Directions for the Mediterranean" (U.S. Navy Hydrographic Office Publication No. 154A Vol. IV) reads in part: "*Caution:* As the coast between Saida and Tyre, 20 miles South-South-westward, is bordered in places by rocks and shoal water extending as far as 1 mile offshore, it should not be approached closer than 1.5 miles, nor within depths of less than 16 fathoms."

Unlighted, white painted spar buoys mark North-west and South-west corners of restricted area. North-west buoy in 78 ft. of water and located approximately 33° 33′ 35″ N.; 35° 21′ 13″ E. South-west buoy in 57 ft. of water and located approximately 33° 30′ 20″ N.; 35° 19′ 36.5″ E. During darkness terminal range lights and mooring buoy marker lights may be visible. These lights are located inside the restricted area.

A conspicuous water tank (painted in black and white vertical bands) on a tower located 33° 29′ 27″ N.; 35° 21′ 10″ E., the top of which has elevation of 460 ft. above sea level. Location is seaward of centre oil storage tanks.

There are a number of smaller radio towers to North-west and South-west of beacon tower. South of terminal, at Medreco Refinery, is a conspicuous black stack located 33° 29′ 31″ N.; 35° 20′ 08″ E. A little further North-west from this stack is a tall pipe painted aluminium with a flare on top at 33° 29′ 35″ N.; 35° 20′ 03″ E.
DOCUMENTS:
Health Declaration: International Health Form to be filled out by Master on arrival.
Cargo Manifest: No cargo arrival manifest required, as same usually prepared by local Agent.
Clearance: No clearance required.
Crew List: 4 copies required on arrival.
Passenger Manifest: If any passengers on board.
Store List: 2 copies.
Bonded Store List: 2 copies. Present regulations at Sidon Terminal allow each seaman to retain in his possession a maximum of 40 cigarettes or the equivalent weight of tobacco or cigars. The balance of all smoking items must be collected and carefully listed prior arrival. This list will be checked by Customs before sealing lockers. If any discrepancies, vessel subject to a fine.

PILOTAGE: Vessels to be moored at Sidon will be boarded by Mooring Master of Company within 2 miles to seaward of terminal sea buoy. Mooring Master will advise Ship's Master on approaches to berth, mooring, unmooring, connecting and disconnecting submarine hoses and in all other operations within berthing area. All manoeuvring of ships within berthing area shall be done only in accordance with advice of a Tap-line Mooring Master, subject to the understanding that in all cases and circumstances Master of the vessel being manoeuvred shall remain solely responsible, on behalf of vessel's owner, for safety and proper manoeuvring of vessel. Ship's Master or qualified deck officer must be on bridge at all times while ship is manoeuvring.

Vessels must have a pilot ladder safely and securely rigged, and all vessels over 45,000 d.w.t. should have an accommodation ladder rigged in combination with pilot ladder for safe boarding of Mooring Master and Government officials. Pilot ladder should be abaft and close to accommodation ladder so that Mooring Master, after climbing a few steps, can use accommodation ladder for remaining climb. Since hoses handled on port side at Sidon, it is advisable to rig ladders on starboard side. If at night, adequate lighting must be rigged over-side for Mooring Master to approach side of ship and climb ladder safely.

Note: Vessels having special rigs, such as hoisting equipment on short sections of pilot ladder, are not required to rig pilot/accommodation ladders per the above.
ANCHORAGE: For vessels awaiting berth, good anchorage just W.S.W. of terminal sea buoy in 16 to 20 fathoms, sandy bottom. Vessels should under no circumstances anchor North of terminal sea buoy as depths are excessive for safe anchoring.
MAX. SIZE: Berths Nos. 1 and 4 depths 47 ft., and berths Nos. 2 and 3 depths approx. 67 ft. Tankers up to 150,000 d.w.t. or approx. 55 ft. draft are considered max. size which should be handled during Winter months at Sidon, and then only if vessel meets all of below recommended requirements. Otherwise, vessels of over 100,000 d.w.t. should not be nominated for liftings at Sidon during period November-March.

Based on previous experience, sudden and severe storms of long duration are not expected from April through October. Vessels over 150,000 d.w.t. may, therefore be accommodated during this period. However, prior to acceptance of nomination of vessels over 150,000 d.w.t. Tapline requires advance information regarding max. draft, vessel's equipment and location of manifold in reference to distance from stern of vessel which should not exceed 450 ft. Acceptance or rejection will be made after evaluation of above data by Sidon Marine personnel.

Summary of Recommendations for Vessels over 40,000 d.w.t.:

1. Capable, efficient and reliable anchor windlass(es).
2. Fifteen shots on starboard chain – thirteen shots on port chain are satisfactory.
3. Mooring wire winches, 1 on aft well deck, 3 on poop deck, 200 fathoms wire on each, with adequate number of manila or synthetic ropes to double up as needed.
4. Capability of lifting 16 in. hose string – 6.5 tons static weight.
5. Suitably located hang-off bits.
6. Capability of keeping vessel in a reasonable safe ballast condition (November-March) by permanent ballast or loading while deballasting, or a combination of both.
7. Ship's manifold located not more than 400 ft. from stern.

HEALTH: Rules governing quarantine of vessels are same as found in other ports.
RADIO: *(a) Facilities.* Tapline has own ship-to-shore radio telegraph, and VHF radio telephone station at terminal. This station is not open to commercial traffic. Services limited to traffic between Tapline and tankers within 3 days' sailing time from terminal. Messages to or from tanker agents classed as "Commercial" and must be routed via Radio Orient, a commercial radio station. Its call sign is ODR.

Sidon Radio, call sign ODA 3, transmits (CW) on 8502.5 kHz at 0700, 1100 GMT, the traffic list; 12840 kHz at 0730, 1130 GMT, the traffic list; 424 kHz for traffic upon request. Listens on 8534-8374 kHz for replies and calls and on 8374 for traffic. Will listen on 8476 kHz for traffic upon request; 12531-12561 kHz for replies and calls; 425, 454, 468 and 480 kHz upon request. Keeps watch only between 0500-1300 GMT on 500 kHz.

Radio Orient Beirut, call sign ODR, transmits (CW) on 8702 kHz and 13101 kHz simultaneously half-past each hour beginning at 0630 until 2130 hrs. GMT, the traffic list; 524 kHz each hour beginning at 0600 hrs. until 2100 hrs. GMT, the traffic list. Listens on 8534–8374 kHz and 12531–12561 kHz for replies and calls each hour from half-past the hour until the hour; 500 kHz 0600 to 2200 hrs. GMT and 425, 454, 468 and 480 kHz from the hour until half-past the hour for replies and calls. Keeps watch only between 0600–2200 hrs. GMT on 500 kHz.

(b) Advice of Arrival. It is important that ships establish radio contact with Tapline Station ODA3 when 3 days distant from Sidon and maintain this contact at regular intervals until just prior to arrival at the terminal. All ships should send a 72-hour ETA message to Tapline, giving the best estimate of ship's arrival time, a statement of bunker requirements and other relevant information. Shorter notice may result in berthing delay. Further ETA messages should be sent when vessel is 24 hours and 12 hours distant and to cover any other time changes occurring in the original ETA or those subsequent thereto. The 12-hour ETA should include a statement regarding "ship's readiness to load" on arrival, and time required to discharge clean ballast after ship is moored. A further contact when 4 hours away is desirable for exchange of weather data and

mooring schedule. Vessels failing to give minimum of 12 hours arrival notice may be subject to delays in acceptance.

(c) Ship-to-Shore Communications. Ship-to-shore communications, while ships are in moorings, will be by portable VHF radio units used by the Mooring Master only. The use of the ship's radio station (except Channels 16-14) and/or battery charging equipment is prohibited for safety reasons during cargo transfer operations.

In the event of normal ship-to-shore communications failure, the (ship's) emergency whistle signal should be used.

(d) Radio Message. Upon first contact with inbound tanker, ODA3 will transmit a detailed message of advice.

It is important that a reply to this message be sent soonest after receipt. Also requested that all vessels forward their local weather observations to this station while approximately 100 miles and again 50 miles Westward of Sidon when approaching and also upon departure during period November 1 to March 31. This data is used to assist in preparation of terminal weather forecasts and radio contact may be useful in event Tapline needs to furnish any information to vessel after its departure.

VHF: Tapline VHF radio telephone system operates on international Channels 14 and 16, 156.7 mc/s and 156.8 mc/s respectively. Channel 16 used to establish contact while all traffic handled on Channel 14. Tapline guards these channels on a 24 hour basis, and contact can generally be made at distances up to 100 miles from terminal. Conversations on these channels will be carried out in English language only.

Mooring Master only will be in direct charge of portable VHF ship-to-shore radio communications.

BERTHING: 5 buoys in berth No. 1 and 7 buoys in each of berths No. 2, 3 and 4. During winter months vessels over 40,000 d.w.t. usually moored in berths No. 2 or No. 3. These berths approx. 1 mile to 1.5 miles from shore. Berths numbered 1 to 4 from South to North. Vessels moored on 1 heading (West) basis using both bow anchors with max. possible spread of anchors to increase ship's anchor beam holding components. Ship's stern moored to cylindrical buoys fitted with release hooks, using 7 ropes (or wires) to respective mooring buoys. Permanent moorings consist of 7 steel cylindrical buoys in each berth. (5 buoys in No. 1 berth.)

Certain mooring buoys in all berths fitted with 1.5 in. diameter preventer wires, one end of which is secured to mooring buoys. When required, other end is brought on board vessel by a messenger line after ship moored in position. Preventer wires supplemental to ship's regular moorings during adverse conditions. Ships should have chain stoppers for handling these wires.

BALLAST: Masters are warned that no dirty ballast or bilge water may be discharged within an area extending 100 nautical miles seaward of the Lebanese coastline. All pipe-lines, sea suctions, strainers and pumps that are to be used for the discharge of clean ballast must be flushed clean prior to entering the 100 mile zone. Except for oil retrieved under "load-on-top" procedures, Masters must assure themselves that all oil tanks, pipe-lines and pumps are free of all traces of oil.

The terminal has no facilities for receiving oily ballast. A vessel must have sufficient ballast for safe manoeuvring. However, by carefully watching the weather, especially in the Summer months, by frequent interchange of weather information and berthing instructions, and, by a knowledge of the behaviour of his own vessel, a Master may desire to arrive at the terminal with min. ballast thereby lessening any possibility of infringement of the pollution restrictions of this section, and also reducing time in berth.

As soon as practicable after arrival and prior to acceptance, all the vessel's tanks will be inspected for evidence of oil in ballast tanks. Inspection will continue during discharge of ballast. If evidence of oil appears at either of these inspections, the ship must return at once to a point not less than 100 miles from the coastline and there accomplish the necessary tank cleaning. Any vessel required to return to a position at least 100 miles offshore for the purpose of discharging dirty ballast, cleaning tanks or for any similar reason, automatically nullifies any Notice of Readiness already tendered, and at the same time loses any priority held for loading. On return from sea, vessel will be entered for loading at the time of the second arrival, when a new Notice of Readiness will be tendered.

Vessels discharging dirty ballast within the prohibited 100 mile zone may be subjected to action by the Lebanese Government. In addition, ship's owners and charterers will be promptly notified of any violation.

Masters are also warned that ship's garbage or trash should not be dumped within 50 miles from the Lebanese coast.

LOADING: *(a) Readiness:* Tenders to load will normally be accepted and berths assigned to vessels in order of arrival, provided vessels have nominations for cargo valid at the time, carry clean ballast and are in all respects equipped and ready to moor. In event berthing delayed on account weather, vessels will ordinarily keep their loading priority in order of arrival. Vessels required to leave port area on account of weather (port closed), should keep in contact with terminal via radio in order that they will be available when weather moderates. Company will make every effort to load vessels on arrival, or as promptly as berth is available, weather permitting. Notice of readiness will not be accepted unless vessel ready to load. Arrival time will be considered as time Mooring Master boards vessel underway or time vessel anchors, whichever occurs first.

(b) Connecting-up. Ships loaded by means of submarine pipelines. Weight of the 16 in. hose in No. 2 berth about 6.5 tons; weight of 12 in. hose in No. 3 berth about 5 tons; and weight of 12 in. hoses in No. 1 and No. 4 berths about 4 tons. Hoses lifted by ship's gear on port side. Detail of flange templates shown in drawings below. Ships should provide manifold fittings to allow connection of flanges shown.

DETAIL OF 16", 12", 8" & 6" HOSE CONNECTIONS FROM SUBMARINE HOSE TO SHIP

8" FLANGE TEMPLATE
150# A.S.A. RATING

6" FLANGE TEMPLATE
150# A.S.A. RATING

Mooring Master advises ship's personnel in lifting, connecting, disconnecting and lowering of hoses. A ship's deck officer must be present, and must direct ship's crew in all hose handling. There must be sufficient crew on deck to perform this work.

(c) Rates: Loading is by gravity flow from tank farm which is approximately 360 ft. above sea level. Loading rates as follows (approximate maximum):

	Rates (BPH)	
Berth	*With 1 Hose*	*With 2 Hoses*
1	17,000	29,000 (12 in. hoses)
2	40,000	70,000 (16 in. hoses)
3	27,000	43,000 (12 in. hoses)
4	25,000	37,000 (12 in. hoses)

Order save ship's time and to ballast vessel as quickly as possible, as well as to make berth available for others, it is requested that ships receive oil as fast as it can be delivered, with due regard for safety. The removal of any restrictions, such as strainers, etc., is recommended.

MEDICAL: Neither medical nor hospital facilities provided by Tapline. Private doctors and hospital facilities available at Sidon and Beirut. Agents acquainted with situation and can make necessary arrangements.

If unable make radio contact, then vessels requiring emergency medical assistance should hoist International Code Flag "W" in daylight, and at night, send "W" (· – –) on blinker light to attract immediate attention, the same signal "W" (· – –) should be given on ship's whistle in either day or night hours. Signal should be repeated until acknowledged visually by either another ship in berth; from shore station or from Company launch. As soon as signal is received, terminal officials will advise ship's Agent as soon as possible of the emergency medical aid required.

DENSITY: Salinity of the sea is same as open Atlantic Ocean. Temperature ranges from 60°F. to 85°F. (15.6°C to 29.4°C.) depending on season.

FRESH WATER: Not available.

FUEL: Bunker fuel loaded at rate of 3,000–5,000 b.p.h. through 8 in. deck hose. Bunker connection should be located near ship's cargo manifold. Ships calling at Sidon to load crude oil should arrange for bunker fuel nominations through one of the offtaker companies well in advance of arrival. Bunker fuel will not be delivered until Tapline has received a firm nomination. Bunker fuel will be loaded as promptly as circumstances permit, but Tapline assumes no liability for any delays incurred by a vessel in berthing or loading bunker fuel. Maritime lubricants available, through marketing representatives in Beirut by arrangement through Agents.

PRECAUTIONS: *(a) Valve Control.* Ship's valves must not be closed against the oil stream.

(b) Emergency Signal. When, and if normal ship-to-shore communications fail, the emergency signal to stop oil flow will be a continuous blast on ship's whistle, until oil ceases to flow. Steam or air should never be shut off from the whistle during loading. Whenever emergency whistle is used, all loading operations in all berths will be shut down until communications can be established with vessel giving the signal. For this reason, it is requested that ships in the area refrain from using their whistles for other purposes.

(c) Readiness to Leave Berth. Port is considered an "open roadstead", and under no circumstances may engine be shut down for repairs while ships moored in submarine berths. Vessels in submarine berths must be able to clear, and shall clear immediately upon advice of Mooring Master. Ship's engine and gear must therefore be ready at all times with full power for immediate use.

(d) Loading and Deballasting Simultaneously. Properly equipped vessels will be encouraged to discharge clean ballast and load oil simultaneously. This capability is especially necessary during unsettled weather order keep vessel reasonably ballasted.

REPAIRS: No facilities.

CONSULS: Two consulates at Sidon, one Italian and one Norwegian. Consular or diplomatic representatives for most nations maintain offices in Beirut.

OFFICIALS: Lebanese officials, such as Customs Director, Quarantine Officer, Immigration Officer, Captain of the Port and Police, stationed at Sidon. Should Customs guards be stationed on board while in berth, it is expected that ship will provide food for these guards and other officials.

SHORE LEAVE: Arranged between Agent and Lebanese Security Officer aboard vessel. Ship's personnel (other than emergency or medical cases) not allowed to disembark at terminal. All personnel going ashore must land at Sidon where small boats must cross a shallow and sometimes impassable bar. Delays have been caused to vessels whose personnel have been unable to rejoin their ship. Sufficient personnel must be aboard at all times for letting go lines so that vessel can clear berth whenever required.

GENERAL: *(a) Mooring Wires and Winches.* Use of mooring wires to powered drums for all vessels calling at Sidon is strongly recommended. Because there are no mooring tugs available, a ship's ability to moor during marginal weather conditions is dependent upon its ability to warp itself into position. Vessels with capable wire winches and deck mooring equipment that are able to place 1 or 2 mooring ropes on a windward mooring buoy, usually able to moor without difficulty. Vessels over 40,000 d.w.t. should have mooring wires to powered drums, 1 on aft well deck and 3 on poop deck. The wires should be 200 fathoms in length and so secured as to be easily let go from ship if necessary.

(b) Ropes. Vessels should have 2 suitable, best quality mooring ropes of 200 fathoms each located on aft part of after well deck for use on either port or starboard side, 3 (min.) suitable, best quality mooring ropes of 200 fathoms each and 3 additional ropes of 150 fathoms each on poop deck plus properly located warping winches and bitts. Vessels equipped with mooring wire winches on poop deck may reduce required "additional" ropes accordingly. Wires are not used on port side of aft well deck due to possible fouling of wire with hose or pipe-line underwater facilities. In this position a suitable, best quality mooring rope must be used. 2 ropes of 200 fathoms each recommended, to be used on either side while mooring, and used on port side only for securing ship in berth.

AUTHORITY: Trans-Arabian Pipe-line Company.

AGENTS: Gulf Agency Co. (Lebanon) Ltd., Sidon, Lebanon. Cables: "Gacship", Sidon. Tel. 720715. AO 453957. Telex: 20906 Beirut or Athens 216344.

For communication and operational reasons address all your correspondence and cables to head-office in Lebanon: Gulf Agency Co. (Lebanon) Ltd., POB 4392, Beirut, Lebanon. Telephones: 256516, 296733. Cables: "Gacship", Beirut. Telex: 20906 (answer back: GAC 20906 LE.) or Athens 216344.

TRIPOLI: 34.28 N. 35.49 E. (See Plan Book)

(a) DRY-CARGO PORT.

Manifests should be visaed by Lebanese Consul at ports of shipment, or at any port *en route* where there is a Lebanese Consul. If on account of non-existence of Lebanese Consul at ports of shipment or at any ports *en route* the manifests are not visaed, then such consular visa dues are collected at Beirut.

DOCUMENTS:

1 Legalised copy of Cargo Manifests.
5 copies of Cargo Manifests.
2 Store Lists.
5 Passenger Lists.
2 Lists of Cigarettes and Tobacco (see "Customs allowances").

PILOTAGE: Agent arranges with Harbour Master, therefore keep Agent closely advised ETA. Harbour Master may also be contacted on VHF Channel 13 (frequency 156.6) and 16 (frequency 156.7).

ANCHORAGE: Good anchorage.

MAX. SIZE: Depth at entrance 22.5 ft. Max. draft alongside berth 22 ft. 6 in.

HEALTH: Health authorities board in roads. Health form obtainable from Agent or doctor. Smallpox and yellow fever certificates required for ships coming from Far East and Red Sea. Owners should check with Agents respecting any recent imposition of anti-epidemic regulations and requirements for additional injections for Crew members.

RADIO: Cables via Beirut Radio to and from Agent.

BERTHING: New pier about 600 m. length. 2 berths. 4 shore cranes suitable for vessels up to about 7,000 tons only. 2 heavy-lift cranes, capacities 25 and 50 tons. Lighters available for discharging alongside vessel. Ship's gear often used for discharging.

STEVEDORES: Ordered by Agent. No ETA to stevedores necessary. Working hours, 0800–1200, 1300–1600, otherwise overtime included on Sundays and on official holidays.

MEDICAL: Master to advise Agent by cable prior to arrival if medical attendance required.

DENSITY: 1025.

GANGWAY/DECK WATCHMEN: Available and recommended.

OPENING/CLOSING HATCHES: For liners by stevedores, otherwise per agreement.

CUSTOMS ALLOWANCES: Tobacco. 40 cigarettes per crew member. Customs very strict, checking crew cabins. Regulations are as follows:

1. That the quantity of tobacco to be allowed on board vessels upon their arrival at a Lebanese port will be fixed on the basis of 2 packets per crew member, passenger per day, and to be calculated on a maximum period of 4 months, if the vessel emanates from an American, Asian or African port – not Central Africa; and for 2 months if the vessel's last port of call is in Europe, Central Africa or Mediterranean, which will be deducted from the quantity, and on the same basis the consumption by the crew members and passengers during their trip, and this to start from the last port of call until arrival at a Lebanese port.

That the number of passengers to be taken into account on a tourist vessel will be the number of berths the vessel can accommodate and not the number of passengers on board. As to cargo vessels, the actual number to be accounted for will only be the crew members and the Master of the vessel.

2. In the event that it is the first call of the vessel, at a Lebanese port and not aware of such regulations, and it was found on board her an excess quantity to the actual one allowed, as indicated above, a Proces Verbal will be established for the excess quantity found and the cigarettes placed under seal. An undertaking is also to be obtained from either the Owners and/or her Agents to the effect that they will submit a certificate, within one month, to be issued by the relevant Customs Authorities of the next port of call of the vessel after a Lebanese port. While the seizure of the vessel will be lifted when the Bank guarantee equalling the amount of fine and dues is placed, or a Personal Guarantee from the Agent – if solvable – and in the event that the undertaking is not fulfilled, the usual penalties will be inflicted according to the law.

3. In the event the vessel is aware of such restriction, and for one reason or another she is carrying an excess quantity, this excess must be, as per official regulations, be shown on the manifest legalised and issued at the last port of call touched by the vessel prior to Beirut.

Any excess found over and above such declaration will be considered as smuggling and the law will be applied.

Wine and/or spirits: 1 bottle per crew member; Captain allowed 3/4 bottles.

CARGO GEAR: Ship's gear to be used. A floating crane maximum lift 50 tons is available.

IDENTIFICATION CARDS: Shore pass given to each crew member. Passport and seaman's book to remain in Captain's care.

CONSULS: Most countries have consulates in Beirut.

AIRPORT: Beirut.

TIME: GMT plus 2 hours. Summertime, GMT plus 3 hours.

HOLIDAYS:

Holidays	*Date*	*Days*
New Year's Day	January 1st	1
Al-Adha (Karban Bairam)	Varies	2
Ashoura	Varies	1

AGENT: Gulf Agency Co. (Lebanon) Ltd., Customs Street, Tripoli, Lebanon. Cables: "Gacship", Tripoli/Lebanon. Telephone: 625771 after hours 600101, 600102. Telex: 20906 Beirut or Athens 216344. Head Office: Beirut (which see).

(b) OIL TERMINAL.

OPERATORS: Lebanese Oil Installations, Tripoli.

DOCUMENTS: See "Section A – Dry-cargo Port".

PORT LIMITS: There are three spar-buoys to indicate the limits of the Company's Sea Terminal boundaries.

The location of these buoys is as follows:

1st, Lat. 34° 30′ 03″ N. Long. 35° 52′ 30″ E.
2nd, Lat. 34° 29′ 42″ N. Long. 35° 52′ 26″ E.
3rd, Lat. 34° 29′ 03″ N. Long. 35° 51′ 04″ E.

PILOTAGE: The company's Mooring Masters will meet tankers 2 miles N.E. of Tripoli Breakwater Head. Tankers of 40,000 d.w.t. and over should have rigged, when in light condition, an accommodation ladder lowered to about 12 ft. above water. This can be adjusted to suit conditions. A pilot ladder should be rigged immediately abaft the accommodation ladder, to within 2 ft. above the water. This will enable Pilot to ascend pilot ladder clear of launch and then step on to the lower platform of the accommodation ladder. United Kingdom Merchant Shipping (Pilot Ladders) Rules are relevant.

ANCHORAGE: Good anchorage immediately W.N.W. of No. 4 sea berth buoys.

MAX. SIZE: Least depth of water available in berth, and swinging circle, after deducting 6 ft. for the height above sea bed of the sea line and cradle is as follows: No. 1 Berth, 62 ft.; No. 2 Berth, 66 ft.; No. 3 Berth, 53 ft.; No. 4 Berth, 38 ft. The swinging circle is defined as 1.5 ship's lengths from dropping position of ship's inshore anchor. The approximate draft limits quoted are based on an under-keel clearance, in the berths, of 6 ft.

VLCC's will be handled in Berth No. 2 and loaded to a draft of 60 ft. During the period April to October, and subject to the Master and Mooring Master being satisfied that weather conditions permit loading to a reduced under-keel clearance of 4 ft., then the loaded draft may be increased to 62 ft.

HEALTH: See "Section A – Dry-cargo Port".

RADIO: The Lebanese Oil Installations Limited, Tripoli, must be informed 48 hours prior to arrival of a vessel's ETA, quantity of cargo required, maximum loading rate, SWL of derrick for lifting hoses and confirming that the ballast for discharge in port waters is clean. Communication with Iraq Petroleum Company, Limited, should be by cable addressed to "Petriraq, Tripoli, Lebanon", or direct to Tripoli Terminal Radio Station.

Tripoli Terminal Radio Station. Call Sign – ODC 8.

Waveband	*Hours (GMT)*	*Watch Details*
	0800–0830	ODC 8 Broadcast Traffic List and calls ships on 8514 kc/s. Listens on 8354–8374.
	1200–1230	Will transmit on 12831 kc/s. on request.
High Frequency	1600–1630	
	2230–2300	
	0000–2400	Monitor 500 kc/s. for calls and answers only.
	0730	Broadcast on 500 kc/s. QSW 442 kc/s.
	0730–0800	Transmit Traffic List on 442 kc/s., receives ship frequencies – 425, 454, 468, 480 and 512 kc/s.
	1130	Broadcast call on 500 kc/s., QSW 442 kc/s.
	1132–1200	Transmit Traffic List on 442 kc/s., receives on normal ship frequencies – 425, 454, 468, 480 and 512 kc/s.
Medium Frequency	1530	Broadcast call on 500 kc/s., QSW 442 kc/s.
	1532–1600	Transmit Traffic List on 442 kc/s., receive on normal ship frequencies – 425, 454, 468, 480 and 512 kc/s.
	2200	Broadcast call on 500 kc/s., QSW 442 kc/s.
	2202–2230	Transmit Traffic List on 442 kc/s., receive on normal ship frequencies – 425, 454, 468, 480 and 512 kc/s.
	2232	Broadcast call QSY QSX 500 kc/s.

Cables to Agents may be routed through Beirut radio.

VHF: Tripoli:

Equipment: Fixed Station sited in Terminal Building and used by Control Room.
Call sign: Tripoli Control
Range: Approximately 15 miles.
Frequency: Transmitting on 163.6 mc/s.
Receiving on 159.1 mc/s.
Watches: Continuous.

Mobile Station

Equipment: Portable, battery operated, carried aboard vessel with Mooring Master.
Call sign: Ship's name (before mooring), or Berth No. (after mooring).
Range: Approximately 8 miles.
Frequency: Transmitting on 159.1 mc/s.
Receiving on 163.6 mc/s.
Watches: Continuous, whilst Mooring Master on board.

Notes

1. Tripoli also keeps a continuous watch on the international calling frequency of 158.8 mc/s. This has a range of approximately 15 miles and its call sign is "Tripoli Control".
2. The VHF System is not connected to the main telephone switchboard and only selected shore stations have access to it.

TUGS: There is no tug at Tripoli.

BERTHING: *Sea Line Berths.* 4 berths numbered from N.E. to S.W. specifications as follows:

Berth No.	*Max. t.p.h.*	*Fixed Sea Line*	*Strings of Flexible Hoses*	*Approximate Limits*	
				Draft	*Deadweight*
1	5,000	2×24 in.	2×16 in.	56 ft.	140,000
2	7,000	1×32 in.	2×16 in.	50 ft.	250,000
3	6,000	1×32 in.	2×16 in.	47 ft.	87,000
4	1,500	2×12 in.	2×12 in.	32 ft.	25,000

As loading is by gravitation, the maximum rates are dependent upon availability of suitable shore tanks and loading lines.

LOADING:

1. *Readiness to Load,* will be received by the Mooring Master, who is the Company Representative on board. The advice from the vessel which states she is ready to receive cargo is considered as final, and as indicating that every operation necessary aboard the vessel has been completed. As soon as possible after such a signal has been received, and without further advice, loading will commence. Damage to hoses can occur if ship's valves are not open at the start of loading.

2. *Derricks*

(a) Two hoses are connected on the port side amidship.

(b) Derricks or cranes reaching over the hose connection should be capable of lifting the flexible hose from the sea-bed to a height of up to 30 ft. above the deck.

(c) A minimum SWL of 5 tons is required for 12 in. hoses.

(d) The faster loading berths equipped with 16 in. hoses are available only to vessels with derricks and tackle with a minimum "Safe Working Load of 7 tons". Such vessels will be given berthing priority when queuing occurs and these berths are free but other vessels have not the capacity to handle the larger hoses.

3. *Hose Hang-off Bitts* are required at about 10 ft. from the ship's rail at the loading manifold to secure the submarine hoses on the port side.

4. *Hose Connection/Disconnection.* Ship's crew with a responsible officer in charge to perform all operations as advised by the Mooring Master, to lift, connect, disconnect and lower hoses.

5. *Ship's manifold* – to be prepared for the connection of 12 in. or 16 in. hoses with flanges of 150 series, dependent on berth allocation.

6. *Loading – Supervision and Commencement*

(a) All operations in connection with starting of loading, discharging, switching of tanks on board and topping-off must be directly and personally supervised by a responsible ship's officer.

(b) The advice from the vessel that she is ready to receive cargo is considered as final, and as indicating that every operation necessary aboard the vessel has been completed. As soon as such a signal has been received, and without further advice, loading will commence. Damage to hoses can occur if ship's valves are not open at the start of loading.

Caution: The oil loading stream to the ship is controlled on shore and it is extremely dangerous if a ship's valve is closed against the flow of oil.

To prevent excessive pressure from surge in ship and shore lines, ship's valves must not be shut-off against the stream, and when switching tanks, ship's valves must be closed slowly. Vessels will be held liable for damages resulting from any mal-operation of valves on board.

7. *Tank Dips.* During loading frequent checks should be made by the responsible ship's officer to ensure that cargo is entering the designated cargo tanks only and that there is no escape of oil into pump-rooms or through sea and overboard discharge valves. Particular care must be exercised by ship's personnel in "Topping-off" tanks and towards completion of loading to ensure that the terminal is given timely advice of any decrease in loading rate required. Adequate "standby" notice must be given before the final "stop".

8. *Loading Operations*

(a) The Mooring Master will not transmit any loading instructions to the shore until the responsible ship's officer is satisfied that the hoses are connected correctly and that all valves have been set for receiving cargo.

(b) Loading rates requested by the vessel or quoted by the terminal will be the peak or maximum rate at any time during the loading period.

(c) While in berth, ships should be ready to move under their own power in the event of their breaking adrift, catching fire, fire in adjacent berths or other emergency. No repair should be carried out while in berth which would immobilize the ship or impair her fire-fighting efficiency.

Failure to vacate the berth on completion of loading may result in delays to other vessels, demurrage, and loss of throughput which shall be accountable to the vessel.

(d) The Mooring Master will advise the Master of the ship as to any signals needed for local requirements.

(e) The Mooring Master brings a portable radio on board for ship to shore communication.

DENSITY: 1025.

FRESH WATER: May be available at anchorage before berthing, but it is expensive.

FUEL: Fuel oil is available at Berths 2 and 3. The 12 in. bunker hose is raised on the port side of the vessel. Bunkering rates are 300 to 400 t.p.h.

CUSTOMS ALLOWANCES: See "Section A – Dry-cargo Port".

GENERAL:

1. *Ballast*

(a) Vessels should arrive with sufficent clean ballast for safe handling of vessel under prevailing weather conditions.

(b) Ballast water must be clean and a declaration signed by the Master and delivered to the terminal to this effect. Vessel's scuppers must be effectively plugged and leakage or spillage of oil aboard ship must not be swept or washed overboard.

(c) *Pollution of the sea – warning.* It is an offence to discharge dirty ballast or pump out bilges. The authorities are very strict and your attention is drawn to the Lebanese Notice to Mariners No. 23/1 of 29th July 1965, and to the volume entitled "International Conference on Prevention of Pollution of the Sea by Oil", issued by IMCO London.

In the event of your vessel discharging dirty ballast or spilling oil, cost for cleaning the pollution, third party claims and port fines shall be borne by the vessel.

It is recommended that vessels carry an adequate amount of dispersants with means of application in case of oil spills.

2. *Gear to be provided by the ship*

(a) Anchor to be fitted with marker buoys and 20 fathoms line.

(b) 4 good mooring lines of not less than 150 fathoms each and of suitable size for the vessel. 2 additional 150 fathoms lines securely tailed to the first lines for cases where 150 fathoms may not reach to the stern buoys initially.

(c) For vessels of 50,000 d.w.t. and larger, powered mooring winches with 200 fathoms of wire rope.

(d) 4 suitable rope stoppers to be available aft.

(e) 2 good chain stoppers for use on 5.5 in. circumference wires (preferably carpenter's patent stoppers).

(f) 2 good 4.5 in. circ. boat ropes 200 ft. long placed one on each side of the vessel.

(g) 2 good ropes, 15 fathoms × 3.5 in. circ. and 2 heaving lines for lowering hoses.

3. *Lighting.* Manifold and poop mooring areas should be adquately lit to enable night mooring and loading operations to be carried out with safety. Sea area around the ship to be illuminated.

4. *Deck Watch.* A deck watch must be maintained at all times the vessel is in berth. In addition to its normal duties, the watch must inspect the hose connections and area around the ship against oil spillage, pollution, and prevent unauthorised persons from boarding your vessel.

5. *Boarding of vessel.* The control of persons boarding your vessel is the ship's responsibility. Boarding should be restricted to Company employees on duty and to persons authorised by the Port Authorities as advised by your Agents.

6. *Stores/Provisions* or other items should not be received or discharged whilst loading is in progress. Launches other than the Company's mooring launch, should not lie alongside the vessel.

7. *Tanker Safety.* Masters are at all times responsible for the application of all safety precautions as prescribed in the International Oil Tanker and Terminal Safety Guide.

8. *IOTTSG Safety Check List.* The Tanker Safety check list must be completed after inspection of each item prior to commencement of and during loading. The Mooring Master is authorised to stop all loading operations should he consider that the safety of lives and property is endangered by the infringement of safety rules.

9. *Action in case of Emergency.* In the event of a fire, oil spillage or other emergency on the vessel,

The Emergency Signal is:—

3 or more blasts of not less than 10 seconds duration each on whistle or siren supplemented by a continuous ringing of the general alarm bells.

AGENT: Gulf Agency Co. (Lebanon) Ltd., Customs Street, Tripoli, Lebanon. Cables: "Gacship", Tripoli/Lebanon. Telephone: 625771 after hours 600101, 600102. Telex: 20906 Beirut or Athens 216344. Head Office: Beirut (which see).

NOTES

Please also advise Shipping Guides Ltd.

Leeward Islands

BASSETERRE, St. Kitts: 17.18 N. 62.43 W.

(See Book Plan)

DOCUMENTS:
- 3 copies of Crew List.
- 3 copies of Passenger List.
- 1 copy High Duty Cargo List.
- 1 copy Crews' Personal Effects List.
- 1 copy Clearance from last port.
- 2 copies Ship's Stores List.
- 7 copies Manifest.
- 2 copies Bills of Lading.

PILOTAGE: No pilotage required.
ANCHORAGE: Harbour at Basseterre is an open roadstead and safe anchorage will be found at a distance of 0.25 to 0.5 mile from the shore opposite the piers in the centre of the town.
RESTRICTIONS: None.
MAX. SIZE: A vessel of any size may be admitted. Anchorage position will depend on the draught of the ship.
HEALTH: The Harbour Master boards all vessels on arrival at port and inspects the clearance from the last port. If there are no health problems the vessel is immediately granted pratique. If there is suspected disease or fever on board pre-notification is recommended. If this is done the Harbour Master will have a Medical Officer with him when he boards the ship on arrival.
RADIO: Contact is through Barbados Radio, call sign 8PO.
TUGS: Not needed.
BERTHING: Ships anchor off shore or if max. draft does not exceed 10 ft. vessel may berth at the 450 ft. long cargo pier.
CRANES: 2 ton lift, mobile (Neal); 5 ton lift, mobile (link-belt); 10 ton lift, mobile (Jones).

All cranes used on cargo pier for offloading barges ferrying cargo from ship to shore.
STEVEDORES: ETA should be advised 24 hours before arrival of vessel, also tonnage to be discharged and number of gangs required. Discharging rate: 15 tons per gang per hour on bags. 6 tons per gang per hour on general cargo.
MEDICAL: Advance notice if possible – hospital facilities available. Valid Vaccination Certificate for passengers disembarking but not for intransit or cruise ship passengers.
DENSITY: No tides. Density normal for a West Indian Island.
FRESH WATER: Not available.
FUEL: No bunkering facilities.
GANGWAY/DECK WATCHMEN: Not required.
OPENING/CLOSING HATCHES: Done by stevedores.
CUSTOMS ALLOWANCES: Half pound tobacco or 200 cigarettes. Wine and/or Spirit, 1 bottle.
IDENTIFICATION CARDS: Not needed.
CONSULS: Netherlands, France, Dominican Republic.
REPAIRS: The sugar factory has a well-equipped shop for machine, welding and maintenance work. They can assist with most engine repairs.
DRY DOCKS: None.
REPATRIATION: Crew changes and repatriation can be arranged.
AIRPORT: 2 miles from town with regular daily connections to Antigua and Puerto Rico where onward passages to Canada, the U.S.A., Great Britain and Europe can be arranged.
TIME: GMT minus 4; no alteration.
HOLIDAYS: New Year's Day (January 1st); Statehood Day (February 27th); Good Friday; Easter Monday; Whit Monday; Queen's Birthday (date fixed by announcement annually); August Monday; Prince Charles' Birthday (November 14th); Christmas Day (December 25th); Boxing Day (December 26th).
POLICE/AMBULANCE/FIRE: Police 999; Fire 999; Ambulance (Hospital) 2515.
TELEPHONES: None available.
DEVELOPMENTS: A deep-water harbour and improved cargo handling facilities are being planned.
AUTHORITY: Comptroller of Customs.
AGENT: S. L. Horsford & Co. Ltd., PO Box 45, Basseterre, St. Kitts, W.I. Cable address: Horsford, St. Kitts. Telex: 822 HORSFD SKB KC. Tel. Shipping Manager, Office 2616, Home 2101; Secretary, Office 2429.

St. JOHN'S, Antigua: 17.7 N. 61.52 W.

(See Plan Book)

DOCUMENTS:
- 4 Crew Lists.
- 6 Passenger Lists.
- 1 Customs Declaration.
- 1 Declaration of Health.
- 6 Copies of Manifest.
- Port clearance from previous port.
- 3 Copies of B/L.
- 1 Copy Crew Personnel Curio List.
- Fumigation and Deratisation Exemption Certificate.

PILOTAGE: Compulsory. Messages should be received by Agents 48 hours in advance. Pilot boat may be identified by pilot flag.

Pilot boards at entrance of channel if vessel is proceeding to Deep Water Harbour. If vessel proceeding to Oil Berth, Pilot boards 2 miles North of Sandy Island.
PORT LIMITS AND COMPULSORY PILOTAGE AREA: All the waters enclosed by an imaginary straight line running due West from Weatherills Point forming the Northern boundary, by an imaginary straight line running due North from Shipstern Point forming the Western boundary and by the coastline running from Weatherills Point to Shipstern Point forming an Eastern and Southern boundary.
ANCHORAGE: Open seas just outside inner harbour. Depths exceeding 50 ft.
RESTRICTIONS: No restrictions on entry, difference in tide is negligible. Channel is 8,000 ft. long and 300 ft. wide, dredged to 35 ft.
MAX. SIZE: At present vessels of any size can anchor in outer harbour. The New Deep Water pier is 1,200 ft. long and depth alongside is 35 ft., a turning basin of 1,200 ft. diameter is available. Oil carrier's berth at Oil Refinery Pier (Sea Island) is 34 ft. of water subject to sea conditions or at "Sea Berth" in calm water exceeding 45 ft. Tidal Range is negligible.
HEALTH: Pratique granted at berth. Suspected disease or fever should be notified by cable in advance.
RADIO: Cable and Wireless (W.I.) Ltd. Barbados Radio 8PO.

Tugs fitted with VHF equipment. Harbour Master's office equipped with VHF and HF equipment. West Indies Oil Company Marine Centre keeps constant watch on VHF Channel 16/6 and HF 2182.
TUGS: 2 tugs of 1,500 h.p. available.
BERTHING: No special requirements.
STEVEDORES: 48 hours notice required to arrange gangs.
MEDICAL: Required medical attention should be cabled in advance to Agents. Hospital facilities available, smallpox vaccination required.
TANKERS: At Oil Refinery Pier several product pipe-lines of 10, two 8, 6 and 4 in., one 16 in. crude line, one 3 in. fresh-water line. 36 ft. mean low water, acceptable draft 32 ft. (deeper draft subject marine terminal approval). At Seabuoy one 10 in. Bunker C line, one 16 in. crude line; 5 mooring dolphins secure vessel in position. Acceptable draft 45 ft. No slop residue discharge facilities available.
DENSITY: 1025.
FRESH WATER: Available from Deep Water Pier and by barge in conjunction with bunker fuel deliveries.
FUEL: Normally all grades of marine fuel are available; ex wharf at Oil Refinery and by barge to vessels at St. John's Harbour and adjacent offshore bunkering area. Bunker nominations should be placed with West Indies Oil Company; Antigua. Cable "WIOC." Telex AK 112. Tel. 20141 or 21207. Oil Company will act as Agent for vessels calling solely for bunkers if requested.
FIRE PRECAUTIONS: No smoking or cooking at docks.
GANGWAY/DECK WATCHMEN: Not necessary. Available on request.
OPENING/CLOSING HATCHES: No set custom for opening/closing.
CERTIFICATES: All certificates should be on board but it is required to show Deratisation Exemption Certificate, L.S.A., Load Line.
CUSTOMS ALLOWANCES: 1 carton cigarettes. 1 bottle (26 oz.) spirits.
IDENTIFICATION CARDS: Not required.
CONSULS: French, Danish, Netherlands and Swedish Consulates.
REPAIRS: Limited engine and hull repairs available.
DRY DOCKS: None. Slipway at English Harbour suitable for small yachts and small vessels of up to 120 ft. in length, 150 tons displacement, 21.6 ft. beam, draft 11 ft. Tel. 31056.
AIRPORT: Airport is 4 miles from docks in city and served by international airlines such as BA, BWIA, Air Canada, LIAT, Eastern, Prinair, Barbuda Wings, Seagreen Air Transport, Air B.V.I., Caribbean Air Services, Guyana Airways, Carib West.
TIME: Local time is GMT minus 4. No alterations made to clocks during the year.
HOLIDAYS: 1st January; Good Friday; Easter Monday; Labour Day (1st Monday in May and no work is possible); Whit Monday; August Monday; Carnival Holiday (Tuesday following August Monday); State Day (1st November); Christmas Day; Boxing Day; H.M. Queen's Official Birthday observed either first or second Saturday in June.
POLICE/AMBULANCE/FIRE: Police 20045, Ambulance 20251, Fire 999.
SHORE TELEPHONE CONNECTION: Available.
AUTHORITY: Port Manager, Antigua Port Authority.
AGENT: Geo. W. Bennett, Bryson & Co. Ltd., PO Box 162, St. John's, Antigua. Telegraphic address "Bennett". Telex: 128 Brysons AK. Tel. 21200 or 20170, after hours 20246. Estate & Shipping Agents, Liner Agents, General Commission Merchants, Insurance Agents, Lloyd's Agents, Travel Agents, Stevedoring Contractors.

Liberia

COURTESY FLAG: Masters of vessels should check with the Pilot the correct times for raising and lowering the courtesy flag as heavy fines are imposed if raising and lowering is carried out at the wrong time. It is also advisable to carry a spare courtesy flag aboard the vessel.

BUCHANAN: 05.54 N. 10.04 W. (See Plan Book)

DOCUMENTS:
1 copy Clearance from last Port of Call.
1 copy Health Declaration.
6 copies Number of Passengers.
6 copies Cargo Manifest (even in ballast).
6 copies Crew List.
3 copies Store List (ship).
3 copies Personal Effects List.
1 copy Vaccination List.

PILOTAGE: The ship shall be considered to have arrived at Port of Buchanan when she cuts a circle with a 3 nautical miles radius from the beacon on the main breakwater head (Fl "G" 3-sec.). Lamco provides pilotage. Pilot boarding approximately 1.5 miles off the main breakwater, bearing 095°/110°. Pilot ladder on port side.

ANCHORAGE: If waiting for Pilot, anchor 2 miles off main breakwater.

RESTRICTIONS: Harbour traffic hours – towage and pilotage (ore ships), 0000–2400 hrs. General cargo ships (tankers), 0700–2300 hrs.

MAX. SIZE: See "Bulk Handling Facilities".

RADIO: Dakar Radio, and on ship's telephone working frequency if stated in sailing telegram from last port of call. Buchanan Harbour will call on 6520 kHz 4 days before ETA at 0830 hrs. GMT, or when within 200 miles call Buchanan Harbour on 2182 k/c at 0800 hrs. GMT. Communications with ore ships per HF, call 2182 k/c. Traffic, 2638 k/c, 2738 k/c. VHF, call Channel 16. Traffic, Channel 9, 11, 12 and 14.

HEALTH: Customs, health and passport inspection normally takes place at the berths. Quarantine signal must not be hauled down before "Free Pratique" is received. If diseases are suspected on board contact the Port Authorities or Agents by radio for instructions. After call at other Liberian ports where free pratique has been granted, Port Health will not board here.

TUGS: Lamco provides towage with two tugboats 1,640 h.p. and one tugboat 3,300 h.p. Tugs join vessel about 0.5 mile North of red buoy.

BERTHING: Number of berths for sea going vessels, 4. Length of quays, 2,800 ft. with 50-100 ton bollards and properly fendered. Depth of 33 ft. at commercial quay (at MLWS).

BULK HANDLING FACILITIES: *Deep Water Basin at Buchanan Ore Loading Quay.* With the completion of the deep water basin at the Ore Loading Quay the water depth alongside the quay is increased from 12.95 m. to 14.00 m. below the zero level of the General Elevation System.

The required keel clearance is still 3 ft. for ships up to 125 ft. beam. The max. permissible draft alongside the quay is thus:

$$14.00 \text{ m.} - \frac{(\text{Beam in feet } 0.3)}{123} \text{ feet} + \text{tide}$$

Tidal range:
MHWS = +1.18 m. above zero level of the General Elevation System
MLW = +0.05 m. above zero level of the General Elevation System
MLWS = +0.15 m. below zero level of the General Elevation System

Because of the necessity to save a rock shelf to support the sheetpiling of the cells when blasting and dredging the deep water basin, new fenders have been installed at the quay in order to keep the bilges of the vessels well clear of those rocks. The new fenders have a diameter of 1.20 m. against 0.55 m. of the old fenders. A ship loaded to maximum permissible draft can have a list of 5° without touching the rock slope but since she would touch the bottom with a list of about 3° such lists will not be tolerated.

Height of Shiploader: 16.5 m. above the water level at MHWS. A 2.0 m. safety margin is normally sufficient. Maximum shiploader outreach (including throw) from the new fenderline is 22.8 m. whereby a 44 m. wide vessel can be loaded. Loading rate 6,000 t.p.h.

It must be clearly understood that the sailing drafts are unchanged. The width of the deep water basin is only 60 m. It gives however, the great advantage of being able to continue loading without stopping for low water, whereby loading can often be completed 12 hours earlier than without the deep basin.

An even greater advantage is probably the increased safety, should a large ship develop engine trouble after she has exceeded the former maximum permissible low water draft, in which case operators have no alternative but to pull vessel out at HW as "dead ship" which could very easily result in a major accident with enormous economic consequences. Now operators can let vessel remain alongside over the next low tide without any risk.

STEVEDORES: As early as possible advance notice of ETA required latest by 1500 hrs. on day preceding arrival if a weekday. Or Saturday before noon if arrival on Sunday. Shore working hours: Ore handling: Monday 0700 hrs. through Sunday 0700 hrs.: general cargo handling, 0700–1200 hrs., 1230–1500 hrs., overtime 1500–2300 hrs., and 2300–0700 hrs.

MEDICAL: Hospital and medical care is provided; advance notice should be given in serious cases. Smallpox, yellow fever and cholera vaccinations are compulsory to enter the Republic. Vaccination book is required.

TANKERS: One tanker berth for discharging only. Hose connections are: 6 in. and 10 in. Max. draft 30 ft.

DENSITY: Varying but around 1020/25.

FRESH WATER: Fresh water is available, ex-quay only, rate is 20 t.p.h. Subject to availability.

FUEL: No bunker facilities available.

GANGWAY/DECK WATCHMEN: Available.

OPENING/CLOSING HATCHES: Performed by stevedores.

REPAIRS: No commercial facilities available. In cases of emergency Lamco might assist with minor repairs.

CUSTOMS ALLOWANCES: Direct sales from ships are strictly forbidden.

IDENTIFICATION CARDS: Not required.

CONSULS: Swedish Vice-Consul only; however, most countries are represented either by Embassy or Consul at Monrovia.

REPATRIATION: Can be arranged.

AIRPORT: Roberts International Airport about 1 hour ride by car; several connections to the rest of the world.

TIME: GMT; no alterations during the year.

HOLIDAYS: January 1st; January 7th; February 11th; Second Wednesday in March; March 15th; Second Friday in April; May 14th; July 26th; August 24th; First Thursday in November; November 29th; December 1st; December 25th. Special holidays as proclaimed from time to time by the Liberian Government. No work will be performed on January 1st, July 26th and December 25th.

GENERAL: Two Customs officers stay on board the ship during ship's entire stay and they should be given meals in the Officers' Mess and if necessary night quarters.

POLICE/FIRE/AMBULANCE: No phone available; however the Lamco Plant Protection Force should be contacted; one officer is normally assigned to each quay/gate.

SHORE LEAVE: Apart from South African and Rhodesian citizens, who are not allowed ashore, no restrictions.

DELAYS: Generally, no major delays have occurred. For ore carriers and tankers the tide may occasionally involve 24/36 hours waiting time depending on the size of ships expected to load: general cargo ships; no delay.

AUTHORITY: Port Operators: Lamco J. V. Operating Company.

AGENTS: All ore carriers must employ LJVOC as their Agent.
Other vessels:
Scanship (Liberia) Inc., PO Box 19, Buchanan, Tel. 3255. Telex via Monrovia 4281.

MONROVIA: 06.20 N. 10.50 W. (See Plan Book)

DOCUMENTS:
4 Crew Lists.
4 Passenger Lists or Statements "Nil" if none aboard.
2 Manifests for Customs. This should state ballast if no cargo aboard.
4 List of Ports of call from commencement of voyage with date of calls.
1 International Health Declaration.
1 List of dates of smallpox, yellow fever and cholera vaccination.
4 Store Lists.
2 Crew Custom Declarations.
Immigration now stamp all seamen's discharge books or passports.
2 Livestock Lists.

PILOTAGE: Pilot is compulsory. Pilot ordered through local Agent. 24 hours or minimum 12 hours notice of ETA by Radio Telephone on 2182 kcs. Pilot instructs ship through signal tower or direct on VHF Channel 16.

Pilot comes out from inside breakwaters by pilot launch, displaying "H" flag and "Pilot" in large black letters on side of the launch. Pilot will inform ship by VHF which direction to proceed to meet the pilot launch. Vessels should always keep clear of the Fairway Channel, as very large bulk carriers sail on deep draft.

ANCHORAGE: Good unlimited anchorage space available on roadstead S.W. of Leading Line, from 7 to 10 cables from Southern breakwater end, depth 7 to 10 fathoms. Anchorage safe but subject to moderate South-westerly swell during rainy season, April to October.

RESTRICTIONS: Pilot service is day and night. Loaded oil tankers berth in daylight hours only. Deep loaded vessels i.e. 40 ft. draft and over are restricted to tide for berthing and sailing. Maximum draft for main ore piers is 45 ft. Vessels up to 860 ft. length can be accommodated at these piers. No restriction on beam except that carriers with beam in excess of 126 ft. may experience difficulty in loading with present loading gantries. Bulk carriers of 90,000 tons d.w.t. and over will berth only in daylight hours.

MAX. SIZE: See "Restrictions" and "Berthing".

HEALTH: Vessels entering must fly International Code flag "Q". Port Health Officials board upon berthing. Pratique automatic for vessels having cleared at other Liberian ports, but vessel must still clear Customs.

RADIO: The Freeport of Monrovia maintains a continuous listening watch on HF 2182 kcs and VHF Channel 16. Vessels are to call Freeport 24 hours or minimum 12 hours, giving ETA before arrival. Cables should be routed to Agents through Government radio station, ELC or via French Cables through Dakar or Abidjan.

TUGS: 3 tugs of 1700 h.p. available. Join vessels just inside breakwater entrance. For berthing, tug lines used; for sailing, ships lines often used. One additional tug, 3,000 h.p. is expected to join the fleet in September 1978.

BERTHING: Ships are discharged by their own gear. Mobile cranes of up to 40 tons are available.

Vessels loading at the Iron Ore Piers are limited to a maximum draft of 45 ft. and sail from 2 hours before high water up to high water. However, ships over 90,000 tons will sail from 2 hours before high water up to 30 minutes before high water. Vessels proceeding to the Bunker Pier are limited to a maximum draft of 32 ft. Tankers discharging at the Crude Oil Berth are limited to 38 ft. draft and a maximum length of 700 ft. Tankers at this berth moor by means of two anchors and starboard side to the breasting dolphin with the stern fast to the mooring dolphin. Discharge is by means of submarine and floating pipe-line connected to the starboard side midships. Fishing Pier has a 90 ft. wide channel and maximum draft of ships berthing there is limited to 16 ft. and maximum length of 240 ft. The main General Cargo Pier is 2,000 ft. long, and vessels up to 625 ft. in length can be berthed. The maximum permissible draft at this pier is 30 ft., at which draft vessels will berth on the tide, that is 2 hours before high water till high water.

STEVEDORES: Several stevedoring companies. Port Authority handles all cargo on shore and accepts cargo ex-ship's hook only.

Stevedores gangs have to be ordered the day before required, therefore essential for Agents to receive ETA messages in sufficient time.

MEDICAL: Whenever possible Masters should cable Agents if require medical attention especially when arriving week-ends or during night. Hospital facilities available. Port Health require smallpox and yellow fever vaccinations for crew members.

TANKERS: See "Restrictions" and "Berthing".

DENSITY: Density varies with the tide. Also varies during rainy season as river flow increases. Varies from 1009 to 1024 oz. per cu. ft. with average of approx. 1019 oz. per cu. ft.

FRESH WATER: Available only on marginal wharf and three Iron-ore Piers by means of hoses from shore. Average rate of delivery approx. 20 t.p.h. Water also available at the LRC Pier.

FUEL: Light diesel oil and heavy fuel oil available and these can be blended to specification by supplying oil company. Fuel and diesel only available on bunkering pier.

GANGWAY/DECK WATCHMEN: Private security men are engaged by the Agent. Port security also maintain regular patrol.

OPENING/CLOSING HATCHES: Normally done by stevedores.

CUSTOMS ALLOWANCES: Tobacco, reasonable quantities for consumption while in port. Wine and/or Spirit, as tobacco.

IDENTIFICATION CARDS: Not required, but seamen's books are endorsed aboard by Immigration.

CONSULS: Majority of foreign countries have Consuls.

REPAIRS: Limited deck and engine repairs can be carried out by private companies.

DRY DOCKS: One very small floating dock capable of lifting 300 tons with max. draft of 8 ft. This dock is used for small coastal craft and only accepts very limited outside work. There is also a synchrolift of about 250 tons, owned by private fishing company.

REPATRIATION: Repatriation of crews is possible.

AIRPORT: Roberts Field International Airport 45 miles distant. Served with daily international flights to Europe and America.

TIME: GMT.

HOLIDAYS: Many official holidays during year but cargo work carried out those days on overtime rates. Port closes 3 times a year: 26th July (Independence Day), Christmas Day and New Year's Day.

POLICE/AMBULANCE/FIRE: Port Authority have own Security Force and Fire Service, situated in port area. There is also an ambulance service.

TELEPHONES: There are no facilities for telephones on board.

SERVICES: Hull, deck and engine surveys can be obtained through Lloyd's, German Lloyds, B.V., Norske Veritas, America Bureau Agents and most of the other classification societies.

SHORE LEAVE: No restriction on shore leave.

AUTHORITY: National Port Authority.

AGENT: Scanship (Liberia) Inc., PO Box 209. Tel. 221634, 221636. Telex 4281. Cables: "Scanship Monrovia".

SINOE: 04.59 N. 09.03 W.

DOCUMENTS:

1 copy Health Declaration
2 copies Store Lists
2 copies Vaccination Lists
2 copies Cargo Manifests
1 copy Clearance Last Port
2 copies Crew Declaration Forms
1 copy Stowaway List
5 copies Crew List
5 copies Kru Boy List — if any onboard
4 copies Ports of Call
4 copies Narcotics Lists
4 copies Passenger Lists
4 copies Animal Lists
4 copies Arms/Ammunition Lists

PILOTAGE: Not compulsory but recommended, and NPA Pilot available. No night pilotage. On approach Agent or Sinoe Pilot can be contacted by VHF Channel 16/2182 SSB Radio. Pilot boarding 1.5 miles off the harbour. No official Pilot Boat available but Pilot using small tug belonging to Scanship.

ANCHORAGE: Anchorage can be obtained in a depth of 7 fathoms about 8 cables West of Blubarra Point — bottom mud and sand.

MAX. SIZE: Max. length which can be accommodated alongside Pier, 400 ft. and Max. draft on departure from Pier 18 ft. 6 in. Max. length for a vessel moored across Basin, 500 ft. and max. draft on departure 23 ft.

HEALTH: Boarding party including Port Health Officials clear vessels while still in anchorage. Even when a vessel has called at another Liberian Port prior to Sinoe Port Health still boarding.

RADIO: Monrovia Radio.

VHF: See "Pilotage".

TIDES: Average 4 ft.

TUGS: 1 NPA tug 600 h.p. and 2 Scanship tugs 180 h.p. and 220 h.p. respectively.

BERTHING: Alongside Pier only 1 ship of max. length 400 ft. plus a small vessel of up to 175 ft. can be accommodated. Salt water only. Cargo handling to be carried out by vessel's own gear, however, NPA mobile crane available max. 10 tons capacity.

BULK CARGO FACILITIES: Cargo handled-forestry products only i.e. logs, boules, sawn timber and plywood.

SPECIALISED CARGO HANDLING: Only equipment available for handling forestry products plus a very limited quantity of general cargo plus rubber.

STEVEDORES: Advisable to cable number of gangs workable, 24 hours prior of arrival. Vessels working full capacity gangwise are loading per 24 hours 500-1,000 cu.m. depending on type of forestry products and whether loading in basin or alongside.

MEDICAL: Medical facilities available to a very limited extent. All normal vaccinations possible. International vaccination card required.

TANKERS: Only facilities for small coastal tankers of max. LOA 180 ft. available moored alongside main pier.

DENSITY: Pure Salt.

FRESH WATER: Small quantities can be supplied by the NPA tugboat only.

FUEL: Small quantities of Diesel can be obtained but it is not advisable to rely on supply.

CONSULS: Nil.

REPAIRS: No facilities.

DRY DOCK: No docking facilities.

SURVEYOR: Nil, but surveyor can be called from Monrovia.

GANGWAY/DECK WATCHMEN: Not compulsory but recommended.

HATCHES: Opening/closing normally carried out by crew.

CUSTOMS ALLOWANCES: 200 cigarettes/1 bottle spirits per crew member, but depending on duration of stay.

CARGO GEAR: Always by ship's gear.

REPATRIATION: Possible through Monrovia Airport (Robertsfield). Small airstrip 5 miles from Sinoe Harbour with daily connections to Monrovia by small charter planes or small planes operated by Air Liberia.

TIME: GMT.

HOLIDAY: Only days where no work can be carried out are 24th August and 25th December.

POLICE/AMBULANCE/FIRE: NPA has ambulance and limited fire fighting equipment.

SHORE LEAVE: No restrictions.

IDENTIFICATION CARDS: Not required.

REGULATIONS: Vessels deemed unfit by NPA (derricks lifting capacity too low in the opinion of the Authority, or in an apparent poor condition, etc.) might be refused entry to port. This especially applies when a congestion is faced at Sinoe, and it is feared by the Authority that such a vessel is unable to handle an acceptable daily tonnage.

During 1976 several vessels have been rejected by NPA on the above grounds.

DELAYS: During the rainy season a heavy swell running into the harbour is frequently encountered, causing mooring lines to part, forcing vessel alongside to shift to the basin/roads awaiting more favourable conditions. Hurricane hawsers recommended.

DEVELOPMENTS: An 80 m. extension to the Pier is planned and expected to be commenced during 1977.

GENERAL: Vessels should not expect to be able to purchase provisions at Sinoe apart from a limited variety of tinned foods.

AUTHORITY: National Port Authority.

AGENT: See 'Monrovia'

Libya

GENERAL: All ports:

CLEARANCE: ETA to be advised to Port Authority 24 hours before arrival, including the following information: Ship's Name, type, Nationality and port of Registry; Owner, Master and Agent names; Gross and Net tonnage; Ship's length and draft forward and aft; Expected duration of stay in the port; Last port of call, tonnage, quantity and kind of cargo for discharging and loading; Full details of any dangerous liquids or cargo; Number of passengers and crew; Health situation.

Before arrival at the outer limits of the port, vessel requested to hoist the following signals: Flags of her call-sign; Flag of Quarantine; Flag of ship's Nationality; The Libyan Flag on the foremast; Red Flag during daylight and Red light during night-time, if carrying explosives or any inflammable cargo; Pilot Flag and the international flag code signals must be respected.

PILOTAGE: Pilotage is compulsory for all vessels. Pilot boat will meet ships outside the harbour. Ships should wait for Pilot at anchor outside the harbour if weather is good. In case of bad weather, after getting permission from Harbour Master ships may enter the harbour at their own risk and anchor inside.

TUGS: Tugs are available at all Libyan Ports.

HEALTH: The following documents to be provided for the doctor: A valid Fumigation Certificate; International Vaccination Certificate for every person on board; Health Certificate for any animal or bird on board. No automatic free pratique between the Libyan Ports.

CUSTOMS ALLOWANCES: 200 cigarettes for each crew member or passenger. All kinds of alcoholic drinks are forbidden, even wine and beer, and to be kept in the store under the customs seal. Also arms, perfume, saccharine and all kinds of anaesthetic. The sum of 10 Libyan dinars allowed for each crew member. All Libyan and Foreign currency to be declared in the currency declaration. All personnel effects and electronics to be declared in the crew declaration.

BLACK LIST: Libyan law prohibits vessels from having on board any goods or containers of Israeli origin. Any vessel having such goods or containers on board on arrival in the harbour will be liable to heavy fine and confiscation of the goods or containers. The Libyan Authorities may, moreover, refuse to clear the vessel.

DOCUMENTS: *On arrival:* Last Port clearance; Full sets of cargo documents; Copies covering consignment; Certificate of origin; Bills of Lading, etc. 8 copies of Crew List; 8 copies of Passenger List; 7 copies of Cargo Manifest; 3 copies of Cargo Plan; 1 copy of Crew Declaration; 1 copy of Currency Declaration; 1 copy of Store List.

During the first 24 hours of arrival: Valid certificates to comply with all the International conventions in force for the State whose flag the ship is flying. Certificate of Registry. For the National ships, moreover, the official log book, engine log book and ship's articles.

REGULATIONS: Foreign currency not to be taken ashore. Crew members visits between ships are not allowed without the prior permission of custom and immigrations. Ship's lifeboats are not to be used within harbours limits without the prior permission of the authorities. No engine repairs to be carried out in port whilst alongside or at anchor in the port without prior permission of authorities. Movements of ships in the port are not allowed without instructions. Using ships propellers whilst in port is not allowed without permission. Ships whistles not to be used without good reason. Cleaning funnels or making smoke whilst in port is strictly forbidden. Ship's gangway to be in position at all times whilst alongside. Rats guards to be fixed all times on every rope. Painting or scraping the outer hull of the ship not to be carried out without prior permission of authorities. Duty officer to be on board all the time accompanied by sufficient crew.

For tankers or vessels laden with dangerous cargo; moreover, the mentioned hereabove: Red flag to be hoisted in daylight and red light to be on in the night-time. No movements allowed between sunset and sunrise for such ships. Electricity to be off from ships holds whilst loading or discharging. Towing wires with suitable shackle to be ready fore and aft. Smoking and any kind of fire are strictly forbidden on deck. All steps for safety to be carried out.

POLLUTION: Pollution of any kind is strictly forbidden. Any ship causing any kind of pollution will be liable to heavy fine.

BERTHING PRIORITY: The berthing priority scheme, according to law, as follows: 1) Passenger ships. 2) Animal ships. 3) Liner and mail ships. 4) Cargo ships. 5) Tankers and dangerous cargo ships. Ships with cargo of less than 300 tons, may not have to comply with the scheme; subject to Harbour Master's decision.

OPENING/CLOSING HATCHES: To be done by crew.

IDENTIFICATION CARDS: Seaman's book or Discharge book, Passports, Identity Cards — all should be valid.

HOLIDAYS: Friday is the weekly day off. Revolution day (1st Sept. yearly); Evacuation days (28th March, 11th June, 7th October; yearly), Syrian Revolution day (8th March, yearly); Sudanese Revolution day (25th May, yearly); Egyptian Revolution day (23rd July, yearly); Hijra New Year (1st Moharam, Muslim year); Ashoura (half day, 10th Moharam, Muslim Year); Mohammadan birthday (12th Rabih Awel, Muslim Year); Israa Wa Merag (half day, 26th, Rajeb, Muslim Year); Eid El-Fitr (1st, 2nd & 3rd Shawal, Muslim Year); Eid El-Adha (9th, 10th. 11th, & 12th Zi Al-Heja, Muslim Year).

TIME: Local time at all the seasons is GMT plus 2 hours.

SURVEYORS: The following addresses are Agents for the mentioned Classification Societies and may be contacted for the necessary surveys on request:–

Lloyd's Register of Shipping: P.O. Box 111115 Tripoli. Telephone: 74383. Telegraphic Address: LLOYDSREG Tripoli Libya.

Bureau Veritas: Tripoli: Orfelli Agencies, 109 – 1st September Street, P.O.B. 2283, Telephone: 35338 and 37398, Telegraphic address: Shetaf Tripolilibia.

American Bureau of Shipping: Tripoli: Libyan Arab Shipping, Baghdad Street, Andalus Building, P.O.B. 882, Telephone: 41712 and 39358, Telegraphic Address: Arabship Tripolilibia, Telex 20033 Arabship.

Germanischer Lloyd: Tripoli: Johs Rieckermann, Baghdad Street, Andalus Building, P.O.B. 2121, Telephone: 37021 and 31069, Telegraphic address: Rieckermann Tripolilibia.

Registro Italiano Navale (RINA): Tripoli: Mr. Mahmoud Gamar, c/o Libyan Arab Shipping Co., Baghdad Street, Andalus Building, P.O.B. 2325, Telephone: 41712 and 39358, Telegraphic address: Gamarin Tripolilibia.

MINE FIELDS: The following areas are prohibited area and dangerous for navigation due to mines:

1) 32° 52.78′ North & 13° 24.6′ East
32° 57.67′ North & 13° 24.46′ East
32° 57.67′ North & 13° 18.00′ East
32° 53.82′ North & 13° 22.30′ East

2) 32° 53.70′ North & 13° 20.61′ East
32° 55.93′ North & 13° 18.00′ East
32° 55.93′ North & 13° 15.00′ East
32° 54.45′ North & 13° 15.00′ East

3) 32° 37.00′ North & 23° 13.00′ East
32° 14.50′ North & 23° 31.00′ East
32° 10.50′ North & 23° 28.50′ East
32° 37.50′ North & 23° 7.50′ East

ATTENTION: It is imperative that vessels contact the wireless stations on the Libyan coast at a distance of 30 miles from the proceeding port, giving the ship's position. Ships winches and cargo gear should be in good order otherwise they will be liable to heavy fine if any delay occurs.

FLOATING DOCK: See "Tripoli".

AUTHORITY: General Ports and Lights Authorities, Tripoli

AZZAWIYA: 32.48 N. 12.42 E.

Also refers to General All Ports.

LOCATION: Azzawiya Oil Terminal is situated about 50 km. West of Tripoli.

PORT LIMITS: Vessels are considered to be an "Arrived Ships" and (subject to charter party terms) lay time will commence, when the ship is approximately 2 miles off the S.A.L.M. berths.

DOCUMENTS: Masters are advised to have the following documents prepared before arrival in order to expedite ship's clearance:

(a) Crew List.
(b) Customs documents.
(c) Health documents.
(d) Bills of Lading.
(e) Ship's papers and certificates.

PILOTAGE/APPROACHES: Vessels are advised to anchor in a position 1.5 miles (NW) North West of S.A.L.M. Berth No. 1 to await Pilot and Agent/Customs clearance. Vessels must keep clear of the area deemed to be the pilotage area and not approach the berth closer than 1 mile without receiving Harbour Master's permission. Admiralty charts indicate an anchorage symbol in position:

Lat. 38° 49′ 00″ N. Long. 12° 42′ 00″ E.
and Flare symbol in position:
Lat. 32° 47′ 25″ N. Long. 12° 42′ 00″ E.

Azzawiya Oil Terminal is adjacent to the flare. Tankers are warned that it is unsafe to remain at anchor during adverse weather conditions and to keep to northward of Lat. 32° 50′ N.

While at berths, tankers must have main engines ready for immediate use at all time. Sudden, and violent changes of weather may occur at any time, and vessels may be required to leave berths at very short notice. Pilot and service craft are available during day hours only until further notice.

RESTRICTIONS: Vessels must have sufficient ballast for safe manoeuvring and must not be trimmed more than 3 ft. by the stern.

If in opinion of the Marine Superintendent or the Mooring Master, the ship has insufficient ballast, she may not be allowed to berth.

The discharge of dirty ballast is strictly prohibited.

HEALTH: Local Authorities will board vessels to grant pratique. Vessel must report any suspected disease or fever to local Health Authorities. There are shore facilities to treat serious injuries or major accidents.

RADIO/VHF: Call sign: "Azzawiya Control".

Azzawiya Control keeps 24 hours watch on Channels 16 and 22.

Vessels approaching the anchorage area must give the following information when possible:

(a) Ship's name and flag.
(b) Cargo nomination (if available).
(c) Distance between ships rails and manifold.
(d) Manifold sizes and derrick capacities (S.W.L.).

Cargo transfer is carried out through VHF Channel 12 and/or

Storno Walkie Talkie radios as the situation may require under the Mooring Master's Supervision.

Tankers should have the port derrick rigged before berthing and capable of lifting 10 tons if nominated for S.A.L.M. berths and 7 tons for C.B.M.2.

BERTHING: There are 3 off-shore berths with the following descriptions:

1 *Conventional buoy mooring berth:* Named C.B.M. No. 2 (Clean product berth). Lat. 32° 48′ 07″ N. Long. 12° 42′ 52″ E.

Vessels will lie in this berth on a heading of 318° (T) approximately. Using 2 anchors, each with about 7 shackles in water. Depth of water 21 m. approximately. Size of vessels allowable for this berth is 5,000–20,000 d.w.t. The berth is 1,200 m. offshore.

2 *S.A.L.M. Berths:* (Single anchor leg mooring) for crude imports/fuel exports.

S.A.L.M. No. 1: Buoy is moored approximately 1,900 m. offshore with an average depth of 26 m. in position:

Lat. 32° 48′ 29″ N. Long. 12° 41′ 55″ E.

the berth is designed for vessels of 10,000 to 100,000 d.w.t. but not limited on size.

S.A.L.M. No. 3: Buoy is moored approximately 1,500 m. offshore with an average depth of 30 m. in position:

Lat. 32° 48′ 23.8″ N. Long. 12° 41′ 08.7″ E.

The berth is designed for vessels of 15,000 to 140,000 d.w.t. but not limited to the above mentioned sizes.

No lights have been installed as yet to mark C.B.M. No. 2.

S.A.L.M. berths No. 1 and No. 3 are each equipped with a radar reflector and navigation light installed on the buoy deck with the following characteristics:

Colour: 1 white, 1 amber.

Code: Each transmitting morse letter "U" every 12 secs.

On all these berths, hose connection is carried out by ship's crew under Mooring Master's supervision.

GENERAL: No shore leave. No crew changes for non Libyan flag vessels. Fire and Safety regulations will be strictly enforced at all times. No fuel, diesel, fresh water or supplies available. Lifeboat not to be lowered in water.

BENGHAZI: 32.06 N. 20.03 E.

Also see "General" before first Port.

PORT LIMITS: The water area existing within the actual breakwater and that which may fall within any new breakwater eventually constructed up to the bridge across the shallow water basin at the Eastern side.

b) The water area known as the navigational channel outside the harbour commencing as from the harbour entrance along the distinguishing marks of the channel for a distance of 1 mile (2 km.).

RESTRICTIONS: Vessels are not permitted to enter harbour between sunset and sunrise.

MAX. SIZE: All types of ships with 27 ft. draft and less in Wintertime and 28 ft. and less in Summertime are safe to enter the harbour.

RADIO: Benghazi Port Radio, from 0800 to 1800 hrs., call sign 5AV, R/T 2182 V.H.F. Channel 16.

BERTHING:

Quay No.	*Length* m.	*Depth* m.
1	310	9
2	280	9
3	170	9
Libya No. 1	40	5.5
Libya No. 2	130	5.5
Libya No. 3	115	5.5
F.J. No. 1	135	5.5
F.J. No. 2	135	5.5
F.J. No. 3	135	8

Note: F.J. No. 3 not in use at the present time.

STEVEDORES: All stevedoring operations and formalities to be done by Agent, 2 stevedoring companies will be formed in the near future.

CRANES: Electric floating crane available up to 100 tons.

MEDICAL: All facilities available.

FRESH WATER: Available by barge and alongside. Should be obtained from Port Authority through ship's Agent.

FUEL: Available through Agents. A notice of 48 hours needed, advisable for Chief Engineer to check what grades are available.

REPATRIATION: Facilities exist without difficulty.

AIRPORT: Benina airport situated 29 km. away.

DEVELOPMENTS: Port extension project expected to be decided in the near future.

WATCHMEN: Compulsory, provided by Port Authority.

CONSULS: France, Germany, Greece, Italy, Saudi Arabia, Tunisia, Syria, U.K., U.S.A., U.S.S.R.

REPAIRS: Minor repairs are possible. Also see "Tripoli".

POLICE/AMBULANCE/FIRE: Police 99, Ambulance: 2131, 2132, 2281, Fire: 5555, 5599.

SHORE LEAVE: Allowed after free pratique, Custom and Immigration formalities completed.

AUTHORITY: Port Manager and Harbour Master.

DERNA: 32.45 N. 22.40 E.

Also see "General" before first port.

PORT LIMITS: The water area existing within the actual breakwater and an imaginary line connecting the end of the breakwater and the damaged breakwater existing at the Southern side.

b) The water area known as the navigational channel outside the harbour commencing as from the harbour entrance for a distance of 1 km

RESTRICTIONS: Vessels are not permitted to enter harbour between 2100 and 0600 hrs.

MAX. SIZE: Depth of Inner Bay – 8 m., Entrance – 9 m. and Outer Channel 10 m.

RADIO: Recommended that radio messages for Agents be sent via Malta Radio or any other near coast station.

BERTHING: Old Quay, Length 120 m., depth 6 m. New Quay, length 240 m., depth 9 m.

STEVEDORES: All stevedoring operations and formalities to be done by Agent. 2 new companies will be formed in the near future.

TANKERS: Max. size 18,000 d.w.t. Max. draft 11.5 m. if weather conditions permit.

MEDICAL: Available.

FRESH WATER: Available alongside, to be supplied by Port Authority through ship's Agents.

FUEL: Available through Agents, a notice of 24 hours needed. Advisable for Chief Engineer to check what grades are available.

REPATRIATIONS: Available via Benghazi.

DEVELOPMENTS: Port extension project under construction.

WATCHMEN: Compulsory, provided by Port Authority.

CONSULS: Nearest consuls situated at Benghazi.

REPAIRS: Not available. See "Tripoli".

POLICE/AMBULANCE/FIRE: Call Port Manager, 2063 and 2074.

SHORE LEAVE: Allowed after free pratique, Custom & Immigration formalities completed.

AUTHORITY: Port Manager and Harbour Master.

ES SIDER: 30.38 N. 18.22 E. (See Plan Book)

(Also refer to "General – All ports").

DOCUMENTS: Oasis acts on behalf of tankers loading at Es Sider and shall prepare all crude oil loading documents. Arab Shipping Company is contracted by Oasis for all normal agency duties. This agency is currently the only agency used by the four Owner Companies.

After a tanker arrives at the anchorage or is moored in a berth, an agency representative will come aboard, accompanied by Libyan Customs Officials and Immigration Police. The agency representative will present certain clearance forms to the Master, which should be completed as soon as possible. After these forms have been signed by the Master, they shall be returned to the agency representative, who shall make the necessary distribution.

Crude oil loading documents shall be prepared by the Oasis documentation group prior to and during loading operations, to expedite their final completion. When the tanker has been loaded, the documents shall be completed and endorsed by the Customs Officer and by the representative of the Ministry of Petroleum Affairs. The documents shall then be distributed aboard the tanker and elsewhere, in accordance with previously arranged standard documentation schedules.

The tanker shall be considered clear to depart Es Sider when the crude oil loading documents have been delivered to the Master.

Libyan Customs Authorities:

(*a*) List of the crew with a declaration of their personal belongings (form supplied by the Customs Authorities).

(*b*) List of tanker's stores.

(*c*) List of passengers.

(*d*) Six copies of Cargo Manifest for cargo to be discharged at Es Sider.

(*e*) One copy of Cargo Manifest for cargo in transit.

Blank copies of "Certificate of Discharge" are placed on board every vessel at Es Sider. These certificates must be endorsed by the Customs, or other recognized authority, on completion of discharge. One completed certificate must then be forwarded to the Libyan Customs Authorities according to the instructions contained in the "Certificate of Discharge". At least one further copy should be retained on board, to be produced to the Customs on any subsequent voyage to a Libyan port. Failure to produce the certificate may result in delays to loading, or even rejection of the vessel by the Libyan authorities.

PILOTAGE: Vessels to be moored, anchored or manoeuvred will only be boarded within the recommended anchorage area. The Mooring Master will advise the Master on approaches to berths, mooring, unmooring, connecting and disconnecting the hoses and in all operations within the anchorage or berthing area. All manoeuvring of ships shall be done only in accordance with the advice of an Oasis Mooring Master, subject to the understanding that in all cases and circumstances the Master shall remain solely responsible for the safety and proper manoeuvring of the tanker.

Tankers not equipped with pilot hoists shall provide a pilot ladder, or ladders, constructed and placed in accordance with Chapter V 1960 Safety of Life at Sea Convention. Tankers having a large freeboard are requested to use a combination of pilot ladder and accommodation ladder, which is also in accordance with the above Convention.

The Mooring Master shall be in direct control of all tanker communications while in the Terminal area. Any unauthorized communications will result in the immediate cessation of all operations excepting clearing of the berth. Such tanker immediately nullifies its Notice of Readiness.

APPROACHES: Coastal landmarks in the area are as follows:

(*a*) The most prominent landmark is a water tower in the terminal area which is painted white and is 180 ft. above sea level. This water tower is located at 30° 38′ 00″ N. Lat. and 18° 21′ 01″ E. Long.

(*b*) A radio antenna tower which is 624 ft. above sea level is located at 30° 35′ 48″ N. Lat. and 18° 24′ 12″ E. Long. At night the tower is lighted with five red lights, vertically arranged. The top light and the fourth from the top flash simultaneously every second. Lights two, three and five are fixed. (Occasionally only 2 or 3 red lights).

(*c*) A radio antenna tower which is 395 ft. above sea level is located at 30° 36′ 56″ N. Lat. and 18° 16′ 55″ E. Long. At night this tower is lighted by an occulting red light, flash two seconds, eclipse one second, and there is a fixed red light halfway up the mast. It is flanked by two dish shaped aerials.

(*d*) There is a water tower at Ras Lanuf Terminal with a highest elevation of 179.5 ft. above sea level located at 30° 30′ 42″ N. Lat. and 18° 32′ 22″ E. Long. It is white in colour. A white light, characteristics:– flash two every 5 seconds, height above sea level 163 ft., is mounted on the seaward side. There is also a fixed red air warning light on the top of the structure.

(*e*) An omnidirectional aircraft radio beacon is situated at 30° 37′ 29.8″ N., 18° 21′ 07.7″ E. transmitting "OJ" 5 times every 60 seconds.

Range lights and mooring buoy marker lights will appear and disappear with unscheduled frequency. These lights are for the use of the Mooring Masters at the Terminal and should be disregarded by any tankers using the Terminal.

ANCHORAGE: Recommended anchorages at Es Sider within the seaward perimeter of a circle having a radius of 3,000 ft. centred at 30° 40′ 20″ N. Lat. and 18° 24′ 30″ E. Long. The anchorage area has a sandy bottom with a depth of approximately 100 ft.

Ships can make this anchorage with Radio Tower "B" bearing 183° in 16 fathoms. Great care should be taken approaching anchorage from the North or Northwest to give mono-moorings a wide berth.

MAX SIZE: The following are the approximate berth limitations:–

	Length	*Draft*
No. 1 Berth	920 ft.	51 ft.
No. 2 Berth	890 ft.	51 ft.
No. 3 Berth	950 ft.	51 ft.
No. 4 Mono Mooring	1150 ft.	62 ft. 6 in.

Max. beam 158 ft. Max. d.w.t. 250,000

Note: The max. length overall is 1150 ft. The max. draft to which vessel can load in good weather is 62 ft 6 ins., and when vessel lies within 30° of loading line. During adverse weather causing vessel to roll and pitch, draft may be restricted to 58 ft. The max. draft limitation in good weather is due to depth to top of loading line being 63 ft. at distance of 1900 ft. from buoy.

Length, beam and d.w.t. could all be extended provided draft does not exceed 62 ft 6 ins.

All the above limitations are based upon standard tankers in normal weather conditions.

Oasis reserve the right to vary the above limitations, depending on vessel's freeboard, (OBO's – ore/oil vessels, etc.) and also the prevailing weather conditions.

RADIO: Oasis maintains direct communication with Tripoli Radio, details of which are shown in publication 205 of the U.S. Hydrographic Office and are included in the Berne Lists. Oasis also maintains a VHF station at Es Sider Terminal.

Cables should be addressed to: Oasisoil Tripolilibya. Cables addressed in this manner will be received directly by the Oasis communications centre in Tripoli and relayed immediately by voice radio or teletypewriter to the terminal at Es Sider.

Within 6 hours of clearing its last port for its voyage to Es Sider, each tanker shall provide the Terminal with the following information by cable addressed to Oasisoil Tripolilibya:

(*a*) The name of the tanker.
(*b*) The name of the port from which the tanker last cleared.
(*c*) The date and hour of the ETA at Es Sider Terminal.

When the Master of the tanker en route to Es Sider is of the opinion that his tanker is within 72 hrs. of arrival at Es Sider, he shall notify the Terminal by cable addressed to Oasisoil Tripolilibya, providing the following information:

(*a*) The name of the tanker.
(*b*) ETA at Es Sider.

When the Master of the tanker en route to Es Sider is of the opinion that his tanker is within 24 hrs. of arrival at Es Sider, he shall notify the Terminal by cable addressed to Oasisoil Tripolilibya, providing the following information:

(*a*) The name of the tanker.
(*b*) ETA at Es Sider.

When the Master of the tanker en route to Es Sider is of the opinion that his tanker is within 12 hrs. of arrival at Es Sider, he shall notify the Terminal by cable addressed to Oasisoil Tripolilibya, providing the following information:

(*a*) The name of the tanker.
(*b*) ETA at Es Sider.

4 hrs. before the Master expects to arrive at Es Sider to receive a Mooring Master on board, he shall notify the Terminal by cable addressed to Oasisoil Tripolilibya, and also pass the same by VHF radio, providing the following information:

(*a*) The name of the tanker.
(*b*) Precise ETA at Es Sider.

If the tanker is equipped with a FM radio-telephone in the 156–162 mc/s band, communications may be established with the Es Sider Terminal dispatcher by calling on Channel 16, 156.8 mc/s. This frequency is monitored continuously. The range of the Terminal station is approximately 100 miles.

When the Master submits his first ETA to the Terminal he shall indicate the time he expects to need for discharge of ballast.

ARRIVAL PROCEDURE: Tenders to load crude oil cargo will normally be accepted and berths will be assigned to tankers in order of arrival, provided they have valid nominations for cargo and carry clean ballast, if any, and are in all respects equipped and ready to berth. In the event that berthing is delayed on account of weather, tankers will normally keep their position in line. Tankers required to leave Terminal area on account of weather (port closed) shall maintain contact with the Terminal via Tripoli Radio or VHF so they will be available when the weather moderates. Oasis reserves the right to load tankers out of turn following the return of good weather, to the extent that such loading "out of turn" does not materially delay the loading of other tankers in line. Further, Oasis reserves the right to decline to berth a specific tanker if its condition or facilities are unsafe for berthing or loading, even though the Terminal may be open to other tankers. Oasis Marine Superintendent's decision shall be final.

As soon as practical after arrival, all tanks will be inspected for evidence of oil in ballast. Similar inspections will continue during discharge of ballast. If evidence of oil appears at any time, the tanker shall be rejected forthwith and shall not again be accepted until it is shown the ballast can be properly discharged.

If during inspection or during progress of loading it is revealed that tanks are not tight or that oil is leaking from the tanker, it shall be rejected from further loading. Tanker shall not be later accepted for loading unless satisfactory evidence of repair is submitted, duly certified by Lloyds or ABS Surveyors, or other recognized surveyors.

Upon arrival at the Terminal of Es Sider in recommended anchorage, the Master shall give notice of readiness to load by wireless or VHF but not before one or other of the following events shall have transpired:

(*a*) The Master shall have received the Mooring Master on board; or
(*b*) The Master shall have dropped anchor in the anchorage.

However, the notice of readiness shall not be accepted unless the tanker is in every respect ready to load.

In reporting readiness to load, the Master of any vessel arriving at Es Sider for the first time shall state whether the flanges on the manifold of his vessel are such as to permit hose connections without modification.

A tanker shall have sufficient ballast for safe handling. Careful watch of the weather, frequent interchange of information between the tanker and the Terminal and the knowledge of the behaviour of his tanker may permit the Master to bring his tanker with minimum of ballast and thereby reduce the possibility of violating sea pollution requirements.

HEALTH: Tankers shall fly "Q" on arrival by day and display a red light over a white light at night to indicate quarantine conditions.

TUGS: Not required. Oasis maintains launches to assist in berthing tankers. These are under the direct supervision and control of the Mooring Master.

BERTHING: Three open roadstead submarine sea loading berths are available for loading crude oil at flow rates up to 40,000 barrels per hour. These berths are of the seven-buoy type. The berth headings are North. The fourth berth is a mono-mooring buoy with a flow rate of 30,000 b.p.h. In all four berths ships should pick up hoses on the port side.

The central spar buoy of the Easternmost loading berth at Es Sider is located at 30° 38′ 58″ N. Lat. and 18° 22′ 43″ E. Long. The middle of the three loading berths at Es Sider is located at 30° 39′ 06″ N. Lat. and 18° 22′ 06″ E. Long. The Westernmost loading berth at Es Sider is located at 30° 39′ 35″ N. Lat. and 18° 21′ 53″ E. Long. All conventional berths are approximately one mile from shore and in approximately 65 ft. of water. The mono-mooring is located at 30° 40′ 31.5″ N. Lat. and 18° 21′ 43.7″ E. Long. It is about two miles from the shore in approximately 80 ft. of water.

Tankers shall have at least eight good synthetic fibre lines of not less than 9 ins. circumference and at least 120 fathoms in length, with an eye spliced in each end. These lines shall be placed out free for running, three on the after end of the after well deck, and five on the poop deck. The three lines on the well deck shall be married together so that if the need arises the double length can be run on either side of the tanker.

After the tanker is securely berthed, the submarine hose shall be lifted amidships on the port side. The base lift may weigh up to five tons. Hoses shall be lifted and connected by the tanker crew. The Mooring Master shall advise the tanker's officer-in-charge concerning lifting techniques; however, the responsibility for all operations shall remain with the officer.

Mono-mooring: Vessels are normally moored by two bow lines only, these being provided by Oasis. A selection of wire strops and shackles will also be placed on board for mooring purposes. Mooring lines are hove in until the length of chafing chain is brought inboard. According to the mooring arrangements, the Mooring Master will advise on the method of securing the vessel. Ship's wires or ropes may be required to back up mooring equipment supplied by Oasis. Smits towing brackets will be utilized when fitted. Under no circumstances shall the weight of the ship be taken on lead-in ropes.

On advice from Oasis that a vessel is to load on the mono-mooring, she will have the following ready before the Mooring Master boards:

(a) Port side derrick to be rigged ready to lift various wire strops, shackles, and hose securing equipment. This equipment will be placed on board at the same time as the Mooring Master, or as soon as possible thereafter, who will advise on its disposition.

(b) Forward, the vessel should have ready two good synthetic fibre mooring lines, at least 9 ins. circumference, two good 4 in. circumference rope messengers at least 400 ft. long, or two 3 in. wire messengers of the same length, each fitted with a suitable screw shackle. Also a crowbar, spikes and hammers.

(c) No moorings will be required aft.

(d) The vessel shall make a lee on the port side.

It is essential on this berth that the hoses be picked up immediately mooring operations are complete. On advice from the Mooring Master, part of the ship's crew must be standing by at the port manifold for this operation.

Hose lifting and connecting operations are basically the same as in conventional berths, except that hose strings are floating.

Vessel's engines must be ready at all times, and under no circumstances is the propellor to be turned ahead without prior consent of the Mooring Master. Failure to comply with this may result in cessation of operations, and possible rejection as being unsuitable for a single point mooring.

In adverse weather, a continuous lookout may be required on the forecastle head, by a responsible person, to keep watch on the moorings.

In adverse weather the Mooring Master may require cargo to be loaded, in the initial stages, into the forward compartments and this should be complied with when requested.

Vessels are encouraged to load and deballast at the same time where this is possible. In the case of vessels with permanent ballast tanks, this ballast should not be started without first consulting the Mooring Master.

LOADING: Shore Stops: If it is requested by the Master of the tanker that the cargo flow should be stopped from the shore at a predetermined tonnage, it must be clearly understood that Oasis Oil Company of Libya, Inc. will not be held responsible for any error and that in the case of overloading, the excess cargo cannot be pumped back ashore.

Vessels are encouraged to load and deballast at the same time.

BALLAST: There is absolutely no provision at the Es Sider Terminal for dirty ballast. Tankers with dirty ballast shall be rejected and all costs accruing therefrom shall be for the tanker's account.

It is the Master's responsibility to see that no oil of any kind is pumped or spilled overboard from his tanker. This includes oily water from bilges, residuals from previous voyages or any other matter that may result in pollution of the sea. Owners and Masters are invited to examine all laws concerning pollution of the sea, especially in regard to the Mediterranean Sea area. Inspections may be made by the Libyan Ports & Lights Authorities, whose opinion of the cleanliness of the ballast shall be final.

The waters in and adjacent to the Terminal of Es Sider must not be polluted, and only clean oil-free ballast may be discharged anywhere inside of a line 100 miles to seaward and roughly parallel to the Libyan Coastline.

Prior to acceptance all tanks will be inspected for evidence of oil in the ballast and during discharging similar inspections will continue.

Masters are warned that when disposing of dirty ballast outside Libyan waters, all pipe-lines, sea-suctions, strainers and pumps that are later to be used to discharge clean ballast, must be flushed clean so that there will be no chance of even a small amount of pollution when the clean ballast is pumped out.

Any vessel required to return to a position at least 100 miles offshore, for the purpose of discharging dirty ballast, cleaning tanks or for any similar reason, automatically nullifies any Notice of Readiness already tendered and at the same time loses any priority held for loading. On return from sea, vessel will be entered for loading at the time of the second arrival, when a new Notice of Readiness will be tendered.

Master's attention is directed to Es Sider Notices concerning oil pollution and to the serious consequences of discharging dirty ballast, besides having his tanker rejected.

MEDICAL: Doctor will only attend vessel if patient unable to attend clinic ashore. Accommodation ladder required.

FRESH WATER: Not available.

FUEL: Not available.

REPATRIATION: No facilities exist for crew change or repatriation.

TIME: GMT plus 2 hrs.

REPAIRS: When a tanker is in or near the berth, its engines shall remain ready with full power for immediate use. Engine repairs shall not be performed near any berth.

WATCHMEN: Not less than one capable deck officer and three able seamen shall be available on the deck at all times. No person under the influence of alcohol shall be allowed on deck. The Mooring Master's opinion on the sobriety of an individual shall be final.

CUSTOMS ALLOWANCES: Cigarettes, cigars, tobacco, spirits, wines, beers, perfume, arms, ammunition, saccharine, and certain other items shall be placed under Libyan Customs seal from the time of arrival in port until such time as the tanker has left territorial waters. Each officer and crewman is allowed the following ration for each day the tanker is in port: *(a)* 25 cigarettes per day, or 25 grammes of tobacco or 25 grammes of cigars. *(b)* One litre of beer or 0.5 litre of wine. *(c)* Special provisions are sometimes made for the Master.

CONSULS: Consulates are located in Tripoli, which is approximately 650 km. by road from Es Sider. Some countries having Consulates are: Algeria, Argentina, Belgium, Brazil, Chad, Czechoslovakia, Denmark, Finland, France, Ghana, Greece, India, Italy, Japan, Jordan (represented by Indian Embassy), Kuwait, Lebanon, Morocco, Nigeria, Nationalist Republic of China, Pakistan, Saudi Arabia, Spain, Sudan, Syria, Sweden, Switzerland, Tunisia, Turkey, United Kingdom, United States of America, Union of Soviet Socialist Republics, Venezuela, West Germany and Yugoslavia.

GENERAL: When a Mooring Master and his assistants (launch crews and possibly apprentice Mooring Masters) are assigned to a tanker, the tanker shall supply them with meals at the same time and in the same manner as comparable personnel of the tanker. No special meals or special foods shall be required. The terminal will keep this item to a basic minimum. The intent is that the furnishing of meals to Oasis personnel be kept to the minimum.

No boats may be lowered into the water, except in an emergency.

Adequate deck lighting must be available for night mooring and loading. A good floodlight will be required to illuminate the area around the submarine and cargo hose connections during hosing and loading operations. During the discharge of ballast at night, the sea area around the vessel must be adequately lighted. If vessel is berthed on mono-mooring buoy, in addition to the foregoing, lights MUST be provided on forecastle head and over bow to facilitate supervision of moorings.

Stores of any sort shall not be handled while tanker is under "Notice of Readiness". No stores shall be handled while the tanker is in or near a berth.

Use of anchor marker buoys recommended.

Should any tanker or craft become an obstruction in any part of the Terminal or approaches thereto, or in any area of the submarine pipe-line. Oasis shall be empowered and shall have the right to take any steps it may deem necessary to remove the obstruction without notice to the owners. All expenses of such removal shall be borne by the tanker or craft or by those owning it at the time of the accident causing the obstruction, and Oasis shall be entitled to reimbursement by them for any such expenses incurred by it.

Power must be available at all times on all deck winches and on anchor windlass while the vessel is in the moorings.

If mooring wire winches are used, wires should be secured so as to enable them to be quickly let go from the vessel without damage.

Only in an emergency shall the tanker manifold valves be closed against crude flow, and then only with the Mooring Master's consent.

Should communications fail, the cessation of loading may be effected by a continuous sounding of the ship's whistle. This procedure will then stop the loading of all tankers in the area.

The bridge and/or control area shall not be locked nor otherwise arranged to prevent immediate entry at all times by the Mooring Master.

In adverse or marginal weather conditions Mooring Master may request that extra personnel be placed on duty on deck for tending moorings or hoses as required. Masters are advised to comply with this request.

The Mooring Master shall witness the plugging of all scuppers. Failure to plug scuppers shall result in the tanker's rejection.

The presence of unauthorized craft alongside a tanker will render it unacceptable. It shall be the duty of the tanker's personnel to clear all such craft away from the tanker.

When tankers are loading or discharging crude oil or ballast, and while tank tops are open or ullage plugs are open, boiler tubes shall not be blown. Every precaution shall be exercised to prevent sparks escaping through the funnel or stack or from the galley stack. The Mooring Master may demand all fires extinguished if he deems it necessary for safety.

Under the interpretation accorded to the Libyan "Boycott of Israel" Law, it is considered to be a violation thereof if a vessel calling at a Libyan terminal has on board any item of Israeli origin, irrespective of the nature thereof, including but not limited to manufactured products, fruit and vegetables, as well as empty crates, cartons, bottles and paper wrappings, regardless of the country where any of the foregoing was obtained. The law is strictly enforced, and the minimum penalty for violation thereof normally includes a fine and confiscation of all such items. Fines can exceed $1,000.

SHORE LEAVE: None of the officers and none of the crew of any tanker shall be permitted shore leave at Es Sider.

AUTHORITY: Operated by Oasis Oil Company of Libya, Inc. Owned by The National Oil Corporation of Libya, Amerada Petroleum Corporation of Libya, Continental Oil Company of Libya and Marathon Petroleum Libya Limited.

MARSA AL HARIGA: 32.04 N 24.00 E.

(See Plan Book)

(Also refer to "General–All ports").

LOCATIONS: Marsa al Hariga Oil Terminal is located on the South side of the harbour of Tobruk, approximately 1 mile Eastward of Marsa al Hariga.

OPERATORS: Arabian Gulf Exploration Company.

APPROACHES: Vessels bound for the terminal should approach the harbour of Tobruk from the North-East with the lighthouse on Tobruk Point bearing 238° (true). In daylight this lighthouse should be kept in line with the conspicuous German War Memorial on the South side of the harbour.

When about 4 miles from Tobruk Point, course should be altered to 224.5° (true) to bring the leading lights on Marsa Umm esc-Sciausc in line. This course should be maintained until the vessel is close to the outer buoy, where one of the company's Berthing Masters will board.

Deep-drafted vessels sailing from the terminal should avoid navigating North-Westward of the leading line from Marsa Umm esc-Sciausc, owing to the presence of shoal water off Tobruk Point.

DOCUMENTS:

A. Customs Requirements. On the arrival of a vessel, the Tobruk Customs Authorities will require from the Master of the vessel:

4 copies of a Crew List.
2 copies of a List of Ship's Stores.
2 copies of a Declaration of the Crew's Personal Belongings, including currency, cigarettes, gifts, etc.
4 copies of a Passenger List.

B. Harbour Master's Requirements. On the arrival of a vessel, the Tobruk Harbour Master will require from the Master of the vessel:

1 copy of a Crew List.
1 copy of a Passenger List.
1 copy of the Ship's Manifest.
1 copy of a Port Declaration (form will be made available to each vessel on arrival).

PILOTAGE: Vessels coming to and departing from the Terminal will be berthed and unberthed by Berthing Masters provided by the company, subject to the understanding that in all circumstances the Master shall remain solely responsible on behalf of his Owners for the safety and proper navigation of his vessel.

Berthing Masters will board at the Outer Buoy.

ANCHORAGES: If a berth is not immediately available on a vessel's arrival off the harbour of Tobruk, the vessel will be advised by the company where she is to anchor.

Anchorage position for tankers waiting to be berthed is 1.5 miles N.E. of the Outer Buoy.

MAX. SIZE: Two berths are located at the end of a T-head jetty which extends some 700 ft. from the shore. There is a min. depth alongside of 60 ft. and approach to and departure from the berth can be made in not less than this depth of water. Max. draft 52 ft. freeboard at any time whilst deballasting must not exceed 40 ft.

A buoy berth is situated some 1,200 ft. from the shore approximately 1,800 ft. West of the Jetty Berth No. 2. There is a min. depth in the buoy berth and its approaches of 49 ft.

HEALTH: The Libyan Authorities will grant clearance by radio of a vessel coming to the terminal. Radio messages requesting clearance should be sent not earlier than 48 hours prior to vessel's arrival off the harbour of Tobruk and should give the details required in the Maritime Declaration of Health which must also be completed.

COURTESY FLAG: On entering the territorial waters of the Libyan Arab Republic which commence 6 miles off the coast of Libya, vessels should if possible, hoist the Libyan flag, and in any event the Libyan Flag must be hoisted before entering the harbour of Tobruk. Should a vessel arrive without a Libyan Flag on board, one may be obtained from the Company's Berthing Master when he boards at the Outer Bay.

ARRIVAL MESSAGES: In addition to their arrival messages to Agent, vessels must pass an arrival message to the terminal via the company's radio station giving at least 72 hours notice of ETA and advising their estimates of:

(*a*) The quantity of cargo (in long tons) to be loaded at the terminal.
(*b*) The cargo loading rate (in long tons) per hour.
(*c*) The quantity of ballast (in long tons) to be discharged ashore at the terminal.
(*d*) The ballast discharge rate (in long tons).

If, subsequent to advice of their ETA there is any material change, a further ETA message must be passed via the company's radio station.

RADIO: Tobruk Radio 5 A1 (MF & HF). Position: 32° 02′ N. 24° 00′ E. Frequency: 420, 500 A1, A2, 0–5 kW. 4241 kHz at 2130 GMT, 8480 kHz at 1730 GMT, 16963 kHz at 0930 and 1330 GMT. All using A1 0–5 kW.

Note: Station owned by Arabian Gulf Exploration Company. Company telegraphic address: "Injaz Tobruk". All times given are GMT. Station keeps watch on 500 kc/s. during 24 hours.

TUGS: For berthing and unberthing at the terminal, vessels will be required to use the 2 diesel tugs which are available at the terminal. Each of these diesel tugs has a bollard pull of approximately 25 tons.

BERTHING: *Jetty:* Vessels will berth on the jetty starboard side alongside, depending on the prevailing weather conditions, though starboard side alongside is preferred. Each berthing head is "T" shaped and is protected by 4 breasting dolphins.

All moorings, except the backsprings to the outer breasting dolphins at Jetty Berth No. 1, attached to quick release hooks.

Buoy Berthing: Berthing/unberthing in daylight only.

Vessels will berth heading East or West depending on the prevailing weather conditions, though head East is preferred. The moorings consist of four buoys, 1 buoy being on each bow and 1 buoy on each quarter.

In addition to the vessel's mooring of 2 ropes to each buoy, the mooring wires provided by the company to each buoy must be utilised and vessels moored to the satisfaction of the company.

The company's Berthing Master will remain on board the vessel whilst the vessel is in the buoy, to supervise and co-ordinate the ballast discharging and loading operations.

HOSES: *Jetty:* Ship-shore connections, 4 flow booms with suspended rubber hoses, diameter of hoses 12 in. Flange size and rating 12 in. ASA 150. Full range of standard adapters available.

Buoy Berth: Ship-shore connections, 3 flexible hoses, 2 crude oil loading, 1 ballast discharging, diameter of hoses 12 in. Max. lift from ship's equipment 5 tons. Flange size and rating 12 in. ASA 150.

PNEUMATIC OIL BARRIER: Although it is emphasised that all precautions must be taken by vessels to avoid any leakage or spillage of oil into the harbour the berths are each protected by a pneumatic oil barrier to contain any oil which may, due to unavoidable circumstances, get into the harbour waters.

A pneumatic oil barrier consists of a pipe-line which is laid on the harbour bed around the berth. Through this pipe-line is pumped compressed air which escapes from the pipe-line via small holes in it. As a result of this escape, the surface of the water above the pipe-line is forced upward to form a "mound" of water which encloses the berth and prevents any spillage from spreading.

While vessels are berthing and unberthing the barrier will be kept in operation and the disturbance on the surface of the water will indicate the position of the pipe-line. To avoid damage to the pipe-line, it is essential that vessels do not drop their anchors in this vicinity.

BALLAST: Vessels should make every effort to arrive at the terminal with clean ballast and with the minimum quantity for safe handling under prevailing weather conditions.

All ballast must be discharged into shore tanks provided by the company, unless it is clean ballast, carried in tanks which are completely isolated from the vessel's cargo system. However, the discharge of such ballast into harbour waters must not be commenced until the ballast has been inspected by a company official, and he has certified that it is in order to commence discharge.

Ballast can be accepted into the company's store tanks at rates up to 6,000 t.p.h. from the jetty berths and 1,500 t.p.h. from the buoy berth. Ballast is discharged ashore over the jetty by way of a loading boom. Ballast is discharged ashore from the buoy berth through a separate 24-in. ballast discharge line connected to a 12-in. flexible hose. Max. quantity 35,000 tons.

LOADING: Cargo loading at each jetty berth is by means of four 16-in. flow booms to which 12-in. flexible hoses are attached. Cargo loading at the buoy berth is by means of a 34-in. submarine line to which two 12-in. This system permits a max. loading rate of approximately 8,000 t.p.h. over each jetty berth, and 4,000 t.p.h. through the buoy berth. The actual loading rate for a particular vessel will be determined prior to the commencement of loading by agreement between the Master and the Company.

The following signals will be exhibited by a vessel whilst in the buoy berth to indicate the nature of the operation taking place, and to provide a second channel of communication should VHF contact be broken between ship and shore.

	Day	*Night*
Deballasting	Code Flag N	1 green light
Slow loading	1 red flag	1 red light
Full loading	2 red flags	2 red lights
Stop	flags lowered	lights out
Require launch	Code Flag L	signal lamp
Fire emergency	Continuous sounding of short blasts on whistle or siren	

These signals will also be repeated ashore from a mast situated on top of the main administration office building, which is situated opposite the buoy berth.

Jetty: Method: gravity loading, max. head 360 ft. rate regulated to requirements. Loading rates: 2 lines each 4,000 t.p.h. Two 8,000 t.p.h. max.

Buoy Berth: Method: gravity loading, max. head 350 ft. rate regulated to requirements. Loading rate 4,000 t.p.h.

SAFETY: A copy of the Regulations will be given to Master when Company's Berthing Master boards at outer buoy. Masters should make themselves thoroughly acquainted with these Regulations, strict observance of which is required by the Company.

In the event of any infringement of the Regulations, operations may be stopped and, if so, will not be recommenced until the Company is satisfied that appropriate action has been taken by the Master to comply with all the Regulations. The Company also reserves the right to unberth a vessel in the event of a continued or blatant disregard of any of the Regulations. Any loss or expense to the Company resulting from an infringement of the Regulations and, in particular, in the event of an infringement leading to an interruption of operations and/or unberthing of a vessel, will be for the account of the Owners.

FRESH WATER: Not available.

FUEL: Not available.

REPAIRS: No shore facilities for carrying out repairs to vessels either at the terminal or at Tobruk.

CONSULS: No Consulates at Tobruk and the nearest locations of Consular officials are as follows:

Benghazi – 445 kms. from Tobruk: France, Germany, Greece, Italy, Saudi Arabia, Tunisia, United Kingdom of Great Britain and Northern Ireland, United States of America, U.S.S.R.

Derna – 175 kms. from Tobruk: Turkey.

El Berda (Beida) – 260 kms. from Tobruk: Belgium, United States of America.

CUSTOMS ALLOWANCES: Cigarettes, cigars, tobacco, matches, spirits, wines, beer, perfume, arms, ammunition and saccharine have to be locked up under Customs' seal from time of vessel's arrival in harbour of Tobruk until time of departure.

Whilst in harbour, each member of crew allowed following: 200 cigarettes (the Master will be allowed 400); half bottle spirits (the Master will be allowed 1 bottle); 4 bottles of beer or wine per man per day.

No fixed allowances for cigars and tobacco.

Libyan law prohibits vessels from having on board any goods or containers of Israeli origin. Any vessel having such goods or containers on board on arrival in the harbour of Tobruk will be liable to a heavy fine and confiscation of the goods or containers. The Libyan Authorities may, moreover, refuse to clear the vessel.

REGULATIONS:

1. *Ship's Garbage.* Whilst within limits of harbour of Tobruk the throwing overside of ships' garbage is prohibited.
2. *Ships' Radio.* Once vessel berthed at Terminal the use of her radio will not be permitted.
3. *Ships' Boats.* Use of ships' boats not permitted within limits of harbour of Tobruk.

MARSA EL BREGA: 30.25 N. 19.34 E.

Also refer to "General – All Ports".

FLAG: All ships should fly the Libyan flag when inside territiorial limits. They should make sure that they have a Libyan flag on board before leaving the last port of call. Failure to fly the Libyan flag may result in a heavy fine.

Libyan Law does not permit ships using Libyan waters to retain Israeli flags, stores or literature pertaining to Israel on board, even though these may be normally part of the vessel's navigation equipment.

DOCUMENTS: Customs and Immigration officials will board the vessel, except in adverse weather. All relevant documents are supplied by the Mooring Master and on completion of mooring the Master will fill in, sign and stamp the papers. These will then be handed over to the authorities before clearance for loading is granted.

Letters on ships' business should be addressed to Esso Standard Libya Inc., P.O. Box 385, Essofield, Marine, Tripoli, Libya, and should be marked "Marine Documentation Section".

Vessels calling at Marsa el Brega should have the following documents in addition to the ship's register.

Customs and Ports and Lights Authorities Forms:

A. Port Declaration – Form P.L. 7 (1 copy)

B. (Title in Arabic) Inward Report – Form C.L. 128 (3 copies)

C. Cargo Manifest Inward – Form C.L. 1 (3 copies)

D. Report Outwards – Form C.L. 4 (3 copies)

E. Crew Manifest Inwards – Form C.L. 31 (2 copies)

F. Export Manifest Form C.L. 155 (6 copies)

G. Certificate of Discharge for last cargo of Libyan crude. If vessel has not called at a Libyan port since October 18, 1973, then a letter is required from the Master, addressed to the Ministry of Petroleum, stating that he undertakes to mail the Certificate of Discharge, for the present cargo, from the Port of discharge.

It is essential that the certificate of discharge on board the vessel must be clearly signed and stamped by the Authorities at the port receiving the last Libyan cargo. Vessels may incur delays or be refused loading permission where this is not complied with.

Required when ships clear inwards, lists each member of the crew and all goods held (e.g. liquor, cigarettes, cameras, money, etc.) with crew member's signature opposite name or rank. This form is ordinarily supplied in advance so that it may be completed prior to arrival at Brega. Ships making their first call at Brega must necessarily complete after arrival, but will then receive advance forms for future calls.

Cargo ships also require ship's cargo manifest form (3) with same information as C. above.

Ship's Forms required by Customs:

A. Crew List – ship's form (3 copies)

Submitted for inward clearance and containing the following information:

List of crew members, type of vessel, nationality, date of arrival, place from which arrived, destination, and estimated date of departure. Sign and stamp with ship's stamp.

B. Stores List – Ships form (2 copies)

A list of ship's stores required when ship clears inward. Sign and stamp with ship's stamp.

C. Clearance from Last Port – Port's form (1 copy)

Required for inward clearance to load at Brega. Must be properly signed and stamped by officials of port of previous call. There are exceptions on requirement for this clearance dependent on ship, nationality and last port of call.

Other Forms: (Not required of cargo ships)

A. Report of Cargo and Ship's Ullages (original)

B. Tanker Time and Loading Report (original)

(A mimeograph original to be signed by the Master and returned to ship's Agent).

C. Certificate of Cargo Discharge (4 copies)

Master signs and stamps 1 copy at bottom of form, and returns it ashore.

Additional 3 copies are completed by Master at port of discharge and stamped and signed by Customs authorities. 1 copy should then be air-mailed to Ministry of Petroleum, Tripoli. The second copy air-mailed to Marine Superintendent, c/o Essofield. Marine Division, P.O. Box 385, Tripoli, and the third copy retained on board for presentation when the vessel next calls at Brega.

Notes on Ship's Documentation:

Agencies: E.S.L.I. no longer supply an agency service. Vessels should nominate Universal Shipping Agency, which is a government agency for all vessels calling at Libyan oil ports. In the event that Universal Shipping Agency has not been nominated, the Master will be required to sign a letter nominating them before permission to load can be given.

Information required by Esso Standard Libya Inc. prior arrival

The Owner, Charterer or Agent should airmail or cable following to Esso Standard Libya Inc., PO Box 385, Esso Field, Marine, Tripoli, cable address Essoship Tripoli:

(1) Name and flag of vessel.
(2) Dimensional characteristics, e.g. overall length, beam and max. draft.
(3) Total tonnage, number and type of products or cargo on board.
(4) Number and size cargo hose connections on either side and distance in feet of each from the bow.
(5) Safe working load of derricks in vicinity those connections.
(6) Number of shackles of chain (90 ft. shots) on each anchor.
(7) Whether or not VHF fitted.

Information concerning dimensional characteristics need not be included in letter or cable after first call.

LOCATION: Marsa el Brega is located in the South-Eastern part of the Gulf of Sirte in Lat. 30° 25′ 0″ N., Long. 19° 34′ 3″ E. It is an open bay contained between Ras Magdar and an unnamed headland some 3 miles to the West.

The Brega sea buoy is located in Lat. 30° 27.55′ N., and Long 19° 35.1′ E. A bow mooring oil loading fixed structure is located in Lat. 30° 26.0′ N., and Long. 19° 33.9′ E., with a fixed red light exhibited at a height 93 ft. above mean sea level. In addition, the structure is lighted by floodlights. Brega is radar controlled with the shore installation scanner in position 30° 25′ 02.5″ N., and 19° 34′ 55.6″ E. The height of the scanner tower is 112.2 ft. The Radio Beacon is located in Lat. 30° 25′ 00″ N., and Long. 19° 34′ 14″ E. The call sign is "M.B." and it operates continuously on a frequency of 403 kc/s.

A single point mooring is located in position Lat. 30° 26′ 45.26″ N., and Long. 19° 34′ 01.40″ E. A single flare is located in position 30° 24′ 31.9″ N., and 19° 35′ 49.7″ E. Three other flares are located approximately 700 ft. to the West and S.W. The flares when burning can be seen at extreme distances. Numerous lighted and unlighted navigational and mooring buoys are located within the restricted area shown on BA Chart 3350.

PILOTAGE: The services of a Pilot/Mooring Master are provided without charge. He will normally board the vessel in the vicinity of the Brega buoy and will advise the Master on approaches to the berths, mooring and unmooring, connecting and disconnecting cargo hoses, and all other operations within the berthing area. Vessels are cautioned not to enter the restricted area mentioned above without the services of a Brega Pilot/Mooring Master. Pilot ladder must conform to international safety standards.

HEALTH: Quarantine signals must be displayed upon entering Brega port limits in accordance with international practice and shall be continuously displayed until pratique is granted.

ANCHORAGE: Anchorages located 0.5 mile N.E. to East of Brega buoy in 12 to 18 fathoms. *Vessels should not remain at anchor in bad weather.* Vessels not permitted to anchor within 0.5 mile of the channels into the bay and inner harbour.

RADIO: Vessels bound Marsa el Brega not required call Tripoli for inward or outward clearance. Radio messages should be sent through Tripoli (via Malta if beyond communication range of Tripoli) and ETAs should be sent at least 48 hours but preferably 72 hours in advance. Master should state whether ETA in GMT or local time.

Unless 24 hours notice of ETA is received by "Essoship, Tripoli", Notice of Readiness will not be accepted.

As cable office closed between midnight and 0800 hrs., allowance for delays in receipt of radio messages due to this and other causes should be made when sending ETAs and other urgent traffic.

Esso Standard Libya Marine Terminal equipped with short-range Radio/VHF Telephone Port Control System. The following procedure should be adhered to: Vessels approaching Brega and equipped with VHF should call Brega Port Control on Channel 16. Channel 16 is reserved for "Calling", "Safety", "Emergency". When contact made, vessel will be allocated one of the four working channels: Channel 13, Channel 12, Channel 9, Channel 6. Esso Libya's Pilot launch is equipped to operate on these channels. Portable radio sets available for vessels not fitted with VHF.

TUGS: Esso Standard Libya Inc. maintains tugs and mooring launches to assist vessels to moor and unmoor.

BERTHING: Tankers: *Connecting of Cargo Hoses:* All cargo hoses used in the sea berth and at the bow mooring have 12 in. American Standard flanges. The hose used on No. 5 berth SPM has 16 in. American Standard flanges. Raising, connecting, disconnecting, and lowering of the hoses used in all berths will be performed by the ship's crew as advised by the Pilot/Mooring Master who will remain on board while the ship is in the mooring. Vessels should arrive with port derrick topped and ready for use.

Ballast: Esso Standard Libya Inc. has no facilities for the discharge of dirty ballast in Brega. Accordingly, all ships must arrive with clean ballast. International oil pollution regulations must be strictly observed by all ships while in Libyan waters.

Vessels should have sufficient ballast aboard for safe manoeuvring, but should not arrive excessively ballasted. The propellor should be submerged and the vessel trimmed not more than 8 ft. by the stern.

Vessels not properly ballasted will not be berthed in order of arrival and will not have their Notice of Readiness accepted.

Loading and Deballasting Simultaneously: Vessels properly equipped will be encouraged to discharge clean ballast and load oil simultaneously subject to the loading rate being reasonable, and that this procedure does not unduly delay the discharge of clean ballast.

Mooring Ropes: Tankers calling to load at the crude/naphtha sea berth should be equipped with a minimum of eight 10 in. circ. fibre or synthetic mooring ropes in good condition, not less than 120 fathoms in length. Mooring wires of equivalent strength are acceptable. A fibre or synthetic mooring rope in good condition must be available for towing vessels into berths by tug. It is recommended that 3 ropes be ready for use on the main deck. One on each side and one amidships joined to the others.

Crude Tanker Sealine Berths Nos. 1 and 4:

Berths 1 and 4 are now out of service. The crude pipe-lines to these berths are still in position as charted.

Crude Tanker Sealine Berth No. 2:

The least depth of water in this berth is 44 ft. The 30 in. crude line is approx. 8,000 ft. long with one hose string. Crude oil is loaded by gravity or pumps and rates up to 22,000 b.p.h. can be obtained. When berthed the tanker is heading 330° true with both anchors out forward, and 6–700 ft. of chain on each anchor. The stern is secure to 5 mooring buoys fitted with quick-release hooks. The submarine hoses are picked up amidships on the port side of the tanker and the vessel's derricks should have a safe working load of 5 tons.

A naphtha line with a single 12 in. connection is laid in this berth, the shore line being 24 in. In the event that a vessel loads naphtha, then both crude hoses will be taken on board first before connecting the naphtha hose. In good weather, Berth No. 2 can safely accommodate a 65,000 d.w.t. tanker with the following principal dimensions: 65,000 d.w.t.; length, 800 ft.; beam unrestricted, up to 42 ft. draft in good weather. Gravity of sea water about 1030.

Crude Tanker Sealine Berth No. 3 – bow mooring:

The bow mooring is located in approximately 95 ft. of water, and consists of a fixed pylon surmounted by a revolving boom from which hangs a submerged oil-loading pipe arm. The main structure has a diameter of 130 ft. and is 97 ft. above mean sea level at its highest point. The pylon is surrounded by a fender ring which is mounted on vertical steel piles. The revolving boom is 76 ft. in length from the centre of the pylon to the end. The loading arm hangs from a ball joint at the end of the boom and is approximately 560 ft. in length, terminating in a hose handling platform on the outer end. The hose platform is kept at the level of the ship's deck by means of a compressed air ballasting and deballasting system. Four 12 in. hoses hang from the platform. Vessels are normally berthed port side to the platform. Derricks should have a safe working load of 5 tons. A maximum loading rate of 65,000 b.p.h. may be realised with the loading pump in operation.

Vessels are moored in position using 2 head ropes to the bollards on the boom and with two 6 in. nylon back spring mooring lines to the hose-handling platform. In addition, a 6 in. nylon snubber line is used to keep the platform alongside the ship. In bad weather conditions two additional headlines consisting of 12 in. "Samson" nylon are available. Vessels with the following principal dimensions can be accepted: 100,000 d.w.t., overall 1,000 ft., beam unrestricted, draft 48–49 ft., bow to manifold not to exceed 434 ft. Larger vessels may be accepted with prior approval.

Crude Tanker Sealine Berth No. 5 – Single Point Mooring:

No. 5 SPM is located in approx. 140 ft. of water and is in position 30° 26′ 47″ N., 19° 34′ 01.4″ E. The mooring consists of a monobuoy to which are attached 2×15 in. synthetic lines. These are shackled to a single 3 in. chain partly around which is a flotation cover. On the end of the chain is a 9 in. polypropylene line.

Mooring is effected by heaving the polypropylene through the bow as near the centre lead as possible until the chain is on board, and then shackling two 12 in. perlon strops to open links in the chain. The strops and shackles will be placed on board with the Pilot and vessels are advised to have the port derrick ready to hoist the gear on board at that time. The vessel is also required to have a good 3.5 in. to 4 in. messenger line of at least 75 fathoms in length, ready for use on the fo'c'sle head.

The 48 in. pipe-line is approx. 11,850 ft. long, terminating at the underbuoy structure on the seabed. Crude is loaded through one string of self-floating 24 in. hose with one 16 in. over-the-rail hose to the ship's manifold. Vessel's derricks should have SWL of 10 tons and if necessary be double rigged. The weight of a normal lift for connection to the ship's manifold amounts to less than 5 tons. This is for a hose free of oil, which is usually the case. Vessels with the following principal dimensions can be accepted in this berth: 300,000 d.w.t. Length beam and draft unrestricted. Flow rate 48,000 b.p.h.

Berths Nos. 3 and 5:

Vessels entering the restricted area on the approach to, mooring and leaving, these two berths must at all times have their anchors firmly secured. No anchor work may be carried out at any time whilst a vessel is in this area.

Product Tanker Berth:

Tankers loading refined petroleum products to Marsa el Brega will be berthed at the product dock. Products will be loaded through a number of small pipe-lines approximately 2,000 ft. long. 3 in. or 6 in. hoses are provided according to the grades of oil being loaded. Vessels assigned to load at this berth must be suitably equipped with mooring ropes and have derricks capable of lifting 2 tons.

Vessels cannot be berthed or remain alongside the breakwater except in fine weather. The breakwater is equipped with resilient fendering and ample mooring points. Tankers will be berthed by an Esso Standard Libya Pilot/Mooring Master. Two tugs are available, and a launch will run the mooring lines. In good weather vessel with the following principal dimensions can be accepted: Overall length 500 ft., beam unrestricted, draft 26 ft. max.

Gas Docks: Two types of processed gas are loaded in Marsa el Brega: liquefied natural gas (LNG); pressurized liquefied petroleum gas (Press. LPG).

These are loaded on 2 piled berths situated on the Southeastern part of the harbour.

There are dolphins to head, stern and breast lines.

The springs are secured to the central pier and in addition springs from the pier are also made fast. Vessels alongside the gas jetties must be ready to leave at short notice.

On the North or "A" jetty the following products are loaded: Press. LPG and LNG. On "B" jetty: Press and LNG. There is also a caustic facility on "B" jetty. Minimum depth alongside the gas jetties is 37 ft.

Acid Dock:

There is a small berth to deal with sulphuric acid.

Dry Cargo Dock:

To nominate vessels, carrying cargo for Esso Standard Libya, for direct call at Marsa el Brega, prior approval must be obtained from Esso Europe Inc., Traffic Coordination, 50 Stratton Street, London, W.1., England. Telex No: EURESSPUR, 21221/5. The approval of the Operations General Manager, Brega, is required for any other vessel.

Notice of ETA Port Brega must be given 72, 48 and 24 hours prior to the vessel's arrival. Master of vessel should also advise number of stevedore gangs required.

A Roll-on/Roll-off facility can be used by suitable vessels at times when the product jetty is not occupied. Vessels dimensions should not exceed those described above for the product jetty.

Vessels assigned to discharge dry cargo at Marsa el Brega will be berthed alongside the dry cargo dock by an Esso Standard Libya Pilot/Mooring Master. The min. depth alongside and in the approach is 30 ft. Two tugs are available. A mooring launch will be available to run mooring lines. The dry cargo dock is fitted with resilient fendering and ample mooring points. During Winter it may be necessary to leave the berth during bad weather, and the Master is responsible for any damage sustained by the jetty and/or his vessel. A Pilot/Mooring Master will be standing by at all times.

All mooring ropes should be in good condition and none should have more than one short splice in the useable length. Crew shall keep the moorings tendered and properly lighted day and night. Shore ropes are also available when necessary.

Ships shall provide their own gangways and the crew shall keep them lighted and tendered, day and night. Ships must be equipped with adequate unloading gear. All cargo will be off-loaded with the use of ship's gear. When weather permits, derricks should be topped at sea prior to arrival. Due to the increase in cargo vessels calling at Brega, considerable delay may be experienced. Vessels carrying Esso cargoes have priority over all other vessels.

The length of the dry cargo dock is 650 ft. The max. size ship which can be accommodated is 500 ft. overall, beam unrestricted, *max. draft 26 ft.*

MEDICAL: There are limited medical and no dental facilities at Marsa el Brega. Personnel requiring urgent medical treatment may obtain it, but this will only be undertaken in serious cases. Masters of vessels arriving at Marsa el Brega who require medical treatment should give advance notice of their requirements by radio whenever possible.

FRESH WATER: No fresh water is available.

FUEL: No bunkers are available.

REPAIRS: No repairs are allowed to ship's engines while vessels are moored in the berths. Ship's engines should be ready for use on short notice in case the vessel has to vacate the berth suddenly because of bad weather. There are no repair facilities for ships available at Brega.

REPATRIATION: Crew members cannot pay off or leave the vessel at Marsa el Brega except in cases of emergency. Even in an emergency, it should be noted that seamen's Books are not valid under the Libyan law. A valid passport is required, and with adequate notice by radio it is possible to obtain an exit visa for a crew member leaving in an emergency.

SHORE LEAVE: Passengers and crew members are not permitted to land for reasons other than emergencies.

PORT REGULATIONS:
Cargo vessels:
The following restrictions, conditions, rules and priorities shall be observed by Masters, Consignees and Agents of Non-Esso cargo vessels calling at Marsa el Brega.

1. The permission of the Operations General Manager must be obtained before a non-Esso cargo vessel can discharge. The Operations General Manager also designates certain priorities which may change from time to time. Agents of cargo ships must keep in touch with Marine Superintendent who will advise them of the priority assigned to their vessel.
2. Maximum vessel draft 26 ft.
3. Maximum length overall 500 ft.
4. No repairs may be carried out to the propulsion machinery during the unloading operation and the ship must remain mobile and be ready to manoeuvre at all times.
5. Vessels must be equipped with their own unloading Gear.
6. Unloading must be from ship to truck and no marshalling arrangements can be made available inside the reserved area. The unloading operations must be completed rapidly.
7. Unloading operations may not be performed except during daylight hours as determined by the Marine Superintendent.
8. Loading trucks will be required to adhere strictly to Esso's safety rules, particularly while operating within the limits of the Industrial area.
9. Arrangements for the entrance and movement of the stevedoring personnel must be coordinated with Esso's Industrial Security Division. No housing or victualling will be provided for stevedoring personnel. All expenses, costs, remunerations and compensations associated with this activity will be borne directly by the company concerned.
10. The stevedores will be held responsible for cleaning up after completion of unloading.
11. No victual, water supply or bunkering service is available for vessels calling at Brega.
12. Advance notification must be given to Esso's Marine Division at least 10 days prior to arrival of vessel at Marsa el Brega. ETA of vessel to be notified 72 hours prior to arrival and confirmation and reconfirmation 48 hours and 24 hours respectively prior to arrival.
13. A system of priorities for cargo vessels entering Brega is in operation as follows: 1st – Esso cargo, 2nd – N.O.C. and contractors' cargo, 3rd – other vessels. This system will apply even though this requires interruption of operations of vessels already berthed.
14. Weather and sea conditions, particularly during the period December to April of each year, impose severe restrictions on the cargo pier usage. Among these restrictions are the discontinuation of unloading and the unberthing of the ships as a safeguard against ship and berth damage.

One hour's notice will be given to Masters should it be deemed necessary to vacate the berth due to bad weather.

15. Esso shall not be held reponsible for any waiting period or delay (demurrage) related to the entry of cargo ships, nor be liable for any costs or compensation in that connection, regardless of the circumstances.
16. Esso shall not be held liable for any loss, damage or injury that may occur to any property or persons whatever the cause thereof as long as they are related to or resulting from the use of the port. Such loss, damage or injury shall be the liability of the Master, Consignee or Agent irrespective of whether they are real or alleged. The above named shall also undertake to indemnify Esso for any such losses and damages and to hold Esso harmless from any liability that may arise as a result thereof.
17. All vessel movements will be subject to the control and direction of Esso's Marine Division Superintendent.

GENERAL: *Provisions:* There are no fresh or dry provisions available at Marsa el Brega, and Esso Standard Libya cannot undertake to obtain supplies from Benghazi.

Mail: The Ship's Agency will handle all official and crew ship's mail which should be passed to the Mooring Master before the vessel sails.

Harbour Work: Dredging is in continual progress in the vicinity of the inner harbour. Vessels are cautioned not to enter the restricted area (B.A. Chart 3350) without the services of a Brega Pilot/Mooring Master.

Master of cargo/product vessels calling at Marsa el Brega are cautioned that seaweed in suspension is present in the inner harbour area, and all precautions should be taken to avoid blockage of main engine room intakes.

All offshore loading is controlled by the VHF ship/shore radio. The Mooring Masters are equipped with portable VHF sets and the vessel will be assigned a frequency when the Mooring Master boards. In the event of total failure of ship/shore radio communication during loading, the ship should sound the emergency signal comprising a succession of short blasts on the ship's whistle. All loading operations will then cease until radio contact with the shore has been re-established.

DEVELOPMENTS: Work on the Eastern side of the harbour, comprising a new breakwater and facilities for the export of ammonia, methanol and urea are in the process of completion. A cargo jetty has been incorporated into the complex with a frontage of 1,000 ft. Limited movement of methanol and ammonia is in progress. On completion, it is hoped to be able to berth tankers of up to 36 ft. draft and 700 ft. length overall. The minimum depth in the new complex is designed to be 42 ft. 6 ins.

AUTHORITY: Esso Standard Libya Inc.

QASR AHMED (Misurata): 32.22 N. 15.13 E.

(See Plan Book)

GENERAL: The first stage of the harbour will be opened to the traffic in June 1978. The harbour is enclosed by 2 rubble mound breakwaters armoured by tetrapods. The North breakwater extends 1,400 m. due East from Ras Zarrugh Lighthouse and East breakwater extends 1,800 m. due North from the shore near the prominent radio station about 2 km. South of the North breakwater. There are lights on the breakwater roundhead. On the North breakwater a white flashing light (0.5 sec.) every 5 secs. The Ras Zarrugh lighthouse at the foot of the North breakwater is a square tower with black and white vertical stripes surrounded by a white metal framework. The structure is 8 m. high and is on the top of a 16 m. hill. The light is flashing white (0.5 secs.) every 5 secs. with a range of 8 miles.

There is a radio mast 7.6 miles W.N.W. of Ras Zarrugh with fixed red flashing lights. Harbour entrance leading lights are not yet installed. The harbour entrance channel is 150 m. wide dredged to a depth of 12 m., it has a fairway buoy 500 m. outside of the entrance with radar reflector, fog bell and white light flashing (0.3 sec.) every 3 secs.

Inside the entrance there is turning circle, diameter 470 m. dredged to 12 m. and marked with 4 buoys with white lights flashing (0.1 sec.) every 1 sec.

Inside the harbour a dredged area 920 m.×200 m. to a depth of 11 m. leads due South alongside the berth.

Directions: Keep 2–3 miles offshore before turning due West for entrance.

Currents: Predominantly N.W. at mean rate of 0.5 to 0.75 knots but in Winter winds can reverse the flow and induce S.E. set in excess of 1 knot.

PILOTAGE: Compulsory, Pilot will board about 1 mile outside the port entrance.

ANCHORAGE: Bearing approximately 270° to lighthouse on Ras Zarrugh 13 m. depth 1 mile (2 km.) offshore but holding ground is poor and it is advisable to leave anchorage at signs of onset of bad weather.

RADIO: A temporary VHF radio station will be operated on Channel 16.

BERTHING: There are 6 berths totalling 1,120 m. of concrete quay dredged to 11 m. with timber fenders and bollards at 150 m. intervals, the quay deck is at elevation of 2.25 m. The berths include a Ro/Ro facility.

CRANES: Shore crane of 50 tons available and in the near future floating cranes of 100 tons will be available.

FRESH WATER: Available alongside and by barge.

FUEL: Not available.

MEDICAL: Facilities available. There are hospitals in the town of Misurata 12 km. from the port and a first aid post in the harbour.

STEVEDORES: See "Tripoli".

REPATRIATION: Possible.

AIRPORT: Tripoli Airport situated about 220 km. from Misurata.

CONSULS: Nearest consuls are at Tripoli.

SERVICES: All kinds of food and soft drinks are available except alcoholic drinks and pork.

SHORE LEAVE: Allowed after free pratique, customs and immigration formalities completed.

REPAIRS: See "Tripoli".

POLICE/AMBULANCE/FIRE: Call Port Manager Tel. 21101 & 21094.

SHIPMASTER'S REPORT: December 1977.

Chart: British Admirality Chart No 3353 "Ras Ashdir to Sirte".

A mole has been constructed from Ras Zorog in an East direction, the length of which is approximately 1,100 m.

A second mole extends from the shore in a Northerly direction, approximately 1,800 m. in length. Entrance to the harbour is between the outer ends of both moles.

Wharves and sheds are being built along three quarters of the length of the Northerly direction mole, and around the South part of the inner harbour perimeter. At the time of the visit by this vessel about 350 m. of quay was completed, with depth alongside of 11 m.

All the construction work appears to be done by Yugoslavian labour. The "Overseer" acted as Pilot and was a very able and pleasant person. All questions regarding cargo and fresh water, provisions, etc were dealt with by him. He supplied 10 tons of fresh water by road tanker, and organised a visit from a ships' chandler for a small quantity of fresh salad and potatoes.

There are two small tugs which were used in berthing under the Pilot's direction. These were very necessary owing to a number of obstacles in the harbour (divers boats, pipes, etc.). The Pilot's knowledge of English was limited and it is most necessary for the ship's Master to judge his intentions carefully.

Without a doubt the port of Misurata when open for commerce will be a very useful port, although a small port (inside harbour space was roughly estimated to be about 1,500 × 700 m.). The Pilot advised that it was expected to be opened about the middle of 1978.

The vessel anchored off the port entrance at 0800 hrs. and Pilot boarded at 1100 hrs., vessel berthed shortly afterwards. Discharge of 208 tons of construction material from No.1 hold commenced at 1330 hrs., and ceased at 2400 hrs. for the day. Work resumed at 0930 hrs. on the following day, and was completed at 1330 hrs. A mobile shore crane was used throughout for discharge into lorries. All labour was Yugoslavian.

All Agency work was attended to by our Tripoli Agent, who arrived onboard at 1700 on day of arrival. As Tripoli was our next port, he was most helpful in advising our berthing prospects at that port, and delivering ship's mail.

The entering and clearing formalities were attended to by two Customs Officers. They advised that there was strictly no shore leave for the crew. All accommodation was diligently searched including the Master's for alcohol, and none whatever was allowed to be in crew's possession. However when all was found to be in order, on request a small amount of bond stores was released for Christmas.

The vessel departed at 1600 hrs. for Tripoli where the Agents estimate of 2 – 3 days waiting (although there were 50 ships at anchor) proved to be correct.

SHIPMASTER'S REPORT: March 1978.

As will be noted on the Plan, work is still in progress on the Southern Mole. More warehouses are to be erected there, also a grain silo. On the Western shore of the harbour more berths are to be constructed possibly for containers, but nothing is finalised yet.

Misurata is to be principally a Ro/Ro port specialising in transit cargoes. A nearby motorway runs in a Southerly direction for 1,000 miles into Central Africa.

There will be facilities for conventional cargoes. Dredging is in progress in the Western part of the harbour in preparation for the new berths. The area is being marked by red marker buoys. The port is scheduled to open in June/July this year and to date there are no services excepting Customs who attend to all the Entering and Clearing formalities. All pilotage being performed by the Master, the contractors work boats will act as tugs if requested.

Documentation is similar to requirements for other Libyan ports also the same strictness regarding alcohol. All Officers and Ratings were allowed to retain a small quantity of beer, all other alcoholic drinks being placed under Seal.

AUTHORITY: Port Manager and Harbour Master.

RAS LANUF: 30.31 N. 18.35 E. (See Plan Book)

(Also refer to "General All Ports").

Sirtica Terminal

DOCUMENTS: Customs will require:

4 Crew Lists.
1 Crew Declaration of personal belongings (including cigarettes etc.)
2 Stores Lists.
1 Passenger List.

Crew Lists and Crew Declaration of personal belongings must be on the approved Libyan Government Documents. Vessels are advised on their initial visit to the port to obtain sufficient forms for future visits. Also required are:

6 Copies of Cargo Manifest for Ras Lanuf Discharge.
1 Copy of Cargo Manifest for transit cargo with a summary.
1 Copy of Passenger Manifest.

A copy of a certificate of discharge of the last cargo loaded at a Libyan port is required. Said certificate to be duly signed and stamped by Custom Authorities at the discharge port. Blank forms will be delivered with the cargo documents.

Clearance from the last port of call will be required by the Government authorities. The police will require 4 copies of a Crew List and a Passenger Manifest if any passengers on board.

PILOTAGE: It is most important that ships establish communications with the terminal not less than 72 hours prior to arrival, giving estimated time of arrival. Further ETA signals should be sent when the vessel is 24 hours, 12 hours and 4 hours distant or any time a change of 1 hour in original ETA occurs. These messages should state specifically whether ETA is given in GMT or local time. The 72-hour signal should include the following: ETA, last port of call, if any sickness on board and if vessel has clean bill of health. Cargo quantity and grades expected to be lifted in net long tons at 60°F. The 12-hour signal should include definite indication as to whether the vessel is ready to load or not and should also include information on the time she will require to discharge ballast after arrival. Precise time of arrival should be given when the ship is 4 hours distant from the terminal.

Vessels to be moored at Ras Lanuf will be boarded by Mooring Master in the close vicinity of the suggested anchorage area mentioned below. The Mooring Master will advise the Ship's Master on approaches to berths, mooring, unmooring, connecting and disconnecting the hoses and in all operations within the mooring area.

Terminal sea buoy, colour red with radar reflector and bell is located in approximately Lat. 30° 32′ 40″ N. Long. 18° 34′ 38″ E. Vessels in the vicinity of the port should not navigate or anchor inside of a bearing 120°–300° running through this buoy position.

ANCHORAGE: Suggested anchorage area is within a 3,000 ft. radius of position Lat. 30° 33′ 00″ N., Long. 18° 35′ 40″ E. in approximately 90 ft. of water.

MAX. SIZE: Conventional berths: up to 60 ft. draft; up to 130,000 d.w.t.

Single Point Mooring: up to 75 ft. draft, up to 265,000 d.w.t.

HEALTH: By day – fly flag "Q" and by night display red light over white light for Quarantine Service.

Libyan Customs, Federal Police and Immigration Officials will board the vessel as soon as possible after arrival to give inward clearance and "pratique" services. Libyan Government Regulations are strictly enforced. The vessel should have a clean Bill of Health or equivalent document from the last port of call. The vessel's Master and all members of the crew shall possess International Certificates of Health showing valid smallpox Vaccination Certificates.

RADIO: Direct communication by radio between ship and shore is by VHF International Maritime Mobile Radio-telephone Service to Ras Lanuf Oil Movements Control Centre. All communication between ship and terminal should be by way of this station. ETA messages to Mobilpro, Tripoli, Libya, via Tripoli Radio (call sign 5AT). Ras Lanuf Oil Movements Control Centre keeps continuous watch on VHF Radio-telephone Channel 16 (156.80 mc/s), Channel 14 (156.70 mc/s) and Channel 11 (156.55 mc/s). Vessels approaching the port should make contact on Channel 16 when shore will request her to switch to Channel 14. This Channel will also be used by terminal Marine Section for internal use and tanker mooring control. Channel 11 is reserved for communications between ships in mooring and Terminal Oil Movements Control Centre and should only be used for general purposes after obtaining clearance from Oil Movements Control on Channel 16. This is a safety measure since oil flow to ships is controlled through Channel 11 and therefore it must be clear at all times in case of need to stop oil flow for any cause. Channel 16 is for calling and safety use only.

TUGS: Not required. The company maintain launches to assist in mooring and unmooring vessels. These are under the direct supervision and control of the Mooring Master.

BERTHING: There are 4 submarine loading pipe-lines which terminate in the following approximate positions which are each marked by an unlit white spar buoy.

Berth No. 1: Lat. 30° 31′ 35″ N., Long. 18° 34′ 37″ E., from which a submarine pipe-line runs to shore on a bearing of approximately 224°. Depth of water at spar buoy 70 ft.

Berth No. 2: Lat. 30° 31′ 55″ N., Long. 18° 33′ 58″ E., from which a submarine pipe-line runs to shore on a bearing approximately 197°. Depth of water at spar buoy 70 ft.

Berth No. 3: Lat. 30° 32′ 18″ N., Long. 18° 33′ 19″ E., from which a submarine pipe-line runs to shore on a bearing of approximately 198°. Depth of water at spar buoy 73 ft.

Berth No. 4: Lat. 30° 31′ 50″ N., Long. 18° 36′ 06″ E. – a Single Point Mooring buoy in 95 ft. of water.

Raising, lowering, connecting and disconnecting of submarine hoses, as well as all other labours and duties on shipboard, will be performed by the ship's crew under direction of the Mooring Master.

LIFTING HOSES: After the vessel is securely moored the submarine hose will be hoisted on the port side. Berths No. 1 and 2 are each equipped with 2×12 in. loading hoses, the weight of each hose lift being approximately 5 long tons. Berth No. 3 is equipped with 2×12 in. loading hoses the weight of each hose lift being approximately 5.75 long tons. Therefore, all lifting equipment and tackle should have a safe working load of at least 6 long tons. Hoses are lifted by ship's gear and crew, and all connecting of hoses will be done by them. The lifting derrick, equipment, tackle, etc., should be topped off and ready on arrival.

The SPM is equipped with two 16-in. loading hoses.

MEDICAL: No medical services (except in case of emergency and subject to a doctor being available) or other services are to be expected at Ras Lanuf.

FRESH WATER: Not available.

FUEL: Not available.

REPAIRS: When a ship is in the moorings or vicinity, its engines must remain on standby with full power for immediate use. Deck machinery shall be kept in instant readiness. *Positively no repairs of any sort will be permitted in the moorings.*

CUSTOMS ALLOWANCES: Cigarettes, cigars, tobacco, matches, spirits, wines, beers, perfume, arms, ammunition, saccharine and possibly other items have to be locked up under Customs seal from time of arrival of ship in port until time of leaving territorial waters. Each person is allowed 25 cigarettes per day of stay or 25 grams of tobacco or cigars in lieu. Each man allowed 1 litre of beer or half litre of wine per day. Special allowances are made for Master under special circumstances.

CONSULS: The only consulates are located in Tripoli which is 670 km. by road from Ras Lanuf. These consist of U.S.A., British, Danish, Dutch, French, German, Greek, Indian, Italian, Norwegian, Spanish, Russian (U.S.S.R.), Turkish, Yugoslavian.

REPATRIATION: Crew members cannot pay off or leave the vessel at Ras Lanuf except in cases of extreme emergency. Even in an emergency it should be noted that Seamen's Books are not valid under the Libyan law. A valid passport is required.

BALLAST: Positively no provision is made for dirty ballast. Any ship arriving with dirty ballast will be rejected and all costs accruing therefrom will be to the ship's account. Notice of readiness shall not be accepted until vessel returns with clean ballast and tanks fit to receive cargo. She will on second arrival tender a new notice of readiness to load.

TIME: Libyan local time is GMT plus 2 hours.

GENERAL: No stores, foodstuffs or goods whatsoever of Israeli origin may be on board any ship calling at Ras Lanuf.

Penalties: Fine, confiscation of goods and possibly more. The Libyan Government strictly enforces this law.

Whilst arriving fly the Libyan Ensign (plain green).

Due to the existence in these waters of the fish commonly called "Weaver" fish, ship's crew are urged to exercise extreme caution in fishing whilst lying off the port area. There have been several cases of poisoning by these fish, all of which were distressingly painful, caused by contact with the fins.

SHORE LEAVE: Not allowed.

AUTHORITY: Mobil Oil Libya Limited, Tripoli.

TOBRUK: 32.04 N. 24.00 E.

Also refer to General – all ports.

PORT LIMITS: The complete water area existing within Tobruk Bay or that water area existing to the West of an imaginary line commencing as from Tobruk Peninsula up to the coast to the South.

It is formed of 3 areas inside the Bay, namely Marsa Tobruk, the proposed naval base and Marsa Al-Hariga Oil Terminal.

MAX. SIZE: Max. draft: 29 ft., max. length: 400 ft.

RADIO: Tobruk Radio (Station operated by Arab Gulf Oil, Operating times 0900/0930, 1300/1330, 1700/1730, 2100/2130 hrs.) 5AL: 420, 425 and 500, VHF (24 hours) Channels 12, 16 and 19.

BERTHING: Berths in Tobruk Harbour:

Quay No. 3: Length 82 ft. draft 11 ft.

Quay No. 4: Berth 1: length 560 ft. draft 20 ft.
Berth 2: Length 395 ft. draft 28 ft.
Berth 3: Length 410 ft. draft 30 ft.

TANKERS: Refer to "Marsa Al Hariga".

STEVEDORES: All stevedoring operations and formalities to be done by Agents. 2 companies to be formed in the near future.

MEDICAL: Available.

FRESH WATER: Not Available.

FUEL: Not available.

REPATRIATION: Available via Benghazi.

DEVELOPMENTS: Port extension project under study.

REPAIRS: Not available; see "Tripoli".

AUTHORITY: Port Manager and Harbour Master.

TRIPOLI: 32.54 N. 13.13 E.

Also see "General" before first port.

PORT LIMITS: (a) The water area existing inside the actual breakwater and that which may fall within any new breakwaters eventually constructed in accordance with the Port Developments Project.

(b) The outer water area known as the navigational channel commencing as from the harbour entrance along the distinguishing marks of the channel for a distance of about 1 mile.

RESTRICTIONS: Any containers arriving on ro/ro ships should be on trailers.

MAX. SIZE: All types of ships with 27 ft. draft and less are safe in harbour.

RADIO: Tripoli Radio (coast station — 24 hours), 5AT, 476 and 500 kc/s, R/T 2182 and 2197, VHF Channels 16 and 6.

Tripoli Port Radio (24 hours), 5AI, 500 kc/s, R/T 2182, VHF Channels 10, 12 and 16.

AUTHORITY: Port Manager and Harbour Master.

ZUEITINA: 30.51 N. 20.00 E. (See Plan Book)

(Also refer to "General – All Ports")

LOCATION: The Terminal Light float, moored in position 30° 56′ 00″ N. 20° 00′ 00″ E., has a red hull with a red tower; it shows at night a white light flashing "Z" every ten seconds. A prominent landmark is the radio mast (height 451.5 ft. above sea level) in position 30° 49′ 57.6″ N. 20° 03′ 05.5″ E.; it displays at night three red lights in a vertical line – the top light flashing, the two lower fixed. The top light is on top of the mast (which is 400 ft. above the base), the middle light is 266 ft. above the base, and the lowest light is 133 ft. above the base. At night flares at the Liquid Petroleum Gas Plant, in position 30° 54.2′ N. 20° 05.4′ E., can be seen from a considerable distance; by day a column of smoke emanating from this position is also conspicuous. Fourteen large oil tanks, painted white, near the foot of the Radio mast, are prominent landmarks.

Positions of Moorings:

"Alpha" berth	30° 53′ 30″ N.	20° 01′ 05″ E.
"Bravo" berth	30° 52′ 18″ N.	20° 01′ 24″ E.
"Charlie" berth	30° 52′ 08″ N.	20° 00′ 11″ E.
"Delta" berth	30° 50′ 56″ N.	20° 00′ 26″ E.
"Echo" berth	30° 50′ 16.4″ N.	19° 59′ 16.1″ E.

FLAGS: When arriving at Zueitina by day, ships must display, in addition to their own national ensigns, the Libyan flag and the appropriate quarantine signal. Throughout the ships' stay, during daylight hours, they must display the Libyan flag, their own national ensigns and, when applicable, the International Code signals "B", "H" or "G", and the appropriate quarantine signal.

DOCUMENTS: Soon after vessel's arrival, a Custom's officer will board, accompanied by a Company employee, who will act on behalf of the ship and its Agent, as well as on behalf of the Company, in the execution of essential business. The following documents, signed by the Master and imprinted with the ship's official stamp, are required by the Customs official for the Customs and Immigration Departments and for the Port and Lights Authority:

2 copies Entering and Leaving Territorial Waters Certificates.
2 copies Report Inwards Certificates.
2 copies Crew Declarations of Dutiable Goods.
2 copies Crew Declaration List.
2 copies Report Outwards Certificates.
3 copies Boycott Certificates.
2 copies Stores Lists.
5 copies Crew Lists.
1 copy Clearance from Last Port of Call.
2 copies Tanker Characteristics Certificates.
1 copy Certificate of Discharge, from the Discharge Port Authorities, of the last cargo loaded in Zueitina.

With the exception of the Crew Lists and the Stores Lists and the clearance from the Last Port, the above forms will be provided by the Company clerk.

It is important that the Master should be able to produce a properly authenticated certificate of discharge covering the last cargo loaded into the ship in Zueitina. If for some reason he is not in possession of such a certificate, he must write a letter of explanation which includes the pertinent extracts from the ship's logbook, append his own signature to it and stamp it with the ship's official seal, and address it to the Ministry of Petroleum, Es Zueitina. If the explanation for failure to produce the certificate is considered satisfactory the ship may be permitted to load. If there appears to be any suspicion that the last port was not as stated, the ship will be turned away.

If the vessel has not previously loaded in Zueitina, the Master is required to confirm this fact in an official letter, stating also the ship's last port of discharge and giving an undertaking that the cargo about to be loaded will not be discharged in any of the countries to which the Arab embargo extends.

The Mooring Master will, after boarding, lose no time in informing Zueitina Marine that he has received one or other of these foregoing documents from the Master, which he will, at the first opportunity, send ashore for delivery to the Ministry of Petroleum representative. This will ensure that there is no unnecessary delay in the commencement of loading.

On completion of loading, the Company's clerk will again board the ship with the cargo documents which are to be signed by the Master. The clerk has to deliver to the Master one copy of each document for his own use and one copy for consignee and bring the rest of documents ashore with him.

1 Bill of loading
2 Cargo manifest
3 Time sheet
4 Certificate of Origin
5 Master's receipt
6 Export manifest

all of which forms are provided by the Company or by the Agency. He will also take ashore any letters to be posted. On occasions, a customs official will visit the ship with the documentation clerk prior to sailing to ensure that the seals which were put on the bonded stores lockers have not been tampered with before the ship has left Libyan waters.

The documentation formalities prior to the ship's departure, are usually completed whilst the ship is unmooring from the berth, or just after it has left the berth, hove to with the Mooring Master still aboard. Sometimes, however (and particularly after the loading of "Agip" cargo), the processing of the papers ashore may take longer than usual, and the ship may have to anchor to await the clerk's eventual arrival, in which case the Mooring Master will direct it to a safe anchorage before disembarking. Zueitina Marine will then inform the Master when the launch bearing the clerk is about to leave the Small Craft Harbour, in order that the anchor may be weighed, and a lee side presented to the launch.

For information relating to ships' movements at Zueitina Terminal, such as arrival times, delays in berthing, quantities of cargo loaded in their vessels, tanker owners and agents, should contact Occidental International Oil, Inc. 16 Palace Street, London SW1E 5BQ. Telephone 01-828 5600.

ACCEPTANCE PROCEDURE: *Notice of Readiness, Laytime etc:*

Vessels Loading Crude Oils: A vessel for which a berth is available on arrival will be boarded by the Mooring Master at the Terminal Light float and, providing that the vessel is in all respects ready to commence loading (except for the necessary de-ballasting time), the Notice of Readiness will be accepted at the time of the Mooring Master boarding, subject to the provisos – a, b, c and d, below.

If the vessel is not in all respects ready to proceed to the berth, with main engine and auxiliaries fully manoeuvrable, mooring ropes on deck, anchors, windlasses, winches, etc., in good working order and readiness, it will not be accepted until the Mooring Master is satisfied that all these conditions are met.

A vessel which has been instructed by Zueitina Marine to anchor in the roadstead on arrival should, after doing so, inform Zueitina Marine of the precise anchorage time, which time will, for the purposes of berthing order and the Port Log, be considered as the vessel's arrival time. According to the practice of the port, acceptance of the Notice of Readiness will coincide with this arrival time, providing:–

(a) that it is within the hours of daylight – deemed to be from 06.00 hrs. l.t. to 18.00 hrs. l.t.,
(b) that it is not a Public Holiday, or a Friday (the Libyan Sabbath), unless the vessel is actually handled on that day,
(c) that the port is open, and
(d) that the vessel has been nominated to load.

An exception to clause (a) above, is when conditions allow of night berthing, in which case the vessel will be accepted when the Mooring Master boards, or, should the vessel have been at anchor, when the anchor is aweigh, providing that the Mooring Master is then on board.

In the case of a vessel arriving without nomination, the Notice of Readiness will be accepted when notification of her nomination has been received at the Terminal, subject to provisos (a), (b) and (c) above, and instructions from the Company's Operations Department. On occasions when the Company deems it advisable to berth a vessel prior to the date of the nominations, acceptance of the Notice of Readiness will be at the time the Mooring Master boards, providing that the anchor is then aweigh.

In addition to clauses (a), (b) and (c) and (d), above, vessels will not necessarily be accepted when arriving at a time ahead of, or behind, their last scheduled Estimated Time of Arrival, especially if such acceptance would be at the expense of a vessel that has arrived within its nominated period.

Vessels Loading Liquid Petroleum Gas: A Liquid Petroleum Gas Tanker's Notice of Readiness will be accepted on arrival, provided that:

(a) the port is open ("port" meaning, in this case, the LPG berth),
(b) that it is not a Friday (the Moslem Sabbath) or an official holiday, unless the ship is actually handled on that day,
(c) that it is not during the night hours – deemed to be, at the LPG berth, between 18.00 hours and 06.00 hours (local time) – unless the ship is actually handled during that period,
(d) that the ship does not arrive on the same day, or clash with the loading of, another LPG tanker chartered under a LINOC contract,
(e) that the ship's tanks are in such a state of readiness, i.e., requiring no cooling, no purging, that loading can be commenced at *full rate* immediately the hoses are connected,
(f) that the arrival time does not differ appreciably, either before or after, from the last signalled ETA sent by the ship and received at the Terminal, and
(g) that the vessel has been nominated to load.

When a Liquid Petroleum Gas tanker does arrive whilst the port is closed, the Notice of Readiness will be accepted at the time of the opening of the port, subject to provisos (b), (c), (d), (e), (f), and (g).

The N.O.R. of an LPG loader arriving on a Friday or on an official holiday, or during the aforesaid night hours, will be accepted at 06.00 hours (local time) on the first subsequent working day, subject to provisos (a), (d), (e), (f) and (g).

An LPG tanker arriving on the same day as an LPG tanker scheduled to load under a LINOC contract, or whose loading would clash with an LPG tanker scheduled to load under a LINOC contract, will have its N.O.R. accepted on the completion of hose connection, subject to provisos (e) and (f).

PILOTAGE: A Mooring Master will board the vessel in the close vicinity of terminal Light float and advise Master on all manoeuvres relative to berthing, connecting and disconnecting the hoses, and in all operations within the anchorage or berthing area.

Vessels of 40,000 d.w.t. and upwards should have a pilot ladder long enough to reach the Mooring Master's launch rigged just abaft the accommodation ladder, in such a manner that the Mooring Master can transfer to the accommodation ladder when about 10 ft. from sea level. Ladders must be strong, clean, and in good state of repair and conform to international requirements. In cases where the ladder(s) fails to conform with these requirements, the Mooring Master will decline to board until an adequate ladder has been provided. A good lee should be made, to allow the launch to come alongside the Mooring Master to board safely. (Note: Ships which have been instructed to berth at the S.P.M's, and need to take the Company's gear aboard, should have the ladder(s) rigged on the port side, in order that they may take it aboard from the Mooring Master's launch with the working derrick as soon as the Mooring Master has boarded.)

The Mooring Master may require the vessel to unberth at any time he deems it necessary for the safety of the vessel, or the installations, or both, or because of infringements of the Port Rules by the vessel.

As soon as practicable after boarding, the Mooring Master will inspect the mooring and lifting equipment and the ballast, and not until he has assured himself that the equipment is adequate, and the ballast clean, will the ship be accepted. His opinion of the adequacy of the gear, and of the cleanliness of the ballast, shall be final.

ANCHORAGE: Vessels awaiting the Mooring Master, whether for berthing in the crude oil berths or alongside the LPG berth, should heave to in the close vicinity of the Terminal Light float. If they are obliged, or instructed to anchor, they should do so in the recommended anchorage, which is within the radius of a circle centred in position Lat. 30° 55′ N., Long. 20° 01′ E. Under no circumstances should they anchor South of the 30° 54′ 00″ parallel. Whilst at anchor, they should exercise the utmost vigilance, and should keep in VHF radio-telephone with the Terminal at all times. If heavy weather necessitates them heaving up anchor and proceeding to sea, Zueitina Marine must be informed accordingly.

RADIO: Cable Address: OXYPORT OXYLIBYA TRIPOLILIBYA (via Tripoli Radio) OXYOIL LONDON (via Portishead Radio). 72 hours prior to arrival at Zueitina, Masters should advise the Company of their vessels' ETA, by cables sent both via Tripoli and via Portishead Radio to the addresses given above. They should subsequently confirm or amend them when they are 48 hours and again when they are 24 hours distant from the Port.

(Cables to Agents advising of ETAs should be sent in addition to, and *not* in place of, those sent to OXYPORT, TRIPOLI and OXYOIL, LONDON.)

Cables should include the quantity and grade of cargo to be loaded, the last port of call and destination, Bill of Health status and details of any sickness on board. Estimated times of arrival should be given in GMT. (Libyan Standard Time is GMT plus 2 hours.).

Masters of vessels equipped with VHF radio-telephones should contact Zueitina Marine on Channel 13 or Channel 16 when within range, and give a firm calculated time of arrival at the Zueitina Light float. They should also again inform Zueitina Marine duty officer of the quantity and grade of cargo required, the last port and the destination. They should confirm that they have in their possession a certificate of discharge for the last cargo loaded into their ships in

Zueitina or, in cases of ships arriving in Zueitina for the first time, that they have ready for the Ministry of Petroleum a letter which certifies that the cargo which they are about to load will not be discharged in any country against which the Arab Oil Embargo extends. In vessels paying their first visit to the Terminal, Masters should also inform the duty officer of the size and type of the manifold connections (i.e. 12 in. A.S.A., or 10 in. European, etc), and whether or not they have on board heavy wires and shackles for mooring at the mono-buoys.

(N.B. It is important that all ships arriving at Zueitina are fitted with VHF radio-telephones, capable of operating on the main working Channels. Without VHF communications, Zueitina Marine cannot always know with accuracy a vessel's arrival time, and as a result that vessel might well lose its loading turn and be subjected to an appreciable – and, with VHF, avoidable – delay in consequence.)

An aerial radio beacon is located on the N.E. arm of the Small Craft Harbour, in position 30° 54′ 05″ N., 20° 04′ 12″ E., intended as an aid to navigation for aircraft flying to and from Zueitina airstrip. The beacon transmits continually the call sign ZUE, on 369 kHz: the signal, which is omni-directional, has a range in excess of 100 miles.

HEALTH: Pratique will be granted by the Custom's official. He will examine the ship's logbook, and will inspect and seal the bonded storerooms.

All ships must display the appropriate quarantine signal until given pratique.

TUGS: No tugs available to assist berthing.

BERTHING: The sea terminal consists of five berths for loading crude oil products, two of which – "Bravo" and "Delta" – are conventional buoy moorings, and the others – "Alpha" "Charlie" and "Echo" – are "single-point moorings", or "mono-buoys". Conventional buoy moorings "Bravo" and "Delta" are approximately 2.5 miles offshore, with an average depth of 70 and 80 ft. respectively. 42 in. (ID) submarine lines connect the berths to the shore installations. To the header at the seaward end of each of these submarine lines are connected two strings of flexible reinforced rubber hoses, laid on the sea bed and buoyed when not in use. The forward of the two strings is made up of (from the header) three 30 ft. lengths of 24 in. i.d. hose, two 30 ft. lengths of 20 in. i.d. hose, and seven 30 ft. lengths of 16 in. i.d. hose. The after string is similar, but with one less length of 16 in. i.d. hose. To the seaward extremity of each hose string is fitted a 16 in. to 12 in. A.S.A. reduction flange. When the ship has berthed, each hose string is towed in to the ship's side below the manifold by the attendant launch, to be hove up by crane or derrick and bolted to the ship's connections, *invariably on the port side.* Where the ship's connections differ from the 12 in. A.S.A. flange on the hose, suitable reduction spools must be fitted. The weight to be lifted on each hose is approximately 7 tons.

Single-point moorings, "Alpha", "Charlie" and "Echo" are all approximately 3 miles offshore, in an average depth of 100 ft. of water. The submarine pipe-lines to "Alpha" and "Charlie" berths are of 48 in. i.d., that to "Echo" berth, 42 in. i.d. Particulars of the strings of hoses from the header to the ship's manifold are described in detail in the chapter on "Single-point Moorings". As in the conventional buoy berths, *the hoses are always taken up on the port side,* and the connecting flange on the hose is 12 in. A.S.A. pattern. The weight to be lifted is approximately 7 tons, but this is to some extent dependent on the ship's freeboard.

Mooring Equipment: As a guide to Masters who intend to save time and labour, especially in these days of reduced "general purpose" crews, by equipping their ship with the requisite mooring gear, the following standard requirements is suggested:

(a) Two (2) flexible steel slip wires, 1.75 in. dia., 5.5 in. circumference, 130 ft. in length, or longer if the distance from the fairlead to the bitts is such that 130 ft. would be insufficient to make fast safely. Such slip-wires will have an eye spliced in one end only.

(b) Two (2) screw-pin or threaded bolt and nut, bow shackles, bow size 2.5 in., pin diameter 2.75 in., minimum width, jaw to jaw, 4 in.: breaking strain 150 tons.

Single-point Moorings. The "Mono-buoy" is a large cylindrical buoy (weight 106 tons), divided by steel bulkheads into four water-tight compartments, through the centre of which emerges the loading hose. The perimeter of the buoy, to which the buoy-to-ship moorings are attached, is a turntable which revolves on bogies round the centre – hose-supporting – section, in such a manner that the vessel berthed on the buoy will always lie head to wind. The minimum depth of water within the swinging radius of the largest ship envisaged at the buoy is approximately 95 ft.

To the mono-buoy is attached a 240 ft. length of chain cable, made up of 2.375 in. U3 steel studded links, and supported in polyeurathene buoyancy collars, at the seaward end of which is a "chafing chain". This "chafing chain" is 20 ft. long and of similar construction to the main chain, but with three open links at the end: it is detachable for periodic renewal. To the end of the chafing chain is attached the "approach rope" – a 200 ft. length of 10 in. circumference plaited polypropylene which, when not in use, is allowed to float out free from the buoy.

The ship approaches the buoy from downwind, taking care to keep the wind right ahead. (Adequate ballast should be retained aboard to provide manoeuvrability.) When sufficiently close, the crew will lower to the attendant launch the end of a good mooring rope, to the eye of which has been attached a stout nylon lashing, about 2 fathoms long. This mooring rope should be passed out through a central panama lead, if a suitable one exists, or over a fairlead on the port bow. (When the ship is fitted with a bulbous bow, a line put out through a central lead, should be brought back down the bow and then lowered to the water, to avoid the possibility of the launch, when coming in to collect the end of the rope, coming into contact with the bulb). Meanwhile, two heavy 5.5-in. circumference flexible steel slip wires have been made fast in readiness – one on each bow, if the line is being hove through a central panama lead, both on the port side (and preferably on different sets of bitts) if the port fairlead is being used – in such a manner that there is an adequate number of turns around the bitts and that the end of the eye reaches to approximately 10 ft. and 10 ft. 09 in. respectively from the fairlead. When the chain comes aboard, it is quickly secured to the wires by two 150 tons B.S. shackles, which are bolted through two of the open links in the chafing chain. The strain on the approach rope (which had followed the ship's rope round the drum-end of the windlass) is now released, and the weight allowed to come on to the wires, shackles chain, and buoy composite: the approach rope is then "turned-up" as an additional mooring and the ship is now all fast in the berth. Ship's tension wires, or other mooring lines, should also be shackled or lashed to the chain, for added security.

When leaving the berth, the ship's additional moorings are first detached from the chain, any slack which is in the approach rope is taken in and that rope made fast very securely. The slip wires are then slacked off slowly and carefully until the strain comes on to the approach rope. (When strong winds have tightened the mooring, it will probably be necessary to put the engine slow ahead before attempting to do this). The shackles can then be taken adrift, freeing the wires, and the approach rope slacked off until the chain reaches the water – care being taken to ensure that it is not allowed to fall across the hoses. The engine is then put astern, and the rope allowed to pay out easily (with half a turn around the bitts to stretch it clear) as the ship leaves the buoy.

(Reminder – unlash the ship's rope from the approach rope before unmooring from the buoy!)

Loading. Rate of loading is between 32,000 and 50,000 b.p.h.

Conventional Buoy Moorings. In berths "Bravo" and "Delta" the ship is berthed with two anchors streamed out ahead and mooring lines to buoys round the stern and quarters. In addition, to all buoys except No. 4 (right astern) there are attached 5.5 in. circumference steel wires, laid on the sea bed, buoyed, when not in use — in all but the most settled weather these are brought into the ship by the mooring launch, hove up and made fast on board. Vessels should have ready a good 3.5 in. rope messenger to take up these wires, and strong chain stoppers, or "carpenter's stoppers", for use when securing them.

Before the ship reaches the berth, there should be three good mooring lines ready on the after end of the main deck, two of which have been securely married in readiness to be sent away first, to warp the ship round. At least seven good ropes should be ready for running out from the poop, with lashings ready in case one rope has to be married to another. Plaited polypropylene ropes, at least 120 fathoms long and of a diameter and strength appropriate to the size of the vessel, are recommended: large manilla ropes, slow and cumbersome to handle, are definitely unsuitable for berthing under these conditions.

Synthetic ropes on automatic winches are favoured in this port, but it is recommended that they be at least 150, and preferably 200, fathoms long. The winches must be capable of being firmly locked when in the moorings — any tension feature is not permissible.

When it has been necessary to slip moorings in order to leave the berth quickly and without the assistance of the mooring launches, the Company will make every effort to recover them and to return them to the vessel as soon as possible. Normally the Company makes no charge for recovering anchors and moorings, but it reserves the right to do so under exceptional circumstances.

In the conventional buoy moorings, in order that ships may be securely moored against beam winds and with sufficient chain leading ahead to ride out heavy swells, it is recommended that they be equipped with ample chain on both bower anchors. Experience gained in sea berths suggests that the chain required on each anchor should be more than the length of the ship. In vessels of 100,000 d.w.t., for which the berths were designed, it is recommended that there should be 14 shackles (1,260 ft.) of chain on each anchor. A minimum acceptable amount of chain is 10 shackles (150 fathoms) for the safety of the ship and the company's installations. Anchor marker buoys should be used.

HOSES: The lifting, lowering, connecting and disconnecting of the cargo hoses will be done by the tanker's personnel in accordance with the advice and directions of the Mooring Master. Ship's derricks and deck winches should be capable of operating with a safe working load of 7.5 tons and preferably 10 tons. Vessels with inadequate hose-lifting equipment will be rejected. All derricks should be fitted with "preventer-guys" in addition to normal guy tackles. The port derrick must be rigged and ready for use on arrival. In addition ships leaving SPM should have the starboard derrick ready, too, in order to facilitate the discharge of the mooring gear on the lee side.

Sets of bitts, or strong staghorns, for hanging off the hoses, must be provided, suitably located near the manifold.

On the surface, extending from the buoy (to which it is connected by a Chiksan swivel (a universal joint), is a hose string comprised of 21 (at "Echo") 25 (at "Alpha" and "Charlie") 30 ft. lengths of 24 in. i.d. floating hose, culminating in a floating junction box: from the other side of this junction box emerge two strings of four lengths of

16 in. i.d. hose. The end ones – the "over-rail" hoses – are fitted with 16 in. to 12 in. A.S.A. reduction flanges, which, after the hose has been hove aboard, are bolted or clamped to the ship's manifold.

For V.L.C.C.s, additional lengths of floating hose are inserted if necessary.

LOADING: *Occidental crude oils and debutanized condensate:* The principal cargo loaded at Es Zueitina Terminal is Occidental Field Blended Crude Oil, pumped in from the Company's wells, two hundred and twelve kilometres inland, but in addition certain other grades of Crude Oil are loaded, namely, Occidental Medium Crude, Occidental Premium Crude, and Occidental Debutanized (Stabilized) Condensate. Also loaded are Liquid Petroleum Gas products, Butane and Propane (LPG) see "LPG Loading Berth", and "Agip" Buattifel Crude Oil, from the wells of Agnezia Generale Italiana Petroli, in concession 100.

The following pertinent data will, we believe, be of interest to tanker owners and operators, Masters and Mates, and to refinery operatives in the discharging ports:-

Occidental Field Blend
Average A.P.I. 40.1
Average Specific Gravity 0.8246
Pourpoint +35
Reid Water Vapour Pressure +5.2 p.s.i. at 100° Fah.
H_2S less than 5 p p m.
Flash Point below 60° Fah.
Average loading temperature on board 108° Fah.
Barrels per long ton at 60° Fah. 7.741

Occidental Medium Blend
Average A.P.I. 36
Average Specific Gravity 0.8448
Pourpoint +85
Reid Water Vapour Pressure +5.0 p.s.i. at 100° Fah.
H_2S less than 5 p p m
Flash Point below 60° Fah.
Average loading temperature on board 98° Fah.
Barrels per long ton at 60° Fah. 7.582

Occidental Premium Crude
Average A.P.I. 43.5
Average Specific Gravity 0.8086
Pourpoint +30
Reid Water Vapour Pressure +5.6 p.s.i. at 100° Fah.
H_2S less than 5 p p m
Flash Point less than 60° Fah.
Average loading temperature on board 108° Fah.
Barrels per long ton at 60° Fah. 7.922

Occidental Debutanized (stabilized) Condensate and Debutanized Condensate:
Average A.P.I. 78.0
Average Specific Gravity 0.6706
Pourpoint −60° Fah.
Reid Water Vapour Pressure 11.0 p.s.i. at 100° Fah.
H_2S less than 1 p p m
Flash Point less than 0° Fah.
Average loading temperature on board 75° Fah.
Barrels per long ton at 60° Fah. 9.555

The grades of cargoes to be loaded will affect the berthing schedule, irrespective of the chronological sequence of vessels' arrival times.

It is recommended that vessels take the maximum flow with due regard to safety, in order to both expedite the turn-round time and to obtain the bottom-weight to counteract the possible effect of local winds which frequently spring up with little warning.

Care must be taken not to overload, as there is no provision whatsoever for cargo once loaded to be pumped back ashore.

Warning is given of the danger of closing hoses against an incoming oil flow. Such a procedure may create excessive pressures which result in damage to loading hoses, sea lines, and other Terminal equipment. Vessels which ignore this warning and do in consequence cause such damage will be held responsible for all costs incurred for the renewal or restoration of the damaged equipment.

The attention of Masters is drawn to Safety Precautions, wherein they are reminded of their responsibilities for ensuring that all persons aboard their ships are cognizant with the hazards involved in the loading operations, and with the need for strict observance at all times of the Fire and Safety Rules. Debutanized Condensate, in particular, is a highly volatile fluid which must be treated with the utmost prudence.

(N.B. particulars of cargoes included in the foregoing are for information only and do not constitute a guarantee of quality.).

Loading – A.G.I.P "Buattifel" Crude: Because of its high wax content – 37% – A.G.I.P. "Buattifel" Crude Oil, (hereafter referred to as "Agip") has to be maintained at a very high temperature throughout its entire transit from the wells to the Terminal system, and thence via the sea lines to the berth and the loading vessel: it will arrive on board at approximately 140° Fah., and the heating coils in the cargo compartments must be motivated in readiness and be capable of keeping the oil at above this temperature.

Two berths "Bravo" and "Charlie", have been modified for the loading of Agip cargoes – ships may be moored in either of these berths but because of the considerable heating problem involved only one of the berths at a time can be used for loading Agip cargo. Through the submarine lines to "Bravo" and "Charlie" central "gut" lines have been inserted – at "Charlie" berth where the sea line is 48 inches diameter, the gut line is of 18 inches diameter, and at "Bravo" – sea line 42 inches diameter – the diameter of the gut line is 16 inches. These two gut lines (which are, of course, tied in ashore with the Terminal tank and metering and pumping complex) terminate 20 ft. from the headers at the seaward ends of the sea lines. The area between the outside of the gut line and the interior wall of the sea line is called the "annulus". To the headers (from which emanate the strings of flexible hoses which are ultimately bolted to the ship's manifold connections) are fitted remote control hydraulic valves, operative from the loading station within the Terminal.

Immediately prior to the berthing of the prospective Agip loading ship, hot Occidental crude oil is circulated from its storage tank, through the gut line, and back through the annulus, heating the entire system. Once the ship is securely moored, preparations are made to replace the hot "Oxy" oil with hot Agip oil. (60,000 barrels is the full line content at "Charlie", 33,600 barrels at "Bravo"). This process will take about four hours, and ship and shore must work in conjunction to ensure that the deballasting and the recirculation of the line with hot Agip oil are completed at about the same time. This is of vital importance, for once the line system is filled with hot Agip cargo it cannot remain in circulation for more than one hour. If the ship is not then ready to receive it, the Agip oil must be replaced by Oxy oil, and only after this has been circulated round the line can the line be again replenished with another circulation of Agip oil. This entire process may take about twelve hours – a wastage of time which neither the Terminal nor the ship operators can afford to contemplate with unconcern.

When ship and shore are ready to begin loading, the remote control valves are opened and, at a very slow rate, the cold Oxy oil which has been in the flexible hoses is loaded – 1,500 barrels at "Charlie", 300 barrels at "Bravo".

At this point, the loading officer in the ship will transfer the cargo to other tanks to avoid intermingling of the two types of crude, for now hot Agip is entering the ship's system, from the gut line. Loading continues at a slow rate until the contents of the gut line – 6,000 barrels at "Charlie", 3,600 at "Bravo" – have been pumped into the ship, after which the loading of the Agip, at normal rate, is through the annulus only. (The gut line is, at this point, filled with Oxy oil, which will remain static throughout the loading of the Agip cargo).

With about 2,000 barrels of Agip cargo to go to completion, loading is stopped in order that the ship's loading officer may check his ullages and calculations. When, in "Bravo" there are 300 barrels to go, in "Charlie" 1,500 barrels, loading is again stopped briefly: this marks the completion ashore of Agip cargo being pumped into the circuit. Now the Oxy oil in the gut line is pumped into the flexible hose strings, so that when the required quantity of Agip oil has been loaded into the vessels, the hose strings – from the headers to the terminal flanges, disconnected from the manifold – are filled with Occidental crude oil, which will not solidify whilst the hoses lie dormant under the sea. Similarly, the Agip crude oil in the annulus of the sea line is pumped back into the tank ashore and replaced throughout the system by Occidental crude.

The foregoing explanation pertains to vessels loading Agip cargo only, taking the minimum essential Occidental oil solely as a line flush. If, however, a ship requires a part cargo of Occidental crude, it will load that after completing the Agip cargo, except for that small quantity used as the line flush at the commencement.

A.G.I.P. "Buattifel" Crude, particulars:-
Average A.P.I. 41.0 at 60° Fah.
Average Specific Gravity 0.806
Wax Content 37%
Pourpoint +95
H_2S Nil
Flash Point 68° Fah. (ABEL)
Average Loading Temperature on board 140° Fah. to 150° Fah.
Barrels per Long Ton 7.9 (approximate)

(N.B. The above data is for information only and does not constitute a guarantee of quality).

LPG LOADING BERTH: *Berth, location and nature:* The LPG loading berth is S.S.W. of the Small Craft Harbour, inside Tre Scogli reef. It is designed for vessels of approximately 700 ft. in length, with a cargo capacity of 32,000 cu.m. The maximum permissible loaded draft (1977) is 28 ft., but dredging operations scheduled for early in 1978 will eventually allow ships to be loaded to a maximum draft of 32 ft.

The channel through the reef, between Trinity Beacon (black tripod structure, group flash 4, green, every 10 seconds) and Wafeya Beacon – Scoglio Sud – (red skeleton tower, group flash, 6 every 10 seconds) runs in a 315° (T) – 135° (T) direction: it is marked by two leading marks, the front one in position 30° 53′ 16″ N., 20° 03′ 42″ E., and the rear one 750 m. (2,460 ft.), 135° (T), from this position. Both marks are black steel pylons with black and red oblong grid topmarks: the front one shows at night an amber light flashing every 1.5 seconds, whilst the rear one shows an amber occulting light, the period of light being six seconds every ten seconds. A small white spar buoy, showing at night a quick flashing red light, marks the turning position for ships approaching or leaving the berth.

The loading platform is of structural steel, supported on concrete piles, and faced with heavy rubber fenders. Ships are berthed alongside four breasting dolphins (two of which are incorporated into the loading platform), with other mooring dolphins ahead and astern and on the inside bow and inside quarter. Ships approaching the berth swing round on the port anchor and about six shackles of chain – when moored, the chain is hove tight and, with a swamp wire on the port quarter, provides an additional safeguard.

Only one loading line is used, with a connecting flange of 12 in. A.S.A. It is hove on board the ship with the ship's derrick or crane, or radial davit. There is no return vapour line.

Such is the location of the berth – fully exposed to winds from most directions but sometimes protected partially by the reef from the worst effects of the swell – that on occasions LPG tankers cannot be berthed although the crude oil berths in the harbour are operational. And vice versa. Consequently, with regard to Port Closure Time, the LPG berth is regarded as a separate entity from the main harbour.

Arrival: On first contacting Zueitina Marine by VHF (Channel 13 or 16), the Master of an LPG tanker should, in addition to giving his ETA at the Terminal Light Float, inform Zueitina Marine of his last port, the intended port of discharge after leaving Zueitina, the quantity and grade of cargo required, the temperature at which he wishes the cargo to be loaded, the size of the ship's manifold connections, and whether or not he has aboard a certificate of discharge for the cargo loaded in Zueitina.

If the vessel is to berth on arrival, the Mooring Master will board in the close vicinity of the Terminal Light Float. If the ship is instructed to anchor, the Master should do so in the recommended anchorage.

Pratique, Customs Formalities: If the ship has been obliged to anchor, pratique and Customs formalities may be dealt with in the anchorage. Alternatively, they may be attended to on board after the ship has berthed.

For information regarding documents required on arrival, Customs and Immigration procedure see "Documents".

Loading: For a ship which needs tank purging and cooling prior to loading, the minimum rate will be approximately 100 barrels per hour. Inert gas is not provided at Zueitina Terminal – the vessel must provide inert gas for purging after previous cargoes other than butane or propane. The ship will not be loaded until the air has been purged to a maximum oxygen content of 0.5%. When loading has commenced, the minimum rate permitted by the Libyan Ministry of Petroleum is 1,500 barrels per hour. The maximum rate available is between 6,000 and 7,000 barrels per hour. For "topping off", the rate can, within these limits, be adjusted to the requirements of the loading officer. Arrangements can be made in advance for the LPG plant to stop loading when the desired quantity has been metered into the ship, or alternatively, the ship's loading officer can instruct the Terminal to stop loading when he sees that the correct amount has been received aboard.

Loading operations on board are the responsibility of the ship's personnel. The Master's attention is particularly drawn to the Terms of Acceptance as detailed in the "Tanker Loading Advice" letter which he has signed, and to the "Zueitina Marine Terminal, Fire and Safety Rules".

The loading platform – abreast of the ship's manifold and within easy hailing distance – is manned at all times during loading operations, and the ship *must* maintain a continuous verbal contact with the loading operative. In addition, VHF contact between ship and loading installations must be maintained on Channel 12. In the event of any emergency – fire, leakage, parting of moorings, etcetera – the operative on the platform can stop the loading by remote control.

Unberthing in bad weather: Should deteriorating weather conditions necessitate the vessel leaving the berth quickly, a Mooring Master will be speedily available at all hours.

Cargo Particulars: The following data will, we believe, be of interest to Masters and Mates and operators of vessels loading LPG products:-

Propane
Average A.P.I. 146
Average Specific Gravity 0.510
Reid Vapour Pressure 175 p.s.i.g.
Free Water Nil
Copper Strip Corrosion 1a
Flash Point less than 0° Fah.
Average Loading Temperature −43° Fah. (−42° Cent.)
Barrels per Metric Ton at 60° Fah. 12.3 (approx).

Butane
Average A.P.I. 114.2
Average Specific Gravity 0.576
Reid Vapour Pressure 48 p.s.i.g
Free Water Nil
Copper Strip Corrosion 1a
Flash Point less than 0° Fah.
Loading Temperature at Ship's Request, within Ranges +18° Fah. (−8° Cent.) to +35° Fah. (+2° Cent.)
Barrels per Metric ton at 60° Fah. 10.8 (approx.)

(N.B. The foregoing data is intended for information only, and does not constitute a guarantee of quality.)

Departure: Immediately after completion of loading, the manifold connections are unbolted and the loading arms retracted. Shortly afterwards the Mooring Master will board and, with the assistance of adequate mooring boats, unberth the ship and pilot it through the reef to a safe anchorage in the outer harbour before disembarking.

When the documents pertaining to the ship's loading have been completed ashore, a clerk will take them out to the ship. (On occasions he will be accompanied by a customs official, boarding the ship to ensure that the seals which were put on bonded storerooms on arrival have not been tampered with before the ship has left Libyan territorial water.) It is customary for Zueitina Marine to inform the ship's Master when the documents clerk leaves the Small Craft Harbour, so that the anchor may be hove up and a lee side presented to the launch.

After the documentation formalities have been completed on board, the Master is required to pass by VHF to Zueitina Marine the official sailing time of his ship.

MEDICAL: Medical facilities are limited to emergency cases only. Under certain circumstances, however, the Terminal medical practitioner will give advice to Masters by VHF in cases where Crew members appear to be suffering from undiagnosed ailments. If it is essential for a sick person to be landed, the ship's Agent must first obtain the approval of the Government authorities.

The sick person when coming ashore must be accompanied by an officer or other responsible person able to speak English, and both the patient and the person accompanying him must be in possession of passports. (Not seamen's discharge books, which are not recognised in Libya).

FRESH WATER: No fresh water available.

FUEL: No bunkers available.

REPAIRS: There are no engineering repair shops.

REPATRIATION: Only in an emergency can any crew member be paid off. Seamen's discharge books are not recognised in Libya. Crew members are advised to have a valid passport in their possession in case of emergency.

CUSTOMS ALLOWANCES: Each member of the crew is allowed 25 cigarettes, or 25 grammes of tobacco, one litre of beer, or half a litre of wine, for every day of the ship's stay in port. Other tobacco and cigarettes, wines, beers and spirits, as well as matches, arms and ammunition, and saccharine, will be retained under seal whilst the ship is in Libyan waters.

CONSULS: There are consulates in Benghazi for most of the maritime nations. Those nations not represented in Benghazi are represented in Tripoli.

BALLAST: Because of the exposed position of the sea berths, it is essential that vessels arrive with sufficient ballast for safe handling, having due regard to existing weather and sea conditions. Experience has shown that a fair estimate of the amount required is one third of the summer deadweight. A tanker found by the Mooring Master to be insufficiently ballasted will be rejected. However, it is imperative for the safety of the ship and of the installation that deballasting should be as speedy as possible, to reduce the period wherein the ship is most vulnerable to any sudden deterioration in the weather. It is, indeed, to the advantage of everyone concerned if the ship is able to commence loading as soon as the hoses are connected, deballasting simultaneous with the loading of the cargo. In cases when it is essential to complete the deballasting before loading can start, and deballasting time in excess of six hours will be deducted from the lay time.

As there are at Zueitina no facilities for discharging it ashore, vessels must arrive at the Terminal with clean ballast: all lines, pumps, and strainers must have been flushed out prior to arrival within one hundred miles of the Libyan coastline.

The Mooring Master will inspect ship's ballast on boarding, and he has the power to reject any vessel that he deems would cause pollution in the Terminal waters. A vessel so rejected must procee
to a position over one hundred miles from the coast, re-ballast, a
return only when the ballast is completely clean. A new notic
readiness must then be tended, and the loading turn w
counted as from this second arrival.

The sea area round the ship shall be adequately lig
frequent inspection by the Mooring Master will be mad
ballast discharge. Any pollution whatever, includir
discharge, will be cause for rejection. Similarly, any
causing pollution during loading will be cause for rej
vessel rejected on these grounds will not be re-acce
satisfactory evidence of repairs has been certified by
surveyor.

On completion of deballasting, all unused cargo
must be blanked off, sea valves closed and lashed, de
securely plugged, and drip pans placed below the
connections. All the requirements listed on the Com
and Fire Precautions Check Form must be seen to be
before loading is commenced.

In the event that the Company has to settle any thi
as a result of damage to property caused by pollution
any way to a vessel, the Company will have
reimbursement by those responsible for the vessel
incurred.

WEATHER: Weather conditions in Zueitina are ge
The temperature during the Winter seldom falls

breeze or near-gale – before falling away comp
During the Spring and Autumn, and in the
there are frequent prolonged periods of ca
However, in Spring especially, and again i

periods may be interrupted by the onset of the "gibli", an off-shore wind which, like the "khamsin" wind in Egypt, springs up with little warning to reach gale intensity, laden with sand and dust to such an extent that visibility is reduced to a few yards.

In the Winter months, prolonged periods of strong North-Westerly gales, with very heavy seas and high swells, accompanied by frequent rain squalls, are experienced. Even after the strong winds have subsided, long, high swells may continue for several hours to prevent mooring operations. Such North-Westerly gales are usually accompanied by a sharply rising barometer, and follow the passing of a cold front, with winds from the West.

Rainfall is confined to the Winter months only. Fog is rare, though it does occasionally occur in the Spring and Summer around dawn, generally dissipating after two or three hours.

GENERAL: Vessels are advised not to have on board any articles whatsoever of Israeli origin. If anything of such a nature is found it will be confiscated and the ship be liable to a fine and possibly to a delay for further investigation.

Goods – and, in particular, alcohol and tobacco – must not be taken from ship to shore, or from ship to ship.

Being an open roadstead, vessels must keep engines in a state of immediate readiness. No repairs to main engine may be undertaken in berth. Steam or electric power must be available on deck in case adjustments to anchor cables or mooring lines are found necessary. Power must be available on ship's whistles and sirens. Ship's boats must not be lowered into the sea and detached from the falls. Swimming is prohibited. The Mooring Master (and, when applicable, his assistant(s)) assigned to a tanker, will remain on board until after the vessel has loaded, unmoored, has completed documentation formalities and has cleared the Company's installations and is safely heading for the open sea. During the time he is aboard he is to be provided with accommodation suitable for one of Master Mariner status, and with palatable meals.

SHORE LEAVE: No shore leave is permitted.

AUTHORITY: Occidental of Libya Inc.

AGENCY: All ships must have an approved Agent to look after their interests. As from 1st June, 1978, all shipping agencies in the Socialist People's Libyan Arab Jamaharaya have been superceded by one nationalised company, known as The Universal Shipping Agency.

At Tripoli, the address is, Post Office Box 3703, Tripoli. Tel: Tripoli 40566 and 39631; Telex: 20263; Cables: UNISHIP TRIPOLI.

At Benghazi, the address is 98 Omar Mukhtar Street, Benghazi. Tel: Benghazi 91705 and 95008; Telex: 40101; Cables: UNIVERSAL BENGHAZI.

Ships bound for Zueitina may contact the Agent there by communications sent to either of these addresses. However, cables of estimated time of arrival sent to the Agent should be in addition to, and not in place of, those sent to OXYPORT, OXYLIBYA, TRIPOLILIBYA. Total charges are 750 Libyan dinars for the first 30,000 tons summer deadweight, or part thereof, plus 2 dinars 500 Dirhams for every 100 tons or part thereof in excess of 30,000 tons, plus 2% of the total sum in revenue stamps.

NOTES

Please also advise Shipping Guides Ltd.

Madeira

FUNCHAL: 32.38 N. 16.55 W. (See Plan Book)

DOCUMENTS:

- Maritime Declaration of Health Form.
- 5 Crew Lists.
- 12 Lists of Passengers finally landing.
- 5 Lists of Passengers in transit.
- 1 List of Stores and Provisions, including Deck and Engine Stores.
- 1 List of Contents of shops on board.
- 6 Copies of Manifest of Cargo for discharge.
- 2 Copies of each B/Lading of Cargo for discharge.
- 1 Copy of Manifest of Cargo in Transit.
- 1 List of Passengers finally landing, visaed by Portuguese Consul at original port.

All other entry and clearance documents are arranged by the Agents.

PILOTAGE: Vessels should radio their ETA to Agents who order Pilot. 24 hours notice requested. Pilot launch flies "H" flag during day. Exhibits bright white light over red at night. To request Pilot on approach by day fly international "G" flag, or give 2 long and 1 short blast on whistle. At night flash 2 long 1 short. For vessels berthing alongside Pilot boards in bay; for vessels anchoring Pilot does not board but pilot launch indicates where vessel should anchor. Pilot boat equipped with radio telephone on 2182 and 2341 kHz.

Also VHF, Channel 16 (calling) and Channel 6 (working).

ANCHORAGE: Permitted anchorage within 800/900 m. East from end of breakwater or 300/500 m. South of breakwater within a limit of 400 m. from shore.

RESTRICTIONS: None.

MAX. SIZE: No limit to size of vessels which can anchor, but all anchorage positions should be indicated by pilot launch. For vessels berthing alongside quay max. permissible length 990 ft. max. draft 36 ft. Oil carriers discharge at buoys at Praia Formosa 3 miles to West of Funchal. Max. length of oil tankers than can berth at oil discharge buoys 665 ft. max. draft 36 ft.

HEALTH: Free Pratique may be arranged by Master sending wireless message addressed "Port Doctor Funchal" – "Request free pratique arriving . . . from . . . sailing to . . . number passengers . . . landing . . . number passengers in transit . . . number of crew . . . all well. Master."

In event suspected disease or fever on board Master should wireless either Port Doctor direct or to ship's Agents, who will inform Port Doctor. The Master will then be instructed what further action he is to take.

When vessel other than of national flag arrives after calling at another port in same country usual procedure applies, i.e. Masters' radio for free pratique or pratique granted by Doctor visiting in bay.

RADIO: Maderia Radio Station call sign CUB 500 k/cs. Same station normally used by Agent when communicating with vessel.

TUGS: Two tugs each of 1,000 /1,100 h.p. – bollard pull 18 tons – are available.

N.B. Vessels up to 2,000 gross tons are not obliged to use tugs.
Vessels of between 2,000 and 15,000 gross tons are obliged to use one tug.
Vessels over 15,000 gross tons are obliged to use two tugs.

BERTHING:

Quay No. 1 Length 139 m., depth 6 m.
Length 41 m., depth 7 m.
Length 19 m., depth 8.5 m.
Quay No. 2 Length 425 m., depth 11 m.
Quay No. 3 Length 347 m., depth 11 m.

STEVEDORES: When ships require labour, Agents must be notified before 1600 hrs. on working days and on Sundays and holidays before 1100 hrs., after these hours labour not available for last minute engagement. On Christmas Eve work stops at noon even if ships loading or discharging. No labour available Christmas Day, New Year's Day or Easter Sunday.

Grain cargoes can only be worked from 0800 hrs. to 2000 hrs. daily including Sundays, and a maximum of 4 gangs only can be worked simultaneously.

Bulk cargoes such as potash and fertilizers need to be bagged on board. Receivers supplying the bags – and this generally applies to grain. Bulk cement, clinker and granulated plaster is discharged by grabs.

MEDICAL: Advance notice is required by Agents for any medical attention required. Hospital facilities available. No inoculations required.

TANKERS: Diameter of connection of discharge lines 8 in. into pipe-lines of 12 in. diameter for black fuel and 10 in. diameter for white fuel. 1 anchorage buoy berth with max. draft of 36 ft.

DENSITY: Salt water.

FRESH WATER: Available at anchorage and ex quay.

Three barges available, with total capacity of 450 tons. Delivery hoses ex barge or ex quay are of 2.5 in. diameter, and there are nozzles of various sizes. Rate of delivery ex barge – 50 t.p.h. per barge. Delivery ex quay, said to be about 60 tons per lead per hour, but this can be slow, according to the number of ships being supplied, and the amount of water in the city storage tanks and may require to be supplemented ex barge in case of big quantities or supplies required within limited time.

FUEL: Fuel oil available from 3,500 seconds Redwood 1 to 200 seconds Redwood 1. Also marine diesel and gas oil. 12 hours (min. notice) required.

FIRE PRECAUTIONS: At discharging buoys usual non-smoking precautions.

GANGWAY/DECK WATCHMEN: Gangway watchmen recommended.

OPENING/CLOSING HATCHES: Normally carried out by crew.

CUSTOMS ALLOWANCES: Tobacco, Wine and Spirits: Moderate supplies allowed for personal use during ship's stay.

CARGO GEAR: No specific local safety regulations. Vessels discharging must provide strops, slings and nets. Lifts over five tons must be effected by ships gear.

10 mobile cranes are available.
1 crane – 6 tons at 12 m., 3 tons at 24 m.
3 cranes – 5 tons at 20 m.
3 cranes – 3 tons at 12 m.
1 crane – 15 tons at 13 m.
1 crane – 45 tons at 3 m.
1 crane – 20 tons at 3 m.

A floating crane is available which can lift up to 27 tons from the water line up to 8 m. This same crane can lift up to 20 tons from the water line to 12 m.

IDENTIFICATION CARDS: Required.

CONSULS:

Austria	21057	W. Germany	20338	Peru	21375
Belgium	20255	Greece	20824	Spain	20535
Brazil	20355	Guatemala	20824	Sweden	20121
Costa Rica	24888	Holland	20317	Switzerland	22101
Denmark	22031	Italy	23890	United Kingdom	21221
Dominica	21057	Monaco	20041	United States	23309
Finland	20596	Norway	20541	Uruguay	20535
France	21445	Panama	20091	Venezuela	24050

REPAIRS: Repair yard available which can carry out most engine repairs on board except removing or replacing main engines. Hull work limited to removing riveting or replacing hull plates above water line, electric and oxy-acetylene welding. Most electrical work can be effected but notice required in regard to materials necessary. Foundry where castings can be made up to one ton weight.

DRY DOCKS: None.

REPATRIATION: Limited facilities for crew changes. Necessary repatriations can be made.

AIRPORT: At Santa Cruz, 20 km. East of Funchal. Service between Funchal and Lisbon operated by national airline TAP, 19 flights weekly Funchal/Lisbon/Funchal.

TIME: GMT maintained throughout year.

HOLIDAYS: New Year's Day (totally unworkable); Easter Sunday (totally unworkable); Municipal Holiday (local) (workable, 50% overtime); Camoes Day (workable, 50% overtime); Corpus Christi (workable, 50% overtime); The Assumption (workable, 50% overtime); Proclamation of the Republic (workable, 50% overtime); All Saints (workable, 50% overtime); Independence of Portugal (workable, 50% overtime); The Immaculate Conception (workable, 50% overtime); Christmas (totally unworkable).

Workers' Day, Portugal Day and Good Friday are also totally unworkable.

Saturday is an ordinary working day. December 24 (workable up to 1500 hrs. only).

POLICE/AMBULANCE/FIRE: Police 22022; Ambulance 22122; Fire 21163.

SHORE LEAVE: All crew visiting shore must be in possession of special Landing Card, plus Identity Cards, Discharge Books or Passports, which must be shown to Immigration Officer at gangway. Crew Landing Cards must be stamped by Immigration Officer before crew can proceed ashore.

DEVELOPMENTS: The Port Authority commenced construction of new jetties in 1976 with completion of the first phase in September 1978.

Phase 1: Construction of 290 m. of berthing space, depth 6–8 m.
Phase 2: Two roll-on/roll-off berths, length 270 m. and 170 m.
Phase 3: Construction of a Marina.

AUTHORITY: Capitania do Porto.

Malagasy Republic

DIEGO SUAREZ: 12.12 S. 49.19 E.

Shipmaster's Report (Survey vessel): 1975.

DOCUMENTS:

Documentation on Arrival:

Malagasy Customs require:
2 Crew Lists.
1 Copy Personnel Manifest (any form will do).
1 Nil Cargo Return.
1 Bonded Stores List.

Immigration/Police:
2 Crew Lists.
Inspect all Discharge Books and Passports.
An undertaking that all men will carry their Identification when ashore.

Port Health:
2 Crew Lists.
3 Vaccination and Inoculation lists very carefully inspected.
2 Copies of their own Maritime Health Declaration Form, copy of which becomes Inward Clearance, after stamping ashore.

Agents:
2 Crew Lists.
Ship's register to lodge ashore.

Documentation on Departure:

A gentleman from the Port Junta visits in plain clothes with the Agent and will wish to see:
Cargo Ship Safety Construction Certificate.
Safety Equipment Certificate.
Safety Equipment Record of Inspection Certificate.
Safety Radio Certificate.
Load Line Certificate.
Ships Register (held by the Agent).

After checking all these an Outward Clearance Certificate will be presented. One is then free to leave the Port, the Agent having given an undertaking that all Port dues have been paid.

APPROACHES/PILOTAGE: Tides run fast in the Orangea Pass, but seem to follow the pattern as per the Admiralty Pilot. Until experience is gained it should only be taken in the hours of daylight. There are numerous natural transit marks available to the navigator, all very clearly described in the 'Pilot'. For this reason it would be essential to take this in fine visibility. Pilots can be taken at Cape Mine but this can be difficult and dangerous in the S.E. Trade season and ships are advised that they can proceed on into the Bay right up to Port Antsirana Point.

ANCHORAGE: There are many splendid anchorages available in this vast Bay. Vessel anchored 2 cables off the N.W. corner of the wharf at Antsirana, to conduct formalities for Customs, etc.

RADIO: Tananarive Radio handles HF traffic and Diego Suarez can handle MF and VHF. English is not understood. Port Antsirana Pilots are available spasmodically on Channel 16.

BERTHING: Good modern berthing, plenty of tugs. 1 pier only about 1,500 ft. long operated by SCOM. Not actually used by vessel which went straight into the Dry Dock.

FRESH WATER: Good quality water available at the Pier and at the Dry Dock. No water barge.

FUEL: It appears that they like to have at least a week's notice. Gas oil is available through the Agent or through Shell. There is a bunker barge but this can be unreliable unless several week's warning is given. Bunker available by bowser and pipe-line at the main wharf.

We were unable to find any lubricating oil at all. Several weeks warning is necessary. All fuels and oils should be ordered through London.

MEDICAL: Great attention was paid by the Port Health Authorities and services asked for were promptly dealt with especially out of date inoculations. There is a hospital with Doctors and the necessary surgeries.

DRYDOCK:

Length overall	199.05 m.	653.00 ft.
Subdivided into sections	128.96 m. 70.09 m.	424.00 ft. 229.00 ft.
Breadth at Bottom	28.40 m.	93.00 ft.
Breadth at Coping	36.60 m.	120.00 ft.
Depth at sill and blocks at MHWS	10.42 m.	34.40 ft.

Yard Services: Nothing was too much trouble for any of their staff attending this ship. Power was a bit of a problem but they did everything to help. Fire mains, fresh water, cranes were all good. Toilets and shower-rooms were more than adequate especially after we were given our keys and had them cleaned.

Workshops: A modern well equipped yard with every conceivable service from an iron foundry to upholstery shops. A clean, well kept set of shops including the building of small craft. The Engineers of this ship were very favourably impressed with the shops and technical services.

SURVEYORS: We were informed that there is no Lloyd's Surveyor in the country but often when required Lloyd's Representative flies up from Durban. Sometimes it is agreed that the resident Bureau Veritas Surveyor will substitute. M. Cavanas lives in Tananarive.

AIRPORT: Air services are available each day to connect with the international Air France flights to Orly from the local airfield about 8 miles from the town.

GENERAL:

Launches: Numerous launches are abounding throughout the harbour. Owned by the Dock Company, the Port Junta and one by the Agent, who charges FMg 2,500 for a round trip out to the anchorage (c £5.00).

Laundry: A laundry man did call but we were unable to offer him any business. He said he would need at least two and a half days to complete a complete ship's wash.

Shore Amenities: Generally a very popular Port for Officers, Scientists and Crew. The absence of large hotels would be felt if the whole ship's company had to be present for a long period.

Hotel de la Poste and the Hotel Nouvelle have each about 15 bedrooms air conditioned, and ordinary. Bed and Continental Breakfast with air conditioning FMg 1,500.00 – FMg 2,500.00 – not more than £5.30 per night. They have excellent dining rooms and good French cooking.

Bathing facilities by taxi at beaches and clubs some 7 or 8 miles from town.

AGENTS: S.C.A.C. Madagascar, Box Poste 384, Malagasy Republic, Diego Suarez, Madagascar. Telephones: Diego Suarez 147. Telex: 93102.

FORT DAUPHIN: 25.02 S. 47.02 E.

DOCUMENTS:

Manifest of Cargo for discharge.
Manifest of Cargo in transit.
Ship's Stores List.
List of Passengers Landing.
Crew List.
Franchise Certificate (for mail-carrying vessels).

PILOTAGE: The port is an open roadstead and pilotage not required.

ANCHORAGE: In depths of 8 m. Vessels anchoring are charged with port dues.

RESTRICTIONS: Port is normally used by coastal trading vessels. In case of liners handling cargo exceeding 150 tons, special permission required which is obtained by Agent.

HEALTH: Pratique should be requested from the Health Department, tel. 36.

RADIO: Fort Dauphin Radio, call sign 5RD, between 0400 and 1630 hrs. GMT on following frequencies: 458, 500, 2182 and 2712 kHz.

TUGS: None available.

BERTHING: There are no berths alongside. Vessels work cargo at anchorage.

STEVEDORES: Arranged by the Fort Dauphin Lighterage Company. Advance notice of ETA required to arrange gangs. Average loading/discharging rate is 10 tons per hold per hour.

MEDICAL: 2 hospitals available in the town.

TANKERS: 1 buoy berth for tankers.

FRESH WATER: No water barge. Only small quantities can be supplied in emergency.

FUEL: Not available.

GANGWAY/DECK WATCHMEN: Not necessary.

OPENING/CLOSING HATCHES: Opening and closing hatches carried out by stevedores.

CUSTOMS ALLOWANCES: 1 carton of cigarettes per man. No alcohol.

CONSULS: No local representatives.

REPAIRS: Only facilities available for repairing lighters.

REPATRIATION: No facilities for effecting crew changes.

AIRPORT: Situated 5 kms. from the port, 4 regular flights per week.

TIME: GMT plus 3 hours all year round.

HOLIDAYS: Days on which work is normally carried out with overtime payment: Easter; Ascension Day; Whitsun; Assumption; Christmas.

Official holidays on which work can be arranged by special permission: 1st January; 1st May; 26th June (Independence Day); 14th October; Festival of the Republic.

FIRE/POLICE/AMBULANCE: Police Tel. 49; Fire 19; Ambulance 36.

SHORE LEAVE: Not permitted.

AUTHORITY: Service des Ports' Phares et Balises, Tananarive.

AGENT: SCAC Madascar BP 425, Tananarive. Tel. 228–64. Cables: "Freight Tananarive". Telex 22864.

MAJUNGA: 15.44 S. 46.20 E.

DOCUMENTS:

List of Crew Members.
List of Passengers.
Customs Documents.
Health Documents.
Manifests.
Bills of Lading.
Ship's papers.

PILOTAGE: Vessels requiring Pilot must apply by cable to Majunga Harbour Master's office at least 24 hours before arrival. Pilot embarks at Narcissus buoy.

ANCHORAGES: Indicated to ship's captain by cable from Majunga Harbour Master's office.

RESTRICTIONS: Ship's can enter day and night. Max. draft allowed 10 m.
MAX. SIZE: No restriction except for max. 10 m. draft.
HEALTH: Pratique automatic when vessel comes from a Madagascar port. Pilot is health agent.
RADIO: Radio Majunga.
STEVEDORES: Vessel informs Agent by telegraph 24 hours in advance of number of gangs needed.
MEDICAL: Hospital available.
TANKERS: 1 berth, max. draft 10 m.
FRESH WATER: Unlimited drinking water.
CERTIFICATES: See "Tamatave".
CUSTOMS ALLOWANCES: See "Tamatave".
CONSULS: French and Greek consulates.
REPAIRS: Minor repairs only.
REPATRIATION: All facilities available.
AIRPORT: Served by regular airlines; 7 km. from town.
TIME: GMT plus 3 hours.
HOLIDAYS: Catholic and official holidays. Commercial transactions possible on public holidays.
POLICE/FIRE/AMBULANCE: Police 24–85; Fireman 13; Hospital 29–15.
AUTHORITY: Harbour Master.

AGENT: S.C.A.C. Madagascar, B.P. 256, Majunga. Tel. 23.87. Telex: 62710. Cables: Freight Majunga.

TAMATAVE: 18.08 S. 49.22 E. (See Plan Book)

DOCUMENTS:

Health
International Maritime Certificate of Health.
List of Passengers disembarking.
Crew List.

Police
List of Passengers disembarking.
Crew List.

Customs
Ship's Register.
3 sets Cargo Manifests.
Crew List.
2 Stores Lists.
2 Lists of Crew disembarking.
2 Lists of Crew transitting.
2 Lists of Passengers disembarking.

Port
2 sets Cargo Manifests.

Agents
1 set Cargo Manifests.
List of Passengers disembarking.
Crew List.

PILOTAGE: Compulsory. No telegraphic address. Ships advise Agents hour of ETA. Pilots informed by Agents. Due to the breakwater being extended the South Pass is temporarily closed to all traffic. When completed, the extension will render the Pass so narrow that only small coastal vessels can use it.

The East Pass is now permanently in use for large vessels. The pilot boat waits on the East Pass range approximately 3.3 miles S.S.E. of Prunes Island Lighthouse. The pilot boat is fitted with a small, portable VHF set (Channels 16 and 27) but its effective range is only about 5 miles.

ANCHORAGES: No special anchorage. If no berth available on ship's arrival, Pilots put ships at best anchorage, according to draft and length of ship, between Reef and shore.
RESTRICTIONS: No restrictions. Ships enter and sail day and night any time. Max. tide only 3 ft.
MAX. SIZE: For roads, max. length about 200 m. (concerns only passenger ships). For cargo vessels max. length 180 m.; max. draft 31 ft. 2 in. (9.5 m.).

For tankers, max. LOA 230 m., max. beam 31 m., max. draft 12.20 m. in salt water. Distance from stern to manifold 110 m.

HEALTH: Quarantine message sent to Agents who inform Health Service. "Q" flag must be hoisted if health satisfactory. Captain presents maritime declaration of health. Health Officer and Immigration board at Quarantine anchorage.
RADIO: Tamatave Radio, call sign 5RS. VHF frequency (16) 156.80 – (26) 161.90 – 168.95.
TUGS: 1 tug of 1,750 h.p. and 2 tugs of 250 h.p. available to assist berthing.
BERTHING: 3 berths for deep-sea ships and 2 berths for coastal ships. Ships moored at berth in order of arrival and according length and draft. Mooring has to be very strong, due to swell that may sometimes enter harbour when S.E. trade winds are strong, or if cyclone in vicinity. Mooring by 2 chains and special nylon lines furnished by harbour. Swell is so dangerous that ships have to go to anchorage or put to sea until weather improves.
CRANES: 3 ton and 6 ton cranes available for hire. Floating crane 80 ton capacity also available.
STEVEDORES: ETA to Agents must give hatches, tonnages, and all information about cargo.

Working hours: 1st shift 0700 – 1400 hrs., 2nd shift 1400 – 2100 hrs. On Sundays there is one shift 0700 – 1400 hrs. at overtime rates.

MEDICAL: Preferable to inform Agents in advance. All hospital facilities available – smallpox vaccinations.
TANKERS: 1 refinery imports crude oil and exports fuel and refined oils. Tankers moored using anchors forward, and moorings aft.

Diameter of lines 12 inches. No slop discharge facilities. If tanks are to be washed, slops must be discharged outside harbour.

Shipmaster's Report: A brief description of the berthing manoeuvre is as follows:

About 350 m. from the berth, let go starboard anchor and swing around to starboard with the assistance of a tug, slacking the cable all the time. As vessel completes swing, let go Port anchor, then slack down both anchors. Vessel usually finishes up with about 9 shackles on each anchor. Aft, vessel secures with 4 lines from the starboard quarter to the buoy and 4 lines from the port quarter to the quay. The mooring operation takes about 2.5 hours and unmooring about 1.5 hour.

Facilities:

1. One 12 in. rubber hose, connected always from the starboard side. You can expect 4-5 hours for connecting up the hose and about 2-3 hours for disconnecting.
2. The shore tanks are situated about 5 km. from the vessel, and have a total storage capacity of about 100,000 cu.m. The tanks are located about 4 m. above sea level, the heights of the tanks being approximately 13 m.
3. The main pipe-line is 20 in. diameter by 5 km. long.
4. Maximum back pressure permitted is 6-7 kg. However in view of the length and size of the line it is very difficult to obtain such a pressure, even with all 3 pumps going all out. Understand from the refinery Superintendent that maximum back pressure so far attained was 4 kg. The back pressures are monitered by gauges fixed on the manifold and on the quay.
5. The maximum draft permitted at the Tanker mooring is 40 ft. Fully laden tankers arriving can berth only in daylight hours. However 24 hour sailing is possible.
6. The cargo discharging operations are as follows: The main pipe-line is kept constantly filled with bunker fuel and has a capacity of approximately 1,000 cu.m. After connecting up vessels commence discharge of their crude. The bunker fuel in the line is thus pushed back and stored in a separate tank ashore. The vessel then continues to discharge her full cargo. After completing discharge, all tanks are inspected and a dry certificate obtained. The refinery then pushes back the pipe-line crude (1,000 cu.m.) and about 1,200 cu.m. of bunker fuel, which must be stored on the ship in separate tanks. Thereafter, the vessel must discharge all crude, and finally the bunker fuel. Thus the pipe-line is constantly kept filled with bunker fuel. The drawbacks to the vessel are obvious. 3 individual stripping operations are involved viz. stripping the crude during completion of discharge, stripping of pipe-line crude stored in the ship and stripping of the bunker fuel.
   Note: Capacity of shore pumps (when transferring oil back to ship) is 800 t.p.h.
7. Communications: A telephone is installed aboard for communication between ship and shore. This however never seems to be at its best when you need it most. Other difficulties are the language barrier (French being spoken). Notwithstanding, the slow rate of discharge obtainable, helps to offset in part the lack of communications.
8. Out-turn quantities: It is understood that these are checked by sounding shore tanks.
9. Bunkers are available on 24 hours notice. Range Redwood 1,000–1,500 seconds.
10. Diesel oil is available, however as the supply barge has been out of commission for sometime now, supply cannot be depended upon.
11. Fresh Water available.
12. Connection and disconnection of the cargo pipe-line is undertaken by the refinery personnel.

DENSITY: 1023.5.
FRESH WATER: Delivered by water-boats at rate of about 100 t.p.h.
FUEL: Available alongside. Gas oil and diesel oil at 70 t.p.h. Fuel oil at 110 t.p.h.

Vessels at anchorage may be serviced by fuel barge of 250 tons.

FIRE PRECAUTIONS: 1 fire-boat stationed near tankers.
GANGWAY/DECK WATCHMEN: Recommended. Very low cost.
OPENING/CLOSING HATCHES: Booms always operated by crew. If hatches are Macgregor type, by crew; otherwise by stevedores.
CERTIFICATES: Safety certificates (3), Derating or Exemption Certificate, Register, Load Line Certificate.
CUSTOMS ALLOWANCES: 200 cigarettes. Wine/Spirits. 1 opened bottle.
IDENTIFICATION CARDS: Only seaman's papers required.
CONSULS:

France	2721	Dutch	2632
Great Britain	2680	Swedish	2136
Norway	2549	Danish	2615

REPAIRS: Only small repairs possible.
REPATRIATION: Possible, arranged by Agents.
AIRPORT: Served by regular airlines. 1 flight a day by Air Madagascar to Tananarive and 4 to 6 flights a week from Tananarive to Africa and Europe.
TIME: Local time GMT plus 3 hours.
HOLIDAYS: 13 holidays per year. Cargo work cannot be arranged on holidays but can be on about every second Sunday.
TELEPHONES: 2 connections at 2 berths used for passenger ships, but may be requested by other ships.

GENERAL: 14 cranes of 3 tons each. 1 floating crane for max. 120 tons weight. Small tugs and lighters for ships operating on roads. 1 port launch and some private launches for crews of ships at anchor.
SHORE LEAVE: Permitted.
DELAYS: Not fixed. When all berths occupied, ships wait at anchorage.
AUTHORITY: Port Autonome de Tamatave.
AGENT: SCAC Madagascar, Rue du Capitaine-Shoel, BP 411, Telex: 55610. Tel. 320–48; 320–49; 326–80; 326–81. Cables: "Freight Tamatave"

2 copies Crew Declaration List (cameras, radios, etc.).
2 copies Cargo Manifests.

PILOTAGE: Extra charge for pilotage outside normal office hours and holidays. Ocean vessels should anchor about 0.8 miles S.E. of Tg. Dungun Lighthouse.

ANCHORAGE: On arrival vessels required anchor about one mile outside berthed ships to obtain pratique. Accommodation ladder must be rigged on lee side to allow Port Authorities to board.

CUSTOMS: Customs Office hours 0830 to 1630 hrs. (Thursday afternoons, Fridays and holidays excepted).

IDENTIFICATION CARDS: Every member of crew must produce Identity Document or Shore Leave Pass at Customs House when landing and again when returning to vessel.

SHORE LEAVE: No seaman may proceed more than 3 miles from Dungun Customs House. The Immigration Officer has authority to limit or prohibit Shore Leave in all cases.

KOTA KINABALU (Jesselton), Sabah: 06.00 N. 116.05 E. (See Plan Book)

DOCUMENTS:

Documents to be produced on arrival:
Port Clearance from Last port.
6 copies Inward Cargo Manifests.
2 copies Hatch List, *or*
1 copy Stowage Plan.
9 copies Crew Lists.
9 copies Passenger Lists.
2 copies Bonded Store Lists (incl. Arms and Ammunition Lists).

In addition, the Master has to complete a Shipping Arrival Report Form and a Maritime Declaration of Health Form.

Notes: (a) If vessel arrives from any port outside those declared infected.

(b) These 2 copies (Inward Cargo Manifests) must be certified by the Master as follows: "I hereby certify that to the best of my knowledge and belief this manifest is complete and correct. . . . . Master".

To be Supplied to Ship before Departure:
1 set Agents Outward Manifests.
2 copies Passenger Lists for Immigration.*
1 copy Passenger Lists for Customs.*
1 set Manifests for Customs.*
*To be supplied by Agent.

If vessel departs to a port outside Sabah, 2 copies outward crew list are also required for Immigration.

PILOTAGE: Pilot normally available between 0600 and 1800 hrs. only. Written application must be submitted 12 hours in advance.

ANCHORAGES (also see "Health"):

Special Anchorages and Prohibited Areas

(1) *Prohibited anchorage:* No vessels shall anchor as to swing within 3,000 ft. of the F.R.G. light on the N.N.E. end of the Authority wharf in approx. position Lat. 05° 59′ 51″ N. Long. 116° 04′ 30″ E. Vessels under 150 ft. in length may anchor within this area, East of a line joining the F.R.G. light and Gueritz shoal light beacon.

(2) *Prohibited Area:* Except with the previous permission in writing of the Authority, no logs or timber shall be allowed to lie afloat within the area – Eastward of a line drawn in a 172° direction from Grieve Reef Beacon.

(3) *Explosives and Dangerous Goods Anchorage:* Vessels having explosives and Dangerous Goods on board shall anchor within a line drawn from a position in Lat. 06° 01′ 21″ N. Long. 116° 05′ 45″ E. thence in a 360° direction for 6.5 cables thence in a 270° direction for 10 cables thence in a 180° direction for 6.5 cables thence in a 090° direction for 10 cables to the starting point.

(4) *Dangerous Petroleum anchorage:* A vessel having dangerous petroleum on board shall anchor within a line drawn from a position in Lat. 06° 00′ 42″ N., Long. 116° 05′ 45″ E. thence in a 270° direction for 10 cables thence in a 360° direction for 6.5 cables thence in a 090° direction for 10 cables thence in a 180° direction for 6.5 cables to the starting point.

(5) *Quarantine Anchorage:* A vessel which is required to proceed to a quarantine anchorage shall anchor within an area bounded by a radius of 3 cables from a position in Lat. 06° 01′ 34″ N. Long. 116° 03′ 46″ E.

RESTRICTIONS:

1. Entering. Vessels with dangerous cargo such as benzene are not allowed to stay alongside wharf or to berth after 1800 hrs. Vessels arriving from any port within hours of day-light not allowed to berth until they see the signals at the Customs House directing them. This applies equally to vessels arriving on schedule as well as unscheduled vessels and any infringement of these regulations can have very serious consequences. Master of ship not sailing within 48 hours after port clearance to report to Harbour Master reason for not sailing, and, if so required obtain a fresh port clearance.

2. Shifting. The Authorities must be informed prior to shifting.

3. Immigration. No person may leave ship before clearance has been given by Customs/Immigration officers.

4. Currency. There is no restriction on amount of currency which can be brought into this State but max. amount allowed to be taken out is Mal $100. Foreign exchange must be conducted through recognised banks.

HEALTH: (Also see "Regulations"). *(a)* Sabah Government are signatories to WHO convention on Quarantine regulations. Port Health Doctor will not board unless vessel comes from infected port. Instead, Maritime Declaration of Health to be filled-out and handed to Boarding Officer of Health Department who will require 1 copy of crew list and 1 copy of passenger list. Vessels should cable Agent prior arrival advising last port of call and whether vessel is healthy. Pratique normally cabled to ship but if unreceived, vessel need not proceed to Quarantine anchorage unless coming from infected port.

(b) Vessels arriving from ports outside the State will anchor until boarded by Authorities unless previously instructed by telegram to come alongside.

RADIO: (Also see "Health"). Information required before ship's arrival: Manifest, stowage plan, number of gangs required, amount of water required, Pilot requirements. Local radio call sign "Control K.K.".

TUGS: Tug 280 h.p. available to assist vessels berthing and unberthing without a Pilot at inner berth. Ship's lines used.

BERTHING: Wharf T-shaped; outer berth 647 ft. long with min. depth of 25 ft. Inner berth 475 ft. long with min. depth of 21 ft.; 2 godowns 28,000 and 30,000 sq. ft. floor area respectively. Sabah Ports Authority operates one 10-ton crane, 22 towing tractors, 43 6,000-lb. forklifts, one 7-ton forklift, 76 trailers of capacity ranging from 3 to 6 tons. Heavy Lifts up to 6 tons received into Sabah Ports Authority trailers, up to 17 tons could be received into railway wagons, beyond 17 tons overside discharge into landing craft. Sabah Ports Authority landing ramp capable of accepting loads of up to 30 tons. Bulk handling limited to petroleum and bitumen into private installation by pipe-line.

New Wharf: Rectangular island wharf 700 ft.×400 ft.

The particulars of the berths are as follows:

Berth No.	*Length (ft.)*	*Depth (ft.)*
1	700	30
2	400	24
3	400	24
4	260	24

Covered storage: one transit shed 72,000 sq.ft.

STEVEDORES: Stevedores provided by SPA; labour supplied for working in ships' holds and on ships' winches (if required). For cargo delivered direct ex-wharf consignee provides wharf labour; cargo for Sabah Ports Authority godown labour provided by Sabah Ports Authority.

Working hours/days: Ships can be worked on all days except for 11 state and national holidays when port closed completely. Working hours 0730 to 1130 hrs.; 1300 to 1700 hrs.; 1800 to 2200 hrs. Work beyond these hours possible by application. Additional charges payable.

Deliveries 0730 to 1630 hrs. except Sunday.

Loading/discharging rate: General cargo excluding vehicles and liquid cargo 17.60 B/L tons per gang hour. Palletised (unit-load) cargo 27.4 B/L tons per gang hour.

CARGO: (Also see "Berthing").

1. Tally: The Agent can provide tally clerks at ship's expense.

2. Inward cargo: Ship's responsibility ceases as soon as consignees take delivery ex-sling.

3. Transhipment cargo: Transhipment cargo handles via Port Authority Godown.

4. Outward cargo: All cargo is brought to the ship alongside wharf either by tractors and trailers.

5. Special cargo regulations:

(a) Dangerous cargo. Vessels carrying explosives as cargo: All vessels arriving at, or remaining within the limits of, any port with explosives on board shall fly the gunpowder flag at the foremast.

No vessel having explosives on board shall, without the permission in writing of the Harbour Master, come or remain within 500 yards of the shore or any other vessel:

Provided that such a vessel may, with the written permission of the Harbour Master, come and remain within such limit where:

(i) such explosives are wholly and exclusively of Class V (Fulminate) or Class VI (Ammunition) or both such classes in the second schedule; and

(ii) the total quantity of such explosives does not exceed two thousand pounds; and

(iii) such explosives are carried in a properly constructed magazine duly certified as such by a British Board of Trade Surveyor or by an officer fulfilling similar functions appointed by a Government of any British possession or the vessel has a certificate from one of Her Majesty's Inspectors of Explosives or from an Officer fulfilling similar functions appointed by the Governments of Singapore, the Federation of Malaysia or Hong Kong and approved by the Governor that all the explosives on board such vessel have been properly stored and the Master of such vessel further certifies in writing that no other dangerous cargo is carried by the vessel; or where:

(iv) such explosives are wholly and exclusively explosives of one or any of Class III (Nitro-compound), Class IV (Chlorate mixture) or Class VII (Firework); and

(v) The total quantity of such explosives does not exceed three thousand pounds.

No such explosive shall be landed, shipped or transhipped between sunset and sunrise without the previous permission in writing of the Harbour Master. Any Master of a vessel offending against the provisions of this section shall be liable to a fine of one thousand dollars.

(b) Livestock. Pigs or cattle may not be loaded or discharged on any wharf without permission of the S.P.A.

MEDICAL: Medical Officer of Health: Medical Services Department, tel. 54303. Vaccination and inoculation (incl. Yellow Fever) can be arranged via Agent at any time during working days. In case of death on board, Agent and Harbour Master as well as the Police to be informed.

FRESH WATER: Can be supplied from wharf. Supply rate is 25 tons per hose per hour.

FUEL: Not available.

CONSULS: British Tel. 54056; Indonesian Tel. 54100; Japanese Tel. 54698.

HOLIDAYS: Working on Sundays/holidays is possible against overtime payment. No work will be done on Chinese New Year's Day, Hari Raya Puasa and Christmas Day.

POLICE/AMBULANCE/FIRE: Police 999, Ambulance 54911.

GENERAL: Ship Chandlers: All kinds of stores and provisions available.

Recreation Facilities. Two cinemas in town which show English films frequently. Three tennis courts available and football matches may be arranged. Sports Club is next to town Padang, about half a mile from wharf and golf and yacht clubs situated on beach at Tanjong Aru, 4 miles from town.

Surveyor: Harrisons & Crosfield (S) Ltd. are Lloyd's Sub-Agents and can arrange a surveyor provided prior warning is given.

Fumigation: No facilities.

SHORE LEAVE: Crew members allowed ashore after inspection by Immigration Officer.

REGULATIONS: *(a)* Arrival and Departure. 1. The owner or Agent of every vessel other than a small ship intending to call at a port shall, as soon as possible, and in any case not later than 36 hours prior to the estimated time of arrival of the vessel, give notice in writing to the Authority of such arrival and, if so desired, the requirement for a berth at a wharf.

2. The notice under this regulation shall be in a form prescribed by the Authority and shall contain full particulars regarding the cargo to be discharged and loaded, the embarkation and disembarkation of passengers, heavy lifts, special or perishable cargo, hazardous and dangerous goods (whether to be discharged at the port or not), and any other matters of importance relating to the working or safety of the vessel in the port.

3. The Master of every vessel entering or leaving a port between sunrise and sunset shall cause to be hoisted the national colours and the signal letters, if any, of the vessel. The national colours shall be exhibited from 0800 hrs. to sunset whilst the vessel remains in port.

4. The Master of every vessel arriving from outside the State of Sabah shall exhibit the Immigration and Quarantine signals contained in the First Schedule and shall also at the request of a Customs officer hoist the Customs signals. Such signals shall remain exhibited until the appropriate officer has given permission for them to be lowered.

5. No vessel shall approach within 600 ft. of any other vessel exhibiting the Immigration, Health or Customs signals.

6. No person other than a Pilot may board or disembark from any vessel until the vessel is cleared inwards and the Immigration, Quarantine and Customs signals have been lowered.

7. Every vessel entering a port shall be anchored or efficiently secured to a wharf or buoy before commencing the loading or discharging of cargo and/or the embarkation or disembarkation of passengers.

8. No vessel shall leave any port unless in possession of a valid Port Clearance issued by or on behalf of the Director of Marine.

(b) Special signals.

Significance	*By Day*	*By Night*
Immigration (for ships not carrying passengers)	International Code Signal "2 5"	Two green lights, 6 ft. apart, hoisted vertically where best seen.
Immigration (for ships carrying passengers)	International Code Signal "3 4"	Two green lights, 6 ft. apart, hoisted vertically where best seen.
Quarantine (vessel is Healthy request pratique)	International Code Signal "Q"	Nil
Quarantine (vessel is suspect)	International Code Signal "Q Q"	A red light over a white light and a separate hoist of red light over a green light and hoisted vertically 6 ft. apart where best seen.
Quarantine (vessel is infected)	International Code Signal "Q L"	
Quarantine (not received pratique)	Nil	A red light over a white light 6 ft. apart hoisted vertically where best seen.
Request Police Assistance	International Code Signal "S T"	A green over a white light, 6 ft. apart hoisted vertically where best seen.
Request Medical Assistance	International Code Signal "W"	A red light over a green light, 6 ft. apart, hoisted vertically where best seen.

(c) Priority. First come first served.

AUTHORITY: Sabah Ports Authority.

AGENT: Harrisons & Crosfield (Sabah), Limited. Telegraphic address "Crosfield". Tel. Shipping Department 52458; Vessels at wharf 52300–54400.

KUCHING, Sarawak: 01.34 N. 110.21 E.

(See Plan Book)

DOCUMENTS:

Port Clearance to be surrendered to Customs when boarding.

Crew Lists and Passenger Lists, 2 copies for Immigration Department, 2 copies for Kuching Port Authority, 3 copies for Customs, 1 copy for Port Health Officer.

List of Ship's Stores (2 copies for Customs).

List of Ammunition (3 copies for Customs).

Health Documents (Vaccination Certificates and Cholera Inoculation Certificates to be examined by Health Inspector).

Manifests (3 sets for Customs, 5 sets for Kuching Port Authority, 1 set for Health Inspector).

Customs: Permit to go alongside a legal landing place or an ocean-going vessel within the port limits is required by Customs 24 hours prior to berthing.

PILOTAGE: Pilot can be applied for through Agents or by direct cable to Marine Dept. giving at least 24 hours notice of ship's arrival time at Tanjong Po. Telegraphic address, "Shipping Kuching". Pilots are embarked either at the position, marked on B.A. Chart 1822, off Tg. Po or at Sejingkat by vessels proceeding further up river to the wharves operated by Kuching Port Authority. Pilot boat "Alor" equipped with VHF.

In rough weather it may be necessary for a ship to follow or meet the pilot launch at the junction of Embang and Senari leads. Pilots for the Batang Lupar, Triso or Lingga Anchorages are also normally embarked off Tanjong Po by arrangement.

APPROACHES: The seaward approach to Kuching port is restricted by the presence of two bars; Outer Bar at a depth of 16 ft. below datum, and the Inner Bar at 15 ft. below datum. The max. depth of high water over the Bar, which occurs at springs is about 31 ft., whilst at neap high waters this decreases to approximately 28 ft. The tidal range is 5 to 17 ft. There are also numerous rocks and shoals in the river.

ANCHORAGES: *(a)* Tanjong Po Anchorage: 045° one mile from Tanjong Po line. Area of safe anchorage is 0.25 mile radius. Depth 6 fathoms. *(b)* Sejingkat Anchorage: For vessel up to 550 ft. long with max. draft 25 ft.

Examination Anchorage: The examination anchorage is re-established off Sejingkat in an area bounded by:—

(a) A line, marking the outer limit, drawn 345° from the Channel Beacon in position Lat 01° 34′ 51″N., Long. 110° 26′ 41″ E.

(b) A line, marking the inner limit, drawn 343° 30′ from the Inner Measured Mile Beacon in position Lat. 01° 34′ 50″ N., Long. 110° 26′ 13″ E.

Vessels are recommended to anchor in the Northern half of the area and shallow draft vessels should berth as close to the Northern bank of the river as is practicable.

Vessels should advise the Marine Signal Station of their arrival using VHF Channel 20. Movement of vessels up river will be controlled from the Marine Signal Station or Marine Office. In order to receive information, vessels should keep watch on VHF Channel 20.

Vessels carrying dangerous cargo will be examined in the existing explosives anchorage.

RESTRICTIONS: Tide restriction and max. draft 17 ft. at high tide. Not advisable to enter port at Tanah Puteh at night.

MAX. SIZE: Max. permissible length overall for vessel entering port at Tanah Puteh is 435 ft. and max. draft 17 ft. Max. overall length for oil carriers proceeding to oil installation at Baiwak Wharf, Pending Point is 400 ft., and max. draft 22 ft. At Pelabuhan Datuk Sim Kheng Hong, the LOA of ship permissible is 550 ft. with a max. draft of 25 ft.

RADIO: ETA cable to ship's Agent can be sent to Department of Communications, Kuching. Code words, Kuching Radio.

VHF direct communication with Port Authority, Channel 16, calling and safety, Channel 20 port operations. Channel 26 public correspondence. Pilot boat and Marine Department also equipped with VHF. Range 25 to 30 miles from Kuching port.

TUGS: 3 tugs, 2 of 1,000 h.p. and 1 of 164 h.p.

BERTHING: Application for berth must be made by Agents at least 24 hours before berthing. Facilities: at *Tanah Puteh* 800 ft. wharf of the deck on piles with shore-bridge type with 122,000 sq. ft. of Covered Storage Space and 195,000 sq. ft. of Open Storage Space; at *Pelabuhan Datuk Sim Kheng Hong* 860 ft. marginal wharves with 82,000 sq.ft. Covered Storage Space and 100,000 sq. ft. of Open Storage. Feeder Container Services are available but ship must provide lift on/lift off gear for ship/shore and vice versa operations. Max. shore facilities – 14 tons gross per container.

STEVEDORES: Gangs required for working vessel for weekdays must be ordered by Agents before 1530 hrs. prior to ship's working the following day. Gangs required for working vessel on Sundays or public holidays must be ordered before 1000 hrs. prior to ship's working on Sundays and public holidays.

MEDICAL: Necessary for Agents to receive advance notice of required medical attention at least 24 hours before arrival. Hospital facilities available. Crew should possess Cholera inoculation and Vaccination Certificates.

TANKERS: Tankers berth at Biawak Wharf, Pending Point, for discharge of their oil. Diameter of pipe line 8 in. Only one tanker can berth at a time and max. draft is 25 ft.

DENSITY: 1008 oz. per cubic ft.

FRESH WATER: Available and can be supplied to vessel alongside Authority's Wharf by hose about 25 tons per hour.

FUEL: High-speed diesel fuel oil can be supplied to vessel by making arrangement with either Shell or Esso Oil installation at Biawak.

GANGWAY/DECK WATCHMEN: Not usually available. Ship should provide own watchmen.

OPENING/CLOSING HATCHES: Normally carried out by crew.

CERTIFICATES: Ship's should possess all relevant certificates on board in case required for reference.

CUSTOMS ALLOWANCE: Tobacco: 1 oz. tobacco or 25 cigarettes or 8 cigars permitted for each crew member daily. Up to three days ration in port. Wines and/or Spirits, eighth qt. bottle of spirits or 0.25 qt. of beer or 1 qt. of wines is permitted for each crew member daily. Up to 3 days' ration in port.

CARGO GEAR: Ship provides own gear especially for handling heavy lifts, vehicles, etc. Rope slings, pallets and safety nets, etc., will be provided by the Authority.

IDENTIFICATION CARDS: Required.

CONSULS: Indonesian.

REPAIRS: Minor repairs to vessels only.

DRY DOCKS: Not suitable for sea-going vessels. Coastal vessels up to 220 ft. long.

REPATRIATION: Facilities available.

AIRPORT: Airport about 6.5 miles from port at Tanah Puteh. It is served by regular airlines which operate two flights daily except on Wednesday and Sunday when 3 flights.

TIME: Local time eight hours ahead of GMT.

HOLIDAYS: Port work can be arranged on all official holidays on overtime rates except Chinese New Year Day, Hari Raya Puasa Day, International Labour Day, (1st May), Dayak Festival Day (1st June), and Christmas Day, during which the port at Tanah Puteh and Pending will be closed.

POLICE/AMBULANCE/FIRE: For emergency call, tel. 999 is applicable to all these three services. Individual call: Central Police Station, 22181; General Hospital, 23151; Fire Station, 21033.

TELEPHONES: Telephones can be provided free of charge on board vessel occupying Authority's berths at Tanah Puteh Wharf.

SHORE LEAVE: Crew members are allowed ashore provided permission is granted by Immigration Department.

REGULATIONS: Refer to Sarawak Merchant Shipping Ordinance and Kuching Port Authority's Ordinance and Bye-laws.

DELAYS: At present ships can normally secure a berth within 24 hours of arrival if tide is right.

AUTHORITY: Kuching Port Authority.

KUNAK, Sabah: 04.41 N. 118.15 E. **(See Plan Book)**

Sabah Government Requirements

(a) Customs will treat port as sufferance wharf as defined in Section 2 of Customs Ordinance (Cap. 33), with control from Lahad Datu. Agent will be required to make application to Customs for sufferance facilities in respect of each vessel, on appropriate form. Officer-in-Charge of Customs, Lahad Datu will arrange to send a supervising officer with ship; this officer will attend vessel's inward and outward Customs clearance. Transport, food and shelter of Customs Officer are for vessel's account, though it is envisaged that his transport can be concurrent with boarding and departure of the Pilot, i.e. per Marine Department launch.

(b) Immigration requires that vessel shall be cleared inwards and outwards in Lahad Datu. As Marine Department launch will be required to run mooring lines at Kunak, it will not be available to transport Immigration Officer who will *not* accompany vessel. His transport will therefore be a matter for Agent to arrange.

(c) Medical will grant pratique by radio by Medical Officer, Lahad Datu: whose right to carry out full inspection is not affected thereby. This will only be exercised, it is anticipated, when vessel has called at an infected port within prescribed period. Radio messages should therefore give this information, e.g. "Malay Maru Hongkong Twentieth Tokyo Thirtieth Manila Second All Well Request Pratique Master".

(d) Marine Dept. in the case of a vessel arriving from foreign ports will ultimately place a Pilot on board in Lahad Datu, if requested.

(i) Pilot will receive vessel's arrival report and sight her last port clearance. Pilotage will commence at any such point on route as Master may request, at rates laid down in the Merchant Shipping (Fees) Regulations, 1961. The Pilot launch carrying berthing crew will arrive in advance of vessel at Kunak and assist in making fast.

(ii) As there is no accommodation available at Kunak, the Pilot it is hoped, can be accommodated on board ship during her stay.

(iii) Return to Lahad Datu will follow as in sub-para (i) with the Pilot issuing Port Clearance on completion of Immigration formalities.

(iv) Requests for Pilot should be made *at least* 24 hours in advance to Marine Sandakan via Sandakan Radio, 9WHZ1. Initially this service will be offered from Sandakan, and ships proceeding Kunak from there will retain the Pilot on board. Ships from foreign ports will be served by air; charges to their account. There is now a Pilot based at Tawau, who will berth vessels at Kunak.

For information the port limits of Lahad Datu are "a line drawn from Tanjong Melandong on the South-west point of Darvel Peninsula to the most Westerly point of Sakar Island and thence to the mainland, etc." From this it can be seen that large vessels need not enter the narrow waters of the inner bay.

BERTHING: 1. Wharf consists of,

(a) A raised cement platform 30 ft. × 30 ft. on wooden piling.

(b) Three lazy piles with rubber fendering situated 20 ft. from the front edge of the platform and 125 ft. in each direction from the centre of the platform.

(c) Two cement mooring dolphins 20 ft. × 20 ft. situated 350 ft. each side of the platform and 50 ft. from the rear edge of the platform.

(d) A metal jetty approach 10 ft. wide × 350 ft. long.

(e) A coral bund 24 ft. wide at the base and approximately 16 ft. wide at the top.

(f) Mooring Buoy placed 600 ft. off head of jetty.

2. Depth of water alongside: Minimum depth of water outside the lazy piles is in excess of 35 ft. datum.

3. Bulk oil will be pumped from installation along a metal pipe via coral bund and metal jetty. At a point approximately 15 ft. before cement platform the pipe bifurcates and the two terminals are situated two-thirds the way along each side of platform. To these terminals will be attached a flexible steel hose for connection with ships. Hose will be provided by shippers, and is 400 ft. long if required.

4. Pumping capacity. Maximum overall rate of pumping palm oil will be 100 t.p.h. Palm oil pipe is of 6 in. diameter.

AUTHORITY: Port Manager, Tawau.

AGENT: Harrisons & Crosfield (Sabah) Ltd., PO Box 131, Sandakan, Sabah, Malaysia. Telegraphic address "Crosfield Sandakan". Tel. 2141. Code-Bentley's Second Phrase.

LABUAN, Sabah: 05.17 N. 115.15 E. **(See Plan Book)**

Island of Labuan is 12 miles long and 7 miles wide lying off N.W. coast of Borneo at entrance to Brunei Bay. It is part of State of Sabah and is only 4.5 miles from mainland and some 77 miles from the State Capital of Kota Kinabalu.

DOCUMENTS:

(a) On arrival, when vessel has arrived from ports outside Sabah, Health Officer, Boarding Officer, Customs and Immigration or their representatives will board vessel. Agent cannot board until ship has been cleared.

(b) Health Officer will require Maritime Declaration of Health duly completed together with one copy of passenger list and one copy of crew list whenever vessel's last port of call has been outside State of Sabah.

(c) Boarding Officer will require one copy of Shipping Arrival Report, one copy of passenger list and one copy of crew list. He will also inspect various Certificates such as Load Line, Life Saving Equipment etc.

(d) Following is summary of documents required:

	Customs	*Immi-gration*	*Boarding Officer*	*Agent*	*M.O.*
Passenger List	2	2	1	1	1
Crew List	2	2	1	1	1
Store List	2	—	—	1	—
Maritime Declaration of Health	2	—	—	—	1

(e) To be supplied before Departure:

Manifests as necessary.

Captain's copies of Bills of Lading.

Port Clearance.

Customs Clearance.

Certificate of *(a)* Buoys and Lights Dues and *(b)* Port and Harbour Dues.

PILOTAGE: Pilot available if adequate notice given but pilotage not compulsory. Vessels normally berth between 0600 and 1800 hrs., unberthing at any hour, day or night, provided that notice of such movements received between 0800 and 1600 hrs.

ANCHORAGES: Good anchorage for large vessels in a least depth of five and three-quarters fathoms South and S.E. of No. 6 Beacon.

Quarantine. Vessels arriving from an unhealthy port should proceed to quarantine anchorage for pratique. This anchorage is bounded on North by a line drawn 090° from Harbour Shoal Beacon to Eastern Harbour Limit; South by a line drawn between S.W. point of Papan Island and Enoe Beacon; on West by Eastern Boundary Limit of Explosives Anchorage (as under). If vessels arriving from healthy port and healthy themselves, they need not proceed to Quarantine Anchorage.

Explosives. No vessels having explosives on board may come or remain within 500 yards of shore or of any other vessel; such vessels shall fly Gunpowder Flag at foremast, and should anchor in Explosives Anchorage which is within a line drawn from Enoe Beacon to Harbour Shoal Beacon thence in 090° for 6 cables thence in 180° direction until it joins line between S.W. point of Papan Island and Enoe Beacon.

Dangerous Petroleum. A vessel having dangerous petroleum on board shall anchor within a line drawn from Harbour Shoal Light beacon in a 360° direction for 2,500 ft., thence in a 090° direction for 3,600 ft., thence in a 180° direction to join Northern boundary limit of Explosives Anchorage.

Prohibited Anchorage. No vessel shall anchor within 2,000 ft. from the light of Southernmost dolphin of Liberty Pier.

RESTRICTIONS: Tides. Subject to diurnal inequalities but usually one high water and one low water a day. Average high water is 6.5 ft. and low water 3 ft. above datum of soundings.

Clearance. Port is open from 0600 to 1800 hrs. although vessels can be cleared later than 1800 hrs. on application provided they are sighted from Papan Lighthouse at 1800 hrs.

HEALTH: See "Regulations" and "Anchorages".

RADIO: Information required before ship's arrival. ETA Labuan, with as much prior notice as possible. Number of gangs required Quantity of fresh water required. Whether Pilot required for berthing.

Labuan has no radio facilities and messages are received via Kota Kinabalu, Miri, Singapore, etc.

Port VHF Service operates on Channels 16 and 12, between 0530 and 2400 hrs.

TUGS: One tug, 750 b.h.p., twin screw, available to assist with berthing and unberthing.

BERTHING: 1. Wharves.

(a) Liberty Wharf – A permanent concrete wharf, measuring 800 ft. with dolphins 100 ft. off each end – least depth of water is 28.5 ft.

(b) Victoria or Small Ships' Wharf (marked on Chart as H. & C.'s Wharf). A wooden structure – length 270 ft. with min. depth of 12 ft. No longer useable except by kumpits. No vehicles allowed on wharf.

(c) New Shell Installation Wharf. Concrete jetty 170 ft. long with two dolphins at each end with a total length between of 700 ft., least depth of water 31 ft.

(d) Brown & Root Jetty – A timber decked jetty with following dimension:

Length of main jetty – 160 ft., width 40 ft.
Length of causeway – 476 ft., width 22 ft.
Least depth alongside approximate 28 ft.
Max. load (proven) – 800 lb./sq.ft.
Max. single approximate 100 short tons.

2. Buoys: No mooring buoys in Labuan.

3. Monsoons. N.E. monsoon prevails from December to April and S.W. monsoon from middle of May to middle of October. Harbour is well sheltered from both monsoons.

4. Flags and Berthing Signals:

(a) When entering port vessel should fly Signal Letters, Mail Flag if applicable, and "G" flag if requiring Pilot, and also Quarantine Flag.

(b) Berthing Signals. Following berthing signals will be used at Labuan and will be displayed from Flagstaff in Harbour Office in vicinity of Liberty Wharf, Victoria Harbour. A red and white chequered flag and International Code numbered pendant will indicate berth number allocated. Berth numbers have been allocated as follows:

(c) Berth and Pendant No.

1. Esso Wharf.
2. LCT. Landing Ramp.
3. Victoria Wharf (small ships) S.E. Section.
4. Old Liberty Wharf (inner section).
5. Old Liberty Wharf (outer section).
6. New Liberty Wharf (inner section).
7. New Liberty Wharf (outer section).
8. Brown & Root Jetty.
9. Shell Installation Jetty.
10. Anchor.

On receipt of berthing signal, vessel should acknowledge in the usual manner with the answering pendant and proceed to berth.

(d) Tidal Signal. A tidal signal consisting of a cone and ball is hoisted in conjunction with berthing signal showing state of tide at berth indicated. A cone point down signifies flood tide (West-going), a cone point up ebb tide (East-going), a ball slack water.

(e) Facilities. Max. single load without special precautions on Old Liberty Wharf is 25 tons and New Liberty Wharf is 650 lbs/sq. ft. i.e. 180 tons four axle vehicles. Any load over this figure will require to be distributed over two or more panels of 10 ft. by 10 ft. each according to weight. However, special arrangements must be made prior to discharge, and Agent should be consulted in advance.

STEVEDORES: Supplied by contractors as arranged by Agent. Working hours 0800–1200 hrs., 1300–1700 hrs. Working outside these hours on Sundays and Public holidays is overtime.

CARGO: 1. Inward. Inward cargo is tallied out of ship on to wharf or into lighter. Damaged cargo is surveyed on the spot, otherwise no liability of the vessel is acknowledged. Discharge is carried out after permission has been obtained from Customs after manifest of inward cargo has been deposited. Cargo is delivered to consignees against production of relative Bill of Lading. Ship's responsibility to consignees ceases at ship's side but, in the case of shortlanded cargo, reasonable proof must be given to Customs that the cargo has not been landed. A shortlanded Memo certified by the Chief Officer is usually accepted as proof.

2. Transhipment. After discharge of cargo from the 1st carrier, transhipment cargo is placed under supervision of Customs, unless it is possible to arrange direct transhipment into small coastal vessel. Customs do not accept responsibility for cargo in Customs Bond.

3. Refrigerated. Only small quantities of refrigerator cargo loaded or discharged.

4. Explosives. Explosives must be discharged into lighters under police escort and transported to an approved police store. A licence for their importation must be obtained from the police prior to arrival of cargo, and harbour and police authorities must be informed of arrival of explosives in port either for discharge or as through cargo.

MEDICAL: Hospitals. Not possible for Government Medical Officer to visit ships but patients can be sent to Cottage Hospital. Four 1st class beds, 10 2nd class beds, 46 3rd class beds.

Dentist. A Government Dental Clinic, located in Cottage Hospital area. In addition, a dentist is available in town.

TANKERS: See "Berthing".

FRESH WATER: Only available in small quantities (usually 30 tons maximum) and at restricted hours.

FUEL: Bulk furnace oil and high speed diesel usually available but 48 hours notice of requirements must be given.

FIRE PRECAUTIONS: In case of fire, the Harbour Master, OCPD, and Agent should be telephoned immediately. A mobile gas turbine fire pump is available.

CONSULS: None.

REPAIRS: Slipways of up to 500 tons displacement, and Marine Department can undertake minor repairs.

POLICE/AMBULANCE/FIRE: Medical Officer 224; Asst. Commissioner of Customs 201; OCPD 400; Police Station 297; Hospital 222.

GENERAL: *Surveyors.* Harrisons & Crosfield are Lloyd's Sub-Agents in Labuan and may appoint a surveyor as necessary.

Ship Chandlers. Fresh fruits, vegetables and fish available and price list can be obtained from ship chandler through Agent. Cold storage with limited supplies.

Recreation Facilities. If owners pay a monthly subscription to the Labuan Recreation Club, ship's crew are automatically members. Football and cricket, etc., can usually be arranged on application to Agent. Two cinemas in town which show American, English, Chinese, Malayan and Indian films.

Good beaches all round island, however, it is strongly recommended that bathers should remain in shallow water. It is not considered safe to bathe from the ship.

Victoria Hotel situated in town. All rooms air-conditioned and have private bathrooms or showers attached. Lodging house accommodation available in town for Chinese Crew members.

REGULATIONS: *(a)* Arrival and departure. 1. The Owner or Agent of every vessel other than a small ship intending to call at a port shall, as soon as possible, and in any case not later than 36 hours prior to the estimated time of arrival of the vessel, give notice in writing to the Authority of such arrival and, if so desired, the requirement for a berth at a wharf.

2. The notice under this regulation shall be in a form prescribed by the Authority and shall contain full particulars regarding the cargo to be discharged and loaded, the embarkation and disembarkation of passengers, heavy lifts, special or perishable cargo, hazardous and dangerous goods (whether to be discharged at the port or not), and any other matters of importance relating to the working or safety of the vessel in the port.

3. The Master of every vessel entering or leaving a port between sunrise and sunset shall cause to be hoisted the national colours and the signal letters, if any, of the vessel. The national colours shall be exhibited from 0800 hrs. to sunset whilst the vessel remains in port.

4. The Master of every vessel arriving from outside the State of Sabah shall exhibit the Immigration and Quarantine signals contained in the First Schedule and shall also at the request of a customs officer hoist the Customs signals. Such signals shall remain exhibited until the appropriate officer has given permission for them to be lowered.

5. No vessel shall approach within 600 ft. of any other vessel exhibiting the Immigration, Health or Customs signals.

6. No person other than a Pilot may board or disembark from any vessel until the vessel is cleared inwards and the Immigration, Quarantine and Customs signals have been lowered.

7. Every vessel entering a port shall be anchored or efficiently secured to a wharf or buoy before commencing the loading or discharging of cargo and/or the embarkation or disembarkation of passengers.

8. No vessels shall leave any port unless in possession of a valid Port Clearance issued by or on behalf of the Director of Marine.

(b) Special signals.

Significance	*By Day*	*By Night*
Immigration (for ships not carrying passengers)	International Code Signal "2 5"	Two green lights, 6 ft. apart, hoisted vertically where best seen.
Immigration (for ships carrying passengers)	International Code Signal "3 4"	Two green lights, 6 ft. apart, hoisted vertically where best seen.
Quarantine (vessel is Healthy request pratique)	International Code Signal "Q"	Nil
Quarantine (vessel is suspect)	International Code Signal "Q Q"	A red light over a white light and a separate hoist of red light over a green light and hoisted vertically 6 ft. apart where best seen.
Quarantine (vessel is infected)	International code Signal "Q L"	
Quarantine (not received pratique)	Nil	A red light over a white light 6 ft. apart hoisted vertically where best seen.
Request Police Assistance	International Code Signal "S T"	A green over a white light, 6 ft. apart hoisted vertically where best seen.
Request Medical Assistance	International Code Signal "W"	A red light over a green light, 6 ft. apart, hoisted vertically where best seen.

AUTHORITY: Harbour Master.

AGENT: Harrisons & Crosfield (Sabah) Limited, PO Box No. 7, Labuan, Sabah, Malaysia. Telegraphic Address "Crosfield". Tel. 218, 219.

LIMBANG, Sarawak: 04.48 N. 115.05 E.

Limbang is the principal town of the Fifth Division and is situated 8 miles above the entrance of the Limbang River. There is an anchorage for ocean-going steamers 5 miles below the Limbang bar buoy with a least depth of 26 ft.

Depth on Bar. The least depth reported on the bar is about 2 ft. with a highest rise of 12 ft. The channel is marked by stakes with red/white and black/white topmarkers and a flashing light buoy Fl.1 sec. at the entrance.

Every vessel arriving in quarantine shall fly or show the appropriate International Quarantine signal; and no person other than a Pilot, Port Officer, Port Health Officer, Immigration Officer or Officer of Customs shall board the vessel; and no person shall disembark therefrom until the vessel has been cleared by the Port Health Officer.

The Master of every vessel of over 15 tons about to depart from a port for any place outside Sarawak shall cause the "Blue Peter" (International Code Flag "P") to be hoisted, during daylight hours, for at least twelve hours before the vessel is due to sail, or if the vessel is in port for less than 12 hours, for the period of her stay in the port.

(1) The Master or the Agent of every vessel about to depart from a port shall, on demand by the Port Officer, produce for inspection the Port Clearance.

(2) The Port Clearance shall be in the form of an endorsement on the form of clearance prescribed under the Customs Ordinance or in such other form as may be approved by the Director.

A vessel arriving in, leaving from or shifting berth within a port shall hoist her signal letters, if any, whilst under way.

LUMUT Malaya: 04.14 N. 100.38 E.

SHIPMASTER'S REPORT: 1977.

DOCUMENTS:

Customs:

3 Crew lists.
3 Passenger lists.
3 Dutiable stores statements.
3 Discharging manifests (NIL Return required).
2 Personal effects lists.
2 Lists cargo in transit.
2 Lists arms & ammunition (NIL certificate required).
Last port clearance.
3 Copies loading manifests.
Register, load line & De-rat documents.

Immigration:

2 Crew lists.
2 Passenger lists.
2 Health forms.

Boarding Agent:

1 Report of arrival.
1 Crew list.
1 Passenger list.
1 Arms & ammunition list (NIL return required).

The Agent at Singapore informed me that Immigration clearance may be hurried along if two crew lists can be posted to them from the previous port, providing that the Smallpox certificates are all up to date and that the vessel is not coming from an infected area.

PILOTAGE: Pilot boarding position 4° 10′ 30″ N., 100° 35′ E., which is one mile South of Pangkor Island S.E. Point light. Berthing and unberthing will only be carried out during daylight hours and at slack water or beginning of flood tide. Pilot comes from Penang for berthing and unberthing. Pilot leaves vessel at Hospital Point on departure. Pilot launch painted blue with white superstructure and named "King Miller". Pilot rates:— $900 in & out, launch fee $150 & service fee $400 covering travel, accommodation, meals etc.

ANCHORAGE: Just inside harbour limits, 7 cables South of S.E. Point light in about 12 fms. Bottom said to be sand & shells and reputed good holding ground.

MAX. SIZE: Max. length on grain berth 575 ft.

Max. draft into port 30 ft. 6 in. salt water on Spring tides. This is due to a bar at the entrance of Dinding River and a rather sharp turn around buoy of 125° to miss rocks marked by unlit buoy. (Lloyd Rocks B. A. Chart 792 vicinity of River Passage).

RADIO: *ETA's:* Sent through Penang or Singapore Radio to Flourmill Kuala Lumpur and ship's Agents. 72, 24 & 12 hours notice required. Agents will keep Flourmill Lumut and Pilots informed. Authorities like 5 days notice of a vessels impending visit.

VHF: There are no VHF communications in the port or with pilot boat.

TUGS: There are no tugs at Lumut — nearest Penang (small) and Singapore (large).

BERTHING: Port side to at Malaysian Flour Mill Private Wharf in position 4° 16′ N. 100° 39.5′ E., ship's head in. Depth of water at wharf is 32 ft. 06 in. A modern wharf supporting one moveable discharging elevator. Conveyor belt runs under wharf.

South side of dock is used by coastal tankers and has 20 ft. of water. Dock is of concrete construction with heavy wood and steel girder fendering which is rubber mounted. End of wharf has a separately fendered concrete construction which is fitted with rubber shock absorber.

STEVEDORES: Mill employs own stevedores and work continues throughout 24 hours. No cargo work on Sundays. Discharge rate is about 118 m.t.p.h. with 2 suckers (wheat). Reported to be about 100 m.t.p.h. with corn.

MEDICAL: Doctor in Lumut and Sitawan (7 miles from Lumut). Local hospital usually has large queue, therefore better to attend private doctor.

DENSITY: Water is brackish both at anchorage and berth. About 1022 ozs/cu. ft. at berth.

FRESH WATER: Available on berth arranged through Flour Mill.

FUEL: By special arrangement only and brought to ship in road tankers. Cargo cannot be discharged while bunkering as the trucks are not able to pass under or by the grain discharger (Agent informed me that two weeks notice required for bunkers). Fuel and diesel supplies come from Lahat about 50 miles from Lumut but there are many Customs problems re-clearance.

REPAIRS: Minor repairs only, firms can be called in from Kuala Lumpur or Singapore.

GANGWAY/DECK WATCHMAN: Private wharf and protected area - no shore watchman required on board -only ship's watchman for ropes and safety. Shore mill patrol is armed with shotgun.

REPATRIATION: No problems but make sure travel documents i.e. passports, are valid.

AIRPORT: Nearest local airport is Ipoh and then fly or by road to Kuala Lumpur International Airport. Ipoh is about 1.5 hours drive and Kuala Lumpur 6 hours drive.

TELEPHONE: None on berth, nearest is in Flour Mill entrance hall but very noisy due to mill working.

SHORE LEAVE: Local leave only, except with special permission and pass. Boats to be laid on by ship for crew shore leave to Lumut and this is about a 20 minute boat ride to shore. Charges – 0700 to 1800 hrs. $15, and 1800 to 0700 hrs. $20 per trip. A boat from the anchorage may be laid on and this costs $75. Boat service is run by Mr Loo Yean Lai, No. 3, Damar Laut, Lumut – He can usually be found on waterfront by Customs office.

GENERAL: The Flourmill is situated on the N.E. side of Lumut about 40 miles by road and 20 minutes by launch from Lumut town. There is a good canteen at the Flourmill which serves European, Chinese and Muslim foods, soft drinks and beer. Ship's personnel are allowed and welcome to use these facilities.

There are only two reasonable hotels in Lumut, Dinding Hotel which has only three rooms air conditioned, and The Rest House which is not air-conditioned. If possible book in advance especially on Saturdays, Sundays and Holidays.

Football matches can be arranged and Customs, Flourmill etc. are all very keen to play ships visiting the port. Hire of the football pitch which is in the centre of town and very good is only $5.

A soya bean mill is expected to complete construction in 1980/1981 and will use the same wharf for discharge.

Customs: Allowances very small – 75 cigarettes per man for three days and one bottle of spirits for eight men every three days. Customs office is on shore near to ferry berth. One and sometimes two, customs men remain on vessel throughout and accommodation is to be provided for them.

Immigration: No immigration if from Malaysian ports but clearance required when from foreign.

Tide: Ebbs for 5.25 hours on berth. Tides times are based on Port Kelang – difference is minus 1 hr. 40 mins. Rise and fall about 2 m. – see Admiralty Tide Tables and Admiralty N.P. 214, Malacca Strait and Southern Approaches to Malacca Strait. Atlas of Tides and Tidal Streams.

Provisions/Stores: Limited supplies available. Fruit and vegetables are available in season from local supply and are reputed to be reasonably priced. Some fruit and vegetables imported and may be expensive. Chandlers T/A Hin Wah Siong Tiam are the local (only) chandlers.

Laundry; Arranged by Chandler (see above), takes about three days as is done by hand.

Charts: BA 1009 Perak River & Approaches when approaching from South and BA 792 Dinding River & Approaches with inset covering flour mill wharf.

MALACCA, Malaya: 02.15 N. 102.15 E.

DOCUMENTS:

1. *Harbour Master's Office, Marine Department*

(a) "Report of Arrival of Vessel" on prescribed Form (Marine 28) obtainable from Harbour Master's Office on arrival.

(b) One copy Passenger List, specifying names and nationalities and required to report any casualties, accidents, births or deaths that have occurred during the voyage to the passengers, crew, ship or cargo.

(c) Port Clearance from last port and copy of Manifest of Cargo to be discharged.

(d) List of all arms and explosives on board.

(e) In the case of a British or Malaysian vessel and vessels belonging to a nation not having a Consular Officer at the port produce to Port Officer the Certificate of Registry and ship's Articles.

(*f*) All ship's certificates such as Safety Equipment Certificate, Radio Certificate, Load Line Certificate, Safety Construction Certificate, Ship's Registry, Passengers' Certificate, Derating Certificate and all Certificates of Competency of all Officers on board.

(*g*) Crew List.

2. *Immigration Authorities*

(*a*) Crew List (3 copies).

(*b*) Passenger List (3 copies).

(*c*) Produce all passengers passports/visas.

(*d*) Produce all seamen's cards.

(*e*) Forms A and B – "Immigrant and Emigrant" obtainable from Immigration Department on arrival.

3. *Port Health*

(*a*) Crew List showing last date of vaccination.

(*b*) Passenger List, showing the last date of vaccination.

(*c*) Produce all seamen's and passengers' vaccination cards.

4. *Customs Department*

(*a*) Crew List (2 copies).

(*b*) Passenger List (2 copies).

(*c*) Personnel Effects List (2 copies).

(*d*) Cargo Manifests (2 copies).

(*e*) Last Port Clearance.

(*f*) Bonded Stores List (2 copies).

(*g*) Full and correct statement of dutiable goods carried as ship's stores (2 copies).

(*h*) Customs Form CD 15 obtainable from Customs Department on arrival.

APPROACHES: No difficulty from North or South. No sand bar at river mouth. Harbour open all year round.

PILOTAGE: None. See "Developments".

ANCHORAGES: For ocean-going and coastal vessels anchorage between 1—1.5 miles off Malacca Harbour. Between 3–6 fathoms depth. No specific prohibited anchorage.

TUGS: None.

BERTHING: None. Discharging into lighters at anchorage. See "Developments".

STEVEDORES: Discharging cargo capacity per day – 1,000 tons.

MEDICAL: Modern Government hospital. All surgical and medical facilities available.

FRESH WATER: None. See "Developments".

FUEL: None.

DEVELOPMENTS: A deepwater berth – least depth alongside 36 ft. is due to open early 1979. Jetty "T" head connected to shore at Tanjung Bruas (approx. position 02° 13′ N. 102° 09′ E.) by approach bridge. Length of berth 368 ft. Fresh water supply will be provided at the berth.

A prohibited anchorage area will be established off the jetty "T" head.

Quarantine and Explosives Anchorages will also be designated.

Pilotage will be available for vessels berthing at the deepwater berth.

CUSTOMS ALLOWANCE: Tobacco, cigarettes 25 in number per man per day, or cigars, 8 in number per man per day, or Tobacco, 1 oz. per man per day, or snuff, 1 oz. per man per day.

Wine and/or Spirit: Spirit, eighth of a quart per man per day, or wines, 1 quart per man per day, or beer or stout, 1 quart per man per day.

REPAIRS/DRY DOCKS: None.

HOLIDAYS: Official holidays in the state as follows: New Year's Day, 1 day; Chinese New Year's Day, 2 days; Muslim New Year's Day, 2 days; Wesak's Day, 1 day; His Majesty's Birthday, 1 day; Prophet Mohammad's Birthday, 1 day; His Excellency Governor's Birthday, 1 day; Malaysia Day, 1 day; Deepavali, 1 day; Hari Raya Huji, 2 days; Christmas Day, 1 day. No cargo is worked on any of the above gazetted public holidays – port closed.

AIRPORT: Batu Berendam, 6 miles from port – commercial airlines daily.

AUTHORITY: Marine Department, Malacca and Port Dickson.

MIRI, Sarawak (incl. Lutong): 04.26 N. 113.55 E.

Miri Roads is an open roadstead in a shallow bay, bounded at North by Tanjong Baram and at South by Tanjong Lobang.

PORT LIMITS: Outer: within an area to Northward of Lat. 04° 22′ N., Eastward of Long. 113° 55′ 30″ E. and Southward of Lat. 04° 31′ N.

DOCUMENTS: (*a*) *Health.* Vessels exempted from inspection (see "Health") should deliver to Berthing Master on arrival, a Declaration of Health, Last Port Clearance and 2 Crew and Passenger Lists.

(*b*) *Inward Clearance* (also see "Anchorage"). All vessels calling Miri Roads for passengers or cargo must be cleared by Immigration and Customs and, if necessary, by Port Health.

Inward clearance effected only between 0600 and 1800 hrs. and following signals must be shown: if passengers carried, flags "3" and "4"; if no passengers carried, flags "2" and "5"; if free pratique requested, flag "Q".

Following papers will be required on arrival for inward clearance:

Port Health:

Declaration of Health.

1 Crew List.

1 Passenger List, inward and through.

Customs Boarding Officer:

As above, if not boarded by Health Officer, and 2 Inward Cargo Manifests.

(*c*) *Outward Clearance.* For vessels that have called to lift bunkers only at Lutong Moorings, clearance will be issued by Berthing Master.

Other vessels will be issued a Port Clearance by Customs Officer on board who will require: 1 Outward Manifest and, if any embarked, 1 Outward passenger list.

APPROACHES: The loom of gas flares on Seria Oilfields 30 miles N.E. of Miri are a general guide at night but should not be used as a bearing because flares movable within area of oilfield and liable to be extinguished at any time. Following bearings exist. By night, three lighthouses:

(*a*) *Tanjong Baram* 04° 35′ 47″ N. 113° 58′ 25″ E. white single light 680,000 candle power, visibility 17 miles, elevation 120 ft. in grey steel lattice tower, group flash three every twenty seconds.

(*b*) *Lutong* 04° 28′ 30″ N. 113° 59′ 46″ E., white single light, 13,500 candle power, visibility 10 miles, elevation 80 ft. in grey steel lattice tower, group flash two every ten seconds.

(*c*) *Tanjong Lobang* 04° 21′ 48″ N. 113° 57′ 36″ E., white single light 20,150 candle power, visibility 18 miles, elevation 155 ft. in grey steel lattice tower, 60 ft., flash one every ten seconds.

By day, above lighthouses difficult to distinguish and following may be used for day-time bearings:

(*a*) Lutong radio mast F.R 210 ft., position 04° 26′ 25″ N. 113° 59′ 54″ E.

(*b*) Tanjong Lobang radio masts as marked on chart.

PILOTAGE: No official Pilot stationed at Miri but Shell Company provide Berthing Masters to moor vessels at their Lutong Moorings (see "Tankers").

ANCHORAGE: For cargo, passengers or clearance. It is recommended that vessels anchor close inshore directly opposite Miri River Mouth, but caution must be exercised as sudden squalls and swell up to 4 ft. can occur, for which allowance should be made.

Cargo usually worked into or from wooden lighters of 30 to 35 tons capacity. Swell often restricts work to landward side only and swell or wind often make it difficult to work Hatch No. 1 in some vessels. Accommodation ladder should be lowered on landward side to enable shore personnel to board.

Prohibited Anchorage and Berthing Area. From (*a*) 4° 30′ 54″ N.; 113° 56′ 19″ E. in a 090° direction to the shore; and from (*a*) to (*b*) in 4° 27′ 30″ N.; 113° 47′ 01″ E., thence in a 090° direction to the shore.

HEALTH: Every vessel arriving in quarantine shall fly or show the appropriate International Quarantine signal; and no person other than a Pilot, Port Officer, Port Health Officer, Immigration Officer or Officer of Customs shall board the vessel; and no person shall disembark therefrom until the vessel has been cleared by the Port Health Officer.

Free pratique granted without health inspection to vessels calling to lift bunkers only at Lutong Moorings, provided ship healthy. Vessels with unclean bill of health or vessels which have not declared themselves healthy in their arrival notice telegram are subject to normal Port Health inspection procedure. Therefore of utmost importance that arrival notice is sent not less than 24 hours before arrival and contains all information requested (see "Radio") in order to prevent unnecessary delay.

RADIO: Miri Control call sign 9 WW21, frequency 500 kc/s., operates at following hours local time: 0900–0930, 1300–1330, 1700–1730, 2100–2130. Present station has a limited range and if difficulty is experienced making contact, vessels should pass messages through other stations, such as Singapore radio, or through other ships in close vicinity of Miri.

Arrival notice must be telegraphed at least 24 hours before arrival and should contain following information:

All vessels

(*a*) expected time of arrival (local time GMT plus 8 hours);

(*b*) name of last port of call and next port of call, if not previously advised;

(*c*) whether or not ship is healthy.

For bunkers

(*d*) quantity of bunkers required, in long tons at least 48 hours notice is required;

(*e*) provisions or medical attention required, if any.

For cargo

(*f*) tonnage to discharge, if any;

(*g*) number of gangs required to load;

(*h*) number of winchmen required to load.

Passengers

(*i*) number of passengers to disembark.

BERTHING: Cargo vessels – see "Anchorage", oil carriers – see "Tankers".

MEDICAL: Treatment of urgent cases available on shore subject weather conditions. Early notice should be telegraphed of medical requirements.

TANKERS: Lutong Terminal position 04° 30′ N., 113° 57′ E. (approx.). Open sea berths lying about 3 miles offshore just Northward of Lutong River mouth. Berthing any hour day or night. Await Berthing Master in area bounded by lines joining following positions: 04° 25′ N. 113° 56.25′ E.; 04° 25′ N. 113° 55′ E.; 04° 26.25′ N. 113° 55′ E.; 04° 26.25′ N. 113° 56.25′ E.

Pilot ladder should be rigged for Berthing Master, and starboard derrick near fuelling connection should be topped-up and rigged to lift heavy equipment required for mooring and connecting pipe-lines and which has to be taken on board before proceeding to mooring berth.

Moorings are in a prohibited area which must not be entered without a Berthing Master of Sarawak Shell Oilfields Limited on board.

Berth	*Max. length*	*Max. draft*
SBM 1	600 ft.	40 ft.
SBM 2	750 ft.	40 ft.
SBM 4	820 ft.	44 ft.

No slop discharge facilities.

FRESH WATER: No fresh or boiler water available.

FUEL: No ex-barge facilities but bunkers obtained from Lutong Terminal.

Nos. 2 and 4 Sealines. Available for bunkering dry-cargo vessels. Ship's spring wire will be used to haul ends of mooring wires on board and mooring winches should be double gear and in all respects ready for use. All other gear for mooring and connecting pipes is brought on board with Berthing Master at Pilot Station. Bunkers will be supplied through 8-in. flexible hose brought up on starboard side amidships and appropriate flange on ship's connection should be removed in advance. Berthing Master will remain on board throughout bunkering operation and will leave after vessel has unberthed. Mooring and unmooring operations each require about 1.5 hours and bunkering rate usually 45–75 t.p.h.

CUSTOMS ALLOWANCES: Bonded Store on vessels other than those berthing at Lutong Moorings for bunkers only and exempted from formal clearance, sealed by Customs after allowing a daily ration for duration of stay in port.

1 Customs Officer will remain on board all vessels anchored in Miri Roads and accommodation, if necessary, should be arranged for them. The Agents' staff will remain on board throughout all cargo operations and it would be highly appreciated if meals could be supplied to them and to the Customs Officer in view of the long time occupied travelling by launch between ship and shore.

AIRPORT: Distant 10 miles. Daily flights.

TIME: GMT plus 8 hours. Permanent.

SHORE LEAVE: It is regretted that both passengers and crew must be dissuaded from coming ashore other than for medical attention, owing to weather and tidal restrictions.

REPAIRS: No facilities for repairs.

LUBRICANTS: Generally, lubricants not available but in emergency certain grades sometimes obtainable in very limited quantities.

PROVISIONS: Limited fresh provisions and ex-bond stores available for which vessels should give 72 hours notice of requirements so that arrangements can be made to secure the required supplies.

REGULATIONS: The Master of every vessel of over 15 tons about to depart from a port for any place outside Sarawak shall cause the "Blue Peter" (International Code Flag "P") to be hoisted, during daylight hours, for at least 12 hours before the vessel is due to sail, or if the vessel is in port for less than 12 hours, for the period of her stay in the port.

(1) The Master or the Agent of every vessel about to depart from a port shall, on demand by the Port Officer, produce for inspection the port clearance.

(2) The Port Clearance shall be in the form of an endorsement on the form of clearance prescribed under the Customs Ordinance or in such other form as may be approved by the Director.

A vessel arriving in, leaving from or shifting berth within a port shall hoist her signal letters, if any, whilst under way.

POLICE/AMBULANCE/FIRE: Tel. 999.

AUTHORITY: Marine Officer, Marine Dept., Miri.

AGENT: Lloyd's sub-agents in Miri. The Borneo Company (M) Sdn. Bhd. Postal address PO Box No. 60, Miri, Sarawak. Tel. office: 3365, 3366, 3367; out of office hours: 3261, 3344. Telegraphic address "Borneo Miri".

The Borneo Co. (M) Sdn. Bhd. operate their own launches and a representative will board vessels as soon as possible after arrival.

PENANG, Malaya: 05.25 N. 100.21 E. (See Plan Book)

DOCUMENTS:

The report of arrival (provided in Marine Shipping Ordinance, 1952).

A copy of Passenger Statistics on prescribed forms.

A List of Crew Members.

A List of Passengers.

Evidence of last port clearance.

All Ship's Documents (safety equipment, deratisation, radio, load line and register).

Maritime Declaration of Health.

International Health Certificate for passengers and crew.

Vaccination List, for Smallpox and Cholera, for passengers and crew.

Departures: Port Clearance Certificate signed by the Port Health Officer, to be shown to the Port Officer issuing clearance.

For oil tankers, a copy of Ship's Manifest to be submitted. Ship carrying explosives, Captain required to fill prescribed form "D" stating quantity of explosive cargo ship is carrying together with copy of Ship's Manifest.

PILOTAGE: Vessel approaching port has to send telegram to Pilot Office direct (cable address "Pilots Penang") or to ship's Agent stating "ETA North Channel Light Float" or in case of South Channel "ETA Pulau Rimau". Draft of vessel to be given. Pilot Office may be contacted through Penang Telephone Exchange on VHF Channel 16 to local telephone No. 63313. At least 6 hours advance notice should be given before arrival at Pilot point.

Pilot boats have a blue hull, varnished upperworks with "Pilot" written in bold letters on both sides of boat.

Pilot is usually taken on board, for North Channel, in vicinity of North Channel Light Float and for South Channel, in vicinity of Rimau Wreck Buoy 1 mile South of Pulau Rimau Lighthouse.

Vessels awaiting tide can anchor, in case of North Channel, in area shown by pecked lines marked anchorage area in Chart No. 1366. For South Channel ship can anchor in vicinity of Rimau Wreck Buoy. During bad weather, provided draft suitable, vessels sometimes requested enter and take on Pilot at Erskine Buoy.

Pilotage is compulsory for all vessels navigating in pilot district of Penang with the exception of fishing vessels and vessels of below 600 g.r.t.

Shipmaster's Report: The KRA lightvessel, on the Outer Kra Bank to the South of the South Channel, is non-existent.

The Pilot station is now equipped with VHF but operates on Channel 12 only. The Pilot Launch is also equipped likewise, as is a car that transports the Pilots from their homes to Batu Maung Point where they board the launch. It takes them exactly 1 hour from their homes until they are aboard a vessel at Rimau Buoy, therefore a minimum 2 hour notice is adequate.

One Pilot advised me not to approach the South Channel at any time if the vessel's draft is over 24 ft. He stated that the bar to the S.W. of Rimau Buoy has not been surveyed for many years and that possible silting may leave it on a lesser depth than the chart suggests. The approach to the North Channel is safe.

ANCHORAGES: The anchorage for foreign going steamers (other than those carrying dangerous cargo or quarantine ships) is Southward of the S.W. corner of the Man of War Anchorage (shown on Admiralty chart by pecked lines) and Eastward of a line drawn from this point to the Northern white mark buoy and thence 180°. Vessels must moor so as to swing clear of these lines at all states of tide.

The anchorage for coasting power vessels is Southward of a line drawn 270° from the Northern white mark buoy and Westward of a line drawn 180° from this buoy. Vessels must swing clear of these lines at all states of the tide.

RESTRICTIONS: No entry restrictions imposed other than those dictated by state of tide and draft of vessel.

MAX. SIZE: No limitations of size of vessel except for draft. North Channel chart datum 26 ft. South Channel chart datum 21 ft. Vessels of up to 32 ft. can use port but must wait for high water.

RADIO: Penang Radio, call sign 9–MG.

VHF: Vessels can communicate direct to Pilot Office via VHF operated on Channel 12 VHF within a range of 15 miles. A separate VHF network links the tugs, launches and the Commission's personnel working on board vessels in the roads.

TUGS: May be required to berth vessel at Butterworth Wharves in Port Penang. Tug joins vessel when at close proximity to wharves. Usual for tug's lines to be used.

2 tugs available, 1,320 b.h.p. and 1,200 b.h.p. Also 1 small tug of 440 b.h.p. and 1 tow-boat of 174 b.h.p. available to tow lighters to and from vessels.

BERTHING: There are 2 wharves, viz. Swettenham Pier on the island of Penang and Butterworth Wharves on the Mainland.

Swettenham Pier: 2 ocean berths of 360 m. length with 10 m. of water alongside. There is 168 sq. ft. of covered storage accommodation.

Butterworth Wharves; 6 ocean berths of 1,046 m. length with 10 m. of water alongside. There are 5 transit sheds of 148,000 sq. ft., 7 storage godowns of 261,000 sq. ft. an open sided timber shed of 90,000 sq. ft. and 140,000 sq. ft. of open storage area. 9 godowns of 384,000 sq. ft. near the port area are leased to private companies. Berth No. 6 is a container berth with Roll-on/Roll-off facilities.

SPECIALISED CARGO-HANDLING FACILITIES: No special berths for handling bulk cargo. 2 of the berths at Butterworth Wharves are designed to handle containerised cargo when such facilities are required. At Swettenham Pier and Butterworth Wharves there are vegetable oil bulking installations. Pipe-lines are connected from the installations to the wharves.

CONTAINER HANDLING FACILITIES: The port is equipped with modern container handling facilities to handle both 6 m. and 12 m. containers. These container facilities are available at the Butterworth Wharves and they include a 6.7 hectare marshalling yard with storage space for 2,400 containers, a container freight station of 3,900 square metres, 2 units of straddle carriers for handling both 6 m. and 12 m. containers, 20 power points for refrigerated containers and prime movers with 6 m. and 12 m. trailers. To assist in the working of vessels which do not have lifting facilities, there is also a mobile boom crane with the capacity to lift 6 m. containers at 24 m. radius and capable of plumbing the hatch of vessels.

Additional container handling equipment which will be available by the end of 1978 includes a container gantry crane, 2 transtainers, 2 heavy duty 25 tons capacity forklift trucks, 14 prime movers with 8 units 12 m. trailers and 11 units 6 m. trailers and 6 units short-mast forklift trucks for container freight station operations.

Haulage of containers inland and between the Island and Butterworth Wharves is catered for by Kontena Nasional, a private haulage company.

CARGO HANDLING EQUIPMENT: At Butterworth Wharves one mobile crane of 30 tons capacity, 14 mobile cranes of 2-to 3-ton capacity, 62 fork-lift trucks of 6,000 lb. capacity, 3 fork-lift trucks of 13,000 lb. capacity and 28 LPG fork-lift trucks for hatch work. At Swettenham Pier 1 mobile crane of 10-ton capacity, 2 electric cranes of 3-ton capacity, 8 fixed and mobile cranes and 25 fork-lift trucks. Scores of tractors and trailers make up the rest of the mechanised cargo-handling equipment of the Commission.

LIGHTERAGE: In the event of a vessel working in the Roads, lighterage is available for the transport of goods to and from the vessel. There are about 229 lighters operated by private companies and twenty 150-ton lighters by the Commission for lightering of cargo in the Port. In the case of the Commission's lighters, lighterage is only undertaken for import cargo.

STEVEDORES: Stevedores can only be provided by stevedore contractors at short notices but normally a min. of 12 hours will be required. Shipping Agents normally make these arrangements with stevedoring contractors.

MEDICAL: Advance notice is necessary if medical attention is required so that arrangements can be made with Medical Department by Agents.

TANKERS: 2 tanker berths. Esso Wharf, 27 ft. at low water. Caltex Wharf, 35 ft. at low water. Mud bar approach to Caltex Wharf is 29 ft. at low water. Tankers also occasionally call at Swettenham Pier to deliver oil to City Council Power Station.

FRESH WATER: Available at all times. Delivery can be by means of hydrants at berths or by water-boats to vessels anchored in Roads. Rate of delivery is approximately 40 t.p.h.

FUEL: Fuel available from private oil companies at 24 hours notice. Limited quantities of fuel can be supplied by barges to vessels in the Roads.

GANGWAY/DECK WATCHMEN: Services of a watchman recommended.

OPENING/CLOSING HATCHES: Normally carried out by stevedores.

IDENTIFICATION CARDS: Needed only when a crew member is discharged after hospitalisation or when he is repatriated.

REPAIRS: Minor repairs can be undertaken.

DRY DOCKS: Dry docks not available for ocean carriers. Slipways available for vessels of 700 nrt with dimensions of 190 ft. × 40 ft.

REPATRIATION: Facilities exist for effecting crew changes and arranging necessary repatriation.

AIRPORT: Distance from port to airport approximately 11 miles. Served by both international and local airlines.

TIME: 7.5 hrs. ahead of GMT. No alteration to clocks during year.

HOLIDAYS: 3 port holidays a year: Hari Raya Puasa, Hari Raya Haji and National Day.

POLICE/AMBULANCE/FIRE: Dial 999.

TELEPHONES: A telephone is placed on every ship that berths alongside. This is one of services provided under a common charge known as the wharf service charge.

SERVICES: All types of minor marine servicing is available. Provided by private firms. Some of the services are draft survey, general conditioning of ship, valuation of ship, accident survey, inspection of refrigeration, radar adjusting service, compass adjusting and tank-cleaning facilities.

SHORE LEAVE: Allowed.

REGULATIONS: Free port, and as such, when a vessel calls at port, Customs search party may go on board vessel to search for contraband goods.

DEVELOPMENTS: The Penang Port Commission is undertaking several expansion projects to meet the anticipated growth of cargo traffic in the port and to provide specialised cargo handling facilities. They include:

(i) A Bulk Cargo Terminal at Prai to provide an efficient and modern dry and wet bulk cargo handling facility. Shore facilities for storage of both wet and dry bulk cargo together with a deep water wharf for vessels to directly load and discharge cargo will also be made available. The wharf frontage will have a draft of 10 m. and will be connected to shore facilities by conveyor belts, pipes and a 1,220 m. long jetty. This terminal is expected to be ready by mid-1979.

(ii) A vegetable oil tanker pier of open dolphin supported structure will be constructed Southwards from berth No. 1 Butterworth Wharves into the Prai River estuary, to provide a specialised facility to handle the increasing volume of bulk vegetable oil exports. Construction of the pier will begin in late 1978 and will be operational by late 1979.

(iii) An engineering study into the feasibility of deepening the North Channel is now underway. The project partly financed by the U.S. AID is looking into the feasibility of deepening the North Channel which is presently too shallow to permit bulk carriers and container vessels with drafts in excess of 32 ft. to enter the port.

The Consultants after completing Phase I of the study have concluded that the Channel can be effectively dredged to a depth of between 30 and 40 ft. A.C.D. The Consultants are now proceeding with Phase II of the study which involves trial cut experiments and the addition of a Hydraulic Model Test.

(iv) The Commission will be appointing Consultants in late 1978 to conduct a feasibility study towards locating a new port site for the Port of Penang. This is in response to the fact that the demand for facilities in the port will increase rapidly in the future and the existing capacity and the available capacity from the planned port projects to be implemented in the short term will be insufficient to meet the demand beyond 1981/82, especially in the case of general and unitised cargo. Under the new proposed site, provision will be made to accommodate the port's estimated requirements for the next 50 years.

DELAYS: Rain is only factor that may delay a ship's discharging or loading operations.

AUTHORITY: The Penang Port Commission.

PORT DICKSON, Malaya: 02.31 N. 101.47 E.

DOCUMENTS:

1. *Harbour Master's Office or Marine Department*
   - (a) "Report of Arrival of Vessel" on prescribed Form (Marine 28) obtainable from Harbour Master's Office on arrival.
   - (b) One copy, Passenger List, specifying names and nationalities and required to report any casualties, accidents, births or deaths that have occurred during the voyage to the passengers, crew, ship or cargo.
   - (c) Port Clearance from last port and copy of Manifest of Cargo to be discharged.
   - (d) List of all arms and explosives on board.
   - (e) In the case of a British or Malaysian vessel and vessels belonging to a nation not having a Consular Officer at the port, produce to Port Officer the Certificate of Registry and ship's Articles.
   - (f) All ship's certificates such as Safety Equipment Certificate, Radio Certificate, Load-line Certificate, Safety Construction Certificate, Ship's Registry, Passengers' Certificate, Derating Certificate and all Certificates of Competency of all Officers on board.
   - (g) Crew List.
2. *Immigration Authorities*
   - (a) Crew List (3 copies).
   - (b) Passenger List (3 copies).
   - (c) Produce all passengers passports/visas.
   - (d) Produce all seamen's cards.
   - (e) Forms A and B – "Immigrant and Emigrant" obtainable from Immigration Department on arrival.
3. *Port Health*
   - (a) Crew List showing last date of vaccination.
   - (b) Passenger List showing the last date of vaccination.
   - (c) Produce all seamen and passengers' vaccination cards.
4. *Customs Department*
   - (a) Crew List (2 copies).
   - (b) Passenger List (2 copies).
   - (c) Personnel Effects List (2 copies).
   - (d) Cargo Manifests (2 copies).
   - (e) Last Port Clearance.
   - (f) Bonded Stores List (2 copies).
   - (g) Full and correct statement of dutiable goods carried as ship's stores (2 copies).
   - (h) Customs Form C.D.15 obtainable from Customs Department on arrival.

APPROACHES: Deep water approach channel from N.W., marked by four light buoys, presents no difficulties and is clear.

PILOTAGE: The Port Dickson area does not constitute a Compulsory Pilotage District under provisions of Merchant Shipping Ordinance, 1952. Private pilotage services are, however, operated by Shell and Esso for vessels making use of their respective marine installations. Mooring Master boards tankers at Banbeck Shoal Buoy.

Ship's Officer's Report: Pilot boards one mile off Fairway Buoy. However, vessels of less than 30,000 d.w.t. holding Admiralty Chart No. 1140 may be requested to proceed inwards, Pilot boarding at No. 1 Buoy. Coasters proceeding to Headlands Jetties may be required to do own pilotage.

ANCHORAGES: *(a)* Good anchorage may be obtained in depths from 15 to 20 fathoms, Westward and South-Westward of Tanjong Kamunin. Small vessels may obtain anchorage in depths from 4 to 5 fathoms North-Eastward of Pulau Arang Arang, but holding ground is poor.

(b) Prohibited Anchorage Area indicated by pecked lines on chart and described under Port (Negeri Sembilan) (Amendment) Rules, 1963. This area contains a tanker SBM, with extensive ground tackle and floating hose attachments, which is connected to the shore by a submarine pipe-line. Passage between the buoy and the shore is also prohibited.

RADIO: *Ship's Officer's Report:* Send ETA 96 hours and 24 hours in advance. Two hours before arrival keep listening watch on Channel 16. Shell Oil Terminal on VHF Channel 16 and 9. Cargo operations are carried out on Channel 9.

TUGS: No tug-boats available.

MAX. SIZE: Up to 47 ft. draft at S.B.M. terminal.

BERTHING: Port installations at Port Dickson comprise the following:

A small boat harbour contained in the curve of the stone approach to the Railway Jetty which affords little shelter against Southerly winds dries out at low water.

The Shell Jetty – property of the Shell Refining Co. (Malaysia) Ltd. (Private). Reinforced concrete jetty 700 ft. with "T" head 170 ft.×36 ft.

The Esso Jetty – property of the Esso Standard Malaya Ltd. (Private). Reinforced concrete island jetty 200 ft.×24 ft.

The Railway Jetty – property of the Malayan Railway Administration. Stone pier 600 ft. length terminating in a crosshead 150 ft. long with steel piling and wooden deck.

The Joint Shell/Esso single-buoy Tanker Mooring and Crude Oil Discharging Terminal.

Stone ramp on foreshore usable by lighters at high water.

MEDICAL: District hospital with 150 beds.

TANKERS: Shell/Esso Single Buoy Mooring for crude discharge into submarine pipe-line. Refineries produce petroleum products for export. Deballasting facilities up to 35,000 barrels capacity.

Esso Product Jetty: Berth is constructed of reinforced concrete. The island jetty is 200 ft.×24 ft. with 4 off-lying mooring buoys inshore for mooring purposes. Accommodation for one vessel on outer face only.

Max. LOA 575 ft.; max. draft 34 ft.; max. size 19,500 d.w.t.

Shore connections:
1×20 in. black oil/ballasting
1×16 in. white oil line
1×10 in. LPG line
1× 4 in. inert gas line
1 crane to handle hose

FRESH WATER: Available at Shell and Railway jetties.

FUEL: Bunker fuel-oil available. No diesel.

DEVELOPMENTS: Proposal to enlarge facilities and to provide deep-water berths.

CUSTOMS ALLOWANCES: Tobacco, cigarettes 25 in number per man per day, or cigars 8 in number per man per day, or tobacco 1 oz. per man per day, or snuff 1 oz. per man per day. Wine and/or spirits, spirit .175 qt. per man per day, or wines 1 qt. per man per day, or beer or stout 1 qt. per man per day.

REPAIRS/DRY DOCKS: None.

HOLIDAYS: Official holidays in the state as follows: New Year's Day, 1 day; Chinese New Year's Day, 2 days; Muslim New Year's Day, 2 days; Wesak's Day, 1 day; His Majesty's Birthday, 1 day; Prophet Mohammed's Birthday, 1 day; His Excellency Governor's Birthday, 1 day; Malaysia Day, 1 day; Deepavali, 1 day; Hari Raya Huji, 2 days; Christmas Day, 1 day. No cargo is worked on any of the above gazetted public holidays – port closed.

AIRPORT: None.

AUTHORITY: See "Malacca".

PORT KELANG, Malaya: 03.00 N. 101.24 E.

(See Plan Book)

PORT LIMITS: All the waters in the Klang Straits, the Klang River, Sungei Aur, Selat Lumut, Sungei Langat and other waterways contained within the parallels 2° 58′ N. and 3° 05′ N. and the meridians 101° 20′ E. and that passing through Connaught Bridge i.e. 101° 28′ 30″ E. approximately including all piers, jetties, landing places, wharves, quays, docks and other similar works whether within or without the line of high water mark, any position on the shore or bank within 50 yards of high water mark subject to any rights of private property therein.

APPROACHES: Ships from and to Penang enter and leave the port by the North Klang Straits, and ships from and to Singapore enter and leave by the South Klang Straits. The entrance channel at the North Klang Straits is dredged to 36 ft. below datum. A very large deep water anchorage for ships is available at the North Klang Straits. For ships entering the Old Port, the permissible draft is 28 ft. and 22 ft. plus the height of tide through the North Klang Straits and South Klang Straits respectively.

DOCUMENTS: *(a) For Agent.* Vessels required to fill in arrival report which may be obtained from Agent at Singapore or Penang or Boarding Agent on arrival. This should be completed and handed to Boarding Agent together with last Port Clearance and one copy each of Crew List and Passenger Lists for submission to Marine Department.

Vessels should have ready and hand to Boarding Agent on arrival the following:
Arrival Report.
Last Port Clearance.
Two copies of Crew List.
Two copies each of Disembarking and Transit Passenger Lists (if any).
List of Explosives, dangerous cargo on board.

Following documents should also be handed to Boarding Agent on arrival and will be returned to vessel after perusal by Marine Department:
Malaysian Light Dues Receipt (if any).
Ship's Register.
Radio Safety Certificate.
Safety Equipment Certificate.
Load Line Certificate.
Deratisation Certificate.

Port Health Officer now requires all vessels arriving from foreign ports to submit an "Entry Declaration" on form Health 43, on the International "Maritime Declaration of Health" form or on a similar copy, and this should be handed to Boarding Agent, together with copy of crew list, in cases where vessels are not in Quarantine, in which case doctor does not attend on board.

Note: Endorsement of Port Clearance must be obtained from Port Office at Marine Office before a fresh Port Clearance can be issued by local Customs Authorities and handed to vessel before sailing.

(b) Immigration
2 copies Crew List.
2 copies Passenger List (Disembarking and Transit).
(c) Customs
2 copies Customs List (CD.15).
1 Crew List.
1 Passenger List.

FLAGS: The Malaysian Flag. Flag "Q" meaning Health Clearance required. *Flag 2/5 meaning No passengers on board, or *Flag 3/4 meaning Passengers on board. Pennant Zero is not required since Boarding Officers do not board the ship on arrival. Flag H meaning Pilot on board. (*Applies only to vessels arriving from foreign ports, which now includes Singapore.)

Note: Except for vessels under way, no vessel in port may use its siren except in case of an emergency when no other means of communication is available. The Authorities strictly enforce this rule and vessels infringing it become liable to heavy fine.

PILOTAGE: Available 24 hours a day. Pilotage compulsory.

(a) Application. Piloting carried out by Kelang Port Authority. Masters to cable "Pilots Port Kelang" giving ETA and point of arrival, i.e. Pintu Gedong or Pulau Angsa and draft at least 4 hours before arrival, as Pilots will not leave shore until confirmation received from vessel. Both North and South Channels are well marked and Pilots consider it quite safe to arrive and depart at any hour.

Vessels approaching this port normally apply through Agent, giving ETA Pintu Gedong, Pulau Angsa or Deep Water Point, together with draft and port of departure.

(b) VHF. If vessels wish to communicate direct all pilot boats are fitted with VHF for use between pilot office, pilot boats, pilot boat to pilot boat and where necessary to vessels arriving at this port. Operated on Channel 12 of International Maritime VHF radio telephone bands, and of a range of 20–25 miles.

(c) Recognition. Pilot boats painted orange and have white superstructure.

(d) Boarding. Unless advised otherwise Pilots will be ordered to board vessels at Pulau Angsa (North Channel), or Pintu Gedong South of the Seaward Bar Buoy.

Pilot ladders should be of approved Standard pattern internationally used.

(e) Waiting for Pilot. Location for a vessel awaiting Pilot is at Pintu Gedong 5 cables South of Seaward Bar Buoy, at Pulau Angsa 1 mile East of Pulau Angsa Island, and at Deep Water Point where anchorage is available according to number of vessels already anchored.

ANCHORAGES: Per latest Admiralty charts. Vessels may load timber and ore from privately owned junks at Deep Water Point Anchorage. In exceptional cases and with permission of Port Authority it is also possible to work with Authority Lighters at Deep Water Point.

RESTRICTIONS: (See "Max. Size"). Pintu Gedong, the Southern Channel Pilot Station, there is a restriction, of which vessels will be advised when giving their ETA.

MAX. SIZE: Max. length of vessels using South Port (old port) is: dry cargo vessels, 565 ft. LOA with draft of 32 ft., tankers, up to 560 ft. LOA and draft 32 ft. Tidal conditions govern movements of all vessels over 500 ft. LOA in the South Port but not at the North Port (new port). Vessels of up to 621 ft. can be berthed under any conditions at the North Port but only under special tidal conditions at the South Port.

At the North Extension Wharves, container ships of 950 ft. can be berthed.

HEALTH: Port Health Officer will board vessels arriving from infected ports, or carrying deck passengers at Deep Water Point between 0700 and 1800 hrs. All ships arriving from foreign ports should ensure that all on board hold valid smallpox vaccination documents.

All vessels should include in arrival cables confirmation that all well on board and also that all health papers in order. It should be understood that the health papers referred to include deratisation, or deratisation exemption Certificate.

RADIO: ETA cables normally routed via Singapore or Penang as no radio station in Port Kelang. Such messages when received are transmitted by telephone to Agents/and or Pilots at Port Kelang.

VHF: (See "Pilotage"). Ship to shore telephones available at all berths at North Klang Straits, and VHF sets available for ships in moorings. Klang Exchange keeps a 24-hour watch on Channel 16 and will connect the vessel to any telephone receiver ashore. For local calls the cost is $1.92 for three minutes (approx.).

TUGS: Supplied by Port Authority and normally "stand by" vessels berthing at wharves as and when required. Tugs towing use ship's lines, tugs pushing use their own lines. 5 tugs available to assist in berthing and unberthing and are equipped with fire-fighting appliances and radio communications system. When vessels berth or unberth at wharf tugs ordered by Agent in consultation with Pilots and once in attendance are charged for whether used or not. Tugs also used to swing vessels in stream which are stemming ebb tide on departure. In addition 3 smaller tugs used to tow lighters to and from vessels.

BERTHING: There are 2 ports viz: the South Port or Old Port and the North Port. Vessels berthing in the South Port (Old Port) are governed by tidal conditions which vary considerably. Vessels over 525 ft. LOA are usually berthed port side to on the ebb and then only when tides are favourable. There is usually no objection to vessels unberthing from the wharf at night although generally speaking vessels will not be berthed at night. As a general rule discharging vessels will berth at North Port (North Klang Straits) and loading vessels in the stream in the South Port (Old Port).

(a) South Port. 3 ocean wharves of 2,190 ft. length with 30 ft. of water alongside, 2 coastal shipping wharves of 650 ft. with 20 ft. of water alongside, 5 swinging buoys, and 2 anchorages. 3 to 4 vessels of not more than 250 ft. in length and with drafts of up to 18 ft. can be accommodated at North Shore anchorage.

(b) North Port (North Klang Straits) Wharves. 4 ocean wharves with total length 2,490 ft. Each berth 580 ft. long, with 202 ft. Concrete wharves with a safe working load of 4 cwt. per square foot and a maximum point load of 10 tons. Draft alongside all 4 wharves 30 ft. Rail track on wharf apron. In addition 4 container wharves, each 1,050 ft. long and 1 conventional cargo wharf 700 ft. long have been built and are now in operation. The wharf aprons are 260 ft. wide. Depth of water alongside is 45 ft. There are 4 container cranes on the container wharves. If there are no container ships in port, these wharves will be used by conventional vessels.

Depth of water alongside is 45 ft. Container stacking yard is 28 acres. Freight station measures 600 ft.×120 ft.

Container Handling Equipment: 2 container cranes of 35 tons capacity each (which can handle 800 containers a day).

16 straddle carriers of 30 tons capacity each.

20 prime movers.

12 × 20 ft. and 10 × 40 ft trailers.

53 forklifts.

2 tugs of 2,700 h.p. each.

(c) General.

Facility		*Depth Below New A.D.C.* (ft.)
North Klang Straits Approach		36
Pintu Gedong Bar		22
Labohan Garap Bar		25
No. 1 Wharf	580 ft. length	35
No. 2 Wharf	580 ft. length	35
No. 3 Wharf	550 ft. length	30
No. 4 Wharf	480 ft. length	20
No. 5 Wharf	350 ft. length	20
No. 6 Wharf	400 ft. length	20
No. 7 Wharf	570 ft. length	10–15
No. 8 Wharf	700 ft. length	35
No. 9 Wharf	1,050 ft. length	45
No. 10 Wharf	1,050 ft. length	45
No. 11 Wharf	580 ft. length	30
No. 12 Wharf	580 ft. length	30
No. 13 Wharf	580 ft. length	30
No. 14 Wharf	580 ft. length	30
No. 15 Wharf	550 ft. length	30
No. 16 Wharf	700 ft. length	38
No. 17 Wharf	700 ft. length	38
No. 18 Wharf	700 ft. length	38
No. 24 Wharf	700 ft. length	36
No. 25 Wharf	700 ft. length	36
No. 1 Buoy	on 600 ft. swing	23
	on 500 ft. swing	30
No. 2 Buoy	on 600 ft. swing	23
	on 500 ft. swing	29
No. 3 Buoy	on 600 ft. swing	17
	on 500 ft. swing	26
No. 4 Buoy	on 600 ft. swing	20
	on 500 ft. swing	25
No. 5 Buoy	on 600 ft. swing	24
	on 500 ft. swing	24
No. 6 Mark	on 600 ft. swing	30
	on 500 ft. swing	30
No. 7 Mark	on 600 ft. swing	30
	on 500 ft. swing	40

Distance between buoys is as follows:

Distance between No. 1 buoy and No. 2 buoy 1,200 ft.
Distance between No. 2 buoy and No. 3 buoy 1,200 ft.
Distance between No. 3 buoy and No. 4 buoy 1,200 ft.
Distance between No. 4 buoy and No. 5 buoy 1,300 ft.

The above distances allow for slackness in pendants at low water. The depths listed combined with tidal predictions for current year give actual depth of water.

STEVEDORES: Almost all timber loaded from private junks for which no lighter gangs needed. Average working rate, subject to stow, for timber in loose pieces is 4–6 t.p.h., and in bundles 6–8 t.p.h. Not more than 2 lighters or "tongkangs" may lie alongside any vessel abreast of each other and not more than 2 lighters shall be moored astern of a vessel.

Rubber, latex in drums, etc., loaded by Port Authority and lighter/wharf gangs are required. Average working rate for these commodities is 14 t.p.h.

The average rate of discharge at North Port (North Klang Straits) wharves is 14–16 t.p.h.

On-board stevedores provided by the Port Authority. Requirements for the 1st shift should be made known by 1300 hrs. the previous day and for 2nd shift by 1000 hrs. same day and the 3rd shift not later than 1130 hrs. the same day.

Working hours throughout the port: 1st shift 0700 to 1500 hrs. (meal break 1100–1200 hrs.). 2nd shift 1500 to 2300 hrs. (meal break 1900–2000 hrs.). 3rd shift 2300 to 0700 hrs. (meal break 0300–0440 hrs.).

MEDICAL: A number of private doctors in Port Kelang and it is often not necessary to give any advance notice of medical attention being required. In event of vessel requiring urgent medical attention on arrival, advisable for Master to cable Agent in advance. At present 2nd class medical facilities available in Kelang and 1st class facilities only available in Kuala Lumpur. As vessels arriving at Port Kelang normally do so after calling at Penang or Singapore no inoculation, vaccination or fever certificates are required unless either Singapore or Penang is declared an infected port.

TANKERS: Tankers always berth port side to on ebb and near slack water. Vessels with bulk liquid cargoes to load or discharge will berth at wharves 1, 2, or 3. When a number of pumping vessels in port, vessels will usually occupy these wharves only for the time it takes to complete pumping and may then have to shift to stream or another wharf. Three of the ocean wharves are provided with facilities for handling liquid cargo. Liquid cargoes now being handled are: latex, palm, coconut oil, petroleum products, alkane, tallow and fuel oil.

Shell Company has a private jetty on which vessels up to 320 ft. in length with drafts not exceeding 20 ft. can be berthed.

DENSITY: Varies considerably with state of tide and heavy monsoon rains.

FRESH WATER: Waterboat, capacity 200 tons, available to supply vessels in South Port (Old Port) and at Deep Water Point with fresh water. As much notice as possible should be given if waterboat required. At North Port (North Klang Straits) water available from wharf. Pumping rate about 20–25 t.p.h.

FUEL: Bunkers are available.

FIRE PRECAUTIONS: In respect of tankers loading or discharging inflammable cargo, necessary to have wharf cordoned off and "No Smoking" signs exhibited prominently. Port Fire Brigade required to be on stand-by at wharf whilst operation in progress. Vessel may not disable engines whilst alongside wharf and shall have axes ready in event has to leave wharf urgently and necessary to cut ship's lines. Port Fire Service on duty 24 hours a day throughout year. Service is capable of fighting all types of fire whether on land or on sea. Fire service has following equipment: 3 fire engines, 1 Land Rover fire engine, 2 trailer pumps, 3 fire fighting tugs.

OPENING/CLOSING HATCHES: Normally carried out by stevedores.

CUSTOMS/IMMIGRATION: Customs Officer will board vessel soon after arrival to seal the "Bonded stores". For vessels staying in port some time it is usual to issue three days supply – a further issue may be made on request after three days.

Immigration Officer will clear vessels arriving from foreign ports on all days between 0700 and 2100 hours. No one may board or leave or approach within one cable length of such vessel without special permission until vessel has been cleared by Immigration Officer and Immigration Signal is hauled down. No Immigration formalities required for vessels arriving from or leaving for other West Malaysian ports (Malacca and Penang).

IDENTIFICATION CARDS: Advisable that members of crew carry identification cards when leaving ship.

CONSULS: Consulates/Embassies/High Commissions in Kuala Lumpur (28 miles from Port Kelang).

Embassy of the United States of America.
Australian High Commissioner's Office.
Belgian Embassy
Consulate of Brazil
British High Commission
Burmese Embassy
Canadian High Commission
Consulate of the Republic of China
Royal Danish Embassy
Consulate of Finland
Embassy of France
West German Embassy
Indian High Commission
Embassy of the Republic of Italy
Embassy of Japan
Embassy of the Republic of Korea
Royal Embassy of Netherlands
New Zealand High Commission
Consulate of Norway (at Penang only)
Consulate of Panama (at Penang only)
Pakistan High Commission
Embassy of Philippines
Singapore High Commission
Royal Swedish Embassy

REPAIRS: Slipping facilities for repair of lighters and smaller tugs available. No facilities for major repairs to ships.

DRY DOCKS: None.

REPATRIATION: Crew changes and repatriation must be arranged by Agent. Harbour Master attends signing-on and signing-off of the crews on ship's articles.

AIRPORT: Subang International Airport approximately 20 miles from port on main trunk route to Malaysian capital of Kuala Lumpur and served by regular domestic flights and international flights.

HOLIDAYS: Port Closing Days. *Hari Raya Puasa; *Chinese New Year; Malaysia Day (31st August); *Deepavali; Christmas Day (25th December). *Dates subject to changes as festivals coincide with Mohammedan, Chinese and Hindu calendars.

TELEPHONES: At North Port (North Klang Straits) Wharves telephones installed on board if required. At wharves in South Port (Old Port) there is always a telephone within easy reach at Wharf Office.

GENERAL: *(a)* Ship-Shore Communication. When vessels are berthed in stream or at Deep Water Point a 24 hour launch service can be supplied. Arranged by Agent in consultation with Master to suit requirements of ship.

Vessels permitted use own boats with proper navigation lights at night.

(b) Seamen's Club. "Mariner's Club" for officers and seamen outside No. 3 Gate of South Port. Club has swimming pool and bar.

(c) Diving. Diving services available for salvaging lost cargoes, examining underside of ships, etc. Divers capable of deep-sea diving down to 120 ft.

DEVELOPMENTS: Construction of 3,500 ft. of wharves expected to be ready by 1980.

AUTHORITY: Kelang Port Authority.

ROMPIN (Kuala Rompin): inc. Pahang, Malaya: 02.43 N. 102.30 E.

DOCUMENTS:

Register.
Last Port Clearance.
7 copies Crew List and 4 for Agent.
5 copies Passenger List (if any).
5 copies Stowaway List (if any).
2 copies Stores List (including firearms and ammunition).
2 copies Dutiable Liquor and Tobacco List.
2 copies Crews Declaration List (cameras, radios, etc.).
1 copy Vaccination List.

Masters of vessels to fly the necessary following flags on arrival as required under Section 448 of the Merchant Shipping Ordinance and Sub-Section (9) of the Federation Port Rules, 1953.

(1) The Federation of Malaysia Flag.
(2) The Pennant "O" Flag (Request Port Officer).
(3) The "Q" Flag (request Port Health Officer).
(4) The Pennant "2"; "5" Flags if no passengers and "3"; "4" Flags if there are passengers on board (Immigration).

PILOTAGE: Compulsory to the loading berths. Extra charge for pilotage outside normal office hours and holidays.

ANCHORAGE: On arrival, vessels required to anchor about 1 mile outside berthed ships to obtain pratique. An accommodation ladder must be rigged on lee side to allow Port Authorities to board.

READINESS: Notice of readiness cannot be accepted until vessel is in free pratique, Customs Inward Examination completed, and in all respects ready to load.

LOADING. *(a)* Ladders. Masters particularly advised to see that a sound and adequate ladder provided at each lighter to allow labourers engaged in loading to pass to and from ship with no undue risk. Regulations are provided in the Merchant Shipping Ordinance, Section 445, Sub-Section (O) which takes care of this requirement and failure to take adequate precaution in seeing regulation is observed may result in serious consequence to those responsible.

Masters requested to ensure that in addition to ladders for labourers, an extra ladder, preferably a clean pilot ladder, be made available at all times for the Agent for boarding. This ladder should be made fast on lee side, just forward of any scuppers in vicinity, and a heaving line from ship's rail made fast to bottom rung. When ladder not in use, bottom of ladder can be pulled up a few feet with heaving line to prevent labourers from using it or damage from lighters.

(b) Winches. All winches must be in single gear at all times.

(c) Derricks. Practice to work 2 sets of derricks to 1 lighter where practicable.

(d) Trimming. No manual trimming undertaken.

(e) Damages. In the event of your vessel sustaining damage by stevedores during loading, you are requested to inform the clerk and foreman on board immediately and as soon as practicable confirm same in writing to the Eastern Stevedoring Co. Ltd., Kuala Rompin, with copies to Hong Kong & Eastern Shipping Co. Ltd., Hong Kong, and Malay States Shipping Ltd., Kuala Rompin. It is important that full details of damage are given, together with measurements whenever possible.

Minor damage has occurred on vessels due to hatch beams not being bolted or lashed. Masters therefore requested ensure all beams adjoining working parts of hatches either bolted or lashed, otherwise stevedores will repudiate liability for any damage incurred.

OPENING/CLOSING HATCHES: Removal and replacement of hatch beams and covers must be done by ship's crew. Ship's Officers should see that any tween-deck beam removed is replaced before ore reaches that height.

CUSTOMS: Customs office hours 0830 to 1630 Monday to Friday, 0830 to 1300 hrs. Saturday.

IDENTIFICATION CARDS: Every member of crew must produce Identity Document or Shore Leave Pass at Customs House when landing and again when returning to vessel.

HOLIDAYS: New Year's Day; Hari Raya Puasa, 2nd day; Chinese New Year, 2nd day; Hari Raya Haji, 2nd day; First Day of Muharram; Vesak Day; Birthday of Sultan of Pahang; Birthday of H.M. The Yang Di-Pertuan Agong; Birthday of Prophet Muhammad; Malaysia Day; Deepavali; Christmas Day.

Note: Where a holiday falls on a Sunday, the following day will be observed as a holiday, and if such latter day is already a holiday, then the day following shall be a public holiday.

GENERAL: *(a) Scrap Iron.* Steel mills in Japan complain from time to time of finding pieces of scrap iron in the iron ore cargoes. If this scrap is not found it will cause serious damage to the plant and occasion considerable delay to production: furthermore, should scrap iron enter the machinery there is always the possibility of it endangering life, and several fatal accidents have been attributed to this cause.

The assistance of officers and crew is requested in reporting any scrap iron they see being loaded, advising shippers into which hold it went and number of the lighter it came from to enable us to take appropriate action.

(b) Whistle, Radio. Wireless Transmitters, Whistles and Sirens etc., must not be used by vessels at anchor off Kuala Rompin.

(c) Stores. Bonded stores can be obtained from Kuala Lumpur and Kuantan at prices roughly same as Singapore. Essential, view Customs formalities, that Masters give Malay States Shipping Ltd., Kuala Rompin 6 days prior notice of requirements.

SHORE LEAVE: No seaman may proceed more than 3 miles from Kuala Rompin Customs House. The Officer in Charge Customs, as acting Immigration Officer, has authority to limit or prohibit shore leave in all cases.

MINOR PORTS

SABAH, including Kudat, Lahad Datu and Semporna: (See Plan Book)

DOCUMENTS: 8 copies all usual documents.

PILOTAGE: Applications normally made by Shipping Agents with advance notice of 24 hours prior to actual time that Pilot services required. Pilot boats between 30-40 ft. length and equipped with VHF/AM Sets – 80.4 Mc/s. frequency. Pilot station at Port Office and location for vessel awaiting Pilot is within port limit.

ANCHORAGE: All ports within bays, therefore provide safe anchorages.

RESTRICTIONS: No restrictions for vessels entering port at night.

MAX. SIZE: All ports unlimited, cargo worked at anchor.

HEALTH: To obtain pratique, arrange with Shipping Agent. Pratique for vessel entering, after calling at another port in same state, is not required. Anchor in quarantine anchorage if vessel is suspect and display following signals: *By Day:* International Code Signal "QQ". *By Night:* A Red light over a White light and a separate hoist of Red light over a Green light. Hoisted vertically 6 ft. apart where best seen.

RADIO: Singapore Radio recommended.

BERTHING: Application for berthing has to be made within 24 hours prior to actual time that berthing is required. *Details and Requirements:* Name of vessel, gross and net tonnage, length overall, draft (fore and aft), ETA at berth, ETD from berth, nature and tonnage of cargo to be discharged/loaded. No priority for berthing ships and the turn is, first come first served.

Kudat: L-shaped wharf with 2 berths. Western berth – length 370 ft. min. depth 21 ft. Eastern berth – length 300 ft, min. depth 21 ft.

Lahad Datu: L-shaped wharf with 2 berths. Outer berth, length 200 ft. min. depth 32 ft. Inner berth, length 130 ft. min. depth 30 ft.

Semporna: T-shaped wooden wharf with 2 berths. Outer berth, length 150 ft. min. depth 26 ft. Inner berth, length 127 ft. min. depth 20 ft.

STEVEDORES: Arrangement of stevedores should be made with 48 hours notice to Shipping Agent. Average load/discharge rate: General cargo, 15–20 tons per hatch per hour; cement 20-30 tons per hatch per hour.

MEDICAL: Arranged on arrival by Shipping Agent.

DENSITY: Average density in the ports 1020.

FRESH WATER: Available at Government General Cargo Wharves at a rate of 20 t.p.h.

DEVELOPMENTS: Lahad Datu, having new port installation and wharves facilities.

GANGWAY/DECK WATCHMEN: Not necessary.

OPENING/CLOSING HATCHES: Normally by stevedores.

CERTIFICATES: Registry, Load Line, Radio, Safety Equipment and Derating Exemption.

CUSTOMS ALLOWANCE: Tobacco, Wine and/or Spirits: no control and up to discretion of Officers of Customs and Excise.

CARGO GEAR: Ships gear used.

IDENTIFICATION CARDS: Not needed.

CONSULS: At Kota Kinabalu.

REPAIRS: Marine Department operates engineering workshops at Labuan and Sandakan. Some private firms also undertake small engine and deck repairs.

DRY DOCKS: No dry docks available in the State. Marine Department has 3 slipways in Labuan which are capable of shipping vessels of 60 tons, 200 tons and 500 tons displacements. 1 in Sandakan for vessel up to 120 tons.

REPATRIATION: Normally arranged by Agents.

AIRPORT: Most airports in State between 2–5 miles from the town.

TIME: Local time is 8 hours ahead of GMT. No alteration to clocks.

HOLIDAYS: Cargo work can be arranged if necessary during official holidays, but not for Hari Raya Puasa, Chinese New Year and Christmas Day.

POLICE/AMBULANCE/FIRE:

	Fire/Police	*Hospital*
Kudat	333	335
Lahad Datu	81999	81522
Semporna	599	—

SERVICES: No services available for cleaning tanks, but compass adjusting can be arranged with officers of Marine Department, Labaun.

SHORE LEAVE: Allowed.

DELAYS: Due to weather conditions only.

AUTHORITY: Sabah Ports Authority.

SANDAKAN, Sabah: 05.50 N. 118.07 E.

(See Plan Book)

FLAGS: Signal letters, Mail flag (if any mail on board for discharge); "Q" flag is essential if Sandakan is the first Sabah port at which a vessel calls. If ship carrying passengers it should fly immigration signals Nos. 3 and 4; if no passengers Nos. 2 and 5.

DOCUMENTS: 5 sets of Inward Manifest in the prescribed form to be airmailed to Agent to arrive at least 48 hours before the vessel.

(a) To be Produced on Arrival:

1 Sabah Lights and Harbour Dues form
2 Manifest in the prescribed form
3 Crew List
1 Last Port Clearance
3 Stores List
3 Passenger List
3 Arms List
3 Narcotics List
2 Parcels List

(b) Required by Agent:

2 sets of Inward Manifests for all inward cargo
5 sets of Transhipment Manifests for all cargo to be transhipped at Sandakan.
2 copies of Hatch List.
1 copy of Passenger List.
1 copy of Crew List.
1 copy of List of Arms and Ammunition.
1 copy Narcotics List.
1 copy Stores List.

(c) To be Supplied to Ship before Departure:

Manifests, as required by vessels.
Captain's copy of B's/Lading.
Port Clearance and Customs Clearance.
Sabah Lights and Harbour Dues form.

(d) Immigration: Immigration Officer will board vessel on arrival and clear her inwards. No restrictions on crew and/or passengers going ashore. Immigration require 2 copies of crew list and 2 copies of passenger list. Vessels cleared inward until 1800 hrs. only. If there are special circumstances arrangements can be made to clear vessels inward after this time.

(e) Marine Department: Shipping Arrival Report to be signed by Master of Vessel.

PILOTAGE: Pilotage not compulsory but if required the Harbour Master acts as Pilot. At least 24 hrs. notice should be given and position where Pilot is required to embark (i.e. the bar buoy or within harbour limits) should be included in the message. Pilot station tel. 3128.

ANCHORAGES: For loading timber: A black and white conical buoy situated 1.2 miles S.W. from Government Wharf indicates the anchorage. It is important that vessels should anchor as close to this buoy as possible, when anchored further from shore it may take up to an hour longer for launches towing rafts of timber to reach ship and in addition there is less shelter from wind and weather and consequently raftsmen have to cease work earlier.

For discharging: Unless it is intended to come alongside the wharf, vessels discharging should anchor 4 cables due South of wharf. Wharf is 750 ft. long with dolphins placed 100 ft. from each end giving a total length of 950 ft. If discharging into lighters and loading log timber simultaneously vessels should proceed to Timber Anchorage.

RESTRICTIONS: *(a)* Shifting: Vessels may not berth alongside after dark without special permission but they may leave the wharf, having given prior notice.

(b) Special Cargo Regulations: No vessel with dangerous cargo may be alongside after sunset, except at discretion of Harbour Master. No dangerous cargo may be discharged simultaneously with general cargo except with permission of Harbour Master. Livestock: subject to approval of Veterinary Authority. Certain animals, including cattle, are prohibited imports and exports except under licence.

MAX. SIZE: Draft restriction is 25 ft. on the Bar plus the height of tide, mean high water being about 6 ft.

HEALTH: (Also see "Radio" and "Regulations"). If Sandakan is first port of entry into Sabah a vessel must proceed to quarantine anchorage until cleared by Health and Immigration Officials.

The Sabah Government are signatories to the WHO convention on quarantine regulations. If vessel comes from outside State of Sabah then Port Health Authority will require to board in quarantine anchorage before vessel can proceed to wharf or timber anchorage. If, however, vessel is not coming from an infected port pratique may be granted providing vessel cables Agent prior arrival advising last port of call and whether vessel healthy. Pratique normally cabled to ship but if unreceived, vessel must proceed to quarantine anchorage.

Port Health Authority require completed copy of Maritime Declaration of Health, and copies of Crew, Passenger and Narcotics Lists.

RADIO: (Information required before ship's arrival). ETA, number of passengers, health situation, Manifest, amount of water required. Vessels not allowed to use their radio in port.

VHF: Marine signal station keeps watch on VHF Channel 16, from 0530 to 2000 hrs.

TUGS: A tug of 337 b.h.p. stationed at Sandakan.

BERTHING: (Also see "Anchorages").

(a) Mooring: The numbers of a vessel which is berthing alongside will be shown from signal station on Eastern end of Customs House. In addition, a cone indicating tidal stream will be hoisted pointed end of cone down indicates flood tide and pointed end up indicates ebb tide. Linesmen are on hand to receive a vessel's lines, a mooring boat will be provided by Marine Department if it is necessary to send lines to dolphins. Government Wharf, least depth 21 ft.

(b) Buoys: No mooring buoys.

(c) Lighters: No lighter fleet. The timber companies have their own lighters and scows which can sometimes be hired if not being used by these companies.

Rectangular Island Wharf: The particulars of the berths are as follows:

Berth No.	*Length (ft.)*	*Depth (ft.)*
1	700	30
2	540	24
3	250	18
4	400	24

Covered Storage:

(a) One transit shed 90,000 sq.ft. at new port site.

(b) One 8,100 sq.ft. and two 20,000 sq.ft. godowns at the old port site in town.

Equipment: New equipment only listed below:

(a) 10 towing tractors.
(b) 17 6,000 lb. forklifts.
(c) 26 5-ton trailers.

STEVEDORES: Stevedoring in hands of Port Authority who supply gangs as required.

(a) Working hours, 0730–1130 also 1130–1300 (overtime), 1300–1700 also 1700–2200 (overtime). Gangs ordered at least 12 hours before a vessel arrives.

(b) Overtime. When working in stream, overtime usually from 1100 to 1200 and 1800 to 2200 hrs. Application for permission to work overtime must be made to Customs not later than 1500 hrs. on the afternoon that overtime is to be worked or 1100 hrs. on Saturday for weekend overtime.

(c) Working Sundays and holidays. Work is normally carried out Sundays and it is sometimes possible to arrange for work on some public holidays, principal exception being Chinese New Year. Application must be made to Customs for permission to work Saturday afternoons, Sundays and public holidays.

(d) Rate. Log loading is good, comparing more than favourably with other Borneo ports. Rate of loading about 800 cu. ft. hoppus (20 B/L tons) per gang hour for logs, and 6 B/L tons per gang hour for sawn timber. Discharging general cargo about 10 tons per gang hour.

CARGO: (a) Tally: Tally clerks supplied by Agent if required. Sawn timber tallied on to scows by timber companies' clerks and tallied into ship by ship's tally clerks. Ship responsible for total number of pieces of timber shown on Mate's receipts. Letters of Credit do not allow the clause: "A quantity said to be" to be inserted on the B/Lading. Log timber tallied into ship by checking against specifications supplied by timber companies.

(b) Inward Cargo: Is tallied out of ship on to wharf or into lighter. Local watchmen can be supplied by Agent if necesary but it is generally found to be more satisfactory if these duties are carried out by crew. Damaged cargo is surveyed on the spot, otherwise no liability of vessel is acknowledged. Discharge carried out after permission has been obtained from Customs after manifest of inward cargo has been deposited. Cargo is delivered to consignees against production of relative Bill of Lading. Ship's responsibility to consignees ceases at ship's side but, in the case of short-landed cargo, reasonable proof must be given to Customs that cargo has not been landed. A short-handed Memo certified by Chief Officer is usually accepted as proof.

(c) Heavy Lifts: Usually landed overside on flat-top scows for delivery to private jetties, where they are man-handled to required site. Occasionally consignees provide low-loaders.

(d) Transhipment Cargo: After discharge of cargo from first carrier, transhipment cargo placed under supervision to Ports Authority, unless it is possible to arrange direct transhipment into small coastal vesels.

(e) Outward Cargo: Main export is log timber and is towed out to loading vessels in rafts, each one accompanied by 2 raftsmen. Loading is on a single swinging derrick with gun tackle; the other derrick being used for pulling the logs into position in the holds. Vessels should have, if possible, 2 snatch blocks available at each hatch where log timber is being loaded. Sawn timber loaded in normal manner from scows and lighters. Documents required are shipping order issued by Agent and list of specifications supplied by timber companies. Other exports are rubber, copra, coconuts, palm oil, jungle and sea produce.

(f) Refrigerated cargo: Only small quantities of refrigerated cargo loaded or discharged. No formalities or certificates being required other than compliance with normal Customs regulations. Inward fridge cargo is confined to foodstuffs, meat, etc., and outward to frozen prawns.

(g) Explosives: Explosives must be discharged into lighters under police escort and transported to an approved police store. A licence for their importation must be obtained from police prior to arrival of cargo, and Harbour and Police authorities must be informed of arrival of explosives in port either for discharge or as through cargo.

(h) Damaged Cargo: Ship's survey should be carried out at ship's side on all cargo discharged in a damaged condition and Chief Officer should note extent of damage, and sign certifying same. Cargo coming alongside in a damaged condition should be noted and M/R claused accordingly. Chief Officers are reminded that it is most unwise to load any copra which is rain or salt water damaged.

MEDICAL: *(a)* Hospitals: Duchess of Kent Hospital will receive sick seamen or officers. Three classes of wards, also isolation wing. Hospital equipped to carry out normal surgery.

(b) Inoculation: PHO will vaccinate or inoculate crew members at Duchess of Kent Hospital.

(c) Death on Board: PHO and police to be informed immediately. They will then make an investigation into cause of death. If satisfied that death was due to natural causes, a certificate will be issued, and arrangements may then be made for interning the body. Harbour Master must also be informed in the case of seamen.

TANKERS: Two bulk oil installations at Karimunting (Pavitt Point). Esso, with storage capacity of 2,080 tons and Shell, with storage capacity 15,730 tons.

Jetty extends 550 ft. from shore, is 128 ft. long with mooring dolphins 125 ft. from each end. Min. depth alongside 24 ft.

New oil berth, 1,000 ft. length between dolphins, with central discharging pier. Least depth alongside 30 ft. This berth also used for loading palm oil in bulk.

FRESH WATER: Can normally be supplied from wharf at rate of 20 t.p.h. No water boat. Occasionally water is not available and, at such times, Agent warns Principals in advance.

FUEL: No facilities for supply of fuel oil bunkers. Limited quantities of lubricants can be obtained in drums and bulk diesoline available at Shell jetty.

FIRE PRECAUTIONS: No fire-floats and in case of a vessel alongside, fire brigade should be summoned by dialling 999. The OCPD should be informed also.

WATCHMEN: No regulations regarding use of watchmen, who, however, can be supplied if required. There have been only very isolated reports of pilferage in Sandakan.

CONSULS: At Kota Kinabalu. Contact using Kota Kinabalu numbers.

DRY DOCKS/REPAIRS: No dry docks and very limited repair facilities. Marine Department slipway on Berhala Island is capable of taking ships up to 300 tons. Castings, forgings, welding, etc., can be done at this slipway. Permission to repair main engine of a vessel alongside the wharf should be obtained from the Port Manager, Sabah Ports Authority.

POLICE/AMBULANCE/FIRE: Ambulance: Duchess of Kent Hospital, tel. 2111; Police/Fire: Police Station Emergency, tel. 999.

GENERAL: *(a) Surveyors:* Harrisons & Crosfield (Sabah), Sdn. Bhd. are Lloyd's Agents, neither Bureau Veritas nor the American Bureau of Shipping are represented.

(b) Fumigation: No facilities.

(c) Ship Chandlers: All kinds of stores and provisions can be supplied at reasonable prices.

(d) Call Signals and Call Flags: (i) Continuous watch kept by signal station during day-light hours. In emergency such as serious injury or fire a ship should hoist appropriate International Code signal and blow whistle or siren to attract attention. Apart from these circumstances and for purposes of navigation vessels are prohibited from using sound signals for any other reason.

(ii) Signals for attracting Public Service Launch: By day: International Code Pendant No. 8. By night: three red lights vertical. Owing distance of anchorage from jetty these signals often indistinguishable by hire launches unless they are cruising in the harbour. Regular launch services can be arranged if required by Master. No restrictions against a vessel using its own launch or motor lifeboat but it must not land anywhere other than at Customs wharf.

(e) Recreation Facilities: Three cinemas in town which show English-language films. Cricket, football, and hockey matches can be arranged with local teams and several tennis courts available. Only suitable swimming beaches at Berhala Island at mouth of harbour. Yacht Club and Golf Club for members only, but several Shipping Companies pay Corporate Membership fee which enables all officers and first-class passengers to use club. Recreation Club offers facilities for large variety of sports and entertainment; visitors must be accompanied by a member. Churches in town for Anglican, Catholic and Lutheran worship.

REGULATIONS: 1. Arrival and Departure. The Owner or Agent of every vessel other than a small ship intending to call at a port shall, as soon as possible, and in any case not later than thirty-six hours prior to the estimated time of arrival of the vessel, give notice in writing to the Authority of such arrival and, if so desired, the requirement for a berth at a wharf.

2. The notice under this regulation shall be in a form prescribed by the Authority and shall contain full particulars regarding the cargo to be discharged and loaded, the embarkation and disembarkation of passengers, heavy lifts, special or perishable cargo, hazardous and dangerous goods (whether to be discharged at the port or not), and any other matters of importance relating to the working or safety of the vessel in the port.

3. The Master of every vessel entering or leaving a port between sunrise and sunset shall cause to be hoisted the national colours and the signal letters, if any, of the vessel. The national colours shall be exhibited from 0800 to sunset whilst the vessel remains in port.

4. The Master of every vessel arriving from outside the State of Sabah shall exhibit the Immigration and Quarantine signals contained in the First Schedule and shall also at the request of a customs officer hoist the Customs signals. Such signals shall remain exhibited until the appropriate officer has given permission for them to be lowered.

5. No vessel shall approach within 600 ft. of any other vessel exhibiting the Immigration, Health or Customs signals.

6. No person other than a Pilot may board or disembark from any vessel until the vessel is cleared inwards and the Immigration, Quarantine and Customs signals have been lowered.

7. Every vessel entering a port shall be anchored or efficiently secured to a wharf or buoy before commencing the loading or discharging of cargo and/or the embarkation or disembarkation of passengers.

8. No vessel shall leave any port unless in possession of a valid Port Clearance issued by or on behalf of the Director of Marine.

9. Special signals.

Significance	*By Day*	*By Night*
Immigration (for ships not carrying passengers)	International Code Signal "2 5"	Two green lights, six ft. apart, hoisted vertically where best seen.
Immigration (for ships carrying passengers)	International Code Signal "3 4"	Two green lights, six ft. apart, hoisted vertically where best seen.
Quarantine (vessel is Healthy request pratique)	International Code Signal "Q"	Nil
Quarantine (vessel is suspect)	International Code Signal "Q Q"	A red light over a white light and a separate hoist of red light over a green light and hoisted vertically six ft. apart where best seen.
Quarantine (vessel is infected)	International Code Signal "Q L"	
Quarantine (not received pratique)	Nil	A red light over a white light six ft. apart hoisted vertically where best seen.
Request Police Assistance	International Code Signal "S T"	A green over a white light, six ft. apart hoisted vertically where best seen.
Request Medical Assistance	International Code Signal "W"	A red light over a green light, six ft. apart, hoisted vertically where best seen.

AUTHORITY: Sabah Ports Authority.

AGENT: Harrisons & Crosfield (Sabah), Sdn. Bhd. Telegraphic address "Crosfield". Tel. 2141 ext. 51–54 (Shipping Department). Code – Bentley's Second Phrase.

SARAWAK COASTAL PORTS

Coastal anchorages at Sibuti, Niah and Suai, 28, 30 and 47 miles S.W. of Miri respectively are being used increasingly for the export of round logs, good holding ground is to be found approximately 3.5 miles offshore in 30 ft. of water. Caution should be observed in the event of sudden wind squalls from the West.

Vessels destined for coastal ports should report to Miri for Customs and Immigration Clearance.

Every vessel arriving in quarantine shall fly or show the appropriate International Quarantine signal; and no person other than a Pilot, Port Officer, Port Health Officer, Immigration Officer or Officer of Customs shall board the vessel; and no person shall disembark therefrom until the vessel has been cleared by the Port Health Officer.

The Master of every vessel of over 15 tons about to depart from a port for any place outside Sarawak shall cause the "Blue Peter" (International code Flag "P") to be hoisted, during day-light hours, for at least 12 hours before the vessel is due to sail, or if the vessel is in port for less than 12 hours, for the period of her stay in the port.

(1) The Master or the Agent of every vessel about to depart from a port shall, on demand by the Port Officer, produce for inspection the port clearance.

(2) The Port Clearance shall be in the form of an endorsement on the form of clearance prescribed under the Customs Ordinance or in such other form as may be approved by the Director.

A vessel arriving in, leaving from or shifting berth within a port shall hoist her signal letters, if any, whilst under way.

SEJINGKAT (Sungei Sarawak), Sarawak: 01.35 N. 110.26 E.

Anchorage off Kampong Sejingkat approximately 14 miles from mouth of river and 3 miles below Pending Point. (See "Kuching".)

Main timber loading point for the First Division of Sarawak. Loading used to be seasonal due to log rafts having to be towed from felling areas along coast. Since this is not possible during North-east monsoon season shippers now stockpile during favourable weather and loading continues throughout monsoon period.

Vessels up to 550 ft. length and 25 ft. draft regularly use anchorage. No facilities for obtaining fuel or fresh water.

Pilots may be picked up off Tanjong Po in the area marked "Pilots" on Admiralty Chart 1822 or at Sejingkat. In rough weather it may be necessary for a ship to follow or meet the pilot launch at the junction of Embang and Senari leads. Pilots for the Batang Lupar, Triso or Lingga Anchorages are also normally embarked off Tanjong Po by arrangement. The Kuching pilot launch is fitted with "Hague Plan" VHF radio for ship to Pilot communication.

Every vessel arriving in quarantine shall fly or show the appropriate International Quarantine signal; and no person other than a Pilot, Port Officer, Port Health Officer, Immigration Officer or Officer of Customs shall board the vessel; and no person shall disembark therefrom until the vessel has been cleared by the Port Health Officer.

The Master of every vessel of over 15 tons about to depart from a port for any place outside Sarawak shall cause the "Blue Peter" (International Code Flag "P") to be hoisted, during daylight hours, for at least 12 hours before the vessel is due to sail, or if the vessel is in port for less than 12 hours, for the period of her stay in the port.

(1) The Master or the Agent of every vessel about to depart from a port shall, on demand by the Port Officer, produce for inspection the port clearance.

(2) The port clearance shall be in the form of an endorsement on the form of clearance prescribed under the Customs Ordinance or in such other form as may be approved by the Director.

A vessel arriving in, leaving from or shifting berth within a port shall hoist her signal letters, if any, whilst under way.

SIBU, Sarawak (incl. Binatang and Sarikei): 02.24 N. 111.56 E.

Sibu is the major town in the Third Division of Sarawak. There are 2 inward routes *(a)* via Paloh River and *(b)* via Rajang River. Sibu is 51 miles from the sea via Paloh, and 70 miles via Rajang.

(a) Paloh Entrance: This route to Sibu is almost exclusively used by overseas vessels and the use of a Pilot is recommended, they having knowledge of other ship movements in the river (see "Pilotage").

The Outer Bar limits the draft to 17 ft. during the Landas (N.E. monsoon) or to 20 ft. during the summer months. The depth on the axis of the channel is now 11.5 ft. chart datum. The 2 buoys are fitted with radar reflectors and the Fairway Buoy is visible for a distance of 10 miles. Care should be taken transitting the channel against being set to the Northward by the ebb tide as there is a 7 ft. patch in position 2° 29.2′ N. 111° 10.5′ E. The entrance to the Kuala is marked by a light beacon at Tanjong Sedi on the North bank of the river.

Strong cross currents and swell especially during the N.E. monsoon period (November to March) necessitate caution when entering.

An inner bar with a least depth of 12 ft. exists where the Paloh joins the Seredeng at Tanjong Gelang. This crossing is marked by unlit transits and being sheltered no allowance is necessary for swell.

Vessels can cross the Outer Bar at night then anchor off Tanjong Sedi to await daylight.

(b) Rajang Entrance: Draft for crossing Outer Bar is governed by state of tide with an allowance for swell together with depth of 19 ft. below ACD. Vessels drawing 29.5 ft. have successfully crossed this Bar. However, this draft will only give access to the Deep Water Anchorage at Tanjong Mani and vessels proceeding further up river are restricted as follows:

(i) Deep water anchorage in Rajang River situated at Tanjong Mani. Has a capacity for about 6 large ships (500 ft.) and 4 small ships (300 ft.), it is normally used for loading logs. (See separate information for "Tanjong Mani".)

(ii) From Tanjong Mani inwards there is a Bar situated about 3 miles below Sarikei with a least depth of 13 ft. below ACD thus limiting drafts to 23 ft.

(iii) From Sarikei to Binatang, the next port, the river is winding with some shallow patches with depths of 15 to 18 ft. below ACD.

(iv) Proceeding from Binatang towards Tanjong Pendam and thence to Sibu vessels are limited to 13 ft. draft and 200 ft. length.

(v) Leba'an corner, 15 miles below Sibu is the junction of the 2 routes used by sea-going vessels bound for Sibu. A certain amount of shoaling has taken place here at the approach from the Rajang channel and it has been found necessary to restrict the length of vessels using this route (Rajang) to 200 ft. with a draft of 13 ft. This route is generally used by the smaller overseas vessels trading from Singapore, etc. There is an obstruction off Tanjong Ensurai approximately 6.25 miles up river from Leba'an bend which has a least depth over it of 15 ft. Caution should also be exercised when rounding Tanjong Bindje due to 3 shoals across the river, 1 of which has a least depth over it of 11 ft.

Note: River Igan and Sungei Kut. The River Igan affords access to Sibu from the North. It is approximately 60 miles long and depth over the bar is 4 ft. with an average rise of 5 ft. Ocean-going oil tankers of up to 2,000 tons displacement entering the river from the Sibu end discharge at Sungei Meral Oil Wharf about 3 miles from Sibu.

The largest vessel to use this wharf was the Japanese vessel Nisso Maru of 1,566 gross tonnage, 264 ft. overall length with a draft of 16 ft. Larger vessels using this wharf are not envisaged due to the wharf position and structure.

DOCUMENTS: Port Clearance to be surrendered to Customs when boarding.

Crew lists and passenger lists, 2 copies for Immigration Department, 2 copies for Rejang Port Authority, 2 copies for Customs, 1 copy for Port Health Officer.

List of ship's stores (2 copies for customs).

List of ammunition (2 copies for customs).

Health Documents (Vaccination certificates and Cholera Inoculation Certificates to be examined by Health Inspector).

PILOTAGE: *(a)* Kuala Paloh. Pilots usually embarked off Tanjong Sedi, however, if master requires a Pilot to board at Fairway Buoy he should indicate this in his ETA telegram.

Ship Masters wishing to use Paloh channel should state this clearly in their ETA messages.

(b) Rajang River (Tanjong Mani, Sarikei, Binatang and Sibu). Pilots normally embarked, weather permitting in buoyed channel West of Jerijeh lighthouse but it may be necessary for a ship to follow the pilot launch to sheltered water inside turning buoy. This applies mainly to larger ocean ships calling at Tanjong Mani and smaller vessels on a first visit, but a Pilot may be picked up anywhere to suit provided clear and precise information is given in the arrival telegram. A few of the more frequently requested points are off South Jerijeh Beacon, Rajang Village and for upriver berths, Tanjong Mani itself, or even as far up as Tanjong Delima. The Rajang Pilot launch "Raya" is fitted with "Hague Plan" VHF radio for ship to Pilot communication.

Application for Pilots should be made giving 24 hours' notice of arrival to "Shipping", Sibu or to "Shipping", Sarikei, for Sibu and Tanjong Mani ports respectively. Ships proceeding to Sibu and requiring a Pilot should indicate positively in their arrival telegram which channel they wish to use by adding "Paloh" or "Rajang" in the text, bearing in mind the max. length via Rajang is 200 ft.

ANCHORAGES: *(a)* See "Tanjong Mani".

(b) Sibu Anchorage. Some foreign-going vessels load, with Customs permission, at the mid-stream anchorage when Customs wharf is congested.

(c) Restricted Anchorages.

(i) Abeam of Loba Selemit on the true right bank of the Rajang River in position 02° 08′ 22″ N. 111° 16′ 35″ E. for loading and discharging dangerous goods.

(ii) The Anchorage defined by a line running 045° 2.6 cables from position 02° 16.89′ N. 111° 49.28′ E. on Pulo Kerto, thence 135° 8 cables to position 02° 16.5′ N. 111° 50.4′ E. thence 225° 1.9 cables to shore on Pulo Kerto. For loading and discharging dangerous goods other than petroleum.

(iii) The berth alongside the Sungai Merah Wharf in position approximately 2 miles downstream from the junction of the Rajang/Igan River on the true right bank. For loading and discharging petroleum.

MAX. SIZE: Largest vessel to berth Sibu was 7,372 gross tons and overall length 450 ft.

Deepest drafted vessel to berth Sibu was 22 ft. 6 in.

HEALTH: Every vessel arriving in quarantine shall fly or show the appropriate International Quarantine signal; and no person other than a Pilot, Port Officer, Port Health Officer, Immigration Officer or Officer of Customs shall board the vessel; and no person shall disembark therefrom until the vessel has been cleared by the Port Health Officer.

BERTHING: *(a)* Principal wharves at Sibu.

1. Main wharf 1,500 ft. long (incorporating the former Lighterage Wharf) with min. depth alongside 20 ft.
2. Burong Apu wharf 250 ft. long with a least depth of 17 ft. Used for larger coastal craft.
3. Floating landing stages 576 ft. long with least depth of 4 ft. Used for smaller coastal and river craft.
4. Upstream of the public wharves several private wharves are used for timber and general cargo.
5. Sibu-Sungei Merah oil wharf is "T"-shaped with a berthing face of 73 ft. and a least depth alongside of 15 ft. It can accommodate vessels up to 245 ft. long and 15 ft. draft.

(b) Sarikei. Wharf 198 ft.×30 ft. long, can accommodate vessels up to 2,000 d.w.t. up to 23 ft. draft. There is an old Customs Godown on shore and a new transit shed with total area of 13,600 sq. ft.

(c) Binatang. Wharf 158 ft. long by 20 ft. wide with a least depth alongside of 15 ft. There is a transit shed of 5,300 sq. ft.

STEVEDORES: The Rajang Port Authority provide all labour necessary for loading and discharging at Sibu, Sarikei and Binatang.

REPAIRS: 5 shipbuilding (up to 100 gross tons in size) and repairing yards near Sibu. These deal mainly with repairs to wooden or steel coastal and river craft. 1 yard has a slipway capable of taking vessels up to 500 gross tons.

GENERAL: Small quantities of diesel oil bunkers available, also provisions and fresh water. Principal exports rubber, pepper, timber and sago.

REGULATIONS: The Master of every vessel of over 15 tons about to depart from a port for any place outside Sarawak shall cause the "Blue Peter" (International Code Flag "P") to be hoisted, during day-light hours, for at least 12 hours before the vessel is due to sail, or if the vessel is in port for less than 12 hours, for the period of her stay in the port.

(1) The Master or the Agent of every vessel about to depart from a

port shall, on demand by the Port Officer, produce for inspection the Port Clearance.

(2) The Port Clearance shall be in the form of an endorsement on the form of clearance prescribed under the Customs Ordinance or in such other form as may be approved by the Director.

A vessel arriving in, leaving from or shifting berth within a port shall hoist her signal letters, if any, whilst under way.

AUTHORITY: Rajang Port Authority.

TANJONG MANI, Sarawak: 02.09 N. 111.21 E.

Rejang River entrance. The least depth on the bar remains at 19 ft. The entrance is well lit by two lighthouses and one light beacon and the bar is marked by two light buoys.

Tanjong Mani. This is a deep water anchorage 16 miles from the river entrance, mainly used by vessels loading timber.

Size of vessels using Tanjong Mani limited only by depth on bar. Ten ships can be safely accommodated at anchorage at any time, roughly six large (500 ft. length) and four small (300-400 ft.). So far no ship has been delayed awaiting a berth though eight or nine ships anchored there at the same time is now a regular feature. Vessels up to 29 ft. 6 ins. draft have crossed the bar.

Pilots are normally embarked, weather permitting, in the buoyed channel West of Jerijeh lighthouse but it may be necessary for a ship to follow the pilot launch to sheltered water inside the turning buoy. This applies mainly to the larger ocean ships calling at Tanjong Mani and smaller vessels on a first visit but a Pilot may be picked up anywhere to suit provided clear and precise information is given in the arrival telegram. A few of the more frequently requested points are off South Jerijeh Beacon, Rejang Village and for upriver berths, Tanjong Mani itself, or even as far up as Tanjong Delima. The Rejang pilot launch Layang Laut, is fitted with "Hague Plan" VHF radio for ship to Pilot communication.

Application for Pilots should be made giving 24 hours' notice of arrival to "Shipping", Sarikei.

Anchorage. Abeam of Loba Selemit on the true right bank of the Rejang River in position 2° 08′ 22″ N. 111° 16′ 35″ E. is restricted to loading and discharging any dangerous goods.

SHIPMASTER'S REPORT: According to Pilot the above mentioned anchorage is Rejang Village Anchorage, while the true Tanjong Mani Anchorage is in position 02° 09′ 40″ N., 111° 20′ 50″ E. Our vessel, 26,933 d.w.t. LOA 176.75 m. and draft of 24 ft. 07 in. anchored in position 02° 09.8′ N., 111° 21.2′ E.

TAWAU, Sabah: 04.15 N. 117.53 E. (See Plan Book)

PORT LIMITS: A line drawn from Batu Tinagat on the Mainland to the boundary mark on Sebatik Island between Indonesian Borneo and Sabah (Malaysia) and thence through the island to Burs Point on the Mainland, and thence intersecting all waterways to the West of Burs Point, entering the Serudong River.

DOCUMENTS:

(a) To be Produced on Arrival:

Customs

2 Manifests in prescribed form.
2 Crew Lists.
1 Last Customs Clearance.
2 Stores Lists.
2 Passenger Lists.
2 Arms Lists.

Marine

1 Marine Dept. Boarding Report, required to be completed.
1 Last Port Clearance.
1 Crew List.
1 Passenger List.

Agent

4 (2 for SPA) Manifests in the prescribed form
1 Crew List.
1 Passenger List.

Immigration

2 Crew Lists.
2 Passenger Lists.

Travel Control Office

2 each. Crew Lists and Passenger Lists.

(b) To be Supplied to Ship before Departure:

Manifests, as required by vessel.
1 Port Clearance and 1 Customs Clearance.
3 copies of Passenger List.

PILOTAGE: A Pilot is available from 0600 to 1800 hrs. for berthing vessels given reasonable notice (48 hours). Not compulsory.

ANCHORAGES: Good anchorage in 8 fathoms 1,000 yd. to 1,300 yd. W.N.W. of wharf; and 350 yd. South there is an anchorage in 8.5 fathoms.

Petroleum Anchorage. An area bounded by parallels of 04° 15′ N. and 04° 16′ N. and meridians of 117° 51′ E. and 117° 52′ E. This area is to be marked "Petroleum Anchorage".

Explosives Anchorage. An area bounded by parallels of 04° 12′ N. and 04° 13′ N. and meridians of 117° 52′ E. and 117° 53′ E. This area is to be marked "Explosives Anchorage".

Quarantine Anchorage. An area bounded by parallels of 04° 12.5′ N. and 04° 13.5′ N. and meridians of 117° 54′ E. and 117° 55′ E. This area is to be marked "Quarantine Anchorage".

RESTRICTIONS: *(a)* Communication ship/shore when lying on roads: Regular launch services difficult to arrange if required by Master. No recognised signals for summoning a launch, as distance between small boat jetty and anchorage is too great for flag signals to be recognised. No restrictions against a vessel using its own launch or motor life-boat apart from fact that it must not land anywhere other than at Ports Authority Wharf.

(b) Explosives: No vessel carrying explosives shall come within 500 yards of shore or any other vessel except with written permission of Port Manager which will be given provided that:

(i) quantity does not exceed 2,000 lb. of explosives of Class V and VI and are carried in a certified magazine, and there is no other dangerous cargo on board as certified in writing by the Master.

(ii) quantity does not exceed 3,000 lb. and are exclusively of one of the following classes III, IV or VII.

Danger flag must be flown by day and a red light by night.

HEALTH: *(a)* Quarantine. The Sabah Government are signatories to WHO convention on Quarantine regulations. Port Health Doctor will not board, unless vessel comes from an infected port. Instead Maritime Declaration of Health is to be filled out and handed to Boarding Officer of Marine Department, who will require one copy of crew list and one copy of passenger list. Vessels should cable Agent prior arrival advising last port of call and whether vessel healthy.

(b) Immigration. Immigration officer will board vessel on arrival and clear her inwards. No restrictions on crew and/or passengers going ashore. Immigration will require 2 copies of crew list and 2 copies of passenger list. Vessels are cleared inward until 1800 hours only. If there are special circumstances arrangements can be made to clear vessels inward after this time.

RADIO: Information required prior arrival, ETA Tawau with as much prior notice as possible. Number of gangs required. Quantity of fresh water required.

VHF: A Maritime VHF radio telephone service now operates in the Port of Tawau on Hague Plan Channels 16 and 12.

Continuous listening watch is kept on Channel 16 and the station is operative between the hours of 0600 and 2000 daily.

Vessels are requested to make use of the above facility for notifying ETA, pilotage requirements etc. Berth availability will be notified on vessel's call.

TUGS: No tugs available.

BERTHING: *(a)* Wharf Light at Tawau in position on North-west end of wharf, 04° 14′ 32″ N. 117° 52′ 56″ E.

(b) Tides/Linesmen. The numbers of a vessel which is berthing alongside will be flown from signal station. In addition a cone, indicating tidal stream will be hoisted, pointed end of cone down indicates flood tide and pointed end up indicates ebb tide. Linesmen are on hand to receive a vessel's lines; a motor boat can be hired to assist in berthing if prior advice is given.

(c) New Wharf. Consists of a 220 ft. long approach causeway extending from a reclamation area and a 630 ft. long wharf, 40 ft. wide with a dolphin in line +100 ft. off each end. Least depth 20 ft.

(d) Monsoon. During strong wind from S.E. and S.W. ships are liable to range alongside wharf, and during S.W. monsoon sea breeze may make it difficult for ships to leave wharf in the afternoon.

(e) Buoys: No mooring buoys in Tawau.

(f) Lighters: No lighters available except a few wooden and steel lighters owned by Bombay Burmah Trading Corpn. Ltd. and Borneo Abaca Limited. Hire of these lighters can be arranged when they are not being used by owners, which is seldom.

SPECIALISED CARGO-HANDLING FACILITIES: None. Can handle palletised cargo only.

STEVEDORES: *(a)* Stevedoring in the hands of Sabah Ports Authority who will supply gangs as required.

(b) Working hours 0730–1130 hours, 1300–1700 hours, 1800–2200 hours.

(c) Overtime: Overtime working hours are from 1800 to 2200 hours. Application must be made to Customs one day in advance; double rate charged.

(d) Sundays and holidays: Work normally carried out on Sundays and holidays, the only exception being Chinese New Year. Application must be made to Customs for permission to work Saturday afternoons, Sundays and public holidays.

(e) Rates: General cargo about 8 tons per gang/hour (loading/discharging).

CARGO: *(a)* Special Cargo Regulations: No vessel with dangerous cargo may be alongside after sunset except at discretion of Port Manager. No dangerous cargo may be discharged simultaneously with general cargo except with permission of Port Manager.

Heavy lifts usually landed overside on to flat-top scows. Customs bonded store is available with about 4,000 sq. ft. of space including Customs Liquor and tobacco store. There are no private bonded warehouses to date. There are no facilities for handling or storing bulk cargoes in any quantity.

Livestock: Subject to approval of Veterinary Authority, certain animals including cattle are prohibited imports and exports except under licence.

(b) Damage. Ship's survey should be carried out on all cargo discharged in a damaged condition and Chief Officer should note extent of damage, and sign, certifying same. Cargo coming alongside in a damaged condition should be noted and M/R claused accordingly. Chief Officers are reminded that it is most unwise to load any copra which is rain or salt water damaged.

(c) Tally: Tally clerks can be supplied by Agent if required, on receiving advance notice.

(d) Inward. Inward cargo is tallied out of ship onto wharf or into lighter. Damaged cargo surveyed on the spot, otherwise no liability of the vessel is acknowledged. Discharge carried out after permission has been obtained from Customs after manifest of inward cargo has been deposited. Cargo delivered to consignees against production of relative Bill of Lading. Ship's responsibility to consignees ceases at ship's side, but, in the case of short-landed cargo, reasonable proof must be given to Customs that cargo has not been landed. A short-landed Memo certified by Chief Officer is usually accepted as proof.

(e) Transhipment. After discharge of cargo from first carrier, transhipment cargo is placed under the supervision of the Customs, unless it is possible to arrange direct transhipment into small coastal vessel.

(f) Outward. When vessels berth alongside, packages are brought by motor transport and lighters; when in roads, by lighters.

(g) Refrigerator. Only small quantities of refrigerator cargo loaded or discharged. No formalities or certificates being required other than compliance with normal Customs regulations. Inward refrigerator cargo is confined to foodstuffs, meat, etc., and outward to frozen fish.

(h) Explosives. Explosives must be discharged into lighters or immediately on arrival onto wharf under police escort and transported to an approved police store. A licence for their importation must be obtained from police prior arrival of cargo, and Harbour and Police authorities must be informed of arrival of explosives in port either for discharge, or as through cargo.

TANKERS: Shell jetty, least depth 14 ft.
Also see "Shipmaster's Report".

MEDICAL: *(a)* Hospitals. Government General Hospital is only hospital in town, and will receive any sick seamen or officers. 3 classes of wards, but first class ward can only accommodate 2 persons. Hospital is equipped to carry out normal surgery.

(b) Inoculation. Port Health Officer will vaccinate or inoculate Crew members at General hospital.

(c) Port Health Officer. General Hospital, General Office 73533, 72191. Medical Officer-in-Charge 71206. M.O.'s Residence 72239.

FRESH WATER: Can only be supplied at wharf. 24 hours notice should be given of a vessel's water requirements. Usual rate of supply is about 15 t.p.h. A water barge is available but no guarantee of availability.

FUEL: Not available except diesoline in drums.

FIRE PRECAUTIONS: No fire floats and in the case of a vessel alongside catching fire, the fire brigade should be summoned by dialling 2999. The OCPD should also be informed.

CONSULS: At Kota Kinabalu.

REPAIRS: No facilities.

POLICE/AMBULANCE/FIRE: *(a)* Police/Fire, Tel. 999; Ambulance/Hospital 73533.

(b) Accidents: Hoist a two-flag signal and give a blast of the whistle to call attention of signal station. Police and the hospital should be informed immediately of any untoward incident.

GENERAL: *(a) Surveyors:* Harrisons & Crosfield (Sabah) Ltd., as Lloyd's sub-Agents, may appoint a Surveyor if a survey is requested.

(b) Fumigation: No facilities.

(c) Ship Chandlers: Fresh vegetables obtainable in limited quantities early every morning from vegetable market.

(d) Priority: Vessels are berthed on a "First come first served" basis. Vessels with palletised cargo get priority.

(e) Watchmen: These can be supplied if required.

REGULATIONS: *(a)* Arrival and Departure. The Owner or Agent of every vessel other than a small ship intending to call at a port shall, as soon as possible, and in any case not later than 36 hours prior to the estimated time of arrival of the vessel, give notice in writing to the Authority of such arrival and, if so desired, the requirement for a berth at a wharf.

2. The notice under this regulation shall be in a form prescribed by the Authority and shall contain full particulars regarding the cargo to be discharged and loaded, the embarkation and disembarkation of passengers, heavy lifts, special or perishable cargo, hazardous and dangerous goods (whether to be discharged at the port or not), and any other matters of importance relating to the working or safety of the vessel in the port.

3. The Master of every vessel entering or leaving a port between sunrise and sunset shall cause to be hoisted the national colours and the signal letters, if any, of the vessel. The national colours shall be exhibited from 0800 hrs. to sunset whilst the vessel remains in port.

4. The Master of every vessel arriving from outside the State of Sabah shall exhibit the Immigration and Quarantine signals contained in the First Schedule and shall also at the request of a Customs Officer hoist the Customs signals. Such signals shall remain exhibited until the appropriate officer has given permission for them to be lowered.

5. No vessel shall approach within 600 ft. of any other vessel exhibiting the Immigration, Health or Customs signals.

6. No person other than a Pilot may board or disembark from any vessel until the vessel is cleared inwards and the Immigration, Quarantine and Customs signals have been lowered.

7. Every vessel entering a port shall be anchored or efficiently secured to a wharf or buoy before commencing the loading or discharging of cargo and/or the embarkation or disembarkation of passengers.

8. No vessel shall leave any port unless in possession of a valid Port Clearance issued by or on behalf of the Director of Marine.

(b) Special signals

Significance	*By Day*	*By Night*
Immigration (for ships not carrying passengers)	International code Signal "2 5"	Two green lights, 6 ft. apart, hoisted vertically where best seen.
Immigration (for ships carrying passengers)	International Code Signal "3 4"	Two green lights, 6 ft. apart, hoisted vertically where best seen.
Quarantine (vessel is Healthy request pratique)	International Code Signal "Q"	Nil
Quarantine (vessel is suspect)	International Code Signal "Q Q"	A red light over a white light and a separate hoist of red light over a green light and hoisted vertically 6 ft. apart where best seen.
Quarantine (vessel is infected)	International Code Signal "Q L"	
Quarantine (not received pratique)	Nil	A red light over a white light 6 ft. apart hoisted vertically where best seen.
Request Police Assistance	International Code Signal "S T"	A green light over a white light, 6 ft. apart hoisted vertically where best seen.
Request Medical Assistance	International Code Signal "W"	A red light over a green light, 6 ft. apart, hoisted vertically where best seen.

SHIPMASTER'S REPORT: 1976
Government Oil Wharf:
Position: 04°15.5′ N. 117° 50′ E. 2 miles N.W. of Main Cargo Pier. Least depth in channel from sea to berth — 30 ft. Vessels to be ballasted to 1/3rd deadweight. Density, 1025. Vessel docks daylight only, undocks anytime at any stage of tide. Anchorage 0.5 mile S.W. of jetty. 5 lengths of ship's hose required. Manifold, 10 in. Length of shoreline 3,000 ft. All products handled. Shore booster pump cannot be used. No steam.

Pilot boards at Quarantine Anchorage. 48 hours notice required. No tugs available. Accommodation ladder required for Quarantine but not at berth.
Fresh water available ex-barge. Other services available. Fresh provisions, repairs, Machine Shop, Airport, Lloyd's Surveyor, Telex, Doctor, Hospital, Laundry, Groceries and Meats. No slop tanks.

AUTHORITY: Port Manager, Sabah Ports Authority.

AGENT: Harrisons & Crosfield (Sabah) Ltd., Dunlop Street. Telegraphic address: "Crosfield". Tel. Manager 72624.

NOTES

Please also advise Shipping Guides Ltd.

Malta

VALLETTA: 35.54 N. 14.31 E.

DOCUMENTS: Pratique deposition to be filled by Master on arrival, form supplied by the boarding Customs Officer. 3 Crew Lists. 2 Bonded Store Lists and 1 list of dutiable items belonging to crew on arrival. 3 Passenger Lists.
PILOTAGE: Compulsory. Pilot boards at Fairway Buoy weather permitting. Pilot available at all hours for small ships, daylight hours for large vessels. Sea Pilot berths vessel for civil berths, Malta Dry Docks or Buoy Berths. In bad weather Pilot boards inside entrance. Vessel's ETA should be given to Agent at least 12 hours' prior arrival to order Pilot. Pilot boat located near Customs House. Pilot boat not equipped with VHF.
ANCHORAGES: Sea anchorage off Grand Harbour. To East of line, Fairway Buoy to entrance, medium to poor holding ground. To West of line, holding ground excellent.
RESTRICTIONS: Min. depth entrance channel (over wreck) 52 ft. Harbour channels – Bighi Bay 58 ft., French Creek 43 ft., Marsa 32 ft. Nature of bottom entrance channel rock and mud. Harbour channels mud. Harbour entrance and approaches affected by current – in N.W. winds there is a set of up to 0.5 knot from N.W. to N.E. Port is subject to closure in gregale (N.E. gale) conditions – Winter months occasionally, not more than 4 times a year.
MAX. SIZE: Discharging Berths – New Quay.
Berths 1, 2, 3. Min. water depth alongside berth 32 ft. Max. length acceptable 350/400 ft. Max. draft acceptable 30 ft.
Berth 4. Min. water depth alongside berth 32 ft. Max. length acceptable 550 ft. Max. draft readily acceptable 30 ft.
HEALTH: Port Medical Officer grants pratique when boarding on arrival. Accelerated pratique can be granted through Pilot provided crew all in good health and ship has not called any infected port during last 15 days, and is coming from a European port.
RADIO: Radio call sign 9HD. Radio telephony working frequency 2625 kHz. Listening watch 2182 kHz.
RADAR/VHF: No radar service available. VHF available by Malta Dry Docks. Frequency 156.8/156.55/157.9 Mc/s. Call sign Malta Dry Docks. Range 10 miles. Master can call signal station on VHF Channels 16 or 12.
TUGS: Join vessel just inside harbour entrance. Lines at discretion of ship's Master.
BERTHING: No specific requirements necessary. Can berth at any time but subject size of vessel and weather conditions. Ro/Ro and container facilities available.
CRANES: 1×60 ton floating crane, 1×60 ton mobile crane, 1×20 ton mobile crane. Additional mobile cranes with capacity up to 15 tons.
STEVEDORES: Ordered by Agents. At least 24 hours notice required.
MEDICAL: Notice must be given to Agent soon as possible to make necessary arrangements. Hospital facilities available. Crew must be in possession of inoculation/vaccination certificates, etc.
TANKERS: Vessels must be gas-free except at tank-cleaning berth, where ships with not more than 2 tanks gas free are allowed. Slop (residue) discharging facilities available. No. of tanker berths: Parlatorio Wharf (Navy) Max. draft 35 ft.; max. length 650 ft. Marsaxlokk – has Saptan Dolphin (Navy) max. draft 34 ft.; max. length 650 ft.
FRESH WATER: Unlimited amount ex barge between 20 to 80 t.p.h. 24 hours notice required.
FUEL: Bunker Berth – Sea Malta Co. Ltd. at new quay. Grades handled include MFO. MDO. TFO. GO. Max. draft 32 ft. 48 hours notice required. Bunkering berth also used for discharging cargo and available when not occupied by discharging vessel.
FIRE PRECAUTIONS: Precautions according to Petroleum Ships Regulations. Civil tugs partly equipped with fire fighting equipment but not well trained.
GANGWAY/DECK WATCHMEN: Not compulsory but recommended.
OPENING/CLOSING HATCHES: Opening by stevedores. Closing of hatches by crew. Stevedores can close hatches at extra cost.
CERTIFICATES: Ship's Register; Load Line Certificate; Derat Certificate.
IDENTIFICATION CARDS: Not needed.

CUSTOMS ALLOWANCES: 200 cigarettes allowed for each crew member. Wine and/or Spirit, None to crew except Captain, at Customs' discretion.
CARGO GEAR: Factory Act Book for Cargo Gear. Cargo work cannot commence unless certificates valid.
REPAIRS: All types of deck and engine repairs possible.
DRY DOCKS: Malta Dry Docks Corp. operates 5 dry docks up to 861 ft. length, 130 ft. 6 in. wide.
Red China Drydock under construction. Capacity 300,000 d.w.t. Lenght 360 m. Width 62 m. and depth 10.72 m.
SERVICES: Tank cleaning and underwater hull cleaning undertaken by Malta Dry Docks Corp.
REPATRIATION: Facilities exist for crew changes and repatriation by air.
AIRPORT: 4 miles from port. Served by British Airways, Alitalia and Air Malta daily to London and Rome.
TIME: GMT plus 1 hour in Winter. Summer time kept from April till September.
HOLIDAYS: New Year (1st January); St. Paul's Shipwreck (10th February); St. Joseph's Day (19th March); Good Friday (no work performed at all on this holiday and in the afternoon of Tuesday Carnival); St. Joseph the Worker (1st May); Ascension Day (date changes); St. Peter and St. Paul (29th June); Assumption of B.V. Mary (15th August); National Day (8th September); All Saints Day (1st November); Immaculate Conception (8th December); 13th December (Republic Day); Christmas Day (25th December) (no work performed at all).
POLICE/AMBULANCE/FIRE: Police 26934; Ambulance 21251; Shore Fire Brigade 24001.
TELEPHONES: Can be arranged in Dry Docks berth, and on buoys.
GENERAL: Important that tankers are gas-free before entering, and that cargo vessels do not carry explosives.
AUTHORITY: Superintendent of Ports, Valletta.

AGENT: Kirton & Co. Ltd. 38 Lascaris Wharf, Valletta, Malta. Telegraphic address: "Kirton", Valletta, Malta. Tel. 624360. After hours 20599 or 26388. Telex MW 241. Sole and exclusive Agents for Lambert Brothers Ship Agencies Ltd.

Marianas Islands

GUAM, (Apra Harbour): 13.26 N. 144.39 E.

DOCUMENTS: Guam is part of the American Trust Territories in the Western Pacific and official documentation is as for mainland U.S. ports, including visaed crewlist completed at port of departure prior to Guam. Vessels should have a stock of American Crew Lists Form 1-148 and Form 1-95A. The American Alien Crewman Landing permit is acceptable and preferred. This is the plastic identification card previously issued on the U.S. coast.

Required on arrival:
- Vaccination Cards.
- Visaed Immigration Crew List.
- 4 Crew Lists.
- 4 Passenger Lists.
- 1 Store List.
- Clearance from last port.
- Cargo papers.

Have ready Immigration Form 1-94 for each passenger and Form 1-95A for each alien unless they have 1-184 plastic Identification Card. Shore Passes not required. Crew Customs Declaration not required.

PILOTAGE: It is advisable to have on board U.S. charts for Guam: C & GS 4197 Apra Harbour. 4198 Guam Approaches.

Pilot usually boards at Quarantine Anchorage, or just inside breakwater. When requested will board outside, weather permitting. Pilot mandatory in Inner Harbour. Pilot available at all times.

ANCHORAGE: Harbour -range 084° True, 2 green lights. Strong set across harbour entrance, Navy recommends 10 knots entering. Quarantine Anchorage at Middle ground, Outer Harbour, depth 45 ft.

RESTRICTIONS: The Harbour Master of the Port Authority of Guam, is in complete control of the approaches to Guam and it is essential to obtain clearance and permission to enter Guam from "Harbour Master" Port Authority, call sign KUF–810 at least 24 hours prior to arrival. Permission is readily granted with the condition to request permission again two hours prior to arrival at Guam. This time from Guam controls, call sign KUF–810 and NRV (USCG).

HEALTH: If from suspect port, Inspector boards at anchorage or at pier for thorough check. Grants Pratique.

RADIO: Harbour Master Radio Station, call sign KUF–810 ship/shore watching 24 hours. Use of USCG Station "NRV" for best service if unable to reach KUF–810 due to limitation of range. Prior to arrival call Channel 16 upon approaching Alpha Hotel (VHF) for further instruction giving ETA (account harbour traffic).

VHF: Masters of vessels approaching should keep watch on Channels 16 and 13.

BERTHING: Vessels may berth Port or Starboardside upon request of the Master or Agent at F–3, 4, 5 except F–6 Portside to 1 large tug and 1 small tug normally used. Ship's gangway is required. Local information from Pilots states that after completion of this oil berth, a submerged wreck was discovered, said to be a 500 ft. long cargo vessel, and lies across and below the vessel in this berth, on the Eastern side of the jetty. It is advisable not to drop anchors -should they have to be used – until vessel has passed over the wreck. There have been instances of forward springs or breastlines becoming fouled in this wreck during operations.

HOSES: 4×10 in. flexible hoses connected by ship's crew. 2×20 in. lines.

IMMIGRATION:

1. *Prior to Departure for Guam:*
   - A. Visaed Crew List: Prepare 1 Crew List on U.S. Form 1-418 and have it visaed by a U.S. Consulate at a port prior to Guam. Without this, crew shore leave may be denied.
   - B. Passengers must have a valid passport and also must have an appropriate U.S. Visa whether landing or not on Guam.
   - C. Intransit passengers do not need U.S. visa if the Owners of the vessel have signed a contract called "Immediate and Continuous Transit Agreement" with the Commissioner of Immigration at Washington, D.C.
   - D. Obtain a supply of U.S. Form 1-84 for passengers and U.S. Form 1-95 for Crew.
2. *Prior to Arrival at Guam:*
   - A. Passenger List, Form 1-418 prepare 3 copies of Passenger List on U.S. Form 1-418 for Immigration, Customs and Agent.
   - B. Passenger Landing Card Form 1-94 these to be presented by passenger with passport.
   - C. Crewmen's Landing Permit Form 1-95A prepare or have on hand 1 U.S. Form 1-95A for each alien crew member. Not required if crew member is a permanent resident with U.S. I-184 laminated "*Crewmen's Landing Card*", not required of U.S.A. Citizens. Please present Form I-95A in appropriate Seaman's passport or identification book. Form I-95A can be used repeatedly for future arrivals of same crewman on same ship.
3. *Upon Arrival at Guam:*
   - A. U.S. Federal Immigration Inspector boards upon arrival at pier, must see all passengers with their passport and Form I-94 and all crew members with their passport or identification books and Form I-94A or Form I-184.
   - B. Passengers and crew are required to be ready for inspection immediately upon docking at Guam.
   - C. No shore leave and no mail distributing and no visitors or stevedores may board until this Immigration inspection is complete. The Inspector will advise Master when he has completed his inspection of passengers and of crew.
4. *Prior to Departure from Guam:*
   - A. Intransit Passengers: pick up from intransit passengers the Form I-94 and hand to Agent before departing from Guam. These must be returned by Agent to U.S. Immigration as passenger departure records.
   - B. Alien crew member joining at Guam pick up from them the Form I-94 which they used to enter the U.S.A. These must be returned to U.S. Immigration by Agent as permanent records.

SECURITY: Guam Government Official usually boards at pier, examines vaccination cards (smallpox vaccination required) and inspects Steward's stores and slop chest. Also represents U.S. Customs. Requires 1 Crew List, 1 Passenger List, 1 Store List, Clearance from last port, later issues new clearance from Guam which Agents bring to ship. Normally does not seal stores or slop chest.

MARINE GUARD: Required when docked at Ammunition Pier, requires Crew List.

U.S. COAST GUARD: Marine Inspection and Shipping Commissioner Services. Requires 1 Crew List. Checks official log book and arrival draft.

FUEL: Mobil Petroleum can supply black oil or truck diesel, but no marine diesel. Requires ship move to their pier, no commercial fuel barge. Unable supply fuel while Ammunition vessel or Bulk Cement vessel working. Possible to supply by truck/trailer to other piers. Navy special (Black Oil) and marine diesel available from Navy on emergency basis only, sufficient to reach next bunkering port. Cash payment required in advance of delivery. Will not normally supply commercial vessels. Navy barge available.

FRESH WATER: Very good, available any quantity, meter service. No water barge.

STORES: No ship chandler, order through Agent. Available but considered expensive. Produce from U.S.A., Milk is recombined in quart cartons, White, Chocolate or Buttermilk. Order milk day prior to delivery. Tropical fruits seldom available. Ice in blocks or cubes. Prices wholesale, except under 1 case lots when at retail. Delivered to ship's gangway or hook.

LAUNDRY: Also dry-cleaning available, U.S.A. prices. 1-day service extra. Delivered to ship's gangway or hook.

MEDICAL: Foreign ships use Guam Memorial Hospital or Catholic Medical Centre or other clinics in town. American ships use U.S. Naval Dispensary in Harbour area, or in emergency U.S. Naval Hospital near Agana, 10 miles distant. Certificates required signed by Master. Patient returns to vessel by taxi at vessel's expense. Dispensary Hours for merchant seamen Monday to Friday 0800-1500 hrs. At other times, if emergency, use the U.S. Navy Hospital. Doctors will not normally visit ships.

Dentists: Private dentists only. Usual hours 0900-1700, Saturday to 1200 hrs.

REPAIRS: Commercial Yard, Dillingham Maritime Services Yard available. Navy Yard, repairs by U.S. Naval Ship Repair Facility (SRF), subject to prior Navy commitments, and requires cash deposit in advance. Payment to be made for work done successfully or not. "No Cure No Pay" does not apply.

TIME: G.M.T. plus 10 hours. When on Daylight Saving Time, G.M.T. plus 11 hours.

POLICE/FIRE/AMBULANCE: Ambulance U.S. Naval Dispensary, Harbour Area, 339-4224/4227; Fire, 22222; Police – Naval Station Security, Harbour Area, 333-2968; Police – Guam Civilian Police, Agana 777-9611

AUTHORITY: Harbour Master, Port Authority of Guam.

NOTES

Martinique

FORT DE FRANCE: 14.36 N. 61.04 W.

(See Plan Book)

PORT LIMITS: The straight lines joining Pointe des Negres, the South extremity of Fort St. Louis and Pointe d'Alet.

DOCUMENTS:

Maritime Declaration of Health.
4 Crew Lists.
2 Provisions Lists.
2 Lists of Passengers in Transit.
5 Lists of Passengers Disembarking.
2 Lists of Crew Personal Effects.
2 Vessel's Particulars Declarations.
2 Cargo Manifests.

PILOTAGE: Call Pilot by International Code flag "G" or by sounding "G" on whistle. Pilot launches are painted black. The Pilot joins vessel on arrival at Pointe des Negres. If Pilot not available, vessel must anchor in the Baie des Flamands East of Point des Negres to await Pilot.

ANCHORAGE: In Baie des Flamands in front of the town. Depths of 10—14 m.

MAX. SIZE: Length 190 m. Draft 10 m. See also "Tankers".

Quay	*Max. Draft*
Quai Quest	7.50 m.
Quai Quest Tableau	6.00 m.
Quai des grands cargos	7.50 m.
Darse	7.00 m.
Annexes	8.00 m. Aft. 6.60 m. Forward
Tableau Tourelles	8.00 m.
Tourelles	9.15 m.
Hydrobase	9.15 m.
Batellerie	4.80 m.
Appontement des Carrieres	15.00 m.

HEALTH: Request free pratique by radio or can be obtained on arrival when Master completes Health Declaration and presents Health Certificates.

RADIO: Fort de France Radio, call sign FFP. ETA message to Agent required 24 hours before arrival on working days or 48 hours on holidays. Message to include number of crew on board.

TUGS: None available.

BERTHING: Alongside quay. Max. depth 10 m. Roll-on/roll-off berth operational.

MEDICAL: Doctor and hospital facilities available.

TANKERS: *Petrol Pier:* depth alongside 17 m., can accommodate tankers up to 65,000 dwt. Crude discharge through 2×12-in. Chiksan Arms, capacity 4,500 t.p.h.

Vessel's displacement is limited by strength of the dolphins.

Refinery Berth: depth alongside 7.50 m. for loading products, fuel, gas oil, kerosine at a rate of 150 t.p.h.

DENSITY: About 1028.

FRESH WATER: Available from quay in unlimited quantity. Rate 50-80 t.p.h.

FUEL: All grades available subject to 12 hours advance notice.

GANGWAY/DECK WATCHMEN: Recommended. Performed by Crew members.

OPENING/CLOSING HATCHES: Can be performed by crew.

CUSTOMS ALLOWANCES: 200 cigarettes per man. All alcohol to be declared.

IDENTIFICATION CARDS: Not necessary.

CONSULS:

Belgium
Colombia
Cuba
Denmark
Germany
Haiti
Italy
Netherlands
Norway
Panama
Portugal
Spain
Sweden
U.S.A.
Venezuela

REPAIRS: Minor repairs possible.

DRY DOCK: 1×200 m. length, 21 m. wide. Equipment restricted.

REPATRIATION: Facilities for crew change and repatriation.

AIRPORT: 7 miles from the port, served by regular airlines.

HOLIDAYS: 1st January, Shrove Tuesday, Ash Wednesday, Easter Monday, 1st May, Ascension Day, Whit Monday, 14th July, 15th August, 1st November, 25th December.

POLICE/FIRE/AMBULANCE: Police, tel.: 17 and 43-06; Fire/ Ambulance, tel. 18 and 22-64.

AUTHORITY: Capitainerie du Port.

NOTES

Please also advise Shipping Guides Ltd.

Mauritania

NOUADHIBOU: (Port Etienne):

POINT CENTRAL: 20.49 N. 17.03 W.

PILOTAGE: Compulsory for vessels calling at Point Central.

An outer pilot station is situated in the vicinity of No. 2 Buoy, bearing 037° distance 4.4 miles from Fairway Buoy No. 0 (position LAT= 20° 40′ N., Long. 17° 04′ 30″ W.). Also see "Shipmaster's Report (1977)".

The inner pilot station is 1 mile from the mineral wharf bearing East.

DOCUMENTS:

3 Crew Lists.
2 Store Lists.
2 Crew Declaration Lists.
2 Passenger Lists (even if "NIL").
2 Ports of Call Lists of the last 30 days.
1 Health Declaration.
1 Vaccination List.

Maritime Gendarmerie: Officers of the Maritime Gendarmerie of Nouadhibou may come on board. They mainly control if the Mauritanian flag (must be flown day and night) is hoisted and check very closely the concordance between the Ship's Articles, the Seamen Books and the Crew List.

If any difference is found between these three documents a fine may be given to the ship.

Immigration/Police: Crew members are not allowed to go ashore without a safe conduct given by the police. The list of the men asking to go ashore has to be given to Agent on arrival.

Money: On principle, the foreign money is not allowed in Mauritania, but Agent may change money into local currency.

No Mauritanian money (Ouguiya) may be kept on board and if the crew have not spent their local money they have to give it back to the Agency (100 Ouguiya about £1; 100 Ouguiya about 1 Fc.).

ANCHORAGE: Ships waiting can anchor N.E. of No. 2 Buoy, distance 1 mile in 20 m. of water, good holding ground. Another anchorage on the roadstead, the wharf bearing N.W./N.N.W. distance 1 mile can be used by ships prior to berthing.

RESTRICTIONS: Minimum depth of water below chart datum is 17 m. in the buoyed channels and swinging area. Outer channel width is 400 m. but it varies from 250 to 400 m. for the inner channel; the radius of the swinging circle being 500 m.

Shipmaster's Report: Daylight sailing only.

MAX. SIZE: Not to exceed 310 m. in length and 47 m. in breadth, the extreme reach of the shiploader arm being 28.5 m. from ship's side. At the limit an extreme breadth of 48 m. could be accepted after advice from the DCFP. If possible drawing should be sent prior to acceptance.

The recommended draft for large vessels in ballast, or partially loaded is 12 m. on arrival. Smaller ships should have on board a quantity of ballast equal to half their cargo capacity.

Maximum freeboard under shiploader arm is 14 m. With hatch covers opening crosswise (abreast) the maximum freeboard must be understood as the height from sea level to the upper part of hatch covers.

On departure a draft of 15.85 m. is usually admitted but 16.15 m. is accepted according to the stage and range of the tide at the time of sailing.

Essential: All vessels greater than 100,000 d.w.t., which have never visited the port before must have prior approval of the DCFP.

HEALTH: Free pratique is usually granted after vessel has berthed. Smallpox and yellow fever vaccination certificates required.

TUGS: None available.

BERTHING:

Mineral Wharf: The ore loading terminal of "Societe Nationale Industrielle & Miniere" de Mauritanie (SNIM) is located at mid distance between the Cap Blanc and Nouadhibou, geographical position: Lat 20° 49′ N., Long. 17° 02′ W. It consists of a platform, 20 m. wide oriented North and South, resting on 8 big dolphins, 13 m. in diameter each and 32 m. distant one from the other. The platform supports a conveyor belt and one single shiploader. The maximum travel of the shiploader from one end of the rails (railway) to the other is 165 m.; the virtual loading capacity would be 5,000 t.p.h. while the actual output varies from 2,000 to 3,000 t.p.h. according to ship's size and on condition there is only one quality and grade of ore to load.

To maintain a depth below LLWT (lowest low water astronomical tides) of 16 m. at the berth, ships are laid against 2 big outrigger pontoons leaning on the dolphins and protected on the ships side by heavy but efficient rubber rollers acting as shock-absorbers.

Ships are generally made fast port side to the quay, coming alongside with the help of the anchors which should be kept at the ready.

TANKERS: *Oil Wharf:* It consists of a light platform placed on top of 3 dolphins of the same diameter as above but 64 m. apart, adjoining the mineral wharf to the Southward. A wooden decking supports the oil pipes which are connected abreast of dolphin No. 10 to the tanker lying portside to the quay, the stern is made fast to a mooring buoy.

DENSITY: Point Central 1026–1027.

FRESH WATER: Not available.

FUEL: Not available at the moment. An oil refinery is being built and production should start in 1978.

MEDICAL: There are hospital and medical facilities at the port.

CUSTOMS: Regulations are very strict, and a careful declaration of all bonded stores must be made before berthing. Ships have been fined for quantities in excess or missing even when small.

GENERAL: (a) Radiotelegrams stating the date and ETA at pilot station and addressed to Snim-Cominor Nouadhibou should be transmitted 72 and 24 hours beforehand via Nouadhibou coast radio station (5 TA) working hours 0800 – 1800 or Dakar (6 VA) hours: continuous.

Shipmaster's Report 1977: Telegrams to Agents through Dakar Radio 6 VA only.

(b) It is of interest to pilots when coming on board, to know whether the ship is powered by a steam-turbine or diesel engine whether the propeller is left or righthand and if it is a variable pitch propeller, how she behaves when the engine is running astern.

GANGWAY/DECK WATCHMEN: Recommended as stowaways try to board at night.

SHIPMASTER'S REPORT: (1975), Vessel 169,000 d.w.t.

Iron Ore Marine Loading Terminal:—

Approach to Cap Blanc and Baie du Levrier: Approach was from the Southward. From Dakar the course was laid to cross the 100 fathom line at 20° 04′ N. 17° 41′ W., this being a precipitous shelf, when crossed with D.F. bearings from the Radio Beacon at Port Etienne gave a reasonable fix. Vessel than steamed across the main flow of North/South traffic at quite a broad angle heading for the landfall buoy 6 miles West by South of Cap Blanc. A dense concentration of fishing vessels extending Westwards from Banc Vilmorin offered little hindrance to our landfall. the light of Cap Blanc lighthouse was visually observed in the pre-dawn darkness at 26 miles and radar contact of Cap Blanc was established at 23 miles. The landfall buoy fitted with a radar reflector, gave radar contact at 15 miles.

Pilotage: A Pilot boards in the vicinity of No. 2 Fairway Buoy from a black-hulled, white superstructure, 40 ft. high-speed motor launch with "Pilote" written on the side. VHF contact is made on Channel 16, working frequency Channel 14. Call "Nouadhibou Pilot". The Pilot, a Frenchman, had a good understanding of English and proved to be very competent. The transit inwards and through the Passe du Levrier was at half speed but the last mile towards the berth only an occasional Dead Slow ahead movement was made to maintain steerage way.

Tide/Currents: Berthing for large vessels is on the ebb tide with a Southerly set of about 1 knot. South of the headland the set is to the Eastwards again about 1 knot i.e. directly across the channel. Unberthing is made on the flood tide setting Northerly along the jetty again about 1 knot. Rise and fall is in the region of 1.6 m.

Wind: Ranges from North by West to North by East (May). During darkness it abated to about Force 3 but from early morning through to sunset gusted up to Force 6 causing a short steep sea to run. The Pilot stated that in August and September Easterly winds often occurred hence the placing of 2 mooring buoys about 1 cable off the berth to assist vessels warping clear when leaving.

Tugs: None available.

Quay: Stout cylindrical rubber fenders are chained to the sides of 2 floating pontoons laying to the quay face. An adequate number of bollards are placed along the length of the quay. 3 dolphins, connected by a catwalk, extend the Southern length of the quayside for ship mooring purposes.

Moorings: When approaching and lying off the jetty 2 motorized mooring boats will run ashore 1 synthetic fibre rope (no wire ropes at this stage) from forward and 1 similar rope from the Poop. Vessel is then to warp alongside with these 2 lines aided by helm and small engine movements. Once alongside a spring from the after extremity of the Poop is to be sent away and a forward spring. Vessel secured to the berth with 1 headline to a mooring buoy North of the jetty, 3 forward breast lines, 1 forward spring, 2 stern lines, 2 after breast lines 1 spring from the Poop, and 1 spring from the normal position on the after deck.

Gangway: The accommodation ladder could not be used because of the space between the pontoons lying between ship's side and the quay. A pilot ladder was the means of access to the after pontoon from which access could be obtained to the quay.

Depths alongside: At the first low water soundings were taken around the ship and when reduced to chart datum — obtained from a monthly tide table loaned by the Pilot – a least depth of 15.6 m. was sounded 45 m. East of the quay about 100 m. South of the quays Northern end. A least depth of 16.2 m. was found on the inboard side with depths generally about 18/19 m. elsewhere.

Draft: Maximum permitted for berthing 12 m. Maximum permitted draft for sailing is 16.16 m. (53 ft.) on high water or 52 ft. at any state of the tide.

Airdraft: Maximum 14.5 m. In our case several thousand tonnes of hold ballast had to be taken once secure alongside, this delayed loading for 5 hours.

Shiploader: This is a single conveyor belt fed gantry having a range of travel of 165 m. along the quay but the loading arm has no facility to slew horizontally. It can only be luffed in the vertical plane. The maximum outreach was stated to be 23 m. which combined with the airdraft limitation of 14.5 m. made it extremely difficult to plumb the centre of the holds. For the majority of our loading period the ship had a port list (this was exaggerated by the free surface effect of the 4 ballasted holds). To keep the loading arm from fouling the ship's structure and assisting the arm to plumb centre all the port side side-rolling hatch lids were only partially opened.

Shifting: This had to be done on 2 occasions but was successfully achieved by hauling on the 2 spring wires aft and 1 headline to warp a distance of 6 m. forward and heaving on the forward spring and stern lines to warp 26 m. aft. The shifting was necessitated by the fact that the distance centre to centre of our extreme loading hatches was 191 m.

Agency: This was conducted by SNIM, Societe Nationale Industrielle & Miniers, their telegraphic address is "Snimport – Nouadhibou".

Documents: Required are:

4 Crew Lists.
2 Store Lists.
2 Crew Declaration Manifests.
2 Vaccination Lists.
3 Passenger Lists.
3 Ports of Call of the Last Month Lists.
2 Ballast Manifests.

The latter 3 lists can be made on 1 sheet of paper (in triplicate). No Maritime Health Declaration was asked for. All these documents were passed to the Agent, no Customs, Port Health, Immigration or Police visited the ship. Although some crew members were without Yellow Fever vaccination certificates this posed no problem, with the Agent, he declared no vaccinations can be done here. Nor can the De-rat Exemption Certificate be renewed.

Port Restrictions: The Agent warned that crew members could not use pounds sterling, U.S. dollars, Dutch guilders or other foreign currency ashore for fear of confiscation by the "authorities". The local currency is the Ouguiya, 100 of which are on par with £1 (approx.).

Port Capacity: The pilot stated previous largest ships had been:
(i) *"Atland"* Obo Swedish 84,229 g.r.t.
(ii)*"Thor"* Bulk German 79,270 g.r.t.
(iii) *"Lilyprima"* Obo Italian 72,68 g.r.t.

However, our claim to be the largest vessel to call being 169,080 d.w.t. is unsubstantiated. The Agent claims a shipment of 139,000 metric tonnes is the largest cargo exported from the port.

Loading Rate: The installation foreman claimed a rate of 4,000 t.p.h. Our rate, allowing for the frequent short stoppages, was 2,813 t.p.h.

Ore: The grade "Siliceous Iron Ore Fines XBF" was extremely dusty. About 10 grades of ore are available from 3 different mines.

Water Density: From our observations at low water 1024 ozs. cu. ft. and at high water 1025 ozs. cu. ft.

Cargo Figures: All tonnages quoted this port are metric tonnes. Ship's figure was about 1,300 tonnes less than the shore quantity, however, the ship's figure was accepted and the foreman stated the shore installations were usually 1% high of the ship figure. Ship was loaded to the maximum draft of 53 ft. but a great deal of difficulty was experienced reading the draft due to the seaway.

Unberthing: This was carried out on the flood tide and only during daylight. Single up to the 2 spring wires aft, using small astern movements and helm movements which aided by the anchor will cant the head from the quay. When the anchor is aweigh, slip the springs and steam ahead of the jetty then using full ahead power and starboard rudder followed by full astern power the vessel is swung well within the turning area to head seawards.

Depths in Channel: Except for the area of the channel abreast Cap Blanc lighthouse where less than 1 m. beneath the keel the remaining parts of the channel showed 3-4 m. underkeel clearance.

Conclusion: It would appear impractical to enter ships of a larger physical size than ourselves at this port because of airdraft/outreach limitations, draft restriction and manoeuvrability problems. Although we were fortunate in having a trouble-free berthing and unberthing procedure serious problems could be foreseen if a vessel had a main engine failure or a sudden deterioration of the weather occurred during these manoeuvres.

Copy of notice received from SNIM Agents Nouadhibou:
To avoid any problem with the Authorities, kindly note the following instructions:

Documents required on arrival:
4 Crew Lists
2 Store Lists
2 Crew Declaration Lists
3 Passengers Lists (even "Nil")
3 Ports of Call Lists of the Last Month
2 Manifests "In Ballast"
1 Health Declaration
2 Vaccination Lists

Customs: The Mauritanian Customs Officers check very closely the provisions on board. Any difference (more or less) may lead to a fine including the confiscation of the excedent goods. Then please give on arrival to your Agent lists of provisions strictly exact.

Maritime Gendarmerie: Officers of the Maritime Gendarmerie of Nouadhibou may come on board. They mainly control if the Mauritanian flag is up and check very closely the concordance between the Ship's Articles, the Seamens' Books and the Crew List. If any difference is found between these 3 documents a fine may be given to the ship.

Immigration/Police: The crew members are not allowed to go ashore without a safe conduct given by the police. The list of the men asking to go ashore has to be given to your Agent on arrival.

Money: On principle, foreign money is not allowed in Mauritania, but your Agent may change your money into local currency. Non-Mauritanian money (Ouguiya) may be kept on board and if crew has not spent the total of their local money they have to give it back to the Agency (100 Ouguiya = £1) (10 Ouguiya = 1 Fc.)

SHIPMASTER'S REPORT: (1977). The landfall buoy 6 miles West-by-South from Cape Blanco does not exist. Buoy No. 0 approx. position 20° 40′ N., 17° 04.7′ W. has been removed.

SHIPMASTER'S REPORT: (June 1978). The following is a brief account of the port which is in addition to the information supplied in the "Guide", which may be read as being correct. The port, formerly Port Etienne, is in Mauritania, I found travellers are afforded every courtesy. There are two flights per week from Paris via Air Africa who are very good. The flights arriving here on Tuesday and Thursday. The plane returning from Dakar Wednesday and Friday. Spare parts can be landed here and taken out to the ship with minimum of Customs formalities though it would prove to be an expensive exercise. It must also be pointed out that it is not always possible for the plane to land here due to high cross winds and resultant sand storms at the runway, in which case the plane then proceeds to Dakar direct.

Custom Authorities are most interested in the amount of foreign currency brought in as there is a strict levy on this, care must be exercised in this respect. They are also most interested in the stores on board the ship and these must be strictly accounted for precisely.

The town itself of which I did not visit is a separate community from the mining town itself. The mining town itself is self-sufficient and both French and Mauritanians live here. There is a hotel, which is practical and clean with reasonable food. There is also a club with tennis courts, a post office, power station and cinema and a hospital where major surgery can be carried out. There is also an oil refinery which is uncompleted. Refined products are imported via a modern berth. Bunkers and fresh water are available here but in limited quantities and I would imagine costly.

There are no tugs. According to the Agent wireless telegraphy may be used alongside the berth although there is a Telex ashore. I found the Agent to be most helpful.

I was assured that seamen joining or leaving here do not require a visa only a passport and discharge book are required, of which I personally was never asked to produce.

The iron ore mine is approximately 650 miles from the loading berth, all the ore coming by rail and attacks are frequent by bandits and guerillas. This can cause lengthy delays to the ship as very little ore is stockpiled.

Loading is carried out by one loading arm which pours approximately 4,000 tonnes per hour. Weights loaded can be measured ashore and have proved to be quite accurate, however it is normally the practice to accept the ship's figures.

AUTHORITY: Societe Nationale Industrielle et Miniere (SNIM).

NOUADHIBOU HARBOUR: 20.54 N. 17.03 W.

LOCATION: Position of Trading Port 20° 53′ 48″ N., 17° 03′ 10″ W.

PILOTAGE: Not compulsory, effected by SNIM/Cominor. Pilotage not available at night.

RESTRICTIONS: Depth of buoyed Channel 24 ft. Anchorage strictly prohibited in the Channel.

TUGS: One tug, 150 h.p.

BERTHING: Pier of 115 m. length connected to shore by a 150 m. long bridge.

Outside general berth for ships with a 24 ft. draft and a 160 m. max. length. According to certain vessel's accommodations, the extreme hatches cannot be discharged through quayside.

Inside berth for ships with a 15 ft. max. draft and a 80 m. max. length.

The maximum payload authorised on the bridge connecting the pier to the warehouses and the storage areas being limited to 10 tons, all heavy lifts over 10 tons are to be compulsorily discharged on lighters.

Lighterage Piers: Southern quay = length 80 m; depth 10 ft. Western quay = 150 m; depth 10 ft.

The Southern quay is connected to SNIM/Cominor railroad network, allowing the loading of heavy lifts on railcars.

2 covered sheds: totally 3,500 sq.m.

1 area with macadamized roads offering 30,000 sq.m. of storage connected to SNIM/Cominor railroad system.

Lighterage: Compulsory for any ship whose characteristics do not allow a safe berth.

Compulsory for any loading or unloading of heavy lift over 10 tons

Not compulsory in case berths are occupied and if manpower and equipment are still available.

STEVEDORES:

Working Hours. Normal hours: from 0800 to 1200 and 1400 to 1800 on Monday to Friday.
From 0800 to 1200 on Saturday
Overtime: from 0700 to 0800 hrs., 1200 to 1400 hrs. and 1800 to 2000 hrs. on Monday to Friday.
From 1200 to 2000 hrs. on Saturday
From 0800 to 2000 hrs. on Sunday and holidays.

Night work after 2000 hrs. is not normally foreseen during Ramadan period, during this period, the work stops at 1800 hrs.

There is no work on the following holidays: New Year's Day (Jan. 1); Tabaski (El Aid) (variable date); El Mouloud (variable date); Labour Day (May 1); Africa Liberation Day (May 25); Korite (El Fatar) (variable date); Independence Day (Nov. 28); Christmas (Dec. 25); 1st Moharam (variable date).

The holidays corresponding to the Islamic holidays are calculated from Arabic calendar.

FRESH WATER: Only available for small vessels.

FUEL: Only available for small vessels.

GENERAL: *Winds* mainly N./N.E. in the morning N./N.W. in the evening. Wind force: variable from August to January rather strong from February to July. Tidal current running North during Flood, and South during Ebb (1.5 to 2.5 knots).

Swell 0.80 m. max. Strong surge alongside all berths.

Rise and Fall High water 2.35 m. Low water 0.35 m. difference = 2 m.

NOUAKCHOTT: 18.02 N. 16.02 W.

LOCATION: Nouakchott Wharf is situated in position 18° 02′ 08″ N., 16° 01′ 43″ W., being about 7 km. S.S.W. of Nouakchott.

All vessels anchor off the port and movement of cargo is undertaken by barges and lighters.

WIND: The direction of the wind varies from N.N.W. -N.E. The predominant winds affecting navigation are from the N.N.W.

The rapid onset of bad weather should be noted. When conditions are bad vessels should weigh anchor and proceed seaward as the coast offers no natural shelter.

CURRENTS: There is an almost permanent N.-S. current running at about 0.5 knot; it reverses S.-N. on a few days during the year.

SWELL: 2 kinds of swell have been observed: Local swell due to the coastal winds, varying from N. to N.W. in dry weather, and turning between N.W. and S.W. during the wet season.

ANCHORING ROADS CONDITIONS: The periods during which climatic conditions are liable to upset work are as follows: Strong swell, January/March; rain, July/August/September.

This virtually allows the port to be used during 200 days in the year.

WORKING CONDITIONS: Vessels must locate themselves as closely as possible, where they can anchor without risk, to the wharf, within the limits of their drafts (generally between 0.5 and a 0.25 miles), in line. At the lighterage quay there is a depth of water of 7 m.-8.5 m. It is preferable for a ring of lines to be placed in advance around the sides of the vessel to which barges may tie up.

Experience shows that the tonnage unloaded currently by the wharf is 400 to 500 t.p.d. where goods in sacks are concerned. It is possible to work 2 vessels at once, but each 4 will only work half of this tonnage.

Work is currently carried out on board by private companies, and on land, in the launches and lighters by the Wharf Organisation personnel.

As far as wharf personnel are concerned, during working days, the normal working hours are from 0800 to 1600 hrs.

Overtime day hours are from 1600 to 1900 hrs.

Night time working is considered to apply between the hours of 1900 and 0600 hrs. (currently impossible).

It should be noted that there is an overtime hour at the beginning and end of work, which is the time required to launch or bring barges on to the landing-stage.

RECOMMENDATIONS TO CAPTAINS OF VESSELS: Vessels must be at all times capable of gaining the open sea rapidly, since bad weather comes up very quickly, and the coast affords no natural protection.

WHARF: The working platform is 86 m.×21 m. and lies in a N.W.-S.E. direction; it is connected to the shore by a gangway 246.5 m. length and 7 m. wide.

The wharf is designed to take a load of 2 lorries of 25 tons (2 axles of 10 tons and 1 axle of 5 tons) or an overload of 1 ton/sq. m.

The wharf manager's office together with Police, Customs and radio office are located on the shore.

WHARF EQUIPMENT: 3 cranes with capacities of 20, 8 and 5 tons respectively.

FLOATING EQUIPMENT: 1 launch of 50 hp, 2 launches of 100 h.p. 10 steel barges, internal dimensions 10 m. × 3 m. × 1.25 m. with capacity for 20 tons cargo. 1 steel barge, internal dimensions 13 m. × 4 m. × 1.35 m. with capacity for 30 tons cargo.

LAND EQUIPMENT: Goods are transported from the wharf to the storage area by 18 trailers each with a capacity of 8 tons. The port is also equipped with 2 tractors of 80 h.p. and 5 fork-lift trucks with capacity of 3.5 tons.

TANKERS: Dakar oil companies are presently building a hydrocarbon oil depot about 400 m. North of the wharf.

The depot will be fed from tankers by means of 2 sea-lines of 900 m. length.

SHIPMASTERS REPORT: August 1978.

The following is to be read in conjunction with the information above.

Currents: Reversal of current is unpredictable and may last for several days on each occasion.

Anchoring Roads Conditions: While in the main the holding ground is good, there appears to be patches of hard sand where the anchor cannot take hold.

Working conditions: It is practical to work 4 vessels at once plus one of up to 5,000 tons d.w.t. at the new extension to the pier.

Present (August 1978) hours for ships at anchor are 0800 to 1600 hrs. (Ramadan) but Sunday overtime can be worked if vessel gives authority. It seems that this is very expensive as so many are involved.

At the pier extension work has been observed from 0800 to 2400 hrs. and a mobile crane is available there to assist ship's gear.

Wharf Equipment: There are 7 cranes with various capacities, two being used for lifting out barges for repairs and to house the tug launches at night. The mobile crane is backed up by some 8 small fixed jib carriers.

Tankers: The sea berth North of the pier is in operation.

Documentation: See "Nouadhibou".

Customs Control: The officer will not board until the Agent has entered the vessel with the necessary documents, hence there will always be a time interval between arrival and being boarded for inspection. So financial loss must be expected accordingly.

General Observations: Due to the lack of any VHF or similar communication system, it is difficult to assess the true performance of this port. It is most uncomfortable for any vessel of more than 7,500 tons d.w.t. unless the barges are prepared to come out to 7 or more cables from the pier. In the recommended anchorage the effect of swell and surf is such that the vessel frequently swings through a wide arc and the chances of breaking out the anchor are very real. The erratic current direction may also swing the ship towards the pier hence the above opinion. Other vessels may also anchor so as to swing across one's own cable and anchor.

NOTES

Mauritius

PORT LOUIS: 20.09 S. 57.30 E. (See Plan Book)

PORT LIMITS: The commercial area of the port is the area inside the port bounded by the entrance buoys and the shore line of the inner harbour. Vessels at the outside anchorage lie within the limits of the port defined by an imaginary line joining Pointe Aux Sables and Pointe aux Pimentes. In this area commercial activities are restricted to bunkering, ship repair and the landing of passengers or personnel.

PILOTAGE: Compulsory for vessels over 100 tons register. Vessels are piloted inwards and outwards at any time of the day or night if circumstances permit. Inward bound vessels are met about a mile seaward of the Entrance buoys though they may, in some circumstances have to be boarded at a greater distance offshore.

ANCHORAGE: Open roadstead with anchorages for vessels of any draft. Admiralty Chart No. 713 refers.

MAX. SIZE: Harbour entrance depths from 42 ft. to 119 ft. Channel – dredged to 40 ft.

RADIO: The Port Master requires to be notified of the date of the vessel's arrival, the length and draft and purpose of call, by radio as soon as it is possible for Master to communicate with Harbour either:

1. By CW transmission through the Government Radio Station (3 BA) at Vacoas on 500 kc/s.
2. By R/T transmission through Port Louis Harbour Radio Station (3 BB 3) on 2182 kc/s.

VHF: Port Louis Harbour Radio Station is equipped with VHF and maintains 24-hour watch on Channel 16.

TUGS: 2×830 h.p. diesel-engine tugs, *Betty Des Mascareignes* and *Winnie Des Mascareignes.* These tugs are available for deep-sea towage and salvage and are fitted with fire-fighting equipment, R/T and VHF. 3 smaller tugs of 320 h.p are also available for harbour work and fitted with VHF.

BERTHING:

Quay D, length 485 ft., depth alongside 31 ft. 06 in. Can take 1 vessel up to 600 ft. overall, draft 30 ft. 06 in.

West Quay, length 400 ft., depth alongside 38 ft., designed for white oil and fertiliser discharge.

Quay C, length 396 ft., depth 18 ft. alongside for a length of 310 ft. Can take 1 vessel up to 300 ft. length, and 17 ft. draft.

Buoys: 7 berths capable of taking ships up to 36 ft. max draft; 4 berths capable of taking ships up to 25 ft. max. draft; 1 berth capable of taking ships up to 19 ft. max. draft; 3 berths capable of taking ships up to 20 ft. max. draft, max. length 350 ft.; 2 berths capable of taking ships up to 16 ft. max. draft; max. length 225 ft. Vessels of 36 ft. are berthed in Quarantine Berth in No. 4E, No. 2E, No. 2W, and No. 5W. Distance between buoys at entrance 1.5 cables.

SPECIALISED CARGO-HANDLING FACILITIES: LPG carriers berth at Quay D; there are no full containerisation facilities. Containers are handled by ships gear at West Quay, where Roll-on/Roll-off vessels are also handled.

Bulk Cargo: Cement Discharging facilities. Rate of discharge 500 t.p.h. Max. draft 34 ft., max. length 592 ft.; capacity of Silo; 18,500 metric tons.

STEVEDORING: Undertaken by private contractors. Approximate rate of loading per day of 8 hours: Sugar in bags, 200 tons per gang per day; sugar in bulk, 200 tons per gang per day; general cargo, 60 tons per gang per day; rum in drums, 100 tons per gang per day; bales hemp, 100 tons per gang per day.

Working hours: Monday to Fridays from 0700 to 1500 hrs., Saturdays from 0700 to 1300 hrs. Overtime can be carried out on weekdays up to midnight and up to 1600 hrs. on Sundays and public holidays.

MEDICAL: Arrangements for medical attendance should be made through ship's Agent. Private clinics available.

FRESH WATER: Fresh water supplied by barges at any berth between 0700 and 1600 hrs. Arrangements can be made for supply before 0700 and after 1600 hrs. on payment of overtime. The rate is about 25–30 t.ph. 4 barges of 50, 75, 85 and 110 tons respectively are available.

FUEL: Gas oil, marine diesel and furnace oil obtainable. (Arrangements must be made in advance between Owners and the Shell Co., BP, or the Anglo-Iranian Oil Co.) The pumping capacity of the installations at Port Louis for furnace oil is between 150 and 200 t.p.h., and for marine diesel oil and gas oil 50 t.p.h. Marine diesel oil and furnace oil (35 secs. to 1,000 secs.) is supplied at Quay "D". Furnace oil 1,000 seconds only is supplied on No. 5 West berth.

A 400-ton bunkering barge available to supply vessels in harbour and outside anchorage.

DEVELOPMENTS: The overall port development project comprised the construction of 3 deepwater quays, mooring dolphin, transit sheds, administrative and workshop buildings, quay and storage facilities for bulk sugar operations. The first new quay has already been completed and construction of the other quays and sheds is in progress. The preliminary works for the construction of the Bulk Sugar Terminal have also started.

REPAIRS: Almost any type of repair can be undertaken in Port Louis.

DRY DOCK: Stevenson dry dock. Largest vessel that can be docked: 326 ft.×48 ft., with a max. draft of 16 ft.; vessels of up to 358.5 ft.×50 ft. can also be docked, but at least 15 days notice should be given.

CONSULS: *Consulates:* Belgian, Danish, Dutch, Finnish, German (Federal Republic), Norwegian, Portuguese, Spanish and Swedish. *Embassies:* French, Malagasy, American, Russian and Pakistan. *High Commission:* British and Indian.

HOLIDAYS: 1st January (New Year's Day), 22nd January (Cavadee); 6th February (Chinese Spring Festival); 18th February (Id-El-Adha); 6th March (Maha Shivaratree); 12th March (Independence Day); 1st May (Labour Day); 29th October (Divali); 1st November (All Saints' Day); 1st December (Id-El-Fitr); 25th December (Christmas Day).

POLICE/FIRE: Police, tel. 999; Fire, tel. 999.

TIME: Local time GMT plus 4 hours.

AUTHORITY: Mauritius Marine Authority.

NOTES

Mexico

ACAPULCO: 16.50 N. 100.00 W.

DOCUMENTS:

Health Clearance from previous port.
Health Pratique.
4 Stores Lists.
4 Lists of Crew's Personal Effects.
12 Crew Lists.*
2 Passenger Lists.*
12 Manifests of cargo for the port.*

*One copy to be visaed by Mexican consul..

PILOTAGE: Pilot is ordered by Agent on the basis of Master's ETA, which should be given accurately at least 24 hrs. before arrival. Pilot boards at the port limits, approx. 1 mile from the entrance.

ANCHORAGE: Vessels may anchor in the middle of the bay as indicated by the Pilot. Depths up to 150 ft.

RESTRICTIONS: The Bay of Acapulco is a natural harbour surrounded by mountains, approx. 4 miles across at its widest part and 2.5 miles across at its narrowest. There are 2 entrances, 1 called Boca Grande and the other called Boca Chica.

Boca Grande is between Punta Siclata on Isla de la Roqueta and Punta Bruja. The channel is 3,000 m. wide with a depth of 31 fathoms in mid-channel.

Boca Chica Channel, between Isla de la Roqueta and the Peninsula of Las Playas is 300 m. wide with a depth of 14 fathoms in mid-channel.

MAX. SIZE: For berthing alongside max. draft 28ft. 6in.

HEALTH: When vessel arrives at the port the following Authorities will board: Port Health Authority, Customs and Immigration, accompanied by the ship's Agent.

RADIO: Coastal station of Acapulco receiving on 8374 kHz in daytime and on 4180 kHz at night. Transmitting on 8514 kHz in daytime and 4250 kHz at night. Radiotelephone receiving and transmitting on 2715 kHz during the day and on 2182 kHz from 2000-0600 hrs. local time. VHF service available from 0630 to 2300 hrs.

TUGS: 1 tug is required for berthing. Tug's line used.

MEDICAL: Agent should be advised by radio in advance if any medical assistance required. Hospital facilities available.

TANKERS: Tanker moorings operated by Petroleos Mexicanos situated on the Eastern side of the bay. It is strictly prohibited to discharge oily residues in the bay or within 40 miles of the port.

FRESH WATER: Can be supplied by hoses from the quays, rate about 15 t.p.h.

OPENING/CLOSING HATCHES: Is performed by stevedores.

CUSTOMS ALLOWANCES: Crew members are only allowed to retain cigarettes, tobacco and liquor sufficient for their own consumption while vessel is in port.

IDENTIFICATION CARDS: Crew members should carry a passport.

CONSULS:

Denmark	Tel. 2.11.11	Italy	Tel. 2.25.10
France	" 2.43.83	Norway	" 2.19.56
Great Britain	" 2.29.21		

REPAIRS: Minor engine repairs can be effected. No dry docks, only a slipway for vessels up to 100 tons.

REPATRIATION: Can be arranged.

AIRPORT: International Airport situated 22 km. from the port, daily flights to all parts of the world.

TIME: GMT minus 6 hrs. all through the year.

HOLIDAYS: The following holidays can only be worked in case of emergency: 1st January; 5th February; 21st March; 1st Mas; 5th May; 16th September; 12th October; 25th December; and in addition 23rd May, Anniversary of the Stevedores' Union.

POLICE/FIRE/AMBULANCE: Police tel. 2.00.40; Fire 2.00.42; Ambulance (Red Cross) 2.02.41. and/or 2.00.88.

TELEPHONES: Cannot be connected on board the ship but Master may make calls from the quay.

SHORE LEAVE: Allowed.

AUTHORITY: Capitania de Puerto.

AGENT: Representaciones Maritimas, S.A. c/o Ricardo Careaga E Hijos, S. De R. L., C.M. Aleman No. 187-31 3er Piso, P.O. Box 256. Acapulco, Gro. Mexico. Tel.: 2 23 35. Telex 017 516 Cables: "Maritimex".

COATZACOALCOS: 18.08 N. 94.25 W.

PORT LIMITS: From the centre of the channel at the bar with a radius of 0.5 mile to seaward.

DOCUMENTS:

Customs:

Cargo manifest, original and 4 copies visaed by Mexican Consul at place of origin. If no cargo carried for this port a certificate and 2 copies stating the fact.
Stores List, original and 1 copy.
Personal Effects List, original and 1 copy if vessel is arriving from another Mexican port. Customs release from that port must be produced.

Port Captain:

Clearance from last port.
2 copies Crew List.
3 copies Manifest of cargo for this port.

Immigration:

Crew List, original and 1 copy, bearing consular visa.
Passenger List, original and copy, visaed by consul.
All Crew Passports or I.D. Cards.

Health:

2 copies Crew List.
2 copies Passenger List.
Crew Vaccination Certificates.
Derat Certificate.
When vessels are anchored beyond the breakwater authorities board from the pilot launch.

The following must be made available for inspection.

Registration Certificate of Vessel.
Certificate of Inspection of Deck Machinery.
Certificate of Inspection of Machinery.
Freeboard Certificate.
Tonnage Certificate.
Radio Certificate.
Radio-telephony Certificate.
Emergency Procedure in the Case of Abandoning Ship.
Emergency Procedure in the Event of Fire.
Vessel Insurance Policy.
Copy of the Charter Party (where applicable).

PILOTAGE: Compulsory. Pilot meets vessel off the jetties at Coatzacoalcos Estuary. Master should give Agent information not less than 24 hours prior arrival stating vessels name, flag, and ETA as well as draft.

Pilot boat black hull, white housing and red deck. 2 launches *Alcion* and *Vencedora*. The sound signal for calling the Pilot is 2 long blasts and 1 short blast. The light signal is a blue Bengal light.

There is a new cutter *Siriux*. The pilots' office has VHF radio station, listening out on Channel 16.

ANCHORAGE: Vessels may anchor between 0.5 mile and 1.5 miles off the breakwater or at the Master's discretion.

MAX. SIZE: Max. draft crossing the bar is 37 ft. The Pajaritos Channel to the bar reaches 42 ft. (will shortly be 45 ft.)

Free Zone: Max. length during the day 200 m., at night 125 m. Max. draft. 31 ft.

Pajaritos: Max. length 225 m. Max. draft 37 ft.

HEALTH: Pratique never given by radio. Vessels granted free pratique when berthed alongside if no contagious illnesses aboard.

RADIO: Telegraphic transmitter type TH 600-M with an open sea range of 500 miles radius, frequencies of 512, 500, 432, and 419.5 kc/s. Telephonic transmitter type TSB-500-Be with approx. range of 500 km., frequencies of 2.182, 2.270, 2.542 and 2.665 kc/s. RDF transmitter type TT-1017-B with approx. range of 300 miles, frequency 312 kc/s. Transmitter/Receiver for radiotelephony VHF type VFD-50PT/PR, with approx. range of 50 miles, frequencies in Simplex operation: Channel 12-156.6 mc/s and Channel 16. International call-up 156.8 mc/s. Duplex operation: Channel 26. Transmission 161.9 mc/s and reception 157.30 mc/s Channel 27. Transmission 161.95 mc/s and receiving channel 157.35 mc/s. At the moment, there is a point to point link-up with national and coastal telegraphs, as well as teleprinters for national and international service No. 078-835 (the latter is said already to be installed and will shortly be operating normally).

TUGS: The Free Zone has the "Servicios Portuarios del Istmo de Tehuantepec S.A de C.V., owners of the tugs *Quetzalcoatl* 2,400 h.p., *Olmeca* 1,600 h.p. and *P.L.M.8* with 600 h.p. for operations in the Free Zone and the Pajaritos Terminal, the first being able to undertake salvaging work due to extensive range of action.

A tug is obligatory for mooring, unmooring or changing position in the port roads. 1 tug for vessels of 2,500 g.r.t. and 2 tugs for vessels larger than 4,000 g.r.t. The signal for calling up tugs is 2 long and 2 short blasts on the vessel's siren. The signal for the tug to withdraw is 1 short, 1 long and 3 short. The tug will repeat the signal to indicate that it has been heard. Tugs are fitted with VHF radio listening out on Channel 16 and during working on the channel which the tug captain is ordered to use.

BERTHING: *Free zone:* This has a quay length of 1,900 m. (1, 2, 3, 4, 5, 6, 7, 8,) with varying depths of water from 29 to 31 ft. All necessary services for vessels are available. During the day, vessels up to 200 m. overall length can manoeuvre, and at night only vessels up to a max. length of 125 m.

Restrictions: Night service is suspended during times of strong currents in the Coatzacoalcos river.

Pajaritos Terminal: In this terminal PEMEX has 3 quays operating and 1 being constructed, those operating being PX1E and PX1W with operational depth of 33 ft. and 30,000 tons gross with lengths of 200 m. PX2E and PX2W with operational depths on the Eastern side of 33 ft. and with 37 ft. on the Western side, admits vessels of 225 m. overall length and 35,000 g.r.t. The Provisional Quay admits vessels with 37 ft. draft. and 35,000 g.r.t. At this terminal, Pemex exports crude oils, fuel oils, and at the PX1E quay ethylene is loaded specifically. In the Western part of the lagoon, there is a manoeuvring basin with a radius of 300 m.

F.F.M. Quay: In the Eastern part of the Lagoon of Pajaritos, the Empresa Fertilizantes Fosfatados Mexicanos S.A. have their plants and a quay of 425 m., running E. — W., this quay being used for discharge of phosphoric rock in 4 mobile hoppers. Also, liquid sulphur is discharged, phosphoric acid is loaded, as are sulphuric acid and superphosphates. It has an operational draft of 33 ft., and takes vessels of 35,000 g.r.t.

STEVEDORES: No ETA advice necessary. Free Port: Straight working hours: from 0800 to 1200 and from 1400 to 1800 hrs. Overtime 100% overcharged according Tariffs. Latest times to order gangs: 0730, 1330 and 1730 hrs. Straight time above hours Monday through Saturday. Sunday and holidays allowed to work except "Legal Holidays". Loading and discharging rates: 25 tons gang/hour using ship's derricks. No shore cranes available. Loading sulphur by conveyor belts at 500 t.p.h., working around the clock.

Private FFM Berth: Loading or discharging operations performed by their own personnel working 24 hours per day. Rate of loading by conveyor belt: 500 t.p.h. Rate of discharging 1,100 tons per day with ships gear.

MEDICAL: Hospital facilities available. Inform Agent in advance if treatment required. Smallpox vaccination certificates inspected on arrival. If certificates expired crew members are re-vaccinated at Health Department.

TANKERS: Also see "Berthing". Tankers regularly moor in the Pajaritos Roads. There are 4 large quays for mooring 7 vessels up to 233 m., with max. draft at the quay of 33 ft.

The provisional Quay has 2 lines of operation of 24 in. with 3 points 8 in. for crude oil and 1 other of 8 in. for crude oil.

DENSITY: Averages 1012.

FRESH WATER: Available at berths in Free Port area, delivered by 1.5 in. hose. Loading rate about 8 t.p.h.

FUEL: Fuel can be supplied at Coatzacoalcos port by tank-trucks when vessels need small quantities. Petroleos Mexicanos (PEMEX) has at Nanchital a loading terminal which is about 3 miles up-river from Coatzacoalcos (max. draft 27 ft. 6 in.) where Bunker C fuel available.

Diesel oil only available at Minatitlan, about 17.5 miles up-river from Coatzacoalcos (max. draft 21 ft.). If vessel bunkers at Nanchital or Minatitlan there will be at least 1 day delay and heavy extra expenses.

Gas freeing equipment for Gas tanker at Nanchital.

DEVELOPMENTS: The entrance channel up to Pajaritos roads has been dredged up to 42 ft. The quays in the Free Zone have been completely reinforced, vessels up to 31 ft. draft being able to come alongside. The warehouses for general cargo at quays 2 and 3 have been completed, with a covered area of 4,000 m. and normal loading capacity of 10,000 cu. m. There are sufficient open areas for positioning heavy loads or machinery. Apart from the lighthouse on the Gavilan Hill, in the Allende area (left bank), the port has light towers indicating the main entrance channel, another 2 to indicate the channel leading to Pajaritos roads. All 4 have flashing lights. The branch leading onwards to the Free Zone is indicated by a small tower with flashing white light. The lights of the promontories of the 2 headlands;— the East light is green, and the West light is red. The channel is marked with black coloured buoys with odd numbers, on the port side entering, and red with even numbers on the starboard side. Both sets of lights are of the flashing type. When continuing upstream towards Nanchital or Minatitlan, the bridge has to be passed under. Its characteristics are: Length 1,375 m. vertical clearance with the bridge up 35 m., with the bridge down 8.84 m. Horizontal clearance which can be used: 60 m. To have the bridge raised, vessels must give 3 long and 2 short blasts on the siren.

CUSTOMS ALLOWANCES: No restriction for free use on board.

CONSULS: Norway and Netherlands.

REPAIRS: Minor repairs may be effected. No dry dock available.

AIRPORT: At Minatitlan, about 40 minutes car drive away. 2 regular flights to Mexico City.

TIME: 6 hours behind GMT.

HOLIDAYS: No work performed on following legal holidays: January 1st; March 21st; May 1st; May 5th; September 16th; October 12th; November 20th; December 25th; and December 1st every six years when Federal Government changes President.

TELEPHONES: No facilities for placing telephones on ships.

POLICE/AMBULANCE/HOSPITAL: Police tel. 2 01 22, Red Cross 2 02 85; Hospital 2 00 30.

SHORE LEAVE: Possible. Crew must have I.D. cards or passports Passengers must have passports.

AUTHORITY: Port Captain.

AGENT: Representaciones Maritimas, S.A. Calle Juarez 320 Altos Coatzacoalcos, Ver. Tel. 2 01 71. Telex 078 822. Cable: "Maritimex", Coatzacoalcos.

LAZARO CARDENAS: 17.59 N. 102.10 W.

(See Plan Book)

PORT LIMITS: Area within limits of anchoring described below. For "Arrived Ship". Pilotage limits 1 mile off to seaward from breakwaters.

DOCUMENTS:

- 7 Crew Lists
- 2 Vaccination Lists
- 1 Sanitary Health Declaration
- 3 Stores Lists
- 2 Personal Effects Lists
- Clearance From Last Port
- Voyage Memorandum, showing also Ships Registry
- Derratisation Certificate and Cargo Gear Certificate regarding cargo
- 5 Cargo Manifests
- 5 Bills of Lading.

PILOTAGE: 24 hours advance notice through coastal station, addressed to "Puerto" Lazaro Cardenas, Mich. A VHF watch on Channel 16 is maintained Monday to Friday, 0800 to 1900 hrs. and at any time previously requested by ship's Agent. VHF range 45 miles. Pilot will board normally either 1 mile off the breakwater or at the anchorage, and at Master's request further out if required. In the event of heavy sea, vessel will be instructed accordingly via VHF.

ANCHORAGE: Imaginary circle 1 mile in diameter whose centre is located 1.5 mile South of breakwater with depths ranging from 8 fathoms on the North edge of circle to 20 fathoms on the South. Very good holding ground, care should be taken not to anchor on, or near leading line (304°) due to a submarine canyon with over 100 fathoms depths at 1 mile off the breakwater.

RESTRICTIONS: Vessels up to 200 m. LOA and up to 35 ft. salt water draft may enter or leave the port 24 hours a day, larger vessels or those with deeper draft only with daylight. Vessels with over 42 ft. salt water draft must wait for tide.

HEALTH: Port Health Officer will normally board vessel along with Pilot, pratique can also be granted by VHF radio. Automatic pratique is granted when coming from another Mexican port.

RADIO: Radio Maritima Manzanillo "XFM" and Radio Maritima Mazatlan "XMA" are recommended coastal stations through which to route ETA's. Initial contact on 2182 kHz.

VHF: At port, 25 watt 45 mile range. Channels 6, 16, 26, 11, 12, 13 and 69. Initial contact to be made on Channel 16, manoeuvring on Channel 6, port operations on Channels 11, 12 and 13.

RADAR: No radar service available.

TUGS: 1 tug stationed permanently at port 1,900 h.p. twin-screw. Tug's lines used, no charge for lines. Vessels over 50,000 tons displacement should apply to Manzanillo for other tug through Agent. A second tug is scheduled to be available early 1979.

BERTHING: The quay of "Metales Y Minerales" is the only one in service, 650 m. (2,132 ft.) of usable berthing length with depth alongside from 45 ft. to 47 ft. salt water. Shore cranes and sometimes ship's gear used for steel products. Significant cargoes are coal in bulk, coke-breeze, pig iron and finished steel products, also fuel oil.

BULK CARGO FACILITIES: Berth No. 2 of quay mentioned above has a shore crane clam-bucket type 250 t.p.h. capacity capable of loading and unloading. Depth alongside 45 ft. salt water. Clearance from boom to MLLW 35 m.

CRANES: In addition to the crane on berth No. 1 a container crane 40 tons lifting capacity is available. Clearance from boom to MLLW, 31.2 m. also 3×75 ton movable cranes (self-powered) can work anywhere on quay, 2 additional mobile cranes of 20 ton capacity are available.

SPECIALISED CARGO HANDLING FACILITIES: Berth No. 1 can handle containers and heavy lifts up to 40 tons. Berth No. 2 can handle bulk and ores.

BRIDGES: No bridges.

STEVEDORES: Agents will arrange for stevedores upon receipt of ETA.

MEDICAL: Advance notice required by Agents when medical assistance required, emergencies can be routed via VHF at pilot station (Channel 16). 2 hospitals and 2 clinics with a total of 40 beds available plus a new hospital scheduled late 1978 with 50 bed capacity will accept seamen. Smallpox vaccination required, yellow fever and cholera vaccination desirable.

TANKERS: All berths have 10 in. diameter lines to discharge fuel-oil.

DENSITY: Highly variable, can range from 1024 in dry season to 1012 in rainy season.

FRESH WATER: Available. 3 in. pipe on all piers (American standard thread), but is recommended to boil it, for drinking purposes.

FUEL: No fuel available for vessels, only diesel of specific gravity 0.85 available in trucks.

FIRE PRECAUTIONS: Tankers should fit a good ground connection to quay and have 2 lines hanging fore and aft ready for emergency towing.

CONSULS: No consuls available at present.

REPAIRS: Small and medium size repairs can be done at the workshop of the steel works if previous advice sent to Agent.

DRY DOCKS: No dry docks available.

SURVEYORS: One independent surveyor available for draft surveys, on/off hire and damage, can be contacted through Agents.

GANGWAY/DECK WATCHMEN: Neither necessary nor recommended.

HATCHES: Normally done by crew members, can be done by stevedores at ship's request.

CUSTOM ALLOWANCES: There are no regulations. It is according to the Master's judgement for his needs for the stay in the port.

CARGO GEAR: Normally done with ship's gear but shore cranes are available upon request. Heavy lift cranes up to 40 tons.

REPATRIATION: All facilities for crew changes.

AIRPORT: Zihuatanejo Airport, nearest 135 kms. 5 daily flights to Mexico City with connections to all parts of the world.

TIME: GMT minus 6 hours.

HOLIDAYS: 1st January, 5th February, 21st March, 1st May, 16th September, 20th November, 25th December, 1st December. (Every 6 years when there is President change.)

POLICE/AMBULANCE/FIRE: Police 2-0154, Ambulance 2-05-75, Fire 2-03-33 ext. 1020 and 1000

TELEPHONE: No shore connection available.

SERVICES: Only ship chandler and laundry.

SHORE LEAVE: Crew members allowed shore leave, without any special permit.
IDENTIFICATION CARDS: Seaman's book is sufficient.
REGULATIONS: No special regulations.
DELAYS: No delays expected.
DEVELOPMENTS: General cargo berth, completion scheduled for mid 1979, 150 m. long., 12 m. depth. Phosphoric rock terminal, completion scheduled early 1980, 300 m. long, 14 m. depth. Grain terminal completion scheduled late 1979, 280 m. long, 14 m. depth.
GENERAL: Salinity in basin and docks always changing and subject to tides and river flow, recommend taking at least 5 samples from keel to surface to get an adequate average of salinity.
AUTHORITY: Superintendent of Port Operations.

MANZANILLO: 19.03 N. 104.20 W.

DOCUMENTS:
14 Crew Lists.
20 Passenger Lists.
Derat Certificate.
Vaccination Certificate for each crew member.
Cargo Manifest and one copy to be visaed.
8 additional copies of Cargo Manifest, unvisaed.
10 Bills of Lading, one copy to be attached to each cargo manifest.

PILOTAGE: Pilot station cannot be contacted by radio, and Pilots are ordered by Agents basis Master's ETA.

Pilot boat is black with white wheel-house on which is painted letter "H". International Code signals used. Pilot normally boards vessel about 1 or 2 miles from breakwater but if requested in advance the pilot boat will come out to 5 or 6 miles. Pilot cannot board in rough weather. Vessels waiting for Pilot may anchor about 2 - 3 miles N.W. of breakwater in depths of 12-15 fathoms.
ANCHORAGE: Vessels may anchor in the whole North part of the Bay where depths are 12-15 fathoms at a distance of 1 - 2 miles from the coast.
RESTRICTIONS: Vessels may enter at any time day or night.
MAX. SIZE: No limitation for anchoring in the bay. For mooring alongside, max. length 200 m., max. draft 32 ft.

Also see "Tankers".
HEALTH: Port Health Officer and Immigration Officers board vessel at anchorage. Passengers and crew may be required for inspection. All passengers and crew members must possess Smallpox Vaccination Certificates.
RADIO: Coastal station Manzanillo Radio, call sign XFM, operating 0600-1800 hrs. local time.
TUGS: 1 tug available, compulsory to use tug when mooring alongside. Tug will join vessel as ordered by the Pilot.
BERTHING: Vessels may berth at both sides of the pier or at the North end of the pier.
STEVEDORES: Advise Agent in advance number of gangs required. Discharge rate approximately 20-25 t.p.h. per gang.
MEDICAL: Agent should be advised in advance if medical attendance required on board. Hospital facilities available.
TANKERS: 2 berths available, max. length 650 ft. No restriction on beam. Max. draft: N.E. side 31 ft. (Forward) and 38 ft. (Aft). S.E. side 33 ft. (Forward) and 38 ft. (Aft).
FRESH WATER: Should be ordered in advance. Rate of 10 t.p.h. Vessels must furnish own steam for pumping, 2 inch coupling. No barges available for delivery at anchorage.
FUEL: Should be ordered in advance: All grades available. May be expensive due Customs fees.
DEVELOPMENTS: Improvements are in progress to accommodate vessels up to 30,000 tons with a draft of 40 ft.
GANGWAY/DECK WATCHMEN: No shore service available.
OPENING/CLOSING HATCHES: Normally performed by crew members.
CUSTOMS ALLOWANCES: Each crew member may retain 1 carton of cigarettes, and 1 bottle wine/spirits for his own use. No alcohol may be taken ashore.
IDENTIFICATION CARDS: Identification cards or shore passes are necessary for crew going ashore.
CONSULS: Nearest are at Colima and Guadalajara.
REPAIRS: Only repairs to auxiliary machinery can be effected. At Guadalajara hull repairs may be effected provided dry dock not required.
REPATRIATION: Can be arranged.
AIRPORT: Local airport only for internal traffic.
TIME: GMT minus 6 hrs. all the year round.
HOLIDAYS: The following holidays can only be worked in case of emergency: 1st January; 5th February; 21st March; 1st May; 5th May; 16th September; 12th October; 25th December; and in addition 23rd May, Anniversary of the Stevedores' Union.
POLICE/FIRE/AMBULANCE: Police Tel. 4; Fire 23; Ambulance 96.
TELEPHONES: Cannot be connected on board ships.
SHORE LEAVE: Permitted, except for crews of Russian, Cuban and Communist Chinese vessels.

Crew members required present their identity cards to Immigration at the gangway. Crew members left behind by vessel must be covered by 10,000 Pesos bond to guarantee repatriation expenses.
AUTHORITY: Capitania de Puerto Edifico Federal.

MAZATLAN: 23.11 N. 106.26 W.

SHIPMASTER'S REPORT: August 1977.
DOCUMENTS:
Port Clearance from previous port.
4 Store Lists.
12 Crew Lists.
2 Passenger Lists or Nil Passenger List.
(All to be stamped by Mexican Consul or a representative of a friendly country.

On arrival the following officials board:
Port Health Authority.
Customs.
Agricultural Department Authority for checking ships provisions, mainly vegetables.
Doctor for checking 'meat' in the fridge room.
Immigration.
Ships Agent.
Port Authority representative.

The (provisions) meat room is sealed after inspection by the doctor, every morning the seal is broken and resealed after the days provisions are taken out.
PILOTAGE: Pilots can be contacted on VHF Channel 16. Pilots board in position 23° 10′ 24″ N., 106° 26′ 24″ W. with Creston Island light bearing 116° (T) × 0.4 miles.
APPROACHES: The approach is clear with no obstructions except Piedra Negra rock which is just 7 ft. above the water. Vessel should head for Creston Island light, keeping at least 2 cables clear of Piedra Negra rock.
ANCHORAGE: Anchorage is not in the position marked on the British Admiralty Chart. I was told about this by the Pilot when he boarded. The anchorage is now shifted and a vessel should anchor East of a line drawn North/South through the Eastern tip of Island Chivas, East and clear of Piedra Negra rock but outside the 10 fathom line. The holding ground is not good. Creston Island light is a very powerful light, but its characteristic is now Fl. white every 8 sec. and not as marked on the chart.
RADIO: Mazatlan has a coastal radio station but only works on Medium frequency.
TUGS: Only 1 tug is available, if a second tug is required it has to be called from another port.
BERTHING: There are 4 berths:

No. 1	213 m. length	9.0 m. depth alongside.
No. 2	210 m. length	8.5 m. depth alongside.
No. 3	214 m. length	9.0 m. depth alongside.
No. 4	351 m. length	10.0 m. depth alongside.

TANKERS: Max. draft 29 ft. and LOA 590 ft., however tankers of 629 ft. LOA have discharged.
STEVEDORES: Gangs work from Mondays to Saturdays from 0800 to 1700 hrs. Any work after 1700 hrs. till 0700 hrs. next day and from 1700 hrs. on Saturday till 0700 hrs. Monday is overtime. Cotton bales are loaded at the rate of 85 to 90 bales per hour per gang. The bales stow at 29/30 cu.ft. per bale.
FUEL: Can be supplied, but has to be arranged in advance through PEMEX (Petroleos Mexicanos) office in New York. Diesel oil is normally supplied by trucks.
FRESH WATER: Can be obtained at any time and is supplied by hoses (ships hoses) from the quay at about 9 Pesos per ton.
STORES: Provisions are available, however it is difficult to get a variety and frozen vegetables are not available.
MEDICAL: Assistance available.
IDENTIFICATION CARDS: Not required, crew can go ashore, there are no restrictions, but all passports and seamen's books are kept in the custody of the Master.
REPATRIATION: Can be arranged via Mazatlan Airport or Mexico City.
TIME: GMT minus 7 hours throughout the year.
SHIPMASTER'S REPORT: December 1978.
Pilotage: Pilot compulsory. Pilot boards 1.5 cables of the South breakwater. ETA's and ammendments to be sent as soon as possible after leaving previous port.
Restrictions: Vessels can enter and leave day and night. However, they can only sail on the flood tide. Tidal range approximately 3ft.
Tugs: Tugs available but power not known.
VHF: Pilot, Port Authority and Agent on Channel 16.
Services Available: Fresh water (must be boiled for drinking). Fresh provisions. Airport (3 miles from city). Salvage Surveyor. Laundry service. Bunker fuel oil. Doctor and Hospital. Groceries and meats.
Density: 1020.
Charts: U.S. Chart 21301 B.A. Chart 3060.
Ship Anchored: 4 cables S.W. of Cerro del Creston Light in dense morning fog, depth 13 fathoms.
Pilot Boat: Low power, black hull with white superstructure, only came out to ship when the fog cleared. Requested first a gangway to board but afterwards changed his mind for a pilot ladder in view of a slight swell. Pilot boat also handled the ships mooring lines at the berth.
Breakwater: Quite narrow to pass through.
Buoys: Mostly all covered in guano.
Berth No.3: As there was a bulk carrier on the next berth the ship had to overhang the berth by approximately 12 m. However there were bollards on shore away from the quay to provide suitable leads for stern lines. The quay was low lying approximately 3 m. above the water with 1 m. max. rise and fall of tide.
Note: Admirality Tide Tables do not give any data for this port other than its range. U.S. tide tables give all required information.

Depth of Water: Average depth after sounding round hull was approximately 9.5 m., shallowest depth 8.5 m.
Officials: There is a Customs and Police gate on the quay.
Cargo Work: The ship loaded from refrigerated road trucks. The labour set their own derricks and took out the beams and plugs. However, it was over two hours before the first sling came onboard. Meal breaks were long necessitating the covering of open decks with plastic sheets to keep the cold air in. The cargo was not stowed very well, most of it was very crooked with large gaps between the deckhead and cargo. Gross hourly cargo rate is approximately 8 t.p.h.
Pilfering: There did not appear to be much pilfering. Keeping the offshore doors and the store rooms locked is a good precaution.
Early Morning Fog: On two mornings we had fog, clearing between 1030 and 1200 hrs.
Fresh Water: Available alongside the berth, appears to have no meter on it and we had to use our own hose and coupling. However pipe was left connected and we could top up whenever required.
Painting: No objection was made to painting the ship's side from a painting punt.
Life Boat: Starboard life boat was used for a trip to the beach, boat however should not be landed because of the heavy swell.

MINATITLAN: 17.54 N. 94.35 W.

DOCUMENTS: See "Coatzacoalcos."
PILOTAGE: See "Coatzacoalcos Pilotage." Port about 17.5 miles up-river from Coatzacoalcos. Vessels are piloted either up-river or down-river to and from Minatitlan.
ANCHORAGE: Only at Coatzacoalcos. At Minatitlan river is narrow and anchorage not permitted.
RESTRICTIONS: Vessels may enter harbour only in daylight. Latest time for entry and sailing to and from Minatitlan is 1500 hours.
HEALTH: Pratique never given by radio. Vessels granted pratique at anchor at Coatzacoalcos. Vessels must prepare accommodation ladder, to be boarded by port authorities.
MAX. SIZE: Max. LOA at Pemex berths: 475 ft. Max. LOA at Fiscal berth: 440 ft. No breadth restrictions at both. Max. draft permitted: 21 ft. in fresh water.
TUGS: 1 tug required to accompany vessels past the Coatzacoalcos Bridge. Tugs rejoin vessels in the river on arrival at berth. Tug's lines used. For vessels over 2,000 g.r.t. 1 tug required, over 3,000 g.r.t. 2 tugs required.
BERTHING: Normally vessels dock starboard side to. Petroleos Mexicanos (Pemex) has 8 berths for tankers, where they can load crude, fuel oil, gasoline benzene, xylene, metaparaxylene, toluene and other petroleum derivates. Fiscal berth has a length of 80 m. depth alongside of 22 ft. Actually only used to discharge bulk harmless fertilisers. Discharge performed by elevator at a rate of 800 tons per 24 hours, also by ship's gear using buckets at a rate of 200 tons per day per hatch.
TANKERS: No ballast to be discharged in the river. All ballast to be discharged to shore tanks through 2×6 in. pipe-lines.
STEVEDORES: No ETA advice necessary. Agent or Receivers of cargo order gangs to discharge. Straight working hours from 0700 to 1500 Mondays through Saturdays. Latest time to order gangs 0645 and 1445 hrs.
DENSITY: Averages 1006.
MEDICAL: Hospital facilities available.
FRESH WATER: Available at all berths, but is not recommended.
FUEL: Marine diesel oil and Bunker "C" obtainable at Pemex berths. Bunker "C" also obtainable by barge, and diesel oil only by tank truck.
CUSTOMS ALLOWANCES: No restrictions. Free use on board. 2 Customs guards remain on vessel while alongside.
DEVELOPMENTS: Constant programmes for more berths, sheds, dredging and equipment are under way, but rather slow.
REPAIRS: No dry docks available, but small repairs can be done in shore repair shops.
AIRPORT: About 15 minutes car drive away. Regular flights to Mexico City.
TIME: 6 hours behind GMT.
TELEPHONES: No facilities for placing telephones on ships.
AGENTS: See "Coatzacoalcos".

MORRO REDONDO, Cedros Island: 28.03 N. 115.11 W. (See Plan Book)

LOCATION: Morro Redondo: Bulk Salt Terminal 28° 10′ N. 115° 11′ W.
PORT LIMITS: The limits of the port consist of the federal and maritime zones found between the parallels of 28° 02′ 40″ North Latitude and 28° 09′ North Latitude on the Eastern coast of Cedros Island.
DOCUMENTS:
3 Crew Lists in Spanish, visaed by Mexican Consulate in previous port.
12 Ordinary Crew Lists.
3 Stores and Provisions Lists.
3 Lists of Crew Effects.
1 List of Crew Vaccinations.
Clearance from Last Port.
Certificate of Registry.

The authorities such as Port Health, Customs and Immigration together with the Agent will board after the vessel has berthed. Only in exceptional circumstances will the authorities board at anchor or off the berth.
PILOTAGE: Pilot arranged by Agent on the basis of ships ETA. Pilot boards when ship is within 1 to 3 miles of the berth, from a small MFV type pilot launch, painted black with white cabin and red deck. No radio.
ANCHORAGES: Good holding ground is found 1–3 miles North of the berth in 20 to 35 fathoms with the ship loading tower in line with the Morro Redondo lighthouse.
RESTRICTIONS: None. Vessels enter and clear 24 hours a day on a first come first served basis. Height of chute above MLLW is 48 ft.
MAX. SIZE: Minimum depth alongside 17 m. Largest ship to date 160,000 d.w.t.
HEALTH: Pratique granted by local doctor who boards on arrival. Requires Crew Vaccination Certificates and Master's Declaration of Health.
RADIO: Vessels can transmit and receive through KFS San Francisco Radio or KOK Los Angeles Radio.
VHF: Loading installation calls VHF Channel 16 when ship is expected and gives any information at this time. VHF is not normally manned so further communication is unreliable.
RADAR: None.
TUGS: 4 tugs are available ranging from 2,500 h.p. to 3,200 h.p. each. 2 tugs are normally used for berthing, 1 tug for unberthing. Tugs' lines at no extra charge.
BERTHING: 1 berth only consisting of dolphins, also large mooring buoys, 1 ahead and 1 astern, each about 600 ft. distance from berth. 2 mooring ropes must be bent together each end to reach buoys.
CRANES: None.
BULK CARGO FACILITIES: Port is solely for the purpose of loading solar salt in bulk. Loader is belt and spout type and is fixed in position. Vessel must be shifted from hatch to hatch by ship's crew.
STEVEDORES: No special requirements. Average loading rate 2,000 t.p.h.
MEDICAL: No advance notice required, doctor will attend on board at dock. Limited hospital facilities available. Vaccination Certificates for small-pox required.
DENSITY: 1026.
FRESH WATER: Not available.
FUEL: Not available.
FIRE PRECAUTIONS: No special requirements.
CONSULS: None.
REPAIRS: No repairs possible.
GANGWAY/DECK WATCHMEN: Shore gangway only, electrically operated and tended by stevedores. Deck watchmen required.
HATCHES: Opened and closed by ship's crew.
CARGO GEAR: One fixed loader only, controlled by stevedores.
REPATRIATION: Possible, with advance notice to Agent.
AIRPORT: Close to berth. Average 3 flights per week to mainland.
TIME: Standard time GMT minus 8 hours. Daylight saving time GMT minus 7 hours from last Sunday in April to last Sunday in October.
HOLIDAYS: Cargo is worked every day of the week including Sundays and holidays.
TELEPHONES: No telephone contact with mainland.
TELEGRAPH: Government public telegraph services available in village about 11 km. from port.
SHORE LEAVE: Allowed. No special shore passes required.
OPERATOR: Exportadora de Sol S.A.

NANCHITAL: 18.00 N. 94.27 W.

DOCUMENTS: See "Coatzacoalcos."
PILOTAGE: See "Coatzacoalcos Pilotage." Port about 3 miles up-river from Coatzacoalcos.
ANCHORAGE: See "Coatzacoalcos Anchorage."
RESTRICTIONS: Vessels may enter Coatzacoalcos only with daylight. Navigation from Coatzacoalcos to Nanchital remains closed from 1630 to 0700 hrs.
MAX. SIZE: Max. LOA 580 ft. No breadth restrictions. Max. draft permitted 27 ft. 06 in.
HEALTH: See "Coatzacoalcos."
TUGS: When vessels proceed to Nanchital, 1 tug accompanies to pass the Coatzacoalcos bridge, according to Port Regulations. Tugs again join vessels when arriving at Nanchital berths. Tug's lines used. For vessels over 4,000 g.r.t. 2 tugs used.
BERTHING: Normally vessels dock port side alongside. When current and circumstances permit vessel is turned around and docked starboard side to. There are 2 docks at Nanchital, called Old Pier and New Pier. Both to load crude oil, No. 6 fuel oil by pipe-line of 6 in. and up to 10 in. Mooring, unmooring, connecting and disconnecting hoses performed by Pemex own labourers.
MEDICAL: Hospital facilities available only at Coatzacoalcos.
BALLAST: Special regulation for tankers that no ballast water to be discharged in the river. Deballasting performed by 2 pipe-lines of 6 in. diameter to shore tanks.
DENSITY: Average 1006.
FRESH WATER: Available at both berths but is not recommended for drinking.
FUEL: Available only at the Pemex Oil Terminal at any time.
DEVELOPMENTS: Constant programmes for more berths, sheds, dredging and equipment are under way, but rather slow.

CUSTOMS ALLOWANCES: No restrictions. Free use on board. 2 Customs guards stay on board. Vessel to provide them boarding and lodging.
CONSULS: None.
REPAIRS/DRY DOCKS: No dry docks available, but small repairs can be done in shore repair shops.
AIRPORT: At Minatitlan, about 1 hour car drive away. 2 regular flights to Mexico City.
TIME: 6 hours behind GMT.
TELEPHONES: No facilities for placing telephones on ships.
AGENTS: See "Coatzacoalcos".

PROGRESO: 21.17 N. 89.39 W.

DOCUMENTS:

Crew List visaed by the Mexican Consul and 7 simple copies.
Derat Exemption Certificate.
Valid Smallpox Vaccination Certificates for all crew and passengers.
Passports or Seaman's Book for all crew.
Clearance from last Port of Call.
Passenger List visaed by Mexican Consul and 7 copies.
6 Stores Lists.
7 Manifests.
7 Bills of Lading (2 to be visaed).
Tonnage Certificate.
Certificate of Free Pratique.

PILOTAGE: Compulsory. Pilot boards about 3.5 miles North of the lighthouse from a fast launch. International signals to be used to call Pilot day and night. ETA should be passed to Agent via radio station at least 24 hours before arrival.
ANCHORAGE: Vessels waiting for a berth anchor 3 miles off the Fiscal quay. The anchorage is marked on Chart H.O. 0966.
RESTRICTIONS: No night restrictions. Also see "Max. Size". No facilities for tankers.
MAX. SIZE: Max. LOA, 190 m. Max. draft 16 ft. (arriving), 16 ft. 06 in. (sailing).
HEALTH: The doctor boards the vessel at the quay. Where illness or fever is suspected on board, international rules are followed. If the vessel is arriving from another Mexican port, there is no health inspection. Radio pratique is not obtainable.

Authorities require Smallpox Vaccination Certificates for all crew and passengers, and valid Derat Exemption Certificates. No radio pratique prior to arrival obtainable.
RADIO: Progreso Radio XFN works from 0600 to 1900 hrs. every day and listens on frequencies 2,182 kc/s. and Channel 16 VHF on radio-telephony and 500 kc/s. on radio-telegraphy. Working frequencies are 2,756 kc/s., Channel 14, Channel 13 and Channel 12 VHF for radio-telephony, and 420 and 429 kc/s. on radio-telegraphy. ETA can be passed through this station 24 hours in advance.
TUGS: No tugs available.
BERTHING: One pier heading 355° true. Berth available on both sides, East and West, with 204 m. length on each side, and both with 18 ft. depth alongside.
STEVEDORES: No ETA advice necessary if stowage plan received in advance by Agent. Otherwise, ETA advice for gangs required 6 hours prior to arrival. Stevedores' General Cargo discharging and loading rate about 12 tons per gang/per hour.
MEDICAL: Attention available. The port has a clinic. Hospitals are situated in Merida.
TANKERS: No facilities.
DENSITY: Average 1015.
FRESH WATER: Available from pier by hoses. Fresh water is treated in the plant.
FUEL: Bunkers are available. Delivery by tanker truck equipped with pumps. Diesel and fuel supplied. Agent requires 24 hours notice.
FIRE PRECAUTIONS: No smoking allowed aboard vessels.
GANGWAY/DECK WATCHMEN: It is not necessary. Sometimes Masters require them.
OPENING/CLOSING HATCHES: This work is normally carried out by stevedores, but sometimes is carried out by crew in order to save time in loading or unloading.
CUSTOMS ALLOWANCES: Any quantity to be used on board is permitted.
IDENTIFICATION CARDS: Not necessary, but crew must carry passport or Seamans I.D.
CONSULS: The Consular Offices are located in Merida, the capital of State of Yucatan (20 minutes from Progreso by taxi):

Cuba	tel. 1 66 77	Lebanon	tel. 1 77 76
France	tel. 1 60 13	Switzerland	tel. 1 75 00
Germany	tel. 1 21 77	USA	tel. 1 60 30
Great Britain	tel. 1 67 99		

REPAIRS: Small repairs can be carried out in shore shops. No dry docks available.
REPATRIATION: There are facilities for effecting crew changes and arranging necessary repatriation. All matters are handled by the Office of Immigration.
AIRPORT: International Airport in Merida, about 30 minutes from Progreso by taxi. Daily services to Miami, Fla., by Pan American World Airways and New Orleans La., every 2 days. Other flights to Central America, Jamaica, and Germany.
POLICE/AMBULANCE/FIRE: Police 5 00 26.
HOLIDAYS: January 1st; February 5th; March 21st; May 1st (Labour Day); September 16th (Independence Day); November 20th (Revolution Day); December 1st (every 6 years); December 25th; It is possible to work, paying 100% additional.
TELEPHONE: It is not possible to place telephones on board.
SHORE LEAVE: Crew members are allowed ashore.
AUTHORITY: Harbour Master (Captain of the Port).

AGENT: Representaciones Maritimas S.A., c/o Fernando Patron Nicoli, 27th Street No. 112, Progreso, Yucatan, Mexico. No Telex. Tel. 5 00 52.

PUERTO MADERO: 14.41 N. 92.27 W. (See Plan Book)

LOCATION: Puerto Madero is located in approximately 14° 41′ N., 92° 27′ W., about 18 miles N.W. of the Ocos River. Tapachula, with a population of about 50,000, is 25 km. from Puerto Madero and connected by a good road.
DOCUMENTS:

10 Spanish Crew Lists.
10 Passenger Lists.
10 Store Lists (Spanish).
10 Cargo Manifests.
6 Arrival Report.
10 Bills of Lading for Puerto Madero.
6 Crew Customs Manifests.
1 W.H.O. Form (supplied by Quarantine Officer).

Vessels are boarded on arrival by 13 officials. The Agent acts as interpreter.

All papers must be correct. Immigration Officer checks crew list against all passports.
PILOTAGE: Pilot boards off the entrance from yellow surf boat fitted with outboard motor, not fitted with radio. Pilot speaks good English.
ANCHORAGE: A good anchorage can be obtained in soft mud between 1 and 2 miles S.W. of the breakwater head in about 7 fathoms. This anchorage, being exposed, is liable to strong swell from seaward.
HEALTH: All Smallpox Certificates individually examined.
RADIO: Salina Cruz.
BERTHING (Port under construction): There are 2 reaches, an expansion basin and a turning basin with a general cargo berth and a banana berth. For the present the general cargo berth only can be used. The project depth is planned to be 10 m. throughout – channels and turning basin. The max. draft the port is expected to handle will be 27 ft. At the present time the depth is 9.0 m. and permitted draft 8.0 m. Even in calm weather there is a good swell running and this dissipates in the expansion basin between the first and second reaches of the channel.

The first reach is entered on a heading of 045°(T) and passes between the breakwaters which are 650 m. in length and constructed of smashed rock and are visible on radar at 20 miles.

The semi-submerged wreck of a dredger lies close N.W. of the Northern breakwater. A flashing green light is exhibited from a lattice work tower on the Northern breakwater while a flashing red light is exhibited from a similar tower on the Southern breakwater. Although the breakwaters are 350 m. apart, an 80 m. channel exists in the centre. The least reported depth is 30 ft. This channel continues for a further 650 m. on the same course of 045°(T). To assist in steering 2 range lights and a day beacon are being constructed.

The second reach is entered on a heading of 000°(T) and narrows to a width of 50 m. and is 600 m. in length. The projected width of this reach is 80 m. At the end of the second reach the channel again turns to 045°(T) and great care must be exercised in negotiating this turn. A small yellow buoy marks the Southeastern side of the channel. The turn towards the berth is very tight and difficult without a tug. The berth itself has a reported length of 150 m.

The turning basin off the dock is reported to be 600 ft. but in actual fact is only 520 ft.

Upon leaving, turning the vessel short round is hazardous even with the help of small tug (750 h.p.).

Pilot who is also dredging Master appeared ready to take over once the turn is completed.
FRESH WATER: Available
REPAIRS: Very minor repairs can be undertaken but very expensive.
GENERAL: Extra meals for about 6 people. Agent will not sign for free issue or extra meals.

Advisable for all vessels entering this port to be well stocked with mosquito repellent.

Crew passes are not necessary for shore leave.

Fresh fruit and vegetables good quality and price, available from Tapachula 20 miles away.

Ship chandler and laundry service available.

The only reliable communications are via United Brands, Boston. They forward all ETA's etc. by telephone.

A teleprinter is located in the Fruit Agent's office but is only available during weekday working hours.
SHIPMASTER'S REPORT: February 1977.
Documents:

10 Spanish Crew List (7 Certified).
12 Passenger List (5 Certified).
6 Store List (6 Certified).
6 Priced Shop List.

6 Cargo Manifest (8 Certified with Bills of Lading for Puerto Madero Cargo).

6 Arrival Reports.

2 Health Part 1 and 2.

2 Crew Customs Manifest.

All the above papers were taken.

Officials: Immigration Officer boarded *with the Pilot*, checked all I.D. Cards and Passports against the Crew List.

15 People boarded on arrival, all in uniforms, i.e. Army, Navy, Police, Quarantine and Port Captain.

All bonded lockers were sealed as well as the beer room. All store rooms were checked.

Meals were provided for 11 people. 2 Customs Guards remained on board at all times, a room is required for them at night.

Pilotage: Compulsory. Pilot boards from a large, black hulled launch with a red superstructure, about 0.5 miles off the entrance.

Pilot speaks good English.

Approaches: New light structure, painted in red and white bands, and lying 0.3 miles North of entrance is conspicuous from seaward.

This light is expected to be in operation as from mid-February 1978, and will have the characteristics of the old one, lying 1 mile North, viz. Flash every 30 seconds. 2 rubble breakwaters 350 m. apart with red and green lights at their seaward ends are also conspicuous on Radar. All ranges into the port are marked with beacons and lights.

Turning basin is 280 m. in diameter, with a depth of approx. 10 m.

1 tug of 800 h.p. assists berthing, which is difficult. Berthing and unberthing should not be attempted during hours of darkness, nor when sea breeze is so strong as to hinder the attempt, Tidal streams outside the port are influenced by the wind. Tidal information is based on Standard Port of La Union, with a Secondary Port of Champerico, Guatemala, being used for Puerto Madero.

Anchorage: Anchorage may be obtained off the Port S.S.W. of the entrance about 0.5 to 1.5 miles off in mud, good holding ground.

Vessel arrived off the port in late January.

A heavy swell may however be experienced with a passage of a "Tehuantepecer" or of a Tropical Revolving Storm passing far out in the Pacific.

Depths in the roadstead may be between 12 to 16 m.

Max. Size: Max. size of vessel handled LOA 145 m. Beam 22 m. Draft 7.5 m.

Radio: Advise ETA 48 and 24 hours prior to arrival via any Mexican Coastal station.

Tugs: One tug of 800 h.p. assists in docking and undocking.

Berthing: One wharf at present in use, of 150 m. length, bulkhead type well fendered, depth alongside 10 m. on completion of dredging programme. Proposal for dredging out another wharf at right angles to the first also of 150 m. length and 10 m. depth, this to take place within the next 2 years.

1 Naval facility wharf in side channel and basin, pier 60 m. in length, depth alongside approx. 5 to 6 m.

Fishing pier also 60 m. long depth alongside 4 to 5 m. No other details known.

Cargo Handling: Ship's Gear, supplemented by 2 conveyor belt systems suitable for cartoned or boxed cargo.

Cranes: None, but mobile tower cranes may be obtained from Tapachula given sufficient notice.

Medical: Medical services available at Tapachula and San Benito, the Hospital will accept seamen.

Fresh Water: Fresh water laid on to principal pier, approx. delivery 12 t.p.h. Should be treated before drinking.

Fuel: Fuel pipe-line is built below principal wharf, but as yet, January 1977, is not connected to any fuel terminal. Fuel Oil may be obtained by road transport for the time being.

Repairs: Only minor repairs at present.

Communications: Road Service to Tapachula, thence air services are readily available to Mexico City, thence to all parts of the world.

Plans are in hand to build a large Airport complex near to Puerto Madero.

No port radio as yet, but future plans call for a Radio Station, and eventually Port Office will have VHF facilities.

Services: Provisions available from Tapachula if notice given. Deratting not available.

Consuls: There is a British Consul at Tapachula.

SHIPMASTER'S REPORT: August 1977.

Documents: Clearance from last port.

12 Crew Lists.
4 Store Lists.
4 Personal Effects Declaration.
1 Health Declaration.
2 Passenger Lists.
Ship's Register.
Deratting Certificate.

Pilotage: Pilot boards vessel 1 mile West of breakwater. Pilotage is compulsory. 48 and 24 hours notice to "Empresa de Servicios Portuarios de Puerto Madero".

Anchorages: 1.5 miles West of the breakwater in 8 fathoms of water.

Restrictions: No entering of port after 1800 hrs. No leaving of port before 0600 hrs.

Max. Size: Access channel 1,750 m. long, 10 m. deep, with an 80 m. wide bed. Turning basin 280 m.×325 m. and 8.5 m. deep. Pier 151 m. long, depth alongside 8.5 m. Pier equipped with cylindrical rubber fenders.

Tugs: 2 tugs available from November 1977.

Berthing: Loading and discharging operations with ship's gear. Dry bulk 28 m.t./hook hour (average). Sheds to handle banana shipments and conveyor belts, handling with side-ports system and average loading speed of 1,700 boxes per hour.

Fresh Water: Available from pier.

Gangway/Deck Watchmen: Security service rendered.

Time: GMT minus 6 hours all through the year.

Airport: International airport in Tapachula.

Services: The following services can be found in Tapachula City, Chis., 23 km. away from the port: Ship chandler service, mechanical and electric repair shops, hospital, telephone, telegraph and telex.

SHIPMASTER'S REPORT: October 1978.

Pilotage: Compulsory. Pilot boards 1 mile S.S.W. of North Breakwater, 24 hrs. and 12 hrs. notice required.

Restrictions: Limits of channels and Turning Basin are not marked. Daylight berthing and unberthing only.

Max. Size: LOA. 160 m. Beam 25 m. Draft 27 ft.

Anchorage: 0.5 – 1.0 mile from North Breakwater, depth 45 ft.

Health: Quarantine Officials require 24 hrs. and 12 hrs. notice of vessels arrival.

Radio: Salina Cruz.

VHF: Pilot and Port Authority on VHF Channel 16.

Tugs: One tug, 750 hp.

Berthing: General Cargo Berth: 2,200 m. from entrance. Max. size. LOA – 160 m., Beam 25 m. and max. draft 27 ft. Vessels size limited by width of turning basin. Least depth of water from sea to berth 9.0 m.

There are 6 hoppers available for bulk cargoes. No Ro-Ro facilities. No floating cranes. Security is good, berth surrounded by wire fence with only one entrance.

Density: 1025.

Consuls: British Vice-Council in Tapachula.

Services available: Fresh water; Fresh provisions (with 24 hours notice); Telex (at Tapachula); Doctor and Hospital; Airport (at Tapachula) 2 flights daily to Mexico City; groceries and meals (24 hours notice).

AUTHORITY: Capitania de Puerto, Puerto Madero.

AGENTS: Jose Antonio Tellez, Central Norte 125, P.O. Box 198, Tapachula, Chiapas (Province), Mexico. Tel. Office 612–40, Home 622–54.

Fruit Agent: Jose Leyba, P.O. Box 311, Tapachula, Chiapas (Province), Mexico. Tel: 615–31.

ROSARITO: 32.20 N. 117.05 W. (See Plan Book)

SHIPMASTER'S REPORT:

GENERAL: There is no port chart or approaches to Rosarito.

There are 3 sea berths only, 2 using anchors and stern buoys, and 1 single point mooring platform due to come into service Summer 1976. There is a continuous Westerly swell (July) and the berth is very exposed. Discharging a full cargo, it is advisable to commence ballasting as soon as possible to maintain a reasonable draft. There is no objection to this by the receivers.

DOCUMENTS: As for other Mexican ports re visaed Crew Lists etc. Suppliers in Curacao supplied all cargo documents with correct number of copies.

PILOTAGE: Pilot boards about 1 mile West of the berths from a black pilot launch equipped with VHF Channel 9. He speaks good English. The Boarding Officer boards with the Pilot. He speaks no English. The Pilot and Boarding Officer remain on board throughout cargo operations, also pilot/mooring launch is at hand at all times. All cargo operation liaison with the shore is by VHF operated by the Boarding Officer, who also does all Customs, Immigration work, etc., with the Pilot as interpreter.

APPROACHES: Straight forward, with a shelving bottom and ample depth of water up to the berths. Anchorage was found about 1.2 miles off the South buoy berth in 14 fathoms with good holding. Approach in poor visibility, common at this time of year, presented little difficulty once a position of berths is ascertained. Coronado Islands are good radar targets for position fixing.

RADIO: Communications to Agents in Ensenada through Manzanillo Radio XFM and then Ensenada Radio XFE on HF.

Petroleos Mexicano (PEMEX), the Charterers, have their own station at Rosarito which supplies berthing instructions etc. Station XIB83 working on 8690 mHz and 500 kHz. They also keep a listening watch on VHF Channel 9.

OPERATIONS: Local flag tonnage gets preference for the berths. This should have little effect with the single point mooring coming into operation shortly, giving 2 product berths.

The pipe-line is handled by ship's staff. All ullaging etc. done by ship's staff. A comparison between ship's figures, Bladings and shore figure is made on completion of discharge, before clearance is issued by the Boarding Officer.

No difficulty was encountered in maintaining the requested back pressure of 6 kg. at the manifold using 1/2 pumps. Liaison with the shore is excellent, by Boarding Officer on VHF with hourly checks.

SUPPLIES: No bunkers or fresh water. Provisions can be obtained in small quantities but are difficult to get on board and expensive. Medical assistance can be obtained ashore, but again with the difficulty in getting ashore it would be only in a serious case.

AGENTS: Only communication was on the second day by VHF but did not attend on board ship. This may be explained by the fact that due to the heavy swell it is difficult and sometimes dangerous to clear the breakwater by boat. This is endorsed wholeheartedly by Officers joining the vessel. However they were well attended by the Agent ashore. It is recommended that this port is not used for reliefs unless absolutely necessary. There was no shore leave allowed by me due to this.

SAN CARLOS: 24.47 N. 112.08 W. (See Plan Book)

PORT LIMITS: The limit of the port is up to parallel 24° 39′ 41.5″ N. which passes through the position of the East buoy of the channel entrance on Mexican Chart F.H.614.

DOCUMENTS:

Port Captaincy:
Clearance from Last port
Crew List.
List of Passengers.
Voyage memorandum including dates and ports visited during the previous 3 months.

Ports Operations:
Stowage plan.
Certificate of cargo handling equipment on board.
List of pecularities of the vessel.

Health:
List of Vaccination Certificates of the crew.
List of Vacination Certificates of passengers for the port.
Certificate of deratting or exemption.

Immigration:
Visaed crew list.
List of passengers for the port, also visaed.

Maritime Customs: Vessels without cargo, and arriving from abroad:
Declaration of arrival in Ballast.

Vessels coming from abroad with cargo for the port:
General Manifest for the port.
List of passengers for the port.
List of explosives, corrosives, inflammables for the port, visaed.

Vessels coming from a Mexican port to load:
Customs clearance.

Vessels coming from a Mexican port to unload:
Customs Clearance.
Cargo Manifest, visaed.
List of passengers for the port.
List of explosives, corrosives, inflammables for the port.

Inspection of Animal Health:
List of meats (tinned or fresh or refrigerated or in deep freeze).

Vessels bringing animals to the port:
Veterinary Health Certificate.
Transport Permit.
List of Meats (See above).

Inspection of Vegetable Health:
When products are not brought for discharge: Deratting Certificate or Exemption.

When products brought for discharge:
Deratting Certificate or Exemption.
Vegetable Health Certificate.
Importation Permit from the Secretariat of Agriculture and Cattle breeding of Mexico.

PILOTAGE: The port captaincy has VHF Channel 16 for receiving ETA's. The Pilot comes on board vessels by motor launch from San Carlos two miles from the entrance to the channel.

ANCHORAGES: Any location between meridians 112° 05.0′ W. and 112° 03′ W. and parallels 24° 38.5′ N. and 24° 37.5′ N. depths approximately 105 ft., sandy bottom.

RESTRICTIONS: With 26 ft. draft, vessels may navigate the Channel between buoys 'C' and 'D' to '5' and '8'. With a tidal rise of 4 ft., vessels enter and leave with a draught of 30 ft. at high tide.

MAX. SIZE: LOA. 600 ft. beam 100 ft. and draft 30 ft.

HEALTH: When coming from abroad, hoist the yellow flag. Inspection is effected when the vessel is berthed or at the inner anchorage. If the vessel is coming from another Mexican port, the health authority's visit is not necessary.

TUGS: None available.

RADIO: La Paz Coastal Radio: Call sign "XFK".

VHF: Port Captaincy on VHF Channel 16, operates between 0800 and 1800 hrs.

RADAR: This service does not exist.

BERTHING: The 'L' shaped quay is made of concrete and has 102 m. of berthing length. There are two "Dukes of Alba" making up a length with the quay for berthing of 204 m. Also there are two mooring buoys, one at each end of the berth. The minimum depth at low water is 37 ft. in the berthing area. Loading and discharging is effected using the vessel's own gear. It is possible to work in 2 or 4 gangs, according to the type of vessel and cargo.

CRANES: None.

BULK CARGO FACILITIES: On the quay there are installations of "CONASUPO" with a tower for shipment of grain, located in the angle of the 'L'. The grain generally shipped is wheat at the rate of 200 t.p.h. The height of the end of the grain output tube above sea level at full tide is 12 m.

SPECIALISED CARGO HANDLING FACILITIES: Vessels berth at the same quay as above with ammonia, unloading by means of installations located in the angle of the 'L'. These installations are owned by Fertimex.

BRIDGES: None.

STEVEDORES: Vessel's Agent submits a request 24 hrs. in advance for stevedoring services through the Superintendent of the Port Operations. Three products are mainly handled in the port: cotton at a rate of 90 bales per hr. gang. Bulk wheat at a rate of 200 t.p.h., bagged at the rate of 25 t.p.h. Fertilizers in bags at a rate of 25 t.p.h. Since the mechanical equipment on shore is sufficient for 2 gangs in the case of cotton, stevedores are requested for this number of gangs. As far as wheat is concerned, the loading rate drops to 80 t.p.h. when the warehouse has little wheat in it.

Stevedores work from 0800 hrs. to 0200 hrs. of the following day i.e. they work 18 hrs in 24 hrs.

MEDICAL: There is a civil hospital in Ciudad Constitucion 45 minutes away from San Carlos. There is a telephone service available for calling ambulances. There are 6 doctors in the port.

TANKERS: No facilities.

DENSITY: 1023.

FRESH WATER: This is supplied when the vessel is berthed. There are various 2 in. hydrants. The rate of supply is 10 t.p.h., and the approximate cost is 6.90 Mexican Pesos per ton.

FUEL: Moderate quantities of diesel oil can be supplied, and it is brought by road tanker from La Paz, the vehicles themselves pumping supplies to the vessel.

CONSULS: There are no consuls in the port.

REPAIRS: There are workshops at Ciudad Constitucion 45 minutes away by road.

DRYDOCKS: None.

GANGWAY/DECK WATCHMEN: This service does not exist.

HATCHES: Hatches are opened and closed by the stevedores.

SURVEYORS: None.

CUSTOMS ALLOWANCES: Tobacco, wine and spirits are placed under seal.

CARGO GEAR: For loading and discharge, ships' gear is used. There are no cranes in the port.

REPATRIATION: There are Immigration Authorities in the port. There are no hotels, however, there are several in Ciudad Constitucion and in La Paz. La Paz, is the capital of the State of Southern Lower California, and is approx. 3 hrs. away by road.

AIRPORT: None in the port. Airport at La Paz where there is an international airport called General Marquez de Leon.

TIME: Time is that of meridian 105° W. There are no seasonal time changes.

HOLIDAYS: 1st January, 5th February, 21st March, 1st May, 16th September, 20th November, 25th December, and 1st December (every 6 years). These dates are all obligatory.

POLICE/AMBULANCE/FIRE: In the port there are municipal and prison police, telephone No. 25. Ambulance and fire fighting services come from Ciudad Constitucion.

TELEPHONES: No service for installing phones on board vessels, but in the port there is a telephone service for communications with any part of the world.

SERVICES: None available.

SHORE LEAVE: No restrictions.

IDENTIFICATION: Seaman's book is sufficient.

REGULATIONS: No naked lights when there is cotton in the port or ammonia is being discharged.

DELAYS: As there is only one berth, there are times when the berth is occupied, but this does not occur often. Berthing is done in shifts.

DEVELOPMENTS: At the moment, there is no programme.

GENERAL: *Post Office:* At the moment, there is no Post Office in San Carlos.

Telegraph Office: There is a telegraph office but the service is not for maritime traffic. For such purpose, vessels must send their ETA via La Paz Coastal Radio Station.

SHIPMASTER'S REPORT: 1976.

Documents:
Visaed Crew List by Mexican Consul and 9 copies.
Visaed Cargo Manifest from each loading port and 4 copies.
Derat Exemption Certificate.
Valid Smallpox Certificates for all on board.
Passport or Seamen's Book for all on board.
Clearance from last port of call.

Approaches: A very strong current was experienced running from S.E.-N.W. when entering Bahia Magdalena at Pta. Redondo. Caution should be exercised making this approach, because currents can be strong and unpredictable in this area.

Pilotage: Compulsory. Pilot boards in Lat. 24° 39′ N. Long. 112° 05′ W. from small boat with outboard engine.

Anchorage is also good in this position should it be necessary to await Pilot or berth. The 2 buoys marking the entrance make good radar targets and are distinctive.

Restrictions: Channel must be navigated at suitable time of tide giving careful consideration to vessel's draft, in order to clear numerous shallow patches. Max. draft to date of vessel navigating channel was 30 ft. 4 in. on top of high water.

Radio: La Paz Radio (XFK) 500 kHz and 441 kHz. Working hours appear to be uncertain, but there is a working arrangement with Agent to transmit messages free of charge.

Charts: Chart used to navigate channel was Mexican No. FH. 614. Masters are strongly advised to obtain this chart.

Berthing: 1 pier 420 ft. long.

Fresh Water: Available at pier at 10 t.p.h.

Communications: Very poor. No telex, No telephone and no cable service. Telephone available at Villa Constitucion 57 kms. away by paved highway. Plans are in force to introduce a telephone service in the fairly near future.

Consul: If consular advice is required it is best to contact the British Embassy in Mexico City. Tel. 5 11 48 80.

Laundry Service: None.

Ship Chandler: None. A pick-up wagon can be supplied by Agent to obtain essential stores from supermarket at Villa Constitucion.

AUTHORITY: Capitania de Puerto de San Carlos.

TAMPICO: 22.16 N. 97.47 W. (See Plan Book.)

PORT LIMITS: Vessels in Mexican ports are considered to be arrived vessels as soon as permission to moor has been granted by the Port Authorities.

Permission to tie up will be granted on the quay or whilst in midstream, and occasionally during periods of very good weather a vessel is authorised to anchor in the port entrance.

DOCUMENTS:

1 Crew List visaed by Mexican Consul.
9 simple copies of Crew List.
1 Visaed Cargo Manifest from each loading port.
4 simple copies of Cargo Manifest.
1 Visaed Passenger List or visaed Statement to the effect of no passengers, and 5 simple copies.
2 copies of Store List.
2 copies of Personal Effects List.
Derat Exemption Certificate.
Valid Smallpox Vaccination Certificates for all crew and passengers.
Passports or Seaman's Books of all crew.
Clearance from Last Port of Call.
3 copies of lists of packages containing explosives, inflammable or corrosive materials.

PILOTAGE: Pilot ordered by Agent who requires 24 hours notice of vessel's arrival. Pilots board vessels 2 miles off the breakwater. Vessels may anchor about 2 miles off the breakwater waiting for Pilot. Pilots have radio-telephone, frequency 2182 and VHF Channel 16.

ANCHORAGE: About 2 miles East of breakwater in 40-60 fathoms of water.

RESTRICTIONS: There are no restrictions for movements at night. The drafts of the vessels will be governed by the mooring zones in which they are working. The depths at these berths are as follows:

*Free Zone Quay	30 ft.
Minera Autlan Quay	32 ft.
Petroleos Mexicanos Quay	30 ft.
Mexican Gypsum Quay	26 ft.
Metals and Minerals Quay	29 ft.
Anahuac Cement Quay	23 ft.

The navigation channel to the Mexican Petroleum Maritime Terminal has a depth of 38 ft. and that to the Free Zone 31 ft. *This depth is subject to constant dredger maintenance, the draft being reported weekly to the Ship Agents.

MAX. SIZE: The max. length is 656 ft. There are no restrictions for beam, The drafts will be those admissible in the corresponding berth used.

HEALTH: No radio pratique. Pratique granted after docking and presentation of documents to Port Authorities. In case of disease or fever on board, Master to give notice to Agent before arrival.

RADIO: Tampico has a coastal station with frequency 2182, as have the Port Captain, the Pilots' office and Gulf Tugs' office. All have the same frequency and VHF Channel 16.

TUGS: 3 tugs are available, intended solely for port manoeuvres, comprising *Guayalejo* 2,000 h.p., *Tamesi* 1,000 h.p., and *Panuco* 800 h.p. Also Petroleos Mexicanos have tugs whose power varies between 1,000 and 3,000 h.p.

BERTHING:

1 berth at the Minera Autlan quay where manganese is moved by moving belt at the rate of 1,200 t.p.h.

5 berths at the Pemex Quay, where oil and its derivates are moved at the rate of 600-800 t.p.h., by means of 4 in., 6 in., 8 in., and 10 in, pipes.

1 berth at the Mexican Gypsum quay where calcium sulphate is moved by moving belt at the rate of 500 t.p.h.

2 berths at the Metals and Minerals Quay, where bulk minerals are moved by 4 moving belts at the rate of 125 t.p.h. per belt.

1 berth at the Anahuac Cement quay, where bulk cement is moved by means of 10 in. pipes at the rate of 250 tons per pipe, there being 2 ducts.

7 berths at the Tampico Free Zone, where general cargo is moved at the rate of 20 t.p.h. per gang.

Berth	*Length*
1	145 m.
2	145 m.
3	145 m.
4	145 m.
5	145 m.
6	145 m.
7	180 m.

Depth alongside 10.5 m. Official fresh water draft 9.14 m.

All quays have lighting for night operation and telephone facilities.

STEVEDORES: No ETA advice necessary of Stowage Plans received in advance by Agent, otherwise ETA advice for gangs appreciated 48 hrs. prior to arrival. Stevedores general cargo discharging and loading rate about 20 t.p.h. per gang. Mineral loading at Metals Pier about 125 t.p.h. per belt (2 conveyor belts available to service both berths).

MEDICAL: Hospital facilities available. No advance notice required.

TANKERS: See "Berthing". Dirty ballast is received ashore.

DENSITY: Average 1006.

FRESH WATER: Available on written request from ship's Agent. Drinking water delivered by pump at the rate of 12 cu.m. per hour.

FUEL: Available preferably at the Petroleos Mexicanos Quays, although with 1 week's advice prior to arrival this service can be provided at the public service quays.

CUSTOMS ALLOWANCES: No allowances to be taken ashore, but reasonable amounts of tobacco and spirits are allowed to be taken out of bond, but to be kept on board for use of crew and passengers only.

CONSULS: Belgium, Brazil, Great Britain, Peru, Germany, Holland, Norway, Sweden, Italy, Uruguay and Lebanon.

REPAIRS/DRY DOCKS: There is a floating dock with capacity up to 4,000 gross tons, where hull repairs can be effected, as can work on steering system, machinery, marine auxiliaries and other equipment of less importance.

There are specialist workshops attached to the dock.

GANGWAY/DECK WATCHMEN: No watchmen necessary. Customs guard keeps watch at gangway while vessel alongside.

REPATRIATION: In the port there is an office of the Administrative Secretariat, where the repatriation of any crew member can be negotiated. This negotiation will be for the account of the ship's Agent, who is required to deposit a bond of $20,000 per person.

AIRPORT: At a distance of 10 km. from the port, there are regular flights to Monterrey, Nuevo Laredo, and Mexico City with connections in any direction.

TIME: GMT minus 6 hours.

HOLIDAYS: January 1st; February 5th; March 21st; May 1st; September 16th; November 20th; December 25th; December 1st every 6 years.

FIRE/AMBULANCE/POLICE: Fire Department 2 12 22; Red Cross 2 13 33; Police 2 11 57; Police (Jail) 2 10 32.

DEVELOPMENTS: Constant programming for more space at wharves, sheds, warehouses, continuous dredging and increasing capacity of operational equipment.

AUTHORITY: Superintendency of Port Operation.

AGENTS: Representaciones Maritimas, S.A., Edificio Luz -Piso 5 Despacho 523, Tampico, Tamps. Mexico. Tel. 2 34 77 and 2 46 62. Telex 01430. Cable: "Maritimex, Tampico."

VERA CRUZ: 19.12 N. 96.08 W. (See Plan Book)

PORT LIMITS: Area bounded by the reef lighthouses outside the breakwater.

DOCUMENTS: See "Coatzacoalcos".

PILOTAGE: Compulsory, advise Agent 24 hours before arrival giving name, flag, ETA and draft.

The Port Captain is to be given a min. of 2 hours' notice by the Agent. This to be done between 0800–1800 (Pilot office hours). Orders for Pilots between 1800-0800 hrs. to be made between 0800–1800 hrs.

The Pilot normally boards within the port limits, but if his services are requested outside such limits the Pilot will proceed to the location, i.e. the anchorage.

The pilot launch leaves from a "T" shaped pier when expected vessel is sighted. The launch has a black hull with white superstructure and false funnel painted black.

ANCHORAGE: In good weather, vessels may anchor in the outer area off the port, in the case of bad weather, to the South of the Isle of Sacrifices (Isla de Sacrificios). If the vessel prefers to anchor within the port limits, it must request the services of the Pilot and on anchoring for its own account within this sector must pay the fees due to the pilotage service.

RESTRICTIONS: In normal weather conditions there are no restrictions on entry and departure, the sole consideration being the draft of the vessel, since if this exceeds 29 ft. the time of the tide must be taken into consideration, and also after a strong North wind, a vessel drawing more than 24 ft. must wait for the tide. Depth in access channel 10.5 m.

MAX. SIZE: Length 200 m., at berth nos. 4 and 6 or the oil terminal.

HEALTH: The International Health Office gives a 24-hour service for the arrival and departure of vessels. To obtain free pratique on arrival of vessels there is a medical inspection, with submission of the Maritime Health Declaration, signed by the Captain, and examination of documents of Derat Certificate, certificates of vaccination of the crew and passengers; smallpox, cholera, yellow fever, (dependent upon the location from which the ship has come). Examination of crew members or passengers who might be declared as suffering from contagious illnesses. With these formalities fulfilled, free pratique is granted. Free pratique can be granted by radio, provided it is considered that the vessel's arrival will not give rise to the introduction or propagation of illnesses covered by the regulations, and that also the following requirements are fulfilled:

1. Exercise of greater epidemiological vigilance in respect of illnesses covered by International Health Regulations.
2. The Captain's radiogram must be presented to the International Health Delegation 8 hours in advance and must invariably fulfil all the stipulations as set out in the attached form.
3. Without prejudice to the foregoing, the Health Doctor or whomsoever he may designate, and where it is considered appropriate, shall go on board for the purpose of receiving the Maritime Health Declaration so that enquiries and verifications as may be considered necessary may be carried out.

Once the vessel has called at a national port, in subsequent national ports the requirements for obtaining free pratique will not be required, provided there does not exist on board any alteration in the health conditions as established in the Maritime Health Declaration.

Medical service to crew members and passengers on board foreign flag vessels is provided by doctors and private hospital institutions, through the intermediary of the consignee ship's Agent.

For possible handling of disease covered by the Health Regulations (smallpox, cholera, yellow fever, bubonic plague), there are isolation wards in the Official Hospitals "Aquiles Serdan" and "Regional de Veracruz".

The Office of International Health has immunisation services required for the diseases covered by the Regulation, which are certified on special international forms, with any cost, to crew members and passengers.

RADIO: Radio station Vera Cruz Radio, call sign XFU. Transmits on 420 and 451 kHz. and listens on 425, 454, 463 and 480 kHz. Also VHF Chanels 12, 16, 26 and 27.

TUGS: 4 tugs available, 810, 900, 1,000 and 1,200 h.p.; tugs' lines used at no extra charge. Tugs join vessels inside breakwater.

BERTHING:

Berth	*Capacity*	*Length (m.)*	*Depth (m.)*
No. 1	2 vessels	361.00	10
No. 2	2 vessels	431.00	9 to 10
No. 4	5 vessels	795.00	9 to 10
No. 6	5 vessels	725.00	9 to 11
No. 7	5 vessels	548.00	6 to 8
Marginal	3 vessels	682.00	9 to 10
Pemex	2 vessels	958.00	10

STEVEDORES: *Handling rates:* General cargo, 12 tons/per hook hour. Bulk cargo, 30 tons/per hook hour.

BULK HANDLING FACILITIES: Handling of grain at a mechanised plant, with storage capacity of 25,000 tons and an average discharge rate of 250 t.p.h. and loading rate of 400 t.p.h.

Handling of bulk sugar by mechanised installations, with storage capacity of 40,000 tons and an average loading rate of 800 t.p.h.

Handling of aluminium, coal brickettes, cement, latex, crystallised honey, chemical products, vegetable oils and crude oil.

MEDICAL: Doctors, dentists and hospital facilities available (see "Health").

TANKERS: Petroleos Mexicanos berth located in Northern part of port. Max. draft 28 ft. Berthing for 2 vessels of 170 m. LOA. Berth provides 5×8 in. lines for discharge of rerined product and 2×12 in. lines for fuel oil.

DENSITY: 1025.

FRESH WATER/FUEL: Available.

REPAIRS: Hull and machinery repairs can be effected by "Astilleros de Veracruz" (Vera Cruz Shipyard Company).

DRY DOCKS: "Astilleros de Veracruz S.A." has 4 docks, 2 floating and 2 dry docks. The largest of them is Floating Dock No. 4 with the following characteristics:

Length on stocks	169.210 m.
Internal useful beam	30.400 m.
Height of keel stocks	1.400 m.
Max. draft on keel stocks	8.200 m.
Lifting capacity	30,000 d.w.t.

Dock No. 2: with capacity for vessels up to 10.000 tons

Useful length	154.000 m.
Useful beam	19.400 m.
Draft	5.180 m.

Served by a 45 ton capacity crane

Floating Dock No. 3: with 3,000 ton capacity lifting capacity

Useful length	25.900 m.
Useful beam	13.550 m.
Draft	5.800 m.

Served by 2 (two) cranes of 10 ton capacity each.

Dry Dock No. 1

Length	45.720 m.
Useful beam	7.920 m.
Draft	2.130 m.

SURVEYORS: Lloyds, Norske Veritas and Germanischer Lloyd.

GANGWAY/DECK WATCHMEN: Available if required.

OPENING/CLOSING HATCHES: Mechanical hatches usually opened by crew, otherwise by stevedores.

CUSTOMS ALLOWANCES: 200 cigarettes and 1 bottle of spirits per man and will attend as necessary for further issues.

CARGO GEAR: Piers 1 and 2, 4×20 tons, 6×10 ton, 3×5 ton and 10×4 ton mobile cranes. Various cranes at piers 4 and 6. 2 floating cranes available max. lift 46 tons.

REPATRIATION: Possible, arranged by Agent.

AIRPORT: 8 km. from Vera Cruz, flights daily to Mexico City.

TIME: GMT minus 6 hours all year round.

HOLIDAYS: During the year the following holidays are observed: 1st January, 5th February, 21st March, 1st May, 5th May, 16th September, 12th October, 20th November and 25th December.

POLICE/FIRE/AMBULANCE: Police – 2.28.23, Fire brigade – 2.25.00, Red Cross – 2.01.40.

TELEPHONES: Available on most piers but not on vessels.

SERVICES: Provisions, laundries, and dunnage available. Garbage must be removed every 48 hours.

SHORE LEAVE: Possible.

DEVELOPMENTS: A new petroleum quay is to be constructed to take 2 tankers of 40,000 tons.

Container berth under construction, a transtainer, portainer crane and other equipment will be acquired in the near future.

GENERAL:

Government Secretariat – Local Administration Office

In accordance with the stipulations of Article 75 of the General Local Administration Law, vigilance of foreign crew members in vessels of any nationality tied up in national ports, together with visits or stays by the said crew members will be subject to the following requirements:

I. Heads of Local Government will designate accordingly personnel who will carry out vigilance of the vessel, in accordance with the provisions of Section II of Article 29.

II. Crew members may visit ports during the stay of the vessel, provided they deposit at the Local Administration Office their identity documents which for such purpose may be issued to them and their passports and other documents, all of which will be returned to them on re-embarkation.

III. Shipping companies, their Agents or consignee firms, for all legal purposes shall be responsible for the complete embarkation of crew members and for the costs involved in repatriating any who may remain behind after the vessel sails. When a crew member wishes to stay in the country, he must obtain documentation in compliance with one of the categories as set out in the appropriate Law and Regulations.

SHIPMASTER'S REPORT:

Documents:

1 Visaed and 9 Plain Spanish Crew Lists.
1 Visaed and 5 Plain Passenger Lists.
1 Visaed and 2 Plain Spanish Stores Lists.
2 Crew Customs Declarations.
5 Cargo Manifests.
1 Arrival form.

The Customs require a complete list of all shop goods priced in U.S. Dollars, failure to produce this will cause confiscation and $10,000 fine. The Customs thoroughly check bond and beer locker and seal same. All storerooms are also checked.

The Agricultural Inspector insists that all dry stores are fumigated and kept under seal for 24 hours. All refrigerated stores – except U.S.A. meat is sealed up.

Pilotage: Pilot boards 1 mile W.N.W. of Angeguda de Adentro Light beacon from black boat flying pilot flag.

Tugs: 2 tugs available for berthing.

Restrictions: Port open day and night. Prevailing Northerly winds are sometimes too strong to allow ships movement in harbour.

Health: Health authorities board after berthing.

Radio: ETA to be sent 48 hours in advance via XFB Cuidad de Carmen. Agent orders Pilot.

Fuel: Bunker C and Diesel are available. A mixing machine is being installed to supply intermediate. Bunkers are supplied from most quays and are expensive for foreign ships.

Consul: There is a British Consul.

Repairs: There are 3 drydocks and all repairs can be done.

Surveyors: There are Lloyds and N.B. Surveyors available.

Airport: The airport is 6 km. from Vera Cruz with twice daily flights to Mexico city.

AUTHORITY: Port Captain.

Monaco

NOTES

Please also advise Shipping Guides Ltd.

MONACO: 43.44 N. 07.26 E. (See Plan Book)

PORT LIMITS: The seaward boundaries of the port are materialized by the 2 breakwaters at the Eastern entrance.
DOCUMENTS:
2 Crew Lists.
2 Passenger Lists – 3 Landing Passenger Lists.
2 Store Lists.
1 Manifest (cargo).
1 Bill of Health.
Ship's Register.
PILOTAGE: ETA via Monaco Radio – Channel 16, 12, 23, 15, within range. Pilot boat is a small white tugboat with a black "P" painted on the hull. Meets vessels 1 mile radius from the harbour entrance.
ANCHORAGE: One half mile East of the Southern breakwater lighthouse. Depth at the anchorage 68 m.
MAX. SIZE: Max. length 130 m. Stern to the pier on the West side or alongside the North quay, only from October to March and with 8 days notice. Max. draft allowed: West Pier 8 m; North Quay, 6 m.
HEALTH: Health Declaration must be handed to the Customs. If coming from neighbouring countries (France, Italy, Spain) not requested.
RADIO: Monaco Radio VHF Channel 16. Port operations Ch. 12. Public telephone calls Channel 23 and 25.
RADAR: No port radar service.
TUGS: Pilot boat 96 h.p. available without notice. 1 tug boat 200 h.p. and 1 tug boat 450 h.p. Available without notice.
BERTHING: All 3 quays plus inner sides of the breakwaters and Western "T" pier are available for mooring yachts stern to. The port may be congested during the Summer season. The possibility remains of anchoring off the dock.
MEDICAL: There is a state hospital fully equipped for surgery etc.
FRESH WATER: Can be supplied at all berths alongside the quay. If vessel on roads water may be provided by barge up to 500 tons per day, with one week notice. Tel. Cannes 39.36.12.
FUEL: There is a fuel berth in port for yachts. No heavy fuel.
CONSULS: Most countries are represented in Monaco.
CUSTOM ALLOWANCES: Same as in French ports.
REPAIRS: Only for yachts.
DRYDOCKS: None.
REPATRIATION: Good railway connections.
AIRPORT: Nice – Cote d'Azur. Distance 25 km.
TIME: May to September GMT plus 2 hours. Other months GMT plus 1 hour.
HOLIDAYS: New Year – National Holiday, (Jan. 27); Easter Monday, (May 1st); All Saints Day – His Serene Highness' birthday Nov. 19. Harbour services work on Sundays and Holidays.
POLICE/FIRE/AMBULANCE: Maritime police Quai Antonie 1st Tel. 30.22.39; Ambulance/Police Secours Tel. 17; Fire brigade Tel. 18.
TELEPHONE: Available at all berths.
SERVICES: Engine repairs. Electronics. Maintenance for yachts. 220 volts available at all berths. TV aerial sockets at all berths free of charge.
SHORE LEAVE: Crew members allowed ashore.
DEVELOPMENTS: New yacht harbour now under construction.
REGULATIONS: *Recommendations to Ship-Owners, Masters and Crew Members:* Ship-owners, Masters and Crew members are strongly requested not to dispose of hydrocarbon, household refuse and other rubbish into the Monaco harbour (i.e. cartons and mainly plastic containers).

Used motor oils and other petroleum residues must be transferred into tanks exclusively provided for this purpose at the beginning of the North and South jetties and on the landing stages facing the Rainier III swimming pool.

These tanks are signposted with panels bearing the words "Huiles Usees" (used oil) in red letters on a white background.

Household refuse and other rubbish are to be put into garbage containers located around the harbour throughout the year. Furthermore, during the Summer, special individual bags are made available free of charge to all in-coming vessels.

Those responsible for ships equipped with used water tanks or bilges are requested to empty these containers off the coasts of the Principality at a minimal distance of 3 miles.

Those whose ships are not equipped with these used water tanks are requested not to dispose of their used water during their stay in the Monaco harbour, and to use the sanitary installations and facilities made available to them within the harbour.

Offenders infringing the above provisions will be penalized in accordance with the stipulations of Law No. 954, dated April 19, 1974, dealing with the fight against water and air pollution.
AUTHORITY: Captain J.B. Cornelius – Harbour Master .

Morocco

AGADIR: 30.25 N. 09.38 W.

DOCUMENTS:
Health Declaration.
4 Cargo Manifests.
6 Stores Lists.
6 Crew Lists.
6 Passenger Lists.

PILOTAGE: Compulsory. Pilot boards at port entrance. International code signals used.

ANCHORAGE: Good anchorage in open roadstead.

MAX. SIZE: Up to 29 ft. draft.

HEALTH: Pratique given immediately after berthing when port doctor boards.

TUGS: 2 tugs available, 1 × 350 h.p., 1 × 1,275 h.p.

RADIO: Agadir Radio operates 24 hours a day.

BERTHING: Alongside pier: berth 475 m. long, 9 m. depth; berth 380 m. long, 6 m. depth.

MEDICAL: Doctor and hospital facilities available.

FRESH WATER: Available from pipe-line at berths.

FUEL: Fuel and gas oil available from pipe-lines at berths.

GANGWAY/DECK WATCHMEN: Available but not compulsory.

STEVEDORES: ETA required 24 hrs. in advance to arrange gangs.

OPENING/CLOSING HATCHES: Performed by stevedores.

CUSTOMS ALLOWANCES: Crew allowed normal daily consumption of tobacco, wine and spirits.

IDENTIFICATION CARDS: Required.

CONSULS: France, Spain, Belgium and Portugal represented locally.

REPAIRS: Small machinery and electronic repairs can be effected.

POLICE/FIRE/AMBULANCE: Police, tel. 23-49; Fire, tel. 22-43; Ambulance, tel. 19.

HOLIDAYS: 1st January, 6th January, 19th March, Maundy Thursday, Good Friday, 1st May, Ascension Day, Corpus Christi, 29th June, 18th July, 25th July, 5th August, 15th August, 12th October, 1st November, 8th December, Christmas Day. Work may be arranged on all holidays except Good Friday.

SHORE LEAVE: Allowed.

AUTHORITY: Director del Puerto.

CASABLANCA: 33.36 N. 07.37 W. (See Plan Book)

PORT LIMITS: Vessels considered as "arrived" when passing buoy CA 5 in position 33° 37′ 05″ N. 7° 35′ 02″ W.

DOCUMENTS:
Certificate of Registration.
Cargo Manifests.
Crew Lists.
Passenger Lists.
Customs Declaration.
Bill of Health.
Ship's Entry Declaration.
International Tonnage Certificate.

PILOTAGE: Compulsory for all merchant vessels of 100 tons and over, in the area between the meridians 7° 37′ 10″ W. (the root of Jetee Moulay Youssef) and 7° 33′ 50″ W. (Table d'Oukacha) and South of the parallel 33° 37′ 4″ N. Pilotage is available day and night. The Pilot meets vessel at the CA5 buoy.

A red flag displayed at the signal station by day indicates that the Pilot cannot come out, on account of the sea, but vessels may enter the port at their own risk, and the Pilot will await them under the shelter of jetee Moulay Youssef. Should bad weather prevent the Pilot from coming out, a vessel should not attempt to enter the harbour at night. The Master may contact the Pilot station for port radar service by VHF Channel 12.

ANCHORAGE: The anchorage outside Casablanca harbour is partially protected from winds between S. and W. but a Westerly swell finds its way into the bay. With a heavy Westerly or North-westerly swell the anchorage becomes dangerous.

The holding ground in most places outside the harbour is poor, but a berth with good holding ground may be obtained in a depth of 13 fathoms N. of jetee Moulay Youssef. There are numerous anchorage berths in the harbour, some at mooring buoys, in depths up to 12 m. 8 (42 ft.).

MAX. SIZE: Max. length permissible, about 884 ft.; max. breadth permissible, about 105 ft.; max. draft permissible, about 32 ft.; but normally 30 ft. for berthing alongside. Tankers: up to 34 ft. draft.

HEALTH: Masters must fill in the declaration of health and display the "Q" flag, to obtain pratique. In the event of any suspected disease or fever on board, Masters have to warn their Agent before the ship's arrival.

RADIO: The name of radio station for ETA cables to Agents, receivers, etc., is Casablanca Radio.

TUGS: There are 6 tugs of 800–1,500 h.p. 3 of them are sea-going tugs fitted with modern salvage apparatus. Normally tugs join the vessel at port entrance. To call them, 4 long blasts and 1 short for one tug, 4 long blasts and 2 short for 2 tugs, etc. Ship's lines are mostly used.

BERTHING: To arrange berth, ETA message should be given 24 hours before the ship's arrival.

Mooring. When making fast to the jetty by the stern, the anchor should be let go at a sufficient distance from the jetty to allow for a good scope of hawsers.

Vessels are recommended to secure with special 10-in. coir hawser tailed with wire. It is recommended to moor head to the swell, but in bad weather a vessel should be ready to leave at short notice.

CARGO HANDLING: Phosphate loading: up to 5,000 t.p.h. Depth alongside 32 to 26 ft.

Grain Handling: discharging 800 t.p.h., loading 400 t.p.h. Depth at silo berths 30 ft.

Containers: straddle carrier for handling up to 20 ft. containers.

Roll-on/roll-off: three berths for roll-on/roll-off vessels, depth 30 ft.

STEVEDORES: There are 13 stevedoring companies. Normal working days are in two shifts (from 0700 to 1500 hrs. and from 1500 to 2300 hrs.). Ship's Agents arrange gangs in connection with stevedores. Two daily orders (at 1100 and 1600 hrs.) are made to fix the number of gangs.

MEDICAL: It is necessary for Agent to receive advance notice of required medical attention. Hospital facilities available. Only smallpox vaccination certificates are required.

TANKERS: There are 4 tanker berths, *(a)* one for Import and Export of white products and max. permitted draft 34 ft. (Berth P3). *(b)* three berths for Import and Export of black products. These berths (No. 60, 61 and 62) are situated inside the harbour, vessel's draft should not exceed 30 ft.

FIRE PRECAUTIONS: Two firemen remain on board tankers while vessel berthed alongside. One fireman is required for other vessels carrying dangerous cargo.

FRESH WATER: Numerous feeders along berths. Also delivery by barges is possible.

FUEL: All grades available. Ex-wharf or by barge.

CONSULS: The following countries are represented by consuls in Casablanca:
Austria
Spain
Italy
Haiti
Finland
Great Britain
Greece
Germany
Norway
Sweden
Yugoslavia
Brazil
Netherlands
Algeria
Argentina
Belgium
Denmark
France
Poland
Panama
U.S.A.
Portugal

GANGWAY/DECK WATCHMEN: It is necessary to have watchmen on board. They are hired by the ship's Agent.

OPENING/CLOSING HATCHES: This work is normally carried out by stevedores.

CUSTOMS ALLOWANCES: 200 cigarettes are permitted for each crew member to be held out of bond.

IDENTIFICATION CARDS: Needed.

REPAIRS: Only small repairs and dry docking works are carried out.

DRY DOCKS: One large dry dock, 152 m. long and 22 m. wide (lifting power 10,000 tons). Three slips for ships up to 700 tons.

REPATRIATION: Facilities exist for effecting crew change and arranging any necessary repatriations.

AIRPORT: Distance from airport, 25 miles. International connections.

POLICE/AMBULANCE/FIRE: Police, 2210–74 or 19; Ambulance, 15; Fire, 15.

TELEPHONES: Only arrangements for placing telephones on board passenger ships are possible.

SHORE LEAVE: Crew members are allowed ashore.

AUTHORITY: Directeur du Port.

AGENT: Lasry Maroc, 61, Avenue de l'Armee Royale, Casablanca. Telex: 21949–21092. Tel.: 2688–75 – 2669–46. Cables: "Jolasry".

EL JADIDA (Mazagan): 33.15 N. 08.31 W. (See Plan Book)

DOCUMENTS: As for "Casablanca".

PILOTAGE: Arranged by Agent, basis vessels ETA given in advance. Pilot boards about 2 miles from the port entrance.

ANCHORAGE: About half a mile from head of North jetty in depths of 13 to 14 m. Hard rock bottom covered in sand. Holding ground is fair only.

RESTRICTIONS: The port comprises an entrance channel 50 m. wide and an outer harbour area 7 hectares, partially dredged to 3 m. depth to make a waiting basin. In the Southern part of the outer harbour is a quay, called the barge quay, 120 m. long, dredged to 6 m. depth.

MAX. SIZE: No limitations for vessels anchoring. For entering harbour, max. length 80 m., draft 5 m., entering at high water.

RADIO: No local radio station. Use Casablanca Radio for messages to Agent.

TUGS: Available. Normally join vessel 2 miles from port entrance.

CRANES: Two electric cranes and 1 diesel crane available.

MEDICAL: Hospital facilities available. Vaccinations can be arranged.

FRESH WATER: Available at the quay.

FUEL: Can be supplied subject to 24 hours notice.

WATCHMEN: Recommended to employ watchmen.

OPENING/CLOSING HATCHES: Work performed by ship's crew.

CONSULS: The only consular representatives are those of France and Portugal.

REPATRIATION: Can be arranged via Casablanca.

REPAIRS: Small repairs can be done on board, or parts sent to Casablanca. One small dry dock reserved for Port Authority vessels and fishing boats.
AIRPORT: Nearest commercial airport is Nouasseur. The airport at Camp Cazes, Casablanca, operates for internal flights only.
HOLIDAYS: Sundays and holidays, except for National holidays, can be worked on payment of overtime.
POLICE/AMBULANCE/FIRE: Police, tel. 19; Ambulance, tel. 15; Fire, tel. 15.
TELEPHONES: Cannot be connected to vessel, but telephone situated on the quay.
AUTHORITY: Ingenieur des Travaux Publics.

KENITRA: 34.17 N. 06.30 W.

Situated on the left bank of the Oued Sebou, 17 km. from the Atlantic.
PILOTAGE: Pilotage is compulsory for entering and leaving port. Vessels must wait outside the port entrance for the tide. It is possible to enter from 2 hours before until 1 hour after high water during the night, and from 3 hours before until 2 hours after high water during the day. The Pilot boards vessels at river mouth. The Pilot will be on station 2 hours before high water.

On arrival at the Roads or after 0830 hrs., call the Pilotage Department and advise arrival time at the Roads and draft.

Pilotage Department on VHF Channel 16 and 2182.
RESTRICTIONS: From the mouth of the river up to the port is a dredged channel. Depths are 4.20 m. during neap tides and 5.40 m. during spring tides. Height of tide during neap tide is 2.60 m. Height of tide during spring tide is 3.80 m. The constant is 1.60 m.

During the Winter it is recommended to stay outside the port in strong squalls. Ships are advised by Kenitra port radio of the possibilities for entering port.

Between November and April there is a total of 6 or 7 individual days when the port is closed to navigation, due to weather conditions.

Vessels are berthed and unberthed in daytime only at present time.
RADIO: Messages to ship's Agent should be sent through Casablanca Radio. In the ETA message to Agent, also advise vessel's draft. There is a radio station at Kenitra for port use only. Watch-keeping hours are only during high water, on 2182 k/Hz.
TUGS: Two tugs of 250 h.p. and one of 130 h.p.
BERTHING: The outer port used only by trawlers, and a mooring quay of 360 m. length belonging to the Royal Moroccan Navy. The length of main quay is 870 m. and includes 10 berths. In addition to the above there is a jetty for wine vessels, and a jetty for oil tankers.
FRESH WATER: Supplied alongside the quays.
FUEL: There are supplies of diesel oil, gas oil and petrol in the port. These products supplied by tanker lorry along the quay.
REPAIRS: There are workshops for small running repairs in the port. There is a slipway for ships up to 400 tons.
CONSULS: The Consular representatives at Kenitra are those of Belgium, France, Portugal.
AIRPORT: The nearest commercial airport is that of Rabat-Sale and there is a small airfield at Kenitra.
AUTHORITY: Directeur du Port.
AGENT: Consortium Industriel Commercial Maritime, 19 Boulevard Imam Ali, Kenitra. Tel. 21 39, 28, 37, 22 56 (2 lines). Telex: 31030 Boutrans 31966 Incomar. Cables: "Incomar Kenitra".

MELILLA: 35.18 N. 02.57 W.

DOCUMENTS:
Health Declaration.
4 Cargo Manifests.
2 Stores List.
5 Crew Lists.
5 Passenger Lists.
PILOTAGE: Compulsory for vessels over 500 tons. ETA to Agent required at least 10 hours before arrival to arrange Pilot. Pilot boards at anchorage near port entrance. International code signals used.
ANCHORAGE: Half a mile East of port entrance, in depths of 14 to 20 m.
RESTRICTIONS: Entrance normally in daylight only. In case of emergency vessel may enter at night.
MAX. SIZE: Up to 32 ft. draft.
HEALTH: Pratique obtained immediately after berthing when vessel boarded by health officials.
TUGS: One tug of 550 h.p. available.
MEDICAL: Doctors and hospital facilities available. Vaccinations can be arranged.
TANKERS: One oil berth for tankers up to 32 ft. draft.
FRESH WATER: Available at all quays.
FUEL: Available subject to advance notice.
GANGWAY/DECK WATCHMEN: Available. Consignee Agents have their own watchmen for goods on the quay.
OPENING/CLOSING HATCHES: This work is carried out by stevedores.
CUSTOMS ALLOWANCES: Crew allowed normal daily consumption of tobacco, wine and spirits.
IDENTIFICATION CARDS: Required.
CONSULS: France and Italy are represented locally.
REPAIRS: All types of engine and hull repairs can be effected for smaller vessels.
REPATRIATION: All facilities available.
AIRPORT: Situated 1 km. from the city. 3 daily flights to Malaga, except on Sundays.
HOLIDAYS: 1st January, 6th January, 19th March, Maundy Thursday, Good Friday, 1st May, Ascension Day, Corpus Christi, 29th June, 17th July, 18th July, 25th July, 15th August, 12th October, 1st November, 8th December, Christmas Day. Work may be arranged on all holidays except Good Friday.
POLICE/FIRE/AMBULANCE: Police, tel. 1741 or 1744; Fire, tel. 1693; Ambulance, tel. 1441.
TELEPHONES: It is possible to arrange for a telephone to be placed on board.
SHORE LEAVE: Allowed.
AUTHORITY: Ingeniero Director del Puerto.

MOHAMMEDIA: 33.45 N. 07.22 W. (See Plan Book)

DOCUMENTS:
Bill of Health.
3 Crew Lists.
3 Passenger Lists.
3 Provisions Lists.
Manifests and Ship's Papers for Agent.
PILOTAGE: Compulsory for vessels entering or leaving the harbour or shifting berth. Pilot available for vessels arriving during night and wishing to enter the basin when conditions are possible.
ANCHORAGE: Three good anchorages in depths of 11 to 6.5 fathoms about a mile N.E. of the entrance, and N.W. and S.E. of the pipe-line area.
RESTRICTIONS: Vessels with a draft over 15 ft. wishing to berth in the basin, are obliged to wait for tide.
MAX. SIZE: Sea line installation: tankers up to 45,000 tons d.w.t.
Imodco Buoy Berth: tankers up to 100,000 tons d.w.t.
For the basin: max. length 150 m., max. draft 6.9 m. (22 ft. 8 in.).
HEALTH: Port sanitary control officer boards immediately after arrival for pratique delivery. In the event of any suspected disease or fever on board, it is necessary to advise by radio to Agent 24 hours before arrival. Pratique is automatic after calling at another port of Morocco.
RADIO: Casablanca Radio station.
TUGS: There are no tugs but 3 Pilot boats of 150 h.p. will assist vessels if necessary, or tugs can be ordered from Casablanca.
BERTHING: Vessels up to 150 m. in length and drawing up to 6.9 m. (22 ft. 8 in.) at Spring tides and 5.4 m. (18 ft.) at Neaps.

Quay No. 1 has a length of 70 m. with a depth of 8.50 m. (28 ft. alongside).

Quay No. 2 has a length of 170 m. with a depth of 5.50 m. (18 ft. alongside).

Quay No. 6 has a length of 60 m. with a depth of 6.00 m. (19 ft. 8 in. alongside).
TANKER BERTHS: Single buoy mooring located in position 33° 44′ 01″ North, 7° 23′ 02″ West in depth of water 70 ft. Diameter of swinging area: 850 m. The buoy is marked by a white light flashing once every 3 seconds, also equipped with radar reflector and fog horn, which sounds, once every twenty seconds.

Vessels may be berthed by day or night. Mooring is effected by 2 floating nylon ropes, each 40 m. long, made fast to the fore end of the vessel.

The buoy is connected to a floating crude oil line, 20 in. diameter, with two flexible hoses of 16 in. diameter. One flexible hose of 8 in. diameter is available for discharging refined products. There are no facilities for discharge of slops or dirty ballast.

There is also a conventional buoy berth, in depth of 50 ft. Diameter of discharge lines 14 in. No slop discharge facilities.

Smaller tankers may also berth at harbour quay No. 1.
STEVEDORES: The loading and discharging capacity of general cargo or timber is 300 tons per day. Gangs are arranged by the stevedores according to the cargo plan given by the consignee to the harbour authorities.
MEDICAL: There is the hospital in Mohammedia, and other hospitals and clinics in Casablanca (16 miles away). Vaccinations can be arranged.
DENSITY: 1025.
FRESH WATER: Water can be supplied at any time alongside the quays at the rate of 15 t.p.h. There is no fresh-water supply to the offshore tanker terminals.
FUEL: Available from Casablanca at 48 hours notice.
FIRE PRECAUTIONS: All tankers are confined by gates and watched over by special firemen.
GANGWAY/DECK WATCHMEN: Services of watchmen are recommended.
OPENING/CLOSING HATCHES: This work is normally carried out by crew. When carried out by stevedores the cost is charged.
IDENTIFICATION CARDS: Passport required and police permit for leaving the harbour.
CONSULS: There is no consul in Mohammedia. All are in Casablanca.
AIRPORT: The nearest airport for international flights is Nouasseur. Casablanca Airport operates internal flights only.

HOLIDAYS: 1st January; 1st May; 3rd March; 18th November; and any other religious holidays which are not at regular dates. Only on two days (1st January and 1st May) no cargo work can be arranged.
POLICE/AMBULANCE/FIRE: Police, 21.51; Ambulance/Fire, 15.
SHORE LEAVE: Allowed.
AUTHORITY: RAPC, Port de Mohammedia.

SAFI: 32.19 N. 09.12 W.

DOCUMENTS: Clearance procedure is very simple. 3 Crew Lists, 1 Personal Effects Lists, 3 Passenger Lists and 1 Stores Lists only are required. Other documents are presented on berthing.
PILOTAGE: Arranged by vessel's Agent, to whom a correct ETA should be given. There is VHF radio contact with the pilot station and Harbour Master's office. The pilot boat is located inside the harbour and the Pilot boards in the anchorage. Pilot ladder only is required.
ANCHORAGE: Recommended anchorage is S.W. of harbour entrance. Safe holding ground for 25,000 d.w.t. vessels. Vessels should keep port entrance clear.
MAX. SIZE: Vessels with a draft of more than 28 ft. and up to a max. of 30 ft. enter and sail at higher water.
HEALTH: Health Officer boards shortly after berthing but Agent must be advised before arrival if suspected disease or fever on board. Health clearance in one Moroccan port holds good for the next.
RADIO: Casablanca Radio for normal traffic or Safi Radio for local R/T traffic. Harbour Radio VHF Channel 16.
TUGS: Tugs stand by vessel inside breakwater and, usually, ship's lines are used.
BERTHING: Vessels berth in order of arrival. Port used for export of manganese and barytes. No night entry after 1900 hrs.
STEVEDORES: Gangs are arranged by vessel's Agent. Night work is possible from 1800 to 2200 hrs. and, very exceptionally, until 2400 hrs.
MEDICAL: Advanced notice of required medical attendance is advisable but not essential. Modern hospital and clinic are available. Smallpox vaccination only is necessary except when vessels have called at cholera and yellow fever ports.
TANKERS: Only small tankers used in this port. White products and gas oil imported; no export. Ammoniac tanker berth max. draft high water 30 ft.
DENSITY: Density varies between 1024 and 1026.
FRESH WATER: Availability not limited, by hoses from quay.
FUEL: Limited supplies gas oil; diesel available but must be stemmed. Fuel oil and large quantities diesel, gas oil can be delivered by tanking lorry from Casablanca.
GANGWAY/DECK WATCHMEN: Watchmen necessary. One watchman day and night.
OPENING/CLOSING HATCHES: Normally done by crew but can be arranged by stevedores with advance notice.
CUSTOMS ALLOWANCES: 200 cigarettes, and one open bottle of spirit allowed each man. Bond is sealed and heavy fines are imposed by Customs for smuggling.
IDENTIFICATION CARDS: These are needed.
CONSULS:

Denmark,	Tel. 30.39	Portugal,	Tel. 23.58
Finland,	Tel. 31.40	San Salvador,	Tel. 28.76
France,	Tel. 27.97	Sweden,	Tel. 29.06

REPAIRS: Major repairs not possible; small workshops only for repairing fishing boats.
REPATRIATION: Repatriation by air or sea through Casablanca, 150 miles away.
AIRPORT: Nearest at Novasseur, served by principal European airlines.
HOLIDAYS: On the following holidays no work is possible: 1st January (New Year's Day); 3rd March (Coronation Day); 1st May (Labour Day); 18th November (Independence Day). Other Moslem and Christian holidays are subject to last minute decisions as far as tariff is concerned, but work can be arranged.
TELEPHONES: No telephones can be placed on board. Public telephone available on the quay during working hours only.
GENERAL: Masters are strongly advised to take local currency from their Agent. Landing of foreign currency encourages black market transactions and incurs confiscation and heavy fines as well as delays by the Customs authorities.
SHORE LEAVE: Police permits are required by Liberty men and are delivered by Immigration Authorities.
AUTHORITY: Capitainerie de Port.

TANGIER: 35.47 N. 05.48 W. (See Plan Book)

PORT LIMITS: Vessels considered to be an "arrived ship" subject to Charter Party terms, on passing the line joining Pointe de Malabata, 35° 48′ 53″ N. 05° 45′ 00″ W. and the mouth of l'Oued el Youd, 35° 47′ 26″ N. 05° 50′ 00″ W.
DOCUMENTS: Required on arrival:
- Health Declaration.
- 2 Crew Lists.
- 7 Cargo Manifests.
- 5 Lists of Passengers Disembarking.
- 4 Lists of Passengers in Transit.

Required on departure:
- 5 Cargo Manifests.
- 5 Manifests of Passengers Embarking.

PILOTAGE: Pilotage is compulsory for ships of more than 50 g.r.t. for entering, leaving and shifting in harbour. Vessels arriving during the night must anchor outside the port, and are boarded by the Pilot after 0600 hrs. the following morning. Pilot on VHF Channel 16. Vessels should advise arrival 6 hours in advance.
ANCHORAGE: There are good anchorages to the East and Southeast of the breakwater head in depths of 10–16 m.
RESTRICTIONS: The harbour area between the breakwater and the extremity of the main pier has a min. depth of 9 m. Max. height of tide is 2.40 m., min. height is 0.10 m. West to S.W. winds from October to May. N.E. to Easterly winds from May to October, often very strong (the Levante).
TUGS: The port owns 4 tugs, 1,500, 500, 375 and 250 h.p. respectively. 2 of these tugs are equipped with fire-fighting equipment.
BERTHING: The port is protected by a breakwater 1,300 m. long on which is a tanker terminal dredged to 9 m. depth, 290 m. of quay dredged to 9 m., 160 m. of quay dredged to 8.50 m. and 100 m. of quay dredged to 5 m. These last 2 berths, which are reserved, the first for large car ferries and the second for the Gibraltar Ferries, are equipped with special ramps for disembarking vehicles.

In the South of the dock enclosed by the breakwater is a pier at which are 2 berths, 1 of 330 m. length dredged to 9 m. over 130 m. length and with 6 m. depth over 200 m. length. The other berth is dredged to 4 m. depth over 100 m. length and to 3.50 m. depth over 100 m. length.

In the Western part of the harbour there is a jetty of 100 m. length with berths on both sides each having depths of 6.50 m. This jetty is used by passenger ferries and is equipped to serve vessels discharging vehicles at the stern.

The port also includes a small jetty called the Yacht Jetty with depths varying from 2 m. at its foot to 3.50 m. at the jetty head. The small harbour inside the jetty includes the quays of the fishing port, the Yacht Club and barge berths.
FRESH WATER: Replenishment of fresh water can be made at all times alongside the quays at the rate of 30 t.p.h.
FUEL: There are no refuelling installations at the quays. Only very small quantities can be supplied by tanker lorries belonging to the oil companies.
STEVEDORES: Normal working hours are from 0800–1200 hrs. and from 1400–1800 hrs. Ships may be loaded and discharged outside these hours on payment of overtime. Usual loading and discharging rates are as follows: 15–18 t.p.h. goods in sacks; 12–15 t.p.h. for bales; 10 t.p.h. for general cargo; 7–8 t.p.h. for cork.
REPAIRS: There are no facilities for repairs in the port.
AUTHORITY: Regie d'Aconage du Port de Tanger.
AGENT: Lasry Maroc (Tangier), 4 rue de la Mediterrannee, Tangier. Telex: 33064. Tel. 335–75–325–76. Cables: "Jolasry".

NOTES

Please also advise Shipping Guides Ltd.

Mozambique

BEIRA: 19.46 S. 34.50 E. (See Plan Book)

PORT LIMITS: Vessels are considered to be "arrived ships" when they enter the pilotage area, i.e. when they enter to within a radius of 5 miles from the pilot boat. The custom of the port is that vessels are in "free pratique" only when they have entered port and have been cleared by the Immigration Authorities. Immigration will only clear vessels in port.

DOCUMENTS:

Customs Clearance from last port.
Health Certificate.
6 Crew Lists.
6 Lists Passengers in Transit.
7 Lists Passengers Disembarking.
2 Stores Lists.
2 Lists Deck Stores.
2 Lists Cargo in Transit (main items of cargo only).
6 copies of Manifest of Beira Cargo.

PILOTAGE: Compulsory for all ships other than naval vessels. Ship's name, ETA and draft should be radioed via Beira Radio, call sign CRS, 24 hrs. in advance to Port Captain Beira and owner's Agent.

The pilot boat – black hull, grey upperworks, black funnel with white "P" – is stationed 19° 52′ 47″ S., 34° 57′ 21″ E. Pilot boat call sign CRL H – W/T: listens on 500 kc/s., replies on 480 kc/s., – R/T: listens on 2,182 kc/s., replies on 2,341 kc/s. – VHF: frequency 156.6 Mc/s. (Channel 12).

Unless instructed to the contrary by the pilot boat, vessels with a draft under 25 ft. anchor by "P" buoy, 19° 52′ 47.3″ S., 34° 57′ 21.1″ E., and vessels with draft over 25 ft. anchor between "P" and "A" buoys, 19° 56′ 20.1″ S., 35° 02′ 44″ E.

In bad weather pilot boat may leave above position and enter port. In such cases vessels should anchor as indicated above, weather permitting.

ANCHORAGES: At Bar, "P" and "A" buoys as indicated above. There is anchorage for 4-6 ships, depending on size, in inner harbour off Cabedelo sand-pit.

RESTRICTIONS: Ships with draft 16 ft. and under can enter at any time. Ships with draft over 16 ft. generally enter 2 hrs. either side of high water.

MAX. SIZE: Max. permissible length about 800 ft. Max. permissible drafts between 33-36 ft. at springs, about 27-29 ft. at neap tides.

HEALTH: Vessel to radio "Sanidade Maritima", Biera, their ETA and "All Well". If "All Well", Health Certificate given by Pilot.

RADIO: Vessels to route messages through Beira Radio – call sign CRS. Agents radio ships through same station. Naval Radio Station – call sign CRX 3 available for distress signals.

TUGS: Join incoming vessels at inner anchorage, about 1 mile distant from quays. Ship's lines used. 4 tugs available, up to 3,200 h.p.

BERTHING: No night berthing done unless with prior consent of Chief Pilot, otherwise no specific requirements.

Pungue Wharf:

Berth No.	*Max. Depth (ft.)*	*Length of Berth (ft.)*	*Cranes (Electric)*	*Max. Jib. Ext. (ft.)*
1	28	580	2× 6 tons 4× 3 tons	55
2	29	530	2× 6 tons 4× 3 tons	55
3	29	530	3× 6 tons 3× 3 tons	55
4	30	530	2× 6 tons 3× 3 tons	55
5	30	530	2×3.5 tons 1× 5 tons 1× 3 tons	55
6	32	540	1×10 tons 5× 5 tons	75
7	32	540	1×10 tons 5× 5 tons	75
8	30	630	—	Coal/Ore Berth
9	30	550	1×10 tons 5× 5 tons	75
10 (Oil Berth)	31	550	1×20 tons 5× 5 tons	75

Range of Tides: 15–21 ft. Maximum depth of water should only be taken as an approximate guide as actual depths are dependent on the port dredging programme. Maximum permissible draft for turning ships round at or off the wharfs is 30 ft.

Chiveve Cais; length, 446 m.; depth, max. 10 m., min. 3 m.

CARGO-HANDLING FACILITIES: There is a mechanical ore appliance at No. 8 Berth Pungue Wharf, used mainly for minerals like chrome, etc. This appliance has an average loading rate of 400 t.p.h. It is equipped with only one spout.

Mobile Cranes: 25 cranes with capacity 1-10 tons.

Electric Cranes: See "Berthing"– Pungoe Wharf.

Steam Cranes: 19 cranes at Chiveve Wharf with capacity 3-20 tons.

Molasses: Storage tanks, capacity 18,000 tons. Served via No. 8 Berth.

Vegetable Oils and Tallow: 3 tanks×400 tons capacity.

STEVEDORES: Ordered by Agent. Vessels should advise Agent their ETA at least 12 hrs. in advance (weekdays), 24 hrs. in advance (week-ends).

Port Cargo Working Hours:

Normal	– Weekdays	– 0700–1100 1300–1700
	Saturdays	– 0700–1100

Overtime – The remainder of the day and up to 1700 hrs. on Sundays is considered overtime and is compulsory. All vessels are required to work full overtime including Saturdays and Public Holidays as ordered by Port Authorities. The only time when no work is carried out is from 1700 hrs. on Sundays to 0700 hrs. on Mondays.

MEDICAL: No advance notice required for medical attention, unless urgent assistance necessary. Hospital facilities available. Crew members and passengers should be in possession of valid smallpox and yellow fever certificates (cholera certificate too if from cholera area) on international forms. Vaccination/fever inoculations and certificates may be obtained ashore if required.

TANKERS: Discharge lines white and black oils, 2×10-in. lines feeding into 12 and 14-in. lines leading to storage tanks. Also a 22-in. discharge line for crude oil. No slop discharge facilities. 2 tanker berths, max. permitted drafts about 31 ft.

DENSITY: In harbour area allow 3 to 4 in.

FRESH WATER: Available at all Pungue Wharf berths, pumping rate about 50 t.p.h. Also available from water barge.

FUEL: Fuel oil 1,000 Secs R. viscosity, marine diesel 43.1 Secs R., diesel 34.1 Secs R. 3-4 days advance notice required. Bunkers delivered when alongside, no bunkering barge available.

GANGWAY/DECK WATCHMEN: Compulsory to employ watchmen to prevent pilferage.

OPENING/CLOSING HATCHES: Can be done by either crew or stevedores. Often done by crew.

SHIP CERTIFICATES: Tonnage Certificate to be produced to Pilot, as certain port dues are based on vessel's registered tonnage.

CARGO GEAR: All gear supplied by stevedores except rope slings, rain tents, and spreaders for heavy lifts.

IDENTIFICATION CARDS: Required. Passport if possible, otherwise Seamen's Book.

CONSULS: British (Tel. 22032), Belgium (23284), France (24074), Greece (23898), Holland (23174), Italy (22197), Malawi (24312), Norway and Denmark (22091), Panama (271519), Swiss (23137), South Africa (271251).

REPAIRS: Most types of deck and engine repairs are possible, but major repair jobs are not undertaken.

DRY DOCKS: 1 dry dock 115×17×8.5 m., suitable for ships up to 5,000 tons, LOA 377 ft. and max. beam 55ft.

REPATRIATION: Facilities exist for nationals of those countries maintaining diplomatic relations with Mozambique. A valid passport is necessary as Immigration authorities do not recognise a Seamen's Book as being a valid travel document.

AIRPORT: Beira Airport situated 7 miles from sea port. Regular flights to all destinations.

TIME: Local time 2 hrs. ahead of GMT. No alterations made to clocks during year.

HOLIDAYS: New Year's Day (1st January); National Day of Portugal (10th June); Corpus Christi (variable date); Assumption (15th August); Beira City Holiday (20th August); Republic Day (5th October); All Saints' Day (1st November); Restoration of Republic (1st December); Immaculate Conception (8th December); Christmas Day (25th December); No cargo work on 1st January and 25th December; on other holidays work continues normally in the port.

POLICE/AMBULANCE/FIRE: Port Police (Tel. 22920); Ambulance (22442); Fire (22222).

TELEPHONES: Can be placed on board. These telephones must only be used for local calls, not trunk calls.

GENERAL: Beira port works 24 hrs. per day, 7 days a week (except 1st January and 25th December) and overtime working is compulsory.

SERVICES Services available for tank cleaning, compass adjusting, minor repairs to radar and radio.

SHORE LEAVE: Crew members are allowed ashore, excepting nationals of those countries not maintaining diplomatic relations with Mozambique.

DELAYS: Generally no delays, but sometimes 24-48 hours delay following rain or bunching of arrivals.

MAPUTO: 25.59 S. 32.36 E.

DOCUMENTS:

6 Crew Lists.
1 Stores List.
6 Passenger Lists.
Last Port Customs and Port Clearance.
1 List of Ports of Call.
1 Health Declaration (given by Pilots on arrival).
1 Entrance Report (given by Pilot on arrival).
1 Customs Entrance (given by Agent on arrival).
1 Railway Statistics Form (given by Agent on arrival).

PILOTAGE: Compulsory. Channels in 24-hour use, but sailing after 2400 only by special arrangement with Immigration. Berthing only during day-light. Pilot station about 26 miles from Maputo wharf if South entrance used; 55 miles if North entrance used.

Pilot granted only if 16 hours' notice of ETA given.

On arrival vessels can contact Pilot on VHF Channel 16 (working on Channel 12).

The pilot ladder is used together with the accommodation ladder in order that the Pilot has a climb of 9 ft. on the pilot ladder.

IMMIGRATION CLEARANCE: Inwards: 0600–1800 hrs. only inside harbour proper. Outwards: 0600–2400 hrs. except in special circumstances.

N.B. Vessels at the pilot station cannot obtain pratique because this includes Immigration clearance and can therefore be considered as not having arrived or not being in all respects ready to load.

ANCHORAGE: Inside harbour: One each for vessels drawing 33, 31, 27 and 26 ft. respectively. Six for vessels between 17 and 19 ft. Vessels delayed in berthing are brought in from pilot station at port's convenience.

RESTRICTIONS: Berthing during day-light only. Unberthing 0600 hrs. to 2400 hrs. with exceptions of Matola piers where ships can only unberth during day-light. Ships over 650 ft. may not pass through dredged Channels at night. Ships up to 23 ft. may sail at any time, any tide up till midnight. Thereafter arrangements to be made with the Pilot Department for ETD.

MAX. SIZE:

	Max. *LOA*	*Depth* *L.W.O.S.T.*
General Cargo Wharf	750 ft.	22 ft.–34 ft.*
Matola Oil Pier	750 ft.	32 ft. 6in.
Matola Ore Appliance	820 ft.	40 ft. but governing draft is at the North Bar.*

*Maximum drafts published by Port Authorities. Approximately 34 ft. 5 in. to 37 ft. 2 in. depending on tide.

HEALTH: Pratique granted by Pilot unless disease prevalent on board when Masters should telegraph "Saude" Maputo.

RADIO: Advice of arrival 16 hours before to the Port Captain or Chief Pilot and Port Health should be sent through the station CRX (Naval), operating 24 hours on 500 kc/s., replying on 437 kc/s., also 2000 to 0500 hrs. GMT on 8356 to 8376 kc/s. (replying 3642 kc/s.) and 0800 to 2000 GMT on 12534 and 12564 kc/s. (replying 1299 kc/s.). All other non-official messages through station CRL, operating 0200–1800 GMT on 6 Mc/s. at even hours, 0400 to 1800 GMT on 4 Mc/s. at even hours plus 30 minutes (answering on 4259 kc/s.). Continues watch 0200–0400 GMT on 4 Mc/s. Radio telephone through CRL on 2132 kc/s. at even hours plus 45 minutes 0600–1700 GMT answering on 4415 kc/s.

VHF: Pilot boat (Inhaca Station) and port radio operate on Channel 16 (calling) and Channel 12 (working) from 0530 to 1830 hours.

TUGS: 4 tugs available, 3,200 h.p., 3,200 h.p., 1.500 h.p. and 1,200 h.p.

BERTHING: Carried out at all times between 0000–0600 hrs. at the Main wharves. At Matola Ore berth vessels must berth only at permissible times according to tides.

Main Wharf: All facilities owned and operated by Caminhos de Ferro de Mocambique (CFM), except stevedoring.

Dimensions: Wharf is in an uninterrupted line running roughly N.E./S.W., accommodating 12–15 vessels. Length: 3,033 m.

For loading or discharging bulk grain there are 2 Buhler machines at a berth with 33 ft. depth of water LWOST. About 120 t.p.h. A recent vessel averaged 2,900 tons per day.

Coaling Appliance: The coaling appliance can berth vessels of LOA 750 ft., beam 91 ft. 10 in. and a max. draft of 34 ft. 06 in.

The best loading rate, in theory, is about 10,000 tons per day, however, in practice, allowing for shunting trucks, warping ship, etc., average rate is about 7,500 tons per day.

The length of the chute is 181 m. and it operates between angles of 46° and 58° to the perpendicular. At 46° the tip of the chute is 4.80 m. above wharf level and 9.50 m. from the wharf edge. At 58° the tip of the chute is 7.60 m. above wharf level and 11.80 m. from the wharf edge. At lowest spring tide the water at the coaling berth is 5.90 m. below wharf level and at highest spring tide 2.15 m., the difference between max. extremities being 3.75 m.

Sugar Terminal: The daily intake capability of installation is 2,000 metric tons and it has storage facilities in three sheds with a capacity of 40,000 metric tons each. It has a nominal loading capacity of 750 metric tons. The stowage within each hold is done by means of a telescopic trough and a mechanical distributor (projector) and is capable of projecting the sugar in various angles and distances. Max. reach of the jib is 17 m. Min. reach of the jib (in use) is 11.50 m. and the limit of inclination of the jib (in use) is ± 15° Max. draft alongside is 33 ft. 06 in.

	Depths alongside:
Berth A	30 ft.
Berth B	32 ft.
Berth C	30 ft.
Berth D	31 ft.
Berth D3	31 ft.
Coal Tip	33 ft.
Berth Frigo	30 ft.
Berth G	33 ft.
Berth H	33 ft.
Wharf extension	40 ft.

LPG Carriers: Berth at Matola Ore Berth.

Timber: Vessels berth at Matola, Post No. 1 (P.I.). Max. draft 32 ft. Max. LOA, 600 ft. Vessels over 550 ft. LOA and draft over 25 ft. berth and sail during daylight hours only.

CRANES: *Electric cranes:* 82 units with capacity 3 to 20 tons. *Mobile cranes:* 63 units with capacity 4 to 12 tons.

Heavy lift crane with capacity of between 60–80 tons.

STORAGE CAPACITIES:

Ore and Coal dumps: Gorjao Wharf.

	tons
Coal	96,000
Ores	600,000
Copper	40,000
Vermiculite	4,000
Steel, Beams and Billets	46,000
Vanadium	7,000

Oil: Storage capacity 200,000 tons.

Molasses: 4 tanks, capacities 6,000, 9,000, 11,000 and 7,000 tons.

Fruit: 7,500 tons (1.133 cu. m./ton) in 100 chambers.

Fish: 200 tons.

Ore: Matola. Capacity 1.3 million tons. Loading speed for iron ore 1,500 t.p.h. and chrome ore 750 t.p.h. (via trucks) and 1,200 t.p.h. (ex bins).

Sugar: See "Berthing".

Containers: Containers and steel handled at the New Wharf Extension (Length 3,000–3,500 ft.). 20 ton cranes available, also 20 ton fork lifts for moving steel. Ro-Ro vessels will be handled from the beginning of 1979.

STEVEDORES: *Working Hours:*

Normal:	Weekdays:	0700–1100, 1300–1700
	Saturdays:	0700–1100.
Overtime:	Weekdays:	1900–2300, 0000–0600.
	Saturdays:	1300–1700, 1900–2300.
	Sundays:	All day.

Overtime is compulsory on a daily basis (including Saturdays and Sundays) from 1900–2300 hrs.. and from 0000–0600 hrs.

The responsibility for overtime costs should be clearly defined in the Charter Party, normally 50/50 between charterers and owners.

TANKERS: Matola Mineral Wharf, 40 ft. LWOST, max. length of vessel 820 ft. Matola Oil Jetty, 32 ft. 6 in. LWOST, max. length of vessel 750 ft.

Dolphin berth at Matola (P3) has been erected for tankers. Max. draft 35 ft. Max. LOA 750 ft.

FRESH WATER: Available at all berths, not available ex-barge.

FUEL: Vessels can be supplied from pipe-lines whilst working at all berths, including the Matola Appliance and Tanker jetty, but excluding the new wharf extension, where pipes have been laid but the system is not yet ready for delivering bunkers. The rate of delivery varies between 300 to 500 tons per hour depending on the type of vessel taking bunkers. At present, supplies of gas oil and marine diesel oil are not in very plentiful supply, recommended to stem as far in advance as possible.

MEDICAL: No advance notice required for medical attention, unless urgent assistance necessary. Hospital facilities available. Crew members and passengers should be in possession of valid smallpox and yellow fever certificates (cholera certificate too if cholera area) on international forms. Vaccination/fever inoculations and certificates may be obtained ashore if required. Men for sick parade must first go through the port doctor whose hours are week-days 0800–1130 hrs. and 1400–1730 hrs.; Saturdays 1000–1130 hrs., but always available on an emergency call.

REPAIRS: No dry dock except for small coasters. Facilities for most normal work, except underwater rivetting, cutting and welding, and shaft balancing.

DEVELOPMENTS: Administration are considering the construction of a deep-sea port on the coast between Inhaca Island and the Natal border. This port will be mainly used by coal and iron-ore carriers and have a capacity of approximately 6 million tons per annum.

CONSULS:

U.S.A.
U.K.
France
Norway
Sweden
Switzerland
Italy
South Africa
Brazil
Germany
Spain

IDENTIFICATION CARDS: Crew and passengers are issued with Immigration Boarding Permits and they must be carried at all times. (Such permits to be returned to Immigration Officer prior to sailing.)

WATCHMEN: Strongly recommend employing services of a local watchman, who will also control visitors and labour passes.

OPENING/CLOSING HATCHES: Can be done by either crew or stevedores. Often done by crew.

CERTIFICATES: Tonnage Certificate to be produced to Pilot, as certain port dues are based on vessel's registered tonnage.

REPATRIATION: Facilities exist for nationals of those countries maintaining diplomatic relations with Mozambique. A valid passport and visa is necessary as immigration authorities do not recognise a Seaman's Book as being a valid travel document.

AIRPORT: About 5 miles from centre of town.

CUSTOMS ALLOWANCES: Bonded stores are usually not sealed.

HOLIDAYS: No cargo work on 1st January and 25th December, on other holidays, work continues normally in the port.

TIME: Local time 2 hours ahead of GMT. No alterations made to clocks during the year.

SHORE LEAVE: Crew members are allowed ashore, from 0600–2400 hrs. excepting nationals of those countries not maintaining diplomatic relations with Mozambique.

TELEPHONES: A telephone will be placed on board the vessel.

GENERAL: Crew and passengers not to take photographs in the dock area. Permission through Agent required to lower any boats or gear overside into the water or on to the wharf.

Do not immobilize main engines or carry out engine trials at the wharf until permission has been obtained by the Agent as the Authorities require vessels to maintain sufficient steam for main engines to be used at 2 hours notice.

Customs guards to be supplied with meals and accommodation whilst at inner anchorage and alongside the LM wharf otherwise cost per guard will have to be paid by Agent on Owner's behalf.
AUTHORITY: Capitania do Porto de Maputo.

MOZAMBIQUE: 14.58 S. 40.45 E.

DOCUMENTS:
- Customs Clearance from last port.
- Port Clearance.
- Health Certificate.
- 6 Crew Lists.
- 6 Passenger Lists in Transit.
- 7 Passenger Lists Disembarking.
- 2 Stores Lists.
- 2 Lists Deck Stores.
- 2 Lists Cargo in Transit (main items of cargo only).
- 6 copies of Manifest of Mozambique Cargo.

PILOTAGE: One Pilot available, 24 hrs. Pilot boat is black and grey. Ships take Pilot near buoy No. 2 (Red Buoy) placed off Goa Island. At night ships should send Morse signals with Aldis lamp to the middle of Mozambique Island (location of Port Office). ETA should be given as soon as possible to Pilot station off Mozambique Island and/or to ship's Agent.
ANCHORAGES: When waiting for Pilot, or in reason of their draft (more than 30 ft.) ships may drop anchor off red buoy No. 2 (0.5 miles seawards). Depths between 60 and 90 ft. Bottom with sand and some broken coral; current from North to South, sometimes up to 4 knots.
MAX. SIZE: Only ships with drafts less than 30 ft. can cross the bar and enter the Port.
HEALTH: Quarantine flag should be flown, even after calling at other ports in this country. Health Certificate given by Pilot.
RADIO: Radio Mozambique call sign CRQ. Also available Maputo or Beira Radio Stations.
TUGS: Tugs are not necessary in this port.
BERTHING: No quay berths. Vessels work cargo at anchor.
STEVEDORES: All requirements on this purpose must be sent to the Agent.
MEDICAL: Medical assistance can be given at any time, even to vessels unable to cross the bar because of draft. Hospital with adequate facilities, and emergency services available.
FRESH WATER: Always available in any quantity. Supplied by barge of 40 tons capacity.
FUEL: Small quantities available.
OPENING/CLOSING HATCHES: By stevedores.
CARGO GEAR: Vessels anchor in bay and load and discharge by lighter and barges.
IDENTIFICATION CARDS: Required.
CONSULS: No local representatives.
REPAIRS: Light repairs can be effected.
REPATRIATION: All facilities available.
AIRPORT: Situated about 7 km. from Mozambique. Connections to Beira and Maputo every day.
HOLIDAYS: 1st January; 2nd March; 1st and 10th June; 15th August; 5th October; 1st November; 1st December; 8th December; 25th December. Cargo handling can be arranged on these days.
POLICE/AMBULANCE/FIRE: Maritime Police, Customs and Agents will always be on board during stay.
TELEPHONES: No telephones, but walkie-talkies are available; arrange with Agent.
AUTHORITY: Capitania do Porto de Mocambique.

NACALA: 14.32 S. 40.37 E.

PORT LIMITS: The line joining Ilha Goman to Cabo Columulomo Light at the entrance of Bay of Fernao Veloso.
DOCUMENTS:
- Customs Clearance from last port.
- Port clearance from last port.
- Health Certificate.
- 6 Crew Lists.
- 6 Lists Passengers in transit.
- 7 Lists Passengers Disembarking.
- 2 Stores Lists.
- 2 Lists Deck Stores.
- 2 Lists Cargo in transit (main items of cargo only)
- 6 copies of Manifests of Nacala Cargo.
- 2 Lists of Dangerous Cargo.

PILOTAGE: Permanent and compulsory for entering harbour. Pilot boat situated at harbour entrance.
ANCHORAGE: Fine natural harbour. Entrance half a mile wide, depths up to 60 m. Good anchorage for any size vessels. Sand and mud bottom.
MAX. SIZE: For anchoring, no restrictions. For berthing, up to 31 ft. draft.' **RADIO:** Radio Naval Nacala operates permamently on 2182 kHz.
HEALTH: Vessels to radio "Sanidade Maritima", their ETA and "All Well" (or otherwise). If "All Well", Health Certificate given by Pilot.
TUGS: One available, 1,000 h.p.
BERTHING:
Old Wharf: There is a pier with berths for four vessels with a length of 426 m.

Depths:	Wharf 1: 24 ft.		
	,, 2: 21 ft.		
	,, 3: 30 ft.		
	,, 4: 30 ft.		
Cranes:	12 cranes available		9×5 tons
			2×10 tons
			1×20 tons

New Wharf: There is a pier to berth two vessels.
Depth: 45 ft.
Cranes: There are no shore cranes available at this stage.

CRANES: 12 electric cranes with capacity 1 to 20 tons. 1 Floating crane with capacity of 25 tons. 16 Mobile cranes with capacity 2 to 7 tons.
STEVEDORES: Working hours 0700 to 1100 hrs., 1300 to 1700 hrs. Overtime 1900 to 0600 hrs.. Two local stevedoring firms.
FRESH WATER: Available from hydrants on the quay at the old wharf.
FUEL: Available from connections on the quay. Must be ordered well in advance. Only Gas oil available.
MEDICAL: No advance notice required for medical attention, unless urgent assistance necessary. Hospital facilities available. Crew members and passengers should be in possession of valid smallpox and yellow-fever certificates (cholera certificate too if from cholera area) on international forms. Vaccination/fever inoculations and certificates may be obtained ashore if required.
GANGWAY/DECK WATCHMEN: Compulsory, under supervision of Immigration Department.
OPENING/CLOSING HATCHES: Can be done by either crew or stevedores. Often done by crew.
CERTIFICATES: Tonnage Certificate to be produced to Pilot, as certain port dues are based on vessel's registered tonnage.
REPATRIATION: Facilities exist for nationals of those countries maintaining diplomatic relations with Mozambique. A valid passport is necessary as immigration authorities do not recognise a Seaman's Book as being a valid travel document.
TIME: Local time 2 hours ahead of GMT. No alterations made to clocks during year.
SHORE LEAVE: Crew members are allowed ashore, excepting nationals of those countries not maintaining diplomatic relations with Mozambique.
HOLIDAYS: New Year's Day (1st January); National day of Portugal (10th June); Corpus Christi (variable date); Assumption (15th August); Nacala City Holiday (16th September); Republic Day (5th October); All Saints' Day (1st November); Restoration of Republic (1st December); Immaculate Conception (8th December); Christmas Day (25th December). No cargo work on 1st January and 25th December; on other holidays work continues normally in the port.
DEVELOPMENTS: A new pier: length 462 m., depth 45 ft. under construction. It will be equipped with 14 cranes with 5, 10 and 20 tons capacity.
AUTHORITY: Capitao do Porto de Nacala.

PEMBA: 13.00 S. 40.28 E.

DOCUMENTS:
- 6 Crew Lists.
- 6 Lists of Passengers Disembarking.
- 6 Lists of Passengers in Transit.
- 1 Master's Declaration.
- 1 Stores and Provisions List.
- 1 Health Declaration.
- 5 Sets Cargo Manifests.
- 2 Sets non-negotiable Bills of Lading.
- Clearance Documents from last port.

PILOTAGE: It is necessary to order by radio request to Agent 14 hours before arrival.
ANCHORAGE: Vessels may anchor South of the dock about 300 m. off. Other suitable anchorages will be indicated by the Pilot.
RESTRICTIONS: Vessels may enter with Pilot at any hour day or night.
MAX. SIZE: Draft up to 27 ft. 6 in. for berthing.
HEALTH: In case of contagious disease on board, the Port Health Authorities must be advised in advance.
RADIO: Send messages through Beira radio.
TUGS: None available
BERTHING: One berth, length 182 m., depth alongside 28 ft.
STEVEDORES: In ETA message to Agent, indicate number of gangs required and advise quantity and description of cargo for discharge.

MEDICAL: In case of urgency advise Agent by radio before arrival. Hospital facilities available. Vaccinations can be performed.
FRESH WATER: Available.
FUEL: Available.
GANGWAY/DECK WATCHMEN: Not necessary as there is a permanent guard on board.
OPENING/CLOSING HATCHES: Performed by stevedores.
CUSTOMS ALLOWANCES: Bond is not sealed and no restrictions made.
IDENTIFICATION CARDS: Required by police.
REPATRIATION: Can be arranged.
AIRPORT: Situated 7 km. away. Flights to Beira and Maputo daily.
TIME: GMT plus 2 hours. No alterations during the year.
HOLIDAYS: No work performed from 1700 hrs. Christmas Eve until 0600 hrs. 26th December; no work performed from 1700 hrs. New Year's Eve until 0600 hrs. on 2nd January. Work may be arranged on the following holidays: 1st January, 3rd February, 7th April, 1st May, 25th June and 25th September.
POLICE/FIRE/AMBULANCE: Police, tel. 2828; Hospital, tel. 2211.
SHORE LEAVE: Allowed. Except for nationals of countries not maintaining diplomatic relations with Mozambique.
AUTHORITY: Capitao do Porto de Pemba.

NOTES

Please also advise Shipping Guides Ltd.

Nauru Island

NAURU: 00.32 S. 166.56 E.

DOCUMENTS:

International Declaration of Health, 1 copy.
Clearance from last port.
Crew Lists, 2 copies.
Passenger Lists, if any, 2 copies.
Manifest, 1 copy.

PILOTAGE: Pilotage is available on request without charge; Masters are advised to avail themselves of this service. It is necessary that Masters, through Radio Nauru, inform telegraphic address Nauruphos Nauru of ETA 48 hours before arrival, confirming or altering this 12 hours before arrival. Nauruphos will reply through Radio Nauru on receipt of second message giving time for the vessel to close in to 0.5 mile West of loading plants, where Pilot will board. In case of adverse weather or congestion, Masters will be notified by radio, or by VHF Channel 16, 156.8 Mc/s with range of about 40 miles. Vessels are handled inwards in daylight only, and should fly flag when approaching island. A safe and clean pilot ladder should be provided, a good lee made for the Pilot to embark.

ANCHORAGES: No anchorages are available owing to the extreme depths of water. Vessels waiting normally drift off and return at daybreak or when instructed to do so.

RESTRICTIONS: Tide and draft have no bearing on entry but it is normal not to handle vessels into berth in darkness. However, vessels are unmoored at all hours.

MAX. SIZE: Vessels have been handled up to an overall length of 630 ft. Beam should not exceed 90 ft., but there are no draft limitations.

HEALTH: Masters of vessels approaching Nauru are required to send a telegram addressed to the Quarantine Officer, Nauru within 24 hours of arrival. The telegram should state the name of last port, date, presence of any infectious disease. On receipt of telegram, the quarantine officer will send reply indicating whether or not pratique is granted. It is still necessary to fill out the International Declaration of Health and hand this to Boarding Officer after berthing.

RADIO: Nauru Radio station, call sign C2N. Should, through atmospheric conditions, difficulty be found in raising Nauru, it is suggested that the message be passed through Sydney or any other convenient coastal station. Port Radio VHF, calling Channel 16, working Channel 12, permanent service.

TUGS: No tugs available for berthing.

BERTHING: Such special requirements which relate to berthing in the port are contained in a Letter of Advice to Ship Masters issued by the BPC. Shore labour normally boards the vessel with the Pilot to assist in mooring to the buoy system.

STEVEDORES: As stevedoring is carried out by Nauruphos, no separate advice is required. Loading rate of bulk phosphate is as high as 3,000 t.p.h.

MEDICAL: Medical treatment can be given at short notice. Limited hospital facilities are available, and emergency surgery can be carried out. Smallpox vaccination is required, and cholera if the vessel has come from an infected area.

TANKERS: Lengths and drafts as for bulk phosphate vessels. 8 inch discharge line to shore storage tanks.

DENSITY: Normal salt water all states of tide.

FRESH WATER: Island water is imported, and water will be supplied only in cases of emergency.

FUEL: Island stocks are imported for use in the phosphate industry, and only limited quantities of heavy fuel or diesel oil can be made available in cases of extreme urgency.

GANGWAY/DECK WATCHMEN: Not required.

OPENING/CLOSING HATCHES: Carried out by crew.

SHIP CERTIFICATES: Deratisation certificate only.

CUSTOMS ALLOWANCE: No restrictions apply.

CARGO GEAR: Cargo gear should be up to the standard demanded in Australian ports.

CREW IDENTIFICATION CARDS: Some form of identification, passport, discharge book, or identity card should be carried by Crew members.

CONSULS: An Australian Representative is resident on the Island.

REPAIRS: The phosphate industry requires good workshop facilities of various kinds for maintenance of their own heavy plant and such workshops are kept busy at all times. Small repairs such as welding, brazing, lathe work, etc., can be carried out, but only when essential to allow the vessel to proceed on its voyage. Main engines cannot be immobilised whilst the vessel is moored to any section of the buoy system.

REPATRIATION: Repatriation can be arranged. No facilities for crew changes.

AIRPORT: Air Nauru operates a twice weekly service to Melbourne and Hong Kong. Other routes include Fiji, Majuro, Japan, Samoa, Vila, Honiara and Taiwan.

TIME: Local time is GMT plus 11.5 hours. No alterations during the year.

HOLIDAYS: Christmas Day, New Year's Day, and Good Friday are normally closed holidays. Other National holidays occur during the year but normally work carries on, on these days.

POLICE/AMBULANCE/FIRE: All emergencies are handled by the Harbour Masters, one of whom remains aboard the vessel throughout the time the vessel is attached to the mooring system.

TELEPHONES: Telephones are put aboard for the use of island staff working the vessel.

SERVICES: No special services available.

SHORE LEAVE: This may be granted at the discretion of the Master but should in all cases terminate at 1700 hrs.

PORT REGULATIONS: No vessel may immobilise main engines whilst moored to the buoy system. Main engines should be on instant readiness, deck power should be available at all times, and the vessel must proceed to sea when instructed to do so by the Harbour Master.

DELAYS: Normally no delays should be expected. Vessels could wait a day, or possibly 2 due to port congestion, but this seldom happens; delays can occur due to adverse weather, the duration of which is unpredictable.

AUTHORITY: The Harbour Master, appointed by The Nauru Phosphate Corporation, Nauru.

NOTES

Please also advise Shipping Guides Ltd.

AMSTERDAM: 52.22 N. 04.54 E. (See Plan Book)

PORT LIMITS: Notices of Readiness will only be accepted (subject to C/P terms) if vessel has actually arrived at Amsterdam, which means that vessels have to enter from sea and pass the locks at Ijmuiden, proceeding through the North Sea Canal to Amsterdam. There are various buoys and quays available where vessels can be moored waiting for final discharging berth.

DOCUMENTS:

Health Certificate. Forms obtainable from sea Pilot.
Crew List in triplicate.
2 copies of Crew Manifest for cigarettes, cigars, spirits, etc., belonging to crew.
Passenger List in triplicate.
1 copy of Manifest.
1 copy of Bills of Lading.
Dangerous Cargo List.
Ship's Register.
1 copy Stores List.

PILOTAGE: Pilotage is compulsory. A pilot vessel cruises at sea in the vicinity of Ijmuiden between the light whistle buoy and the moles.

In order to avoid delays, Masters who require a Pilot must advise their ETA not less than 4 hours in advance to "Pilotage Ijmuiden". This advice must be amended, if vessel's ETA changes more than 2 hours from the original advice.

The text of the message must contain: *(a)* the words "ETA-pilot", *(b)* expected time arrival (group of 4 figures) in middle European time, *(c)* draft with indication of unit applied, *(d)* port of destination.

"Pilotage Ijmuiden" can be informed via Scheveningen Radio or via VHF Channel 12. Pilotage and navigation is possible at night.

Pilotage by Helicopter: When the pilot service by pilot cutter has been suspended owing to weather conditions it is possible to take a Pilot on board vessels by helicopter. Helicopter pilotage is carried out for vessels which have an obstacle free hoisting area on deck of min. 15 ft. diameter. Deck plans should be provided in advance.

Restrictions:

1. Min. visibility 800 m. at 150 ft. above sea level.
2. Max. wind force 10 (55 kts.).
3. Severe turbulence and icing conditions at or below 150 ft.

Pilot Ladders: Pilots strictly adhere to regulation 17b, Chapter V of the International Convention for the Safety of Life at Sea, which reads as follows:

"Whenever the distance from sea level to the point of access to the ship is more than 30 ft. (9 m.), access from the pilot ladder to the ship shall be by means of an accommodation ladder or by another equally safe and convenient means."

ANCHORAGE: Anchoring in Ijmuiden outer harbour, North Sea Canal and in harbour of Amsterdam is prohibited.

RESTRICTIONS: Entry possible at night. Official max. draft is 43 ft. (salt water). By permission of Government Harbour Master at Ijmuiden it is possible to enter with max. draft 45 ft. (S.W.). Such permission to be applied for at least 14 days prior to arrival.

MAX. SIZE: Vessels proceeding to Amsterdam have to pass locks at Ijmuiden. Dimensions of Northern lock (biggest): 1,312 ft. long, 164 ft. wide 49 ft. 2 in. deep.

RADIO: Cable Agents giving ETA draft, cash and other requirements via Scheveningen Radio/PCH.

RADAR/VHF: Harbour radar is installed at Ijmuiden. In bad visibility radar assistance will be given for incoming ships day and night. A radio portophone is provided by Pilot. Direct communication between incoming and outgoing ships and commanding post of locks is possible by means of VHF radio telephone, Channel 11. Government patrol boats are also equipped with VHF installations. The Radio-Radar Station (Redeplot) can also be contacted via VHF Channel 12 before approaching Ijmuiden.

Gemeentelijk Havenbedrijf (Port Management) on VHF Channel 14 day and night.

TUGS: Sea-going tugs available between piers at Ijmuiden assisting vessels, into locks or outer harbour. Harbour tugs available in locks assisting vessels to Amsterdam. The rates include use of tug hawser.

BERTHING: Possible at night. If no berth available vessels may be moored on buoys.

BRIDGES: Vessels proceeding to Oil Harbour, Coen Harbour, Vlot Harbour and installations in Eastern part of port pass railway bridge over North Sea Canal at Zaandam. Notices indicating distance from bridge have been placed at 500 m. at either side and notices to stop at 150 m. at West side and 225 m. at East side. When bridge closed Masters must stop their ships and must on no account proceed unless signal is given that passage is allowed. Bridge is opened regularly in accordance with time-table of Netherlands Railway.

STEVEDORES: In order to enable Agents to order gangs in time it is recommended to keep Agents duly informed about ETA. No ETA to stevedores necessary.

MEDICAL: If immediate medical assistance will be required in the locks at Ijmuiden, Agents must receive advance notice.

BULK HANDLING FACILITIES: *Grain:* The Silo installation of IGMA at Vlothaven depth alongside 49 ft. 3 in., has main jetty 1,200 ft. length to accommodate 2 vessels up to 80,000 tons d.w.t. Ships unloaded by 4 mobile pneumatic suckers, with capacity 400 t.p.h., and 3 floating elevators. Daily discharge capacity about 17,000 tons.

On discharging side maximum gear height above water line 92 ft. On loading side maximum gear height above water line 36 ft.

Ore, Coal, etc: NV Overslagbedrijf Amsterdam in West harbour, quay 2,600 ft. length, max. draft 45 ft. (SW).

Discharging rate of gear up to 60,000 (Coal) and 100,000 (Ore) tons per 24 hours. Loading rate about 2,000 t.p.h.

Maximum outreach of loading and discharging gear 164 ft.; max. height of loading discharging gear above water level 80.5 ft. Four high speed gantry cranes in use.

NV Havenbedrijf Rietlanden Quay length 2,500 ft. depth 35 ft. Capacity about 15,000 tons per day.

Phosphate: Albatross Fertiliser Works Jetty, depth alongside 31 ft. Two grab cranes with daily capacity of 7,000 tons.

Containers: Length of quay 1,088 m. Roll-on/roll-off berth: 140 m., depth alongside quay 36 ft.

The berth is equipped with 3 gantry cranes with lifting capacity of 50 tons and 1 multi-purpose crane with a capacity of 30 tons and 4 cranes with a capacity of 5 tons.

Ferry Terminals (Roll-on/Roll-off terminals): Scandia Terminal in the Suezhaven, 10.5 nautical miles from the sealocks in Ymuiden. Total area 50,000 sq. m., marshalling area 28,000 sq. m., quay length 400 m. shed space 2,300 sq. m., modern passenger building.

Combined Terminals Amsterdam B.V. (C.T.A.)

Berth No. 1: Length 250 m. Depth 13 m.
No. 2: Length 215 m. Depth 11.5 m.
No. 3: Length 140 m. (Ro/Ro) Depth 11.0 m.
No. 4: Length 290 m. Depth 11.0 m.

Equipment: 2 Portainers, capacity 50 tons. 2 rail-mounted dock cranes capacity 30 tons at 20 m. outreach and 12 tons at 40 m. outreach. 2 rail mounted transtainers, capacity 35 tons and 45 tons. 40 reefer points.

Another terminal is located in the Coenhaven, 11 nautical miles from the sea-locks in Ymuiden. It is equipped with a ramp with movable link span (twin construction), 40 ft. wide and 63 ft. long and has 2 more berths for roll-on/roll-off vessels. The water depth is 33 ft. The terminal also includes a passenger hall (1,000 sq. m.), 3 ha (7.5 acres) of parking space and ample shed space. A mobile container crane (35 tons capacity), side-loaders (20 tons), tug musters, slave trailers, flats, containers and fork-lift trucks are available.

Molasses: Tradax–2 jetties, max. draft 11.30 m. receiving capacity 1,000 t.p.h. Max. d.w.t. 65,000 tons (approx.). Connections 8 in.

Minerals: Eggerding & Co. B.V. Length of quay 400 m. Depth alongside 33 ft. Discharge is carried out by floating cranes.

TANKERS: *Ijmond B.V.:* 1 jetty for 2 vessels of 100,000 tons. Max. draft 44 ft. 6 in. Pipe-line connection 6 in. and 8 in. Receiving rate 2,000 t.p.h. Loading rate 2,000 t.p.h. depending on grade and condition. Fresh water available from jetty, fuel by barge. Stores by barge or trucks. (Jetty not accessible to trucks). Dirty ballast by barge.

Mobil: 2 jetties, 1 for vessel of 30,000 tons and another for vessel of 80,000 tons. Max. draft 44 ft. 6 in. Pipe-line connections 10 and 12 in.

One jetty for coast tankers or LPG tankers up to 2,500 tons.

The receiving rate for crude oil is 4,000 cu. m./hr. The loading rate varies from 400–1,900 cu.m/hr. depending on grade.

Fresh water available from jetty. Fuel available, pipe-line 8 in. Facilities available for dirty ballast if vessel to load at berth. Max. capacity 10,000 tons. Stores by barge or truck (Jetty not accessible to trucks).

Amatex: 4 jetties, depth alongside 32–41 ft. Pipe-line connections 6 in. – 12 in.

Receiving rate, 4–1,200 t.p.h. depending on grade and back pressure, if any. The loading rate is about 1,000 t.p.h. depending on grade.

Fresh water available by barge. Fuel available by barge. There are facilities for dirty ballast under special conditions. Stores mainly by truck (Jetties not accessible to trucks).

Comos: Two jetties, depth alongside 42 ft. Pipe-line connections 8 in. and 12 in. Four jetties available for seagoing vessels and barges up to a max. draft 14 ft. 9 in.

The receiving capacity is about 2,000 t.p.h. and loading rate up to about 1,000 t.p.h.

Fresh water available by barge. Fuel available by barge or pipe-line. Stores by truck. There are no facilities for dirty ballast.

Smid & Hollander: One jetty for receiving crude oil, max. draft 36 ft. 2 in. Fresh water and fuel available by barge. Stores by truck (Jetty not accessible to trucks).

Noord Europees Wijnopslagbedrijf B.V.: One jetty, depth alongside 20 ft. Fresh water and fuel available by barge. Stores by truck.

DENSITY: Amsterdam is not a tidal port. The water is brackish to fresh.

FRESH WATER: Drinking and boiler water can be supplied by barge, or if connection available, from shore. Price depends on quantity ordered.

FUEL: All grades of fuel are available. Advance notice 48 hours.

FIRE PRECAUTIONS: No repair work to be carried out to tankers without permission of Harbour Authorities. Usual non-smoking precautions, etc.

GANGWAY/DECK WATCHMEN: Not required. Dependent on commodity of cargo.

OPENING/CLOSING HATCHES: Liner vessels by crew or by stevedores, payable per man per hour. Tramp vessels as per Charter Party.

CERTIFICATES:
Ship's Register.
Usual Cargo Certificate.
Safety Radio.
Safety Equipment Certificate.
Crew Roll.
All usual certificates required for navigation.

CUSTOMS ALLOWANCES: Tobacco: 200 cigarettes per man or equivalent of tobacco or cigars. Wine and/or Spirits: 5 litres of wine per man. Spirits: total 5 litres for the whole ship.

CARGO GEAR: Usual cargo certificate.

IDENTIFICATION CARDS: Not needed.

CONSULS: Nearly all countries have established consulates at Amsterdam.

REPAIRS: All types of deck and engine repairs are possible including gas-freeing and tank-cleaning.

DRY DOCKS: NDSM: 4 dry docks, largest of which length 817 ft. breadth 120 ft., depth 28 ft. Capacity 72,000 d.w.t.

ADM: 5 floating docks largest of which length 677 ft. breadth 97 ft. 6 in., lifting capacity 40,000 tons d.w.t.

Other floating docks available for vessels up to 4,500 tons.

REPATRIATION: Facilities for repatriation of crew to any destination are available.

AIRPORT: Distance to Schiphol Airport (served by regular airlines) 15 km.

TIME: GMT plus 1 hour. No alterations during the year.

HOLIDAYS: New Year's Day; Easter Monday; Queen's Birthday (April 30th); Ascension Day; Whit Monday; Christmas Day and Boxing Day.

Cargo can be worked during these days subject to labour being available at premium rates.

POLICE/AMBULANCE/FIRE: Police 222222; Ambulance 355555; Fire 666666.

TELEPHONES: Telephone connections on board are only possible on certain quays (passenger ships). It is possible to rent portable mobilophones.

SERVICES: 1 tank cleaning installation, compass adjusting/direction finder calibration, representatives of all leading radio installations, radar and other nautical instruments available.

SHORE LEAVE: Crew members allowed ashore.

DELAYS: Usually no congestion.

AUTHORITY: Gemeentelijk Havenbedrijf Amsterdam. (Port Management of Amsterdam)

AGENT: Wm. H. Muller & Co. Amsterdam B.V., "Havengebouw", 7 De Ruyterkade, P.O. Box 182, 1000 AD, Amsterdam. Telegrams "Mineral" Telex 12058. Tel. (020) 26 34 56.

DELFZIJL: 53.20 N. 06.54 E. (See Plan Book)

LOCATION: On the estuary of the River Ems, opposite Emden.

DOCUMENTS: See "Rotterdam".

PILOTAGE: Pilot boats normally cruise at Wester-Ems buoy. During bad weather they withdraw into estuary, but never further than Borkum Roads. Pilot boats listen on Channel 6 and pilot office on Channel 14 VHF; distance from pilot station to Delfzijl 32 miles. Pilot service compulsory for all vessels drawing over 22 dm. Foreign vessels may call Pilot on 2182 kHz. and Netherlands vessels on 2391 kHz. Traffic between the cutter and the vessel will be held on 1657 kHz.

Approaching vessels from sea should inform the Pilot commissioner of their ETA in M.E.T. with a notice at least 4 hours in advance via Scheveningen – Radio (PCH); the pilot cutter may be informed via VHF.

The ETA message should contain the following details: *(a)* ETA Pilot Westereems (time in M.E.T. in a group of 4 figures); *(b)* Draft; *(c)* Port of destination.

Departing vessels should apply for a Pilot at least one hour before ETD; the request should be made to the office of the Inspector of Pilotage.

Pilotage from Delfzijl to Emden is not compulsory. On request however a Pilot may be put at the Master's disposal for a trip to Emden. This is not applicable for a trip from Emden to Delfzijl or Eemshaven.

ANCHORAGE: Vessels up to 4,000 tons d.w.t., which for some reason have to anchor outside the piers can do this East of the harbour entrance near Oterdum. Anchorage is situated within the following area: a line connecting the buoys BW 13 – BW 15 – BW 26 – PS 2. Request for anchorage at the office of the Harbour Master, VHF Channel 14. Larger vessels should seek an anchorage in the Doekegat. There is no anchorage inside the harbour.

ENTRANCE: New harbour entrance lies opposite the village of Oterdum about 5.2 m. South-east of the old entrance. The new entrance extends to reach the deep water of the Bocht van Watum, and lies at a point about 600 m. West of the dredged channel between the Bocht van Watum and the Oostfriese Gaatje near Paapsand Sud.

New harbour entrance has an initial depth of N.A.P. –10 m., and a bottom width of 200 m. The harbour channel has the same depth, and a width of 100 m.

Depths: All depths are indicated in relation to N.A.P. LLWS at Delfzijl lies 2.03 m. below N.A.P. (Normal Amsterdam Level).

Tides: The rise at Springs is 3.05 m. and at Neaps 2.35 m. Tidal movement is diurnal with an average range of 2.7 m.

MAX. SIZE: The new harbour entrance has a depth of 8 m. at LLWS. Vessels drawing up to 9 m. can enter under normal HW circumstances; a keel clearance of about 1 m. will be maintained. Masters of vessels with large draft are recommended to contact the Pilot Service in good time with regard to the water level to be expected near Paapsand-Sud and in the Zeehavenkanaal. In the harbour "always afloat" can be guaranteed along the entire length of the Handelskade West for vessels with a draft up to 8.7 m. See "Depths" above.

TUGS: Tugs up to 900 h.p. available. Additional tugs can arrive within 3 hours from Emden.

RADIO: Cable to Agents via Radio Scheveningen. PCH.

VHF: The Harbour Master's office is equipped with a VHF installation, Channel 14. The station is constantly manned.

BRIDGES: Bridge to the Damsterhaven may always be worked. Bridge to the Oosterhornhaven will be handled from Monday to Saturday. On Sunday bridge may be opened on special request.

BERTHING: The Outer Harbour is divided into 3 communicating basins: Handelshaven, Balkenhaven and Zeehavenkanaal.

Handelshaven, in the western part of the Outer Harbour, has a deepwater quay, 520 m. long, with a depth of 11 m. alongside, 2 mooring buoys in a depth of 11 m. also jetties 110 and 130 m. in length, with a depth of 7 m. alongside.

Balkenhaven, East of Handelshaven, has depths of 8.5 m. to 5.5 m.; there are berths at several mooring buoys for small sea-going vessels.

Zeehavenkanaal is the eastern part of the Outer Harbour and is being developed as a deep-sea harbour; it has a depth of 11 m. There are several private mooring facilities in the Sea Harbour Channel, from West to East:

a. Private quay of Wagenborg Terminal B.V. with a depth of 7 m.;
b. Private jetty of the Alcohol Factory with a depth of 12 m. Tankers up to 25,000 tons d.w.t. can be accommodated here. Depth alongside 12 m.;
c. Private jetty of AKZO is equipped with a loading station with a loading capacity of 500 tons salt/hour. Ships up to 25,000 tons d.w.t. can be accommodated here; depth alongside 12 m.;
d. Private jetty of the Methanol Chemie Nederland (M.C.N.) equipped with a loading station with a loading capacity of 500 tons of methanol per hour. Tankers up to 20,000 tons d.w.t. can be accommodated here; depth alongside 10 m.;
e. Private jetty of the Aluminium Factory equipped with cranes is able to accommodate ships up to 30,000 tons d.w.t. Depth alongside is 12 m.

The Oosterhornhaven behind the dyke is a basin with a total length of 3,100 m. and a width of 60 m.

Navigating Oosterhornhaven is prohibited for vessels having an LOA exceeding 75 m. and/or having a maximum beam exceeding 12.50 m. and for having a draft exceeding 4.50 m., unless a special permission is obtained from the Harbour Master subject to certain conditions.

Amongst others there are mooring facilities located in this canal alongside the yard of Azko and Methanol Chemie, equipped with loading installation and a tanker jetty.

The Eemskanaal:
Several private mooring facilities are located here. These are the following:

Name	*Type*	*Suitable for*
Jonker's Terminal	Potatoflour, bulk term	Coasters
Aankoop Centrale	Grain elevator	Coasters
Terminal Delfzijl	Timber Terminal	Coasters
C.Z.G.B.	Stevedores	Coasters
B.P.	Oil storage	Inland vessels
Gulf	Oil storage	Inland vessels/Coasters
Eemsmond	Cement factory	Inland vessels
Jansen Continental	Grain elevator	Coasters

The Sea Locks:
The link between the Outer Harbour and the Eemskanaal and also the Oosterhornhaven of the port area is formed by the provincial sea locks. Sea-going vessels up to 6,000 tons d.w.t. with a beam of 16 m., a length of 120 m., and a draft of up to 5 m. can use these locks. As this will generally apply to vessels in ballast, the locks for this size of vessel are only of importance for the Groningen shipyards.

For loaded vessels, the limit lies between 2,000 and 2,200 tons d.w.t. In the Outer Harbour of the locks sufficient berths have been provided for vessels waiting to pass through the locks.

Dimensions of locks:

The Western (small) lock has a length of 123 m. at falling tide and 81 m. at rising tide, a width of 7 m., a depth of sill outside 4.2 m. inside 2.4 m.; across each lock head lies a bascule bridge. The Eastern (large) lock has a length of 120 m., a width of 16 m., depth of sill 5.4 m.; across each lock head lies a drawbridge. The opening times of the locks are continuous on weekdays.

Sheds and warehouses:
There are several sheds and warehouses (total capacity: 3,250 sq. m.); also open storage. Grain silo with a storage capacity of 2,000 tons loose and 500 tons in bags. Also several private sheds, warehouses and grain silos.

CRANES: There are about 15 shore cranes with capacities up to 12.5 tons and a floating 60-ton crane.

STEVEDORES: *Working hours:*

	Combination of shifts possible:
Morning shift 08.00 – 12.00	*1. Morning shift+afternoon shift*
Afternoon shift 13.00 – 17.00	*2. Afternoon shift+evening shift*
Evening shift 17.30 – 21.30	*3. Evening shift+1st night shift*

1st night shift 22.00 – 02.00 *4. 1st night shift+2nd night shift*
2nd night shift 02.30 – 06.30 *5. Extra shift+morning shift*
Extra shift 03.30 – 07.30 *Double shift:*
from 05.00 – 13.30 and
from 13.30 – 22.00
Each shift half an hour's break

Work on Saturdays and Sundays:
Work on Saturdays and Sundays can be arranged in the same manner as this is done in the ports of Rotterdam and Amsterdam, *viz.* in consultation with the stevedores.
DENSITY: Ranging between 1007 and 1020, depending on the tide.
FRESH WATER: Water obtainable alongside the quays or can be delivered by motor tankers.
FUEL: Fuels in limited quantities for coasters are always available. For bunkering of larger vessels, arrangements should be made in advance.
GANGWAY/DECK WATCHMEN: According to police regulations, Master has to keep watchmen on board.
AIRPORT: Eelde (Groningen).
OPENING/CLOSING HATCHES: Normally carried out by ship's crew.
CONSULS:

At Delfzijl		*At Groningen*	
Denmark	tel. 05960–16333	Belgium	tel. 050–138222
Finland	tel. 05960–16800	Germany	tel. 050–139922
France	tel. 05960–13778	Norway	tel. 050–189444
Sweden	tel. 05960–16333	Spain	tel. 050–137879

REPAIRS: Most engine and deck repairs can be carried out by two local shipyards.
DRY DOCKS: Dry-docking is limited to ships up to 3,000 d.w.t. with a draft not exceeding 32 dm. For larger vessels, dry-docking facilities exist in the nearby port of Emden (Germany).
CERTIFICATES: The tonnage certificate should be shown to Harbour Master on first call every year.
HEALTH, MEDICAL ATTENDANCE, HOLIDAYS, LOCAL TIME, CUSTOMS ALLOWANCES: See "Rotterdam".
REGULATIONS: *Regulations for arrival and departure of sea-going vessels:*

1. The arrival of a sea-going vessel, other than vessels passing through the port, must be reported in writing by the Master, or his local representative at the Harbour Master's office twenty-four (24) hours prior to arrival;
2. The declaration of arrival must contain:
   a. name and flag of vessel,
   b. nature and amount of the cargo to be discharged and/or loaded;
   c. dangerous goods, according to the IMCO code;
   d. last port of call;
   e. ETA and next port of call.
3. Declaration of arrival must be made on the special forms or per teleprinter (53299 HSDDZ);
4. At least three hours before departure the Master, the shipping company or its local Agent must notify the Harbour Master's office of the intended departure, stating the estimated time of departure and the destination of the vessel.

AUTHORITY: Port of Delfzijl Authority.
AGENTS: Maritima Scheepvaart en Handelmaatschappij B.V., De Vennen 52, Delfzijl. Tel (05960) 18989. Cables "Maritima". Telex 53153.

DORDRECHT: 51.49 N. 04.40 E. (See Plan Book)

DOCUMENTS: See "Rotterdam".
PILOTAGE: Compulsory. Vessels have to enter New Waterway at Hook of Holland and proceed to Dordrecht via this New Waterway and the River Oude Maas. Masters of vessels bound for Dordrecht should state destination in ETA message as Pilots for Dordrecht embark from pilot cutter at roads. Deep-draughted vessels may have to exchange Pilots just inside breakwaters at Hook of Holland. (See Rotterdam "Ordering a Pilot").
ANCHORAGE: At sea off Hook of Holland (see "Rotterdam"). No anchorage between entrance to New Waterway and Dordrecht.
RADIO/RADAR/VHF: No radar service on River Oude Maas or Dordrecht.
RESTRICTIONS: Max. LOA 175 m. Max. breadth 23 m. Max. draft 29 ft. 6 in. Max. breadth is discussable as 25.90 m. could be allowed. For tankers min. visibility 500 m. (1,640 ft.). For dangerous cargoes, see "Rotterdam". The Pilot will decide the number of tugs required for passage on the Oude Maas, usually a min. of 3–4.
TUGS: Tugboats ordered by Pilot when entering New Waterway. Tugs normally meet vessels at Dordrecht.
CRANES: 2 Transporting bridges 15 tons each, 2 Portal cranes 12.5 tons each, 1 Portal crane 7 tons, 1 Floating crane 7 tons, 3 General cargo cranes 6, 5 and 3 tons capacity.
BRIDGES: Bridges across the River Oude Maas are opened day and night. Sea traffic has preference over shore traffic.
STEVEDORES: Working hours: 0730 hrs on Monday until 1400 hrs on Saturday.
TANKERS: Oil installation of Gebr. Broere N.V. has seven tanker berths. Max. draft 9.0 m. There are other tanker berths for small tankers. No slop (residue) storage facilities.
REPAIRS: Yards of various capacities available for all types of repairs.
FRESH WATER: At oil installations fresh water can be supplied from shore. Or supply by waterboat.
FUEL: Available by barge.
CONSULS:
Denmark tel. 32177 Norway tel. 32177 France tel. 33231.
Other consulates at Rotterdam at 20 km. distance.
POLICE/AMBULANCE/FIRE: Tel. Police 30333; Ambulance and Fire 33333.
AIRPORT: Rotterdam and Amsterdam airports at a distance of 30 and 90 km. respectively served by regular airlines.
PILOT CUTTERS, HEALTH, MEDICAL ATTENDANCE, BUNKERS, CUSTOMS ALLOWANCES, HOLIDAYS: See "Rotterdam".
TIME: GMT plus 1 hour. Summer plus 2 hours.
AUTHORITY: Havendienst der Gemeente Dordrecht.
AGENTS: See "Rotterdam.

EEMSHAVEN: 53.27 N. 06.50 E. (See Plan Book)

LOCATION: On the Western shore of the River Eems, about 15 km. N.W. of Delfzijl.
PILOTAGE: See "Delfzijl".
ANCHORAGE: Near the Western mole of the Eemshaven is an anchorage with a depth of about 16 m.
RESTRICTIONS: The entrance channel Doekegatkanaal has a depth of 12 m. thus enabling ships with draft up to about 12 m. to enter at HW. Plans exist to increase the possible draft to about 13 m.
Tides: The rise at Springs is 3.05 m. and at Neaps 2.35 m. Tidal movement is diurnal with an average range of 2.7 m. (all approx.).
Depths: All depths are indicated in relation to N.A.P. LLWS at Delfzijl lies 2.03 m. below N.A.P. (Normal Amsterdam Level).
BERTHING: The harbour is divided into 4 communicating basins:
Doekegatkanaal: Has a depth of 14 m. at the entrance and 12 m. further on. The bottom width at the moles is 300 m. at 14 m.; the minimum width is 275 m. at 12 m. At the end of the Doekegatkanaal is a turning basin with a diameter of 500 m. and a depth of 12 m.
Wilhelminahaven: East of the turning basin is a special basin for tankers with a depth of up to 17 m. and a bottom width of 200 m. This basin has a length of 600 m. Mooring facilities will be constructed by future industries.
Julianahaven: Located West of the turning basin. This basin has a length of 1,200 m. and a width of 250 to 300 m. ultimately. The depth of this basin varies between 14 and 17 m.

To the South of this basin a quay has been constructed with a length of 600 m. and a width of 300 m. The quay is equipped for general and unitised cargo handling to be handled with 2 cranes with a maximum lifting capacity of 20 tons and 1 crane with a lifting capacity of 30 tons. A Ro-Ro ramp is incorporated in the construction of this quay.
Emmahaven: Has been constructed South of the quay and West of the swinging basin. This basin with a length of 600 m. and a width of 130 m. has been dredged to 10 m.
SUPPLIES: Fuel oil and provisions should be arranged in advance.
REGULATIONS: See "Delfzijl".
AUTHORITY: Port of Delfzijl Authority.
AGENT: See "Rotterdam".

FLUSHING: 51.27 N. 03.35 E. (See Plan Book)

DOCUMENTS:
2 Crew Lists.
2 Passenger Lists.
1 Store List.
1 Personal Effect List.
Ship's Register.
1 Manifest or Bill of Lading.
PILOTAGE: Position of pilot cutters in the Scheldt Estuary: Pilotage is compulsory.

Wielingen (Southern approach) or via Scheur: Vessels approaching the Scheldt estuary from the English Channel pass the lightvessels Sandettie Banks and West Hinder. The Belgian pilot cutter *Wandelaar* is stationed near Buoy A1 at 51° 22′ N. and 02° 53′ E. This cutter has a black hull with a white number on her bow, a yellow funnel with black top and flies a red flag with the letter "P" in white.

A vessel bound for Flushing to discharge, bunker, load, to embark or disembark passengers or for repairs will be provided with a Dutch Pilot, who will take the vessel into harbour. Other vessels for Flushing (sheltering, awaiting orders, unplanned repairs, etc.) will be provided with a Belgian Pilot to Flushing-Roads, where a Dutch Pilot comes on board to take the ship into harbour.

Oostgat (Northern approach): Vessels approaching the Scheldt estuary from the North can take a Pilot in the vicinity of the S.B.Z. lightbuoy (51° 42.3 N. and 03° 14.3′ E.) where a Dutch pilot cutter is stationed, flying a blue flag with the letter "L" in white. As a rule vessels bound for Flushing are provided with a Dutch Pilot.

ETA Messages: Masters' telegrams via Scheveningen Radio, call sign P.C.H., are passed on to Agents 24 hrs. a day, week-ends inclusive.

For this reason it is advisable that Masters communicate with Agents via Scheveningen Radio, via which station Agents also route their messages to vessels.

Vessels bound for the River Scheldt should cable, at least 4 hours in advance, their:

1. ETA "Wandelaar" (Southern Approach) to: "Pilotage Ostend", via Ostend Radio (OST):
2. ETA "Steenbank" (Northern Approach) to: "Pilotage Flushing", via Scheveningen Radio (PCH).

The ETA message should contain the following details: *(a)* the words "ETA Pilot Wandelaar or Steenbank". *(b)* ETA central European time shown in a group of four figures. *(c)* draft (S.W. or FW) with indication of unit applied. *(d)* port of destination and berth.

Pilot cutters may be contacted on VHF Channel 6.

During bad weather both pilot cutters shift to Flushing Roads.

APPROACHES:
Approaches to the Scheldt Estuary are:

	Depth MLWS	*Max. Draft SW Neap*	*Spring*	*Keel Clear-ance*
S. Channel:				
Wielingen	25 ft.	32 ft.	34 ft. 5 in.	5 ft.
Scheur	35 ft. 6 in.	43 ft. 5 in.	46 ft.	5 ft.
N. Channel:				
Oostgat	25 ft. 6 in.	30 ft.	32 ft.	5 ft.

ANCHORAGE: The roads of Flushing offer a safe and spacious anchorage with a sandy bottom. Vessels anchoring in the roads are recommended to do so Southward of the Koopmanshaven (the Western harbour of Flushing) at not less than 0.75 of a mile from the Northern Coast. In this part of the roads depths vary from 10 m. (33 ft.) to 26 m. (85 ft.).

The greatest depths and the strongest tides are encountered on the Southern part of the roads. When lying there vessels are less exposed to the risk of collision in foggy weather etc. and are well away from vessels proceeding up and down the river, manoeuvring for the purpose of landing and/or embarking Pilots, and from ferry boats crossing between Flushing and Breskens.

At the Northern part of the roads the tidal stream slackens gradually until HW is reached and under normal conditions of tide and wind the ebb stream is already felt along the shore from half an hour after HW until 1 hour after LW. From 1 hour after LW the flood tide sets in again and is felt until shortly after HW.

At the South side of the roads the tidal stream is running until slightly over an hour after HW when the stream slackens and turns. Two hours after HW the stream is running in NW direction gradually veering West.

MAX. SIZE: *Flushing East Harbour:* Entrance 34 ft. 4 in. at MLWS. A depth of 38 ft. planned alongside the quay.

Max. draft at Buoys at entrance 43 ft.

Outer Harbour: West side, max. draft 33 ft. (To be deepened to 40 ft. LWOST in 1978).

Inner Docks: Max. depth 24 ft.

Total: Max. length 280 m., max. draft 49 ft. (S.W.), max. d.w.t., 100,000 tons. However, draft is controlled by the depth in the approach channels.

HEALTH: No certificates required. In event of any disease or fever contact Agents.

RADIO: All messages to Agents via Scheveningen Radio.

Flushing Radio can be reached by VHF Channel 14. Harbour tugboats and pilot cutters operate on VHF Channel 6.

RADAR/VHF: Port radar service, none. River service under consideration. Flushing Radio Channel 14. Every 5 min. each hour this station transmits information regarding visibility, water-level, hindrances, anchorages, etc. Harbour tugs Channel 6.

TUGS: Join vessels in Flushing roads. Vessel's lines usually used. No extra for tug lines. For contract holders 5% reduction.

BERTHING: *Outer Harbour:* West side, quay of 1,150 ft. long, depth of water 33 ft. LWOST. Quay height above sea level 2 m. at high tide and 7 m. at low tide. In Northern part of Outer Harbour a landing stage with length of 360 ft. Depth at low tide 20 ft. Depth at HW 29 ft.

Flushing East Harbour: Quay length 1,740 ft. Depth 38 ft. LWOST.

Inner Docks: A double lock and sluice give access from Outer Harbour to inner docks and canal through Walcheren. Largest lock length 455 ft., width 72 ft., depth on still LWOST of 17.5 ft. The other lock is 213 ft. long, 26 ft. wide, and 10 ft. deep. Sluice 113 ft. wide, 28 ft. deep. Constant depth of water at quay 24 ft.

STEVEDORES: Provided by N.V. Haven Van Vlissingen (Port of Flushing Limited). Tel.: 01184–15070. Telex: 55137.

MECHANISED CARGO HANDLING: Quay length 1,700 ft. equipped with 2 portainers suitable for handling 20 up to 40 ft. containers.

Roll-on/Roll-off service between Flushing and Sheerness. Service twice a day. Vessels berth in the Outer Harbour at the Olau Line Terminal. At Flushing-East, Ro-Ro facilities for deep sea vessels.

TANKERS: Vessels carrying over 4,400 gallons of combustible liquids with a flash point up to 21° C., or over 22,000 gallons with flash point up to 55° C. require Harbour Master's permission for entry.

Two discharging berths alongside the quay. Discharge lines three of 8 in. diameter with capacity of about 2,000 t.p.h.

Total: See "Max. Size".

One jetty for tankers up to 100,000 d.w.t. and three jetties for barges and coasters with depth of 20 ft. and 30 ft.

Connections:

Commodity	Loading arms
Fuel oil	2×12 in.
Clean products	2×10 in.
Bunkers (fuel oil only)	1× 8 in.

The two fuel oil loading arms can also be used for the discharge of crude oil. The loading arms are hydraulically operated.

Deballasting: One 12 in. and one 10 in. loading arm can also be used for the discharge of dirty ballast water in unlimited quantities at the rate of about 1,000 t.p.h.

Capacities: Discharging rate of crude oil 3,000 t.p.h. and the loading rate of fuel oil about 2,700 t.p.h.

Supplies: Water obtainable from jetty. Bunkers by barge. Stores by small vehicles max. axle load 12 tons.

MEDICAL: Two hospitals available.

DENSITY: About 1024.

FRESH WATER: Can be supplied either alongside the quay or by water boat. Possible to supply fresh water in Flushing roads weather permitting.

FUEL: All grades obtainable from major oil companies and supplied by barge only.

Economical bunkering arrangements can be made at the sheltered anchorage Schaar van Everingen, a few miles up river from Flushing. No harbour dues. Max. draft HW Neaps 42 ft. Springs 45 ft.(S.W.).

DEVELOPMENTS: In Flushing E. the quay of 1,300 ft. length to be extended by 140 m. with depth alongside 38 ft. LWOST.

GANGWAY/DECK WATCHMEN: Available but not compulsory or necessary.

OPENING/CLOSING HATCHES: On liners by crew or stevedores, ship's option.

CERTIFICATES: On arrival, ship's register only.

CUSTOMS ALLOWANCES: 200 cigarettes for each member of crew and total on board out of bond 5 litres spirits and 100 litres wine.

CARGO GEAR: The port is equipped with modern mobile cranes, which can be used both in the outer harbour and in the inner docks, with the following capacities:

2 cranes 25 tons	2 cranes – 10 tons
3 cranes – 12 tons	1 crane – 8 tons

Floating cranes are available with capacities of 225, 75, 40 and 8 tons.

IDENTIFICATION CARDS: Not required.

CONSULS:

Belgium	tel. 66989	Germany	tel. 01188–1764
Denmark	tel. 14272	Norway	tel. 12272
France	tel. 12373	Sweden	tel. 16828

REPAIRS: All repairs possible.

DRY DOCKS: Largest (Graving) 712 ft. 5 in., width 98 ft. 4 in. Draft 28 ft. 6 ins., 45,000 d.w.t. and 4 smaller docks.

REPATRIATION: All facilities available for crew changes; good railway connections.

AIRPORT: Rotterdam (Zestienhoven) 125 km.; Brussels (Melsbroek) 150 km.; Amsterdam (Schiphol) 180 km.

TIME: GMT plus one hour.

HOLIDAYS: New Year's Day (January 1st); Easter Monday; Queen's Birthday (April 30th); Ascension Day (May 15th); Whit Monday; Christmas Day (December 25th); Boxing Day (December 26th).

Work can be arranged on above days, however dependent upon permission of the Docker's Inspection.

POLICE/AMBULANCE/FIRE: Police 3333; Ambulance and Fire 2323.

TELEPHONES: Not possible to place telephones on board except for vessels berthing at the shipyard "De Schelde".

SERVICES: Compass Adjuster; Radio/radar services also calibration of the Direction Finder, Seamen's Home (Mission to Seamen); Lloyd's Sub-agents; Ship's Laundries.

SHORE LEAVE: After clearing inwards, crew members are allowed to go ashore without special permission.

AUTHORITY: *Outer Harbour:* N.V. Haven van Vlissingen.

E. Harbour: The Port Authority of Flushing.

AGENT: Wm. H. Muller & Co. Scheepvaartagenturen B.V., 16 Boulevard de Ruyter, P.O. Box 81, 4380 AB Flushing. Tel.(01184) 12171. Telex 55068. Cables "Mineral".

GRONINGEN: 53.15 N. 06.34 E. (See Plan Book)

The port is connected with the Ems Estuary via the Eemskanaal and the lock at Delfzijl.

DOCUMENTS: Clearing is done at Delfzijl.

PILOTAGE: For the approach of the lock see "Delfzijl".

The length of the lock is 120 m. and the width 16 m. Depth over sill at low water 3.9 m. and at canal level 6.07 m.

On the locks canal-pilots are available but pilotage on the canal is not compulsory. The length of the canal is 14 miles and it has a least depth of 5.2 m. There are 3 bridges all 16 m. wide.

MAX. SIZE: Maximum size for ships passing lock and navigating canal; beam 13 m. and draft 4.5 m. (Vessels with greater beam and draft possible with permission of the Canal Authority.)

TUGS: Available at Delfzijl and Groningen.

BERTHING: *Hunzehaven:* South side 300 m. quayage, railway connected, max. draft 4.5 m., two grab cranes 3.5 ton, two general cargo cranes 3 ton.

Oosterhaven: North side 150 m. quayage, max. beam 12 m., max. draft 3.6 m., two grab cranes 3 ton.

Deense haven: Three mooring buoys, max. draft 4.5 m.

Eemskanaal: Private silo max. beam 12 m., max. draft 3.9 m. private timber yard max. beam 12 m., max. draft 3.6 m.

Van Starkenborghkanaal: Private silo max. beam 9.6 m., max. draft 2.9 m. private timber yard max. beam 9.6 m., max. draft 2.9 m.

CRANES: Floating sheerlegs up to 250 tons.

STEVEDORES: Available.

MECHANICAL CARGO HANDLING: Silo's with equipment for bulk-handling of grain on Eemskanaal and Van Starkenborghkanaal.

MEDICAL: 3 hospitals available.

FRESH WATER: Supplied by Authority's water boats.

FUEL: By barge only.

CERTIFICATES: On arrival, ship's register only.

CONSULS: Belgium, tel. 138222; Norway, tel. 189444; Spain, tel. 137879.

REPAIRS: All repairs possible at Delfzijl.

DRY DOCKS: Transverse slipway at Delfzijl.

AIRPORT: Eelde, 10 km. from Groningen, daily services to Schiphol.

TIME: MET.

HOLIDAYS: New Year's Day, Easter Monday, Queen's Birthday (30th April), Ascension Day, Whit Monday, Christmas Day, Boxing Day.

POLICE/AMBULANCE/FIRE: Police tel. 121212; Ambulance tel. 123456; Fire Brigade tel. 123456.

TELEPHONES: Can be placed on board alongside Hunzehaven quay.

AUTHORITY: Harbour Master, Gemeentelijk Havenbedrijf.

IJMUIDEN (YMUIDEN): 52.28 N. 04.34 E. (See Plan Book)

Also refer to "Amsterdam"

DOCUMENTS:

2 Personal Effects Lists.
2 Stores Lists.
3 Crew Lists.
3 Passenger Lists.
Declaration of Health.

PILOTAGE: On entering and leaving Ijmuiden Government pilotage is compulsory. A pilot vessel with Pilots cruises at sea in the vicinity of Ijmuiden between the light whistle buoy and the moles.

In order to avoid delay, Captains, who require a Pilot must advise their ETA not less than 4 hours in advance to "Pilotage Ijmuiden". This advice must be amended, if vessel's ETA changes more than 2 hours from the original advice.

The text of the message must contain:

a. The word "ETA-Pilot".
b. Expected time arrival (group of 4 figures) in middle European time.
c. Draft with indication of unit applied.
d. Port of destination.

"Pilotage Ijmuiden" can be informed via Scheveningen Radio or via VHF Channel 12. Pilotage and navigation are possible at night.

Pilot Ladders: Pilots strictly adhere to Regulation 17b, Chapter V of the International Convention for the Safety of Life at Sea, which reads as follows:

"Whenever the distance from sea level to the point of access to the ship is more than 30 ft. (9 m.), access from the pilot ladder to the ship shall be by means of an accommodation ladder or by another equally safe and convenient means".

Pilot from Helicopter: When the pilot service per pilot cutter has been suspended owing to weather conditions it is possible to take a Pilot on board vessels by helicopter. Helicopter pilotage is carried out for vessels which have an obstacle free hoisting area on deck of minimum 15 ft. in diameter. Deck plans should be provided in advance.

Helicopter rates:

Dfl. 4,080. – per flying hour.
Dfl. 225. – per sling transfer.
Dfl. 318. – overtime from 1800 until 0600 hrs. and on Sundays and holidays.

Restrictions

1. Minimum visibility 800 m. at 150 ft. above sea level.
2. Maximum wind Force 10 (55 kts.).
3. Severe turbulence and icing conditions at or below 150 ft.

Harbour Master's office can be contacted by VHF Channel 11 to obtain information for safe navigation and rapid locking. In adverse weather vessels may receive radar assistance from Port Operations for entering harbour.

ANCHORAGE: Vessels may anchor off Ijmuiden outside the breakwaters.

MAX. SIZE: For North Sea Canal, entrance lock 1312 ft. long, 164 ft. wide. 49 ft. 02 in. depth. Density: 1016.

The official maximum draft to enter Ymuiden is 43 ft. salt water. Vessels with a draft of 43 ft. to 45 ft. salt water may enter Ymuiden and proceed to Amsterdam after special permission thereto has been given by the Government Harbour Master at Ymuiden. Such permission to be applied for well in advance.

HEALTH: Pratique granted automatically on arrival after completion of Maritime Declaration of Health. In case of suspected disease on board notify Agent by radio before arrival advising full details.

TUGS: Available. Meet vessel in harbour entrance if required.

BERTHING: Coal and ore cargoes discharged to Blast Furnace and Steel Works Company in Outer Harbour.

Quay 1: Length of quay: 1,360 ft. Depth alongside quay: East part 31 ft. at LLWS, West part 37 ft. at LLWS.

Opposite the quay there are 3 dolphins available where one vessel can wait for a loading/discharging berth (up to 34 ft. draft).

Equipment:

2 cranes, lifting capacity 30 tons, max. outreach 57 ft.
1 crane, lifting capacity 30 tons, max. outreach 63 ft.

Finished products such as rolling mill products, pig-iron, cast iron, steel ingots, slabs and coils are handled.

Quay 2: Length of quay: 1,800 ft. Depth alongside quay: 48 ft. 09 in. at LLWS. Max. draft; the entrance to Outer harbour is accessible to vessels up to 43 ft. draft and with special permission of the harbour authorities up to 45 ft. draft.

Equipment:

3 bridgecranes, lifting capacity 40 tons each, max. outreach 115 ft. 2 conveyor belt systems (capacity 6,000 t.p.h.).

Despatch:

About 45,000 tons iron ore per 24 hours. About 30,000 tons coal per 24 hours.

Quay 3: Length of quay: 825 ft. Depth alongside quay: 37 ft. LLWS. On this quay exclusively steel products will be loaded.

Equipment:

2 cranes with a capacity of 60 tons each. Outreach 70 ft.

Inner harbours: These harbours are mainly used for loading or discharging smaller vessels having drafts between 13 ft. and 21 ft. 6 in.

Finished products such as rolling mill products, pig-iron, cast iron, steel ingots, slabs, coils but also fertilisers are handled.

DEVELOPMENTS: Proposed new outer port to be built South of South Harbour Entrance Mole to accommodate vessels up to 62 ft. draft.

STEVEDORES: *Working Hours:* In the Outer harbours round the clock, also on Sundays and holidays.

In the Inner harbour round the clock except from 1400 hrs. on Saturdays until 0600 hrs. on Monday.

FRESH WATER: Available from quay.

FUEL: Available by barge.

MEDICAL: Doctors, hospital and all services available.

REPAIRS: Possible.

CUSTOMS ALLOWANCES: 200 cigarettes for each crew member; 5 litres spirits for whole ship.

CONSULS, DRYDOCKS: And all general information; refer to "Amsterdam".

AUTHORITY: Rijkshavendienst Ijmuiden.

AGENT: See "Amsterdam".

ROTTERDAM: 51.55 N. 04.24 E. (See Plan Book)

DOCUMENTS: Maritime Declaration of Health, obtainable from River Pilot. Crew list in duplicate on special Dutch forms, obtainable from Agents. Ship's Register. Store list. Crew custom declaration showing quantity cigars, cigarettes, tobacco, spirits, wine, radios, cameras, etc., and souvenirs for each Crew member.

Crew and passenger lists to show date of last vaccination against smallpox, for vessel coming from suspect zone within last 14 days.

TOVALOP Certificate (tankers with over 2,000 tons of oil products on board).

DEEP SEA PILOTAGE: See "Brixham" or "Cherbourg".

PILOTAGE: River pilotage compulsory from sea to harbour area and vice versa, except vessels in ballast drawing less than 7 ft. 3 in.

Harbour pilotage compulsory from fairway to berth in harbour area and vice versa, except for vessels under 475 g.r.t.

Pilot Cutters: Cruising continuously, day and night, off entrance to New Rotterdam Waterway, one North of line North Mole/Maasbuoy and one near Maasbuoy. Characteristic signals:

1. By day pilot flag, being a blue flag with white letter "L", displayed from main top mast.
2. At night, lights as prescribed by Regulations for Preventing Collisions at Sea.
3. During bad visibility the fog signal prescribed by rule 15 of these Regulations.

Ordering a Pilot:

1. Vessels bound for New Rotterdam Waterway should cable, at least 4 hours in advance, ETA pilot station, gross tonnage and draft to:
   (a) Pilotage Hook of Holland via Coastal Station Scheveningen Radio (PCH) or
   (b) Coastal Station Maassluis Radio (Radio Dirkzwager) by VHF Channel 12 (Port operations) or
   (c) Station Pilot Maas at Hook of Holland by VHF Channel 20.

This ETA notification shall, with due observance of the aforementioned 4 hours period, be rectified if the ETA will be more than 2 hours later than the ETA last reported.

Without prejudice to this provision the Master shall indicate his requirement for a Pilot by displaying the prescribed visual signals when his vessel arrives within visual range of the pilot vessel.

The ETA message shall contain:

(a) The words "ETA Pilot"
(b) ETA (group of 4 figures) in Central European Time
(c) Draft of vessel including unit of measurement (feet or decimetres)
(d) Port of destination.

Please note that vessels which do not comply with the above-mentioned regulations and fail to state their ETA timely or accurately, may only be provided with a Pilot 4 hours after their arrival at the pilot station, provided that other vessels which reported themselves correctly will not be delayed.

2. Vessels bound for Port of Dordrecht should also state their destination, as Pilots for Dordrecht embark from pilot cutter on roads.
3. Vessels bound for Europoort should also adopt following procedure:

(a) Vessels equipped with VHF should notify via Channel 12 or 14 their ETA pilot station at least 1 hour in advance to Maassluis Radio Dirkzwager.
(b) Vessels not equipped with VHF should cable same information to Europoort Rotterdam via Scheveningen Radio (PCH).

On arrival at pilot station vessels requiring Pilot are to display following signals, separately or together:

1. *By day,* International code signal "G". Pilot flag, viz., vessel's National Flag with white border from foremast.
2. *By night,* Morse signal "G" by flash light. Blue lights at intervals of 15 minutes. A bright white light shown just above bulwark for 1 minute at short intervals.
3. *During bad visibility.* At least 3 seconds after the normal fog signal the international code signal "G". Pilot vessel will answer: the normal fog signals, followed after at least 3 seconds by international code signal "H" (I have Pilot on board).

Pilotage for deep draft vessels and helicopter Service:

Vessels drawing 57 ft. (SW) and over must make use of the "Eurochannel" between the "Euro One Buoy" and the "Centre Maas Buoy". Pilots are embarked as follows:
up to 57 ft. SW – at the pilot station near the Centre Maas buoy
57 ft.–68 ft. SW – by helicopter:
(a) in rendezvous position 52° N. 03° E.
(d) at the VLCC anchorage off Hook of Holland.

For vessels drawing over 57 ft. (SW) 1.5 times the pilotage tariff Sea – Hook of Holland is applicable.

Helicopter pilotage is regularly carried out for vessels which have an obstacle-free hoisting area on deck of min. 15 ft. in diameter. Deckplans should be provided in advance.

Restrictions:

1. Min. visibility 800 m. at 150 ft. above sea level.
2. Max. wind force 10 (55 kts.).
3. Severe turbulence and icing conditions at or below 150 ft.

Pilot ladders: Whenever the distance from sea level to the point of access to the ship is more than 30 ft. (9 m), access from the pilot ladder to the ship shall be by means of an accommodation ladder or by other equally safe and convenient means.

ANCHORAGES: Recommended anchorages:

1. South of the Maas Centre Buoy
2. Vessels drawing 57 ft. or more at the approximate position 52° 00′ N. 03° 00′ E.
3. Emergency anchorage for deep-draft vessels NW of Maas Centre Buoy.

RESTRICTIONS: Dangerous Goods:

General Information:

Regulations are based on several Governmental laws and Municipal bye-laws.

The "Dangerous Goods Department" of the Municipal Port Management is the centre where all information on dangerous goods on board vessels is collected, administrated and distributed to those concerned.

Inspection on board vessels berthed in the Port of Rotterdam will be carried out mainly by inspectors of the Municipal Dangerous Goods Department, although in certain cases (e.g. explosives), Governmental Dangerous Goods Inspectors are in charge as well.

For detailed information the following Regulations should be consulted:

Rotterdam Port Bye Laws (Havenverordening Rotterdam)
Order of the State Secretary for Traffic and Public Works No. A5/071054 of 31 Dec. 1971
(Beschikking van de Staatssecretaris van Verkeer en Waterstaat Nr. A5/071054 31 Dec. 1971)
Notice to shipping of the Governmental Harbour Master No. 40/1974 (Bekendmaking aan de scheepvaart No. 40/1974)
Notice to shipping of the Dept. of Public Works No. 50/1967 (Bekendmaking aan de scheepvaart No. 50/1967)

From these Regulations the following significant obligations have been extracted:

1. Signals:

Vessels carrying:

a. any quantity of explosives;
b. more than 10,000 kg. gross per class in packages indicated in the IMDG Code with a danger label as poisonous goods of Class 2, Class 3, Class 6, or Class 8;
c. all gases in bulk as mentioned in IMCO Class 2;

Additional Restrictions

d. chemicals in bulk as mentioned in Chapter VI of the IMCO Code for the construction and equipment of ships carrying dangerous chemicals in bulk should hoist the following signals before entering the Rotterdam Waterway area:
   I. by day: the International signal "B";
   II. by night: 2 red lights at the same level at a distance of 1 m.

2. Prior Notification:

Masters of vessels carrying:

a. dangerous goods as mentioned above;
b. more than 1,000 kg. gross weight per substance of the goods mentioned under 1.b. in packages;
c. more than 5,000 litres of inflammable liquids;
d. the commodities mentioned in app. I, above quantities as stated in the list, shall report these commodities to the Dangerous Goods Dept., of the Municipal Harbour Master 24 hours before arrival.

3. Explosives:

There is a restriction on the carriage of explosives by ships, dependent on kind, quantity and stowage of the explosives.

Permission to deliver explosives is given by the Minister of Transport.

Captains of vessels are advised to make sure whether such a permission has been granted.

4. Dangerous Cargo List:

Apart from these obligations the Rotterdam Port Bye Laws prescribe that a vessel having any dangerous cargo on board is prohibited from being in the harbour unless there is a list on board and an identical list has been submitted to the Harbour Master, stating the correct technical names, IMCO class flashpoint if below 61° C and the stowage of these materials.

5. Operational Notice:

Masters of vessels showing the signals as mentioned above ("B"-flag or 2 red lights) shall give notice to "Post Waterweg" on VHF Channel 14.

This notice shall be given at least half an hour but not more than 1 hour before the ship enters the Rotterdam Waterway area.

This can be done sailing from sea, sailing downstream the Oude Maas or from a berth.

This notice shall contain: ship's name, position, destination and expected time of entering or leaving the Rotterdam Waterway area.

Should there be considerable alteration in this time, "Post Waterway" should be notified again 30 minutes in advance.

After the first notice and during the further voyage on the Rotterdam Waterway, VHF Channel 14 should be kept on stand-by listening watch should be kept on.

When visibility is less than 500 m., ships may be prohibited from navigating the Rotterdam Waterway.

6. Pilotage:

Ships carrying:

a. more than 1,000 kg. explosives (IMCO Class 1), liable to mass explosion;
b. substances of IMCO Class 2, Class 3 (not miscible with water) or Class 6.1 in bulk, must have a Pilot on board when entering the Rotterdam Waterway area. At least 24 hours before arrival and 1 hour before departure the following particulars shall be given to the Governmental Harbour Master via the H.C.C. (Harbour Co-ordination Centre);
   1. Name and call sign;
   2. Nationality;
   3. Gross tonnage and draft;
   4. Nature and quantity of dangerous cargo;
   5. Berth;
   6. ETA/ETD;
   7. Agent.

Incoming ships shall also give notice 4 hours before arriving at the Pilot Cruising Station stating:

1. Name and call-sign;
2. Draft;
3. ETA;
4. The code word "IMCO".

by radio telegram via the Netherlands Coastal Radio Station (PCH) addressed to: "Pilotage Hook of Holland" or by VHF on Channel 12 to "Maassluis Radio" (Dirkzwager).

Navigation on the Rotterdam Waterway might be prohibited if circumstances make this necessary.

WRONG ORDER

Alterations:

In the course of 1979 the regulations on the transport of dangerous goods as well as the communication system for the Rotterdam Waterway area may be changed. These changes will be duly announced.

Dangerous are: a. Explosives; b. Radio-active materials;
c. The undermentioned goods.

A

Remarks:

a. Particular berths are the Eemhaven basins and the harbour basins to the West of them on the South bank of the New Rotterdam Waterway.
b. Liquid dangerous cargoes in bulk only in the oil harbours.

Fog: Tankers will not be allowed to manoeuvre in fog, i.e. in visibility of less than 500 m. (1,640 ft.).

Entry times: Depend on prevailing circumstances, as follows:

Europoort: Tankers:
up to 61 ft. (SW) draft – Any time.
over 61 ft. (SW) draft – 1 hour before until 2 hours after high water at Hook of Holland.

(continued on page 676).

Name of dangerous goods or group of dangerous goods	*Quantity above which they are considered being dangerous**	*Quantity that may be loaded or discharged at each berth by one ship***
1. chlorine	200 kg.	1,000 kg.
2. phosgene	200 kg.	1,000 kg.
3. fluorine	200 kg.	1,000 kg.
4. hydrogen cyanide	500 kg.	5,000 kg.
5. hydrogen sulphide	500 kg.	5,000 kg.
6. carbon disulphide	500 lit.	5,000 lit.
7. hydrogen bromide	1,000 kg.	10,000 kg.
8. hydrogen chloride	1,000 kg.	10,000 kg.
9. hydrogen fluoride	1,000 kg.	10,000 kg.
10. sulphur dioxide	1,000 kg.	10,000 kg.
11. methyl bromide	1,000 kg.	10,000 kg.
12. acetone cyanohydrin	1,000 lit.	40,000 lit.
13. acrylonitrile	1,000 lit.	40,000 lit.
14. acrolein	1,000 lit.	40,000 lit.
15. allyl alcohol	1,000 lit.	40,000 lit.
16. allyl chloride	1,000 lit.	40,000 lit.
17. epichlorohydrin	1,000 lit.	40,000 lit.
18. acetonitrile	1,000 lit.	40,000 lit.
19. dimethyl sulphate	1,000 lit.	unlimited
20 chloropicrin	1,000 lit.	,,
21 bromine	1,000 lit.	,,
22. lead alkyls	2,000 lit.	,,
23. cyanides	2,000 lit.	,,
24. nitrate of ammonium	100,000 kg.	,,
25. highly poisonous pesticides in solution	2,000 lit.	,,
26. chlorosulphonic acid	1,000 lit.	,,
27. ethylene dichloride (dichloro ethane)	1,000 lit.	,,
28. sulphuric acid with more than 85% acid (H_2SO_4)	400,000 lit.	,,

WRONG ORDER

* Obligation to report to the Harbour Master at least 24 hours before arrival.
** For bigger amounts apply to the Harbour Master.

INSERT (A)

ADDITIONAL RESTRICTIONS (CONT'D)

Vulcaanhaven Vlaardingen: Between 33 and 39 ft. at slack high tide only.

Botlek:

(*a*) Between 33 ft. and 37 ft. any time except between 4 hours and 1 hour before high water at Rotterdam.

(*b*) 37 ft. and 39 ft. at slack low or at slack high water, depending on circumstances.

(*c*) 39 ft. to 44 ft. only at slack high water.

Vessels with a length over 200 m. (656 ft.) can only enter at slack tide.

Waalhaven:

Same as Botlek, but vessels with a draft of 39 ft. fresh water, which are over 800 ft. in length, must first discharge part cargo in Botlek from where, after draft has been reduced to 37 ft. fresh water, they can be shifted to Waalhaven.

Other basins: Any time.

MAX. SIZE:

Entrance and river area	*Channel width in m.*	*Max. SW draft (High tide)*	*Keel-clearance*
Euro 1 buoy – Euro 5A	600	68 ft.	20%
Euro 1 buoy – Euro 5A	1,200	65 ft.	20%
Euro 5A buoy – Maas centre	600	68 ft.	17.5%
Euro 5A buoy – Maas centre	1,200	65 ft.	17.5%
Maas centre buoy – Entrance	600–400	68 ft.	15%
Entrance – Europoort	400–350	68 ft.	10%
Entrance – Botlek	250	44 ft.	10%
Botlek – Waalhaven	250	40 ft.	10%
Waalhaven – Rijnhaven	200	34 ft.	10%

(A)

Vessels drawing over 57 ft. have to report at least 6 hours before arrival at the rendezvous point to "Traffic Centre Hook" (TCH) at Hook of Holland via coastal radio station "Scheveningen Radio" (PCH). The message should contain the following particulars:

a. name and call sign
b. gross tonnage and max. draft in SW.
c. ETA rendezvous point
d. statement of nautical instrument (gyro, radar, VHF, Decca, Mark XII or XXI.)

Also see "General".

Shifting: Vessels which have been partly discharged at Europoort/Maasvlakte terminals should arrive at the Botlek entrance half an hour before high tide at Rotterdam. The following rules in view of length and draft apply:

Max. length overall	*Max. draft allowed*
up to 260 m.	44 ft. SW
260–270 m.	42 ft. SW
270–280 m.	41 ft. SW
280–300 m.	39 ft. SW

HEALTH: Master has to fill in and sign Maritime Declaration of Health which is handed to him by Pilot. Vessels subject to medical inspection have to hoist flag signal according to Pilot's orders.

RADIO: Recommended radio station: Scheveningen Radio, call sign PCH, via which station also Agents send messages to vessels.

RADAR/VHF: Chain of 7 shore-based radar stations permits navigation during all weather conditions. Radio and radar station Pilot Maas, at Hook of Holland, communicates via VHF Channel 20.

VHF range = about 15 miles.

Radar range = about 14 miles in S.W. and West direction, and 10 miles in North direction.

Masters are requested to call this station, especially during bad visibility, well in advance of arrival at pilot station. Pilot Maas provides vessels within range with nautical information and acts as a link with pilot cutters.

Radio and radar station, known as "Rijkshavendienst Waterway", located in Europoort now operates a 24-hour service. It acts as communication post for safety for shipping outside entrance to New Waterway and on Waterway. The station can be contacted by inward bound vessels, but must be contacted by vessels before departure from Europoort by VHF Channel 14, call-sign "RHD Waterway". Station also gives nautical information on situation on New Waterway every half hour via VHF Channel 14 in English.

Radar assistance provided on Channel 3 from CARW Separation Buoy into Europoort and vice-versa.

TUGS: Tugs normally join vessel on river when nearing the basin where vessel will be accommodated. Vessel's towing lines used. On departure from Europoort the tow ropes, fastened to the stern, must be supplied by the tugs.

BRIDGES: New Waterway connects port of Rotterdam with North Sea, without any locks or bridges. Only to reach some shipyards, situated East of Rotterdam, vessels have to pass the "Maas-Bridges" (Koningshaven), which are on working days opened at regular times.

GENERAL CARGO FACILITIES:

	Max. FW draft at LW	*Length of quay*	*No. of cranes*	*Capacity in tons*
Schiehaven	9.0 m. (29 ft. 6 in.)	640 m. (2,100 ft.)	8	5—17.5
Lekhaven	10.0 m. (32 ft. 10 in)	855 m. (2,790 ft.)	8	5—25
Merwehaven	10.0 m. (32 ft. 10 in.)	603 m. (1,978 ft.)	8	5—25
Maashaven	9.0 m. (29 ft. 6 in.)	750 m. (2,460 ft.)	11	5—25
Waalhaven, Pier 1	10.5 m. (34 ft. 6 in.)	860 m. (2,817 ft.)	13	5—25
Princess Beatrixhaven Gen. cargo section Open storage area Banana installation	10.0 m. (33 ft.)	733 m. (2,405 ft.)	9 4 banana elevators 80,000–100,000 cartons of 20 kg. per 7.75 hours.	5—17.5
Waalhaven, Pier 6	11.0 m. (36 ft. 00 in.)	771 m. (2,526 ft.)	7	12.5—30
Parkhaven } Offshore Pier	8.0 m. (26 ft. 03 in.)	443 m. (1,453 ft.)		
Jobskade } Offshore Pier	8.5 m. (28 ft.)	168 m. (551 ft.)		
Jobshaven } Offshore Pier	8.0 m. (26 ft. 03 in.)	354 m. (1,161 ft.)		

The 17.5/25 ton cranes are mainly used for the handling of containers and steel. In combination these cranes can lift 28 tons. The 30-ton cranes are mainly used for the handling of logs and pipes. In combination these cranes can lift 48 tons.

BULK HANDLING FACILITIES: Also see Tables on pages 677 and 678.

Europees Massagoed – Overslagbedrijf (EMO), B.V.: (European Bulk Transhipment Company (EMO) B.V.) Also see "Tables".

World's largest bulk transhipment and storage installation is situated on the Maasvlakte, which has been reclaimed from the North Sea. Fully loaded ore carriers up to 270,000 d.w.t. can be handled.

EMO B.V. is an executing company which concludes transhipment contracts, primarily for ores and secondly for coal. Participants in this company are: Frans Swarttouw; S.H.V. Nederland; August Thyssen-Hutte A.G.; Manufrance; Ruhrkohle. A.G. Messrs. EMO operate 2 transhipment installations:

1. Maasvlakte terminal – E.K.O.M. (Erts Kolen Overslag Maasvlakte).
   Participants: Frans Swarttouw
   Manufrance
   S.N.V. (Transport – en Handelmaatschappij Steenkolen Utrecht B.V.)

A conveyor belt system connects the discharging pier in the Mississippi haven with the barge loading section in the Hartelhaven and with the loading installation for railway wagons, both direct and via the stockpiling area.

Technical data:

Discharging pier – quay length 650 m. (2,231 ft.); max. draft (HW) – 65 ft. SW.

Loading section for barges – quay length 700 m. (2,296 ft.); max. draft – 17 ft. FW.

Max. discharging rate – 6,000 tons of ore per hour.

Average discharging rate – 3,000 tons of ore per hour.

Loading rate railway wagons – 3,000 tons of ore per hour.

Outreach discharging gear – 45 m. (148 ft.).

(continued on page 678)

BULK HANDLING FACILITIES: *(continued)*

Installation		Quay-length (m.)	Max. depth at MLW		Equipment	Discharging rate (t.p.h.)		Max. outreach discharging gear	Max. height of gear above MHW	Loading rate (t.p.h.)	Max. outreach loading gear	Capacities	
1. EMO B.V.	disch. section	650	62 ft.	SW	2 unloaders (future: 3)	Max.	6,000	45.00 m. (148 ft.)	30.00 m. (100 ft.)			Storage	6 million tons

			1	600 t.p.h.	

Total annual discharging capacity of the Grain Elevator Comp. (G.E.M.): 25 million tons.

Max. height of gear above MHW – 30 m. (98 ft.).
Storage capacity – 8 million tons.
Transhipment capacity – 18 million tons per year.
2. Botlek Terminal – Botlek B.V. "See Table".

Ertsoverslagbedrijf Europoort C.V.:
This transhipment installation, specialised in the handling of iron ore, is situated between Caland canal (left), and Dintelhaven (right).

Participants in this installation, partly via their Dutch sister companies, are: August Thyssen-Hutte A.G.; Fried. Krupp-Huttenwerke A.G.; and Mannesmann A.G.

A conveyor belt system connects the discharging pier in the Caland canal with the barge loading section in the Dintelhaven, both direct and via the stockpiling area. For further details of this installation see "Table."

Technical data:
Quay length discharging section 645 m. (2,116 ft.).
Max. draft allowed at MLW – 59 ft. SW.
Max. capacity – 6,900 t.p.h.
Average discharging rate – 4,500 t.p.h.
Outreach discharging gear – 34.75 m. (114 ft.)
Max. height of gear above MHW – 24 m. (78 ft. 8 in.)
Storage capacity – 3.5 million tons
Transhipment capacity – 15 million tons/year.

Berthing possibilities for bulk carriers and OBO's:
Beneluxhaven: Europoort Silo B.V. 1; G.E.M.-Europoort 3-4.
Botlek: G.E.M. installation 2; G.E.M. buoys 1; Buoy No. 21 1.

At the G.E.M.-Europoort terminal it will be possible to discharge vessels of up to 200,000 d.w.t. Conveyor belts (1 per elevator) will transport the grain at a capacity of 800 cu. m. per hour to a central building with automatic weighing machines.

Grain Loading:
Grain loading into vessels of up to 25,000 d.w.t. can be effected both by means of floating elevators, ex-barges, and at the G.E.M.-Botlek shore installation.

SPECIALISED CARGO-HANDLING FACILITIES:
Container Terminals:
Prinses Beatrixhaven: Max. draft 36 ft. (SW).
Prinses Margriethaven: Max. draft 42 ft. (FW).
Prins Willem Alexanderhaven: Max. draft 40 ft. (SW), 41 ft. 04 in. (SW) permitted alongside whilst handling cargo. 2 and 3 are operated by E.C.T., capacity 500,000 containers. Length of quay, 3,000 m. Operates 14 container cranes, 4 used exclusively by Sea/land. Also handles roll-on/roll-off vessels.
Waalhaven (Pier 7): Max. draft 12.2 m. (40 ft.) (FW). Operated by Multi Terminals Unitcentre B.V. operates 5 container cranes, capacity 60 tons. Length of quay 800 m.
Waalhaven (Pier 2): Max. draft 10.36 m. (36 ft. FW). Operated by Multi Terminals Waalhaven B.V. Multi-purpose terminal with Ro/Ro ramps, length 1,500 m. Cranes: 19×5 tons, 4×17.5 tons, 2×36 tons and 2×60 tons.
Waalhaven-Heyplaat: Max. draft 9.6 m. (31 ft. 06 in. FW). Multi-purpose terminal. Length 790 m. Ro/Ro ramp. 5×40 ton cranes.

L.A.S.H.: Vessels discharge and load at buoys in Waalhaven. Average permissible draft at buoys 36 ft. (FW). Max. draft at Buoys 6, 12 and LASH buoys, 40 ft. (SW).

Esso Chemie N.V.: The fertiliser plant in Europoort produces ammonia, urea, nitric acid, calcium ammonium nitrate.

Max. size: 39,000 d.w.t., length 690 ft., draft 42 ft. 06 in. in SW.

CUSTOMS ALLOWANCES: Spirits: first arrival each month, 5 litres per vessel plus 1 bottle per man. Otherwise, 0.75 litre per man with a max. of 5 litres per vessel. Wine: 5 litres per man.

Each Crew member permitted out of bond 200 cigarettes, or 25 cigars, or 500 gm. tobacco.

TANKER BERTHS:

Mobiloil	2nd Petr. haven	1	33 ft. FW	6 and 8 in.

No facilities for discharging dirty ballast at Mobiloil, Chevron/Esso at 5th Petrol Haven, Tank Terminal Rotterdam, Panocean and Paktank.

No bunkers (ex-installation) at Mobiloil, Tank Terminal Rotterdam, Panocean and Matex Europoort.

Maasvlakte: No restrictions on length or beam. On entering tugs are made fast just inside the breakwater. On departure tugs hawsers must be used aft. Max. draft 68 ft. Two berths available. Storage capacity 4.3 million tons. No bunkers available ex-installation. Shore facilities for dirty ballast available.

DENSITY: *Europoort* – At high water 1025; at low water 1022.
Botlek – At high water 1014; at low water 1001.
Waalhaven and other basins in the Rotterdam port area: at high

water 1004; at low water 1000. All depending upon amount of fresh water carried down river.

STEVEDORES: Normal working hours:

1. *Bulk cargoes except grain:* Monday 0730 – Saturday 1400 hrs. uninterruptedly.

2. *Bulk grain:* Monday–Friday 0730–1130; 1200–1600 hrs. Saturday 0730–1130; 1200–1530 hrs. Nightshifts: Monday–Thursday 1630–2030; 2100–0045 hrs. Friday 1630–2030 hrs.

3. *General cargo:* Monday–Friday dayshifts 0730–1600 hrs. Nightshifts: 1630–0045 hrs.

4. *Oil:* Continuously, including weekends, except the oil storage companies Pakhoed and Nieuwe Matex, which work from Monday till Friday during daytime only, unless overtime arrangements are made.

Agents should be kept closely advised of vessel's position. In view of ordering gangs for next morning/evening Master's final ETA message is required before 1400 hrs. For work on Monday mornings a final ETA is required before Friday 1400 hrs.

MEDICAL: All medical facilities available. Advance notice only in emergency or if attendance required during week-end.

OPENING/CLOSING HATCHES: On liners by stevedores. On tramp vessels by crew; stevedores lifting beams.

FRESH WATER: Can be supplied ex quay at many berths. Where no shore connections are available and at buoys: by waterboat.

Fresh water can also be supplied in the Roads off the Hook of Holland, weather permitting.

FUEL: All types of oil bunkers can be supplied by means of barges or ex shore installations for tankers. Coasters can take bunkers ex installation during their inward or outward passage. Advance notice is required for vessels which are only 24 hours or less in port and for bunkering during week-ends.

FIRE PRECAUTIONS: No floating objects are allowed alongside tankers during discharge or loading of dangerous cargoes and during ballasting.

DEVELOPMENTS: Adaption of the approach channel and harbour mouth for ships with a draft up to 72 ft. is in preparation.

On Maasvlakte, new container facilities, a coal terminal and LNG/LPG storage are being contemplated.

General cargo handling will benefit from a redevelopment scheme for the pre-1939 port area.

Preparatory studies are carried out in view of the replacement of the shore based radar chain by a highly sophisticated vessel traffic management system.

GANGWAY/DECK WATCHMEN: Recommended.

CERTIFICATES: Ship's Register and Derating Exemption Certificate.

REPAIRS: Yards of various capacities are available for new building, engineering and all types of repairs.

DRY DOCKS: Largest dry dock for vessels up to 500,000 d.w.t. with tank cleaning installation for largest vessels.

REPATRIATION: All arrangements for crew changes and repatriation can be made.

AIRPORT: Rotterdam airport Zestienhoven (distance 6 km.) and Amsterdam airport Schiphol (distance 70 km.) are served by regular airlines.

TIME: During Winter GMT plus one hour. During Summer GMT plus 2 hours.

HOLIDAYS: New Year's Day; Easter Monday; Queen's Birthday (30th April); Ascension Day; Whit Monday; Christmas Day (25th December) no work; Boxing Day (26th December).

POLICE/AMBULANCE/FIRE: Police head office tel. 14.31.44; Alarm and accidents tel. 14.14.14; Ambulance tel. 13.50.00; Fire tel. 29.29.29.

TELEPHONES: At major shipyards, oil and grain terminals telephone is placed on board without extra charge.

DEGASSING/CLEANING: Free translation of circular issued 17th April 1973 by the Docks Industry of the Municipality of Rotterdam, reads: Safety requirements in regard to degassing/cleaning of tanks and/or holds on board ocean tanker vessels.

A recent accident during cleaning activities of tanks having contained combustible gases or liquids, poisonous or not, has resulted in the following directives to maintain the safety and to protect the environment in the dock area.

The articles 55 and 56 of the Port Regulations Rotterdam (Municipal Gazette 1971, No. 3) prescribed a written consent of the Port Superintendent for degassing/cleaning. To obtain such a written consent on behalf of an ocean tanker vessel, the Captain should apply to the Office of the Port Superintendent, Department of Dangerous Substances, at least 24 hours before the actual cleaning. Conditions may be made in respect of, and amongst other things:

(*a*) safe cleaning procedure, and
(*b*) presence of an expert.

To that effect an investigation may be held on board as to a safe rinsing procedure, and relevant subjects, in consultation with the ship's management.

A statement may be demanded from the Captain stating whom he charges with the supervision of the activities. From this person expertise is demanded, to the satisfaction of the Port Superintendent. This "Expert" may be a member of the ship's crew, respectively a person to be designated by the Owner (e.g. a laboratory expert). Without the express consent of the Port Superintendent cleaning must not be started.

These measures have become effective at once and are applicable to all ocean tanker vessels, of which the tanks to be cleaned have contained a combustible liquid as its last contents with a flash-point lower than, or equal to, 55° C.

For ships berthed at a shore tank-cleaning station and handled by that company, the cleaning-company concerned shall be liable for a safe treatment and consequently no separate consent shall be required.

In the following summary, the ship's data necessary to obtain a consent has been stated.

The cleaning of tanks, as indicated in this circular, is not permitted without the consent of the Port Superintendent of Rotterdam. Concerning stench-causing substances further directives will be issued.

It will be tried to restrict the delays possibly occurring as a result of this new regulation minimum.

Summary: By "degassing" to be understood: Degassing or ventilating a tankage, steaming or cleaning and the activities related thereto.

Reporting: At least 24 hours before commencement of the cleaning activities the ship (ship's Agent) should make a request by Telex to the Port Superintendent of Rotterdam (Port co-ordinating centre) to obtain a consent pursuant to Art. 55 or 56 Port Regulations Rotterdam. 35 Lloydstraat, Rotterdam. Telex: GEVST 25720.

The following data should be stated when making the application: (1) name ship; (2) nationality; (3) tonnage in g.r.t.; (4) name Agent; (5) berth where cleaning is to be carried out; (6) indication of tanks to be cleaned; (7) correct technical denomination of the last 2 products carried in these tanks; (8) expected time of commencement cleaning; (9) cargo still on board; (10) by whom cleaning will be carried out (ship's own crew respectively name cleaning company); (11) destination slush (remaining on board respectively discharge to . . .).

GENERAL: The following was received from Agent in December 1978.

New reporting procedure for deep draft vessels:

Vessels drawing over 174 m., (57 ft.) SW and/or over 250 m. in length, have to make use of the approach channels "Eurogeul" and "Maasgeul". Such vessels should report their ETA 6 hours prior to their arrival at the Pilot "rendezvous" location in position Lat. 52° N. Long. 03° E. by means of a radio telegram to "Traffic Centre" Hook of Holland (TCH) via Scheveningen Radio (PCH). This telegram is at the same time valid as ETA message to "Pilotage Hook of Holland" for the supply of a Pilot.

The telegram should contain:

a. Name and call-sign
b. GRT and deepest SW draft
c. ETA at "rendezvous" position
d. Confirmation of the following equipment in good working order:
   1. Gyro compass
   2. Radar installation and VHF operational on Channels 6, 14 and 20
   3. Decca receiver mark 12 or 21 provided with a connection for the Brown Pattern Indicator (Brown Box Connection).

If a T.O.R. installation is on board the "Traffic Centre Hook" messages can be relayed via Dirkzwager's "message-relay and ships reporting station", telex No. 26751 "dirk nl". Dirkzwager will deliver the message to all parties concerned.

Example: Message from s/t "Meta" to "Traffic Centre" Hook of Holland:

Trafficcenter hookofholland
meta pjuk ETA 52n03e 8/12 1300 lt grt 105532.47 maxdraft 61feetsw gyrocompass radar vhf channels 6 14 20 decca receiver mark 12 fully operational brownbox connection

Upon departure we, as Agents, have to give 6 hours notice to "Traffic Centre Hook", tel. 01819-12411. This notice, which can be given via Dirkzwager as well, should state the following details:

1. Estimated time of sailing.
2. Draft.
3. Cargo.

Inspection of International Safety Certificates:
As from January 1st, 1979 Harbour Pilots on board foreign vessels entering the port area of Rotterdam will keep a check on the presence of valid international safety certificates according to the "International Convention for the Safety of Life at Sea 1960" and the "International Convention on Loadlines 1966".

This check will be executed on behalf of the State Shipping Inspection to which Harbour-Pilots have to report. The Harbour-Pilots entrusted with this inspection are in the possession of an authorisation provided with photograph issued by the State Shipping Inspection (Scheepvaartinspectie). Should the reporting of a Harbour-Pilot be negative, any measures to be taken will solely remain the task and responsibility of the State Shipping Inspection.

"Off Port Notice" clause:
Large grain vessels still often have to wait off the port for a berth. For that reason a proper "Off Port Notice" clause is still recommended in order to avoid loss of time and sometimes heavy shifting expenses.

Control on delivery of cargo:
At Rotterdam, bulk grain cargoes are mainly discharged direct overboard into receivers' barges. Therefore, a careful supervision by an independent control company is recommended so as to make sure that no cargo is delivered to receivers before original Bills of Lading have been presented.

AUTHORITY: Havenbedrifzj der Gemeente, Rotterdam.

AGENT: Wm. H. Muller & Co. Scheepvaartagenturen B.V., Westerlaan 1, P.O. Box 770, 3000 AT Rotterdam. Tel. 010-36.43.00. Telegrams: "Mineral". Telex 21245 (3 lines).

TERNEUZEN: 51.20 N. 03.50 E. (See Plan Book)

LOCATION: At mouth of the ship canal from the River Scheldt to Ghent. Lat. 51° 20′ 14″ N., Long. 3° 49′ 39″ E.

DOCUMENTS: Also see "Rotterdam". Customs clearance takes place in the docks, except vessels bound for Belgium. Clearing of ships comprises the production of a document signed by the Master, accompanied by the following documents in triplicate: Cargo and Crew Manifest, and Stores List. Masters are requested to have Crew List completed beforehand to avoid delay in the lock.

PILOTAGE: Compulsory for all sea-going vessels entering, leaving, and navigating inland waterways. Sea Pilot meets inward vessels at buoy A1, 51° 22.00′ N. 2° 53.24′ E. for ships entering by Wielingen channel; or at Middensteen Bank buoy, 51° 39.30′ N. 3° 19.00′ E. for ships entering by the Oostgat channel.

In Wielingen channel Belgian and Dutch Pilots available. In Oostgat channel a Dutch pilot cutter is stationed. Belgian pilot boat carries at the masthead a red flag with a white letter P, the Dutch pilot boat has a blue flag with a white letter "L". Communicate with pilot cutter by VHF Channel 6.

Warning: In approaches Masters may encounter fishing boats steaming a parallel course about 300 ft. apart. The net is being towed between the two vessels. If there is danger of fouling the net, the fishing vessels will display by day International Code flag D, or by night a searchlight from each vessel.

ANCHORAGE: Vessels anchor outside fairway where depth is at least 49 ft. Mud bottom and good holding ground.

RESTRICTIONS: No restrictions on night entry.

MAX. SIZE: Controlling depth 31 ft. 4 in. Keel clearance 3 ft. 0 in. Height of tide 12 ft. to 15 ft. A vessel of max. draft 40 ft. 6 in. can reach Terneuzen in most circumstances.

Ships not exceeding the following dimensions are allowed to pass through west lock and canal: length 230 m., breadth 31 m., draft in fresh water (canal) 11.75 m.

With special permission: length 245 m., breadth 33 m., draft in fresh water (canal) 12.25 m.

HEALTH: Arriving vessels are only subject to medical examination when arriving from countries where contagious diseases reported or when such cases suspected on board. Medical Officer will board in Terneuzen roads or Outer Harbour.

RADIO: Communicate via Flushing radio Channel 14, 156.70 mHz. 24-hour watch kept. From five minutes past every hour to ten minutes past the hour switch to Channel 16 for traffic list and navigation reports.

Communicate before entering the West outer harbour Terneuzen by VHF Channel 11 (156.55 kHz), 24 hours watch kept.

Each hour a weather bulletin, navigation reports and warnings are given.

TUGS: Towage not compulsory. Tugs can be ordered from Terneuzen tugboat company or Towage and Salvage Union Ltd. respectively by Channel 13, 156.65 mHz, and Channel 3, 156.15 mHz. Stations manned continuously for ordering tugs and general information.

BERTHING: The port has three outer harbours: West, East and Ferry. The West harbour has two locks (West and Middle), which is mainly used by sea-going vessels. The East harbour has one lock (East lock) for inland craft, while the Ferry harbour (no locks) is used mainly by fishing craft and yachts. Ships not exceeding the following dimensions are allowed to pass through the West lock and canal: length 245 m., breadth 33 m., fresh water draft (canal), 12.25 m. Middle lock is under construction and cannot be used. East lock: ships of a length 139 m., breadth 23 m., fresh water draft (canal), 3.50 m. can pass. There are four harbours on the East bank of the canal situated about one mile South of Terneuzen locks. *Noorderkanaalhaven* (Northern Canal Harbour) length of North Quay, 170 m., maximum draft 5.50 m.; South quay, 192 m., maximum draft 5.50 m.; in the middle of the harbour maximum draft 7.50 m. *Zuiderkanaalhaven* (Southern Canal Harbour) length of North quay, 225 m., maximum draft 2 m.; South quay, 230 m., maximum draft 5.75 m.; in the middle of the harbour maximum draft 8.25 m. and 5 m.

Massagoedhaven (Bulk Harbour) length of quay 504 m., maximum draft 12.25 m. and 6.50 m. *Zevenaarhaven* (Zevenaarharbour) length of North quay 421 m., maximum draft 8.25 m.; South quay, 259 m., maximum draft 8 m., in the middle of the harbour maximum draft 9.50 m. *Sluiskil* (sub-port, about four miles South of Terneuzen) length of quay, 775 m., maximum draft 10 m. to 10.50 m. *Sas van Gent* (sub-port, on the canal about seven miles South of Terneuzen) length of quay, 210 m., maximum draft 7.50 m.

There are several sheds and warehouses, total capacity 160,000 sq. ft., also open storage, total capacity, 100,000 sq. ft. Grain silo with a storage capacity of 10,000 tons. Vessels up to 80,000 d.w.t. which for some reason have to anchor outside the piers can do so on the River Scheldt near buoy No. 27. Ships with maximum draft of 40 ft. 6 in. can reach Terneuzen under practically all circumstances.

Cranage: 12 movable cranes of 5 tons capacities; three floating cranes, one 8.5 tons and two 16 tons; one floating derrick of 40 tons. At Sluiskil there are two coke-loading plants, three cranes of 15 tons and four loading bridges. Sas van Gent has two 5 ton cranes. Water and provisions available.

Container and Ro-Ro facilities: Ro-Ro harbour, width 24 m., maximum draft 6.75 m. Ro-Ro berth Zevenaarharbour South, width 15 m., maximum draft 9.50 m. Ro-Ro berth Zevenaarharbour-North, width 28 m., maximum draft 8.25 m. In Zevenaarharbour a Ro-Ro berth for two vessels, depth 10 m. and 7.50 m.

Ore and Bulk Cargo Facilities: Available at the Massagoedharbour.

MEDICAL: Two modern hospitals available.

FRESH WATER: Available from water barge.

FUEL: Fuel oil and lubricating oil available from lighter or tanker barge. Bunker coal available by prior arrangement.

GANGWAY/DECK WATCHMEN: Available. Tariff increase 100% on Sundays and holidays.

OPENING/CLOSING HATCHES: Can be effected by crew or stevedores.

CUSTOMS ALLOWANCES: See "Rotterdam".

IDENTIFICATION CARDS: Not required.

REPAIRS: Terneuzen Shipbuilding Yard situated at junction of East and West Canal branches. Able carry out hull and engine repairs. Floating cranes and diving equipment available.

DRY DOCKS: Dry-docking only possible for coasters, length 345 ft. width 39 ft. 6 in., draft 11 ft. 6 in.

TIME: GMT plus one hour.

HOLIDAYS: See "Rotterdam".

SERVICES: Repairs of radio radar, etc., can be effected.

SHORE LEAVE: Allowed.

DEVELOPMENTS: Plans made to widen and deepen Outer Harbour, also extension to southern Canal Harbour and Zevenaardok Harbour.

AUTHORITY: Havenschap Terneuzen.

AGENT: See "Flushing".

VLAARDINGEN: 51.54 N. 04.20 E.

On the Waterway about 5 miles from Rotterdam.
DOCUMENTS: See "Rotterdam".
PILOTAGE: Harbour pilots are always available.
TUGS: Available.
BERTHING: *Old harbour (municipal):* For tugs and inland craft. Depth at entrance 10 ft. at LW. Total length of quay 2,000 m.
Koningin Wilhelminaharbour (municipal): Depth 12 to 17 ft. at LW. Length of quay 1,300 m.
Vulcaan harbour (private): Suitable for vessels up to a draft of 10 m. (33 ft.) at LW. Stevedoring by: Frans Swarttouw's Havenbedrijf.

Length of quay for cargo-handling: 750 m. Phosphate loading jetty (on riverside) for barges 140 m. 3 electric 16-ton cranes, 3 electric 6-ton cranes and two 5-ton mobile-cranes. Belt conveyors on phosphate jetty. Large shed with a capacity of 30,000 tons and 6 storage tanks with a total capacity of 90,000 tons for various bulk cargoes.
Nieuwe Matex Wharfs (private): 3 berths for sea-going vessels on riverside up to 35 ft. draft at LW. Several berths for barges and coasters on innerside of jetty up to 22 ft. draft.

Large tank installation; bonded warehouses. 424 storage tanks (total) capacity 450,000 cu.m. for vegetable and mineral oils, molasses, latex and chemicals.
Lever's Soap Company Jetty (private): Jetty 75 m. max. draft 10 ft. at LW. (no harbour dues).
N.V. Van Neerbos Ind. en Handel My. Jetty (private): Length of jetty 70 m., max. draft 10 ft. at LW. 1 electric 3-ton crane.
Royal Shell Jetties (private): 4 jetties, length 25 m. each, with berths for vessels up to 12 ft. draft. Tank installation for mineral oils; 77 tanks, total capacity 412,640 cu.m.

Harbour dues by arrangement.
Windmill Fertilizer Works Harbour (private); Length of harbour 300 m. max., draft 11 to 14 ft. at LW. One jetty on riverside, length 105 m. Max. Draft 16 ft. at LW. Harbour dues by arrangement.
FRESH WATER: Available by barge.
FUEL: Available by barge.
REPAIRS: *Ship Repair Yard "H.V.O."* All kinds of repairs undertaken. Dry dock for vessels of 4,000 and 900 d.w.t. in Koningin Wilhelminaharbour. Broadside slipway of 400 ft. (cap. 3,500 tons) in Vulcaanharbour (Western part). Outfitting quay of 1,100 ft. length.
Machinefabriek Kreber: Builders and repairers of boilers, engines and various kinds of dredgers.
AIRPORT: Rotterdam Airport (designed for international short and medium haul air traffic) lies at a distance of 10 km. from the Vlaardingen port area.
AUTHORITY: Municipal Harbour Master.

NOTES

Please also advise Shipping Guides Ltd.

Netherlands Antilles

BARCADERA, Aruba: 19.29 N. 70.00 W.

(See Plan Book)

The industrial harbour of Aruba, situated three miles S.E. of Oranjestad.
DOCUMENTS: Documents and all general information, refer to "Orangjestad".
PILOTAGE: Compulsory.
RESTRICTIONS: Harbour open day and night. Depth of water in entrance and throughout harbour is 36 ft. Swinging basin width 1,000 ft.
MAX. SIZE: Max. LOA 232 m., max. draft 33 ft.
TUGS: Available.
BERTHING: 1,150 ft. of dockside accommodation.
FRESH WATER: Not available.
FUEL: Can be supplied.
AUTHORITY: See "Oranjestad".

BONAIRE TERMINAL (Brasil): 12.13 N. 68.23 W.

(See Plan Book)

OPERATORS: Bonaire Petroleum Corporation N.V. Transhipment Terminal receives crude oil shipped from its source in Very Large Crude Carriers (VLCCs). The crude is stored in tanks on shore and reloaded into large and medium range tankers for subsequent unloading at a refinery or other terminal.
LOCATION: The steel jetty is situated on the South coast of the northern portion of the Island of Bonaire in Lat. 12° 13′ 12.9″ N. and Long. 68° 23′ 17.2″ W.
DOCUMENTS:

3 Crew Lists.
1 Stores List.
1 List of personal effects of crew leaving.
1 Medicine and Drugs List.
Health Certificate from last port.

PILOTAGE: Compulsory. The Pilot-Berthing Master will board the vessel at the established arrival point in Lat. 12° 10′ N. and Long. 68° 25′ W., which is 3.6 miles, 208° True from the jetty.

The Pilot will embark from one of the tugs or launches assigned to assist the vessel in the berthing operation. The Pilot will assist the Master in every way possible to manoeuvre the vessel from the arrival point into the berth with the assistance of the 2 or in case of a VLCC 3 tugs and utilizing the services of 1 or 2 mooring launches to run mooring lines from the vessel to the breasting and mooring dolphins.
ANCHORAGE: There is no anchorage area at Bonaire for tankers; therefore, if the berth is occupied, vessels will be appropriately instructed to remain within radio/telephone (VHF Channels 16 and 13) radius pending advice with respect to a clear berth or other advices.
NAVIGATION: Navigable waters surrounding Bonaire Island are clear; however, the coasts of the Island are steep-to and should be avoided. The currents in the offing and off the points of the Island set Westward. On days with little wind a weak current sets to the Westward, generally parallel with the coast from Kralendijk Roads toward Wekoewa Point and parallel to the coast line in way of the jetty. It is urged that reference be made to the British Admiralty South American Pilot Volume V or United States HO Pub. 22 Sailing Directions for the West Indies Volume II or equivalent publication of the Netherlands Government.

Lacre Point, on which a light is shown, is at the Southern extremity of Bonaire. A light is situated on Boca Spelonk, the Eastern mid-point of the Island. Seroe Bentana Light, situated near the Northern extremity of the Island, is visible for approach from the N.E. through N.W. South of 250°/070° on the West side of the Northern end of the Island this light is obscured and then jetty lights and Radio Netherland Towers may be used for bearings.

Prevailing winds are the E.N.E. trade winds.
HAZARD ZONE: *Radio Transmitting Installation:* Vessels approaching Bonaire should remain clear of an area within a radius of 3 nautical miles from the Radio Netherlands Towers situated on the Island of Bonaire in Lat. 12° 13′ N. and Long. 68° 19′ 15″ W. This area is noted as a danger area due to strong radiation from the powerful radio transmitters on shore. Bonaire Terminal is situated sufficiently West of this area to be well clear of any radio radiation influence.
RADIO: When a vessel leaves its loading port, the shipper should advise the date of anticipated arrival at Bonaire. For vessels departing from remote loading ports, the estimated arrival date should be revised at least once each week while the vessel is en route.

A government wireless/telegraph station operates daily from 0700 to 2130 hrs. local time (1100 to 0130 GMT). Vessels bound for Bonaire should route their messages for Bonaire through Curacao Radio (PJC).

Arrival Advice: The Master should advise his estimated time of arrival not less than seventy-two (72) hours in advance, again forty-eight (48) hours in advance and again twenty-four (24) hours prior to arrival, and this last message should be revised if an unusual change in the estimated time of arrival should occur. Wireless telegraph messages of this nature must be sent to the ship's Agent who, in turn, will immediately relay the information to the Terminal management.

The text of any one of the arrival advices should contain the following data in addition to the declared time of arrival:

1. Draft of vessel, fore and aft.
2. Available fittings, i.e. number and diameter of connections at deck manifold system for prompt connecting of two 24 in. and/or two 12 in. steel swivel loading arms.
3. Any conditions which may affect loading or unloading operations.
4. Any unusual condition which may require abnormal attention prior to berthing.

VHF: International VHF Maritime Band Communication should be commenced within a radius of thirty (30) miles from the Terminal, or more, if possible. The Terminal may be called on International VHF Channel 16 (156.800 mHz). When radio/telephone contact with the Terminal has been established, communication should then be shifted to Channel 13 (156.650 mHz).

After initial radio/telephone contact has been established, radio/telephone communication with the Terminal will remain on Channel 13. This will include communication with the two tugs and the two mooring launches on standby, all of which will be available to assist the vessel into the berth.

Mooring, Unmooring VHF Communication: Communication on Channel 13 during the immediate approach and mooring procedure will be confined rigidly to berthing operations which includes all directives from the Berthing Master to the tugs, the mooring launches and the jetty. The only messages which may interfere with these communications will be those caused by an extreme emergency.

After the vessel has been secured in the berth and the Berthing Master has cleared all berthing operations, communication on VHF Channel 13 will be secured and all base VHF receivers will be returned to guard Channel 16 pending an emergency or when the Berthing Master resumes his function for a departing vessel. It is to be noted that hand radio/telephone sets transmit and receive only on Channel 13. The base sets in the terminal office and on each of the tugs and launches is equipped with radio/telephone equipment for transmitting and receiving on Channels 16 and/or 13.

Radio/Telephone UHF (Private Frequency): Communication between the platform and the vessel and the Terminal before, during and after transfer of product will be via portable intrinsically safe, hand carried, radio/telephones on a private UHF frequency.

Radio/Telephone VHF Resume use Departing: When the vessel is ready to depart and the Berthing Master has boarded and resumes his function, VHF radio/telephone communication will again be established on International Maritime Channel 13 between the vessel's bridge, the 2 or 3 tugs, the 2 mooring launches and the jetty so that the casting off operation may be properly accomplished.

Radio Telephone – Guard Call Channel 16: After the Berthing Master disembarks and the tugs are dismissed, and the vessel has departed full away, it is expected the vessel will resume a guard watch on Channel 16. The terminal station may be called on Channel 16 and/or 13.
TUGS: Tug assistance is compulsory. Mooring launches are available.
HEALTH: There are no health formalities; however, a health certificate from the last port must be presented to the Agent for submission to local health authority.
CUSTOMS/IMMIGRATION: When the vessel is secure in the berth and the gangway is landed on deck, the Immigration Officer, the Customs Officer and the Agent will board to attend formal entry of the vessel.

Immigration: Two copies of the crew list are to be ready for presentation to the Immigration Officer. Crew members must all be presented for Document check without delay or interruption of vessel's operation. Terminal gate watchmen are required to check all personnel re-entering the terminal. Therefore, appropriate crew passes are to be issued to each Crew member prior to shore leave.

Customs: The Customs Officer will require one crew list, one stores list, one list of personal effects for those crew men leaving the vessel at Bonaire and one list of all medicines and drugs. The Customs Officer with the assistance of the ship's Agent will prepare the Inward Clearance document. This document is to be signed by the Master. Upon completion of the above formalities, the vessel is declared free and shore leave may be granted.
BERTHING: The least depth of water in way of Berth No. 1 is 110 ft. (33.5 m.).

Mooring Facilities: Berth No. 1 consists of an operating platform 132 ft. 10 in. (40.48 m.) long facing the sea and 94 ft. (28.65 m.) wide toward the shore with two 24 in. and two 12 in. swivel jointed steel loading arms for the transfer of petroleum products. The waterfront side of the platform is 22 ft. 3 in. (6.787 m.) inside and away from the ship's side.

Breasting Dolphins: There are 6 breasting dolphins, 4 of which are designed for the vessel to rest against and to which forward and back spring lines are to be secured to heavy quick-release mooring hooks. At each end of the system of breasting dolphins there is one landing dolphin offset to allow a vessel 5° off the parallel line to land against the berth system. These are noted "a" for the offset dolphin and the main dolphin is noted "b". The dolphins are numbered from No. BD1a and BD1b in the West and through BD2, BD3 and BD4b and BD4a to the East. The centre line of the berthing facility is 17 ft. 5 in. (5.3 m.) East of the centre line of the operating platform. This point is well marked on the seaward panel of the platform with a 4 in. wide white reflecting vertical stripe. BD2 and BD3 are each

135 ft. (41.148 m.) West and East of this white vertical stripe. BD1b and BD4b are each 80 ft. (24.384 m.) further West and East respectively, from BD2 and BD3.

Mooring Dolphins: Inshore 215 ft. (65.532 m.) perpendicular from the berthing line are 6 mooring dolphins. These dolphins are numbered from MD1 in the West to MD6 in the East MD3 and MD4 are each 350 ft. (106.680 m.) West and East from the centre line of the mooring structure system noted by the white vertical stripe on the seaward face of the operating platform. MD2 and MD5 are each 250 ft. (76.200 m.) West and East respectively, from MD3 and MD4. MD1 and MD6 are each again 250 ft. (76.200 m.) West and East respectively, from MD2 and MD5.

Capstans: On each of the breasting and mooring dolphins there is a small capstan with sufficient power to heave up on to the deck of the dolphin a ship's mooring line for securing to the heavy quick-release hooks.

Mooring Lines: Prior to coming alongside, the vessel must have all mooring lines on station and available on that side which will be to the berth. Bearing in mind that the product transfer is via steel swivel loading arms, it is imperative that the forward and back spring lines be adequate to maintain a minimum fore and aft motion of the vessel to remain within the limitation of the envelope of the loading arms.

Spring Lines – Breasting Lines: The first lines lead out will be the forward and back springs after which the forward and after breasting lines lead to the appropriate mooring dolphins, and then the bow and stern lines lead to the appropriate mooring dolphins. The procedure may be altered in accord with physical equipment on the ship, weather and sea conditions, along with other circumstances, all subject to the Berthing Master's requirements and combined approval of the Master and terminal management.

Mixed Mooring Lines Prohibited: Mixed moorings are prohibited, i.e. a wire and a fibre rope in parallel service is undesirable due to unequal elasticity. All mooring lines must be so arranged that loss of effect cannot occur when slacking off or heaving in one line, as required, due to the rise or lowering of the vessel during discharge or loading of cargo.

Mooring Machinery – Deck Winches: All deck machinery used for the heaving in and control of mooring lines must be operable. A vessel having deck machinery in poor state of maintenance to that point where mooring lines cannot be hove tight or brakes that tend to slip under tension will be sufficient reason to require consideration of terminal management to refuse connecting of the steel loading arms, or if same are already connected and the mooring lines become insecure, all transfer of product will be stopped and the steel loading arms disconnected pending correction of the mooring situation.

Surge-Tension Controls Prohibited: Wire mooring lines not on winch drums are not to be used for spring lines. Mooring wires secured on surge and tension controlled winches are prohibited. All mooring lines must be secured positively, i.e. on winch drums with the brake properly drawn tight or properly secured on bitts.

Power to Deck Machinery: At no time during the period the vessel is in berth is the power to operate deck machinery to be shut off.

Motion of Vessel in Berth: The vessel, while loading arms are connected, must not be permitted any motion alongside or away from its proper position in berth.

Surveillance of Mooring Lines: Mooring lines must remain under constant surveillance during unloading and loading operations. Failure to ease tension on mooring lines during unloading or failure to maintain proper tension on mooring lines while loading will be sufficient reason to stop transfer of product.

Fire Warp – Emergency Towing Wire: After the vessel is all fast fore and aft, an emergency wire of suitable quality and strength to tow the vessel should be positioned on the offshore bow and the after offshore quarter of the ship. This towing wire should be so secured that the eye may be readily picked up by a towing vessel. It is required that the length of the wire hawser should be not less than one-half again that of the highest freeboard of the vessel at the point of its location on the ship where the ship end is well fast on bitts.

EMERGENCY SIGNAL: In the event of any form of emergency such as fire, bursting of transfer piping, overflow of vessel's cargo tank, etc., the Operating Platform emergency signal will be an intermittent signal on the general alarm system for not less than 15 seconds.

The vessel will use its own emergency signals in the event of any emergency on board. To coordinate any emergency procedure, the personnel on the Operating Platform must be advised of the vessel's emergency signals.

In the event of any emergency either on board the vessel or the operating platform all oil transfer must be stopped and all oil transfer valves closed.

LOADING: *Electric Bond – Earthing:* Prior to manoeuvring the loading/unloading steel mechanical loading arms toward the vessel from the Operating Platform, the electric bond wire must be connected to a clean metal contact on the vessel's oil cargo transfer system.

The electric bond wire shall not be disconnected until the loading/unloading mechanical arms have been disconnected and manoeuvred well clear of the vessel.

The flame proof switch on the jetty will remain open until the electric bond wire has been connected to the ship. Prior to disconnecting the electric bond wire from the ship, the flame proof switch on the jetty will have been opened.

Connection to Oil Transfer Piping Systems: In the berth there are two 24 in. and two 12 in. steel pipe swivel jointed loading/unloading arms. This equipment is entirely controlled from the deck of the Operating Platform. Connection of the fittings requires clean flat faced flanges on the vessel's oil transfer piping deck manifold, using a proper gasket, to ensure a secure tight connection.

Cargo and Ballast Transfer: Before transfer of cargo or ballast may be started, the Chief Officer and the Terminal Representative will ensure that all necessary controls and safety measures have been attended. A Declaration of Inspection is to be signed by a responsible Ship's Officer and the Terminal representative certifying that all precautionary measures have been taken, that all equipment used in the transfer operation is in proper order and that all concerned are in agreement on the proper procedure of the operation.

Discharge of Cargo: Upon advice from the Terminal Marine Supervisor to the Ship's Officer in charge that oil transfer may be started, the Officer will arrange for the initial flow to be slow with sufficient pressure to permit inspection of all transfer piping and connections for any leakage. When the terminal personnel advise they are receiving product, the flow may be increased to the rate agreed upon.

Completion of Cargo Discharge: After all cargo tanks have been drained and the pumps have lost suction and the discharge of cargo has been declared finished, the flow of product will have stopped. With the agreement between the Ship's Officer and the Terminal Marine Supervisor, the oil transfer valves on the Operating Platform will be closed. All product remaining in the unloading arms will be drained back into the vessel. If the vessel's pipe-line system does not allow the complete draining of the unloading arm, then arrangements must be made to drain the arm into a container or via a drain hose led into a cargo tank. *No product will be permitted to drain out onto the open deck of the vessel!* After the arms have been completely drained, they may be disconnected and the ends blanked off to prevent any drippage of oil.

Loading of Cargo: Upon advice from the Ship's Officer in charge that oil transfer may be started, the Terminal Marine Supervisor will arrange for the initial flow of product into the vessel. When the Ship's Officer advises that he is satisfied that product is flowing in accord with the loading programme, he will advise the terminal personnel and the flow will be increased to the rate agreed upon.

Communication, Audible, Visual: Constant contact with the personnel on the Operating Platform during the topping off procedure is mandatory! The rate of flow of product is to be adjusted to that point where complete control is constant and that in the event of an emergency immediate shut down will not create any pressure surge on the shore transfer piping.

Topping Off of Cargo Tanks: Every precaution must be observed to avoid over-filling of any tank or causing any listing of the vessel. Observance of the trim by the stern shall be constant to avoid any undue strain upon the vessel's longitudinal structure. The cargo tanks and pipe-lines thereto on most tankers are segregated into groups. One tank in each group should be selected for the overflow relief tank by maintaining the level of liquid considerably lower than the other filling tanks to permit prompt relief of that tank reaching an overfilled level.

Completion of Loading: After all cargo has been loaded all product remaining in the loading arms will be drained into the vessel. If the vessel's pipe-line system does not permit complete draining of the loading arms, then arrangements must be made to drain the arm into a container or via a drain hose led into a cargo tank. *No product will be permitted to drain out onto the open deck of the vessel!* After the arms have been drained they may be disconnected and the ends blanked off to prevent any drippage of oil.

BALLAST: *Ballast Loading:* Should the vessel have permanent ballast tanks with entirely separate pipe-lines and ballast transfer system sea water ballast may be loaded in accord with the Master's requirements.

Sea water ballast is not to be loaded into any cargo tanks or through any oil transfer system while there is any cargo on board the vessel. In the event of an emergency, special arrangements must be agreed upon with the terminal management for the loading of ballast into any cargo tanks before all of the cargo has been completely discharged.

The vessel's Senior Officer in charge will personally supervise the arrangement of the pumproom system for the ballasting operation. The Public Cargo Inspector will accompany the Officer into the pumproom to break the seals on the sea suction valves.

No sea suction valve may be opened until all down coming pipe-lines have been drained and are completely free of product and the down coming valve closed. In most instances the pumps should be operating just prior to opening the sea suction valve.

Ballast loading will be under the entire control of the ship's personnel and it is expected that all normal loading precautions will be observed.

Deballasting: En route to Bonaire the vessel should have thoroughly cleaned certain appropriate tanks for the containment of clean ballast for discharge overboard. Only dirty ballast (oil contaminated sea water) and tank cleaning slops are to be discharged into the terminal's ballast receiving system.

Ballast, Oily Water, Discharge: Under no circumstances will dirty ballast water be discharged overboard within a radius of 50 miles from any Netherlands Antilles Island.

Ballast Discharge to Shore; The quantity of ballast to be discharged into the terminal will be measured prior to commencement of discharge. After the steel loading arm to be used has been connected to the ship's manifold, the discharge of ballast water will be accomplished in the same manner as the discharge of cargo.

Tank Bottoms and Slops: Upon completion of the deballasting operation, all of the vessel's tanks will be inspected and approved for the reception of cargo. The sea suction valves will then be sealed in the closed position by the public inspector or by a Bonaire Petroleum Corporation N.V. representative. Any bottoms and slops remaining must have the approval of terminal management prior to "loading on top".

MEDICAL: Modern facilities are available for medical and dental treatment. A "Medical Service Request" form must be signed by the Master for crew members requiring medical or dental attention.

In the case of crew members having to be left behind at Bonaire for hospitalization or otherwise, Master must sign authorization guaranteeing expense of attention rendered and repatriation.

FUEL: Bunkers for steam propelled tankers are available

Bunker Transfer: During the period of time the vessel is in berth, the transfer of bunkers from one tank to another is prohibited. All bunkers to be consumed while in port must be available in that tank from which bunkers are normally consumed.

FRESH WATER: Fresh water on Bonaire is desalinized sea water and the supply is minimal. Small quantities may be supplied upon advance notice.

REPAIRS: There are no repair facilities on the Island of Bonaire. Upon sufficient advance notice, special service personnel and minor mechanical repair work may be arranged from Curacao. Transportation for such service personnel is via scheduled airline.

POLICE/AMBULANCE/FIRE: Tel. 8000.

CARGO INSPECTION: Along with the Government Boarding Officers the representative of the petroleum inspecting organization mutually engaged by the Shipper and Bonaire Petroleum Corporation N.V. will board the vessel for the purpose of gauging the cargo tanks, obtaining the temperature of the cargo and obtaining required samples. His function is to protect the interest of the vessel as well as the Shipper and the consignee. Every assistance is to be rendered to expedite his function on board the vessel. An Officer should accompany the Inspector while on board and should assist by making available all information requested such as cargo tank calibration tables, etc. Cargo transfer may not be commenced without the approval of the Inspector.

Completion of Discharge of Cargo – Inspection: Upon completion of discharge of the cargo, the Inspector will examine all of the cargo tanks and will sign the tank inspection certificate.

Loading Cargo, Inspection: In the case of a vessel arriving to load cargo, the Inspector will examine all of the cargo tanks to determine the condition of the cargo tanks for reception of the cargo. Upon completion of loading all of the cargo, the Inspector will gauge the cargo tanks, take temperatures and samples as required.

Incomplete or Part Cargo: In the event the vessel does not complete the discharge of cargo, or does not load a full cargo, the Inspector will board the vessel to gauge the cargo tanks to record the amount of cargo in the vessel after transfer operations have been completed.

Cargo Pumproom Sea Suctions: Prior to loading or unloading the Public Inspector will certify that the sea suction valves connected to the vessel's oil transfer system are closed, lashed and sealed. *Do not lock these valves under any circumstances.* These valves are to be sealed in the *Closed* position and sufficiently lashed so they may not open due to vibration or any other reason.

STORES/PROVISIONS/LAUNDRY: All stores and provisions are imported into the Island of Bonaire; however, small quantities of provisions may be obtained. There are no deck and engine stores available. Upon sufficient advance notice, small items not available on Bonaire may be obtained from Curacao.

Laundry service in small quantities may be arranged for through the ship's Agent.

DEVELOPMENTS: Second jetty under construction for vessels up to 80,000 d.w.t. Depth alongside will not be less than 55 ft.

SHIPMASTERS REPORT: 1977. *In his report the Master called the port – "Brasil".*

Documents:

5 Crew Lists.
3 Stores Lists.
3 Personal Effects Lists.
1 Vaccination List.

Immigration Officer acts on behalf of Quarantine service. State of health on board to be given in 72 hour ETA message.

Services:

Fresh water by truck from Kralendijk and very expensive. Very limited quantities of shipchandlery supplies. No deck or engine stores. Gas oil limited and by drums only. Bunker "C" only. Lube oil limited to some brands and limited supply by drums. Water and fuel oil chemical treatment available. Radio Holland Service Engineer available. Repair men can be flown in from Curacao. Very limited laundry service. If required at least 4 days notice advisable. Tankers from Mediterranean, Africa and Gulf should give ETA's 10 and 5 days as well as 72/48/24 hours, any of which to give arrival draft F & A, number and diameter of connections, any condition affecting loading or discharging, ballast quantity, clean or otherwise and slops quantity, Pilot advised that 10 days longest, so far, that vessel waited off for berth. Have adequate fresh water on board for this contingency.

Berthing: No. 1 Jetty: Least depth alongside 110 ft. Loading/discharging Chiksans 2 × 24 in. and 2 × 12 in. Max. Size 500,000 d.w.t.

No. 2 Jetty: Least depth alongside 60 ft. Loading/Discharging Chiksans 3 × 12 in. Max. size 80,000 d.w.t. Product handled: Crude. Max. pressure; 125 p.s.i.

VHF contact with BOPEC on Channel 16 at 25 miles, then standby on Channel 13 for instructions. On berth VHF supplied to maintain shore contact with control who pass messages to Agent at Kralendijk.

Immobilising of engines or transfer of bunkers not permitted on berth.

Port side alongside always.

BULLEN BAY, Curacao: 12.11 N. 69.01 W.

(See Plan Book)

Bullen Bay is an open bay on the South coast of Curacao, 8 miles N.W. of Willemstad.

DOCUMENTS: Documents and all General information, refer to "Willemstad".

PILOTAGE: Pilotage is compulsory and rendered day and night. There is no resident Pilot at the Bay anymore. Ships arriving are piloted by government Pilots supplied from Willemstad. Ships leaving are piloted by Pilots employed by the Curacao Oil Terminal.

Pilot Station: 1 mile S.W. of Cape St. Marie (that is the cape on the West side of Bullen Bay).

Communications: Ships destined for Bullen Bay are to inform Traffic Control at Willemstad (call "Fort Nassau" on VHF Channel 16) and also Curacao Oil Terminal at Bullen Bay (VHF Channel 11) of their approach. The Pilots at Bullen Bay operate on VHF Channel 9.

ANCHORAGE: There is no anchorage in the bay. Ships that have to wait for berth are to remain in the vicinity within VHF radio range.

MAX. SIZE: 500,000 d.w.t. on full draft LOA 1,350 ft.

TUGS: Compulsory. There are 2 tugs of 3,852 h.p. with 53 and 60 tons bollard pull and 1 tug of 2,500 h.p. with 35 tons bollard pull, stationed at Bullen Bay. 2 tugs will assist the tankers on their arrival and departure. 3 tugs will assist the VLCC's on their arrival and 2 tugs will assist on their departure.

BERTHING: *Curacao Oil Terminal:* Curacao Oil Terminal (COT) located at Bullen Bay facilitates economical trans-shipment of Eastern hemisphere crude arriving in very large crude carriers (VLCC's) for storage and on-carriage in smaller ships to draft restricted U.S. ports.

Jetties: Ships moor port side alongside.

Tanker jetties from East to West:
No. 1: 250,000 d.w.t. four 12 in. connections, heading 196°
No. 2: 70,000 d.w.t. four 12 in. connections, heading 177°
No. 3: 100,000 d.w.t. four 12 in. connections, heading 146°
No. 4: 540,000 d.w.t. four 16 in. connections, heading 129°
No. 5: 100,000 d.w.t. four 12 in. connections, heading 127°
No. 6: 350,000 d.w.t. four 16 in. connections, heading 124°

The tugboat jetty is located between Jetties No. 2 and 3.

Total tank capacity: 17,750,000 barrels.

1 –	1,000,000 barrels capacity –	1,000,000
16 –	750,000 barrels capacity –	12,000,000
6	375,000 barrels capacity	2,250,000
38 –	small tanks capacity –	2,500,000

Pipe-lines: Main track consists of 5 strings of 36 in. pipe. The jetties carry 2 strings of 36 in. pipe in a loop. The loading rate is up to 12,000 t.p.h. Tankers' discharge rate is up to 25,000 t.p.h.

Deballasting: Capacity 4,000 t.p.h. per jetty. Ballast treatment produces affluent of less than 20 parts per million (20 ppm) oil content.

Throughput:

Transhipment	1,200,000 barrels per day
Refinery import	250,000 barrels per day

Operators: Curacao Oil Terminal NV, PO Box 660, Willemstad, Curacao, Netherlands Antilles. Telex No. Curacao 1175.

FRESH WATER: Fresh water available at the piers.

FUEL: Bunker facilities for all grades are available at a rate of 3,800 barrels per hour.

NAVIGATIONAL AIDS: There is a leading range of 43° True bearing on the West side of the bay for ships entering the bay, running 851 m. (approx. 4.5 cables) clear of the shore near Cape St. Marie, with red daymarks and a green and (yellowish) red light at night.

AUTHORITY: Harbour Master of Curacao.

CARACAS BAY, Curacao: 12.04 N. 68.52 W.

Caracas Bay is an open bay on the South coast of Curacao, 6 miles S.E. of Willemstad. This port, mainly used by tankers, bunker ships and big passenger liners, is specially fitted as an oil terminal.

DOCUMENTS: Documents and all general informations, refer to "Willemstad".

PILOTAGE: Pilotage is compulsory and rendered day and night. There is no resident Pilot at the bay. Ships at Caracas Bay are piloted by government Pilots supplied from Willemstad.

Pilot station: 1 mile SW of Lijhoek (that is the cape on the West side of Caracas Bay).

ANCHORAGE: There is no anchorage in the bay.

MAX. SIZE: Vessels with a max. overall length of 1,050 ft. and max. draft of 45 ft. can be accommodated. Max. depth 47 ft.

VHF: Ships destined for Caracas Bay are to inform traffic control at Willemstad (call "Fort Nassau" on VHF Channel 16) of their approach. There is no VHF radio station at Caracas Bay.

TUGS: Tugboats operate from Willemstad. Tug assistance only for ships arriving. Tugs are automatically provided:

1 tug for tankers up to 20,000 gross tons.
2 tugs for tankers above 20,000 gross tons.
1 tug for cargo and passenger ships exceeding 16,000 g.r.t. and 600 ft. length.
2 tugs for cargo and passenger ships exceeding 30,000 g.r.t.
Ships leave without tug assistance.

BERTHING: 2 piers owned by "Shell Curacao Ltd." are built at the East side of the bay, naturally protected from prevailing wind and sea, with depths up to 47 ft. alongside. Vessels dock directly with their port-side along the piers. Pier No. 2, with a depth alongside of 47 ft., and pier No. 3, with a depth alongside of 47 ft., are newly built concrete piers/quays, modern and equipped for handling oil in bulk, with enough platform to serve also as passenger terminal. The biggest cruise ships moor along these piers regularly.

The oil is transported through pipe-lines from the refinery at Willemstad to the storage tanks at Caracas Bay. 2 ships can bunker simultaneously. New electrically-driven centrifugal pumps, metering and blending equipment at the bay stand for efficiency to reduce bunkering time. Subject only to the capacity of ships receiving connections, loading rates up to 2,000 t.p.h. of bunker oil can readily be achieved.

FUEL: The piers are built as oil piers, modern and equipped to supply any kind of bunker or lubricating oil to any vessel.

FRESH WATER: Fresh water can be obtained via pipe-line on the wharves.

STEVEDORES: Lighters and longshoremen are supplied from Willemstad.

REPAIRS: Small repairs can be done at the bay through working barges alongside.

GENERAL: Clearance, port administration, port charges and regulations are the same as at Willemstad.

AUTHORITY: Harbour Master, Curacao.

FUIKBAY, Curacao: 12.03 N. 68.50 W.

Fuikbay, on the South coast of Curacao, 7 miles South-east of Willemstad, is an inland bay with a 147 ft. wide navigable entrance. The depth of this harbour is 26 ft.

DOCUMENTS: Documents and general information, refer to "Willemstad".

PILOTAGE: Pilotage is compulsory.

RESTRICTIONS: As a rule vessels only enter this port during daylight. Sailing can take place day and night.

ANCHORAGE: There is an anchorage area in the West side of the bay.

MAX. SIZE: Vessels can enter and leave with a max. draft of 24 ft. and a max. length of 360 ft.

BERTHING: This bay is mainly used as a loading terminal of the "Mining Company Curacao" for export of phosphate rock mined out of the "Tafelberg". There is one berth under the conveyor which transports the phosphate rocks from shore into the holds of the vessel alongside. Depth alongside is 28 ft. There is also a 84 ft. berth available for handling explosives or other cargo, usually named Westwerf. Only small vessels with a max. draft of 8.25 ft. can come alongside. Vessels with more draft can moor with the help of floats between ship and quay.

The piers are privately owned by "Mining Company Curacao" situated on private territory of this company.

FUEL: This port has no bunker facilities, so vessels bound for this port must take bunkers in Caracasbay or Willemstad before or after calling at this port if bunkers are desired.

GENERAL: Other services such as tugboats, repairs, power, etc. are rendered from Willemstad. 5-ton mobile crane available.

AUTHORITY: Harbour Master, Curacao.

KRALENDIJK, (including Salina) Bonaire: 12.09 N. 68.17 W.

(See Plan Book)

DOCUMENTS:

	Customs	Immigration	Agent
Passenger list	1	2	2
Crew list	1	2	2
Personal effects list of crew	1		
Store list	1		
Curio list	1		

PILOTAGE: Pilot service is compulsory. Pilot meets vessels 1.5 miles S.W. of the berths. Pilot boat flies blue flag with letter "L" by day and red over white light at night.

ANCHORAGES: Unlimited. Depth 30 ft. and over.

RESTRICTIONS: Notify the Agent at least 24 hrs. in advance. No tide.

MAX.SIZE: Length 1,050 ft., also see "Berthing".

INWARD CLEARANCE: Inward clearance is effected on board immediately on docking. Immigration Officer arrives on board immediately after docking. Passengers disembarking at Bonaire must present themselves for documents check.

Customs Officer boards immediately after docking and together with a representative of the Agency's Shipping Department the inward clearance document of the vessel (in ballast or with cargo in transit, as the case may be) is prepared and signed. This document must be signed by the Master. Occasionally the Customs Officer may insist that the Master sign in his presence. Only upon completion of the above formalities, usually carried out in a very short time, is the vessel declared free and passengers and crew may go ashore. It is recommended that one of the public rooms be made available for the purpose of inward clearance in order to avoid congestion in the purser's office.

HEALTH: No health formalities.

RADIO: A Government Radio Station operates daily from 0700 to 2400 hrs. In case of emergency Bonaire Radio can be contacted by telephone. Vessels bound for Bonaire should route their messages for Bonaire through Curacao Radio (PJC). The Government Radio and Telephone Station maintains daily telephonic communication with Curacao, also with the United States, Europe, etc.

VHF: Call sign "Bonaire Pilots". Calling Channel 16. Working Channel 11. Rescue operations Channel 6. Watchkeeping 0800 – 1700 hrs. except Saturdays, Sundays and holidays. Plans being made for 24-hour service.

TUGS: Three 4,300 h.p. tugs are available. The Agent should be notified in advance if a tug is required, in order to make the necessary arrangements with the Petroleum Company.

BERTHING:

North Pier:

Berthing space	225 ft.
Depth	34 ft. alongside at LW
Height	6 ft.

Max. permitted load factor on pier is 2,000 kilos per sq. m.

Vessels of max. 30,000 g.r.t. or a max. length of 738 ft. are allowed to berth alongside.

Southern Pier:

Length	394 ft.
Width	46 ft.
Depth	50 ft.alongside
Height	6 ft.
Length of connecting bridge from shore to pier	199 ft.
Width of connecting bridge from shore to pier	68 ft.
Max. LOA	1,050 ft.

Mooring facilities:

A: Double Mampaey easy-release electrical capstans (100 tons each)
B: Two (2) bollards 50 tons each
C: Double Mampaey easy-release electrical capstans (100 tons each)
D: Bollards of 50; 25 and 10 tons (every 20 m.)

Fendering: Vredestein Gigant Fenders; Block fenders and D-fenders (made of rubber).

Roll-on/roll-off Facilities: At the South pier a small Ro-Ro platform for "coaster-size" ships and small "landing-craft" type. Max. permitted load factor 2,000 kilos p.sq.m. Depth 5 m.

Off the Harbour Office between the North pier and the South pier a Ro-Ro pier for ships up to 3,000 gross and/or a max. length of 90 m. Max. permitted load factor unlimited. Depth 6 m. Max. size: LOA 300 ft. Draft 16 ft.

For the mooring and unmooring at the pier shore labourers are engaged by Agents at the expense of the shipping line. Motor-boats are available for running lines.

Salina: This port is situated 4 miles South of Kralendijk and is owned by the Antilles International Salt Co., loading of salt in bulk only can be carried out at this pier.

Vessels of approximately 40,000 tons d.w.t. can be accommodated.

Depth alongside 45 ft. The Pilot will board vessels destined for this port 1.5 miles West of the jetty, from a motorboat displaying the signals as referred to for Kralendijk.

STEVEDORES: There are no regular stevedores (longshoremen) available in Bonaire. For cargo handling operations ordinary labourers are engaged by the Agents for account and risk of the ship.

Working Hours: Monday-Friday 0700-1200 hrs. and 1300-1600 hrs. Overtime possible.

MEDICAL: Modern facilities are available for medical and dental treatment. A "Medical Service Request" form must be signed by the Master or other authorised officer for crew members requiring medical or dental treatment. In case of crew members having to be left behind at Bonaire for hospitalisation or otherwise, Master must sign an authorisation guaranteeing expense of treatment and repatriation.

FRESH WATER: Limited quantities of fresh water from the Government Water distillation and power plant can be supplied at the pier.

FUEL: On advance request, bunkers are delivered by craft at rates comparable to those in Curacao or Aruba.

GANGWAY/DECK WATCHMEN: Watchmen are not necessary but recommended; Overtime as usual.

OPENING/CLOSING HATCHES: This work is normally carried out by crew.

IDENTIFICATION CARDS: Passengers. No landing cards required, but some ships carrying a large number of passengers furnish landing cards to passengers for their own control of passengers returning on board. Crew. No landing cards required.

REPAIRS: There are no facilities for carrying out major repairs.

HOLIDAYS: The following are the official holidays observed in Bonaire: New Year's Day (Jan. 1st); Good Friday; Easter Monday; Queen's Birthday (April 30th); Labour Day (May 1st); Ascension Day; Whit Monday; Kingdom Day (December 15th); Christmas Day (December 25th); Second Christmas Day (December 26th). Religious holidays: August 15th (Assumption Day); November 1st (All Saint's Day).

TIME: 4 hours. slow of GMT. No summer time kept.

AIR SERVICES: There is a good daily airplane service between Bonaire and Curacao. 3 or 4 flights a day with good connections at Curacao with the international services to and from many parts of the world.

CUSTOM OFFICERS ON BOARD: 1 or 2 Customs Officers will remain on board during the vessel's stay in port. Such officer(s) must be furnished meals at regular meal hours.

TELEPHONES: Telephone connection can be placed on board ships at the pier.

POLICE/AMBULANCE/FIRE: Police, tel. 8000; Ambulance, 8000; Fire, Tel. 8000.

GENERAL:

Live Animals: The importation of dogs, cats, horses and certain other animals is permitted, provided these animals are accompanied by a certificate issued at place of origin by a licensed Veterinarian, stating that the animal in question is free from any contagious disease.

Dogs must have, in addition, a certificate of Rabies Inoculation. All animals imported (including birds) will moreover be examined on arrival.

Prohibited Imports: The importation of the following is strictly prohibited: Parrots and parakeets, absinth, explosives, firearms, ammunition and firework, except with prior permission from local authorities. All kinds of narcotics and drugs, the sale and use of which is regulated by International Conventions, except for legitimate use by and for sale to drugstores by duly accredited importers. Unauthorised reprints of copyrighted scientific and literary works of art. Copper, bronze and nickel coins, except for account of the Government of the Netherlands Antilles. Obscene printed matter.

Immigration Law: All passengers disembarking in Bonaire as temporary visitors, for business purposes, on vacation, or in transit to other destination, must be in possession of:

(a) Valid passport/birth certificate.
(b) One passport photograph.
(c) Smallpox vaccination certificate, not over 3 years old.
(d) A return ticket, through ticket or passenger-order to next destination outside of the territory of the Netherlands Antilles.
(e) All documents and visas necessary for continuing to next destination or return to place of origin.
(f) Sufficient means to be able to support themselves during their stay in the territory.

No visa is required from a Netherlands Consul on any of the aforementioned documents.

AUTHORITY: Harbour Master, appointed by the Island Government of Bonaire.

ORANJESTAD, Aruba: 12.31 N. 70.02 W.

(See Plan Book)

DOCUMENTS:

Clearance from last port.
Deratisation Exemption Certificate.
Ship's Register.
Manifest of Cargo (or ballast), or Bills of Lading for import goods and transit goods separately.
Crew List (4 copies).
List of Stores on Board (2 copies).
Consignee Mail (if cargo for discharge).
Passenger List (if any passengers).

The passenger list must carry full names, ages, sex, nationality and occupation of passengers landing at Aruba. The ultimate destination of in-transit passengers must also be shown on the passenger list.

Deratisation Exemption Certificates can be renewed at Oranjestad, Barcadera and St. Nicholas.

Outward clearance, cargo documents and list of outgoing passengers are delivered on board by the Agent's representative, thereby making it unnecessary for Masters to visit the Customs Office to obtain outward clearance.

PILOTAGE: Masters are requested to advise Agents of their expected time of arrival at least 48 hours in advance. Arrival messages should include advice regarding cash or other requirements. This information is particularly necessary in order to give prompt attention to vessel's requirements and to avoid delay after arrival.

Pilots are government employees and pilotage is compulsory for vessels from 50 g.r.t. upward entering or leaving the harbour. Pilots board inbound vessels within 2 miles of shore. The Agent's representative will arrange for Pilots to board vessels as necessary. Inbound vessels should close the West entrance of the harbour as near as prudently possible and make a lee to facilitate the Pilot's boarding.

Every vessel arriving or departing must provide and properly secure a pilot ladder which conforms with the standards of construction normally accepted by international safety standards. Failure to provide such a ladder may result in the Pilot's refusal to board a vessel.

ANCHORAGE: Anchorages, suitable even for deepest draft vessels, are located outside the protecting reef along the whole length of the Western and S.W. coast. The depth of water ranges from 10 to 35 fathoms. Because of the sharply shelving nature of the bottom in this area, it is recommended that the services of a Pilot be obtained in taking up an anchorage. Ships are anchored only during daylight hours.

TUGS: A tugboat of 1,000 h.p. is available for assisting vessels to and from the docks. The tug-boat is fitted out with radio-telephone which is open on 2182 mc. while tug is in operation.

MINIMUM DRAFTS: For tankers arriving or sailing in ballast the following minimum drafts are required for manoeuvring under normal weather conditions:

G.R.T.	*Forward*	*Aft.*
16,600 (T-2)	8 ft.	18 ft.
18,000	8 ft.	18 ft.
27,000-30,000	10 ft.	20 ft.
30,000-36,000	14 ft.	22 ft.
37,000	14 ft.	24 ft.
46,000	16 ft.	26 ft.

MAX. SIZE: The harbour itself has a depth of 36 ft. at MLW. The safe salt water draft approved for entering and leaving is 33 ft. Vessels normally enter via the West channel and depart via the East channel.

HEALTH: The port doctor will visit an arriving ship only if there is a case of quarantinable disease on board, if the ship has no clean bill of health or if one of the preceding ports of call has been declared to harbour a quarantinable disease. The Netherland Antilles bill of health is free of charge.

RADIO: Shore station for R/T communication with 24-hour service. VHF Channel 16, 156.80 mHz (calling); Channel 11, 156.55 kHz (working channel).

HF 2182 kHz, 2558 kHz (working frequency transmitter), 2158 kHz (receiving frequency SSB).

BERTHING: In total there are 4,070 ft. of dock length available to accommodate ocean-going vessels and 1,090 ft. of dock for small craft, of which:

1,720 ft. with 36 ft. of water alongside
2,350 ,, ,, 34 ,, ,, ,,
460 ,, ,, 16 ,, ,, ,,
230 ,, ,, 10 ,, ,, ,,
400 ,, ,, 6 ,, ,, ,,

STEVEDORES: Stevedoring is performed at a fairly fast rate compared with other ports in the Caribbean area. All cargo has to be handled with ship's tackle, while on the docks and in the warehouses fork-lift trucks are used for transportation of merchandise. General cargo is handled at an average of 8 tons per gang per hour.

MEDICAL: Excellent medical and dental attention is available at any hour of the day or night to crew members of all vessels.

FRESH WATER: Boiler and drinking water of purest quality is supplied by hose from the docks at a rate of 200 t.p.h. (in special cases 400 t.p.h.).

FUEL: The port of Oranjestad is an official Esso bunker station. All grades of bunker fuels can be supplied from shore tanks at a rate of 1,500 barrels an hour. A minimum of 48 hours advance notice is required.

REPAIRS: There are no facilities at Aruba for major ship repairs. Local workshops can do repairs of minor nature. Preliminary advice regarding such minor repairs should be included in ETA messages and work requisitions for repairs should be prepared for handing to the Agent's representative immediately upon arrival.

Radar, radio and gyro repairs can be carried out. However, it is important that Masters radio in their requirements as early as possible and give a brief reference as to the nature of the breakdown or fault of the equipment concerned.

While alongside vessels must be prepared to move at 1 hour's notice. Engine repairs to the effect of demobilizing the vessel may only be carried out with special permission.

SURVEYORS: Representatives of the American Bureau of Shipping, the Lloyd's Register of Shipping and the Norske Veritas are resident in the area. Masters may request the surveyors' services through the Agent.

BALLAST: Vessels must arrive with sufficient ballast to permit safe handling. All vessels should enter port with clean ballast that can be pumped over board when alongside, as it is prohibited to pump dirty ballast into the harbour.

GANGWAY/DECK WATCHMEN: An efficient and continous watch must be maintained on deck and in the engine-room of all ships while in port, and a sufficient number of men must be on board at all times to move vessels either for harbour operations purposes or in emergency situations.

OPENING/CLOSING HATCHES: This work is normally carried out by the crew.

AIRPORT: The port of Oranjestad – the commercial and tourist harbour of Aruba – is only 5 miles by road from the jet airport. The connection by air with the U.S.A. and Europe are very good and rather frequent (TCA, KLM, VIASA); other airlines operating in Aruba are: ALM, LAV, Aerocondor, and Caribbair.

POLICE/AMBULANCE/FIRE: Police, Oranjestad, tel. 1000; Ambulance, Oranjestad, tel. 2010/1234; Fire Alarm, tel. 00.

CONSULS: The following countries have consular representatives at Aruba:

Brazil
Chile
Colombia
Costa Rica
Denmark
Dominican Republic
Great Britain
Guatemala
Haiti
Italy
Lebanon
Liberia
Nicaragua
Norway
Panama
Peru
Portugal
San Salvador
Spain
Sweden
Switzerland
Venezuela
West Germany

Necessary for Masters of Panamanian and Italian flag vessels to visit Consulates at Oranjestad to present documents and receive despatches. Other Consulates have similar requirements. Masters may check with Agent for clarification.

DEVELOPMENTS: Landing stage for roll-on/roll-off vessels with depth alongside 33 ft. under construction near Harbour Office.

TIME: Local time is 4 hours slow of GMT. Vessels are requested to use local time in ETA messages and when dealing with their Agents.

CUSTOMS GUARDS: Local authorities assign 1 or more Customs guards to each vessel during its stay in port; the charges for guarding are for the account of the vessel. These officials must be provided with meals on board at regular meal hours.

SHORE LEAVE: Under normal circumstances no restrictions are imposed by the Government Immigration Authorities on shore liberty. Masters are requested to endeavour to have all crew members on board prior to departure time, so that the ship will have no delay in sailing.

AUTHORITY: Eilandgebied Aruba, Haven en Loods Dienst.

PHILIPSBURG, St. Maarten: 18.05 N. 63.10 W.

Philipsburg, capital of Netherlands St. Maarten, lies in a well-protected bay in the S.E. corner of the island. The only obstruction to the harbour is "Proselyte Reef" or "Man-of-War-Shoals", located 17° 56′ N. 63° 04′ W., with a min. depth of 2.5 fathoms. Entrance to the harbour can be accomplished by passing either to the North or the East of this reef.

DOCUMENTS:

Crew List: Immigration 1 copy.
Agent 1 copy.
Passenger List: Immigration 1 copy.
Agent 1 copy.
Store List: None required.
Ship's Register: Pilot will require to see this document for obtaining the official tonnage.

Note: No special form is prescribed for the above documents, consequently these may be made out in Company's regular form. No consular visa required on any of the above documents.

Immigration: Immigration officer boards ship immediately after docking. Passengers and crew are usually free to disembark immediately after boarding.

Agency Personnel: Agency personnel boards immediately after vessel is docked together with Immigration Officer.

PILOTAGE: Pilotage is compulsory and performed by Government pilots. Ships bound for the pier at Philipsburg should await the Pilot at a max. distance of 1 mile from the line Point Blanche -Fort Amsterdam.

Pilot Ladder: Jacob's ladder, in clean and sound condition is sufficient.

Time to Berth: From pilot station to pier, about 15 to 30 minutes.

ANCHORAGE: Ample suitable anchorage area available with sufficient depths of water for several large ships simultaneously.

If and when the pier is already occupied by another cruise-ship, cruise-ships can proceed to anchorage, in which case communications between ship and shore to be by ships' own launches.

For ships proceeding to anchorage, pilotage is also compulsory.

RADIO: The Government radio and telegraph service operates daily from 0700 L.T. to 2400 L.T. worldwide.

Radio Telephone: VHF Channel 10 and 155.925 mHz.

ETA Messages: ETA messages should be sent to Agent preferably in local time at least 24 hrs. in advance and any changes occurring thereafter should be advised.

Use of Ship's radio in port: Prohibited.

TUGS: None available.

BERTHING: The new concrete pier at Philipsburg is located at Point Blanche in Great Bay and has a length of 210 m., with an additional 60 m. of berthing space, located at a 60° angle to the finger pier. Min. depth is 34 ft. of water. 4 fenders of steel spring and rubber are located along the berthing space.

Height from sea-level to the deck of the pier at high tide is 4.02 m., at low tide 4.48 m. Ship will lie with port side to the pier.

Mooring and Unmooring: 3 dolphins are located in an extended line of the berthing space for mooring. Min. required size of openings in shackles is 40×50 cm. Mooring boat is available.

Equipment: Cranes are available with a capacity of 20 tons max. Forklifts up to 8 tons and sufficient flat-bed trailers and low-buoys are also available.

STEVEDORES: There are 3 gangs available. Each gang has a total of 9 workers.

MEDICAL: Government physicians are available in Philipsburg and there is also a small, but up-to-date hospital operated by the Netherlands Antillean Government. A "Medical Service Request" form must be signed by the Master or other authorised officer for crew members requiring medical treatment.

Dental facilities available.

FRESH WATER: Available.

FUEL: No facilities for carrying out repairs except for radio and radar (Radio Holland).

SURVEYORS: There is a representative of Lloyds on the island.

AIRPORT: The island is served by A.L.M. (Dutch Antillean Airlines), Air France, Eastern Airlines, K.L.M. (Royal Dutch Airlines), L.I.A.T. (Leeward Island Air Transport), Prinair.

There are direct, almost daily flights, to and from New York and Miami connecting to other major places.

TIME: 4 hours slow of GMT.

HOLIDAYS: The following Official holidays are observed in St. Maarten: New Year's Day (January 1st); Good Friday (varies); Easter Monday (varies); Queen's Birthday (April 30th); Labour Day (May 1st); Ascension Day (varies); Whit Monday (varies); St. Maarten Day (November 11th); Kingdoms Day (December 15th); Christmas Day (December 25th); Boxing Day (December 26th).

TELEPHONE: Service from ship to shore is not available.

GENERAL:

Ship's Bars and Shops: No restrictions and these may remain open for business while in port.

Laundry: Available.

Wind: Prevailing winds on the island between the months of March and December are East to South, velocity 6 to 10 knots. Between December and March winds are generally North to East at a velocity of 8 to 15 knots.

Tide: The tidal range in Philipsburg is at most 2 ft., but regularly not more than 1 foot.

Current: The current outside Philipsburg harbour changes from Easterly to Westerly, with a max. velocity of 2 knots. At the Pier the current generally runs from North to South, with an average velocity of 0.5 knot.

Gangways: No gangways are available from the pier and ship's gangways will have to be used.

Ship's Launches: There are no restrictions on the use of ship's launches.

Stores: Available.

Garbage: No disposal facilities available.

Port Health: No regulations or requirements.

Customs: None.

AUTHORITY: Harbour Master.

AGENTS: S.E.L. Maduro & Sons (Windward Island) Inc., Emmaplein, PO Box 63, Philipsburg, St. Maarten N.A. Telegraphic Address: Maduroship Stmaarten. Tel 2202/2207.

SAN NICOLAS, Aruba: 12.26 N. 69.55 W.

(See Plan Book)

DOCUMENTS/HEALTH and all General Information, refer to "Oranjestad".

PILOTAGE: (Inner Harbour) Pilotage is compulsory. Pilot boards off West Entrance within 2 miles of the shore. Inbound vessels are expected to approach the entrance as near as prudently possible and make a lee to assist Pilot boarding.

A pilot service for anchoring off Lago Aruba terminal during the hours of darkness is now available upon the Master's request, providing radar and echo sounder are functioning properly.

RESTRICTIONS: The port is open for day and night navigation, allowing vessels to enter and leave at any hour. The East and West channels are 45 ft. deep. The safe salt water draft approved for entering and leaving is 41 ft. Vessels normally enter via the West channel and depart via the East channel.

RADIO: Radio-telephonic communication is possible on wavelength of 156.70 VHF (Channel 14). Calling and listening Channel 16. Call sign "Lagomarine".

TUGS: 2 diesel-powered tugs are used for berthing and unberthing.

MAX. SIZE: *Reef Berths:* Tankers up to 550,000 d.w.t. No. 2, depth alongside, 105 ft. MLW. Also see "Reefberth"

Inner Harbour: 100,000 d.w.t.

BERTHING: All port facilities are controlled by Lago Oil and Transport Company.

The max. limitations for vessels using San Nicolas facilities are:

Berths	*Length (ft.)*	*Beam (ft.)*	*Salt water max. draft (ft.)*	*Bow to manifold (ft.)*	*Approx. Deadweight*
1 South	745	UNL	39	376	50,000
1 North	740	110	39	356	50,000
2 South	800	110	40*	400	50,000
2 North	780	110	39	356	50,000
3 South	900	130	41	440	90,000
3 North	850	120	40	390	80,000
West Pier	650	UNL	32	350	25,000
HDS Pier	600	UNL	30	UNL	30,000

(dry cargo only)

Note: *2 South – 40 ft. mean draft with recommendation load with 1 foot trim by stern or 39 ft. 6 in. forward and 40 ft. 6 in. aft.

The max. entering draft is 41 ft. even keel salt water. The following is the suggested ballast draft for vessels.

MDWT	*Fore (ft.)*	*Aft (ft.)*
10–20	8	18
20–30	10	20
30–40	14	22
40–50	14	24
50–100	16	26

REEFBERTHS:

VLCC anchorage: When anchoring is necessary, Masters of VLCCs may wish to anchor in the following position; 12° 24′ N., 70° 07′ W., approx. 12 miles West of San Nicolas Harbour in approx. 25 fathoms.

Pilot Station: 2 to 3 miles West of San Nicolas Harbour entrance. When Pilot is boarding, the vessel should be on an Easterly course with a speed of not more than 2 knots.

Embarking Pilot, Loaded VLCCs: On the port side with either pilot hoist or conventional pilot ladder.

Ballast VLCCs: On the port side with a combination of accommodation ladder and conventional pilot ladder, or with only accommodation ladder.

Disembarking Pilot, Loaded VLCCs: On the starboard side with either pilot hoist or conventional pilot ladder.

Ballast VLCCs: On the starboard side with combination of accommodation ladder and conventional pilot ladder, or with only accommodation ladder.

Tugs: Normally 4 tugs used for tankers over 220,000 d.w.t. 2 on long lines, 1 forward and 1 aft and 2 alongside starboard side. Tugs lines used.

Docking: Always portside to, with starboard anchor ready, walked out to 1 shackle in the pipe.

Approach Velocity: RB and RB II are equipped with a doppler system. Contact between doppler operator and pilot is by VHF radio, Channel 12. RB I and RB II are equipped with "traffic lights"

Approach velocity 00–12 ft./min.=green.
12–20 ft./min.=amber.
above 20 ft./min.=red.

When the vessel is receding, the light is always green.

Mooring Launch: Used for all lines, except for the spring lines fore and aft. Forward moorings first, after moorings second.

Mooring Capstans: All mooring and breasting dolphins are equipped with capstans, 2 ton pull capacity, 100 ft./min. line hauling capacity.

Max. Size:

	MDWT	*Max. LOA (ft.)*	*Beam*	*Depth (ft.)*	*Max. draft (ft.)*	*Pier Heading*	*Approach angle*
RB I	40–400	1200	UNL	80	75	130° true	15°
RB II	40–550	1400	UNL	105	95*	114° true	10°

*With an approach angle of less than 10° draft up to 100 ft. can be permitted.

Sailing Draft Ballast VLCCs: abt. 25 ft. fore and 35 ft. aft.

Lines and Winches: Mooring lines assumed to be 1.625 in. dia. steel wire with a breaking strength of 90–100 tons.

Mooring winches assumed to have about 25 metric tons heave capacity and 55 metric tons brake holding capacity (minimum).

Combination of a wire and a synthetic line to a single dolphin will not be permitted.

Mooring lines must not be stressed beyond 55% of their breaking strength.

Self tensioning is not permitted. Automatic winches should be used on manual brake.

Synthetic tails on wires should have a higher breaking strength than the wire to which they are connected. The eyes of the tails should be protected from abrasion with suitable coverings, and tails should be connected to wires with suitably designed shackles.

A max. of only 2 layers of line to be allowed on working or tension drum of split drum winches.

Current and Wind: Current is less than 0.2 of a knot 90% of the time. Wind is less than 20 knots 70% of the time, and less than 25 knots 97% of the time.

Wind direction		*Current direction*	
True	*% of time*	*True*	*% of time*
20°– 40°	2	40°– 70°	24
50°– 60°	6	100°–110°	17
70°– 80°	33	140°–240°	10
90°–100°	40	260°–290°	24
110°–120°	13	320°–340°	25
140°–170°	1		
220°	5		

Wind tolerance: At 30 knots steady, loading will be discontinued, and the loading arms will be drained, engine to be confirmed ready for use.

At 35 knots steady, arms will be disconnected and tugs will be called out

Loading Arms: RB I; four 16 in. cargo arms with 16 in. bolted flange connections. One 8 in. bunker arm (No. 5 arm, the most Westerly arm). RB II; five 16 in. cargo arms with 16 in. connections.

Discharge/Loading Lines: RB I 36 in., 3,000 ft. long. RB II 56 in., 4,000 ft. long.

Radio Contact: Contact between Loading Master, control room, marine office by VHF and UHF. Particulars will be given by loading Master.

Bunkers: RBI; through bunker arm (No. 5). RB II; through No. 1 or No. 5 loading arms with reducers.

Water: Available on RB I and RB II only in an emergency.

Provisions: By launch; to be taken on board by ship's lifting gear on the port quarter.

Shore Leave: No pedestrian traffic allowed between ship and main gate. Arrangements for crew transportation can be made with Agent, or by calling the Marine Office.

FRESH WATER: Fresh water can be supplied ex-wharf.

FUEL: All grades of bunkers available.

Sea Berth: Vessels arriving for bunkers only with a draft greater than 41 ft. must use the Reef Berths. As the berth is used for crude oil trans-shipment bunkering vessels can expect delays. Also the following considerations apply:

1. Vessels working cargo have priority over vessels bunkering.
2. In assigning tugs, vessels working cargo take priority. (3 to 4 hours tug service required at the sea berth.)
3. Mooring launches require 48 and 24 hours notice.
4. Vessels using the Reef Berths must have 12 good mooring lines. All mooring winches and equipment will be inspected and must be in good order. Vessels may not be docked if equipment is faulty.
5. In the event of marginal weather, deep draft vessels calling for bunkers may not be docked.

REPAIRS: A local workshop can do minor repairs.

PORT FIRE PROTECTION: The port of San Nicolas is very well equipped with modern equipments for fire-fighting and fire prevention.

BALLAST: Tankers must arrive with a maximum of 20% dirty ballast to pump ashore. Shore reception facilities are limited. 80% clean ballast to go overside after inspection. Ship's arriving with more than 8% of their d.w.t. dirty ballast will be put to anchor to clean ballast, delay for owner's account. Clean ballast will be discharged overboard after docking. Slops can be discharged to the disposal facilities ashore but "sour" slops can only be received at Reef Berths.

SPECIAL REGULATIONS: Strict compliance with Harbour Safety Regulations is mandatory. Stringent regulations prohibit the transportation of alcoholic beverages through Lago refinery and harbour area. No liquor or beer may be taken on board or removed from vessels except only bonded stores ordered by the Master.

SHORE LEAVE: As all ship's personnel when going ashore have to walk over the docks and the company's concession, nobody is allowed to leave the docks without a proper pass. Passes which are valid for the day of issue and the following day only, entitle personnel to proceed from the dock at which their ship is berthed to the main refinery gate and vice versa. Shore passes are not valid for the refinery area.

POLICE/AMBULANCE/FIRE: Police, 5000; Ambulance, 5050; Fire, 00.

AUTHORITY: Lago Oil and Transport Co.

SINT MICHIELSBAY, Curacao: 12.09 N., 69.01 W.

Sint Michielsbay, on the South coast of Curacao, 5 miles N.W. of Willemstad, is an open bay, naturally protected from prevailing winds and sea.

PILOTAGE: Compulsory.

ANCHORAGE: In the bay 650 ft. out of the coast in 130 ft. water is laid a mooring buoy, which gives a good anchorage to vessels which, because of dangerous cargo, quarantine or because of a defect cannot enter another port of Curacao.

BERTHING: Vessels moored with their stern to the buoy and their bow anchors are heaved out to hold the foreship from the coast.

REPAIRS: Repairs or handling cargo can be carried out by way of barges. A landing jetty for barges is available.

GENERAL: Other services as tugboats, lighterage, stevedoring, etc. are rendered from Willemstad.

AUTHORITY: Harbour Master, Curacao.

WILLEMSTAD/EMMASTAD, Curacao: 12.06 N. 68.56 W. (See Plan Book)

DOCUMENTS:

For Immigration:

2 copies of Crew List.
2 copies of List of Passengers Landing at Curacao (if any).
2 copies of List of Passengers in Transit (if any).

For Customs:

1 copy List of Stores (deck, engine and steward department).
Manifest of Cargo for Curacao, if any, in duplicate, on special form called "Vrachtlist".
Manifest of Cargo for Curacao, in transit, for trans-shipment to other ports, if any, in duplicate.
Manifest of Cargo on Board, in transit, if any, in duplicate.
2 copies of Tally Books of Cargo for discharge at Curacao, if any.

If the ship is in ballast only the store-list is required.

1 copy Crew List.
1 copy Passenger List landing at Curacao.

PILOTAGE: Pilotage is compulsory. Rendered day and night. Pilots are government officials and are stationed at Willemstad. The Harbour Master is also the head of the Pilot Service.

Vessels should stay 1 mile off-shore S.W. of the harbour entrance and await Pilot. The Pilots motor boat does not carry any distinct signals. (No blue flag and no red and white lights.)

ANCHORAGE: As a rule there is no anchorage area in the harbour of Willemstad, but in the Eastern part of the Schottegat there is a dolphin with mooring buoy on each side available to await berth or orders for limited time subject to permission and conditions from the Harbour Master.

4 vessels, 2 vessels alongside each other can be safely moored at these buoys. Depth: 40 ft.; distance between each buoy and dolphin 1,000 ft. Furthermore, in the Southern part of the harbour a set of 2 dolphins can accommodate 2 vessels with length up to 600 ft. and a max. draft of 20 ft.

RESTRICTIONS: The harbour of Willemstad consists of a 1,400 yd. long and min. 270 ft. broad channel, the Santa Anna Bay, with depths from 50 ft. to 79 ft. and an adjacent inner bay, the Schottegat, a 150-acre body of water with a depth of more than 10 ft. and a max. of 79 ft.

The navigable portion of the entrance of the port is 865 ft. wide, marked on either side by a light-buoy, and the min. depth is 50 ft.

Required minimum draft for tankers arriving, shifting and sailing:

g.r.t.	fwd. ft.	aft. ft.
up to 11,000	10	16
11,000–15,000	11	18
15,000–19,000	13	19
19,000–25,000	14	20
25,000–29,000	15	21
29,000–35,000	17	23
35,000–43,000	18	24
43,000–45,000	19	25
45,000–47,000	20	25
47,000–50,000	21	26
50,000–55,000	22	28
55,000–60,000	22	29
60,000–65,000	23	30
65,000–70,000	23	31
more than70,000	24	32

Maximum trim for tankers: 10 ft. by the stern, 2 ft. by the head.

BRIDGES: Santa Anna Bay is crossed by 2 bridges, the Queen Emma floating pontoon bridge and the new, fixed bridge.

The pontoon bridge opens day and night for in and outgoing vessels. There will no longer be any waiting period at the harbour entrance. Automobile traffic will be diverted to the new bridge and those on foot will have continuous ferry service available. Ships will have overall preference for openings.

The new fixed bridge, dominating Willemstad's skyline and the entrance to Schottegat Bay, is 185 ft. high, (clearance 180 ft.) enabling the biggest vessels to pass under. The bridge is of box girder construction and is open to automobile traffic only. Glare-proof lights are installed to prevent interference with light signals that harbour pilots rely on when bringing a ship through the channels.

Tankers passing through the Santa Anna Bay must have all tank-lids properly closed, even if they are gas free. This is a harbour regulation.

MAX. SIZE: Length 1,000 ft., draft 45 ft.

RADIO: Port Operations Station (Operated by Harbour Authorities): Location, Fort Nassau. Call sign, Fort Nassau. Frequencies, International Channels 16 (156.80 Mc/s.), calling and safety; 12 (156.60 Mc/s.), working, first choice; 14 (156.70 Mc/s.). Watchkeeping, 24 hours on Channel 16. Type of operation, Simplex, Frequency modulated. Range, 20 to 25 miles.

Main Private Station (Operated by Shell Curacao N.V.): Location, on the Zwartberg. Call sign, Shell Curacao. Frequency, international Channel 25 (receiving, 157.25 Mc/s.); (transmitting, 161.85 Mc/s.). Type of operation, Duplex working, frequency modulated; operated by remote control from Shell's telephone exchange; ask operator for connection with party desired. Range, 20 miles. Watch-keeping, 24 hours on Channel 25; normal daily business, 0730 hrs. till 2400 hrs.; urgent business only, 2400 hrs. till 0730 hrs.

Tug Base Station: Location, on the Zwartberg. Call sign, Marine Department – for tug movements only and in an emergency to direct the tugs. Watchkeeping during office hours. Central Post – for tug movements only. Watchkeeping 24 hours. Shell Curacao – for emergency calls to tugs only after having been alerted on Channel 25. No watchkeeping. Frequency, International Channel 14 (156.70 Mc/s.). Operation, Simplex – frequency modulated. Operation by remote control from Shell's Marine Department, Central Post and telephone exchange.

Tug Mobile Stations: Location, 1 on each tug. Call sign, Balau, Drado, Lima and Jaro. Frequency, International Channels 16, 12, 14, 9, 8 and 6. Watchkeeping, 24 hours on Channel 14. Operation, Simplex – frequency modulated.

Curacao Drydock Co. – VHF Channel 6. SEL Maduro and Sons Inc. – VHF Channel 10.

HEALTH: The port doctor will visit only if there is a case of quarantinable disease on board. The Netherlands Antilles Bill of Health is free of charge.

TUGS: Compulsory for all tankers exceeding 3,000 g.r.t. Tankers exceeding 700 ft. overall length must make one tug fast forward before entering.

L. Smit & Co. International Tug Service has a permanent ocean towage and salvage base in the port of Willemstad. There is always a powerful salvage tug at the station which has been especially equipped to deal with casualities and a harbour tug of 2,500 h.p. with 35 tons bollard pull. Shell Curacao has stationed here three harbour tugs, all 2,250 h.p. with 30 and 34 tons bollard pull.

BERTHING: There are berths on either side of the Santa Anna Bay North of the pontoon bridge, with depths varying from 18 to 33 ft. alongside, generally used for bunker, cargo and passenger ships.

On the Eastern side four wharves: the Handelskade, depth 18 ft.; the Kleinewharf, depth 24 ft.; Grotewharf, depth 31 ft.; and Salazar, depth 24 ft.

On the Western side six wharves: the Matheywerf, depth 23 ft.; Westwerf S., 25 ft.; Westwerf N., 36 ft.; Nieuwewerf, 33 ft.; Motetwerf, 33 ft.; Oranjewerf, 19 ft.

In the Schottegat there are seven more berths, generally used for bunker, cargo or passenger ships.

Prins Hendrikwerf which closes the Western corner Santa Anna Bay/Schottegat, has a depth of 35 ft.; however, ships with a draft of more than 35 ft. can be moored by way of placing rafts of 10 ft. width between vessel and the quay.

At the Eastern part of the Schottegat are the Admiral Brion Wharves, which has 3,000 ft. docking space available with 34 ft. depth alongside.

In the Schottegat on the peninsula of Asiento are situated the 14 piers owned by Shell Curacao Ltd., which are mostly used by tankers; however, other vessels are enabled to use these wharves for bunker facilities. Pier No. 1 may be used for general cargo.

The names and the depths alongside these piers from West to East are: Pier I, 27 ft.; Piers II and III, 33 ft.; Pier IV, 40 ft.; Pier V, 45 ft.; Pier VI, 39 ft.; Pier VII, 33 ft.; Pier VIII, 45 ft.; Margrietpier (two berths), 34 ft.; Pier IX, 33.5 ft.; Pier X, 32 ft.; Pier XI, 18 ft.

The Schottegat also has about 5,000 ft. of quay available for repairs. The names of the wharves, lengths and depths alongside are: Beatrix I and II, 1,300 ft. – 21 ft.; Beatrix III, 400 ft. fore 10 ft., aft 35 ft.; Beatrix IV, 350 ft. – 31 ft.; Beatrix V and VI, 1,000 ft. – 32 ft.; Repair Quay, 1640 ft. – 35 ft.

Storage capacity for liquid petroleum products is 4,600,000 tons in tanks of Shell Curacao Ltd.

Docking of cruise ships in Willemstad harbour: The following piers are regularly used by cruise ships and cargo ships:

Nieuwewerf, Motetwerf: West side St. Anna Bay. Type: quay. Construction: sheet piling, concrete top, stelcon plates floor. Length: 1,200 ft. Draft: 33 ft. Height above water: 4 ft. One transit shed each: Nieuwewerf, width 65 ft., length 216 ft., area 14,000 sq. ft. Motetwerf, width 65 ft., length 216 ft., area 14,000 sq. ft. Open space area 200,000 sq. ft. One warehouse facility 6,500 sq. ft.

Oranjewerf: On West corner St. Anna Bay/Schottegat. Type: quay. Construction: iron piles, concrete top,concrete floor. Length: 418 ft. Draft: 19 ft. Height above water: 6 ft. Special bunker pier, cargo handling mostly via lighters alongside.

Admiral Brion Wharves: Nos. 1, 2, 3, 4, 5 and 6 situated at the East side Schottegat. Type: quay. Construction: sheet iron cells with concrete top, asphalt floor. Total length: 3×1,000 ft. Depth: 34 ft. Height above water: 5 ft. One transit shed: width 65 ft., length 330 ft., area 21,000 sq.ft. Open space area 510,000 sq.ft. A special platform for Ro/Ro ships has been constructed. Maximum draft: 33 ft.

Kleinewerf, Grotewerf, Salazarwerf: East side of St. Anna Bay. Type: quay. Construction: sheet piling, concrete top, asphalt floor. Total length wharf: 1,470 ft. Maximum draft alongside 24–31 ft. Height above water: 2 ft. One transit shed, width 65 ft., length 330 ft., area 21,500 sq. ft. Open space area 154,000 sq. ft.

SLOP RECEPTION FACILITIES: Available at all Shell Terminals.

FRESH WATER: Fresh water for drinking purposes and use in boilers is available day and night in sufficient quantities at all wharves. Fresh water is also delivered alongside by means of water barges, delivery rate 50/100 t.p.h.

FUEL: Besides the Shell piers there are two bunkering installations: namely, the "Admiral Brion Wharves" comprised of six berths and the "Motet" bunkering installation comprised of four berths.

The "Admiral Brion Wharves" bunkering installation is directly supplied from the refinery by means of two pipe-lines with diameters of 12 and 8 in. The pipe-lines run the full length of the piers, each with five bunkerpits, from which the oil can be delivered directly to the ships via a mobile blending unit if this is required. The capacity of the pipe-line and the pumps is 600 t.p.h. for fuel oil and 300 t.p.h. for diesel oil. Gas oil is also available.

The bunkering facilities of the "Motet" installations in Otrabanda, which are comprised of seven storage tanks and pumping facilities, are supplied through two pipe-lines of 12 and 6 in. diameter from the refinery. The rate of delivery, by gravity and pumps, is 600 t.p.h. for fuel oil and 500 t.p.h for diesel oil.

Modern fuel blending facilities are available at all installations in Willemstad.

REPAIRS: The Curacao Drydock Company Inc. has repair yards, two graving docks and one floating dock laid out in the Schottegat.

The largest graving dock is 919 ft. long, width of entrance between wheel fenders 152 ft. and a depth of water over sill of 27 ft. 10 in. Suitable for up to 120,000 d.w.t. Movable cranes of 25 and 75 tons lifting capacity are fitted alongside the dock.

The Curacao Drydock Company Inc. has 6,000 ft. of repair wharf with varying depths up to 40 ft. Cranes alongside up to 75 tons lifting capacity. A floating crane with capacity of 30 tons and a mobile truck crane of 140 tons also available.

Electric shore-power A.C., D.C. 110, 220 or 440 volts can be supplied directly from shore at wharves of Shell Curacao Ltd. and at other wharves from generators on barges. Shell can also supply steam directly from the shore at a pressure of 8–15 kg/cm.

STEVEDORES: Gangs must be engaged between 0600 and 0630 hrs. for the day, on weekdays and Saturdays. For work on Sundays and holidays, gangs must be ordered between 0600 and 0630 hrs.

on Saturday or the workday preceding the holiday. Masters of vessels carrying out cargo operations are consequently recommended to advise Agents their ETA well in advance of above deadlines.

TIME: Curacao time 4 hours slow of GMT.

HOLIDAYS: New Year's Day, Carnival Monday (February), Good Friday, Easter Monday, Queen's Birthday, Labour Day, Ascension Day, Kingdom Day, Christmas Day, Second Christmas Day. "No work", holidays for cargo operations: New Year's Day, Good Friday, Labour Day and Christmas Day.

GENERAL: Customs Officers remain on board on duty during the vessel's stay in port. They must be fed by the ship and are entitled to the equivalent of officers mess or first-class dining saloon.

REGULATIONS: Both anchors should be ready for immediate use. Defects of engines, steering gear, anchor gear and other defects which influence manoeuvring abilities of the vessel should be reported before entering, to the Harbour Master. Vessels carrying explosives must obtain a permit from the Harbour Master before entering.

AIRPORT: There are daily international flights from Dr. Albert Plesman Airport.

ALM: Frequent daily trips to Aruba and Bonaire. Daily flights to Miami and New York. Regular air services to St. Maarten, Caracas, Maracaibo, Colombia, Haiti, Sto. Domingo, Puerto Rico, Trinidad and Paramaribo.

Eastern Airlines: Daily flights to Puerto Rico and transfers to all points.

American Airlines: Daily flights to New York and transfers to all points.

VIASA: Regular scheduled flights to Caracas, Sto. Domingo, Paris and Amsterdam.

Aerocondor: Daily flights to Colombia.

LAV: Many daily flights to Caracas.

KLM: Daily flights to Amsterdam, Lisbon, Madrid, Frankfurt and Zurich.

Ferry: Ferry's Del Caribe S.A. runs a regular service with a new modern ferry which carries 1,200 people and 120 automobiles. This ferry has regular service between Curacao and Coro, Venezuela on Monday, Tuesday, Wednesday and Thursday. On Thursday the ferry also goes to Aruba and Punto Fijo, Venezuela.

DEVELOPMENTS: There is a Container Terminal under construction South of Admiral Brion Wharves. Length of quay 480 m. Total area 90,000 sq.m. Terminal is due to come into operation in late 1980.

AUTHORITY: The Harbour Master. (Who is also General Manager of the Harbour and Pilot Service.)

AGENT: SEL Maduro & Sons (Curacao) Inc., Maduro Plaza, POB 304, Willemstad, Curacao, Netherlands Antilles. Tel. 76900. Telex: 1092 Selms NA. Cables: "Maduroship".

NOTES

Please also advise Shipping Guides Ltd.

New Caledonia

NOUMEA: 22.16 S. 166.27 E. (See Plan Book)

DOCUMENTS:
Ship's Register.
Safety Certificates.
Cargo Manifests.
List of Dangerous Cargo.
Passenger List.
Crew List.
Crew Personal Effects List.
Bonded Stores List.

PILOTAGE: Compulsory for vessels over 60 m. LOA. ETA to Port Captain and Pilots required 24 hours in advance. The two access channels to Noumea are Boulari channel (Amadee light) and Havannah channel. Pilot boats are wooden launches about 15 m. long equipped with VHF. Harbour Master's office and pilot station on Channel 16 during office hours.

Boulari Channel: Pilot boards 1 mile off, on the alignment of the Amadee high and low lights.

Havannah Channel: Pilot boards off Goro light on the alignment of the leading lights on Cap N'Dua.

In bad weather, pilot launches will remain on these leading lines, but as close as possible to the channel entrances.

Pilot should be ordered at least 6 office hours before departure or moving.

ANCHORAGES: Available in the outer and inner roads of Noumea, as indicated by the Pilot. Prohibited zones are marked on the chart.

RESTRICTIONS: Vessels may enter and anchor at any time, mooring may be effected at night.

MAX. SIZE: Tanker buoy berths designed for 20,000 d.w.t., and SBM for tankers of 100,000 d.w.t. Draft limited to 14.80 m. by a bar between the reef and the port.

HEALTH: Unless vessels have signalled that there is suspected disease or fever on board, free pratique is given automatically by radio request to the Capitaine du Port or by the Pilot.

RADIO: All messages by coast station Noumea, call sign FJP. Harbour Master's office equipped with VHF, Channels 16, 12 and 14, operated during normal working hours.

TUGS: Tug's service is compulsory. One tug of 1,200 h.p. and 1 of 500 h.p. available to assist.

BERTHING: At old Port Authority quay, draft limited to 7.50 m. New quay of 700 m. to accept vessels up to 10 m. draft and over 200 m. length. Private berths of Nickel Company are dredged to accommodate 10 m. draft.

STEVEDORES: Service provided by four private companies. 2 or 3 days' notice required to arrange work.

MEDICAL: Doctors, hospital, and 3 private clinics available. Smallpox vaccinations are compulsory.

TANKERS: Buoy berth, max. draft 48 ft. 6 in. Shell berth (at Nickel Company), max. draft 10 m. at HW.

DENSITY: 1026.

FRESH WATER: Supplied by pipe-line at the quays; rate, 40 t.p.h.

FUEL: Several grades available from Shell, Mobil and Total.

GANGWAY/DECK WATCHMEN: Recommended, but not compulsory.

OPENING/CLOSING HATCHES: Can be performed by stevedores if required.

CUSTOMS ALLOWANCES: 200 cigarettes per man. Additional allowance can be made after 10 days. Max. 3 bottles spirits per man. Wines and beer not limited.

IDENTIFICATION CARDS: Recommended that crew carry Seamen's Books.

CONSULS: Australia, Belgium, Indonesia, Italy, Japan, Norway and New Zealand are represented locally.

REPAIRS: Many engine, hull and electronic repairs can be effected. Slipway for small vessels.

REPATRIATION: All facilities available for crew change and repatriation.

AIRPORT: Tantouta Airport situated 50 km. from Noumea. Several connections a week to all parts of the world.

TIME: GMT plus 11 hours. No alterations during the year.

HOLIDAYS: 1st January, Easter Monday, 1st May, Ascension Day, Whit Monday, 14th July, 15th August, 1st November, 11th November, 25th December. Work may be arranged on Sundays and holidays.

POLICE/AMBULANCE/FIRE: Police, Tel. 17; Fire, Tel. 18; Ambulance, Tel. 721.21.

SHORE LEAVE: Allowed.

SHIPMASTER'S REPORT:
Communications: Radio W/T. Short wave service and MF service very good. First message to state which passage used – Draft – Tonnage – and nature of dangerous cargo, this should be sent at least 24 hours before arrival, Agent and Harbour Master required this message.

Radio Telephone. Service available.

VHF. Available to Harbour Office and Pilot Station during office hours 0715 to 1115 hrs. and 1330 to 1730 hrs. Monday to Friday 0800 to 1100 hrs. on Saturdays. Pilot vessel when at Havannah Passage keeps VHF watch one hour before the last given ETA. In our case we made contact with the pilot vessel when 12 miles from Havannah Passage. If at anchor VHF contact to Agents can be made via Harbour Office.

Pilotage: Boarding ground. Canal de Havannah. The Pilot boards the vessel when on the leads, but inside the reef, when the vessel is off Port Goro. The three leading lights stand out well at night time, each light is individually powered in case of failure, in our case they were seen 25 miles away. During strong S.W'ly winds the Pilot will board in the lee of Loro Reef. As the leads do not stand out so well in day time, night time seems to be the best arrival time. This channel has been swept to a depth of 34 ft. Strong cross currents can be expected at the entrance to Havannah Passage.

Anchorages. See CHINPACS for area dangerous due to mines. Otherwise vessel anchors Grande Rade.

Quarantine. Pratique granted by Pilot, Health Signal not required unless notifiable sickness on board.

Controlling Factors: Berthing times. Vessels are now berthed at any time, the usual side to being Starboard side, a 1,200 h.p. tug being used to assist.

Depth of Water. The least sounding taken at No 1 Berth was 32 ft., the other two berths are said to have 33 ft. of water at them.

Length. No limit at berth.

Berthage. 700 m. at the New Wharves.

Stevedoring. Working time. 0700 to 1100 hrs. then 1300 to 1700 hrs. and overtime from 1800 to 2200 hrs. The labour will also clean out the hatches provided one gang is actually working cargo, otherwise they stop when cargo work is all finished. Saturday is not an overtime day. Only Sunday is an overtime day. Good Friday and Easter Saturday are considered normal working days. The Stevedoring is good, with a fast working rate, but I regret to state that some pillage took place. As regards unprotected cars, the most minor marks were claimed against the vessel, these were repudiated.

Documents:
1 Cargo Manifest.
1 List of Dangerous Cargo.
2 Crew Lists.
1 Crew Personal Effects List, this list to include currency held, (French Forms accepted).
1 Bonded Stores List.
1 Health Form.

AUTHORITY: Port Autonome de Noumea.

New Zealand

GENERAL: All ports.

The New Zealand Ministry of Agriculture and Fisheries requires a Shipmaster's Bond and Guarantee (Form Ag.L35) to be completed in triplicate if vessel is carrying animals, i.e. cats, dogs, fish, birds, etc.

In addition all overseas vessels are required to complete in duplicate a Meat Locker Declaration (Form Ag.L36).

All foods of an agricultural nature are held by Customs Department until they have been inspected and a Permit to Land (Form Ag.G.78) issued by the Ministry of Agriculture and Fisheries.

Crews signing off are required to check with the Port Agriculture Officer and obtain Release/Treatment of any agriculture items which they wish to take ashore.

AUCKLAND: 36.51 S. 174.45 E. (See Plan Book)

PORT LIMITS: South of a line drawn due West from Rangitoto beacon.

DOCUMENTS:

3 Copies Passenger List.
3 Copies Crew List.
1 Copy Search List (Form 2).
1 Copy Stores List (Form 3).
1 Copy Prohibited and Restricted Immigrants.
1 Copy Poisons List.
1 Copy Animals and Birds List.
1 Copy List of Firearms (not cargo).
1 Copy Arrival Manifest (Form 1), plus 2 for other ports visited (Reg. Form 16 refers).
1 Copy of List showing the gross tonnage of cargo for discharge in New Zealand.
3 Copies Shipmaster's Bond and Guarantee (Form Ag.L35).
2 Copies Meat Locker Declaration (Form Ag.L36).

PILOTAGE: Vessel approaching port to give 24 hours notice by radio. A second notice confirming or amending first to be sent 4 hours before expected time. Signal Station on Mt. Victoria, call sign "Auckland Harbour Radio", calling frequency 2182 kHz, working frequency 2012 kHz. VHF, call sign "Auckland Harbour Radio", Channel 12 and 16. Continuous listening watch on Channel 16.

Pilot launch is 64 ft. long, single mast, painted white. Name is *Akarana*. Standard flag and lights are shown. Word "Pilot" painted in black on white above cabin. Pilots board 1 mile North of Rangitoto Beacon, but will proceed farther when necessity arises. Good pilot ladder with manrope required to within 5 ft. of water-line with proper lighting at night. Heaving lines will be needed for mail.

ANCHORAGE: For vessels waiting Pilot: Gulf Anchorage No. 1 bearing 000° distance 2 miles; No. 2 bearing 006° distance 2.5 miles; No. 3 bearing 012° distance 3 miles. Bearings and distances from Rangitoto Beacon.

All inner anchorages in pilotage area can be indicated by Pilot. All anchorages are in 11 to 18 fathoms with good holding ground.

RESTRICTIONS: Ships may enter harbour at any time of day or night. Main channel has least depth of 11 m. chart datum. Vessels with greater draft must wait for tide to make and enter at Harbour Master's orders. Tankers not berthing immediately on arrival anchor as directed at one of Gulf Anchorages.

MAX. SIZE: No limits, within reason, on the length or breadth. Controlling depth at chart datum: entrance 11 m.; Rangitoto Channel 11 m.: anchorages 9.8 to 18.29 m.; berths 6.09 to 12.20 m.

HEALTH: 12–24 hours before arrival time, despatch message to Port Health, Auckland. Message to state ETA, last port, and date of departure therefrom, number of crew, number of passengers and state of health and indicate if there is a doctor amongst the crew. 12 hours before arrival confirm ETA.

Doctor boards by way of vessel's shipside gangway (not pilot ladder) when in harbour. This gangway to be ready immediately on arrival in order to avoid any delay. A responsible person should meet doctor at head of gangway and conduct him to appropriate person.

Papers required:
Completed Maritime Declaration of Health.
De-rating Certificate.
Complete Crew List with dates of last smallpox vaccination.
N.B. Crew and Passenger Lists to be certified as being correct by the Master.
List of Addresses of Disembarking Passengers.
List of Dangerous Cargo on board.

Pratique is granted initially, and covers all subsequent coastal movements in New Zealand for that voyage. Radio pratique can be granted only after prior approval from New Zealand Health Department.

Vessels requesting pratique should exhibit appropriate International Code Signals by day and night until pratique is granted.

RADIO: Station for routing traffic to the Auckland area is Auckland Radio. Call sign ZLD. Working both W/T and R/T on continuous watches.

VHF: See "Pilotage".

RADAR: Radar station with range of 72 km. located on Mt. Victoria 36° 49′ 42″ S., 174° 47′ 57″ E. Masters may call on radio telephone and request particulars of their bearing and range as shown on radar screen. Responsibility for the use of this information rests entirely with Master of vessel.

TUGS: 4 tugs available. Tugs join vessel East of Eastern Tide Wall. Tugs supply lines at no extra charge.

BERTHING: Tankers berthing at Eastern Tide Wall, BP Depot, must berth in accordance with weather and tidal conditions. Tankers must arrive at Pilot station not later than half an hour before sunset, otherwise berthing will be postponed until following morning.

Depth of water: Bledisloe 10 m.; Captain Cook 8–10.5 m.; Eastern Tide Wall 10–10.5 m.; Hobson 4–6 m.; Jellicoe 9–11 m.; Kings 8.5–9.5 m.; Marsden 2.8–8 m.; Princes 9–11 m.; Queens 9–10.5 m.; Wynyard 8–11 m.; Freyberg 10–11 m.; Fergusson 11–12.2 m.

CRANES: At Fergusson Container Terminal there is 1 twin lift container crane of 45.72 tonnes capacity and 1 single lift container crane of 40.64 tonnes capacity. In the conventional cargo port quay-side cranes of 3 or 5 tonne capacity are provided at all except 2 berths. At the bulk fertiliser berth there are six 5 tonne capacity multi-wire grabbing cranes and at the bulk sugar berth there is a 5 tonne capacity gantry grabbing crane. Self propelled floating crane 101.6 tonnes capacity.

BULK CARGO FACILITIES: *Cement:* A special berth is provided where bulk cement is discharged pneumatically via pipe-line to privately owned silos. Depth at chart datum 6.0 m., quay length 94 m.

Sugar: Bulk sugar is discharged at Chelsea Wharf. This wharf is equipped with a 5 tonne capacity gantry grabbing crane and a conveyor system connected to the refinery store. Depth at chart datum 9.9 m. Quay length 91 m.

1 berth is set aside for the discharge of bulk fertiliser bases. Six 5 tonne capacity multi-wire grabbing cranes and 6 rail mounted hoppers of 10.7 cu.m. capacity are available. Depth at chart datum 11.0 m. Quay length 335 m.

4 other berths can also be made available for discharge of dry bulk cargo as required.

SPECIALISED CARGO HANDLING FACILITIES:

Tanker Terminals: 2 berths are at a continuous quay 486 m. long, depth at chart datum 9–11.0 m. The third is a dolphin berth, depth at chart datum 10.5 m. All the berths are connected by pipe-line to adjacent tank farms.

Container and Ro/Ro Facilities: Fergusson Wharf Container Terminal: Quay length 457 m. Depth at chart datum 12.2 m. The terminal is equipped with 2 Vickers Hoskins/Paceco gantry container cranes, a single lift of 40.64 tonnes capacity and a twin lift of 45.72 tonnes capacity. Total back-up area of the terminal is 15.46 ha. of which 11.16 ha. is used for container handling and storage and 4.30 ha. is used for container repairs and LCL containers. Included in the latter area is the Monash Street Container Base which provides 7,432 sq.m. of covered transit storage for LCL cargo. Rail exchange sidings are located immediately adjacent to the terminal. There are power outlets for 872 refrigerated containers. Container terminal equipment includes 15 straddle carriers (plus 2 on order), seven 20–25 tonne capacity fork lift trucks with top lift attachments as well as various tractors, trailers and smaller fork lift trucks. The terminal is operated by the Auckland Harbour Board.

Bledisloe Roll-on Terminal: Quay length No. 1 berth 137 m., No. 2 berth 224 m. Depth at chart datum 9.5 m. Each berth is equipped with a link span with a fork lift axle load capacity of 56.9 tonnes and a low loader capacity of 182.9 tonnes. No. 2 berth can accept ships equipped with a port quarter ramp. A total back-up area of 4.8 ha. is provided including a cargo shelter of 4,000 sq.m. and rail exchange sidings. The terminal is operated by Union Steam Ship Company.

BRIDGES: Navigation in daylight hours only under Auckland Harbour Bridge. Navigation span is 138 ft. to 131 ft. above MHWS for 250 ft. each side of centre. Only ships berthing at Chelsea Wharf sugar berth need pass under the bridge.

STEVEDORES: Labour commences at 0730 hrs. In order to ensure labour for this time ETA should be received at Agent's office before 1500 hrs. previous day, or before 1500 hrs. previous Friday for a Monday start. Delays on radio messages may be up to 3 hours.

MEDICAL: In case of urgent medical attention being required, Agents can arrange for doctor to board in stream at any notice. Hospital and ambulance services available 24 hours. If any smallpox vaccinations have expired this must be included in ETA advice.

TANKERS: See "Special Cargo Handling Facilities".

Any size pipe-lines can be used, oil companies have all reducing pieces needed.

No facilities for slop discharge.

DENSITY: Always 1025.

FRESH WATER: Fresh water always available. Delivery rate 100 t.p.h., through canvas hoses. AHB supplies all equipment.

FUEL: Light fuel oil, diesel, gas oil and heavy fuel are available. To be ordered in ETA notice.

FIRE PRECAUTIONS: In addition to usual precautions, Class I tankers are under extra security with a nightwatchman from Harbour Master's staff in addition to the normal tanker guard.

CONSULS: (Consuls, Trade Commissioners, etc.): Australia, Belgium, Brazil, Britain, Costa Rica, Denmark, El Salvador, Fiji, Finland, France, Germany (West), Greece, Ireland, Italy, Japan, Korea (South), Nauru, Netherlands, Norway, Peru, Philippines, Portugal, Sweden, Switzerland, Tonga, Turkey, U.S.A., Venezuela, Western Samoa.

REPAIRS: Any ship repairs can be carried out. A slipway can take vessels of 600 tons displacement and up to 64 m. LOA.

DRY DOCKS: Max. size of vessel that can be accommodated in Calliope dry dock is 181.35 m. LOA and 19.6 m. beam. Water on sill at MHWS 10 m.

SURVEYORS: American Bureau of Shipping, Bureau Veritas (Paris), China Corporation Register of Shipping, Det Norske Veritas, Germanischer Lloyd, Lloyds Register of Shipping, Nippon Kaiji Kyokai, Registro Italiano Navale, USSR Register of Shipping.

GANGWAY/DECK WATCHMEN: Watchmen are necessary. Best to use crew.

OPENING/CLOSING HATCHES: Crew can open completely mechanical hatches only. All other hatches opened by waterside workers.

CERTIFICATES: Register, De-ratissation, Load Line, Safety Equipment, Safety Radio, Articles of Agreement, are main Certificates required.

CUSTOMS ALLOWANCES: 1 bottle of spirit (in use) *or* 1 bottle of wine (in use) *and* 12 quart bottles (or the equivalent) of beer, 200 cigarettes *or* half a pound of tobacco *or* 50 cigars. For ship use only. To be declared on Search List. Also gifts up to a total value of $10.0 may be landed.

CARGO GEAR: Preventer guys must be entirely wire. All blocks and shackles must be moused. Safety strops on all heel blocks. All wires, ropes, chains and blocks to have Certificate of Test.

REPATRIATION: All facilities exist for repatriation.

AIRPORT: 23 km. from harbour to airport. Served by all major international airlines.

TIME: Local time is GMT plus 12 hours, add 1 hour for Summertime, October to March.

HOLIDAYS: Only the Container Terminal works during the following holidays. New Year's Day (1st January); Good Friday; Easter Monday; Anzac Day (25th April); Queen's Birthday (first Monday in June); Labour Day (fourth Monday in October); Christmas Day; Boxing Day; Waitangi Day early February. In addition, each Province has an Anniversary Day and a Waterside Workers' Picnic Day. In Auckland these are in last half January.

POLICE/AMBULANCE/FIRE: All emergency services are called through one telephone number. Dial 111 and state service required.

TELEPHONES: Telephones at all berths. Cost is $2.30 fee phone per day, plus the cost of any overtime incurred in connecting or disconnecting any such telephone. Telephones (coin operated) may be hired for use of crew on application to Post Office.

SERVICES: Services include tank cleaning, compass adjusting, all cargo surveying, average adjusting, etc. Tank washings may be pumped to road tankers.

GENERAL: *Refuse Disposal:*

It is important that no refuse be allowed to pass into tidal waters either directly or indirectly. This is covered by strict Government Regulation.

Masters should ensure that refuse is lowered into refuse boat "Manui" and not thrown into boat from any great height.

No refuse will be collected from stern of vessel as this is hazardous for collection craft. A suitable site in way of the flat side of the vessel on off shoreside should be chosen.

SHORE LEAVE: Crew members may go ashore.

IDENTIFICATION CARDS: Not required.

REGULATIONS: All guests aboard vessel in the evening must have passes signed by the Master. All visitors' passes expire at 2300 hrs. All ships in port are subject to the Rules and Regulations contained in the Harbours Act 1950, and the By-laws of the Auckland Harbour Board. On first visit to the Port copies of these and other relevant Regulations are supplied to ships.

DELAYS: During 1977 average delay 1.5 days for container ships but with completion of extensions towards the end of 1978 these will be eliminated. Seldom any delays awaiting other berths.

DEVELOPMENTS: Extensions to Fergusson Wharf Container Terminal are under construction which will: increase the quay length to 610 m. provide an additional land area of 5.855 ha. provide facilities for an additional 610 refrigerated containers. A third Vickers Hoskins/Paceco container crane is scheduled to be commissioned at Fergusson Wharf Container Terminal in late 1978. Construction is in progress on the first stage of a 20 ha. Inland Container Terminal at Wiri 22.5 km. from the port. Interim facilities are being prepared at Freyberg Wharf to provide additional accommodation for quarter-ramp Ro-Ro vessels.

AUTHORITY: Auckland Harbour Board.

BLUFF: 46.37 S. 168.22 E. (See Plan Book)

DOCUMENTS: See "Auckland".

PILOTAGE: Pilotage is compulsory. Pilots board vessels from a launch within a 3-mile radius of signal station on Stirling Point, and always well to seaward of 6 fathom line. Arrangements regarding boarding will be made by radio-telephony or wireless-telegraphy.

Vessels, other than those which are exempt from pilotage, must not proceed inside Bluff Foreshore Light without a Pilot.

Pilots do not usually board vessels between sunset and sunrise except in reasonable weather.

Caution: Vessels stopping to pick up a Pilot are particularly warned not to approach entrance shoal too closely, especially during flood stream as stream sets strongly on to entrance shoal, North-eastward.

Coastal Pilots: Coastal Pilots are available on 24 hours notice for piloting service from Tairoa Head to Milford Sound.

ANCHORAGE:

Southward of Stirling Point: In fine weather, vessels missing tide may anchor in 10 to 12 fathoms with Stirling Point lighthouse bearing about 356° and Dog Island lighthouse bearing about 108°.

Eastward of Dog Island: A good anchorage for vessels delayed longer than 6 hours awaiting to enter Bluff is situated 5 miles East of Dog Island.

RESTRICTIONS The safest time to enter the harbour is at slack water. Strict attention should be paid to signals passed from the signal station on Stirling Point. No vessel should attempt to enter without a Pilot, unless possessing local knowledge.

Least depth in fairway is 28 ft. on Northern edge of Channel Rocks; also 25 ft. (about 1 cable West North-westward of the tidal beacon).

MAX. SIZE: Length, 620 ft., overall beam, 95 ft. Maximum draft permissible in approach channel: 30 ft. 0 in. at HW, 22 ft. at LW. The Board has been carrying out extensive blasting and dredging in the entrance channel and it is anticipated that a further increase in the present port draft of 30 ft. in the entrance channel will be made but this will be publicised at the time when it can be confirmed.

HEALTH: Radio pratique available at Berth.

RADIO: A signal station is situated on Stirling Point and is connected by telephone with harbour officials. A continuous watch is maintained and vessels can communicate by the International Code of Signals or the Morse Code. There is a radio-telephone at signal station. Call sign is "Bluff Harbour Radio", calling frequency is 2,182 kc/s, and the working frequency is 2,012 kc/s. VHF radio having Channels 16 and 12. Watches are maintained from 33 to 40 minutes past the hour, every hour. After radio-telephone contact has been established further listening watches can be made by mutual agreement.

TUGS: Two tugs are available. Both twin-propulsion Voith Schneider vessels of 1,200 i.h.p. and 15.3 tons static pull and 2,600 h.p. and 30 tons. Both vessels are equipped for fire fighting and salvage.

BERTHING:

	Berth No.	*Dredged depth L.W. (draft 2 ft. less or maximum)* ft.	in.
Island Harbour:			
	1	26	
	2	26	
	3A	30	
	3	35	
	4	35	
	5	35	
	6	25	
Town Wharves:			
	11	31	6
	12	29	6
	14	26	6
Tiwai Wharf:		38	

STEVEDORES: Agents require ETA in advance to arrange labour for cargo handling.

MEDICAL: Port doctor available through Agents. Nearest hospital is at Invercargill City, 16 miles from Bluff. Medical service whilst at sea; through Awarua radio.

TANKERS: Tankers are berthed at No. 11 berth only, Town wharf. Side connections are to be used. Only 1 pipe-line connection on wharf.

It is not permitted to commence the discharge of oil cargoes during the hours of darkness. No vessel carrying a cargo of motor spirit or having discharged such cargo will be handled during the hours of darkness.

Oil cargoes for Tiwai Point discharged at Tiwai Wharf.

DENSITY: 1025.

FRESH WATER: Available alongside all berths.

FUEL: Bunkering facilities are available. Boiler fuel is supplied by 8 in. diameter pipe-line located at No. 11 berth, Town wharf. Delivery rate 240 t.p.h. Limited quantities of coal, light diesel oil and lubricating oil can be arranged for delivery by road or rail to the wharves.

GANGWAY/DECK WATCHMEN: Available.

OPENING/CLOSING HATCHES: Usually carried out by stevedores, unless automatic then by crew.

CUSTOMS ALLOWANCE: See "Auckland".

IDENTIFICATION CARDS: Not required.

REPAIRS: Major repair work can be undertaken by the following: 2 small machine shops at Bluff; a foundry at Invercargill; a slipway for vessels of up to 500 tons displacement at Bluff. A diver is available for underwater inspections through agents.

REPATRIATION: Facilities exist.

AIRPORT: Internal air services from City Airport, Invercargill, 16 miles by road. Connecting with international airports of Christchurch, Wellington and Auckland.

TIME: GMT plus 12 hours. Summer Time GMT + 13 hrs. from November to February inclusive.

HOLIDAYS: Christmas Day; Boxing Day; New Year's Day; Second of January; Watersiders' Picnic Day (4th Monday, January); Good Friday; Easter Saturday (except by special arrangement); Easter Monday; Easter Tuesday; Labour Day; Anzac Day; Reigning Sovereign's Birthday.

POLICE/AMBULANCE/FIRE:

	Tel. (Emergency)	*(Other)*
Ambulance	Bluff 111	Ingrill 4119
Police	Bluff 111	8844
Fire Brigade	Bluff 111	

TELEPHONES: By arrangement, all vessels can be connected with telephone system.
SERVICES: Compass adjusting, refuse collection daily.
SHORE LEAVE: Allowed.
AUTHORITY: Southland Harbour Board.

GISBORNE: 38.42 S. 178.02 E. (See Plan Book)

PORT LIMITS: All of Poverty Bay within a line from the Northern point of Young Nick's Head to Tuaheni Point.
DOCUMENTS: See "Auckland".
PILOTAGE: Telegraphic address – Harbour Master, Gisborne. Advance notice – 24 hours of ETA and further confirmed at 4 hours of ETA. VHF Channel 12.

Pilot boat is painted white with word "Pilots" on both sides, 45 ft. in length; exhibits pilot flag or lights. Pilot boards on line of leads (332°) 2 miles from breakwater light.
ANCHORAGE: Vessels awaiting Pilot and berth anchor with Tuaheni Light bearing 084° 3.2 miles in 10 fathoms of water.
RESTRICTIONS: Vessels may be berthed at night according to size, draft and weather conditions.
MAX. SIZE: Maximum length, 570 ft. OA. Beam, No restriction. Draft, 29 ft. at HW, 25 ft. at LW; there can be slight variations according to heights of tide and weather conditions.
HEALTH: Same procedure as "Auckland".
RADIO: Auckland Radio ZLD, Wellington ZLW.
RADAR/VHF: Radar service available – arrangements can be made through Signal Station by means of VHF Channel 12.
TUGS: Tug joins vessels in channel outside breakwater. Normally use ship's lines; if tug's lines used, no extra charge.

A twin screw Schottel Rudder/Propeller 22 m. steel tug is in service. Bollard pull 14 tonnes, 1,000 h.p.
BERTHING: 700 ft. at 32 ft. depth LW; 1,400 ft. at 18 to 20 ft. depth LW.
Moorings: Shore hawsers placed on vessels on arrival.
SPECIALISED CARGO FACILITIES: Two 1,000 tons for bulk grain etc. silos behind No. 7 berth and a conveyor for loading grain etc. in ships. Loading rate 400 t.p.h. There is also a fish unloader, rate 40 t.p.h.
STEVEDORES: Advice of ETA and particulars of stowage required in order that required number of gangs can be ordered. Hours of work, Monday to Friday, 0700–1200 hrs., 1300–1800 hrs.; Saturday, 0700–1200 hrs.
MEDICAL: No advance advice required for medical attention. Full hospital facilities available.
TANKERS: Tankers discharge fuel oil and bitumen.
DENSITY: 1025 at all stages of tide.
FRESH WATER: Available by 2.5 ins. hoses at approx. 40 t.p.h. per hose.
FUEL: Fuel is at present only available by rail tanker and should be ordered through ship's Agent in advance.
DEVELOPMENTS: It is expected that present overseas berth will be increased from 700 ft. to 1,300 ft. within about 3 years.
GANGWAY/DECK WATCHMEN: Ships at present provide own watchmen.
OPENING/CLOSING HATCHES: Stevedores normally carry out this work.
CUSTOMS ALLOWANCE: See "Auckland".
IDENTIFICATION CARDS: Not required.
CONSULS: None.
REPAIRS: Normal maintenance repairs.
DRY DOCKS: One 400 ton slipway.
REPATRIATION: Full facilities available for effecting crew changes and repatriation. However, no seaman's pool operating at Gisborne. Replacement crew must be obtained from either Auckland or Wellington.
AIRPORT: 3.5 miles. Regular internal service.
TIME: Standard Time is related to the meridian of 180° *East*, i.e. 12 hours ahead of GMT.
AUTHORITY: Gisborne Harbour Board.

LYTTELTON: 43.35 S. 172.42 E. (See Plan Book)

PORT LIMITS: All those tidal waters of the Port of Lyttelton comprised within the area enclosed by the arc of a circle having a radius of 3 nautical miles from the Northernmost point of Adderley Head.
DOCUMENTS: Customs procedure. Overseas vessels, on arrival in New Zealand, should have following papers ready to produce to Customs Officers:

Particulars of Ship's Certificates.
List of Persistent Oils (Tankers only).
Notification of Liability to pay entry tax (Fishing vessels only).
Register.
Names of Owners and Agents.
Crew List.
Passenger List.
List of Prohibited or Restricted Immigrants.
Search List.
Stores List.
List of any stock or birds on board.
List of Poisons.
List of Firearms.
Statement of excess Tonnage of Cargo.
Statement of quantity of Fuel Oil in double bottoms.
Declarations by Passengers arriving in New Zealand.
Baggage Declarations by Passengers for duty purposes.

On departure for overseas, Master or his Agent is required to produce:

Manifest of Cargo.
Stores List.
Crew List.
Passenger List (if any).
Clearance from the Marine Department (if a British ship).

A home trade vessel under *transire* is required to produce her cargo book to Collector of Customs and such particulars as to passengers, crew, and cargo as the Collector may at any time demand. Cargo book shall contain name and port of registry of ship, Name of Master, and date of arrival at, and departure from each port. Particulars as to dates of arrival and departure must be entered not later than 24 hrs. after time of such arrivals and departures.
PILOTAGE: Masters requiring services of a Pilot must notify Harbour Master of their estimated time of arrival and max. draft not later than 1600 hrs. on day prior to arrival (Monday to Friday). If estimated time of arrival is on a Saturday, Sunday or any public holiday which falls on a Monday, notification must be given before 1600 hrs. on previous Friday. International Code of Signals or Morse Code used for communicating with signal station. Station also equipped with radio telephone. Call sign is "Lyttelton Harbour Radio", calling frequencies is 2182 kc/s and working frequencies are 2012 and 2162 kc/s, a continuous listening watch being maintained. Radio telephone equipment also installed in the tug, pilot cutter and Harbour Master's office, and same call signs, frequencies and watches are employed. VHF in operation on International Channels 12, 14 and 16.

Pilot vessel is 16.46 m. in length. Equipped with radar, radio telephone and echo sounder. The pilot vessel is located at the tug wharf in inner harbour and any vessel awaiting arrival of the Pilot, should anchor about 1.5 miles to seaward of Godley Heads, in a depth of 16 m. to 18 m. and await instructions.

The limit of pilotage is a line joining Godley and Adderley Heads. Every facility must be provided to ensure safe boarding of the Pilot.
ANCHORAGES: *Camp Bay:* Permission must be obtained from the Harbour Master before using this anchorage and draft of vessel is restricted to 8.5 m. All vessels drawing more than 8.5 m. whether awaiting a Pilot or not must use the outside anchorage. Vessels using Camp Bay anchorage should anchor with the anchorage lighted leading beacons situated on the Southern shore of Camp Bay, in transit, bearing 195.5°. Each beacon is painted white and exhibits a fixed red light. Vessels may anchor to the Westward of this bearing but must not proceed Westward of a line bearing 345° from the rear anchorage beacon.
Note: Anchoring in or near the dredged channel which extends 2 km inside Heads is not permitted.
RESTRICTIONS: Cargo vessels not berthed during hours of darkness, except at Cashin Quay.

Tankers are berthed during hours of daylight only. All vessels can depart from their berths during hours of darkness. Vessels holding pilotage exemptions may also enter or depart during the hours of darkness.

The following are the controlling depths at mean low water springs, mud bottom in each case;

entrance to port 14.6 m.
dredged channel 11.30 m.
inside anchorage 11.0 m. (Camp Bay)
approaches to berth 11.3 m.–9.8 m.
alongside berths 12.20 m.–8.60 m.

MAX. SIZE: Max. draft permissible for entering or leaving: 11.28 m. at high water and 9.75 m. at low water. Vessels drawing less than 9.75 m. can enter at any state of the tide. Max. size permissible for entry: length 260 m. at Cashin Quay, any additional length contact Harbour Master, 230 m. at Inner Harbour. No limit on vessel's beam.
HEALTH: Master of every ship about to enter a New Zealand port shall, not later than 12 hrs. and not earlier than 24 hrs. before expected time of arrival at that port, inform Port Health Officer by radio of last port of call, date of departure therefrom, and state of health of vessel.

Arrival of vessels. On arrival, vessel showing International Code quarantine signal, should proceed to inspection to await arrival of Port Health Officer. Inspections are normally carried out at berth.

Radio pratique. Certain ships may be granted pratique by radio and hence need not be visited by a Port Health Officer, provided that medical officer carried as part of ship's complement.

Maritime Declaration of Health. Master of all vessels arriving in New Zealand from any port beyond New Zealand shall complete and deliver to Port Health's Officer a maritime declaration of health countersigned by the ship's medical officer, if required.

Crew List and Passenger List. Master of every ship liable to quarantine should be prepared to furnish Port Health Officer a list of all passengers, showing in respect of each passenger, name, sex, race, age, and port of embarkation; and a list of crew giving the name, race, and rating of each member.
RADIO: Wellington Radio, call sign ZLW; Awarua, call sign ZLB; or Auckland, call sign ZLO.
TUGS: Normally join vessel at Parsons Rock Beacon. Tug lines are used, charge for which is included in the overall hire for tug. Number of tugs required depends on type of vessel and draft.
BERTHING: Requirements for berthing at berths 2, 3, 4, 5, 6 and 7

for vessels over 1,000 tons net are; bow out, the anchor to be used and gangway turned in until vessel secured at berth.

STEVEDORES: Waterside labour can be ordered after arrival of ship at 0630 hrs. up to 0900 hrs. For work on Saturdays orders must be placed by 0900 hrs. Friday. Saturday afternoon work to be ordered by 1030 hrs. Saturday.

For supplementary hours labour must be requisitioned by 1500 hrs. previous Friday and confirmed by 0700 hrs. Monday and daily.

SPECIALISED CARGO HANDLING FACILITIES:

No. 1 Breastwork, Inner Harbour: Grain silos. 2,000 tons capacity, 250 t.p.h. loading rate for coastal shipments.

No. 1 Cashin Quay: Bulk Loading Facilities: Woodchips, grain, etc.

Gladstone Pier, East: Bulk cargo discharges: 5×5-ton electric cranes, 3×100-ton mobile bulk hoppers.

No. 2 West: Roll-on/Roll-off Coastal and Trans-Tasman Cargo Terminal.

No. 2 Jetty West, Inner Harbour: Roll-on/Roll-off, Passengers and Cargo Terminal.

MEDICAL: Hospital facilities are available at Christchurch, 9 miles from port, and international regulations apply in regard to inoculations, vaccinations, etc. Agents can be notified at any time of medical allocation required, preferably with 24 hours notice.

TANKERS: All tankers berth alongside oil wharf in Inner Harbour. One berth only is available with a max. draft of 11.28 m. A 10 in. line is used for discharging and loading with suitable fittings for reduction to 8 in. Slop or oily residue facilities are not available.

Oil hoses can be connected and disconnected during hours of darkness with Harbour Master's permission. Side connections are connected to discharging arms situated at the middle of the oil wharf.

Berthing is generally starboard to, head out.

DENSITY: 1025, salt water.

FRESH WATER: Available at all berths delivered by hose at a discharge rate of 20 t.p.h.

FUEL: Bunkering facilities available: Oiler fuel oil, supplied by 4 in. and 6 in. diameter bunker hose connected to an 8 in. diameter pipeline, located on the oil wharf.

FIRE PRECAUTIONS: Tankers are not permitted to immobilise engines at the oil wharf. Repairs may be carried out at other wharves with Harbour Master's permission. Boiler and galley fires are not required to be extinguished when loading or discharging. All scuppers are to be plugged and cemented in case of spillages.

DEVELOPMENTS: The new container terminal at Cashin Quay No. 3 was first used by "ACT 2" in June 1977 and has the following facilities: Heavy duty berth 285 m., depth alongside 12.2 m., draft 11.28 m., terminal area 8ha, container slots 1600 stacked two high, reefer electrical connections 546, one Paceco 40 tonne single-lift container crane, seven Clark No. 520 straddle carriers – forklifts, container washing and repairs, CFS – No. 2 transit shed 6680 sq.m., Operator – Lyttelton Harbour Board.

GANGWAY/DECK WATCHMEN: All ships must be provided with a watchman whilst at oil wharf; a shore watchman is also required. Watchmen can be ordered at any time by contacting Seamen's Union at Lyttelton.

OPENING/CLOSING HATCHES: This work is carried out by waterside labour.

CUSTOMS ALLOWANCES: 8 ounces and/or 200 cigarettes per man. 1 bottle of wine and/or 1 bottle of spirits per man.

IDENTIFICATION CARDS: Passes are necessary at oil wharf but not required otherwise.

CONSULS: At Christchurch.

Australia	66-221	Japan	60-446
Belgium	77-905	Netherlands	65-669
Denmark	899-099	Norway	65-079
Finland	60-709	Sweden	65-179
France	60-085	U.S.A.	65-864
Italy	62-799		

REPAIRS: Major work can be undertaken at Lyttelton where a machine shop and foundry are available.

DRY DOCK: A graving dock is available for vessels up to 6,500 gross tons and dimensions of dock are floor length 137.15 m., top length 146.75 m., top width 25 m., entrance width 18.90 m., width in way of ships bilge 16.61 m., sill depth at MHWS 6.63 m. A patent slip is available for vessels up to 231 tons.

REPATRIATION: Facilities are available.

AIRPORT: Distance from Christchurch – 6 miles, served by regular airlines.

TIME: Local time is 12 hrs. ahead of GMT, no alteration to clocks.

N.Z. daylight time from 0200 hrs. (NZST) on last Sunday in October until 0200 hrs. (NZST) on the first Sunday in March – 13 hours ahead of GMT.

HOLIDAYS: Holidays throughout year shall be New Year's Day; Anzac Day; Provincial Anniversary Day; Waitangi Day; Good Friday; Easter Monday; Labour Day; Birthday of Reigning Sovereign; Christmas Day; Boxing Day; and the Harbour Board's employees picnic day (to be held on same day as the Waterside Workers' Union picnic day. No cargo work is carried out on these days.)

POLICE/AMBULANCE/FIRE: For emergency calls from ships telephones, dial 111 and ask the operator for service required.

TELEPHONES: Arrangements can be made with Harbour Master for telephones to be placed on board.

SERVICES: Tank-cleaning and tank-washing facilities are available as well as a compass adjuster.

SHORE LEAVE: Crew members are allowed ashore.

AUTHORITY: Lyttelton Harbour Board, Christchurch.

NAPIER: 39.29 S. 176.54 E. (See Plan Book)

DOCUMENTS: See "Auckland".

PILOTAGE: Vessels should advise ETA and draft to Harbour Master Napier 24 hours prior to arrival, ETA to be confirmed or amended 4 hours before original ETA or 4 hours before arrival, whichever first.

VHF pilot boat and watchtower. Listen Channel 16. Work Channel 12.

Pilot boat 45 ft. long, painted white, funnel green over blue with white dividing band and red spoked wheel on white disc and black top. Pilot boards inward vessels on main leads 1 mile East of roadstead buoy.

ANCHORAGES: Anchorage 1 mile East of roadstead buoy. 9 fathoms. Bottom sand and mud.

RESTRICTIONS: Vessels are berthed between 0500 hrs. and sunset. Vessels up to 26 ft. draft may berth at any state of tide.

MAX. SIZE: Max. length OA 680 ft,; beam, no limit; draft, 30 ft. with extension to 31 ft. Subject to beam of vessel and prevailing conditions.

Tanker and bulk carriers berthed at 31 ft. draft. Subject to prevailing conditions and being able to commence discharge immediately on arrival.

Also see "Developments".

HEALTH: Cable port health Napier 24 hours before arrival. Doctor will board on arrival.

RADIO: Cables should be routed through Wellington Radio ZLW. Radio telephone -Napier Watchtower listens 2182 kc/s for 15 mins. Call sign "Napier Harbour Radio" at following times; 0400, 0800, 1200, 1600, 2000, 2400 hrs., and by arrangement. Working frequency is 2162 kc/s. VHF listening watch as above for R/T and continuous during office hours.

TUGS: Two tugs, take tugs' lines inside breakwaters.

BERTHING: Vessels at max. draft limited to HW. Notification must be received before 1500 hrs. on Friday for any shipping movement over weekend and 1500 hrs. on day preceding public holidays.

SPECIALISED CARGO FACILITIES: Wood pulp store situated adjacent Higgins Wharf South, area 126,000 sq. ft. with 27 ft. clear height.

Bulk fertiliser store adjacent Higgins Wharf, capacity 60,000 tons.

Electric power and storage for 240×20 ft. reefers. 30,000 sq. ft. container packing and unpacking shed. 4 acre paved dry box yard. Serviced cleaning yard for 20×20 ft. reefers. Tank for tallow and edible oils being built.

STEVEDORES: ETA required for discharge ships 24 hours before arrival. Loading ships 48 hours before arrival with proposed stowages and vacant spaces. Advice number of gangs able to work. All work done by ship's gear.

MEDICAL: No prior notice required for medical attention. Hospital facilities available. Advice would be needed of any contagious disease on board in advance.

TANKERS: Standard size discharge lines. All connections supplied by oil companies. Five berths, max. draft 31 ft.

DENSITY: 1025.

FRESH WATER: Available all berths 20T per hour per hose.

FUEL: 220 and 1,000 p/sec. Oil available ex-pipe-line at 110 t.p.h. L/Marine diesel and gas oil ex-road tanker. All at immediate notice. Lubricating oil available. 1 weeks notice. No residue service available.

FIRE PRECAUTIONS: Watchman supplied on wharf at ship's expense when tankers discharging.

GANGWAY/DECK WATCHMEN: Cargo watchmen supplied on request at current award rates.

OPENING/CLOSING HATCHES: Hatches normally opened and closed by stevedores unless automatic type.

CERTIFICATES:

Ship's Register
Health Certificate
Cargo Safety Certificate
Radio Safety Certificate
Load Line Certificate

CUSTOMS ALLOWANCES: See "Auckland".

IDENTIFICATION CARDS: Not required.

REPAIRS: First class service available.

REPATRIATION: On arrangement with Customs and vessel's Agents.

AIRPORT: Hawke's Bay Airport, served by internal airline 3 miles from port.

TIME: GMT plus 12 hours.

HOLIDAYS: New Year's Day; 2nd January; Picnic Day (last Monday in January) (vessels berthed but cargo not worked on any of these holidays); Anniversary Day (2nd to last Monday in January); Good Friday; Easter Monday; Anzac Day (25th April); Queen's Birthday (1st Monday in June); Labour Day (nearest Monday 25th October); Christmas Day; Boxing Day.

POLICE/AMBULANCE/FIRE: Emergency telephone 111.

TELEPHONES: Connection all berths.

SHORE LEAVE: No restrictions.

DEVELOPMENTS: Entrance channel being dredged to 12 m. (outer) and 11.5 m. (inner) and basin to 11 m. Kirkpatrick reclamation continuing. Kirkpatrick wharf being extended. Tanks for tallow and edible oils being built. Draft to be extended to 10 m. with later extension to 10.7 m.

AUTHORITY: Hawkes Bay Harbour Board.

NELSON: 41.17 S. 173.17 E. (See Plan Book)

PORT LIMITS: Within 3 miles radius of Nelson Lighthouse.
DOCUMENTS: See "Auckland".
PILOTAGE: Compulsory for vessels of 100 n.r.t. and over. If possible 24 hours notice of ETA to Harbour Master. Confirm ETA before 1600 hrs. Friday if arriving during weekend or public holiday.

Radio telephone 2182 kc/s. and 2162 kc/s., call sign "Nelson Harbour Board" Listening watch 10 minutes every 4 hours commencing at 0000 hrs. After contact has been established a further listening schedule can be arranged.

VHF on Channel 16 listening and Channel 12 working. Pilots board inward-bound vessels about 1.5 to 2 miles to seaward of main entrance.

Anchorage awaiting Pilot in depth about 30 ft., mud, with Boulder Bank lighthouse bearing 130° distance 8 cables. Pilot vessel 40 ft. planing hull, speed 18 knots, painted orange.
ANCHORAGES: Anchorage as indicated in pilotage or further seaward according to weather conditions, draft and length of stay at anchor.
RESTRICTIONS: Vessels may enter, berth, unberth, or leave during hours of darkness. Overseas vessels (over approx. 380 ft.) enter port on flood tide and usually swing and berth port side to.
MAX. SIZE: Max. permissible length 630 ft. Beam no limit. Draft limits 28 ft. Max. draft at Main Wharf is 26 ft.
HEALTH: Doctor clears vessel after berthing. Pratique automatic after clearance at first port. If suspected disease or fever on board advise Medical Officer of Health, Nelson, by radio and await instructions.
RADIO: ZLW Wellington Radio; ZLB Awarua Radio; ZLD Auckland Radio.
TUGS: Two tugs available, joins vessel inside harbour. Tug's own line used on berthing. Tugs are equipped for fire-fighting.
BERTHING: Vessels should endeavour to make their arrival as early on flood tide as possible.
SPECIALISED CARGO-HANDLING FACILITIES: Facilities are available at one general cargo berth for discharging motor spirits and oil. Another berth is used for loading wood chips pneumatically (the loading equipment is owned by Nelson Pine Forest Limited, Nelson). Common user Roll-on/Roll-off Link span.
STEVEDORES: Labour ordered 0700 hrs. for weekday work; 0900 hrs. Friday for Saturday work. ETA should be received by Agents before these times.
MEDICAL: Advise Agents of any medical attention required, giving up to 24 hours notice. Hospital facilities are obtainable. Smallpox vaccination certificates are required.
TANKERS: Diameter of discharge pipe, 10 in. white products; 8 in. black oil. No slop discharge facilities. Oil tanker berth, one only. Max. draft at berth 26 ft.
DENSITY: Average sea water, 1025.
FRESH WATER: Obtainable at any time. Approximately 20 t.p.h. delivery rate.
FUEL: Marine fuel oil, gas oil. Notice required, 24 hours.
GANGWAY/DECK WATCHMAN: Watchman necessary but usually provided by ship's crew. Shore watchman can be engaged if requested by vessel. Cost in accordance with national award.
OPENING/CLOSING HATCHES: By stevedores only.
CUSTOMS ALLOWANCES: See "Auckland".
IDENTIFICATION CARDS: Not required.
REPAIRS: Deck and engine repairs are possible. (No underwater damage repaired.)
DRY DOCKS: Slipway available for up to 1,500 ton vessels.
REPATRIATION: Facilities exist.
AIRPORT: Distance 3 miles. Served by internal airline only.
TIME: GMT plus 12 hours. Daylight saving in Summer months, advance clocks 1 hour.
HOLIDAYS: New Year's Day (1st Jan.); 2nd Jan.; Picnic Day (usually near end Jan.); Anniversary Day (1st Monday in Feb.); New Zealand Day (6th February); Good Friday; Easter Monday; Queen Elizabeth II Day (1st Monday in June); Labour Day (4th Monday in October); Christmas Day; Boxing Day. No cargo work on these days.
POLICE/AMBULANCE/FIRE: Police 88309; Ambulance 88299; Fire 81589; Emergency calls, dial 111.
TELEPHONES: Can be connected on board.
SHORE LEAVE: Allowed.
SHORE POWER: 400 v., 3 h.p. 50 Hz, 60 amps max.
AUTHORITY: The Nelson Harbour Board.

NEW PLYMOUTH, Port Taranaki: 39.03 S. 174.03 E. (See Plan Book)

PORT LIMITS: All waters contained within the area of a circle with radius 2.5 nautical miles whose centre is the trig station on Mount Moturoa in position 39° 03′ 56.8″ S. 174° 01′ 44.9″ E.
DOCUMENTS: *Customs:* See "Auckland".

Agriculture: Shipmaster's Bond List. Meal Locker Declaration Form AGL 36 (2 copies).

Health: Maritime Declaration of Health (issued by Port Health Officer).
PILOTAGE: Compulsory. Telegraphic address "Harbour Master, New Plymouth". 3 days notice preferable with 1 day confirmation. VHF Channel 16. R/T 2182 kc/s.

Pilot boat white with buff deckhouse, either "Rawinia" or "Pilot" in black on side. Pilot taken on board about 1.5 miles due North of Main Breakwater Head.
ANCHORAGE: Vessels can anchor to the West of a line due North from the Main Breakwater head seaward of the 10 fathom line. Good holding on sandy bottom. Not recommended in Northerly weather conditions.
RESTRICTIONS: Ships not berthed during hours of darkness although permitted to sail. Draft max. 30 ft. (9.15 m.) may be exceeded after prior consultation with Harbour Master. Ships under 21 ft. not affected by state of tide. In range 21 ft. to 30 ft. (9.15 m.) time of berthing relevant to high tide.
MAX. SIZE: Max. size 700 ft. (213.4 m.) overall, breadth no limit.
HEALTH: Port doctor boards on arrival at berth. In event of suspected disease on board, will board in pilotage area. Pratique automatic if vessel has already called at another New Zealand port.
RADIO: Radio telephone system operates watches for 15 minutes every 4 hours from midnight. Call sign New Plymouth Harbour Radio, call frequency 2182 kc/s. Working frequency 2012 and 2162 kc/s. 24 hour watch maintained on VHF Channel 16. ETA cables generally received through Wellington Radio. All outward messages routed through Wellington Radio.
TUGS: One tug available. 700 h.p.
BERTHING: In general all ships are swung in basin coming alongside berth stern first. Shore moorings are used.

Breakwater: Length, 122 m.; width, 10 m.; depth alongside LWOST, 5.5 m. For use by oil field barges, supply vessels and fishing vessels. Road transport only.

Moturoa Wharf: Length, 335 m.; width, 27.4 m.

East side of wharf: 1 berth 260 m. long, depth alongside LWOST 10 m. Four 3 tonne portal cranes (5 tonne at reduced radius) 1 berth 76 m. long, depth alongside LWOST 4.9 m.

West side of wharf: 1 berth 137 m. long, depth alongside LWOST 7.9 m. Bunkering point on No. 2 berth. All classes of bulk oil may be discharged at No. 2 berth. Road and rail transport may be used to load and discharge dry cargo.

Newton King Wharf: Being demolished and replaced with jetty for tanker use only. During reconstruction only one tanker berth available on this wharf. Expected completion 1980.

Blyde Wharf: West side of the wharf: length, 426 m., width of apron, 19 m.; width including open storage, 82 m.; depth alongside LWOST, 11 m. Three 2 tonne portal cranes. Rail and road transport may be used to load and discharge cargo. Open hard standings for transit cargo storage are available, a small container facility is provided.

East side of the wharf: Length, 80 m.; width, 5.5 m. and 13.4 m.; depth alongside LWOST, 5.5 m. Road transport only. For use by oil field supply vessels.

One mobile Lima heavy lift crane capacity 70 tons at 12 ft. from wharf edge to 25 tons at 40 ft. from wharf edge available at No. 2 berth, with restricted loading may be used on Blyde No. 1 also.
STEVEDORES: Labour must be engaged between 0700–0900 hrs. Monday to Friday. Agents should be advised ETA at least 24 hours, preferably 72 hours, in order arrange cargo if vessel loading. Normal cargo working hours Monday–Friday 0700–1200, 1300–1700 hrs. Saturday 0700–1200 hrs. Supplementary hours may be worked Monday–Friday. 1700–2300 hrs. if labour available. No work on Sundays.
MEDICAL: Hospital services available.
TANKERS: Black oils 10 in. pipe-line; white oils 8 in. pipe-line. 3 of 4 berths available for tankers, max. draft 30 ft. (9.15 m.). Private deballasting tank available 8,000 tonnes. Condensate S.G. 0.7738 Loading rate about 1,250 t.p.h.
DENSITY: Sea water.
FRESH WATER: Available all berths from main supply at about 100 t.p.h. Cost 42 cents per metric ton.
FUEL: Light fuel oil pipe-line connected all berths, except Blyde Wharf. Gravity fed at about 100 t.p.h. Can be arranged at 24 hours notice.
FIRE PRECAUTIONS: Tanker berths closed to public with Harbour Board watchman in attendance.
DEVELOPMENTS: New reclamation of 23 acres providing berths for 2 overseas vessels. Is now fully operational. These berths are suitable for handling heavy lifts, PAD type roll-on/roll-off vessels, limited container use and a container cleaning installation is provided.
GANGWAY/DECK WATCHMEN: Available but not necessary.
OPENING/CLOSING HATCHES: Stevedores must carry out this work.
CERTIFICATES:

Normal Safety Certificates.
Ship's Register.

CUSTOMS ALLOWANCES: See "Auckland".
IDENTIFICATION CARDS: Not required.
CONSULS: None available locally.
REPAIRS: All repairs except underwater work of a major nature.
REPATRIATION: Facilities exist.
AIRPORT: Is 7 miles from city, 10 miles from port. Served by domestic service only, 2 flights Northbound and Southbound each daily.
TIME: 12 hours ahead of GMT. N.Z. Daylight time observed.
HOLIDAYS: New Year's Day; Stevedores Picnic (4th Wednesday January); Provincial Anniversary Day (2nd Monday March); Good Friday; Easter Monday; Anzac Day (25th April); Queen's Birthday (1st Monday June); Labour Day (4th Monday October); Christmas Day; Boxing Day.
POLICE/FIRE/AMBULANCE: Telephone numbers respectively, 75449, 75505, 75439.
TELEPHONES: Can be connected on board.

GENERAL: Ship's garbage must be in covered containers supplied by Harbour Board and removed daily. Any meats on board vessel on arrival which have been supplied from other than Australia or New Zealand will be sealed off and fresh supplies obtained.
SHORE LEAVE: No restriction.
AUTHORITY: Harbour Master, Taranaki Harbours Board.

AGENT: Newton King Ltd., Shipping Department, 232 Devon Street East, (PO Box 244), New Plymouth, New Zealand. Telegrams, "Kingship". Tel. 75719 (10 lines) Business, 83174 Residence. Telex, N.Z 3275, Answerback "Newking".

ONEHUNGA: 37.03 S. 174.31 E.

PORT LIMITS: All that area of water contained within an area bounded to seaward by an arc of a circle 4 miles radius from the Southern extremity of Paratutai Island.
DOCUMENTS: See "Auckland".
PILOTAGE: Not compulsory, but arrangements can be made with the Harbour Master at Auckland to supply the services of a Pilot if required. A Pilot will then board a vessel off Te Priau, situated about 2 miles N.E. of South Head main light.

Pilotage District: All those waters of the Manukau Harbour contained within a line drawn 180° to the South shore from Jackie Hill on Kaiteke Point 015.5° – 2.85 miles approximately from the Southern extremity of Paratutai Island.

The signal station is equipped with both medium frequency and VHF radiotelephone. Call sign is "Manukau Habour Radio" and VHF Channel, 10, 11, 12, 13, 14 and 16.

Listening watches are maintained as follows—
0800 to 0830 – Call 2182 kHz, work 2012 kHz.
0830 to 0900 – Calling and working 2012 kHz.
1800 to 1830 – Calling 2182 kHz, working 2012 kHz.
1830 to 1900 – Calling and working 2012 kHz.
0800 to 0900 – VHF Channel 16.
1800 to 1900 – VHF Channel 16.
Other times by arrangement.

Note: Should a vessel be crossing the bar during the scheduled watch periods, the signalman will be working on 2012 kHz with that vessel and not listening on 2182 kHz.

Vessels equipped with radiotelephone must maintain contact with the signal station while working the bar.

Weather conditions permitting, information concerning bar conditions will be supplied on request to the signal station. Such information can only be regarded as a guide, as observations are made from the signal station which is situated about 5 miles from the bar and elevated 243.84 m. (800 ft.).

Radiotelephone – Onehunga: A radiotelephone is installed at the office of the Officer-in-Charge at Onehunga. The call sign is "Onehunga Harbour Radio" and the working frequency 2012 kHz.
